Topton, PA 19562

We have performed the Single Audit of the Brandywine Heights Area School District for the fiscal year ended June 30, 2013, and have enclosed the Single Audit reporting package.

The Single Audit was done to fulfill the requirements of OMB Circular A-133, which entailed:

1. An audit of the basic financial statements, and our opinion thereon;
2. A review of compliance and on internal control over financial reporting based on an audit of the financial statements performed in accordance with Governmental Auditing Standards, and our report thereon;
3. An examination of the Schedule of Expenditures of Federal Awards, and our report thereon; and,
4. An opinion on compliance with requirements applicable to each major program and a review of internal control over compliance in accordance with OMB Circular A-133, and our report thereon.

As part of our report, we have enclosed our management letter.

Respectfully submitted,

Gorman & Associates, P.C.

December 4, 2013

GORMAN & ASSOCIATES, P.C.

CERTIFIED PUBLIC ACCOUNTANTS

Members of
American Institute of Certified Public Accountants
Pennsylvania Institute of Certified Public Accountants
Florida Institute of Certified Public Accountants

Board of School Directors
Mr. Andrew M. Potteiger, Superintendent
Brandywine Heights Area School District
200 West Weis Street
Topton, PA 19562

We have audited the financial statements of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of the Brandywine Heights Area School District for the year ended June 30, 2013, and have issued our report thereon dated December 4, 2013.

As stated in our engagement letter, our responsibility, as described by professional standards, is to express opinions about whether your financial statements are fairly presented, in all material respects, in conformity with the U.S. generally accepted accounting principles. Our audit of the financial statements does not relieve you or management of your responsibilities, including having compensating controls in place to ensure our preparation of your financial statements and note disclosures are not materially misstated.

We performed the audit according to the planned scope and timing previously communicated to you in our meeting about planning matter on August 25, 2013.

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by the Brandywine Heights Area School District are described in the notes to the financial statements. No new accounting policies were adopted during this past year and the existing policies were properly applied. We did not discover any transactions entered into by the District that lacked authoritative guidance or consensus. In addition, there are no significant transactions affecting the financial statements that have been recognized incorrectly in the wrong year.

Accounting estimates, which are part of the significant accounting policies, are an integral part of the financial statements and are based on management's knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events may differ significantly from those expected. The most sensitive estimates affecting the financial statements was depreciation taken on capital assets based upon the estimated useful life of each asset and calculated on the straight-line basis of depreciation, and the Actuary's report on Other Post Employment Benefits. We have evaluated the factors and assumptions used to develop these estimates and have determined the estimates to be reasonable in relation to the financial statements taken as a whole.

We wish to inform you that the disclosures in your financial statements are neutral, consistent, and clear. From time to time, certain disclosures are more sensitive than others due to their significance to financial statement users. The most sensitive disclosures involve capital assets and long-term debt.

We have requested certain representations from management that are included in the management representation letter provided to us on December 4, 2013. We advise the governing body to request this letter from management for their review. In conjunction with their representations, we wish to inform you we did not encounter any significant difficulties in dealing with management and had no disagreements with your management. To our knowledge, management did not find a need to converse with any other independent accountant on any related accounting or auditing issue.

In addition, the representation letter provided to us, by management, confirmed there were no uncorrected misstatements. Management has recorded all of our adjusting journal entries, and has agreed to the conversion entries necessary to convert governmental funds and proprietary funds to governmental activities and business-type activities, respectively.

In accordance with auditing standards, generally accepted in the United States of America, we have acquired a sufficient understanding of the District and its environment, including its internal control, to assess the risk of material misstatements of the financial statements whether due to error or fraud, and to design the nature, timing, and extent of further audit procedures that were necessary to express an opinion on the 2012-13 basic financial statements.

Our consideration of the District's internal control components was not designed for the purpose of making detailed recommendations and would not necessarily disclose all significant deficiencies within the components. Our audit procedures have been appropriately adjusted to compensate for any observed significant deficiencies. The following three paragraphs define the three different types of deficiencies that can occur:

A control deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis.

A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented or detected and corrected on a timely basis.

As the primary purpose of our audit is to form an opinion on the basic financial statements, you will appreciate that reliance must be placed on adequate methods of internal control as your principal safeguard against errors and fraud which audit procedures may not disclose. The objective of internal control over financial reporting is to provide reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use and that financial records are reliable for preparing financial statements in accordance with generally accepted accounting principles and for maintaining the accountability for assets. The concept of reasonable assurance recognizes that the cost of internal control should not exceed the related benefits; to operationalize this concept, management is required to formulate estimates and judgments of the cost/benefit ratios of alternative controls.

There are inherent limitations that should be recognized in considering the potential effectiveness of internal control over financial reporting. Errors can result from misunderstanding of instructions, mistakes of judgment, carelessness, fatigue, and other personnel factors. Control procedures whose effectiveness depends upon the segregation of duties can be circumvented by collusion or by management. What's more, any projection of internal control evaluations to future periods is subject to the risk that the procedures may become inadequate because of changes in conditions or due to the deterioration of the degree of compliance with control procedures.

As an adjunct to our audit, we remained alert throughout for opportunities to enhance internal controls and operating efficiency. These matters were discussed with management as the audit progressed and have subsequently been reviewed in detail to formulate practical recommendations. We wish to thank your staff for their courtesies and cooperation, which facilitated the efficient performance of audit procedures. The remainder of this letter will explain any internal control deficiencies discovered during the audit, other auditor recommendations, and other information pertinent to the District.

A control deficiency is determined to be considered a material weakness or significant deficiency based upon the magnitude of the problem as it pertains to a particular opinion unit. In other words, what is considered a significant deficiency in one fund may only be a control deficiency in another fund of greater size.

The following section in this governance/management letter is separated by categories based on importance, with any material weaknesses or significant deficiencies listed in the beginning:

OTHER RECOMMENDATIONS

Activity Funds

During our testing and reviewing of student clubs, we discovered a questionable club called: Varsity Baseball. We are recommending management investigate the purpose of this club, since athletics are not supposed to be student clubs.

Game Receipts

During our testing of gate receipts, we discovered several instances where the cash box was short money at the end of the athletic event. While the majority of these occurrences pertained to small amounts of money, we would like to recommend the District tighten up their controls associated with athletic events by making it mandatory that any shortages be paid for by those individuals collecting monies and selling tickets for that particular event.

Historically, management records all game receipts to one revenue function code in the general ledger. We would like to suggest, management consider creating a separate general ledger revenue account for each sport. This revision will help improve the audit trail from the control forms used for each sporting event to the revenue account in the computer system recording those receipts.

Activity and Scholarship Funds

Historically, management maintains the student clubs and organizations in the same fund as scholarship and memorial award accounts. Since student clubs are agency funds, and scholarship funds are private purpose trust funds according to generally accepted accounting principles, we would like to suggest management consider creating a separate fund and bank account for scholarship funds

ACH Wire Transfers

During our review of issues affecting the use of advanced technology dealing with financial institutions and the potential for fraud that has been happening throughout the world, we have decided to incorporate suggestions to our clients to make sure your anti-fraud controls are up to date dealing with wire transfers. The following represents an extensive list of controls that should be implemented in all organizations. Please review this list with your existing controls:

- 1. Require the bank to limit daily wire transfer amounts.**
- 2. Require two persons to consummate all wire transfers to external parties.**
- 3. If the wire transfer request is by phone or by fax, require the bank to call your organization back before the wire transfer is consummated.**

4. The bank should require the use of unique passwords to access wire-transfer software.
5. Restrict the bank accounts from which a wire transfer can be made.
6. Restrict certain bank accounts so that wire transfers can only be made to other bank accounts of the organization.
7. Have someone peruse the daily bank account activity, at a minimum, reconcile bank accounts in a timely fashion.
8. Require sufficient documentation for all wire transfer journal entries; require a second person review of these journal entries.
9. Consider using a dedicated computer for all wire transfers.
10. Use all bank-provided wire transfer controls.
11. Any transactions over a certain high dollar amount must have the approval of the business manager.

Not using controls offered by banks may make your organization liable should funds be stolen by hackers. Make sure your district uses appropriate firewall and antivirus protection.

If one person can make external wire transfers and journal entries to record those transactions, you have the makings of fraud.

OTHER INFORMATION

We would be remissed if we didn't keep the management and the Board of School Directors informed of changes in accounting principles that will affect the District next year and future years. The Government Accounting Standards Board (GASB) has issued Statement Nos. 67, 68, 69, and 70 that will come into effect in years to come. The statements that could affect the District next year and future years are as follows:

GASB Statement No. 68

This statement and its component statement no. 67 will have a massive impact on all governments' entity-wide financial statements. It will affect every government in the Commonwealth of PA and every other government located in all 50 states, including state governments.

It will require all governments to report the entire amount of the unfunded actuarial liability for any pension plans associated with each respective government onto their government-wide financial statements that are used by bond rating agencies to establish your debt ratings. Presently, governments only report approximately one-thirtieth of this liability on their financial statements assuming they have a stand-alone pension plan.

Those governments, like this School District, that don't report any pension obligation because they and you belong to a pension trust (PSERS), will soon have to report your proportionate share of the pension trust's unfunded actuarial pension liability. Your proportionate share of this significant liability will be based upon the percentage of your contributions into the plan compared to the total contributions submitted by all participating governments in the pension trust.

This standard will have a devastating effect for larger governments, whom are already in dire straits as a result of the poor economy. This standard becomes effective for your 2014-2015 fiscal year.

GASB Statement No. 69

This new accounting standard explains the proper accounting treatment of government mergers, acquisitions, transfer of operations, and disposals of government operations. In the current economic climate, there is much discussion on merging governments or transferring operations from one government entity to another. As a result, the Standards Board deliberated the proper financial recognition of assets, liabilities, deferred outflow or inflow of resources, and net position affected by such transactions. This standard takes effect in the 2014-15 fiscal year.

GASB Statement No. 70

This new accounting standard takes effect in the 2013-14 fiscal year. It pertains to governments extending non-exchange financial guarantees. As an example, when a school district creates a financing authority, then this Statement will apply. It requires governments extending financial guarantees on debt issued by another government to make certain disclosures in their notes to financial statements, and the government issuing the debt to also make certain disclosures.

In addition, the Statement provides criteria when a liability should be recorded on the Statement of Net Position for the guarantor government, and when the issuing government should reclassify its debt. It also provides guidance on the proper handling when the issuing government reimburses the guarantor government.

This letter is required by our standards and has been combined with, what we previously referred to as the management letter. The intent of this letter is to communicate with those charged with governance on matters pertaining to the audit and includes information that we believe can help you correct or improve operating efficiency, under the limitations of staff availability, within the School District.

Respectfully submitted,

Norman Associates, P.C.

FINANCIAL SECTION

INDEPENDENT AUDITOR'S REPORT

Board of School Directors
Brandywine Heights Area School District
200 West Weiss Street
Topton, PA 19562

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, the aggregate remaining fund information, and the general fund budgetary comparison statement of the Brandywine Heights Area School District, as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to error or fraud.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, the aggregate remaining fund information, and the general fund budgetary comparison statement of the Brandywine Heights Area School District, as of June 30, 2013, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 2-F to the financial statements, the Brandywine Heights Area School District adopted new accounting guidance from GASB Statement Nos. 63 and 65 for the 2012-13 fiscal year. Our opinion is not modified with respect to these pronouncements.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis on pages 11-22, and the Schedule of Funding Progress, on page 72, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Brandywine Heights Area School District's basic financial statements. The *combining and individual fund statements and schedules, and schedule of expenditures of federal awards, as required by Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations* are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The *combining and individual fund financial statements, schedules, and the schedule of expenditures of federal awards* are the responsibility of management and were derived from and related to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, *the combining and individual fund financial statements, schedules, and the schedule of expenditures of federal awards* are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 4, 2013, on our consideration of the Brandywine Heights Area School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Brandywine Heights Area School District's internal control over financial reporting and compliance.

Respectfully submitted,

December 4, 2013

BRANDYWINE HEIGHTS AREA SCHOOL DISTRICT
Topton, Pennsylvania

MANAGEMENT'S DISCUSSION AND ANALYSIS (MD&A)
Required Supplementary Information (RSI)
(UNAUDITED)
For the Fiscal Year Ended June 30, 2013

The discussion and analysis of Brandywine Heights Area School District's financial performance provides an overall review of the District's financial activities for the fiscal year ended June 30, 2013. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the notes to the basic financial statements and the financial statements to enhance their understanding of the District's financial performance.

The Management Discussion and Analysis (MD&A) is an element of the reporting model adopted by the Governmental Accounting Standards Board (GASB) in their Statement No. 34 Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments issued June 1999.

FINANCIAL HIGHLIGHTS

The District's overall financial position, as represented by total net position of \$23,811,844, reflected a 14.39% increase over the prior year. The increase was due to the scheduled \$2,505,000 reduction in bonds payable offset by other changes in net position.

The real estate tax increased 2.3% over the previous year which was equal to the published 2.1% Act 1 Index for Brandywine Heights Area School District plus 0.2% in approved Act 1 Referendum Exception – Retirement Contributions.

In governmental funds, the total general fund's fund balance increased \$1,973,007 to \$7,102,334. The General Fund budget included a zero-net change in fund balance for the fiscal year. The \$1,973,007 variance between budget and actual resulted primarily from a combination of unanticipated increases in the beginning fund balance, deferred maintenance projects, student transportation efficiencies, outsourcing technology services, additional state and federal revenues, staffing changes that occurred after the budget was approved, and the nonuse of the budget reserve appropriation. Actual total revenues were 100.02% of original budgeted revenues and actual total expenditures excluding budgetary reserve were 93.8% of original budgeted expenditures.

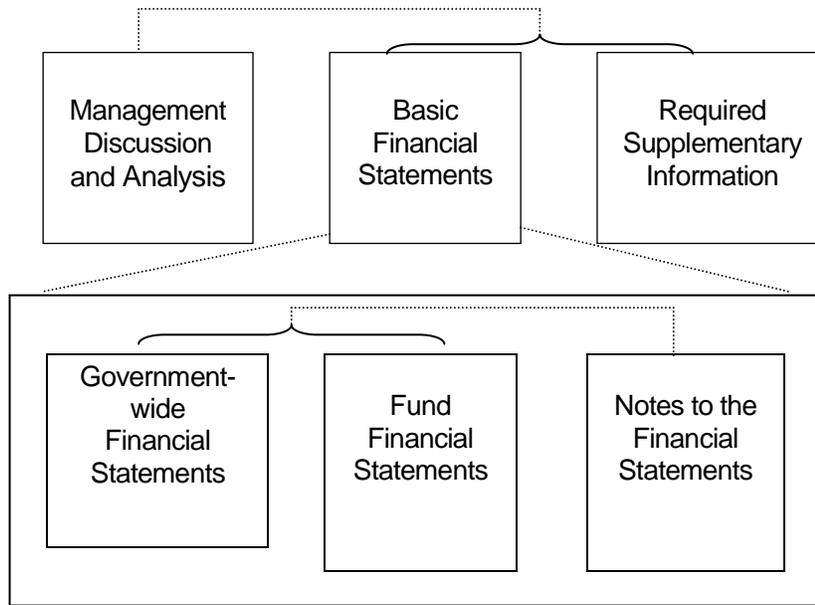

The remaining statements are fund financial statements that focus on individual parts of the District's operations in more detail than the government-wide statements. The governmental funds statements tell how general District services were financed in the short term as well as what remains for future spending. Proprietary fund statements offer short-term and long-term financial information about the activities that the District operates like a business. For this District this is our Food Service Fund. Fiduciary fund statements provide information about financial relationships where the District acts solely as a trustee or agent for the benefit of others, to whom the resources in question belong.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data.

BRANDYWINE HEIGHTS AREA SCHOOL DISTRICT
Management's Discussion and Analysis

OVERVIEW OF FINANCIAL STATEMENTS

Government-wide Statements

The government-wide statements report information about the District as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government's assets, deferred outflow of resources, liabilities, and deferred outflow of resources. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the District's net position and how they have changed net position, the difference between the District's assets, deferred outflow of resources, liabilities, and deferred inflow of resources, are one way to measure the District's financial health or position.

Over time, increases or decreases in the District's net position are an indication of whether its financial health is improving or deteriorating, respectively.

To assess the overall health of the District, you need to consider additional non-financial factors, such as changes in the District's property tax base and the performance of the students.

The government-wide financial statements of the District are divided into two categories:

- Governmental activities – All of the District's basic services are included here, such as instruction, administration, and community services. Property taxes and state and federal subsidies and grants finance most of these activities.
- Business type activities –The District operates a food service operation and charges fees to students and staff to help it cover the costs of the food service operation.

Fund Financial Statements

The District's fund financial statements provide detailed information about the most significant funds – not the District as a whole. Some funds are required by state law and by bond requirements.

Governmental funds – Most of the District's activities are reported in governmental funds, which focus on the determination of financial position and change in financial position, not on income determination. They are reported using an accounting method called modified accrual accounting, which measures cash and all other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's operations and the services it provides. Governmental fund information helps the reader determine whether there are more or fewer financial resources that can be spent in the near future to finance the District's programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the financial statements.

Proprietary funds – These funds are used to account for the District activities that are similar to business operations in the private sector; or where the reporting is on determining net income, financial position, changes in financial position, and a significant portion of funding through user charges. When the District charges customers for services it provides – whether to outside customers or to other units in the District – these services are generally reported in proprietary funds. The Food Service Fund is the District's proprietary fund and is the same as the business-type activities we report in the government-wide statements, but provide more detail and additional information, such as cash flows.

BRANDYWINE HEIGHTS AREA SCHOOL DISTRICT
Management's Discussion and Analysis

Fiduciary funds - The District is the trustee, or fiduciary, for some scholarship funds and student clubs and organizations. All of the District's fiduciary activities are reported in separate Statements of Fiduciary Net Position. We exclude these activities from the District's other financial statements because the District cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE DISTRICT AS A WHOLE

The District's total net position was \$23,811,844 at June 30, 2013.

Table A-1
Net Position
As of June 30, 2013 and June 30, 2012

Management's Discussion and Analysis

The results of this year's operations as a whole are reported in the Statement of Activities. All expenses are reported in the first column. Specific charges, grants, revenues and subsidies that directly relate to specific expense categories are represented to determine the final amount of the District's activities that are supported by other general revenues. The two largest general revenues are the local taxes assessed to community taxpayers and the Basic Education Subsidy provided by the State of Pennsylvania.

Table A-2 takes the information from that Statement, rearranges it slightly, so you can see our total revenues for the year.

The Statement of Revenues, Expenses and Changes in Fund Net Position for this proprietary fund will further detail the actual results of operations.

THE DISTRICT FUNDS

At June 30, 2013, the District governmental funds reported a combined fund balance of \$7,224,353, which is a increase of \$1,623,534. The major changes are:

General Fund:

The General Fund balance increased by \$1,973,007 to \$7,102,334. This is \$3,504,196 over the original budget's ending fund balance. The actual expenditures were \$1,767,188 or 6.2% under budget, the revenues were \$6,799 or 0.02% over budget and the beginning fund balance was \$1,531,189 or 42.55% over budget.

The expenditure variance represents the unused budgetary reserve \$200,000 and unused appropriations for salaries/benefits \$812,000, savings in operations/maintenance of \$348,000, and savings in student transportation contracted services of \$290,000.

The revenue variance resulted from additional state and federal revenues not anticipated at the time of the budget adoption offset by local tax revenues less than anticipated.

Local tax revenue provides approximately 67% of the District's total revenues. These revenues are difficult to budget for because changing economic conditions directly impact both the basis and current collection rates. These revenues include real estate, interim real estate, delinquent real estate, earned income, real estate transfer, per capita, delinquent per capita, and occupation privilege taxes.

The beginning fund balance variance resulted from the debt service interest savings due to refinancing, savings in student transportation and operations/maintenance, and overestimation of salary/benefit expenses in the prior year.

The increases in the governmental funds combined fund balance were off-set by a decrease of \$349,473 in the capital projects fund balance. The decrease is a result of project expenditures to replace the roof on the elementary and intermediate/middle schools, upgrade electrical and lighting in the same two schools, and to improve security in all of the schools. The major project is complete and remaining funds in the capital projects fund will be expended in the 2013-2014 fiscal year.

**BRANDYWINE HEIGHTS AREA SCHOOL DISTRICT
Management's Discussion and Analysis**

Business Type Activity:

The food service program reduced loss of \$35,033 at June 30, 2013, before the \$11,000 transfer from the General Fund. A portion of the General Fund transfer in the 2011-2012 fiscal year was to purchase a point of service system. The initial expense for the system was in 2011-2012, but \$15,423 was not expended until the 2012-2013 fiscal year. The District entered into a contract for food service consulting in December 2012 to provide guidance to the food service program. The food service director position was eliminated and duties not covered by the consulting contract were transferred to the Business Manager. The goal is to have a self-sufficient food program by the end of the 2013-14 fiscal year.

The \$11,000 general fund transfer to food service was to help pay for the cost of equipment repairs.

CAPITAL ASSET AND DEBT ADMINISTRATION

CAPITAL ASSETS

At June 30, 2013, the District had \$42,642,165 invested in a broad range of capital assets, including land, buildings, furniture, equipment, and vehicles. This amount represents a net decrease (including additions, deletions and depreciation) of \$804,016, or 1.85% from last year.

**Table A-5

Other obligations include accrued vacation pay and sick leave for specific employees of the District. More detailed information about our long-term liabilities is included in the notes to the financial statements.

BRANDYWINE HEIGHTS AREA SCHOOL DISTRICT
Management Discussion and Analysis

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The District's general obligation bond rating dated April 2011 is a Standard and Poor's AA+ (Stable Outlook) and A+ Stable underlying rating. The AA+ rating is based upon the additional security for bonds provided by a policy by AGM guaranteeing the payment when due of principal and interest on 2011 bonds issued.

The revenue budget for the 2013-2014 year is \$968,606 more than the original budget for 2012-2013. This represents 3.4% increase in budgeted revenues. The District's real estate tax rate increase of 2.1% was levied to offset increases to the districts retirement fund obligations, increases in medical coverage costs, and to produce a budget that requires minimal use of fund balance. The District exceeded the Act 1 Index 1.3% by using a portion of an approved index exception for retirement fund costs.

For the sixth consecutive year state gaming funds will be available to provide tax relief for qualified homestead and farmstead properties. The district received \$788,798 which was passed on to provide approximately \$218 in tax relief to 3,613 property owners.

The expenditure budget increased \$1,168,604 to \$29,791,204 inclusive of no pay increase for any employee group, 5.5% increase in health insurance, and 38% increase in retirement system funding. The District participates in a consortium of school districts for employee health coverage. In an effort to better control the cost of health coverage, the group converted to a self-funded plan July, 1, 2012. The district is currently negotiating contracts with unionized teachers and support staff.

Looking Forward

Financial planning for 2014-15 and beyond will become more challenging. The combined effects of economic conditions resulting in flat or declining tax revenues, historically low short term interest rates, and declining state and federal funding along with projected increases in health benefits 10%, retirement system funding increasing to 21.31% for 2014-2015 (up from 16.93% to 2013-14) and potential increases in salaries may require a significant increase in real estate tax rates. The difficulty is that our current Act 1 tax increase limit of 2.1% is scheduled to increase to only 2.6% for 2014-15 resulting in a need to use index exceptions, if available, or go to a public tax referendum. The district is currently negotiating with unionized support staff and professional staff. The results of those negotiations will impact future budgets. The comparison of revenue and expenditure categories is as follows:

The Accompanying Notes are an integral part of these financial statements.

**Brandywine Heights Area School District
Reconciliation of the Governmental Funds Balance Sheet
to the Statement of Net Position
As of June 30, 2013**

TOTAL FUND BALANCES - GOVERNMENTAL FUNDS \$ 7,224,353

**Amounts reported for governmental activities in the statement
of net position are different because:**

Capital assets used in governmental activities are not financial resources and therefore are not reported as assets in governmental funds. The cost of the assets is \$57,931,166 and the accumulated depreciation is \$15,374,344. 42,556,822

Additional receivables established that do not meet the availability criteria reflected in the fund financial statements. This amount represents the difference between the prior year receivables and the current year receivables established under the accrual basis of accounting. -

Property taxes receivable will be collected this year, but are not available soon enough to pay for the current period's expenditures and therefore are deferred in the funds. 927,109

This represents deferred outflow of resources resulting in deferred charges on refunding prior bond issues. This amount was previously reported as a contra to Bonds Payable under long-term debt; however GASB Statement No. 65 changed the classification of this item to deferred outflow of resources. 521,068

The governmental funds follow the purchase method of inventory; therefore no inventory is reflected on the balance sheet. However, the statement of net position uses the consumption method of inventory. 22,872

Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported as liabilities in the funds. Long-term liabilities at year end consist of:

Bonds and Notes payable	\$ (26,777,075)	
Accrued interest on the bonds	(220,384)	
Compensated absences	(42,851)	
Net OPEB Obligation	(354,397)	
Other Post Retirement Benefits	(210,026)	(27,604,733)

TOTAL NET POSITION - GOVERNMENTAL ACTIVITIES **\$ 23,647,491**

**Brandywine Heights Area School District
Reconciliation of the Governmental Funds
Statement of Revenues, Expenditures, and Changes in Fund Balances
to the Statement of Activities
For the Year Ended June 30, 2013**

NET CHANGE IN FUND BALANCES - GOVERNMENTAL FUNDS \$ 1,623,534

Amounts reported for governmental activities in the statement of activities are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current period.

	Depreciation expense	\$ 1,050,589	
	less - capital outlays	<u>338,689</u>	(711,900)

In the statement of activities, only the gain on the sale of the capital assets is reported, whereas in the governmental funds, the proceeds from the sale increase financial resources. Thus, the change in net position differs from the change in fund balance by the cost of fixed assets sold. -

Because some property taxes will not be collected for several months after the District's fiscal year ends, they are not considered as "available" revenues in the governmental funds. Deferred inflow of resources increased by this amount this year. (32,842)

Repayment of bond and lease principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. 2,505,000

In the statement of activities, certain operating expenses--compensated absences (vacations) and special termination benefits (early retirement)--are measured by the amounts earned during the year. In the governmental funds; however, expenditures for these items are measured by the amount of financial resources used. This amount represents the difference between the amount earned versus the amount used. (29,781)

SUB-TOTAL IN CHANGES BETWEEN BASIS OF ACCOUNTING **3,354,011**

**Brandywine Heights Area School District
 Reconciliation of the Governmental Funds
 Statement of Revenues, Expenditures, and Changes in Fund Balances
 to the Statement of Activities
 For the Year Ended June 30, 2013**

SUB-TOTAL IN CHANGES BETWEEN BASIS OF ACCOUNTING \$ 3,354,011
 (cont'd)

Interest on long-term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requires the use of current financial resources. In the statement of activities, interest expense is recognized as the interest accrues, regardless of when it is due. This would include accumulated interest accreted on capital appreciation bonds. The additional interest accrued in the statement of activities over the amount due is shown here. (68,698)

In the statement of activities, certain operating revenues are recognized when earned versus the revenues using the modified accrual basis of accounting in the fund statements that are recognized when the funds are available. As such, the amount shown here represents the difference between earned revenues and revenues that are earned, but not available. -

Bond proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Refunding bond issues becomes a use of current financial resources in governmental funds, but refundings represent payments of long-term debt in the statement of net position. This figure represents the difference between bond proceeds and refunding payments made to paying agents. -

The governmental funds use the purchase method of inventory, where all items purchased are charged to expenditures. However, the statement of activities is reflected on the consumption method of recording inventory type items; therefore, this adjustment reflects the inventory difference. 5,458

CHANGES IN NET POSITION OF GOVERNMENTAL ACTIVITIES **\$ 3,290,771**

Brandywine Heights Area School District
Notes To Basic Financial Statements
Fiscal Year Ended June 30, 2013

Note 1 - Description of the School District and Reporting Entity

School District

The Brandywine Heights Area School District is located in Tipton, Pennsylvania. The District tax base consists of the Borough of Tipton and the Townships of District, Longswamp, and Rockland.

The Brandywine Heights Area School District is a unit established, organized, and empowered by the Commonwealth of Pennsylvania for the express purpose of carrying out, on the local level, the Commonwealth's obligation to public education, as established by the constitution of the Commonwealth and by the School Law Code of the same (Article II; Act 150, July 8, 1968).

As specified under the School Law Code of the Commonwealth of Pennsylvania, this and all other school districts of the state "shall be and hereby are vested as, bodies corporate, with all necessary powers to carry out the provisions of this act." (Article II, Section 211).

Board of School Directors

The public school system of the Commonwealth shall be administered by a board of school directors, to be elected or appointed, as hereinafter provided. At each election of school directors, each qualified voter shall be entitled to cast one vote for each school director to be elected.

The Brandywine Heights Area School District is governed by a board of nine School Directors who are residents of the School District and who are elected every two years, on a staggered basis, for a four-year term.

The Board of School Directors has the power and duty to establish, equip, furnish, and maintain a sufficient number of elementary, secondary, and other schools necessary to educate every person, residing in such district, between the ages of six and twenty-one years, who may attend.

In order to establish, enlarge, equip, furnish, operate, and maintain any schools herein provided, or to pay any school indebtedness which the school district is required to pay, or to pay any indebtedness that may at any time hereafter be created by the school district, the board of school directors are vested with all the necessary authority and power annually to levy and collect the necessary taxes required and granted by the legislature, in addition to the annual State appropriation, and are vested with all necessary power and authority to comply with and carry out any or all of the provisions of the Public School Code of 1949.

Administration

The Superintendent of Schools shall be the executive officer of the Board of School Directors and, in that capacity, shall administer the School District in conformity with Board policies and the School Laws of Pennsylvania. The Superintendent shall be directly responsible to, and therefore appointed by, the Board of School Directors. The Superintendent shall be responsible for the overall administration, supervision, and operation of the School District.

The Director of Business and Fiscal Affairs, recommended by the Superintendent and appointed by the Board of School Directors, shall supervise and coordinate all business aspects of the School District. In this capacity, he or she shall be responsible to insure that all work accomplished by him/her, or by persons under his/her supervision, is in the best interests of the Brandywine Heights Area School District. The Director of Business and Fiscal Affairs is directly responsible to the Superintendent.

Brandywine Heights Area School District

Reporting Entity

A reporting entity is comprised of the primary government, component units, and other organizations that are included to insure that the financial statements of the School District are not misleading. The primary government consists of all funds, departments, boards, and agencies that are not legally separate from the School District. For Brandywine Heights Area School District, this includes general operations, food service, and student related activities of the School District.

Brandywine Heights Area School District is a municipal Corporation governed by an elected nine-member board. As required by generally accepted accounting principles, these financial statements are to present Brandywine Heights Area School District (the primary government) and organizations for which the primary government is financially accountable. The School District is financially accountable for an organization if the School District appoints a voting majority of the organization's governing board and (1) the School District is able to significantly influence the programs or services performed or provided by the organization; or (2) the School District is legally entitled to or can otherwise access the organization's resources; the School District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the School District is obligated for the debt of the organization. Component units may also include organizations that are financially dependent on the School District in that the School District approved the budget, the issuance of debt, or the levying of taxes. The Brandywine Heights Area School District does not have any component units.

Joint Ventures

Berks Vocational-Technical School d/b/a Berks Career and Technology Center

The School District is a participating member of the Berks Career and Technology Center. The Berks Career and Technology Center is run by a joint committee consisting of members from each participating district. No participating district appoints a majority of the joint committee. The board of directors of each participating district must approve the Berks Career and Technology Center's annual operating budget. Each participating district pays a pro-rata share of the District's operating costs based on the number of students attending the Center for each district. The District's share of the Center's operating costs for 2012-2013 was \$684,466. During the 1998-99 fiscal year, the by-laws of the Center were amended to state that any school district terminating their active participation in paying ongoing operating costs and debt, shall cease being a participating member district and shall have no further obligation to the Center.

On dissolution of the Berks Career and Technology Center, the net position of the Center will be shared on a pro-rata basis of each participating district's current market value of taxable real property as certified by the Pennsylvania State Tax Equalization Board. However, the District does not have an equity interest in the Center as defined by GASB Statement No. 14 except a residual interest in the net position upon dissolution that should not be reflected on the basic financial statements. Complete financial statements for the Center can be obtained from the District's administrative office at 1057 County Road, Leesport, PA 19533.

Jointly Governed Organizations

Berks County Intermediate Unit

The School District is a participating member of the Berks County Intermediate Unit (BCIU). The BCIU is run by a joint committee consisting of members from each participating district. No participating district appoints a majority of the joint committee. The board of directors of each participating district must approve the BCIU's annual operating budget. The BCIU is a self-sustaining organization that provides services for fees to participating districts. As such, the District has no on-going financial interest or responsibility in the BCIU. The BCIU contracts with participating districts to supply special education services, computer services, and serves as a conduit for certain federal programs.

Fiscal Year Ended June 30, 2013

Note 2 - Summary of significant accounting policies

The financial statements of the District have been prepared in accordance with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the standard-setting body for governmental accounting and financial reporting. On June 15, 1987, the GASB issued a codification of the existing Governmental Accounting and Financial Reporting Standards which, along with subsequent GASB pronouncements (Statements and Interpretations), constitutes GAAP for governmental units. The more significant of these accounting policies are described below and, where appropriate, subsequent pronouncements will be referenced. GASB Statement No. 62 was issued to include all prior Financial Accounting Standards Board's statements and interpretations, along with predecessors' statements and interpretations, pertaining to governments into the hierarchy of the Governmental Accounting Standards Board's jurisdiction.

A. Basis of Presentation

The School District's basic financial statements consist of government-wide statements, including a statement of net position, a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Government-wide Financial Statements The statement of net position and the statement of activities display information about the School District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements distinguish between those activities of the School District that are governmental and those that are considered business-type activities.

The statement of net position presents the financial condition of the governmental and business-type activities of the School District at year-end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the School District's governmental activities and for one business-type activity of the School District. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program, and interest earned on grants that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the School District, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each business activity or governmental function is self-financing or draws from the general revenues of the School District.

Fund Financial Statements During the year, the School District segregates transactions related to certain School District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the School District at this more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a separate column. Non-major funds are aggregated and presented in a single column. The fiduciary funds are reported by type.

B. Fund Accounting

The School District uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self balancing set of accounts. There are three categories of funds: governmental, proprietary, and fiduciary.

Governmental Funds Governmental funds are those through which most governmental functions typically are financed. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Deferred Outflow of Resources is recorded in a particular governmental fund where costs are spent for a future period. Current Liabilities are assigned to the governmental fund from which they will be paid. Deferred Inflow of Resources is recorded in a particular governmental fund that has received resources for a future period. The difference between the

Brandywine Heights Area School District
Notes To Basic Financial Statements
Fiscal Year Ended June 30, 2013

sum of assets and deferred outflow of resources minus the sum of liabilities and deferred inflow of resources is reported as fund balance. The following are the School District's major governmental funds:

General Fund

The general fund should be used to account for and report all financial resources not accounted for and reported in another fund.

Proprietary Funds Proprietary funds focus on the determination of changes in net position, financial position and cash flows and are classified as enterprise funds.

Enterprise Funds Enterprise funds may be used to account for any activity for which a fee is charged to external users for goods or services. The School District's major enterprise fund is:

Food Service Fund - This fund accounts for the financial transactions related to the food service operations of the School District.

Fiduciary Funds Fiduciary funds reporting focuses on net position and changes in net position. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private-purpose trust funds and agency funds. Trust funds are used to account for assets held by the School District under a trust agreement for individuals, private organizations, or other governments and are therefore not available to support the School District's own programs. The School District's only trust fund is a private purpose trust. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results of operations.

C. Measurement Focus

Government-wide Financial Statements The government-wide financial statements are prepared using the economic resources measurement focus. All assets, deferred outflow of resources, liabilities, and deferred inflow of resources associated with the operation of the School District are included on the statement of net position.

Fund Financial Statements All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet, along with deferred outflow of resources or deferred inflow of resources required to be reported. The statement of revenues, expenditures, and changes in fund balances reports on the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include reconciliation's with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

Like the government-wide statements, all enterprise funds are accounted for on a flow of economic resources measurement focus. All assets and all liabilities, including required deferred outflow of resources or required deferred inflow of resources, associated with the operation of these funds are included on the statement of net position. The statement of revenues, expenses, and changes in fund net position presents increases (i.e., revenues) and decreases (i.e., expenses) in net total position. The statement of cash flows provides information about how the School District finances and meets the cash flow needs of its enterprise activities.

Brandywine Heights Area School District
Notes To Basic Financial Statements
Fiscal Year Ended June 30, 2013

D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Government funds use the modified accrual basis of accounting. Proprietary and fiduciary funds also use the accrual basis of accounting. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred inflow of resources, and in the presentation of expenses versus expenditures.

Revenues - Exchange and Non-Exchange Transactions. Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year.

Non-exchange transactions, in which the School District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. Revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted, matching requirements, in which the School District must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the School District on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

E. Budgetary Process

An operating budget is adopted prior to the beginning of each year for the General Fund on the modified accrual basis of accounting. The General Fund is the only fund for which a budget is legally required.

In accordance with Act 1 of 2006, the Board shall annually, but not later than the first business meeting of January, decide the budget option to be used for the following fiscal year. The Board shall approve either the Accelerated Budget Process Option or the Board Resolution Option.

Accelerated Budget Process Option

Under this option, a preliminary budget must be prepared 150 days prior to the primary election. Under this Option, the preliminary budget must be available for public inspection at least 110 days prior to the primary election. The Board shall give public notice of its intent to adopt the preliminary budget at least 10 days prior to the adoption. The adoption must occur at least 90 days prior to the primary election.

If the preliminary budget exceeds the increase authorized by the Index, an application for an exception may be filed with either a Court of Common Pleas with jurisdiction or PDE and made available for public inspection. The Board may opt to forego applying for an exception by submitting a referendum question seeking voter approval for a tax increase, in accordance with Act 1. The final budget shall include any necessary changes from the adopted preliminary budget. Any reduction required as the result of the failure of referendum shall be clearly stated. The final budget shall be made available for public inspection at least 20 days prior to final adoption. The Board shall annually adopt the final budget by a majority vote of all members of the Board prior to June 30.

Brandywine Heights Area School District
Notes To Basic Financial Statements
Fiscal Year Ended June 30, 2013

Board Resolution Option

Under the Board Resolution Option, the Board shall adopt a resolution that it will not raise the rate of any tax for the following fiscal year by more than the Index. Such resolution shall be adopted no later than 110 days prior to the primary election. At least 30 days prior to adoption of the final budget the Board shall prepare a proposed budget. The proposed budget shall be available for public inspection at least 20 days prior to adoption of the budget. The Board shall give public notice of its intent to adopt at least 10 days prior to adoption of the proposed budget. The Board shall annually adopt the final budget by a majority vote of all members of the Board by June 30.

Legal budgetary control is maintained at the sub-function/major object level. The PA School Code allows the School Board to make budgetary transfers between major function and major object codes only within the last nine months of the fiscal year, unless there is a two-thirds majority of the Board approving the transfer. Appropriations lapse at the end of the fiscal period. Budgetary information reflected in the financial statements is presented at or below the level of budgetary control and includes the effect of approved budget amendments.

The amounts reported as the original budgeted amounts in the budgetary statements reflect the amounts in the PDE 2028 when the original appropriations were adopted. The amounts reported as the final budgeted amounts in the budgetary statements reflect the amounts after all 2012-13 budget transfers.

F. Change in Accounting Principles

During the 2012-13 fiscal year the District implemented the required GASB Statement No. 63, which establishes five (5) elements to the financial position statement previously known as the Statement of Net Assets, and now known as the Statement of Net Position. The five (5) elements are: Assets, Deferred Outflow of Resources, Liabilities, Deferred Inflow of Resources, and Net Position. The definition of these elements can be found in GASB Concepts Statement No. 4; however, a deferred outflow of resources is a consumption of net assets by the government that is applicable to a future reporting period. A deferred inflow of resources is an acquisition of net assets by the government that is applicable to a future reporting period.

In addition, the District has chosen to early implement GASB Statement No. 65, which was issued to explain what items previously classified as assets and liabilities will now be classified as deferred outflow of resources and deferred inflow of resources. As such, previously unamortized bond issuance costs are being adjusted to expense on the Statement of Activities because Statement No. 65 now requires bond issuance costs to be expensed in the year incurred. Also, deferred charges on refundings of bond issues has been reclassified by GASB Statement No. 65 from a contra of bonds payable to a deferred outflow of resources.

G. Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

H. Assets, Liabilities, and Net Position

Cash and Cash Equivalents

For purposes of the Statement of Cash Flows, the Proprietary Fund type considers all highly liquid investments with a maturity of three months or less, when purchased, to be cash equivalents.

Brandywine Heights Area School District
Notes To Basic Financial Statements
Fiscal Year Ended June 30, 2013

Investments

In accordance with GASB Statement 31, investments are stated at fair value, except:

- a) Non-participating interest earning investment contracts are recorded at amortized cost;
- b) Money market investments and participating interest earning investment contracts that mature within one year of acquisition are recorded at amortized cost; and,
- c) Investments held in 2a7-like pools (Pennsylvania Local Government Investment Trust, Pennsylvania Treasurer's Invest Program, and Pennsylvania School District Liquid Asset Fund) are recorded at the pool's share price.

Receivables and Payables

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds". Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

Property Tax Levy

Property taxes, which were levied during the fiscal year ended June 30, 2013, are recognized as revenue in the fund financial statements when received by the District during the fiscal year and also estimated to be received by the District within sixty (60) days after the fiscal year ended.

Property taxes that were levied during the current fiscal year, which are not estimated to be received within sixty (60) days after the fiscal year-end, are recorded as receivable and deferred inflow of resources in the fund financial statements.

In the government-wide financial statements, all property taxes levied during the fiscal year are recognized as revenue, net of estimated uncollectible amount.

Inventories

On government-wide financial statements, inventories are presented at the lower of cost or market on a first-in, first-out basis, and are expensed when used. A physical inventory taken at June 30, 2013, shows \$22,871 as an asset in the governmental activities column of the government-wide statement of net position; a physical inventory taken at June 30, 2013, shows \$21,635 as an asset in the business-type activities column of the government-wide statement of net position.

Inventory type items in governmental funds utilize the purchase method, that is, they are charged to expenditures when purchased; therefore, there is no inventory shown on the governmental funds balance sheet.

**Brandywine Heights Area School District
Notes To Basic Financial Statements
Fiscal Year Ended June 30, 2013**

Inventory type items in Proprietary Funds use the consumption method, in which items are purchased for inventory and charged to expenses when used. The only Proprietary Fund of the District is the Food Service Fund. Inventory within this fund consists of donated commodities, which are valued at U.S.D.A.'s approximate costs, and purchased food. Inventories on hand at June 30, 2013, consist of:

Purchased Food	\$ 19,487
Supplies	2,148
TOTAL	\$ 21,635

Prepaid Expenses

In both the government-wide and fund financial statements, prepaid expenses are recorded as assets in the specific governmental fund in which future benefits will be derived.

Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary funds. These assets generally result from expenditures in the governmental funds. These assets are reported in the governmental activities column of the government-wide statement of net position, but are not reported in the fund financial statements. Capital assets utilized by the enterprise funds are reported both in the business-type activities column of the government-wide statement of net position and in the respective funds.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated fixed assets are recorded at their fair market values as of the date received. The School District maintains a capitalization threshold of two thousand-five hundred (\$2,500) dollars. The School District does not possess any infrastructure. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not. Interest incurred during the construction of capital assets utilized by the enterprise funds is also capitalized.

All reported capital assets except land, certain land improvements and construction in progress are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets.

Depreciation is computed using the straight-line method over the following useful lives:

Description	Governmental Activities Estimated Lives	Business-Type Activities Estimated Lives
Buildings and Improvements	20 -50 years	N/A
Furniture and Equipment	5 - 20 years	10 -15 years
Vehicles	Up to 10 years	N/A

Compensated Absences

The School District reports compensated absences in accordance with the provisions of GASB No. 16, "Accounting for Compensated Absences". Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the School District will compensate the employees for the benefits through paid time off or some other means.

Brandywine Heights Area School District
Notes To Basic Financial Statements
Fiscal Year Ended June 30, 2013

Sick leave benefits for administrators are accrued as a liability using the termination method. An accrual for accumulated sick days is made to the extent that it is probable that benefits will result in termination payments. The liability is an estimate based on the School District's past experience of making termination payments.

The entire compensated absence liability is reported on the government-wide financial statements.

For governmental funds, the current portion of unpaid compensated absences is the amount that is normally expected to be paid using expendable available financial resources. In enterprise funds, the entire amount of compensated absences is reported as a fund liability.

Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities or proprietary fund type statement of net position. Bond premiums and discounts, and deferred amounts on refundings are deferred and amortized over the life of the bonds using modification of the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Any deferred amount on refundings are reported as deferred outflow of resources and amortized over the life of the bond issue. Bond issuance costs are expensed in the year they are incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources while discounts and premiums on debt issuances are reported as other financing uses or sources, respectively. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as support service expenditures.

Reclassification

Certain amounts have been reclassified to conform to the June 30, 2013, presentation of government-wide financial statements on the accrual basis of accounting versus the governmental fund financial statements reported on the modified accrual basis of accounting.

Net Position

Net Position represents the difference between assets and deferred outflow of resources less liabilities and deferred inflow of resources. Net Investment in Capital Assets component of Net Position is comprised of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvement of those assets. In addition, any deferred outflow of resources and/or deferred inflow of resources related to such capital assets or liabilities associated with the capital assets should also be added to or deducted from the overall Net Investment in Capital Assets. The restricted component of Net Position is used when there are limitations imposed on their use either through the enabling legislation adopted by a higher governmental authority or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The remaining component of Net Position is unrestricted

The School District applies restricted resources first when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

Fund Balance Categories

Fund balance for governmental funds should be reported in classifications that comprise a hierarchy based primarily on the extent to which the government is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Below are the potential categories of fund balance the government may use with their definitions, the actual categories used is explained in Note 7 to the financial statements:

Brandywine Heights Area School District
Notes To Basic Financial Statements
Fiscal Year Ended June 30, 2013

Nonspendable Fund Balance

This category includes amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact.

Restricted Fund Balance

Fund balance should be reported as restricted when constraints placed on the use of resources are externally imposed by creditors, grantors, contributors, or other government laws or regulations, or the constraint is imposed by enabling legislation or constitutional provisions.

Committed Fund Balance

This category pertains to amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority. The committed amounts cannot be used for any other purpose unless the government removes or changes the specified use by taking the same type of action.

This government's governing body is the School Board and the formal action taken to commit resources is done by resolution.

Assigned Fund Balance

This category includes all remaining amounts that are reported in governmental funds, except the general fund, that are not classified in one of the above-mentioned categories. In the general fund, this category represents the District's intent to use resources for a specific purpose, which does not require formal action by the governing body. The District's policy dictates the business manager is responsible to make these assignments.

Unassigned Fund Balance

This category of fund balance represents the residual classification for the general fund after segregating resources used in the other categories listed above. Unassigned fund balance will only be shown in other governmental funds if those governmental funds have a negative net fund balance.

The District's policy on fund balance does not dictate which category of unrestricted fund balance is spent first, when resources are available to be spent in various categories. As such, committed amounts will be reduced first, followed by assigned amounts, and then unassigned amounts. The District's policy also does not dictate whether restricted (nonspendable or restricted) or unrestricted (committed, assigned, and unassigned) is spent first when resources are available in both categories. As such, in these circumstances, restricted will be assumed to have been spent first followed by the unrestricted categories.

Contributions of Capital

Contributions of capital in proprietary fund financial statements arise from outside contributions of fixed assets, or from grants or outside contributions of resources restricted to capital acquisition and construction. The proprietary funds received no capital contributions during this fiscal year.

Note 3 - Reconciliation of government-wide and fund financial statements

- A.** *Explanation of certain differences between the governmental fund balance sheet and the government-wide statement of net position.*

Brandywine Heights Area School District
Notes To Basic Financial Statements
Fiscal Year Ended June 30, 2013

The governmental fund balance sheet includes a reconciliation between "fund balance -total governmental funds" and "net position - governmental activities" as reported in the government-wide statement of net position. One element of that reconciliation explains that "long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported in the funds".

The details of this \$27,604,733 difference are:

Bonds payable	\$ 26,675,000
Less: Issuance discount (to be amortized as interest expense)	(79,328)
Add: Issuance premium (to be amortized as a contra to interest expense)	181,403
Accrued interest payable	220,384
Other Post Retirement Benefits	210,026
Net OPEB Obligation	354,397
Compensated absences	<u>42,851</u>
Net adjustment to reduce "fund balance - total governmental funds" to arrive at "net position - governmental activities"	<u>\$ 27,604,733</u>

B. Explanation of Differences between Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances and the Statement of Activities

Due to the differences in the measurement focus and basis of accounting used on the government fund statements and district-wide statements certain financial transactions are treated differently. The basic financial statements contain a full reconciliation of these items. Differences between the governmental funds statement of revenues, expenditures, and changes in fund balance and the statement of activities fall into one of three broad categories.

The amounts shown in the columns below represent:

- a) Long-term revenue differences arise because governmental funds report revenues only when they are considered "available", whereas the statement of activities reports revenues when earned. Differences in long-term expenses arise because governmental funds report on a modified accrual basis whereas the accrual basis of accounting is used on the statement of activities. The long-term expenses reported below recognize the change in vested employee benefits.
- b) Capital related differences include (1) the difference between proceeds for the sale of capital assets reported on governmental fund statements and the gain or loss on the sale of assets as reported on the statement of activities, and (2) the difference between recording an expenditure for the purchase of capital items in the governmental fund statements, and capitalization and recording of depreciation expense on those items as recorded in the statement of activities.
- c) Long-term debt transaction differences occur because long-term debt proceeds are recorded as revenue and both interest and principal payments are recorded as expenditures in the governmental fund statements. In the statement of activities, long-term debt proceeds are recorded as a liability; principal payments are recorded as a reduction of liabilities.

Note 4 - Stewardship, Compliance, and Accountability

A. Compliance with finance related legal and contractual provisions

The District has no material violations of finance related legal and contractual provisions.

B. Deficit fund balance or net position of individual funds

No individual fund contains a deficit fund balance or net position at June 30, 2013.

C. Excess of expenditures over appropriations in individual funds

No individual fund, which had a legally adopted budget, had an excess of expenditures over appropriations.

**Brandywine Heights Area School District
Notes To Basic Financial Statements
Fiscal Year Ended June 30, 2013**

D. Budgetary compliance

The District's only legally adopted budget is for the General Fund. All budgetary transfers were made within the last nine months of the fiscal year. The District cancels all purchase orders open at year-end; therefore, it does not have any outstanding encumbrances at June 30, 2013. In addition, the District includes a portion of the prior year's fund balance represented by unappropriated liquid assets remaining in the fund as budgeted revenue in the succeeding year. The results of operations on a GAAP basis do not recognize the fund balance allocation as revenue as it represents prior period's excess of revenues over expenditures.

Note 5 - Detailed notes on all funds and account groups

Assets

Cash

Custodial Credit Risk - Deposits

Custodial credit risk is the risk that in the event of a bank failure, the government's deposits may not be returned to it. The District does not have a policy for custodial credit risk. As of June 30, 2013, \$2,428,868 of the District's bank balance of \$7,357,083, along with \$5,006 in restricted cash, was exposed to custodial credit risk as follows:

Uninsured and uncollateralized	\$ 5,006
Collateralized with securities held by the pledging financial institution	-
Uninsured and collateral held by the pledging bank's trust department not in the District's name	2,428,868
TOTAL	\$ 2,433,874

Reconciliation to Financial Statements

Uncollateralized Amount Above	\$ 2,428,868
Plus: Insured Amount	4,928,215
Less: Outstanding Checks	(18,990)
Carrying Amount - Bank balances	7,338,093
Plus: Petty Cash	-
Restrict Cash held in escrow	1,150
Deposits in Investment Pool Considered Cash Equivalents	1,326,325
Less: Certificates of Deposit considered Investment by School Code	-
TOTAL CASH PER FINANCIAL STATEMENTS	\$ 8,665,568

Investments

Permitted investments for Pennsylvania School Districts are defined in the Public School Code of 1949 as:

1. United States Treasury Bills;
2. Short-term obligations of the United States Government or its agencies or instrumentalities;

**Brandywine Heights Area School District
Notes To Basic Financial Statements
Fiscal Year Ended June 30, 2013**

3. Deposits in savings accounts or time deposits or share accounts of institutions insured by the F.D.I.C; and,
4. Obligations of the United States of America or any of its agencies or instrumentalities, the Commonwealth of Pennsylvania or any of its agencies or instrumentalities or any political subdivision of the Commonwealth of Pennsylvania or any of its agencies or instrumentalities.

As of June 30, 2013, the District had the following investments:

<i>Investment</i>	Maturities	Fair Value
Pa. School District Liquid Asset Fund	N/A	\$ 1,075,471
WSFS Bank		250,853
National Penn Bank - Repurchase Agreement		350,702
TOTAL		\$ 1,677,026

Interest Rate Risk

The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk

The District has no investment policy that would limit its investment choices to certain credit ratings. As of June 30, 2013, the District's investment in the PA School District Liquid Asset Fund was rated AAA by Standard & Poor's.

Concentration of Credit Risk

The District places no limit on the amount the District may invest in any one issuer. The District has 14.96% held in a pooled money market account with WSFS Bank, and 20.91% in a repurchase agreement with National Penn Bank. Governmental Activities has 15.56% held in a pooled Money Market account with WSFS Bank, and 21.75% in a repurchase agreement with National Penn Bank. The General Fund has 17.20% held in a pooled Money Market account with WSFS Bank, and 24.05% in a repurchase agreement with National Penn Bank.

Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investments or collateral security that are in the possession of an outside party. The District has no investments subject to custodial credit risk.

Reconciliation to Financial Statements

Total Investments Per Financial Statements	\$ 350,702

Brandywine Heights Area School District
Notes To Basic Financial Statements
Fiscal Year Ended June 30, 2013

Property Taxes

Property taxes are levied on July 1, on the assessed value listed, as of that date, for all taxable real property located in the District. Assessed values are established by the County Board of Assessments. All taxable real property was assessed at \$593,901,300. In accordance with Act 1 of 2006, the District received \$788,401 in property tax reduction funds for the 2012-13 fiscal year. The tax rate for the year was \$3.125 per \$100 of assessed valuation or 31.25 mills.

The property tax calendar is:

- July 1 - Full year tax assessed for current year.
- July 1 - August 31 - Discount period during which a 2% discount is allowed.
- September 1 - October 31 - Face amount of tax is due
- November 1 - January 15 - A 10% penalty is added to all payments.
- January 15 - All unpaid taxes become delinquent and are turned over to the County Tax Claim Bureau for Collection.

The School District, in accordance with GAAP, recognized the delinquent and unpaid taxes receivable reduced by an allowance for uncollectible taxes as determined by the administration. A portion of the net amount estimated to be collectible, which was measurable and available within 60 days, was recognized as revenue and the balance deferred in the fund financial statements.

Receivables

Receivables, as of year-end, for the government's individual major funds and non-major and fiduciary funds, in the aggregate, including the applicable allowances for uncollectible accounts, are:

	GENERAL FUND	CAPITAL PROJECTS FUND	FOOD SERVICE FUND	NON- MAJOR FUNDS	FIDUCIARY FUNDS	TOTAL
RECEIVABLES:						
Interest	\$ -	\$ -	\$ -	\$ -	\$ -	\$ -
Taxes	832,158	-	-	-	-	832,158
Accounts	1,880	-	32	-	19	1,931
Intergovernmental	861,785	-	27,457	-	-	763,901
GROSS RECEIVABLES	1,695,823	-	27,489	-	19	1,597,990
Less: Allowance for Uncollectibles	-	-	-	-	-	-
NET RECEIVABLES	\$ 1,695,823	\$ -	\$ 27,489	\$ -	\$ 19	\$ 1,597,990

Governmental funds report deferred inflows of resources in connection with receivables for revenues that are not considered to be available to liquidate liabilities of the current period. Governmental funds also defer revenue recognition in connection with resources that have been received, but not yet earned. At the end of the current fiscal year, the various components of deferred inflow of resources reported in the governmental funds were:

The governmental activities did not dispose of any capital assets during the year. The business-type activities did not dispose of any capital assets during the year.

Commitment

Encumbrances

Any encumbrances outstanding at year-end do not represent GAAP expenditures or liabilities but represent budgetary accounting controls. The General Fund Budget is maintained on the modified accrual basis of accounting, except that budgetary basis expenditures include any encumbrances issued for goods or services not received at year-end and not terminated.

The actual results of operations are presented in accordance with GAAP and the District's accounting policies do not recognize encumbrances as expenditures until the period in which the goods or services are actually received and a liability is incurred. If budgetary encumbrances exist at year-end, they are included in the fund financial statements to reflect actual revenues and expenditures on a budgetary basis consistent with the District's legally adopted budget.

Fiscal Year Ended June 30, 2013**

General Obligation Notes - Series of 2002

On July 1, 2002, the District issued \$21,150,000 of General Obligation Notes - Series of 2002. The purposes of this issue are to provide funds for: (i) the costs of the planning, acquiring, furnishing, and equipping of alterations, additions, renovations, and improvements to various public school facilities including, but not limited to the construction of the new Brandywine Heights Area High School and the renovation of the former High School facility; (ii) payment of interest during construction; (iii) current refunding of the General Obligation Note - Series A of 2000, and (iv) payment of the costs to issue the Participant Note. In accordance with the Local Governmental Unit Debt Act, a sinking fund has been established with the paying agent. The notes mature from January 25, 2004, to January 25, 2019. Interest is a variable weekly rate not to exceed 15% per annum determined by the Municipal Swap Index for each week as provided by the Municipal Swap Index Calculation agent. The outstanding debt service requirements using the interest rate of 3.020% at June 30, 2013, are:

FISCAL YEAR	PRINCIPAL	INTEREST
2013-14	\$ 1,630,000	\$ 350,421
2014-15	2,315,000	292,353
2015-16	2,430,000	221,446
2016-17	2,550,000	146,021
2017-18	2,675,000	67,398
2018-19	700,000	12,105
TOTAL OUTSTANDING	\$ 12,300,000	\$ 1,089,744

Contractual Obligation

As a result of the District's decision to enter into a fixed rate obligation, the Delaware Valley Authority entered into an interest rate swap arrangement with a counterparty to provide the District with a synthetic fixed rate of interest. Since the swap agreement is not in the name of the District, they entered into a contractual arrangement with the Authority, to pay or receive, to or from the Authority upon termination of this agreement, the fair value of the Authority's derivative instrument with their counterparty. At June 30, 2013, the derivative instrument had a positive fair value of \$1,246,469, which represents a contingent asset that should not be recorded on the financial statements in accordance with generally accepted accounting principles.

General Obligation Bonds - Series of 2002

On December 4, 2002, the District issued \$5,355,000 of General Obligation Bonds - Series of 2002. The purpose of this issue is to provide funds for: (a) the advance refunding of the General Obligation Bonds - Series of 1998, and (b) paying the costs of issuing and insuring the bonds. In accordance with the Local Governmental Unit Debt Act, a sinking fund has been established with the paying agent. The bonds mature from February 15, 2003, to February 15, 2014. Interest rates range from 1.60% to 4.50%.

Lease Rental Debt

On November 15, 1998, the Berks County Vocational Technical School Authority issued \$34,850,000 in revenue bonds, Series of 1998. The Bonds are being issued under the Municipality Authorities Act of 1945, as amended, and pursuant to the provisions of a Trust Indenture, dated as of November 15, 1998, between the Authority and Bank of Pennsylvania, a division of Dauphin Deposit Bank and Trust Company, as trustee. Under the Indenture, the Authority has pledged and assigned to the Trustee the sublease rentals to be paid pursuant to a Lease and Sublease, dated as of November 15, 1998, between the Authority, as lessee and sublessor, and Berks Vocational Technical School, a/k/a Berks Career and Technology Center (BCTC), as lessor and sublessee.

The governing body of the Authority is its Board consisting of seventeen (17) members appointed to staggered terms of five years by the Antietam School District, with the advice of the joint operating committee of BCTC.

BCTC was created and operates under Articles of Agreement by and among sixteen participating school districts located in Berks County and portions of Montgomery and Chester Counties, Pennsylvania.

Under the Articles of Agreement, dated June 1, 1965, between BCTC and the participating school districts, the annual operating expenses of BCTC are allocated to and paid by the participating school districts in proportion to the three-year average daily number of students enrolled by each in BCTC computed at the end of each school year. Lease rental payments (including payments under the Sublease) or capital outlays are shared in proportion to each participating school district's market valuation of taxable real estate to the total valuation of all participating school districts. As a result of this debt, the participating school districts amended Section 11 of the BCTC's By-Laws to read: The obligations of each of the participating school districts to pay its proportionate share of the rentals shall be subject to an annual appropriation by each school district. Any school district that does not budget, appropriate and pay its proportionate share of the rentals payable hereunder shall lose all of its rights as a participating school

Brandywine Heights Area School District

Fiscal Year Ended June 30, 2013

district, including the right to send students to the Center. It is the intent of Brandywine Heights Area School District to continue to participate.

The proceeds to be realized by the Authority will be used to finance certain capital projects of BCTC, including renovations, alterations, and additions to the East Campus and West Campus of the Berks Career and Technology Center, to pay capitalized interest on the Bonds, to fund a debt service reserve fund and to pay the costs of issuance of the Bonds. The lease rental debt owed by BCTC to the Authority is equal to the bond principal and interest of the Authority's revenue bonds. This debt is not considered general obligation debt of the School District. The bonds mature from June 1, 2005, to June 1, 2019, at interest rates between 3.6% and 5.0%.

Since market values fluctuate year to year, the District's future share of the lease rental debt, as shown below, is an estimate using current market values:

FISCAL YEAR	PRINCIPAL
2013-14	\$ 107,383
2014-15	107,344
2015-16	107,418
2016-17	107,287
2017-18	107,430
2018-19	107,335
TOTAL OUTSTANDING	\$ 644,197

Brandywine Heights Area School District
Notes To Basic Financial Statements
Fiscal Year Ended June 30, 2013

Compensated Absences

Sick-Pay

Under the District's administrative regulations, professional employees, cafeteria workers, custodians, aides and secretaries accumulate unused sick days from year to year. These accumulated sick days are cumulative with no limitation. Upon retirement, employees are not eligible for remuneration for unused sick days, except for administrators covered under the Administrator Evaluation Plan, Non-Union support staff and the superintendent. Administrators shall receive severance pay of their daily fee for each unused sick day accumulated up to a payment of \$18,000; business manager maximum is \$20,000. Non-union support staff receives \$20 per day up to \$4,500. To be eligible for severance pay a minimum of 120 days' notice must be given prior to leaving.

The District maintains records on the eligible accumulated unused sick days. In accordance with GASB Statement No. 16, the District has recorded a long-term liability within the governmental activities column of the government-wide statement of net position of \$22,036, which includes the employer's share of FICA tax (net of reimbursement). The portion that will use currently available financial resources is \$13,774, and is recorded as a liability for the compensated absence recorded in the General Fund.

Vacation Leave

Unused vacation leave is paid upon an employee's termination. The District maintains records of each employee's accumulated vacation days. In accordance with GASB Statement No 16, the amount recorded for vacation leave earned as of June 30, 2013 in the General Fund that will use currently available financial resources is \$62,791, which includes the employer's share of FICA tax and retirement contributions (net of reimbursement). This amount is shown as current portion of long-term debt in the governmental activities column of the government-wide statement of net position. The remaining balance of vacation leave, earned at June 30, 2013, of \$20,815, which includes the employer's share of FICA tax and retirement contributions (net of reimbursement), is recorded as a long-term liability in the governmental activities column of the government-wide statement of net position.

Defined benefit pension plans

Plan Description

Name of plan: The Public School Employees' Retirement System (the System).

Type of Plan: Governmental cost sharing multiple-employer defined benefit plan.

Benefits: Retirement and disability legislatively mandated ad hoc cost-of-living adjustments, healthcare insurance premium assistance to qualifying annuitants.

Authority: The Public School Employees' Retirement Code (Act No. 96 of October 2, 1975, as amended) (24 PA C.S. 8101-8535).

Annual Financial Report: The System issues a comprehensive annual financial report that includes financial statements and required supplementary information for the plan. A copy of the report may be obtained by writing to Beth Girman, Office of Financial Management, Public School Employees' Retirement System, 5 N. 5TH Street, Harrisburg, PA 17101-1905, or by emailing Beth at bgirman@pa.gov. The report is also available in the publications section of the PSERS website at www.psers.state.pa.us.

Brandywine Heights Area School District
Notes To Basic Financial Statements
Fiscal Year Ended June 30, 2013

Funding Policy

Authority: The contribution policy is established in the Public School Employees' Retirement Code and requires contributions by active members, employers, and the Commonwealth.

Contribution Rates

Member Contributions: Active members, who joined the System prior to July 22, 1983, contributed at 5.25 percent (Membership Class TC) or at 6.50 percent (Membership Class TD) of the member's qualifying compensation. Members who joined the System on or after July 22, 1983 and who were active or inactive as of July 1, 2001, contribute at 6.25 percent (Membership Class TC) or at 7.50 percent (Membership Class TD) of the member's qualifying compensation. Members who joined the System after June 30, 2001, contribute at 7.50 percent (automatic Membership Class TD). For all new hires and for members who elected Class TD membership, the higher contribution rates began with service rendered on or after January 1, 2002.

Members who joined the System after June 30, 2011, automatically contribute at the Membership Class T-E rate of 7.5% (base rate) of the member's qualifying compensation. All new hires after June 30, 2011 who elect Class T-F membership contributes at 10.3% (base rate) of the member's qualifying compensation. Membership Class T-E and T-F are affected by a "shared risk" provision in Act 120 of 2010 that in future fiscal years could cause the Membership Class T-E contribution rate to fluctuate between 7.5% and 9.5% and Membership Class T-F contribution rate to fluctuate between 10.3% and 12.3%.

Contributions required of employers are based upon an actuarial valuation. For fiscal year ended June 30, 2013, the rate of employer contribution was 12.36 percent of covered payroll. The 12.36 percent rate is comprised of a contribution rate of 11.50 percent for pension benefits and 0.86 percent for healthcare insurance premium assistance.

The employer's current year covered payroll was \$12,379,257 and total payroll was \$12,862,111.

The total employee and employer contributions for this current year were \$771,727 and \$1,531,833 respectively.

Other Post Retirement Benefits

Retirement Termination Benefit

All professional employees of the District are entitled at retirement with a minimum of ten years' service with the District, to receive \$150 per year up to a maximum of \$6,000. Employees must submit their intention to retire prior to March 1; however, if notice is received after March 1, employees are only entitled to \$90 per year, up to a maximum of \$3,000.

In accordance with GASB Statement No. 16, an employer that provides severance benefits shall recognize a liability when that benefit has been earned. The portion of the liability that will use currently available financial resources of \$23,696, including the employer's share of FICA tax (net of reimbursement), is recorded in the General Fund and as a current portion of long-term debt in governmental activities column of the government-wide statement of net position. The remaining estimate of severance benefits in the amount of \$210,026, including the employer's share of FICA tax (net of reimbursement), is recorded as a long-term liability in the governmental activities column of the government-wide statement of net position.

Notes To Basic Financial Statements
Fiscal Year Ended June 30, 2013**

Other Post Employment Benefits

Plan Description. Brandywine Heights Area School District has one single-employer defined benefit plan.

1. In accordance with the PA School Code of 1949, as amended, medical coverage is provided to eligible retirees and spouses with the retiree paying the full active premium rate for coverage until age 65. This benefit has an implicit rate subsidy based upon GASB Statement No. 45, since the retiree pays the premium at the insurance carrier's global rate charged to the School District versus age-adjusted rate, as defined in the GASB Statement.

**Brandywine Heights Area School District
Notes To Basic Financial Statements
Fiscal Year Ended June 30, 2013**

Summary of Plan Provisions			
Group	Eligibility	Coverage And Premium Sharing	Duration
<u>I. ADMINISTRATORS</u>	<p>Must meet one of the following conditions to be eligible.</p> <p>i) Must be eligible for PSERS retirement and have at least 10 years of District service.</p> <p>ii) ACT 110/43</p>	<ul style="list-style-type: none"> • Coverage: Medical, Prescription Drug, Dental and Vision. • Premium Sharing: If member is eligible for PSERS Retirement and has at least 10 years of District service, District will pay \$6,600 per year but not to exceed 50% of the District cost for health insurance premiums for the family medical plan. Upon member reaching Medicare age, a younger spouse can continue to receive coverage but must pay 100% of the premium. <p>If the member does not meet the requirements for the District subsidy but is eligible for Act 110/43, the member and spouse may continue coverage by paying the full premium as determined for the purpose of COBRA.</p> <ul style="list-style-type: none"> • Dependents: Spouse and Family Included. Upon the death of a retiree, the spouse and any eligible dependents are able to continue Medical, Prescription Drug, Dental and Vision by paying 100% of the premium. 	<p>Member coverage continues until Medicare age.</p> <p>Spouse coverage continues until the later of member reaches Medicare age or spouse reaches retirement age.</p>
II. TEACHERS	Same as I	<ul style="list-style-type: none"> • Coverage: Medical, Prescription Drug, Dental and Vision • Premium Sharing: Retiree pays 100% of premium • Dependents: Spouse and Family Included. Upon the death of a retiree, the spouse and any eligible dependents are able to continue Medical, Prescription Drug, Dental and Vision by paying 100% of the premium. 	Same as I
III. ALL OTHER EMPLOYEES	Act 110/43	Same as II	Same as I

Brandywine Heights Area School District
Notes To Basic Financial Statements
Fiscal Year Ended June 30, 2013

Notes: Act 110/43 Benefit: All employees are eligible for this benefit upon retirement with 30 years of PSERS service or upon superannuation retirement (age 60 with 30 years of service, age 62 with 1 year of service, or 35 years of service regardless of age). Retired employees are allowed to continue coverage for themselves and their dependents in the employer's group health plan until the retired employee reaches Medicare age. In order to obtain coverage, retired employees must provide payment equal to the premium determined for the purposes of COBRA.

PSERS Supplement: An employee is eligible for PSERS early retirement while under 62 with 5 years of PSERS Service. An employee is eligible for a special early retirement upon reaching age 55 with 25 years of PSERS service. In addition, an employee is eligible for PSERS superannuation retirement upon reaching age 60 with 30 years of PSERS service, age 62 with 1 year of PSERS service or 35 years of PSERS service regardless of age.

Coordination with Medicare benefits: Individuals over 65 must enroll in a Medicare Supplement Plan provided by the district in order to continue coverage.

Notes To Basic Financial Statements
Fiscal Year Ended June 30, 2013

Funding Policy and Annual OPEB Cost. This benefit is state mandated via the School Code statute. The District's annual other post-employment (OPEB) cost (expense) for the plan is calculated based on the annual required contribution of the employer (ARC), an amount actuarially determined in accordance with the parameters of GASB Statement No. 45. The ARC represents a level of funding that, if paid on an ongoing basis, is projected to cover the normal cost, each year, and to amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years. The District's annual OPEB cost for the current year and the related information as follows:

Contribution Rates:	
	OPEB Benefit Actuarially Determined
Interest Rate	4.5%
Plan Members	236
Annual Required Contribution	\$ 177,632
Interest on net OPEB obligation	15,026
Adjustment to annual required contribution	<u>(20,499)</u>
Annual OPEB cost	172,159
Contributions made	<u>(151,677)</u>
Increase in net OPEB obligation	20,482
Net OPEB obligation - beginning of year	<u>333,915</u>
Net OPEB obligation - end of year	<u>\$ 354,397</u>

The District's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan and the net OPEB obligation for the five fiscal years ending June 30th, for the benefits were as follows:

Year ended	Annual OPEB Cost	Percentage of OPEB Cost Contributed	Net OPEB Obligation
6/30/2013	\$ 172,159	88.1%	\$ 354,397
6/30/2012	181,061	67.8%	333,915
6/30/2011	182,265	59.7%	275,584
6/30/2010	198,878	52.2%	202,126
6/30/2009	200,633	46.7%	107,032

Brandywine Heights Area School District
Notes To Basic Financial Statements
Fiscal Year Ended June 30, 2013

Funding Status and Funding Process. The funded status of the benefits as of June 30, 2013, was as follows:

	State-mandated Healthcare Benefit
Actuarial accrued liability (a)	\$ 1,592,086
Actuarial value of plan assets (b)	-
Unfunded actuarial accrued liability (a) - (b)	<u>\$ 1,592,086</u>
Funded Ratio (b) / (a)	0.0%
Covered payroll	\$ 10,994,005
Unfunded actuarial accrued liability (funding excess) as a percentage of covered payroll.	14.5%

Actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events in the future. Amounts determined regarding the funded status of the benefits and the annual required contributions of the employer are subject to continual revision, actual results are compared to past expectations, and new estimates are made about the future. The required schedule of funding progress presented as required supplementary information provides multiyear trend information that shows whether the actuarial value of plan net position is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Actuarial Methods and Assumptions. Projections of benefits are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits in force at the valuation date and the pattern of sharing benefit costs between the district and the plan members to that point. Actuarial calculations reflect a long-term perspective and employ methods and assumptions that are designed to reduce short-term volatility in actuarial accrued liabilities and the actuarial value of assets. Significant methods and assumptions were as follows:

**Brandywine Heights Area School District
Notes To Basic Financial Statements
Fiscal Year Ended June 30, 2013**

	State-mandated Healthcare Benefit
Actuarial Valuation Date	1/1/2012
Actuarial Cost Method	Entry Age Normal
Amortization Method	Level dollar method over a 30 year period
Remaining amortization period	26 years
Asset Valuation Method	pay as you go basis
Actuarial Assumptions:	
Investment rate of return	4.5%
Projected salary increases	4.25% to 7.25%
Healthcare inflation rate	
2013	7.0%
2014	6.5%
2015	6.0%
2016 +	5.5%

Note 6 - Risk Management

The District is subject to risk of loss from employee acts, property damage, personal injury auto accidents, theft, etc. The District covers those risks through the purchase of commercial insurance. The Brandywine Heights Area School District is a participating member of a Workers' Compensation Consortium. The Consortium is comprised of 81 member School Districts which jointly self-assume their workers' compensation liabilities. Each District is required to make contributions to the Consortium based on formulae set forth in the contract. Each member school district individually retains sole liability up to a retention level, which is fixed annually by multiplying its Experience Modification Factor times the last audited fiscal year payroll of the member. The result is then multiplied by a contribution rate, which is the same for all members. Even though the member school districts contribute to a central fund, they remain individually liable for any workers' compensation claims.

Above the level of retention, the Consortium pays claims up to the level of coverage of \$100,000 for the year ended June 30, 2013, provided by an excess insurance policy. Claims above the maximum coverage of excess insurance are paid by the members of the Consortium through additional assessments against members.

The members of the Consortium are required to participate in deficiencies and are subject to periodic assessments by the Executive Committee, as required.

At June 30, 2013, the most recent available financial statements, the consortium did not have a deficit, in which the ultimate responsibility to pay for a deficit belongs to the member districts.

Brandywine Heights Area School District
Notes To Basic Financial Statements
Fiscal Year Ended June 30, 2013

Note 7 - Fund Balance Allocations

Nonspendable Fund Balance

The General Fund had \$10,085, in nonspendable fund balance at June 30, 2013, comprised of prepaid expenditures.

Restricted Fund Balance

The debt covenant on the 2011B Bond issue restricts the proceeds shown in the 2011B Construction Fund for the purposes outlined in the bond resolution. As such, the \$122,019, in fund balance, at year end within this fund is considered restricted.

Committed Fund Balance

The governing body (Board of School Directors) has committed \$1,387,000, of the General Fund's year end fund balance for future retirement rate increases and \$200,000 for self-insurance.

Assigned Fund Balance

The General Fund has \$1,226,000, assigned for maintenance projects, \$200,000 for technology purchases, and \$199,998, to balance the 2013-2014 budget.

Note 8 – Prior Period Adjustment

As a result of early implementing GASB Statement No. 65, a prior period adjustment had to be made in the governmental activities to reflect expensing the remaining unamortized bond issuance costs of \$270,942. Statement No. 65 now requires expensing bond issuance costs in the year incurred, which previously were capitalized and amortized over the life of the corresponding bond issue. As such, the opening net position of the governmental activities is restated, as follows:

Net Position at June 30, 2012 (as reported)	\$20,627,662
Less: Unamortized Bond Issuance Costs	<u>(270,942)</u>
Net Position at June 30, 2012 (as restated)	<u>\$20,356,720</u>

Note 9 - Restricted Net Position

Net Investment in Capital Assets

The components of this restriction are total capital assets of \$42,556,822, unspent proceeds of \$122,019, and related debt of \$26,256,007, which includes unamortized bonds discounts, premiums, and deferred refunding charges. The business-type activities column reflects \$85,343 invested in capital assets with no related debt.

Brandywine Heights Area School District
Notes To Basic Financial Statements
Fiscal Year Ended June 30, 2013

Note 10 - Contingencies

Grants

The School District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and a condition specified in the grant agreements, and is subject to audit by the grantor agencies. Any disallowed claims resulting from such audits could become a liability of the general fund, or other applicable funds. However, in the opinion of management any such disallowed claims will not have a material adverse effect on the overall financial position of the School District as of June 30, 2013.

Litigation

The School District is currently a party to legal proceedings; however, management believes the outcome of these issues will not materially affect the financial position of the school district.

Brandywine Heights Area School District
Notes to the Schedule of Expenditures of Federal Awards
For the Year Ended June 30, 2013

Note 1 - Significant Accounting Policies

The accompanying Schedule of Expenditures of Federal Awards is presented on the modified accrual basis of accounting for all federal awards charged to governmental funds and on the accrual basis of accounting for all federal awards charged to proprietary funds, as contemplated by accounting principles, generally accepted in the United States of America.

Note 2 - Organization and Scope

The District recognized 2.1% of its total general fund revenue in federal awards, and 32.2% of its total enterprise fund revenue.

Note 3 - Program Disclosure – Footnotes

1. The federal awards passed through the Berks County Intermediate Unit under the U.S. Department of Education heading, is part of a consortium of participating school districts. In accordance with directions from the Commonwealth of Pennsylvania, these awards are reported on the basic financial statements as local source revenue
2. The Federal Grants were passed through the following entities in the totals below;

<u>Passed through</u>	<u>Total Awards</u>	<u>Total Expenditures</u>
PA Department of Education	\$ 557,228	\$ 464,972
Berks County I.U.	614,401	294,731
PA Department of Public Welfare	N/A	358
PA Department of Agriculture	N/A	37,595
Totals	\$ 1,171,629	\$ 797,656

3. The District received non-monetary assistance from the U.S. Department of Agriculture of \$37,595 in the form of commodities. These commodities are valued at U.S.D.A.'s approximate costs. During the 2012-13 fiscal year, the District used \$37,595 in commodities and established a year-end inventory of \$30,634 at June 30, 2013.
4. The amount recognized as revenue in the Schedule of Expenditures of Federal Awards, under the U.S. Department of Agriculture heading, represents the commodities used, versus the commodities received, which are recognized as revenue in the financial statements.
5. The programs reporting this footnote are grants received using funds from the American Recovery and Reinvestment Act.

**INDEPENDENT AUDITOR'S REPORT
UNDER GOVERNMENT AUDITING STANDARDS**

Board of School Directors
Brandywine Heights Area School District
200 West Weiss Street
Topton, PA 19562

We have audited, in accordance with the auditing standards generally accepted in the United States of America, and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, the aggregate remaining fund information, and the budgetary comparison statement of the general fund of the Brandywine Heights Area School District, as of and for the year ended June 30, 2013, and the related notes to the financial statements, which collectively comprise Brandywine Heights Area School District's basic financial statements, and have issued our report thereon dated December 4, 2013.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered Brandywine Heights Area School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Brandywine Heights Area School District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Brandywine Heights Area School District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Respectfully submitted,

December 4, 2013

**INDEPENDENT AUDITOR'S REPORT
UNDER OMB CIRCULAR A-133**

Board of School Directors
Brandywine Heights Area School District
200 West Weiss Street
Topton, PA 19562

Report on Compliance for Each Major Federal Program

We have audited Brandywine Heights Area School District's compliance with the types of compliance requirements described in the *OMB Circular A-133 Compliance Supplement that could have a direct and material effect on each of Brandywine Heights Area School District's major federal programs for the year ended June 30, 2013*. Brandywine Heights Area School District's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of Brandywine Heights Area School District's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Brandywine Heights Area School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Brandywine Heights Area School District's compliance.

Opinion on Each Major Federal Program

In our opinion, Brandywine Heights Area School District complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2013.

Report on Internal Control over Compliance

Management of Brandywine Heights Area School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Brandywine Heights Area School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Brandywine Heights Area School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section, and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

Respectfully submitted,

December 4, 2013

**Brandywine Heights Area School District
 Schedule of Findings and Questioned Costs
 For the Year Ended June 30, 2013**
