

Educators Wireless Program:

- Variety of funding may be used to implement program (technology funding, CARES, etc.)
- Can be used as a stipend replacement program or to replace outdated program – budgetary savings
 - Allowing personal numbers to remain personal
- Mobile/remote access to teaching platforms
 - Legal compliance
 - Security and privacy
 - Device consolidation – Consolidate a dedicated hotspot and phone
 - Direct access for parents/guardians and students

T-Mobile for Education offers two exclusive programs

1 - Premium: T-Mobile Teacher Plan Program \$39.48 (most popular)

- Unlimited Talk, Text, LTE 4G/5G Data
- Unlimited Mobile Hotspot/Tethering
- Samsung Galaxy S21 5G 128GB (\$800 MSRP) **Included at no additional cost**
 - Additional equipment options may be available
- Education Grade Content Filter
- White Glove Service Included

2 - Standard: T-Mobile Teacher Plan Program \$29.40 (best value)

- Unlimited Talk, Text, LTE 4G/5G Data
- Unlimited Mobile Hotspot/Tethering
- iPhone SE **Included at no additional cost**
 - Additional equipment options may be available
- Education Grade Content Filter
- White Glove Service Included

Project 10 Million:

- In November of 2019, T-Mobile announced Project 10 Million, a historic \$10.7B initiative aimed at closing the homework gap that exists for millions of children by offering free service, hotspots, and reduced-cost devices.

Library Wi-Fi Hotspot Program:

- Library Wi-Fi Hotspot is a unique program that adds value to library offering and the connectivity of people in the community. The Library Wi-Fi Hotspot program is accepted as an essential value add, increases library checkout rates and a need in the underserved SMRA communities. Program Offerings include Hotspot or Tablets for consumer checkout.

Temperature Screening (Safe Reopening Tools):

- The T-Mobile solution provides temperature scanning of multiple people in rapid succession at a time to keep traffic moving. It is complete plug and play with no IT integration required. Available with desk stand, floor stand, wall mount and more options. Non-contact Body Temperature Reading Kiosk is ideal for Districts looking for a robust solution to quickly screen temperatures as they reopen.

Connected Buss (Buss Wi-Fi Solutions):

- Our partnerships with OEMs (Cradlepoint, Peplink, etc....) will allow Districts to leverage the T-Mobile network on busses to provide access to students during the ride to/from school. The enterprise grade routers allow for other devices to connect and transmit critical data over the 5G/LTE network (monitor dashcams, RFID solutions, etc....)
