Next Step: Once registration requirements have been met, we will contact you to schedule your child's Kindergarten Screening. At this screening, your child will have the opportunity to meet the Kindergarten teachers, 'sample' the Kindergarten experience and allow our Kindergarten team to get to know your child. A kindergarten screening/readiness test will be used to help our staff assure heterogeneous classroom groupings and provide a brief snapshot of the student's abilities. We realize that a variety of factors influence the results of this screening (new environment, new faces, new friends, etc.) so it is used as a general guide, not as eligibility criteria or to create ability groupings. Parents will learn about our Kindergarten program, curriculum and opportunities.

Kindergarten Screenings will be scheduled in June. More information to come!

We look forward to meeting you and beginning a long-term partnership in your child's education!
