

3051 Opioid Overdose Prevention and Response

The district will maintain an opioid antagonist in its schools, specifically naloxone, otherwise known by its brand name Narcan. Pursuant to Nebraska law and the Naloxone Standing Order issued by the Nebraska DHHS, Division of Public Health, the board will permit school nurses, trained school staff, or other individuals qualified by law to administer naloxone to any person at school or a school event displaying symptoms of an opioid overdose.

This policy shall not create a duty on the part of the school district and/or its personnel to administer naloxone. School representatives will not administer naloxone under the following circumstances:

- a. Naloxone is not available during the overdose emergency;
- b. There is no individual available who is qualified to administer naloxone; or
- c. School representatives are uncertain as to whether an opioid overdose is occurring.

Nothing in this policy is intended to regulate, restrict or otherwise deter a law enforcement officer, emergency medical technician, volunteer fire fighter, licensed medical professional or other authorized individual from administering his/her own supply of naloxone when responding in good faith to a suspected drug overdose occurring on school district property or at a school-sponsored event.

Procurement and Storage. The superintendent, in consultation with the school's nursing staff, will make the necessary arrangements to obtain naloxone. The naloxone will be stored unlocked in the nurses' office(s). The superintendent, in consultation with the school's nursing staff, will reorder naloxone.

Naloxone that is nearing its expiration date will be replaced. The school nurse shall maintain a log of naloxone supplies consistent with the district's practices for logging other medications.

Training. Licensed health care professionals and school resource officers employed on the high school and middle school levels shall all complete an approved naloxone training prior to carrying and/or administering naloxone. Other school staff members may be trained as determined by the administration. Once trained, staff members shall review the DHHS standing order and applicable naloxone administration protocols as needed.

Recordkeeping and Reporting. Any individual who administers naloxone on behalf of the school district will promptly notify the building principal and superintendent of the facts and circumstances surrounding the drug overdose incident. The administration of naloxone to any student will be documented

in his/her cumulative health record. The administration of naloxone to any staff member will be documented in his/her personnel file.
