

Instruction

Exhibit - Authorization for Electronic Network Access

Each staff member must sign this Authorization as a condition for using the District's Electronic Network connection. Each student and his or her parent(s)/guardian(s) must sign the Authorization before being granted unsupervised access. Please read this document carefully before signing.

All use of the Internet shall be consistent with the District's goal of promoting educational excellence by facilitating resource sharing, innovation, and communication. This *Authorization* does not attempt to state all required or proscribed behavior by users. However, some specific examples are provided. **The failure of any user to follow the terms of the *Authorization for Electronic Network Access* will result in the loss of privileges, disciplinary action, and/or appropriate legal action.** The signatures at the end of this document are legally binding and indicate the parties who signed have read the terms and conditions carefully and understand their significance.

Terms and Conditions

Acceptable Use - Access to the District's electronic network must be: (a) for the purpose of education or research, and be consistent with the District's educational objectives, or (b) for a legitimate business use.

Privileges – Access to the Computer Network System is provided as a privilege by the District and may be revoked at any time. Students and staff members should have no expectation of privacy in any material that is stored, transmitted, or received using the District's electronic network or District computers. Inappropriate use, which is up to the discretion of the Administration, may result in discipline, including the loss of computer use privileges. The Administration, faculty and staff may request that computer privileges be denied, revoked, or suspended for users of the Computer Network System at any time.

Unacceptable Use – Unethical and unacceptable behavior as defined below is prohibited and shall result in disciplinary action which may include all discipline available under the District's policies, suspension or denial of Computer Network System privileges or appropriate legal action. Unethical and unacceptable use of the Computer Network System shall include, but not be limited to:

- a. Use of the Computer Network System to access, retrieve, or view obscene or indecent materials. Indecent materials are those materials which, in context, depict or describe in terms patently offensive, as measured by contemporary community standards, sexual activities or organs. Obscene materials are those materials which, taken as a whole, appeal to the prurient interest in sex, which portray sexual conduct in a patently offensive way in which, taken as a whole, do not have any serious literary, artistic, political or scientific value.
- b. Use of the Computer Network System to access, retrieve, or view or disseminate any material in violation of any U.S. or state regulation or school policy. This includes, but is not limited to, improper use of copyrighted material, improper use of passwords or access codes, disclosing any user's full name, home address, or phone number or that of another student or teacher.
- c. Use of the Computer Network System to transfer files of any software to or from the school computer.
- d. Use of the Computer Network System to engage in for-profit commercial activities, including advertising or sales.

- e. Use of the Computer Network System in a manner that is directed toward or intended to harass, threaten, intimidate, or demean an individual or group of individuals because of sex, color, race, religion, handicap, national origin or sexual orientation.
- f. Use of the Computer Network System to substantially threaten or actually disrupt the educational process or interfere with the rights of others at any time, either during school days or after school hours.
- g. Use of the Computer Network System in any manner which intentionally disrupts the information network traffic or interferes with the network and/or connected systems.
- h. Use of the Computer Network System to gain unauthorized access to the files of others or vandalize the data or files of another user.
- i. Use of the Computer Network System to gain unauthorized access to resources or entities.
- j. Use of the Computer Network System to improperly forge or alter electronic mail messages or to use an account owned by another user.
- k. Use of the Computer Network System to invade the privacy of any individual.
- l. Use of the Computer Network System to download, copy, print or otherwise store or possess any data which might be considered in violation of these rules.

Network Etiquette - You are expected to abide by the generally accepted rules of network etiquette. These include, but are not limited to, the following:

- a. Be polite. Do not become abusive in your messages to others.
- b. Use appropriate language. Do not swear, or use vulgarities or any other inappropriate language.
- c. Do not reveal the personal information, including the addresses or telephone numbers, of students or colleagues.
- d. Recognize that electronic mail (e-mail) is not private. People who operate the system have access to all mail. Messages relating to or in support of illegal activities may be reported to the authorities.
- e. Do not use the network in any way that would disrupt its use by other users.
- f. Consider all communications and information accessible via the network to be private property.

No Warranties - The District makes no warranties of any kind, whether expressed or implied, for the service it is providing. The District will not be responsible for any damages the user suffers. This includes loss of data resulting from delays, non-deliveries, missed-deliveries, or service interruptions caused by its negligence or the user's errors or omissions. Use of any information obtained via the Internet is at the users own risk. The District specifically denies any responsibility for the accuracy or quality of information obtained through its services.

Indemnification - The user agrees to indemnify the School District for any losses, costs, or damages, including reasonable attorney fees, incurred by the District relating to, or arising out of, any violation of this *Authorization*.

Security - Network security is a high priority. If you can identify a security problem on the Internet, you must notify the system administrator or Building Principal. Do not demonstrate the problem to other users. Keep your account and password confidential. Do not use another individual's account without written permission from that individual. Attempts to log-on to the Internet as a system administrator will result in cancellation of user privileges. Any user identified as a security risk may be denied access to the network.

Vandalism - Vandalism will result in cancellation of privileges and other disciplinary action. Vandalism is defined as any malicious attempt to harm or destroy data of another user, the Internet, or any other network. This includes, but is not limited to, the uploading or creation of computer viruses.

Telephone Charges - The District assumes no responsibility for any unauthorized charges or fees, including telephone charges, long-distance charges, per-minute surcharges, and/or equipment or line costs.

Copyright Web Publishing Rules - Copyright law and District policy prohibit the re-publishing of text or graphics found on the Web or on District Web sites or file servers, without explicit written permission.

- a. For each re-publication (on a Web site or file server) of a graphic or a text file that was produced externally, there must be a notice at the bottom of the page crediting the original producer and noting how and when permission was granted. If possible, the notice should also include the Web address of the original source.
- b. Students and staff engaged in producing Web pages must provide library media specialists with e-mail or hard copy permissions before the Web pages are published. Printed evidence of the status of “public domain” documents must be provided.
- c. The absence of a copyright notice may not be interpreted as permission to copy the materials. Only the copyright owner may provide the permission. The manager of the Web site displaying the material may not be considered a source of permission.
- d. The “fair use” rules governing student reports in classrooms are less stringent and permit limited use of graphics and text.
- e. Student work may only be published if there is written permission from both the parent/guardian and student.

Use of Electronic Mail - The District’s electronic mail system, and its constituent software, hardware, and data files, are owned and controlled by the School District. The School District provides e-mail to aid staff members in fulfilling their duties and responsibilities, and as an education tool.

- a. The District reserves the right to access and disclose the contents of any account on its system, without prior notice or permission from the account’s user. Unauthorized access by any student or staff member to an electronic mail account is strictly prohibited.
- b. Each person should use the same degree of care in drafting an electronic mail message as would be put into a written memorandum or document. Nothing should be transmitted in an e-mail message that would be inappropriate in a letter or memorandum.
- c. Electronic messages transmitted via the School District’s Internet gateway carry with them an identification of the user’s Internet “domain.” This domain name is a registered domain name and identifies the author as being with the School District. Great care should be taken, therefore, in the composition of such messages and how such messages might reflect on the name and reputation of the School District. Users will be held personally responsible for the content of any and all electronic mail messages transmitted to external recipients.
- d. Any message received from an unknown sender via the Internet should either be immediately deleted or forwarded to the system administrator. Downloading any file attached to any Internet-based message is prohibited unless the user is certain of that message’s authenticity and the nature of the file so transmitted.
- e. Use of the School District’s electronic mail system constitutes consent to these regulations.

Internet Safety

Internet access is limited to only those “acceptable uses” as detailed in these procedures. Internet safety is almost assured if users will not engage in “unacceptable uses,” as detailed in this *Authorization*, and otherwise follow this *Authorization*.

Staff members shall supervise students while students are using District Internet access to ensure that the students abide by the Terms and Conditions for Internet access contained in this *Authorization*.

Each District computer with Internet access has a filtering device that blocks entry to visual depictions that are: (1) obscene, (2) pornographic, or (3) harmful or inappropriate for students, as defined by the Children’s Internet Protection Act and as determined by the Administration or designee.

The Administration or designee shall enforce the use of such filtering devices. The Administration or designee may disable the filtering device(s) for research or other lawful purposes.

LEGAL REF.: No Child Left Behind Act, 20 U.S.C. §6777.
Children's Internet Protection Act, 47 U.S.C. §254(h) and (l).
Enhances Education Through Technology, 20 U.S.C §6751 et seq.
720 ILCS 135/0.01.

DATED: February 22, 2010

Students and their parents/guardians need only sign the **Verification Form** acknowledging receipt of the *Authorization for Electronic Network Access* once the student is enrolled in the School District.

Student User:

I understand and will abide by the above *Authorization for Electronic Network Access*. I understand that the District and/or its agents may access and monitor my use of the Internet, including my e-mail and downloaded material, without prior notice to me. I further understand that should I commit any violation, my access privileges may be revoked, and school disciplinary action and/or appropriate legal action may be taken. In consideration for using the District's electronic network connection and having access to public networks, I hereby release the School District and its School Board members, employees, and agents from any claims and damages arising from my use of, or inability to use the Internet.

*** Students are required to have a parent/guardian read and agree to the following:**

I have read this *Authorization for Electronic Network Access*. I understand that access is designed for educational purposes and that the District has taken precautions to eliminate controversial material. However, I also recognize it is impossible for the District to restrict access to all controversial and inappropriate materials. I will hold harmless the District, its employees, agents, or Board members, for any harm caused by materials or software obtained via the network. I accept full responsibility for supervision if and when my child's use is not in a school setting. I have discussed the terms of this *Authorization* with my child. I hereby request that my child be allowed access to the District's Internet.
