

Local Wellness Policy: Triennial Assessment Template

Background Information

An assessment of your school wellness policy must be conducted a minimum of once every three years; however, Local Educational Agencies (LEAs) may assess their policy more frequently if they wish. The results of the assessment must be made available to the public.

Purpose

The template below is offered as a way to summarize the information gathered during your assessment. Members of a school wellness committee who are completing their triennial assessment for their school wellness policy may use this template. It contains the three required components of the triennial assessment, including 1) compliance with the wellness policy 2) how the wellness policy compares to model wellness policies 3) progress made in attaining the goals of the wellness policy.

Results

The copy of the assessment must be made available to the public. How the assessment is made available is the decision of the LEA. Many LEA's choose to post the results on their district website. The triennial assessment summary and the assessment details (e.g. WellSAT 3.0 report) must be shared.

Recordkeeping

Keep a copy of the most recent triennial assessment, along with supporting documentation on file. This will be needed when you have a School Nutrition Program administrative review.

 - Physical activity
 - Other school based activities that promote student wellness.
- Standards and nutrition guidelines for all foods and beverages sold to students on the school campus during the school day that are consistent with Federal regulations for school meal nutrition standards, and the Smart Snacks in School nutrition standards.
- Standards for all foods and beverages provided, but not sold, to students during the school day (e.g., in classroom parties, classroom snacks brought by parents, or other foods given as incentives).
- Policies for food and beverage marketing that allow marketing and advertising of only those foods and beverages that meet the Smart Snacks in School nutrition standards.
- Description of public involvement, public updates, policy leadership, and evaluation plan.

Using the tables below, indicate the language that is currently written in the district local wellness policy in relation to each topic area. Next, assess and discuss whether the district is meeting the goal, partially meeting the goal, or not meeting the goal.
