What is a Progressive Web App?

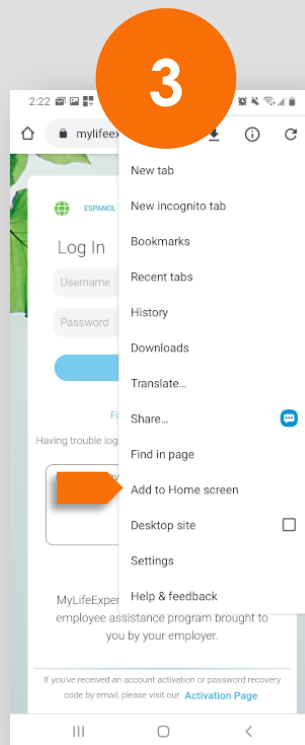

Have you ever seen an "Add to Home Screen" banner, while browsing a website?

When you click the button, the "application" installs itself in the background.

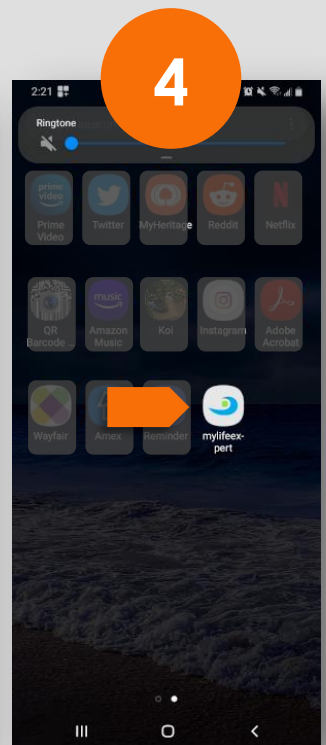

When you open this application that now sits in your app drawer, you can browse the same experience you were doing on your browser, but now right in your mobile phone.

What you have now is a **mobile app** that was downloaded from a web application.

All of this, without even have to visit an app store.

Or select - **Add to Home Screen** in the menu

Wait about 20 sec for the download.
You're now ready to
enjoy **MyLifeExpert**

[MyLifeExpert](https://mylifeexpert.com) is a secure and confidential employee assistance program brought to you by your employer.
