May 28, 2021

On behalf of the Unit 7 Board of Education I want to thank all parents, family members, students, faculty and staff for your patience and understanding during this challenging school year. This has been the most difficult time in our lifetime to date and yet WE did it! We stayed open with a few hiccups along the way but the collective effort of all stakeholders has accomplished something most school districts did not, in-person learning 5 days a week. We had to follow mandates but did the best we could to stay open and educate the children of the Unit 7 School District. Again, as your superintendent of schools, I say thank you for all you had to work through to help make this happen.

Next year will be a new year with a new look on life. The Unit 7 School District will look to get back to a full schedule at all grade levels. Safety will continue to be our number one priority and we will always work towards achieving that goal. Further, we will look to get back to how things were pre- March of 2020; with that being said, there are matters that we will have local control over but there will be things that are out of our control so I will again be asking for your patience and understand as we will continue to be given direction from entities outside district walls. I am confident many of the restrictions that have been placed upon us this last year will continue to loosen but some restrictions may remain in place for next year that are mandated we follow. As we get closer to the start of next school year, more information will be provided at the building level regarding times, schedules and many various activities. I look forward to seeing everyone's smiling faces in the fall. Have an awesome summer.

Sincerely,

Andrew Larson, Unit 7 Superintendent
