The cost is approximately $24.90, payable online at the time of your background check and includes a National Criminal Background check as well as a Child Protection Index search, as required by law. The total cost varies according to how many places (ie. states, counties) that you have lived.

It takes approximately 48 hours for a National Criminal Background check to be completed. The Child Protection Index search portion may take longer to be completed but will not delay the completion of the National Criminal Background check.
