

The Santa Fe R-X school district is taking public comment regarding the development of its 'Safe Return to In-Person Instruction and Continuity of Services Plan (SRCSP)'. The comment period will conclude Friday, June 18th and the plan will be posted to the district website on Monday, June 21st. Generally speaking, this plan will review what safety and disease mitigation strategies the district has employed as well as ongoing strategies in the future. Additionally, the plan confirms the district's stance that its priority will be to continue in-person education for all of our students and families alike. If you would like to provide comment, please contact Superintendent Derek Lark at 660-674-2238.
