Re: Report Cards and Final Grades

Greetings Barneveld Families,

As you may be aware, our access to Powerschool was cut off on May 24, 2021. We apologize that you do not have access to the grades as of right now, and we are actively working with tech support to ensure that we will have accurate grades for the fourth quarter and second semester.

Our normal process is to have grades posted one week after the last day of school. This will be delayed until we have our systems up and running. We are taking every precaution necessary to provide students and families with precise grades that reflect student achievement and learning. Our teaching staff is working very hard to calculate final grades and we will provide you with an update by the end of next week (June 11, 2021) as to the status of this process. Once final grades are posted, you will be notified immediately.

As we complete the data migration to Skyward, we will be able to pull in historical data and import 2020-2021 report card records into our new student data system.

I thank you in advance for your patience and understanding as we work through this matter.

Sincerely,

Joseph Price,
Superintendent
