MANAGEMENT'S DISCUSSION AND ANALYSIS
For the Fiscal Year Ended June 30, 2019**

MANAGEMENT'S DISCUSSION AND ANALYSIS

The management of the District School Board of Martin County has prepared the following discussion and analysis of financial activities for the fiscal year ended June 30, 2019. The intent of this discussion and analysis is to assist the reader in focusing on significant financial issues, provide an overview and analysis of the District's financial activities, identify changes in the District's financial position, identify material deviations from the approved budget, and highlight significant issues in individual funds.

Because the information contained in the Management's Discussion and Analysis (MD&A) is to highlight significant transactions, events, and conditions, it should be considered in conjunction with the District's financial statements and notes to the basic financial statements.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements consist of three components:

1. Government-wide financial statements
2. Fund financial statements
3. Notes to the basic financial statements

This report also contains supplementary information intended to furnish additional details to support the basic financial statements.

Government-wide Financial Statements

The *government-wide financial statements* are designed to provide readers with a broad overview of the District's finances in a manner similar to those of a private-sector business and consist of the following two statements:

- The *statement of net position* presents information on most of the District's assets plus deferred outflows of resources and liabilities plus deferred inflows of resources, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the District is strengthening or weakening.
- The *statement of activities* presents information showing how the government's net position changed during the 2018-19 fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., earned but unused vacation leave).

The statement of activities presents functions of the District that are principally supported by taxes and intergovernmental revenues (*governmental activities*). The governmental activities of the District include educational programs (basic, vocational, adult, and exceptional education), and school support functions such as transportation, facilities, and administration.

The government-wide financial statements include not only the District itself (known as the primary government), but also the Hope Center for Autism, Inc., charter school. Although a legally separate organization, the component unit is included in this report because it meets the criteria for inclusion provided by generally accepted accounting principles. Financial information for the component unit is reported separately from the financial information presented for the primary government. The Martin County School Board Leasing Corporation (Leasing Corporation) was formed to facilitate financing for the acquisition of facilities and equipment as further discussed in Note VII B. Due to the substantive economic relationship between the Board and the Leasing Corporation, the financial activities of the Leasing Corporation are included in the accompanying basic financial statements. Separate financial statements for the Leasing Corporation are not published.

Fund Financial Statements

Fund financial statements are one of the components of the basic financial statements. A fund is a grouping of related accounts that are used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements and prudent fiscal management. Certain funds are established by law while others are created by legal agreements, such as bond covenants. Fund financial statements provide detailed information about the District's financial activities, focusing on its most significant or "major" funds rather than fund types. This is in contrast to the entity-wide perspective contained in the government-wide statements. All of the District's funds may be classified within one of two broad categories: governmental funds or fiduciary funds.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements; however, the governmental funds utilize a spendable financial resources measurement focus rather than the economic resources measurement focus found in the government-wide financial statements. The financial resources measurement focus allows the governmental fund statements to provide information on *near-term inflows and outflows of spendable resources*, as well as *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for the governmental funds with similar information presented for governmental activities in the

government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*. The governmental funds balance sheet and statement of revenues, expenditures, and changes in fund balances provide detailed information about the District's most significant funds. The District's major funds are the General, Capital Projects - Local Capital Improvement Tax Funds and Capital Projects – Other Capital Projects Funds. Data from the other seven governmental funds is combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements in the supplementary information section of this report.

The District adopts annual budgets for its governmental funds. Budgetary to actual comparisons have been provided for these funds (both major and non-major) to demonstrate budgetary compliance.

Fiduciary Funds

Fiduciary funds are used to report assets held in a trustee or fiduciary capacity for the benefit of external parties, such as student activity funds. Fiduciary funds are not reflected in the government-wide statements because the resources of those funds are not available to support the District's own programs. In its fiduciary capacity, the District is responsible for ensuring that the assets reported in these funds are used only for their intended purposes. The District reports the following fiduciary fund types:

- Pension Trust Fund – to account for resources used to finance the early retirement program.
- Private-Purpose Trust Funds – to account for resources of various scholarship trust funds.
- Agency Funds – to account for resources held for student activities and groups.

Notes to the Basic Financial Statements

The notes provide additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements.

Other Information

Combining statements referred to earlier, present a more detailed view of nonmajor funds used in governmental funds. This section includes budget to actual schedules for nonmajor special revenue, debt service, and capital projects funds. Also included are statements for agency funds.

FINANCIAL HIGHLIGHTS

Key financial highlights for the 2018-19 fiscal year are as follows:

Government-wide Statements

- The District's assets and deferred outflows exceed its liabilities and deferred inflows at June 30, 2019, by \$302.7 million (*net position*).
- The District's total net position increased by \$20.3 million, which represents a 7.2 percent increase from the 2017-18 fiscal year. This change is primarily attributable to the increase in current assets.
- General revenues total \$223.2 million, or 93.1 percent of all revenues. Program specific revenues in the form of charges for services, operating grants and contributions, and capital grants and contributions total \$16.6 million, or 6.9 percent of all revenues. The property taxes levied in total for operational and capital purposes increased over prior year due to the increase in the taxable values for the County. The district also passed a local sales tax levy for which collections began during the 2018-19 fiscal year resulting in new revenue for capital purposes of \$7.1 million.
- Expenses total \$211.8 million; \$16.6 million of these expenses are offset by program specific charges, with the remainder paid from the general revenues. Total revenues exceed total expenses by \$28.1 million.

Fund Statements

- At June 30, 2019, the District's governmental funds report combined ending fund balances of \$112.7 million, an increase of \$41.0 million.
- At June 30, 2019, assigned and unassigned fund balance of the General Fund, representing the net current financial resources available for general appropriations by the Board, totals \$19.5 million or 11.3 percent of total General Fund revenues before carryforward of prior year encumbrances and other obligations.

| Total net position | <u>\$ 302,718,300</u> | <u>\$ 282,464,527</u> | 7.2% |

The largest portion of the District's net position (\$360.7 million) reflects its investment in capital assets (e.g., land, buildings, furniture, fixtures, and equipment) less any related outstanding debt used to acquire those assets. The District uses these capital assets to provide services to students; consequently, these assets are not available for future spending. Although the District's investment in its capital assets are reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate liabilities.

An additional portion of the District's net position, \$81.8 million, represents resources that are subject to external restrictions on how they may be used. The District's unrestricted net position balance is negative because of the District's future liabilities for employee compensated absences, other postemployment benefits, and pension plan obligations; however, the District has sufficient current assets to meet its current obligations.

Restricted net position increased \$29.7 million from June 30, 2018, to June 30, 2019. This net position represents restrictions from specific revenue sources and grants. The deficit in unrestricted net position in the governmental type activities remained level.

The key elements of the changes in the District's net position for the fiscal years ended June 30, 2019, and June 30, 2018 are as follows:

FUND FINANCIAL ANALYSIS

The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Major Governmental Funds

The focus of the District's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable resources*. Such information is useful when assessing the District's financing requirements. For example, *unassigned fund balance* may serve as a useful measure of the District's resources available to finance future contracts or services.

District School Board of Martin County, Florida
Fund Balance

| | 2019 | 2018 |
|------------------------|----------------|---------------|
| Fund balance: | | |
| Nonspendable | \$ 626,902 | \$ 637,768 |
| Restricted | 81,561,722 | 51,405,588 |
| Committed Fund Balance | 11,007,231 | - |
| Assigned | 4,805,389 | - |
| Unassigned | 14,699,321 | 19,687,081 |
| Total fund balance | \$ 112,700,565 | \$ 71,730,437 |

As of the end of the 2018-19 fiscal year, the District’s governmental funds reported combined ending fund balances of \$112.7 million, an increase of \$41.0 million in comparison with the prior fiscal year. \$29.8 million of the government-wide increase in fund balance was attributable to capital funds revenue in excess of expenditures due to timing. An additional \$11.0 million was due to operating millage levy collections (restricted as of the end of the 2018-19 fiscal year).

Major Funds

The General, Capital Projects - Local Capital Improvement Tax and Capital Projects – Other Capital Projects Funds were reported as major funds.

The General Fund is the chief operating fund of the District. The General Fund has an increase in fund balance of \$10.7 million, primarily due to operating millage levy collections (restricted as of the end of the 2018-19 fiscal year) and lapsed budgetary allocations including salaries and benefits. The total fund balance is \$35.5 million, of which \$14.7 million is unassigned. As a measure of the General Fund’s liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund revenues. Unassigned fund balance represents 11.3 percent of total General Fund operating revenue before carryovers and prior year encumbrances, while total fund balance represents 6.1 percent of that same amount.

The Capital Projects – Local Capital Improvement Tax Fund has an increase in fund balance of \$22.2 million to a total fund balance of \$57.2 million, which is restricted for acquisition, construction, and maintenance of capital assets. The increase is primarily due to major projects currently in architectural/engineering design phases.

The Capital Projects – Other Capital Projects Fund has an increase in fund balance of \$6.9 million to a total fund balance of \$14.2 million, which is restricted for acquisition, construction, and maintenance of capital assets. The increase is due to major projects to be funded by the local sales tax levy currently in architectural/engineering design phases.

Nonmajor Funds

The nonmajor governmental funds consist of Special Revenue – Food Service, Special Revenue – Other Federal Projects, Special Revenue – Other Miscellaneous, debt service, and capital projects funds. Fund balance of these funds decreased by \$6.1 million or 51.3 percent from the previous fiscal year due primarily to debt service payments and reclassification of Capital Projects – Other Capital Projects fund to major funds for fiscal year 2018-19. The total fund balance of \$5.8 million is restricted for specific programs.

The Special Revenue – Food Services accounts for and report on activities of the food service program when serving breakfast, lunch, and dinner at the schools. The fund balance increased by 15.0 percent or \$0.4 million.

The Special Revenue – Other Federal Programs Fund accounts for the financial resources of certain Federal grant programs. Revenues and expenditures totaled \$11.8 million each, a 4 percent increase over the 2017-18 fiscal year, primarily due to increased expenditures of program awards. Because revenues are recognized to the extent of allowable expenditures, this fund does not generally accumulate fund balance.

GENERAL FUND BUDGETARY HIGHLIGHTS

During the course of the 2018-19 fiscal year, the District amended its General Fund budget monthly. Budget revisions were due primarily to the need to record prior year carryforward budgets and adjust planned expenditures to ensure maintenance of an adequate fund balance and compliance with State-mandated class-size reduction.

A final budget amendment was approved after year-end. The Board is authorized by State statute to make budget amendments up to the date that the District's Annual Financial Report is approved. The District typically elects to amend its budget to at that time to ensure that all revenue and/or expenditure adjustments which are necessary for the annual financial report are covered by the budget amendments.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

Local property taxes are the District's primary source of revenue. The required local effort (RLE) for the 2018-19 fiscal year is projected to be 3.900 mills (a decrease of 0.214 mills), the discretionary millage is projected to be .748 mills, additional voted millage is projected to be 0.500 mills and the capital outlay millage is projected to be 1.500 mills. General Fund revenues and other financing sources are projected to be at \$174.0 million, transfers in from Capital Projects are projected to be \$15.9 million, and expenditures are expected to be \$185.4 million.

Approximately 94 percent of total General Fund revenues are from the State of Florida and local taxes; therefore, economic condition at the national, state, and local levels will affect the general operating funds and activities of the District. Changes in levels of tourism, immigration into the State of Florida, and unemployment may affect the State revenue streams, which in turn, will affect District revenue streams.

- The unemployment rate for Martin County is currently 3.5 percent, which is a slight decrease from the rate of 3.6 percent a year ago.
- Student enrollment (K-12) increased from 18,565 in September 2018 to an estimated 19,382 in September 2019. This is primarily attributable to the opening of Treasure Coast Classical Academy charter school in the 2019-20 school year. The new charter school has attracted home school and private school students into the Martin County public school system.
- The Martin County population grew from 146,852 in the prior year to 160,912 according to U.S. Census estimates.

**DISTRICT SCHOOL BOARD OF MARTIN COUNTY
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE
GOVERNMENT-WIDE STATEMENT OF ACTIVITIES
For the Fiscal Year Ended June 30, 2019**

Net Change in Fund Balances - Governmental Funds \$ 40,970,129

Amounts reported for *governmental activities* in the statement of activities are different because:

Governmental funds report capital outlays as expenditures; however, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as a depreciation expense. This is the amount of depreciation expense in excess of capital outlays in the current period.

| | | |
|---------------------------|---------------------|--------------|
| Capital Outlay | \$ 3,851,508 | |
| Less depreciation expense | <u>(14,403,862)</u> | (10,552,354) |

The statement of activities reflects only the gain/loss on the sale of assets, whereas the governmental funds include all proceeds from these sales. Thus, the change in net position differs from the change in fund balances by the cost of assets sold. (12,244)

The District's portion of equity held in the risk management consortium is recognized in the government-wide statement of activities, but not in the governmental funds. This is the decrease in the District's equity in the consortium. (125,146)

In the statement of activities, the cost of compensated absences is measured by the amounts earned during the year, while in the governmental funds expenditures are recognized based on the amounts actually paid for leave used. This is the net amount of vacation and sick leave earned minus the amount paid in the current period. 5,219

Debt proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. Premiums and refunding costs are reported in the governmental funds in the year the debt is issued, but are deferred and amortized over the life of the debt in the government-wide statements. The difference is the amount by which repayments exceeded proceeds in the current period.

| | | |
|----------------------------------|----------------|-----------|
| Refunded COPs redeemed | \$ 1,375,000 | |
| Refunded COPs premiums amortized | 190,201 | |
| Inception of capital lease | (189,810) | |
| Capital lease repayments | 115,691 | |
| Bond repayments | <u>705,000</u> | 2,196,082 |

Refunding costs are reported in the governmental funds in the year the debt is issued, but are deferred and amortized over the life of the debt in the government-wide statements. This is the decrease in the net carrying amount of debt refunding for the current period. (80,456)

Expenses for other postemployment benefits in the statement of activities that do not require the use of current financial resources, are not reported in the governmental funds.

| | | |
|---------------------------|------------|---------|
| Current year expense | \$ 530,326 | |
| Current year contribution | <u>-</u> | 530,326 |

Governmental funds report pension contributions as expenditures. However, in the statement of activities, the cost of pension benefits earned net of employee contributions is reported as pension expense.

| | | |
|-----------------------|---------------------|--------------------|
| Pension contributions | \$ 8,404,884 | |
| Pension expense | <u>(13,275,063)</u> | <u>(4,870,179)</u> |

Change in Net Position of Governmental Activities \$ 28,061,377

DISTRICT SCHOOL BOARD OF MARTIN COUNTY
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
For the Fiscal Year Ended June 30, 2019

The district is encouraged to use the notes to required supplementary information from the prior fiscal year audit as a guide for the current year's notes to required supplementary information for consistency in financial statement presentation.

NOTE I - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The Martin County District School Board (Board) has direct responsibility for operation, control, and supervision of District schools and is considered a primary government for financial reporting. The Martin County School District (District) is considered part of the Florida system of public education, operates under the general direction of the Florida Department of Education (FDOE) and is governed by State law and State Board of Education (SBE) rules. The governing body of the District is the Board, which is composed of five elected members. The elected Superintendent of Schools is the executive officer of the Board. Geographic boundaries of the District correspond with those of Martin County.

Criteria for determining if other entities are potential component units that should be reported within the District's basic financial statements are identified and described in the Governmental Accounting Standards Board's (GASB) *Codification of Governmental Accounting and Financial Reporting Standards*, Sections 2100 and 2600. The application of these criteria provides for identification of any legally separate entities for which the Board is financially accountable and other organizations for which the nature and significance of their relationship with the School Board are such that the exclusion would cause the District's basic financial statements to be misleading. Based on these criteria, the following component units are included within the District's reporting entity:

Blended Component Unit

The Martin County School Board Leasing Corporation (Leasing Corporation) was formed to facilitate financing for the acquisition of facilities and equipment as further discussed in Note VII B. Due to the substantive economic relationship between the Board and the Leasing Corporation, the financial activities of the Leasing Corporation are included in the accompanying basic financial statements. Separate financial statements for the Leasing Corporation are not published.

Discretely Presented Component Unit

The Hope Center for Autism, Inc., is a separate not-for-profit corporation organized pursuant to Chapter 617, Florida Statutes, the Florida Not For Profit Corporation Act, and Section 1002.33, Florida Statutes. The Hope Center for Autism, Inc., operates under a charter approved by its sponsor, the Martin County School Board and is considered to be a component unit because the District is financially accountable for the charter school as the District established the charter school by approval of the charter, which is tantamount to the initial appointment of the charter school, and there is the potential for the charter school to provide specific financial burdens on the District. In addition, pursuant to the Florida Constitution, the charter school is a public school and the District is responsible for the operation, control, and supervision of public schools within the District. A copy of the separate financial statements for the charter school is available at the District's administrative office.

The District also considered the Clark Advanced Learning Center Charter School operated by Indian River State College for inclusion in its reporting entity; however, because the Clark Advanced Learning Center is an operating component unit of the College and is not a separate legal entity, it does not meet the criteria for inclusion as a District component unit. The charter school's financial statements were audited by an independent certified public accountant and are filed in the District's administrative office, 500 East Ocean Boulevard, Stuart, FL 34994.

B. Government-wide and Fund Financial Statements – Basis of Presentation

The basic financial statements of the District are composed of the following:

- Government-wide financial statements
- Fund financial statements
- Notes to the basic financial statements

1. Government-wide Financial Statements

Government-wide financial statements (the Statement of Net Position and the Statement of Activities) report information about the School District as a whole. These statements include the non-fiduciary financial activity of the primary government and its component units.

Government-wide financial statements include separate columns for the primary government and its component units. *Governmental activities* are supported by taxes and intergovernmental revenues. The primary government is reported separately from the legally separate *component units* for which the primary government is financially accountable.

The statement of activities presents a comparison between direct expenses and program revenues for each function or program of the District's governmental activities. *Direct expenses* are those that are specifically associated with a service, program, or department and are thereby clearly identifiable to a particular function. Depreciation expense, if not specifically associated with a particular function, is reported as unallocated. *Program revenues* include charges paid by the recipient of the goods or services offered by the program and grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues are presented as *general revenues*. The comparison of direct expenses with program revenues identifies the extent to which each governmental function is self-supporting or draws from the general revenues of the District.

As a general rule, the effects of interfund activity have been eliminated from the government-wide financial statements. Exceptions to this general rule are when eliminations would distort the direct costs and program revenues reported for the various functions concerned.

2. Fund Financial Statements

The financial records of the District are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprises its assets, liabilities, fund equity, revenue and expenditures or expenses, as appropriate. Government resources are allocated to, and accounted for, in individual funds based upon the purposes for which they are to be spent and the means by which spending activities are controlled.

Fund financial statements for the District's governmental and fiduciary funds are presented after the government-wide financial statements. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is reported in a separate column. Nonmajor funds are aggregated and reported in a single column. The fiduciary fund statements include financial information for the agency funds, the pension trust fund, and private purpose trust funds. The agency funds of the District primarily represent assets held by the District in a custodial capacity for other individuals.

District School Board of Martin County, Florida
Notes to the Basic Financial Statements
June 30, 2019

Because the focus of governmental fund financial statements differs from the focus of government-wide financial statements, a reconciliation is presented with each of the governmental fund financial statements.

The District reports the following major governmental funds:

- General Fund – to account for all financial resources not required to be accounted for in another fund, and for certain revenues from the State that are legally restricted to be expended for specific current operating purposes.
- Capital Projects – Local Capital Improvement Tax Fund – to account for the financial resources generated by the local capital improvement tax levy to be used for educational capital outlay needs, including new construction, renovation and remodeling projects, maintenance, repairs, and site improvement.
- Capital Projects – Other Capital Improvements Funds - to account for the financial resources generated by the local sales tax levy, impact fees, fuel tax rebates and other miscellaneous sources to be used for educational capital outlay needs, including new construction, renovation and remodeling projects, maintenance, repairs, and site improvement.

Additionally, the District reports the following fiduciary fund types:

- Pension Trust Fund – to account for resources used to finance the Early Retirement Plan (ERP).
- Private-Purpose Trust Funds – to account for resources of the following scholarship trust funds: M.H. Correll Research Trust Fund; T.L. Showalter Scholarship Trust Fund; J.M. Phillips, Jr., Memorial Trust Fund; Clara Neuman Scholarship Trust Fund; Dr. Tom Goodman Scholarship Trust Fund; Cecele S. Gryl Trust Fund; and Nonendowment Scholarship Trust Fund.
- Agency Funds – to account for resources of the school internal funds which are used to administer moneys collected at the several schools in connection with school, student athletic, class, and club activities.

Noncurrent Governmental Assets/Liabilities

Generally Accepted Accounting Principles (GAAP) require noncurrent governmental assets, such as land and buildings, noncurrent governmental liabilities such as bonds and capital leases, to be reported in the governmental activities column in the government-wide Statement of Net Position.

C. Measurement Focus and Basis of Accounting

1. Government-wide Financial Statements

Basis of accounting refers to when revenues and expenditures, or expenses, are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The government-wide financial statements and fiduciary fund financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*. Under the accrual basis of accounting, revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Revenues, expenses, gains, losses, assets, and liabilities resulting from nonexchange transactions are recognized in accordance with

the requirements of GAAP. Revenues from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements imposed by the provider have been satisfied.

Amounts paid to acquire capital assets are capitalized as assets in the government-wide financial statements, rather than reported as expenditures. Proceeds of long-term debt are recorded as liabilities in the government-wide financial statements, rather than as an “other financing source”. Amounts paid to reduce the District’s long-term indebtedness are reported as a reduction of related liability, rather than as expenditures.

2. Governmental Fund Financial Statements

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues, except for certain grant revenues, are recognized when they become measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. The District considers revenues to be available if they are collected within 30 days of the end of the current fiscal year. Taxes, grants, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. When grant terms provide that the expenditure of resources is the prime factor for determining eligibility for Federal, State, and other grant resources, revenue is recognized at the time the expenditure is made. Under the modified accrual basis of accounting, expenditures are generally recognized when the related fund liability is incurred, except for principal and interest on long-term debt, claims and judgments, other postemployment benefits, and compensated absences, which are recognized when due. Amounts expended to acquire capital assets are recorded as expenditures in the year that resources were expended, rather than as fund assets. Allocations of cost, such as depreciation, are not recognized in governmental funds.

Under the current financial resources measurement focus, only current assets and current liabilities are generally included on the balance sheet. The reported fund balance is considered to be a measure of “available spendable resources”. Governmental funds operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of “available spendable resources” during a period.

When both restricted and unrestricted resources are available for use, it is the District’s policy to use restricted resources first, then unrestricted resources as they are needed. When committed, assigned, or unassigned resources are available for use in governmental fund financial statements, it is the District’s policy to use committed resources first, followed by assigned resources, and then unassigned resources as they are needed.

Because of their spending measurement focus, expenditure recognition for governmental fund types excludes amounts represented by noncurrent liabilities. Since they do not affect net current assets, such long-term amounts are not recognized as governmental fund type expenditures or fund liabilities.

3. Fiduciary Fund Financial Statements

Fiduciary fund statements include trust funds and agency funds. All trust funds use the economic resources measurement focus and accrual basis of accounting. Agency funds are unlike all other types

District School Board of Martin County, Florida
Notes to the Basic Financial Statements
June 30, 2019

of funds and report only assets and liabilities. So, agency funds do not have a measurement focus, but do use an accrual basis of accounting to recognize receivables and payables.

4. Component Unit

The Hope Center for Autism, Inc. (charter school), shown as a discretely presented component unit, is accounted for as a governmental organization and follows the same accounting model as the District's governmental activities.

D. Assets, Liabilities, Deferred Inflows/Outflows of Resources, and Net Position/Fund Balance

1. Deposits and Investments

Cash deposits are held by banks qualified as public depositories under Florida law. All deposits are insured by Federal depository insurance and collateralized with securities held in Florida's multiple financial institution collateral pool as required by Chapter 280, Florida Statutes. The District considers cash as those accounts used as demand deposit accounts and considers cash equivalents as those amounts on deposit in money market funds and amounts placed in the State Board of Administration's (SBA) Florida Local Government Surplus Funds Trust Fund ("Florida PRIME"), except that money market funds in the Pension Trust Fund are not classified as cash equivalents. This investment pool operates under investment guidelines established by Section 215.47, Florida Statutes. The District's investments in Florida PRIME, which the SBA indicates is a Securities and Exchange Commission Rule 2a7 like external investment pool, as of June 30, 2019, are similar to money market funds in which shares are owned in the fund rather than the underlying investments. These investments are reported at fair value, which is amortized cost.

The Board has a formal investment policy. The purpose of this policy is to set forth the investment objectives and parameters for the management of the District's public funds. These policies are designed to ensure the prudent management of public funds, the availability of operating and capital funds when needed, and an investment return competitive with comparable funds and financial market indices. The District's investment policy limits investments to a maximum of 5 years or less.

In accordance with Section 218.415, Florida Statutes, this investment policy applies to all cash and investments held or controlled by the District and shall be identified as "Pooled Funds" of the District with the exception of pension funds and funds related to the issuance of debt where there are other existing policies or indentures in effect for such funds. Funds held by State agencies (e.g., FDOE) are not subject to the provisions of this policy.

The foremost objective of this investment program is the safety of the principal of those funds within the portfolios. Investment transactions shall seek to keep capital losses at a minimum, whether they are from securities defaults or erosion of market value. The second highest priority is liquidity of funds, and the third highest priority is investment income.

Investments consist of amounts placed in SBA Debt Service accounts for investment of debt service moneys and with SBA for participation in the Florida PRIME investment pool.

Section 218.45, Florida Statutes, limits the types of investments that the District can invest in unless specifically authorized in the District's investment policy. The District has a formal investment policy that allows for the following investments: Florida PRIME, United States Government securities, United States Government agencies, Federal instrumentalities (United States Government sponsored agencies),

District School Board of Martin County, Florida
Notes to the Basic Financial Statements
June 30, 2019

interest bearing time deposit or savings accounts, repurchase agreements, commercial paper, bankers' acceptances, state and/or local government taxable and/or tax-exempt debt, registered investment companies (money market mutual funds), intergovernmental investment pools, and corporate obligations in the FDIC's Temporary Liquidity Guarantee Program.

Investments made locally for the ERP and the Certificates of Participation, Series 2014A are reported at fair value. Types and amounts of investments held at fiscal year-end are described in a subsequent note on investments.

2. Inventories and Prepaid Items

Inventories consist of expendable supplies held for consumption in the course of District operations. Warehouse inventories are stated at weighted average unit cost. Food service inventories are stated at the last invoice cost, which approximates the first-in, first-out basis, except that United States Department of Agriculture surplus donated foods are stated at their fair value as determined at the time of donation to the District's food service program by the Florida Department of Agriculture and Consumer Services, Bureau of Food Distribution. The costs of inventories are recorded as expenditures when consumed on government-wide financial statements and as expenditures when purchased on fund financial statements. However, inventory and prepaid balances are offset on the balance sheet by nonspendable fund balance accounts to indicate that they do not constitute available expendable resources, even though they are components of current assets.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both the government-wide and fund financial statements. The costs of prepaid items are recorded as expenditures when consumed.

3. Capital Assets

Expenditures for capital assets acquired or constructed for general District purposes are reported in the governmental fund that financed the acquisition or construction. The capital assets so acquired are reported at cost in the government-wide statement of net position but are not reported in the governmental fund financial statements. Capital assets are defined by the District as those costing more than \$1,000. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated assets are recorded at fair value at the date of donation. Buildings and fixed equipment totaling \$24,106,121 acquired or constructed prior to the 1979-80 fiscal year are stated at estimated historical cost using FDOE average square foot construction costs for the year of acquisition or construction.

Interest costs incurred during construction of capital assets are not considered material and are not capitalized as part of the cost of construction.

District School Board of Martin County, Florida
Notes to the Basic Financial Statements
June 30, 2019

Capital assets are depreciated using the straight-line method over the following estimated useful lives:

| <u>Assets</u> | <u>Years</u> |
|--|--------------|
| Improvements Other than Building | 10 - 40 |
| Buildings and Fixed Equipment | 50 |
| Furniture, Fixtures, and Equipment | 3 - 15 |
| Motor Vehicles | 5 - 10 |
| Property Under Capital Lease | 6 |
| Audio Visual Materials and Computer Software | 3 - 5 |

Current year information relative to changes in capital assets is described in a subsequent note.

4. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position has a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to future periods and so will *not* be recognized as an outflow of resources (expense/expenditure) until then. The District has two items that qualify for reporting in this category. The first is the deferred charge on refunding reported in the government-wide statement of net position. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The second is the deferred amount on pensions reported in the government-wide statement of net position. The deferred outflows of resources related to pensions are discussed in a subsequent note.

In addition to liabilities, the statement of net position reports a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will *not* be recognized as an inflow of resources (revenue) until that time. The District had one item that qualifies for reporting in this category. The deferred amount on pensions result from the difference in the expected and actual amounts of experience, earnings, and contributions. The deferred inflows of resources related to pensions are discussed in a subsequent note.

5. Compensated Absences

The District accrues accumulated unpaid vacation and sick leave when earned by the employee. The District's employee vacation and sick leave policies provide for the granting of a specific number of days of vacation based on years of service and governed by applicable labor contracts and sick leave with pay per each month of employment. Employees will be paid in one lump sum for accrued annual (vacation) leave as of last day of employment not to exceed the 60 day maximum allowable balance. A maximum of 500 hours of annual leave may be accrued by employees, except those with balances exceeding 500 as of June 30, 1988, which will be the balance accrued as of June 30, 1988. Compensated absences are reported in the governmental funds only if they have matured. The amount estimated to be paid in the following year is the current amount. The amount estimated to be paid in subsequent fiscal years is the noncurrent amount. The current and noncurrent amounts for governmental funds are maintained separately and represent a reconciling item between the fund and government-wide presentations. A liability is reported in the governmental fund financial statements only for the current portion of compensated absences expected to be paid using expendable available resources.

6. Other Long-Term Liabilities

Long-term obligations that will be financed from resources to be received in the future by governmental funds are reported as liabilities in the government-wide statement of net position. In the governmental fund financial statements, bonds and other long-term obligations are not recognized as liabilities until due.

7. Pensions

In the government-wide statement of net position, liabilities are recognized for the District's proportionate share of each pension plan's net pension liability. For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Florida Retirement System (FRS) defined benefit plan, the Health Insurance Subsidy (HIS) defined benefit plan, and the ERP and additions to/deductions from the net position have been determined on the same basis as they are reported by the plans. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with benefit terms. Investments are reported at fair value. The District's retirement plans and related amounts are described in a subsequent note.

E. Revenue Sources

1. State Revenue Sources

Significant revenues from State sources for current operations include the Florida Education Finance Program administered by the FDOE under the provisions of Section 1011.62, Florida Statutes. In accordance with this law, the District determines and reports the number of full-time equivalent (FTE) students and related data to the FDOE. The FDOE performs certain edit checks on the reported number of FTE and related data, and calculates the allocation of funds to the District. The District is permitted to amend its original reporting for a period of 5 months following the date of the original reporting. Such amendments may impact funding allocations for subsequent years. The FDOE may also adjust subsequent fiscal period allocations based upon an audit of the District's compliance in determining and reporting FTE and related data. Normally, such adjustments are treated as reductions or additions of revenue in the year when the adjustments are made.

The State provides financial assistance to administer certain educational programs. SBE rules require that revenue earmarked for certain programs be expended only for the program for which the money is provided, and require that the money not expended as of the close of the fiscal year be carried forward into the following year to be expended for the same educational programs. The FDOE generally requires these educational program revenues be accounted for in the General Fund. A portion of the fund balance of the General Fund is restricted in the governmental fund financial statements for the balance of categorical and earmarked educational program resources.

The State allocates gross receipts taxes, generally known as Public Education Capital Outlay money, to the District on an annual basis. The District is authorized to expend these funds only upon applying for and receiving an encumbrance authorization from the FDOE. A schedule of revenues from State sources for the current year is presented in a subsequent note.

2. District Property Taxes

The Board is authorized by State law to levy property taxes for district school operations, capital improvements, and debt service.

Property taxes consist of ad valorem taxes on real and personal property within the District. Property values are determined by the Martin County Property Appraiser, and property taxes are collected by the Martin County Tax Collector.

The Board adopted the 2018 tax levy on September 6, 2018. Tax bills are mailed in October and taxes are payable between November 1 of the year assessed and March 31 of the following year at discounts of up to 4 percent for early payment.

Taxes become a lien on the property on January 1, and are delinquent on April 1, of the year following the year of assessment. State law provides for enforcement of collection of personal property taxes by seizure of the property to satisfy unpaid taxes, and for enforcement of collection of real property taxes by the sale of interest-bearing tax certificates to satisfy unpaid taxes. The procedures result in the collection of essentially all taxes prior to June 30 of the year following the year of assessment.

Property tax revenues are recognized in the government-wide financial statements when the Board adopts the tax levy. Property tax revenues are recognized in the governmental fund financial statements when taxes are received by the District, except that revenue is accrued for taxes collected by the Martin County Tax Collector at fiscal year-end but not yet remitted to the District.

Millage and taxes levied for the current year are presented in Note III.

3. Federal Revenue Sources

The District receives Federal awards for the enhancement of various educational programs. Federal awards are generally received based on applications submitted to, and approved by, various granting agencies. For Federal awards in which a claim to these grant proceeds is based on incurring eligible expenditures, revenue is recognized to the extent that eligible expenditures have been incurred.

4. Educational Impact Fees

The District receives educational impact fees based on an ordinance adopted by the Martin County Commission on July 25, 1995, and amended on February 5, 2008. The educational impact fees are collected by the County for most new residential construction. The fees shall be used solely for the purpose of capital costs of educational facilities, including repayment of indebtedness for such facilities. The authorized uses include, but are not limited to, school planning and design, land acquisition, site improvements, buildings, and capital equipment with an expected useful life of 3 years or longer, but excludes maintenance and operations.

F. FUND BALANCE REPORTING

GASB Statement No. 54, *Fund Balance Reporting and Governmental Fund Types Definitions*, establishes hierarchy for fund balance classifications and the constraints imposed on the uses of the resources. The District reports its governmental fund balances in the following categories, as applicable:

District School Board of Martin County, Florida
Notes to the Basic Financial Statements
June 30, 2019

Nonspendable

The net current financial resources that cannot be spent because they are either not in spendable form or are legally or contractually required to be maintained intact. Generally, not in spendable form means an item is not expected to be converted to cash. Examples of items that are not in spendable form include inventory, prepaid amounts, long-term amounts of loans and notes receivable, and property acquired for resale. The District classifies its amounts reported as inventories, and prepaid amounts as nonspendable.

Restricted

The portion of fund balance on which constraints have been placed by creditors, grantors, contributors, laws or regulations of other governments, constitutional provisions, or enabling legislation. Restricted fund balance places the most binding level of constraint on the use of fund balance. The District classifies most of its fund balances other than General Fund as restricted, as well as unspent State categorical and earmarked educational funding reported in the General Fund, that are legally or otherwise restricted.

Committed

The portion of fund balance that can only be used for specific purposes pursuant to constraints imposed by formal action of the highest level of decision-making authority (i.e. the Board). These amounts cannot be used for any other purpose unless the Board removes or changes the specified use by taking the same action it employed to previously commit the amounts. The District classifies earmarked local voted millage levy funds as committed through board action.

Assigned

The portion of fund balance that is intended to be used for specific purposes, but is neither restricted nor committed. Assigned amounts include those that have been set aside for a specific purpose by an authorized government body or official, but the constraint imposed does not satisfy the criteria to be classified as restricted or committed. The District does not have a policy regarding the assignment of fund balance. The Board authorizes the Superintendent and the Director of Finance to assign fund balance by approval of the annual financial report.

Unassigned

The portion of fund balance that is residual classification for the General Fund. This balance represents amounts that have not been assigned to other funds and that have not been restricted, committed, or assigned for specific purposes.

The following is a schedule of fund balances by category at June 30, 2019:

NOTE II – STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

A. Budgetary Basis of Accounting

The Board follows procedures established by State statutes and SBE rules in establishing budget balances for governmental funds as described below:

1. Budgets are prepared, public hearings are held, and original budgets are adopted annually for all governmental fund types in accordance with procedures and time intervals prescribed by law and SBE rules.
2. Appropriations are controlled at the object level (e.g., salaries, purchased services, and capital outlay) within each function level (e.g., instruction, student support services, and school administration) and may be amended by resolution at any Board meeting prior to the due date for the annual financial report.

District School Board of Martin County, Florida
Notes to the Basic Financial Statements

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District’s investment policy provides that investments of current operating funds shall have maturities of no longer than twelve (12) months. Investments of reserves, project funds, debt proceeds and other non-operating funds (“core fund”) shall have a term appropriate to the need for funds and in accordance with debt covenants, but in no event shall exceed five (5) years and the average duration of the funds as a whole may not exceed three (3) years.

The District utilizes “weighted average maturity” as a measurement of interest rate risk and as of June 30, 2019, the investment portfolio had a weighted average maturity of .1 03510 years.

Credit Risk

Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Section 218.415(16), Florida Statutes, provides the authority to invest in the SBA Local Government Surplus Funds, Trust Fund, or any intergovernmental investment pool authorized pursuant to the Florida Interlocal Cooperation Act of 1969, and limits investments in money market funds to Securities and Exchange Commission registered money market funds with the highest credit quality rating from a nationally recognized rating agency, and investments in interest-bearing time deposits to qualified public depositories, as defined in Section 280.02, Florida Statutes, and direct obligations of the United States Treasury.

The District invested available certificate of participation funds in AAAM-rated money market funds.

The District’s investment policy permits for investments in the following investments, which are limited to credit quality ratings from nationally recognized rating agencies as follows:

District School Board of Martin County, Florida
Notes to the Basic Financial Statements
June 30, 2019

- The Florida Local Government Surplus Funds Trust Fund (“Florida PRIME”) shall be rated “AAAm” or “AAAm-G” or better by Standards & Poor’s or the equivalent by another rating agency.
- Commercial paper of any United States company that is rated, at the time of purchase, “Prime-1” by Moody’s Investors Service and “A-1” by Standard & Poor’s (prime commercial paper).
- Bankers’ acceptances issued by a domestic bank or a federally chartered domestic office of a foreign bank, which are eligible for purchase by the Federal Reserve System, at the time of purchase, the short-term paper is rated, at a minimum, “P-1” by Moody’s and “A-1” Standard & Poor’s.
- State and/or local government taxable and/or tax-exempt debt, general obligation and/or revenue bonds, rated at least “Aa” by Moody’s and “AA” by Standard & Poor’s for long-term debt, or rated at least “MIG-1” by Moody’s and “SP-1” by Standard & Poor’s for short-term debt.
- Registered investment companies (money market mutual funds) shall be rated “AAAm” by Standard & Poor’s or the equivalent by another rating agency.
- Intergovernmental investment pools shall be rated “AAAm” by Standard & Poor’s or the equivalent rating agency.

The District’s Early Retirement Trust Fund investment policy authorizes the following investments: Domestic and international equities, investment grade fixed income securities, and a not to exceed 30 percent of the overall portfolio in other assets, such as hedge funds, private equity, real estate and commodities, when deemed appropriate. Cash equivalents shall be held in funds complying with Rule 2(a)-7 of the Investment Company Act of 1940.

The District’s investments in SBA Debt Service accounts are to provide for debt service payments on bond debt issued by the SBE for the benefit of the District. The District relies on policies developed by SBA for managing credit risk for this account.

As of June 30, 2019, the District’s money market funds were individually rated AAAm by Standard & Poor’s. The Florida Education Investment Fund was rated AAAm by Standard & Poor’s and fixed income and equity mutual funds are not rated.

Custodial Credit Risk

Custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, the District will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. Section 218.415(18), Florida Statutes, requires the District to earmark all investments and 1) if registered with the issuer or its agents, the investment must be immediately placed for safekeeping in a location that protects the governing body’s interest in the security; 2) if in book entry form, the investment must be held for the credit of the governing body by a depository chartered by the Federal Government, the State, or any other state or territory of the United States which has a branch or principal place of business in this State as defined in 658.12, Florida Statutes, or by a national association organized and existing under the laws of the United States which

District School Board of Martin County, Florida
Notes to the Basic Financial Statements

is authorized to accept and execute trusts and which is doing business in this State, and must be kept by the depository in an account separate and apart from the assets of the financial institution; or 3) if physically issued to the holder but not registered with the issuer or its agents, must be immediately placed for safekeeping in a secured vault. The District's investments in obligations of the United States Government agencies and instrumentalities and corporate debt securities are held by the safekeeping agent, in the name of the District. As of June 30, 2019, the District's investment portfolios were held with a third-party custodian as required by the District's investment policy.

The District's Early Retirement Trust Fund investment policy and Certificates of Participation, Series 2014A, trust agreement, require securities in those funds to be held by a safekeeping agent in the name of the District.

Concentration of Credit Risk

Concentration of credit risk is the risk of loss attributed to the magnitude of the District's investment in a single issuer. The District's investment policy has established asset allocation and issuer limits on the following investments which are designed to reduce concentration of credit risk of the District's investment portfolio. A maximum of 25 percent of available funds, may be invested in the Florida Local Government Surplus Funds Trust Fund ("Florida PRIME"), 100 percent of available funds may be invested in United States Government Securities, 50 percent of available funds may be invested in United States Government agencies with a 25 percent limit on individual issuers, 75 percent of available funds may be invested in Federal instrumentalities with a 30 percent limit on individual issuers, 25 percent of available funds may be invested in interest bearing time deposit or savings accounts with a 15 percent limit on individual issuers, 50 percent of available funds may be invested in repurchase agreements with a 25 percent limit on individual issuers, 35 percent of available funds may be invested in commercial paper with a 10 percent limit on individual issuers, 20 percent of available funds may be invested in state and/or local government taxable and/or tax-exempt debt, 75 percent of available funds may be invested in registered investment companies (money market mutual funds) with a 25 percent limit of individual issuers, 25 percent of available funds may be invested in intergovernmental investment pools, 50 percent of available funds may be invested in corporate obligations issued by financial institutions that participate in the FDIC's Temporary Liquidity Guarantee Program with a 25 percent limit on individual issuers.

The District's Early Retirement Plan (Plan) is governed by a separate investment policy that limits investment in equities to 85 percent of the total portfolio and limits the investment in any single issuer to 5 percent of the total portfolio. No investment by any one issuer represents 5 percent or more of the Plan's assets.

The District entered into a financing arrangement, which was characterized as a lease-purchase agreement, with the Leasing Corporation whereby the District secured financing. The financing was accomplished through the issuance of Certificates of Participation to be repaid from the proceeds of rents paid by the District.

District School Board of Martin County, Florida
Notes to the Basic Financial Statements
June 30, 2019

As a condition of the financing arrangement, the District has given a ground lease on District property to the Leasing Corporation, with a rental fee of \$1 per year. The property covered by the ground lease is, together with the improvements constructed thereon from the financing proceeds, leased back to the District. If the District fails to renew the lease and to provide for the rent payments through to term, the District may be required to surrender the site included under the Ground Lease Agreement for the benefit of the securers of the Certificates for a period of time specified by the arrangement which may be up to 30 years from the date of inception of the arrangement. State School Bonds

These bonds are issued by the SBE on behalf of the District. The bonds mature serially, and are secured by a pledge of the District's portion of the State-assessed motor vehicle license tax. The State's full faith and credit is also pledged as security for these bonds. Principal and interest payments, investment of Debt Service Fund resources, and compliance with reserve requirements are administered by the SBE and the SBA.

Annual requirements to amortize all bonded debt outstanding as of June 30, 2019, are as follows:

NOTE IX – EMPLOYEE BENEFITS

A. FLORIDA RETIREMENT SYSTEM (FRS) – DEFINED BENEFIT PENSION PLAN

General Information about the FRS. The FRS was created in Chapter 121, Florida Statutes, to provide a defined benefit pension plan for participating public employees. The FRS was amended in 1998 to add the Deferred Retirement Option Program (DROP) under the defined benefit plan and amended in 2000 to provide a defined contribution plan alternative to the defined benefit plan for FRS members effective July 1, 2002. This integrated defined contribution pension plan is the FRS Investment Plan. Chapter 112, Florida Statutes, established the Retiree HIS Program, a cost-sharing multiple-employer defined benefit pension plan, to assist retired members of any State-administered retirement system in paying the costs of health insurance.

Essentially all regular employees of the District are eligible to enroll as members of the State-administered FRS. Provisions relating to the FRS are established by Chapters 121 and 122, Florida Statutes; Chapter 112, Part IV, Florida Statutes; Chapter 238, Florida Statutes; and FRS Rules, Chapter 60S, Florida Administrative Code; wherein eligibility, contributions, and benefits are defined and described in detail. Such provisions may be amended at any time by further action from the Florida Legislature. The FRS is a single retirement system administered by the Florida Department of Management Services, Division of Retirement, and consists of the two cost-sharing, multiple-employer defined benefit plans and other nonintegrated programs. A comprehensive annual financial report of the FRS, which includes its financial statements, required supplementary information, actuarial report, and other relevant information, is available from the Florida Department of Management Services' Web site (www.dms.myflorida.com).

The District's FRS and HIS pension expense totaled \$13.6 million for the fiscal year ended June 30, 2019.

FRS Pension Plan

Plan Description. The FRS Pension Plan (Plan) is a cost-sharing multiple-employer defined benefit pension plan, with a DROP for eligible employees. The general classes of membership are as follows:

- Regular Class – Members of the FRS who do not qualify for membership in the other classes.
- Elected County Officers Class – Members who hold specified elective offices in local government.
- Senior Management Service Class (SMSC) – Members in senior management level positions.

Employees enrolled in the Plan prior to July 1, 2011, vest at 6 years of creditable service and employees enrolled in the Plan on or after July 1, 2011, vest at 8 years of creditable service. All vested members, enrolled prior to July 1, 2011, are eligible for normal retirement benefits at age 62 or at any age after 30 years of service. All members enrolled in the Plan on or after July 1, 2011, once vested, are eligible for normal retirement benefits at age 65 or any time after 33 years of creditable service. Employees enrolled in the Plan may include up to 4 years of credit for military service toward creditable service. The Plan also includes an early retirement provision; however, there is a benefit reduction for each year a member retires before his or her normal retirement date. The Plan provides retirement, disability, death benefits, and annual cost-of-living adjustments to eligible participants.

District School Board of Martin County, Florida
Notes to the Basic Financial Statements
June 30, 2019

DROP, subject to provisions of Section 121.091, Florida Statutes, permits employees eligible for normal retirement under the Plan to defer receipt of monthly benefit payments while continuing employment with an FRS participating employer. An employee may participate in DROP for a period not to exceed 60 months after electing to participate, except that certain instructional personnel may participate for up to 96 months. During the period of DROP participation, deferred monthly benefits are held in the FRS Trust Fund and accrue interest. The net pension liability does not include amounts for DROP participants, as these members are considered retired and are not accruing additional pension benefits.

Benefits Provided. Benefits under the Plan are computed on the basis of age and/or years of service, average final compensation, and service credit. Credit for each year of service is expressed as a percentage of the average final compensation. For members initially enrolled before July 1, 2011, the average final compensation is the average of the 5 highest fiscal years' earnings; for members initially enrolled on or after July 1, 2011, the average final compensation is the average of the 8 highest fiscal years' earnings. The total percentage value of the benefit received is determined by calculating the total value of all service, which is based on the retirement class to which the member belonged when the service credit was earned. Members are eligible for in-line-of-duty or regular disability and survivors' benefits.

The following chart shows the percentage value for each year of service credit earned:

| <u>Class, Initial Enrollment, and Retirement Age/Years of Service</u> | <u>Percent Value</u> |
|--|----------------------|
| Regular Class members initially enrolled before July 1, 2011 | |
| Retirement up to age 62 or up to 30 years of service | 1.60 |
| Retirement at age 63 or with 31 years of service | 1.63 |
| Retirement at age 64 or with 32 years of service | 1.65 |
| Retirement at age 65 or with 33 or more years of service | 1.68 |
| Regular Class members initially enrolled on or after July 1, 2011 | |
| Retirement up to age 65 or up to 33 years of service | 1.60 |
| Retirement at age 66 or with 34 years of service | 1.63 |
| Retirement at age 67 or with 35 years of service | 1.65 |
| Retirement at age 68 or with 36 or more years of service | 1.68 |
| Elected County Officers | 3.00 |
| Senior Management Service Class | 2.00 |

As provided in Section 121.101, Florida Statutes, if the member is initially enrolled in the FRS before July 1, 2011, and all service credit was accrued before July 1, 2011, the annual cost-of-living adjustment is 3 percent per year. If the member is initially enrolled before July 1, 2011, and has service credit on or after July 1, 2011, there is an individually calculated cost-of-living adjustment. The annual cost-of-living adjustment is a proportion of 3 percent determined by dividing the sum of the pre-July 2011 service credit by the total service credit at retirement multiplied by 3 percent. Plan members initially enrolled on or after July 1, 2011, will not have a cost-of-living adjustment after retirement.

Contributions. The Florida Legislature establishes contribution rates for participating employers and employees. Contribution rates during the 2018-19 fiscal year were as follows:

| Class | Percent of Gross Salary | |
|--|-------------------------|-------------------------|
| | Employee | Employer ⁽¹⁾ |
| FRS, Regular | 3.00 | 8.26 |
| FRS, Elected County Officers | 3.00 | 48.70 |

| DROP – Applicable to Members from all of the Above Classes | - | 14.03 |
| FRS, Reemployed Retiree | (2) | (2) |

Notes:

(1) Employer rates include 1.66 percent for the postemployment health insurance subsidy. Also, employer rates, other than for DROP participants, include 0.06 percent for administrative costs of the Investment Plan.

(2) Contribution rates are dependent upon retirement class in which reemployed.

The District’s contributions to the Plan totaled \$8,194,299 for the fiscal year ended June 30, 2019.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At June 30, 2019, the District reported a liability of \$68,331,834 for its proportionate share of the Plan’s net pension liability. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2018. The District’s proportionate share of the net pension liability was based on the District’s 2017-18 fiscal year contributions relative to the 2017-18 fiscal year contributions of all participating members. At June 30, 2018, the District’s proportionate share was 0.226861414 percent, which was a decrease of 0.000334439 from its proportionate share measured as of June 30, 2017.

For the fiscal year ended June 30, 2019, the District recognized pension expense of \$11,272,395 related to the Plan. In addition, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| Description | Deferred Outflows of Resources | Deferred Inflows of Resources |
|---|--------------------------------|-------------------------------|
| Differences between expected and actual experience | \$ 5,788,734 | \$ (210,104) |
| Change of assumptions | 22,327,520 | - |
| Net difference between projected and actual earnings on FRS pension plan investments | - | (5,279,467) |
| Changes in proportion and differences between District FRS contributions and proportionate share of contributions | 10,500 | (1,398,245) |
| District FRS contributions subsequent to the measurement date | 6,673,283 | - |
| Total | \$ 34,800,037 | \$ (6,887,816) |

District School Board of Martin County, Florida
Notes to the Basic Financial Statements
June 30, 2019

The deferred outflows of resources related to pensions resulting from District contributions to the Plan subsequent to the measurement date, totaling \$6,673,283 will be recognized as a reduction of the net pension liability in the fiscal year ended June 30, 2019. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| <u>Fiscal Year Ending June 30</u> | <u>Amount</u> |
|---------------------------------------|----------------------|
| 2019 | \$ 8,238,432 |
| 2020 | 5,619,604 |

| 2022 | 3,738,991 |
| 2023 | 2,497,205 |
| Thereafter | 368,712 |
| Total | <u>\$ 21,238,938</u> |

Actuarial Assumptions. The total pension liability in the July 1, 2018 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

| | |
|---------------------------|---|
| Inflation | 2.60 percent |
| Salary Increases | 3.25 percent, average, including inflation |
| Investment rate of return | 7.00 percent, net of pension plan investment expense, including inflation |

Mortality rates were based on the Generational RP-2000 with Projection Scale BB. The actuarial assumptions used in the July 1, 2018, valuation were based on the results of an actuarial experience study for the period July 1, 2008, through June 30, 2013.

The long-term expected rate of return on pension plan investments was not based on historical returns, but instead is based on a forward-looking capital market economic model. The allocation policy's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions, and includes an adjustment for the inflation assumption. The target allocation and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

Note:

(1) As outlined in the Plan's investment policy

Discount Rate. The discount rate used to measure the total pension liability was 7.00 percent. The Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the discount rate for calculating the total pension liability is equal to the long-term expected rate of return.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate. The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.00 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00 percent) or 1-percentage-point higher (8.00 percent) than the current rate:

| | <u>1% Decrease 6.00%</u> | <u>Current Discount Rate 7.00%</u> | <u>1% Increase 8.00%</u> |

| District's proportionate share of the net pension liability | \$ 124,708,463 | \$ 68,331,834 | \$ 21,507,711 |

Pension Plan Fiduciary Net Position. Detailed information about the Plan's fiduciary net position is available in the separately issued FRS Pension Plan and Other State Administered Systems Comprehensive Annual Financial Report.

Payables to the Pension Plan. At June 30, 2019, the District reported a payable of \$1.8 million for the outstanding amount of contributions to the Plan required for the fiscal year ended June 30, 2019.

HIS Pension Plan

Plan Description. The HIS Pension Plan (HIS Plan) is a cost-sharing multiple-employer defined benefit pension plan established under Section 112.363, Florida Statutes, and may be amended by the Florida Legislature at any time. The benefit is a monthly payment to assist retirees of State-administered retirement systems in paying their health insurance costs and is administered by the Florida Department of Management Services, Division of Retirement.

Benefits Provided. For the fiscal year ended June 30, 2019, eligible retirees and beneficiaries received a monthly HIS payment of \$5 for each year of creditable service completed at the time of retirement, with a minimum HIS payment of \$30 and a maximum HIS payment of \$150 per month, pursuant to Section 112.363, Florida Statutes. To be eligible to receive a HIS Plan benefit, a retiree under a State-administered retirement system must provide proof of health insurance coverage, which may include Medicare.

Contributions. The HIS Plan is funded by required contributions from FRS participating employers as set by the Florida Legislature. Employer contributions are a percentage of gross compensation for all active FRS members. For the fiscal year ended June 30, 2019, the contribution rate was 1.66 percent of payroll pursuant to Section 112.363, Florida Statutes. The District contributed 100 percent of its statutorily required contributions for the current and preceding three years. HIS Plan contributions are deposited in a separate trust fund from which payments are authorized. HIS Plan benefits are not guaranteed and are subject to annual legislative appropriation. In the event the legislative appropriation or available funds fail to provide full subsidy benefits to all participants, benefits may be reduced or canceled.

The District's contributions to the HIS Plan totaled \$1,731,601 for the fiscal year ended June 30, 2019.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions. At June 30, 2019, the District reported a net pension liability of \$33,743,534 for its proportionate share of the HIS Plan's net pension liability. The current portion of the net pension liability is the District's proportionate share of benefit payments expected to be paid within one year, net of the District's proportionate share of the pension plan's fiduciary net position available to pay that amount. The net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of July 1, 2017, and update procedures were used to determine liabilities as of July 1, 2018. The District's proportionate share of the net pension liability was based on the District's 2017-18 fiscal year contributions relative to the total 2017-18 fiscal year contributions of all participating members. At June 30, 2018, the District's proportionate share was 0.318813073 percent, which was an increase of 0.000202222 percent from its proportionate share measured as of June 30, 2017.

For the fiscal year ended June 30, 2019, the District recognized the HIS Plan pension expense of \$2,332,699.

In addition, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

The deferred outflows of resources related to pensions resulting from District contributions to the HIS Plan subsequent to the measurement date, totaling \$1,731,601, will be recognized as a reduction of the net pension liability in the fiscal year ended June 30, 2020.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

| <u>Fiscal Year Ending June 30</u> | <u>Amount</u> |

Actuarial Assumptions. The total pension liability in the July 1, 2018, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

| | |
|---------------------|--|
| Inflation | 2.60 percent |
| Salary Increases | 3.25 percent, average, including inflation |
| Municipal Bond Rate | 3.87 percent |

Mortality rates were based on the Generational RP-2000 with Projected Scale BB.

District School Board of Martin County, Florida
Notes to the Basic Financial Statements
June 30, 2019

While an experience study had not been completed for the plan, the Florida Retirement System Actuarial Assumptions Conference reviewed the actuarial assumptions for the plan.

Discount Rate. The discount rate used to measure the total pension liability was 3.87 percent. In general, the discount rate for calculating the total pension liability is equal to the single rate equivalent to discounting at the long-term expected rate of return for benefit payments prior to the projected depletion date. Because the HIS benefit is essentially funded on a pay-as-you-go basis, the depletion date is considered to be immediate, and the single equivalent discount rate is equal to the municipal bond rate selected by the HIS Plan sponsor. The Bond Buyer General Obligation 20-Bond Municipal Bond Index was adopted as the applicable municipal bond index.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate. The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 3.87 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (2.87 percent) or 1 percentage point higher (4.87 percent) than the current rate:

| | 1% Decrease 2.87% | Current Discount Rate 3.87% | 1% Increase 4.87% |
|--|----------------------------------|--|----------------------------------|
| District's proportionate share of the net pension liability | \$ 38,431,907 | \$ 33,743,534 | \$ 29,835,502 |

Pension Plan Fiduciary Net Position. Detailed information about the HIS Plan's fiduciary net position is available in the separately issued FRS Pension Plan and Other State Administered Systems Comprehensive Annual Financial Report.

Payables to the Pension Plan. At June 30, 2019, the District reported a payable of \$0.45 million for the outstanding amount of contributions to the HIS Plan required for the fiscal year ended June 30, 2019.

B. FRS – Defined Contribution Pension Plan

The SBA administers the defined contribution plan officially titled the FRS Investment Plan (Investment Plan). The Investment Plan is reported in the SBA's annual financial statements and in the State of Florida Comprehensive Annual Financial Report.

As provided in Section 121.4501, Florida Statutes, eligible FRS members may elect to participate in the Investment Plan in lieu of the FRS defined-benefit plan. District employees participating in DROP are not eligible to participate in the Investment Plan. Employer and employee contributions, including amounts contributed to individual member's accounts, are defined by law, but the ultimate benefit depends in part on the performance of investment funds. Services retirement benefits are based upon the value of the member's account upon retirement. Benefit terms, including contribution requirements, for the Investment Plan are established and may be amended by the Florida Legislature. The Investment Plan is funded with the same employer and employee contribution rates that are based on salary and membership class (Regular Class, Elected County Officers, etc.), as the FRS defined benefit plan.

District School Board of Martin County, Florida
Notes to the Basic Financial Statements
June 30, 2019

Contributions are directed to individual member accounts, and the individual members allocate contributions and account balances among various approved investment choices. Costs of administering the plan, including the FRS Financial Guidance Program, are funded through an employer contribution of 0.04 percent of payroll and forfeited benefits of plan members.

Allocations to the investment member's accounts during the 2018-19 fiscal year were as follows:

| <u>Class</u> | <u>Percent of Gross Compensation</u> |
|--------------------------------|--|
| FRS, Regular | 6.30 |
| FRS, Elected County Officers | 11.34 |
| FRS, Senior Management Service | 7.67 |

For all membership classes, employees are immediately vested in their own contributions and are vested after one year of service for employer contributions and investment earnings, regardless of membership class. If an accumulated benefit obligation for service credit originally earned under the FRS Pension Plan is transferred to the Investment Plan, the member must have the years of service required for FRS Pension Plan vesting (including the service credit represented by the transferred funds) to be vested for these funds and the earnings on the funds. Nonvested employer contributions are placed in a suspense account for up to 5 years. If the employee returns to FRS-covered employment within the 5 year period, the employee will regain control over their account. If the employee does not return within the 5 year period, the employee will forfeit the accumulated account balance.

For the fiscal year ended June 30, 2019, the information for the amount of forfeitures was unavailable from the SBA; however, management believes that these amounts, if any, would be immaterial to the District.

After termination and applying to receive benefits, the member may rollover vested funds to another qualified plan, structure a periodic payment under the Investment Plan, receive a lump-sum distribution, leave the funds invested for future distribution, or any combination of these options. Disability coverage is provided; the member may either transfer the account balance to the FRS Pension Plan when approved for disability retirement to receive guaranteed lifetime monthly benefits under the FRS Pension Plan, or remain in the Investment Plan and rely upon that account balance for retirement income.

The District's Investment Plan pension expense totaled \$2.3 million for the fiscal year ended June 30, 2019.

Payables to the Pension Plan. At June 30, 2019, the District reported a payable of \$0.45 million for the outstanding amount of contributions to the Investment Plan required for the fiscal year ended June 30, 2019.

C. EARLY RETIREMENT PLAN

Plan Description. As authorized by Section 1012.685, Florida Statutes, the District implemented an Early Retirement Plan (ERP) effective July 1, 1986. The ERP is a single-employer defined benefit pension plan. The Board administers ERP assets in a Pension Trust Fund and is responsible for their investment. The Board acts as the administrative agent for the ERP. The ERP does not issue a stand-alone financial report and is not included in the report of a public employee retirement system or another entity.

Benefits Provided.

The ERP provides District employees, who elected to retire under the early retirement provisions of the FRS, described in Note IX A, with a monthly benefit equal to the statutory reduction of the normal retirement benefits when early retirement proceeds the normal retirement. The amount of the monthly benefits will be equal to the reduction imposed on the retirement benefit by the FRS due to early retirement and will increase annually at the rate of 3 percent.

Employees Covered by Benefit Terms.

As of June 30, 2019, employee membership data related to the Plan were as follows:

Summary of Population Statistics

| | |
|--|-----------|
| Inactive ERP Members or Beneficiaries Currently Receiving Benefits | 72 |
| Inactive ERP Members Entitled to But Not Yet Received Benefits | - |
| Active ERP Members | - |
| Total ERP Members | <u>72</u> |

The ERP is closed to new entrants.

Contributions.

The ERP was established by the Board on July 1, 1986, and may be amended by Board action. Pursuant to the ERP agreement, no contributions shall be required or permitted from any member. Board contributions shall be sufficient to meet the annual pension cost of the ERP and to amortize the unfunded actuarial accrued liability within 20 years based on an actuarial study. Subsequent changes in the level of the liability due to plan amendments or changes in actuarial assumptions are to be amortized on a straight-line basis over a period of 20 years.

Contributions to the ERP in the 2018-19 fiscal year were not necessary based on an actuarial evaluation performed at July 1, 2014.

All of the assets in the District's Pension Trust Fund are legally required reserves. None of the assets have been designated by the Board for any other specific purpose.

Costs of administering the ERP are financed through the ERP's resources (employer contributions and investment earnings).

Investments.

Investment Policy

The ERP's investment policy is established and may be amended by the Board. The policy discourages the use of cash equivalents, except for liquidity purposes, and aims to refrain from drastically shifting

asset class allocations over short time spans. The ERP's investment policy was amended on July 14, 2015, and is discussed in Note IV.

Rate of Return

For the year ended June 30, 2019, the annual money-weighted rate of return on pension plan investments, net of pension plan investment expense, was 4.4 percent. The money-weighted rate of return expresses investment performance, net of investment expense, adjusted for the changing amounts actually invested.

Net Pension Liability.

The District's net pension liability was measured as of June 30, 2018, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date.

The components of the net pension liability of the ERP at June 30, 2019, were as follows:

| | | |
|---|----|------------------|
| Total Pension Liability | \$ | 8,049,678 |
| Plan Fiduciary Net Position | | 8,585,496 |
| Net Pension Liability | \$ | <u>(535,818)</u> |
| Plan Fiduciary Net Position as a Percentage of the Total Pension Liability | | 106.66% |

Actuarial Assumptions.

The total pension liability was determined by an actuarial valuation as of July 1, 2017, using the following actuarial assumptions, applied to all periods included in the measurements:

| | |
|----------------------------------|----------------|
| Investment Rate of Return | 5.5% |
| Projected Salary Increases | Not Applicable |
| Inflation Rate | 2.5% |
| Postemployment Benefit Increases | 3.0% |

Mortality rates were based on RP-2000 Healthy Annuitant Mortality Tables with generational mortality projections from year 2000 using SOA projection scale BB. 100% White Collar Annuitant rates are used for female members, a blend of 50% White Collar rates with 50% Blue Collar rates are used for male participants.

The Total Pension Liability used in calculating the Net Pension Liability presented above is based on the actuarial valuation performed as of July 1, 2017. Actuarial update procedures were used to roll forward the Total Pension Liability to June 30, 2018, ERP's fiscal year end.

The long-term expected rate of return on the ERP investments was determined using an economic building block approach that projects economic and corporate profit growth and takes into consideration the fundamental factors driving long-term real economic growth, our expectation for inflation, productivity and labor force growth.

District School Board of Martin County, Florida
Notes to the Basic Financial Statements
June 30, 2019

The long-term real expected rate of return of the ERP is 5.5 percent. The geometric real rates of return for each major asset class included in the ERP target allocation as of June 30, 2019, are summarized in the following table:

| <u>Asset Class</u> | <u>Target Allocation</u> |
|-------------------------|--------------------------|
| Equity Investments | 65% |
| Fixed Income Securities | 35% |
| Total | <u>100%</u> |

| <u>Asset Class</u> | <u>Long-Term Expected Rate of Return</u> |
|----------------------------|--|
| Domestic Equity | 7.50% |
| International Equity | 7.40% |
| Emerging Markets Equity | 7.50% |
| Core Fixed Income | 5.10% |
| Investment Grade Corporate | 6.10% |
| High Yield | 6.60% |
| Emerging Markets Debt | 6.70% |

Discount Rate.

The single discount rate of 5.5 percent was used to measure the total pension liability. This single discount rate was based solely on the long-term expected rate of return on pension plan investments of 5.5 percent, without any requirement to incorporate municipal bond yields. The District complies with the State Statutes by making contributions to the trust in the amounts at least equal to the Actuarially Determined Contribution. Based on the current funded status and contribution policy, the ERP is expected to remain fully funded until all benefits are paid and, consequently, the pension plan's fiduciary net position together with the future contributions are expected to be available to finance all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

D. OTHER POSTEMPLOYMENT BENEFITS

Plan Description. The Other Postemployment Benefits Plan (OPEB Plan) is a single-employer defined benefit plan administered by the District. Pursuant to Section 112.0801, Florida Statutes, the District must offer similar health care benefits for retired employees as it does to active employees. The District subsidizes the premium rates paid by retirees by allowing them to participate in the OPEB Plan at reduced or blended group (implicitly subsidized) premium rates for both active and retired employees for health, dental, vision, and life insurance benefits. These rates provide an implicit subsidy for retirees because, on an actuarial basis, their current and future claims are expected to result in higher costs to the OPEB Plan on average than those of active employees. Additionally, certain retirees receive insurance coverage at a lower (explicitly subsidized) premium rate than active employees. All of the District's employees may become eligible for those benefits if they reach normal retirement age (as defined by the pension or investment option) and have at least 6 years of service with the District and are activating their pension upon separation from service. Also, in accordance with union contracts and District policy, the District pays 25 percent of this benefit for employees with 15 years of service, 50 percent with 20 years of service, 75 percent for employees with 25 years of service, and 100 percent for employees with 30 years of service for those employees that retire and are under the age of 65 and not eligible for Medicare. For retirees over the age 65 or Medicare eligible, with fifteen or more years of service with the District that were hired on or before June 30, 2011 and either 1. Receive medical insurance benefit through the District as of December 31, 2015 or 2. The employee retires on or after December 31, 2015 will receive a District Health Insurance Subsidy in the amount of \$5 per month for each year of service for a maximum of thirty years. All service must be within the District. Retirees are required to enroll in the Federal Medicare program for their primary coverage as soon as they are eligible. The OPEB Plan does not issue a stand-alone report and is not included in the report of a public employee retirement system or another entity.

Benefits Provided. The OPEB Plan provides self-insured health and hospitalization plan for medical and prescription drug benefits and fully-insured life insurance coverage benefits for retirees and their dependents. The OPEB Plan only provides an explicit subsidy as described above.

Employees Covered by Benefit Terms. At June 30, 2017 (the valuation date), the following employees were covered by the benefit terms:

B. RISK MANAGEMENT PROGRAMS

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; third party injuries and/or property damage and natural disasters. The District is a member of the South Central Educational Risk Management Program (SCERMP), a consortium under which eight district school boards have established a public entity risk sharing-pool for Property, General Liability, Automobile Liability, Workers' Compensation, Government Crime and other coverage deemed necessary by the members of the SCERMP. Section 1001.42(12)(k), Florida Statutes, provides the authority for the District to enter into such a risk management program. The interlocal agreement and bylaws of SCERMP provide that risk of loss is transferred to the consortium. SCERMP is self-sustaining through member contributions (premiums), and purchased insurance coverage through commercial companies for claims in excess of specified amounts. Member school boards are also subject to supplemental contributions in the event of a deficiency except to the extent that the deficiency results from a specific claim against a member school board in excess of the coverage available, then such deficiency is solely the responsibility of that member school board.

The Board of Directors for SCERMP is composed of superintendents/finance directors or an authorized representative of all participating districts. Ascension, Inc. serves as the third-party administrator, insurance broker, and fiscal agent for SCERMP.

District School Board of Martin County, Florida
Notes to the Basic Financial Statements
June 30, 2019

Property damage coverage is managed by SCERMP by purchase of excess property coverage through commercial insurance carriers for property loss claims in excess of \$100,000 (except named wind and flood), respectively. The named wind/hurricane deductible is 5 percent of replacement cost value with a minimum of \$100,000 per occurrence and a maximum of \$25,000,000 per occurrence. The deductible for all other wind events is \$100,000. Special hazard flood area deductibles are \$500,000 per building and \$500,000 contents plus \$100,000 time element per occurrence. The flood deductible outside a special flood hazard area is \$100,000. SCERMP's purchased excess property loss limit during the 2017-18 fiscal year was \$125 million.

Workers' compensation claims are limited based on a per claim self-insured retention. The self-insured retention for the 2018-19 fiscal year was \$1 million. SCERMP purchases excess liability coverage through a commercial insurance carrier, which covers workers' compensation losses in excess of the self-insured retention. Employers' liability is included subject to a maximum of \$2,000,000 per occurrence.

The District is protected by Section 768.28, Florida Statutes, under the Doctrine of Sovereign Immunity, as it is now written, as it may be amended by the Legislature at future dates, which effectively limits the amount of liability of governmental entities for tort claims to \$200,000 per claim and \$300,000 per occurrence.

As a result of recording a liability for specific reserves for claims incurred, but not reported, the property and casualty group has ending net position of \$821,219. The District's portion of the net position is calculated at 18.68 percent of the total or \$153,404.

During the 2018-19 fiscal year, the Board provided health and prescription insurance through purchased commercial insurance. Dental and vision coverage were also provided through purchased commercial insurance under a separate agreement.

Settled claims resulting from these risks described above have not exceeded commercial insurance coverage in any of the past three fiscal years.

C. SIGNIFICANT COMMITMENTS

Other Information:

- (1) For years ended 6/30/2013, 6/30/2012, 6/30/2011, and 6/30/2010, contribution requirements have been met by application of the credit balance. Contribution requirements decreased in the early 2000's. Following that decline, the District contributed more than was required for years ending 2003 and 2004, which resulted in establishing a credit balance. No contributions were required for years 2006 through 2009 and the credit balance accumulated interest during that period. Contribution requirements returned after the economic downturn of 2008 and the District started applying the credit balance to satisfy the funding contributions beginning with the fiscal year ending June 30, 2010. The credit balance was fully exhausted during the year ending June 30, 2013.
