

# GOGUARDIAN FOR PARENTS

What do parents need to know about our new Internet filter: GoGuardian.

## GoGuardian Parent

GoGuardian Parent is an application available on iOS and Android devices intended to share student user history collected via the GoGuardian filters with verified parents and guardians.

But first, be sure to read an introduction to GoGuardian Parent [HERE](#).

### STEP 1:

**Download the GoGuardian Parent Application available on the Apple App Store [HERE](#) or Google Play [HERE](#).**

**NOTE: GoGuardian Parent is currently compatible with iOS versions equal to or newer than iOS 8 and Android version equal to or newer than Android Jelly Bean, v16, 4.1.x.**

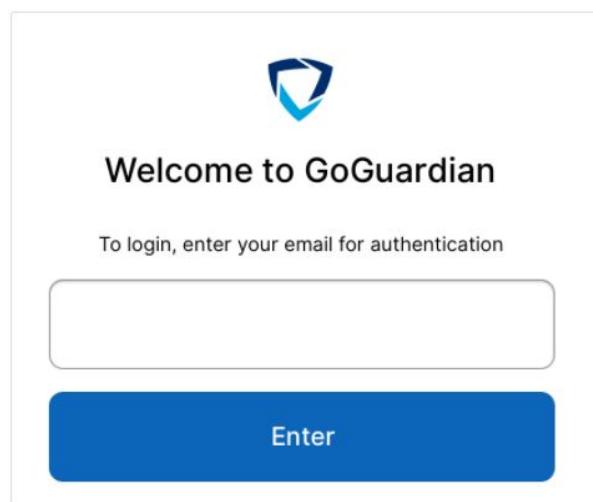

**Once the app has been installed, find the application within the apps list and tap the icon to open it.**

## Step 2

**Enter your email address for authentication: this email address will need to MATCH the email address stored in PowerSchool.**

**NOTE:** If you receive the following message "Sorry, the email you provided can't be verified. Please try again or contact your school's administrator", double-check the spelling of the full email address.

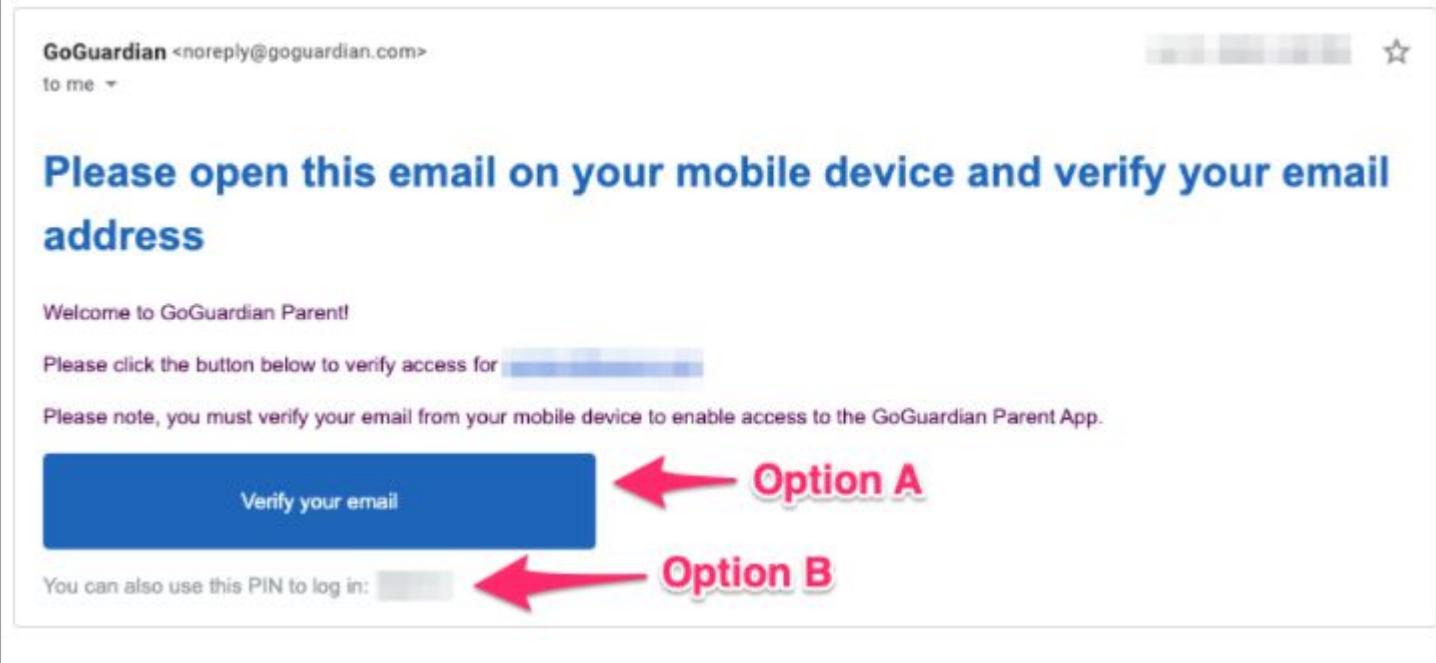

If it is correct, please contact your child's school's front office to verify the email stored in PowerSchool is accurate.

## Step 3

**After successfully entering the email address, a prompt will appear "Please check your email - Click the link in your email to log in."**

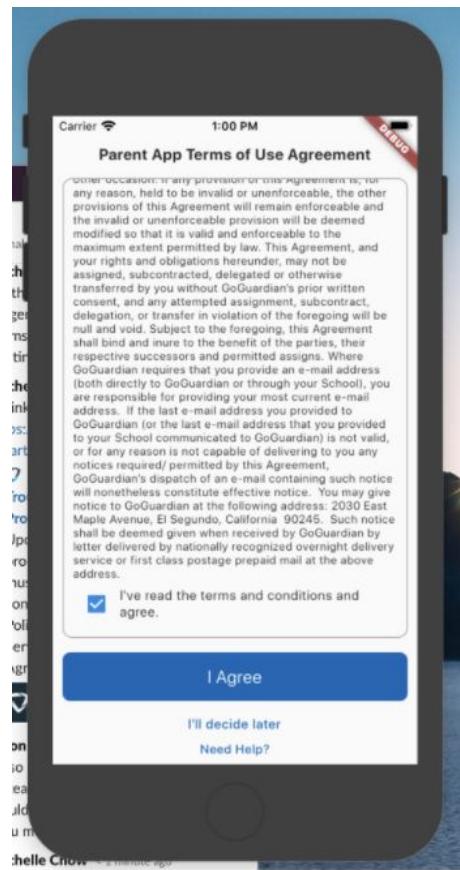

**Proceed to check your email **on your mobile device** and press the link within the email to complete verification. If the link does not work, use the PIN provided within the email within GoGuardian Parent to complete verification.**

## Step 4

### Review Terms and Conditions.

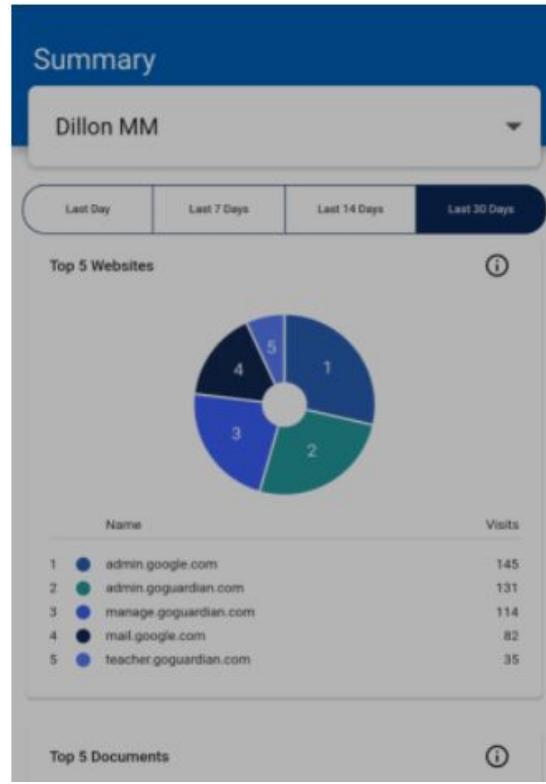

After successfully verifying the email address, proceed to read the terms and conditions for GoGuardian Parent by navigating to the bottom of the text box. After reading the terms and conditions, press the checkbox to confirm review of the text and press the "I Agree" button.

## Step 5

### Explore GoGuardian Parent!!

After successfully signing in, choose a student account to review activity from the "Your Students" page.

## GoGuardian App Features

Your parent app includes the following functions:

<h3>Summary</h3>  <table border="1"> <thead> <tr> <th>Name</th> <th>Visits</th> </tr> </thead> <tbody> <tr> <td>1 blocked.com-default.ws</td> <td>11</td> </tr> <tr> <td>2 google.com</td> <td>1</td> </tr> </tbody> </table>	Name	Visits	1 blocked.com-default.ws	11	2 google.com	1	<p>The summary section provides an at-a-glance, easy to digest overview of what your student has been doing. First, you must choose the student you'd like to view, and the timeframe for the information that you'd like to gather. You have four time frame choices:</p> <ul style="list-style-type: none"> <li>• Last Day</li> <li>• Last 7 Days</li> <li>• Last 4 Days</li> <li>• Last 30 Days</li> </ul>
Name	Visits						
1 blocked.com-default.ws	11						
2 google.com	1						
<h3>Activity</h3>	<p>The Activity section will simply provide a list showing which sites your student has tried to access each day. If the site was blocked, it will say so just beneath the URL. If the site was accessed, it will show how long your student stayed on that site.</p>						
<h3>Filters</h3>  <p>BLOCKED WEBSITES 70% of homework is done online <sup>1</sup></p> <p>Add a website to block student access</p>	<p>The Filters section will allow you to block websites that you do not want your student to reach during out of school hours. It is <b>important</b> to remember that your students will <b>still be blocked</b> by the <b>school's filtering policies</b> during out of school hours. This means that you will have the option to block additional sites not already blocked by the school's policies. Additionally, the GoGuardian Parent App will <b>not</b> enable a Guardian to allow a site which is blocked by the school.</p>						
<h3>Time Limits</h3> 	<p>The Time Limits section allows for immediate <b>Pausing</b> and <b>Resuming</b> of internet access for your student. You can pause for various increments of time, from 15 minutes to the rest of the day. You can resume at any time. You can also create a customized schedule for when the Internet will be off for your child.</p>						
<h3>Settings</h3>	<p>Settings is the final section of the GoGuardian Parent App. This allows you to learn more about the Parent App, review the terms and conditions, and provide feedback. You may also sign out of the application in the Settings section.</p>
