

Nebraska City Public Schools Press Release, June 15, 2021 - NCPS Expenditure Update

Nebraska City Public Schools would like to take this opportunity to inform the community about recent purchases and upcoming expenditures that will not require local property tax money or budgeted money from the general operating budget.

Nebraska City Public Schools would also like to take this opportunity to thank the community, local foundations, employees and citizens that have assisted in identifying various opportunities to generate additional revenue to address the needs of our district and students.

Revenue sources have included local grants, foundation grants and donations, stimulus money in the form of GEERS, ESSERS, and state and federal grants.

Over the past year and into the next several years you have and will see a variety of items or services being added at Nebraska City Public Schools. The following list includes many of those items, none of which are funded by local tax money.

Thank you to everyone that has assisted in applying for these funds or providing these funds to Nebraska City Public Schools.
