What's New In 21-22?

Bloomingdale Public Schools is the place to be!

Bloomingdale Public Schools staff and administration is committed to providing high quality, innovative educational opportunities for our students. We are embracing all the positives that came from having to rethink and restructure how students learn and how we teach due to the pandemic. We are committed to new and exciting opportunities for our students that include a new Innovation Center where we will offer STEM, Project Lead the Way courses, and a Fabrication Lab. We are adding new and exciting elective courses including French, Outdoor Education, Broadcast Journalism and elementary STEM. We are committed to addressing learning loss due to the COVID-19 pandemic and have hired 18 new teachers, including the 2018 Michigan Teacher of the Year. By adding additional staff we will be able to reduce class sizes, eliminate split classrooms, add math intervention support at every level and increase our reading intervention support. We have hired two ESL teachers to support our English Language Learners K-12 and we have added music, art, and physical education back to our elementary buildings. All this on top of the great things already happening at Bloomingdale Schools! Want your children to have a great education? Come join us at Bloomingdale Public Schools!

Welcome New Staff!

Heather Scheuer 6th ELA

Samantha Chandler 7th Social Studies

Amy Cummings HS Earth Science/Algebra

Amanda Keehr 8th grade Science

Courtney Corbin Pullman Elem. 1st grade
