

Instructional Materials Committee (IMC) Meeting

CPHS Computer Science Curriculum

June 17, 2021
12:00-2:00

Agenda:

- Welcome and Norms
- Review Educational Philosophy in CPPS
- Review Tools
 - Criteria Checklist
 - OSPI Bias Tool
 - Overall comments tool
- Matt share out info from his review of the Edhesive Computer Science Curriculum-
- Determine if we need another meeting
- Review the feedback form
- Set dates for public viewing- done July 6-16, night viewing from 5-7 on July 8
- Board Meeting presentation
- Other
- Adjourn

Present: Robert, Ambra, Marissa, Matt, and Scott

Notes:

- There were a lot of N/A in the bias tool
- Main instructor through the program is a female
- Outside videos that are connected are made by code.org and minorities are well represented
- No spanish translation available- but computer science is a language in and of itself- so ELL students are learning the language at the same time as native english speakers
- At the end when they go through all of the different jobs that you can go into
- No social issues covered in the material
- Belief systems are not covered in CS
- Fully recommend the curriculum
- Brought in robotics to bring in the team component and PBL as much of computer science is individual
- Matt will get a demo login for the public viewing period
