Notice for Parents Regarding Residency Status and Virtual Academy

There have been some questions regarding Virtual Academy and the residency status of students. Letters will be sent out to parents that we are concerned about in regard to residency status. If a student is living outside the school district, they need to un-enroll from WPSD1 and enroll in the district they are physically residing in, just as they would if their student were attending school in-person.

While we understand that your students are not physically attending school in our buildings at this time, our district is a closed boundary district. We cannot provide education services, including distance learning, to any student who does not physically reside within our district boundaries.

If you receive the residency letter, we will be terminating computer privileges and you are expected to return devices and materials that are property of the Williston Public School District as soon as possible. This will take effect beginning the second quarter, October 19, 2020.
