Explanation: The Regional School Unit's contribution to the total cost of funding public education from kindergarten to grade 12 as described in the Essential Programs and Services Funding Act is the amount of money determined by state law to be the minimum amount that the Regional School Unit must raise and assess in order to receive the full amount of state dollars.

ARTICLE 13: To see what sum the Regional School Unit will raise and appropriate for the annual payments on debt service previously approved by the Regional School Unit voters for non-state-funded school construction projects or non-state-funded portions of school construction projects in addition to the funds appropriated as the local share of the Regional School Unit's contribution to the total cost of funding public education from kindergarten to grade 12.

School Board Recommends \$0.00

Explanation: Non-state-funded debt service is the amount of money needed for the annual payments on the Regional School Unit's long-term debt for major capital school construction projects that are not approved for state subsidy. The bonding of this long-term debt was previously approved by the Regional School Unit voters.

ARTICLE 14: **(Written ballot required.)** To see what sum the Regional School Unit will raise and appropriate in additional local funds **(Recommend \$2,499,328.09)**, which exceeds the State's Essential Programs and Services allocation model by **(Recommend \$2,499,328.09)** as required to fund the budget recommended by the School Board.

The School Board Recommends \$2,499,328.09, which exceeds the State's Essential Programs and Services allocation model by \$2,499,328.09. The School Board gives the following reasons for exceeding the State's Essential Programs and Services funding model: (1) the EPS formula does not meet the essential needs of rural school districts with numerous small schools regarding the funding for staff which is based on student count, funding of system administration which is based on student count, funding for building operations which is based on student count, funding of transportation which is based primarily on student density per mile; (2) the EPS allocation for special education underestimates the needs and subsequent cost of providing for students' special needs; (3) the EPS funding underestimates the market and delivery costs for fuel; (4) the EPS funding allocation assumes that districts will cover the major portion of the costs for co-curricular and athletic student activities; (5) the EPS formula does not provide sufficient funds for equitable education of students in rural communities that do not have the enrollment population to receive adequate funding; (6) the EPS formula does not provide sufficient funds to offer innovative educational opportunities for the students in rural communities.

Explanation: The additional local funds are those locally raised funds over and above the Regional School Unit's local contribution to the total cost of funding public education from kindergarten to grade 12 as described in the Essential Programs and Services Funding Act and local amounts raised for the annual payment on non-state funded debt service that will help achieve the Regional School Unit budget for educational programs.
