

# School Supplies 2023-2024

## Spanish 1, Spanish 2 and Spanish 3:

We will continue to provide 1:1 technology in our district. I will continue to use Google Classroom as our main communication. Materials will be provided digitally in Google Classroom and as a hardcopy for students to keep in their binder.

Participation is crucial for learning the language, for me to know how your learning is going and for your grade. Although speaking is required for the class, perfection is NOT what is expected of students BUT I expect you to give your best. We all have a learning curve.

I ask that you are patient with yourself and with me. You'll be using new learning platforms and learning a new language. I need you to be open minded about trying the language by actively participating in class and using the resources and platforms I make available to you for our class.
