

Online Registration

Odin Public School District #722 is excited to announce that online registration for new and returning students (Kindergarten-12th grade) is now live for the 2023 - 2024 school year! All students (returning and new to the district) **MUST** be registered **ONLINE** every year prior to the start of school. Completing the online registration process will register/update your student's information and if all forms are completed and submitted, you will NOT have to come to the school for in-person registration.

RETURNING STUDENTS

To complete the full registration process, log in to your www.teacherease.com account. If you are not immediately directed to the Online Registration page, access it by going to *Miscellaneous > Online Registration*. If you do not see your child's name listed, or are unable to login, please contact the school at 618-740-4183.

Follow the steps below to complete registration:

- Click on Continue registering existing students
- Click on Complete Form next to each child
- Review any additional documents
- Pay Fees if applicable
- Create Free-Reduced Lunch Application if applicable

**Note: All students will receive free breakfast and lunch. If your child is not a direct certification, this application is used to see if your family is eligible to waive registration fees.*

Once you're finished, the administrators will review and approve your changes.

You can register a new child joining the district through the parent portal if you see an option labeled "Register a new student(s) to the district". You will need to submit basic information (name, grade level, contacts) to the school for approval. - This only applies to students who already have siblings in the district.

NEW STUDENTS TO THE DISTRICT

Use the link below to begin the registration process for NEW STUDENTS ONLY:
