BEAVERCREEK CITY SCHOOL DISTRICT GREENE COUNTY

NOTES TO THE SCHEDULE OF FEDERAL AWARDS RECEIPTS AND EXPENDITURES FOR THE FISCAL YEAR ENDED JUNE 30, 2015

NOTE A – SIGNIFICANT ACCOUNTING POLICIES

The accompanying Schedule of Federal Awards Receipts and Expenditures (the Schedule) reports the Beavercreek City School District's (the District) federal award programs' receipts and disbursements. The Schedule has been prepared on the cash basis of accounting.

NOTE B – CHILD NUTRITION CLUSTER

The District commingles cash receipts from the U.S. Department of Agriculture with similar State grants. Wen reporting expenditures on this Schedule, the District assumes it expends federal monies first.

NOTE C – FOOD DONATION PROGRAM

The District reports commodities consumed on the Schedule at the fair value. The District allocated donated food commodities to the respective program that benefited from the use of those donated food commodities.

NOTE D – MATCHING REQUIREMENTS

Certain federal programs require the District to contribute non-Federal funds (matching funds) to support the Federally-funded programs. The District has met its matching requirements. The Schedule does not include the expenditure of non-Federal matching funds.

Dave Yost · Auditor of State

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS REQUIRED BY *GOVERNMENT AUDITING STANDARDS*

Beavercreek City School District Greene County 3040 Kemp Road Beavercreek, Ohio 45431

To the Board of Education:

We have audited, in accordance with auditing standards generally accepted in the United States and the Comptroller General of the United States' *Government Auditing Standards*, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Beavercreek City School District, Greene County, (the District) as of and for the fiscal year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the District's basic financial statements and have issued our report thereon dated December 18, 2015, wherein we noted the District adopted Governmental Accounting Standard No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27* and Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*.

Internal Control Over Financial Reporting

As part of our financial statement audit, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures appropriate in the circumstances to the extent necessary to support our opinions on the financial statements, but not to the extent necessary to opine on the effectiveness of the District's internal control. Accordingly, we have not opined on it.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, when performing their assigned functions, to prevent, or detect and timely correct misstatements. A *material weakness* is a deficiency, or combination of internal control deficiencies resulting in a reasonable possibility that internal control will not prevent or detect and timely correct a material misstatement of the District's financial statements. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all internal control deficiencies that might be material weaknesses or significant deficiencies. Given these limitations, we did not identify any deficiencies in internal control that we consider material weaknesses. However, unidentified material weaknesses may exist.

Beavercreek City School District Greene County Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Required by *Government Auditing Standards*

Page 2

Compliance and Other Matters

As part of reasonably assuring whether the District's financial statements are free of material misstatement, we tested its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could directly and materially affect the determination of financial statement amounts. However, opining on compliance with those provisions was not an objective of our audit and accordingly, we do not express an opinion. The results of our tests disclosed no instances of noncompliance or other matters we must report under *Government Auditing Standards*.

Purpose of this Report

This report only describes the scope of our internal control and compliance testing and our testing results, and does not opine on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed under *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Dave Yost Auditor of State Columbus, Ohio

Dave Yost · Auditor of State

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY OMB CIRCULAR A-133

Beavercreek City School District Greene County 3040 Kemp Road Beavercreek, Ohio 45431

To the Board of Education:

Report on Compliance for Each Major Federal Program

We have audited the Beavercreek City School District's (the District) compliance with the applicable requirements described in the U.S. Office of Management and Budget (OMB) *Circular A-133, Compliance Supplement* that could directly and materially affect each of the Beavercreek City School District's major federal programs for the fiscal year ended June 30, 2015. The *Summary of Auditor's Results* in the accompanying schedule of findings identifies the District's major federal programs.

Management's Responsibility

The District's Management is responsible for complying with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to opine on the District's compliance for each of the District's major federal programs based on our audit of the applicable compliance requirements referred to above. Our compliance audit followed auditing standards generally accepted in the United States of America; the standards for financial audits included in the Comptroller General of the United States' *Government Auditing Standards*; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. These standards and OMB Circular A-133 require us to plan and perform the audit to reasonably assure whether noncompliance with the applicable compliance requirements referred to above that could directly and materially affect a major federal program occurred. An audit includes examining, on a test basis, evidence about the District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe our audit provides a reasonable basis for our compliance opinion on the District's major programs. However, our audit does not provide a legal determination of the District's compliance.

Opinion on Each Major Federal Program

In our opinion, the District complied, in all material respects with the compliance requirements referred to above that could directly and materially affect each of its major federal programs for the fiscal year ended June 30, 2015.

Beavercreek City School District Greene County Independent Auditor's Report on Compliance with Requirements Applicable to Each Major Federal Program and on Internal Control Over Compliance Required by OMB Circular A-133 Page 3

Report on Internal Control Over Compliance

The District's management is responsible for establishing and maintaining effective internal control over compliance with the applicable compliance requirements referred to above. In planning and performing our compliance audit, we considered the District's internal control over compliance with the applicable requirements that could directly and materially affect a major federal program, to determine our auditing procedures appropriate for opining on each major federal program's compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not to the extent needed to opine on the effectiveness of internal control over compliance. Accordingly, we have not opined on the effectiveness of the District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, when performing their assigned functions, to prevent, or to timely detect and correct, noncompliance with a federal program's applicable compliance requirement. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance requirement will not be prevented, or timely detected and corrected. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with federal program's applicable compliance with federal program's applicable compliance requirement that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

This report only describes the scope of our internal control over compliance tests and the results of this testing based on OMB Circular A-133 requirements. Accordingly, this report is not suitable for any other purpose.

Beavercreek City School District Greene County Independent Auditor's Report on Compliance with Requirements Applicable to Each Major Federal Program and on Internal Control Over Compliance Required by OMB Circular A-133 Page 3

Report on Schedule of Federal Awards Receipts and Expenditures Required by OMB Circular A-133

We have also audited the financial statements of the governmental activities, each major fund and the aggregate remaining fund information of the Beavercreek City School District (the District) as of and for the fiscal year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the District's basic financial statements. We issued our unmodified report thereon dated December 18, 2015. Our opinion also explained that the District adopted Governmental Accounting Standard No. 68 and No. 71 during the year. We conducted our audit to opine on the District's basic financial statements. The accompanying federal awards receipts and expenditures schedule presents additional analysis required by the U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations and is not a required part of the basic financial statements. The schedule is management's responsibility, and was derived from and relates directly to the underlying accounting and other records management used to prepare the basic financial statements. We subjected this schedule to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling this schedule directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, in accordance with auditing standards generally accepted in the United States of America. In our opinion, this schedule is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

December 18, 2015

To the Citizens and Board of Education of the Beavercreek City School District:

We are pleased to present the 14th annual Comprehensive Annual Financial Report (CAFR) of the Beavercreek City School District, (the "District"). The information reported is for the fiscal year ended June 30, 2015. The report contains financial statements, supplemental statements and other financial and statistical information to provide complete and full disclosure of all material financial aspects of the District for the 2014-2015 fiscal year.

Management assumes full responsibility for the completeness and reliability of the information contained in this report, based upon a comprehensive framework of internal control that it has established for this purpose. Because the cost of internal control should not exceed anticipated benefits, the objective is to provide reasonable, rather than absolute assurance that the financial statements are free of any material misstatements. Responsibility for the accuracy, completeness and fairness of this report rests with the District and more specifically, the Office of the Treasurer. To the best of our knowledge and belief, this report and the enclosed data are accurate in all material aspects. Our report is designed to present fairly the financial position of the various funds of the District.

The Auditor of State of Ohio has issued an unmodified ("clean") opinion on the District's financial statements for the fiscal year ended June 30, 2015. The independent auditor's report is located at the front of the financial section of this report.

This report is prepared in conformance with accounting principles generally accepted in the United States of America, (GAAP), as set forth by the Governmental Accounting Standards Board (GASB) and other recognized authoritative services, and is representative of the District's continuing commitment to provide meaningful financial information to the citizens of the District.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative, introduction, overview and analysis of the basic financial statements. MD&A complement this letter of transmittal and should be read in conjunction with it.

District Profile

The District is located in southwestern Ohio in the heart of Greene County and is approximately 52 square miles. The Beavercreek City School District is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio. The District is a city district as defined by Section 3311.02 of the Ohio Revised Code. The District operates under a locally elected five-member board and is responsible for the provision of public education to residents of the District.

Within Greene County, the Wright Patterson Air Force Base is the largest employer and the District is the fifth largest employer. The community's population in 2014 (latest estimate available) was 53,008 which encompass the City of Beavercreek and Beavercreek Township and small portions of the City of Fairborn, the City of Kettering, the City of Riverside, and Sugarcreek Township. The population has grown by 9.3% since 2006. The socioeconomic profile of district residents, as measured by income levels and housing values, is substantially above average for the State.

The Beavercreek City School District provided services to 7,714 students during fiscal year 2015. As such, the District provides a full range of educational services including regular, special and vocational instruction for Pre-K through 12th grades, student guidance, extracurricular activities, food service, educational media, student transportation and care and upkeep of buildings. Approximately every two years, the District engages Planning Advocates, Inc. to analyze projected student enrollment for the ensuing decade. Below are the results of the study completed during fiscal year 2014 (the most recent information). Such studies project student enrollment (an overall student count) as opposed to the average daily membership (ADM) used elsewhere throughout this report.

| Projected Student Enrollment Next Ten School Years | | | | | | | | | |
|---|-------|-------|-------|-------|-------|-------|-------|-------|-------|
| School Year Ending | | | | | | | | | |
| <u>2015</u> | 2016 | 2017 | 2018 | 2019 | 2020 | 2021 | 2022 | 2023 | 2024 |
| 7,507 | 7,566 | 7,610 | 7,600 | 7,616 | 7,598 | 7,597 | 7,620 | 7,693 | 7,750 |

With the student enrollment projected to increase over the next 10 school years, the District continues to invest in constructing new, as well as renovating existing, school facilities to ensure adequate and up-to-date learning environments are available to students for the foreseeable future. In 2008, the District passed an \$84 million master facilities plan to address anticipated facilities needs. With additional funds from the \$84 million facilities plan, the district began two new projects completed during the 2014-2015 school year. The Shaw Elementary gymnasium opened in February 2015. Also, the Beavercreek Preschool Center was completed in June 2015 and opened to students at the beginning of the 2015-2016 school year. Prior to the Beavercreek Preschool Center, the preschool program was operated at Parkwood Elementary.

The construction of these new buildings permitted the District to alleviate overcrowding at the elementary buildings and provide adequate gym space at Shaw Elementary School.

| School Building | Grade <u>Levels</u> | Year <u>Constructed</u> | Current ADM | Estimated <u>Capacity</u> |
|----------------------|------------------------|----------------------------|----------------|------------------------------|
| Beavercreek High | 9-12 | 1954 | 1,835 | 1,980 |
| Ferguson Hall | 9 | 1960 | 634 | 894 |
| Ankeney Middle | 6-8 | 1969 | 748 | 962 |
| Jacob Coy Middle | 6-8 | 2013 | 1,091 | 1,150 |
| Fairbrook Elementary | K-5 | 1958 | 462 | 529 |
| Valley Elementary | K-5 | 1966 | 476 | 506 |
| Parkwood Elementary | PK-5 | 1965 | 545 | 507 |
| Shaw Elementary | K-5 | 1967 | 710 | 679 |
| Main Elementary | K-5 | 1932 | 563 | 690 |
| Trebein Elementary | K-5 | 2013 | 650 | 700 |

The table below presents some pertinent information regarding the District's school facilities.

Local Economy

The City of Beavercreek is the largest City within Greene County and has accessibility to major highways including I-70, I-75, and I-675. It is also in close proximity to major metropolitan areas such as Dayton, Cincinnati and Columbus. The local economy consists mainly of research-based industries, some manufacturing companies, an extensive retail base, and Wright-Patterson Air Force Base. The tax base is comprised of 70% residential property. Over the past decade, the District's assessed property values have increased from \$1.48 billion in 2006 to over \$1.65 billion in 2015.

Long-term Financial Planning

With \$5 million remaining from the district's \$84 million bond-funded facilities program, the Beavercreek City Schools Board of Education voted May 1, 2014, to address some of the district's outstanding facilities needs by approving four construction projects:

- An 18,500 square-foot preschool addition to the current Board of Education offices to house the district's preschool;
- A 7,600 square-foot gymnasium and community gathering space at Shaw Elementary;
- A covered, non-enclosed walkway connecting Beavercreek High School to Ferguson Hall, which serves as the home of BHS ninth grade students;
- Athletic facility improvements at Coy Middle School, to include a storage building, scoreboard and baseball/softball dugouts

The preschool, gymnasium and walkway projects were part of the original bond proposal in 2007, but were removed when the Board of Education decided to reduce the size of its request. The projects are being paid for from the remaining bond surplus and existing permanent improvement funds. No additional dollars were requested from the community.

Relevant Financial Policies

The District's accounting system is organized on a "fund" basis. Each fund is a distinct, self-balancing entity. Records for general governmental operations are maintained on a cash basis system of accounting as prescribed by the Auditor of State. Cash basis of accounting differs from GAAP as promulgated by the Governmental Accounting Standards Board (GASB). GAAP, as more fully described in the notes to the financial statements, provides for a modified accrual basis of accounting for the general fund, special revenue funds, debt service fund, and capital projects fund, and for full accrual basis of accounting for the agency funds.

Internal Controls

The management of the District is responsible for establishing and maintaining an internal control structure designed to ensure the assets of the District are protected from loss, theft, or misuse and to ensure that adequate accounting data are compiled to allow for the preparation of financial statements in conformity with GAAP. The internal control structure is designed to provide reasonable, but not absolute, assurance that those objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived from its implementation; and (2) the valuation of cost and benefits requires estimates and judgments by management.

Single Audit Act

As a recipient of federal and state financial assistance, the District is responsible for ensuring that an adequate internal control structure is in place to ensure compliance with applicable laws and regulations related to those programs. This internal control structure is subject to periodic evaluation by management of the District.

Budgetary Controls

The District maintains its accounts, appropriations and other financial records in accordance with the procedures established and prescribed by the Ohio Auditor of State. The objective of these budgetary controls is to ensure compliance with legal provisions embodied in the annual appropriation resolution approved by the Board of Education. Activities of all funds are included in the annual appropriation resolution. The level of budgetary control (the level at which expenditures cannot legally exceed the appropriated amount) is at the fund level for all funds of the District. The District also maintains an encumbrance accounting system as a technique of accomplishing budgetary control.

Major Initiatives

With exceptional results on the most recently released Ohio Department of Education's 2013-14 State Report Card, the Beavercreek City School District once again demonstrated it provides a premium level of education for the community. The district met 24 out of 24 indicators of proficiency by grade level and subject matter, and it earned its highest Performance Index score to date: a 106.5. The district scored far above state average for reading, math, and science for grades 3-8, as well as on the OGT.

Regarding Progress, the district earned three A's for annual progress among all students, gifted students, and students with disabilities. The District earned a "B" for its efforts among students who represent the lowest 20 percent in achievement, and is implementing additional strategies to provide assistance to struggling students. The district additionally earned A's for both its four-year and five-year

graduation rates. The district earned a C for Gap Closing, which measures how well students are performing in terms of reading, mathematics, attendance and graduation rate according to socioeconomic, racial, ethnic or disability status.

Beavercreek City Schools is also setting trends by being the only district in the state to be awarded two Straight-A Fund Grants. In December 2013, Beavercreek Schools leaders learned that the district's first round grant proposal for K-8 students, "Sparking Innovation: Individualizing Learning with a Customized 21st Century Educational Platform," had been awarded \$3.866 million. In June 2014, district leaders learned that their second round grant proposal geared to 8th through 12th grade instruction, "Developing Student Innovators and Entrepreneurs Through a Creative Approach to Generating and Evolving Ideas," received \$995,000. The grant process was extremely competitive. Grant applications were first assessed to determine their fiscal sustainability, and then had to demonstrate that they fulfilled additional requirements, including: 1) innovation, 2) value, and 3) lasting impact. Grant officials were especially interested in proposals that would reduce the cost of education and could be replicated elsewhere.

The grants are enabling the district to build on its already strong academic standards to better meet the educational needs of all students. Other districts are taking note; district officials have already made several presentations to teachers and administrators from across the state on how Beavercreek teachers are using technology to individualize instruction.

In February 2015, Beavercreek City Schools was one of 40 school districts from across the state that was invited to present at the Straight A Day in the Ohio Statehouse. In addition to making a presentation to the Straight A Fund Governing Board, Superintendent William McGlothlin, Ed.D., was asked to address all attendees about the initiative and its results. Superintendent McGlothlin, Assistant Superintendent Susan Hayward, Ph.D., and five students managed a booth throughout the conference, answering questions from legislators and other school districts.

The district's Design Thinking Labs (D-Labs) and commitment to 21st century learning were featured in a nationally televised broadcast. *In View* series Hosted by Larry King, demonstrated to audiences how Beavercreek City Schools uses innovation to educate students.

On May 13, 2015, Superintendent William McGlothlin, Ed.d., and Assistant Superintendent Susan Hayward, Ph.D., testified before members of the Ohio Senate Finance-Education Subcommittee regarding the Straight A Fund section of Substitute House Bill 64. Testimony favored and encouraged the continuation of Ohio's Straight A Grant for an additional two years.

Awards and Acknowledgements

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Beavercreek City School District for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2014. The Certificate of Achievement is the highest form of recognition for excellence in state and local government financial reporting.

In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized Comprehensive Annual Financial Report, whose contents conform to program standards. Such reports must satisfy both accounting principles generally accepted in the United States of America and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current report will conform to the high standards required by the Certificate of Achievement program.

The District also received the Association of School Business Officials (ASBO) Certificate of Excellence in Financial Reporting for the fiscal year ended June 30, 2014. This award certifies that a Comprehensive Annual Financial Report substantially conforms to the principles and standards of financial reporting as recommended and adopted by the ASBO. This award is granted only after an extensive review of the report by an expert panel of certified public accountants and practicing school business officials.

The ASBO certificate is also valid for a period of one year only. The District believes our current report meets ASBO requirements.

The preparation and publication of this 14th annual Comprehensive Annual Financial Report would not have been possible without the support of the entire treasurer's office staff, administrative team, and the Board of Education's commitment to excellence in financial accountability.

INDEPENDENT AUDITOR'S REPORT

Beavercreek City School District Greene County 3040 Kemp Road Beavercreek, Ohio 45431

To the Board of Education:

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the Beavercreek City School District, Greene County, Ohio (the District), as of and for the fiscal year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for preparing and fairly presenting these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes designing, implementing, and maintaining internal control relevant to preparing and fairly presenting financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to opine on these financial statements based on our audit. We audited in accordance with auditing standards generally accepted in the United States of America and the financial audit standards in the Comptroller General of the United States' *Government Auditing Standards*. Those standards require us to plan and perform the audit to reasonably assure the financial statements are free from material misstatement.

An audit requires obtaining evidence about financial statement amounts and disclosures. The procedures selected depend on our judgment, including assessing the risks of material financial statement misstatement, whether due to fraud or error. In assessing those risks, we consider internal control relevant to the District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not to the extent needed to opine on the effectiveness of the District's internal control. Accordingly, we express no opinion. An audit also includes evaluating the appropriateness of management's accounting policies and the reasonableness of their significant accounting estimates, as well as our evaluation of the overall financial statement presentation.

We believe the audit evidence we obtained is sufficient and appropriate to support our audit opinions.

One First National Plaza, 130 W. Second St., Suite 2040, Dayton, Ohio 45402 Phone: 937-285-6677 or 800-443-9274 Fax: 937-285-6688 www.ohioauditor.gov Beavercreek City School District Greene County Independent Auditor's Report Page 2

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of the Beavercreek City School District, Greene County, Ohio, as of June 30, 2015, and the respective changes in financial position and, where applicable, cash flows, thereof and the budgetary comparison for the General Fund thereof for the fiscal year then ended in accordance with the accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note 3 to the financial statements, during the fiscal year ended June 30, 2015, the District adopted Governmental Accounting Standard No. 68, *Accounting and Financial Reporting for Pensions – an amendment of GASB Statement No. 27* and Statement No. 71, *Pension Transition for Contributions Made Subsequent to the Measurement Date*. We did not modify our opinion regarding this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require this presentation to include *Management's discussion and analysis* and schedules of net pension liabilities and pension contributions, listed in the table of contents, to supplement the basic financial statements. Although this information is not part of the basic financial statements, the Governmental Accounting Standards Board considers it essential for placing the basic financial statements in an appropriate operational, economic, or historical context. We applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, consisting of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, to the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not opine or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to opine or provide any other assurance.

Supplementary and Other Information

Our audit was conducted to opine on the District's basic financial statements taken as a whole.

The introductory section, the financial section's combining statements, individual fund statements and schedules and the statistical section information present additional analysis and are not a required part of the basic financial statements.

The statements and schedules are management's responsibility, and derive from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. We subjected these statements and schedules to the auditing procedures we applied to the basic financial statements. We also applied certain additional procedures, including comparing and reconciling statements and schedules directly to the underlying accounting and other records used to prepare the basic financial statements and schedules directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves in accordance with auditing standards generally accepted in the United States of America. In our opinion, these statements and schedules are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

We did not subject the introductory section and statistical section information to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we express no opinion or any other assurance on them.

Beavercreek City School District Greene County Independent Auditor's Report Page 3

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 18, 2015, on our consideration of the District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. That report describes the scope of our internal control testing over financial reporting and compliance, and the results of that testing, and does not opine on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Management's Discussion & Analysis For the Fiscal Year Ended June 30, 2015

Unaudited

Our discussion and analysis of Beavercreek City School District's, (the District), financial performance provides an overview of the District's financial activities for the fiscal year ended June 30, 2015. The intent of this discussion and analysis is to look at the District's financial performance as a whole; readers should also review the basic financial statements and the notes to the basic financial statements to enhance their understanding of the District's financial performance.

Financial Highlights

- At June 30, 2015, the District's liabilities and deferred inflows of resources of the District exceeded its assets and deferred outflows of resources by \$64,979,761. This reported deficit can be attributed to recognition of the District's proportionate share of net pension liabilities.
- The District's net position increased by \$4,702,292 or approximately 7%. The majority of this increase can be attributed to fiscal year 2015 being the first full year of collections on an emergency operating levy approved by voters in November 2013.
- As of the close of the current fiscal year, the combined governmental fund balances of the District were \$35,188,784.
- At the end of the current fiscal year, the unassigned fund balance for the general fund, the District's operating fund, was \$20,455,877 or 27% of total general fund expenditures.
- The District's total par value of general obligation debt decreased by \$4,060,020 or 4%.

Using this Comprehensive Annual Financial Report

This comprehensive annual financial report consists of a series of financial statements and notes to those statements. The statements are organized so the reader can understand the District as a whole, and then proceed to provide an increasingly detailed look at specific financial activities.

Reporting the District as a Whole

The Statement of Net Position and Statement of Activities

One of the most important questions asked about the District's finances is, "Is the District better off or worse off as a result of the year's activities?" The Statement of Net Position and the Statement of Activities report information about the District as a whole and about its activities in a manner that helps to answer this question. These statements include all assets, deferred outflows of resources, liabilities and deferred inflows of resources using the accrual basis of accounting prescribed for governmental entities. All of the current year's revenues and expenses are taken into consideration regardless of when cash is received or paid. The financial statements of the District's governmental activities begin on page 17.

These two statements report the District's net position and changes in that position providing the reader a tool to assist in determining whether the District's financial health is improving or deteriorating. The reader will need to consider other non-financial factors such as property tax base, current property tax laws, student enrollment growth, and facility conditions in arriving at their conclusion regarding the overall health of the District. Management's Discussion & Analysis For the Fiscal Year Ended June 30, 2015

Unaudited

Reporting the District's Most Significant Funds

Fund Financial Statements

The fund financial statements begin on page 20 and provide detailed information about the most significant funds – not the District as a whole. Some funds are required to be established by State statute, while many other funds are established by the District to help manage money for particular purposes and compliance with various grant provisions. The District's different types of funds, governmental, proprietary and fiduciary, use different accounting approaches as further described in the notes to the financial statements.

Governmental Funds

Most of the District's activities are reported in governmental funds, which focus on how money flows into and out of those funds and the balances left at year-end available for spending in future periods. These funds are reported using an accounting method called modified accrual accounting, which measures cash and other financial assets that can readily be converted to cash. The governmental fund statements provide a detailed short-term view of the District's general government operations and the basic services it provides. Governmental fund information helps you determine whether there are more or less financial resources available to spend in the near future to finance the District's programs. The relationship (or differences) between governmental activities (reported in the Statement of Net Position and the Statement of Activities) and governmental funds is reconciled in the basic financial statements.

Proprietary Fund

The District's only proprietary fund is the internal service fund established to accumulate monies from other funds to pay claims and other expenses associated the District's self-insured workers' compensation coverage. This fund is reported using the accrual basis of accounting, just as the government wide statements, and focuses on the determination of operating income, the change in net position, financial position and cash flows (starting on page 25). For government wide financial statements, the assets and liabilities are included within governmental activities and the net revenue or expense of the internal service fund for the year is allocated among the participating functions within the governmental activities.

Fiduciary Funds

The District is the trustee, or fiduciary, for its scholarship programs as well as for various student managed activities. All of the District's fiduciary activities are reported in separate a Statement of Fiduciary Assets and Liabilities on page 28. We exclude these activities from the District's other financial statements because the assets cannot be utilized by the District to finance its' operations.

Notes to the Basic Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. These notes to the basic financial statements can be found on pages 29-67 of this report.

TABLE 1 NET POSITION JUNE 30

During 2015, the District adopted GASB Statement 68, "Accounting and Financial Reporting for Pensions—an Amendment of GASB Statement 27," which significantly revises accounting for pension costs and liabilities. For reasons discussed below, many end users of this financial statement will gain a clearer understanding of the District's actual financial condition by adding deferred inflows related to pension and the net pension liability to the reported net position and subtracting deferred outflows related to pension.

Management's Discussion & Analysis For the Fiscal Year Ended June 30, 2015 Unaudited

Governmental Accounting Standards Board standards are national and apply to all government financial reports prepared in accordance with generally accepted accounting principles. When accounting for pension costs, GASB 27 focused on a funding approach. This approach limited pension costs to contributions annually required by law, which may or may not be sufficient to fully fund each plan's *net pension liability*. GASB 68 takes an earnings approach to pension accounting; however, the nature of Ohio's statewide pension systems and state law governing those systems requires additional explanation in order to properly understand the information presented in these statements.

Under the new standards required by GASB 68, the net pension liability equals the District's proportionate share of each plan's collective:

- 1. Present value of estimated future pension benefits attributable to active and inactive employees' past service
- 2 Minus plan assets available to pay these benefits

GASB notes that pension obligations, whether funded or unfunded, are part of the "employment exchange" - that is, the employee is trading his or her labor in exchange for wages, benefits, and the promise of a future pension. GASB noted that the unfunded portion of this pension promise is a present obligation of the government, part of a bargained-for benefit to the employee, and should accordingly be reported by the government as a liability since they received the benefit of the exchange. However, the District is not responsible for certain key factors affecting the balance of this liability. In Ohio, the employee shares the obligation of funding pension benefits with the employer. Both employer and employee contribution rates are capped by State statute. A change in these caps requires action of both Houses of the General Assembly and approval of the Governor. Benefit provisions are also determined by State statute. The employee enters the employment exchange with the knowledge that the employer's promise is limited not by contract but by law. The employer enters the exchange also knowing that there is a specific, legal limit to its contribution to the pension system. In Ohio, there is no legal means to enforce the unfunded liability of the pension system as against the public employer. State law operates to mitigate/lessen the moral obligation of the public employer to the employee, because all parties enter the employment exchange with notice as to the law. The pension system is responsible for the administration of the plan.

Most long-term liabilities have set repayment schedules or, in the case of compensated absences (i.e. sick and vacation leave), are satisfied through paid time-off or termination payments. There is no repayment schedule for the net pension liability. As explained above, changes in pension benefits, contribution rates, and return on investments affect the balance of the net pension liability, but are outside the control of the local government. In the event that contributions, investment returns, and other changes are insufficient to keep up with required pension payments, State statute does not assign/identify the responsible party for the unfunded portion. Due to the unique nature of how the net pension liability is satisfied, this liability is separately identified within the long-term liability section of the statement of net position.

| Management's Discussion & Analysis | |
|---|-----------|
| For the Fiscal Year Ended June 30, 2015 | Unaudited |

In accordance with GASB 68, the District's statements prepared on an accrual basis of accounting include an annual pension expense for their proportionate share of each plan's *change* in net pension liability not accounted for as deferred inflows/outflows.

As a result of implementing GASB 68, the District is reporting a net pension liability and deferred inflows/outflows of resources related to pension on the accrual basis of accounting. This implementation also had the effect of restating net position at June 30, 2014, from a positive \$37,309,471 to a \$69,682,053 deficit.

As noted earlier, increases or decreases in net position may serve over time as a useful indicator of a government's financial position. In the case of the District, liabilities and deferred inflows of resources exceeded assets and deferred outflows of resources by \$65.0 million at the close of the most recent fiscal year compared with the \$69.7 million reported one year prior (revised for GASB 68 implementation).

Total assets of the District increased by \$2.1 million, or 1.0%, from July 1, 2014 to June 30, 2015. Capital assets increased by \$3.8 million (3.8%) as the District completed various building construction and renovation projects. Additions to capital assets during the year amounted to \$10.3 million while depreciation expense was \$6.5 million. At year end, capital assets represented 49% of total assets. Current and other asset accounts decreased by \$1.7 million during the year as intergovernmental receivables reported at June 30, 2015 were \$2.3 million less than one year prior. In the prior year, the District recorded a receivable of \$2.7 million in conjunction with the Straight A's State grant program compared with the \$89,000 receivable recorded at the end of the current year for that same program. This particular grant was a one-time program and the majority of the District's allocation was utilized during fiscal year 2015. An increase in taxes receivable of \$450,000 reported for the fiscal year helped offset the decrease in intergovernmental receivables.

Total liabilities reported at June 30, 2015 decreased by \$9.7 million (4.3%) from those reported at the beginning of the year. Net pension liability (described above) decreased \$17.9 million during the year and represents approximately 44% of the total liabilities reported by the District. Remaining components of total liabilities increased by \$8.2 million during the year as the District recognized the premium associated with the 2015 refunding bonds issued which was partially offset by a decrease in payables associated with construction projects completed during the current year.

Total deferred inflows and outflows of resources increased significantly as the District recorded additional deferred charge on refunding associated with the 2015 advance refunding, higher property tax receivable amounts, and pension liability components.

Net position at June 30, 2015 was \$4.7 million more than it was at the beginning of the year. Net investment in capital assets increased as the District made scheduled debt service payments and current year additions to capital assets. Restricted net position decreased as unspent grant funding (specifically Straight A's program) decreased over the year and resources were utilized during the year to complete capital construction projects. Unrestricted net position (deficit) improved over the year by 9.3%.

Governmental Activities

Net position of the District's governmental activities increased during fiscal year 2015 by approximately \$4.7 million; unrestricted net position (deficit) improved by approximately \$8.8 million during that same period. Total governmental expenses of \$95.1 million exceeded program revenues of \$11.9 million, leaving the remaining \$83.2 million to be covered by general revenues. Program revenues supported 12.5% of the total governmental expenses. The primary sources of revenue for governmental activities

Management's Discussion & AnalysisFor the Fiscal Year Ended June 30, 2015Unaudited

are derived from property taxes and unrestricted grants and entitlements which are reported as general revenues. These two revenue sources represent 87.5% of total governmental revenue.

The property tax laws in Ohio create the need to periodically seek voter approval for additional operating funds. In general, tax revenues generated from a levy do not increase as a result of inflation. An operating levy is approved for a fixed millage rate, but the rate is reduced for inflation with the affect of providing the District the same amount of tax dollars as originally approved. Therefore, school districts, such as ours, that are dependent upon property taxes as a primary source of revenue must periodically return to the ballot and ask voters for additional resources to maintain current programs. Since the District must rely heavily on voter approval of operating tax issues, management of the resources is of paramount concern to District administration and the voting public. The District utilizes a five-year cash financial forecast to estimate revenues and control expenditures to assure tax levy revenues can maintain operating levy which represented the first additional operating levy approved in the past decade. This levy was estimated to provide additional property tax revenue of approximately \$10.4 million per year. Fiscal year 2015 was the first full collection year of the new tax levy which accounts for the increased property tax revenue for the year.

Increases in charges for services and unrestricted grants and entitlements revenues resulted from significantly higher tuition and fees associated with services provided to students who reside outside the District and increases to the general foundation funding, respectively, during the year. Operating grants and contributions decreased over those reported for the prior year as the majority of the one-time State Straight A's grant funding was recognized in the prior fiscal year.

The information necessary to restate the fiscal year 2014 beginning balances and the fiscal year 2014 pension expense amounts for the effects of the initial implementation of GASB 68 is not available. Therefore, the functional expenses reported for fiscal year 2014, which amounted to \$6,038,576, was reported using the guidance of GASB Statement No. 27. GASB 27 required recognizing pension expense equal to the contractually required contributions to the pension plans. Under GASB 68, pension expense represents additional amounts earned, adjusted by deferred inflows and outflow of resources. The required contribution is no longer a component of pension expense under GASB 68. Using the guidance provided by GASB 68, the fiscal year 2015 statements report pension expense totaling \$4,654,941. Consequently, in order to compare fiscal year 2015 total program expenses to those of fiscal year 2014, the following adjustments are needed:

| Total FY2015 program expenses under GASB 68 | \$ 95,129,730 |
|---|------------------|
| Pension expense under GASB 68 | (4,654,941) |
| FY2015 contractually required contributions | 6,372,322 |
| Adjusted FY2015 program expenses | 96,847,111 |
| Total FY2014 program expenses under GASB 27 | 91,952,223 |
| Increase in program expenses not related to pension | \$ 4,894,888 |

| Management's Discussion & Analysis | |
|---|-----------|
| For the Fiscal Year Ended June 30, 2015 | Unaudited |

The largest expense of the District is for instructional programs. Instructional expenses total \$49.7 million or 52% of the total governmental expenses reported for fiscal year 2015 compared with 57% reported for the prior year. Total expenses reported for fiscal year 2015 increased by \$3.2 million over those reported for the prior year. Central support services expenses increased as depreciation expense recorded within this function increased significantly due to the new buildings constructed within the District over the past year. Interest and issuance costs expense increased due to the recognition of accreted interest on capital appreciation bonds issued during the year as well as the issuance costs associated with the refunding bonds issued in the year. Decrease in instruction expense resulted from the majority of the expenses associated with the one-time Straight A's grant program being incurred during the prior fiscal year.

The Statement of Activities shows the cost of program services and the charges for services and grants offsetting those services. The table below reflects the cost of program services and the net cost of those services after taking into account the program revenues for the governmental activities. General revenues including tax revenue, investment earnings and unrestricted State entitlements must support the net cost of program services. Comparisons to 2014 are as follows:

TABLE 3 TOTAL AND COST OF PROGRAM SERVICES FOR THE FISCAL YEAR ENDED JUNE 30,

Despite increases in unrestricted operating grants and general intergovernmental revenue, funding the operation of the District remains heavily reliant on property tax revenues. During fiscal year 2015, property taxes accounted for 68% of total revenues for governmental activities. The reliance on general revenues to support governmental activities is indicated by the net services column reflecting the need for approximately \$83.2 million of support to finance the functions. In total, general revenues were used to cover 87% of expenditures for the governmental activities. The non-instructional services, primarily food service operations, were the only functional area which generated sufficient revenues to cover the majority of the functional expenses.

The District's Funds

Information about the District's governmental funds begins on page 20. These funds are accounted for using the modified accrual basis of accounting. All governmental funds had total revenues of \$98.9 million and expenditures of \$102.2 million. Overall fund balance of governmental funds decreased \$2.4 million over those at June 30, 2014.

The general fund is the primary operating fund of the District. The general fund balance increased by \$5.3 million during the year compared with a \$1.5 million increase reported in the prior year. General fund revenues increased by \$4.9 million over those of fiscal year 2014 due to the increase in property tax collections noted above. Expenditures of the fund increased by \$3.2 million over those reported in the prior year due to increasing cost associated with special education instruction as well as normal inflationary factors. The increase in the general fund balance was also aided by the decrease in transfers out. During the prior year, the District financed the early termination of a lease-financing arrangement through a \$1.9 million transfer to the debt service fund to save nearly \$841,500 of interest expense over the next eleven fiscal years. In fiscal year 2015, no transfers of funds were required to be made out of the general fund. The ending unassigned fund balance of the general fund at June 30, 2015 (\$20.5 million) represents over 27% of the total expenditures reported by the general fund for the year then ended.

The District's other major fund, the debt service fund, increased its fund balance during the fiscal year, which is nearly \$5.7 million at June 30, 2015. This fund accumulates resources, predominately from

Management's Discussion & Analysis For the Fiscal Year Ended June 30, 2015

Unaudited

property taxes, to repay general obligation debt of the District. Debt service payments, including issuance costs, during the year totaled \$8.4 million, while property tax related revenues amounted to just over \$8.3 million. In fiscal year 2015, the District issued \$65.9 million of refunding bonds to provide financing for the advance refunding of a significant portion of the 2009 school improvement bonds. This advance refunding was undertaken to reduce total debt service payments over the next 22 years by \$5.9 million, and resulted in an economic gain of \$4.3 million to the District.

General Fund Budget Information

During fiscal year 2015, the District modified the general fund's budget on a few occasions. Revenues were originally budgeted at \$77.9 million which remained the same throughout the year. Expenditures were initially budgeted at \$72.9 million but were increased to \$76.4 million to account for additional instructional spending anticipated during the second half of the school year. Actual budgetary revenues were \$3.1 million higher than the budgeted revenues while actual budgetary expenditures ended nearly \$2.6 million less than the final budgeted expenditures in total as the anticipated increase in instructional spending did not occur during the fiscal year.

The ending budgetary fund balance of the general fund ended fiscal year 2015 at \$23.1 million, or nearly \$8.3 million more than the final budgeted balance of \$14.8 million and over \$6.0 million more than original budgeted balance of \$17.0 million. The higher actual budgetary fund balance resulted from higher than anticipated property tax revenues received during the year, the lower than expected instructional spending, and the unbudgeted \$3.0 million return of advances (primarily from the Straight A's State grant fund) which were made at the end of the prior fiscal year.

It should be noted, the District utilizes the five-year forecast as the original document from which to form the operating budget. After updating of the forecast for changes in revenue and expenditure assumptions the operating budget begins at the school building and department level. Each building and department in the District receives an allocation based on a number of factors including estimated revenue, a historical analysis, projected current need, including enrollment and projected current resources. The building and department budgets are reviewed monthly to ensure management becomes aware of any significant variations during the year.

Capital Assets

At the end of the fiscal year 2015, the District had \$105,170,239 invested in land, construction in progress, land improvements, buildings, building improvements, furniture, equipment and vehicles.

During the year, the District reported capital asset additions of \$10.3 million. Completion of the new Beavercreek Preschool Building and Shaw Elementary School gymnasium, as well as renovations and improvements to existing facilities throughout the District, account for \$9.7 million addition to buildings category for the year. In addition, four new school buses and two other vehicles increased the vehicles category by nearly \$320,000 during the year. Depreciation expense on all capital assets was \$6.5 million for the fiscal year.

Additional information regarding capital assets can be found in Note 8 of this report.

Debt Administration

At June 30, 2015, the District had \$107.4 million in outstanding general obligation bonds, including \$3.6 million of accreted interest on capital appreciation bonds and \$12.4 million of unamortized premiums on bonds issued. During the fiscal year, the District paid \$4.1 million in principal on bonds during fiscal year 2015 and another \$4.7 million of principal is due to mature within one year.

In fiscal year 2015, the District issued \$65.9 million of refunding bonds to provide financing for the advance refunding of a significant portion of the 2009 school improvement bonds. This advance refunding was undertaken to reduce total debt service payments over the next 22 years by \$5.9 million, and resulted in an economic gain of \$4.3 million to the District.

Detailed information regarding long term debt obligations is included in Note 10 to the basic financial statements.

Contacting the District

This financial report is designed to provide our citizens, taxpayers, creditors and investors with a general overview of the District's financial position and to show the District's accountability for the funds it receives. Should you have any questions about this report or any other financial matter, contact the Treasurer's Office at Beavercreek City School District, 3040 Kemp Road, Beavercreek, Ohio 45431.

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities for the Fiscal Year Ended June 30, 2015

| Net Change in Fund Balances - Total Governmental Funds | \$ (2,438,501) |
|---|----------------------|
| Amounts reported for governmental activites in the statement of activities are different because: | |
| Governmental funds report capital outlays as expenditues. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capital outlay exceeded depreciation in the current period. | |
| Capital asset additions used in governmental activities Donated capital assets | 9,878,677 405,000 |
| Depreciation expense | (6,463,978) |
| Book value of capital assets disposed of during year | (11,989) |
| Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds. | 783,077 |
| The issuance of long-term debt (e.g., bonds, leases) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position. Also, governmental funds report the effects of premiums, discounts, deferred loss on refundings when debt is first issued, whereas these amounts are amortized in the statement of activities. | |
| Repayment of long-term bonds and capital leases | 4,165,000 |
| Current year amortization of bond premium | 398,204 |
| Current year amortization of deferred charge on refunding | (266,750) |
| Current year accretion of interest on capital appreciation bonds | (3,613,983) |
| Refunding bonds issued | (65,929,980) |
| Premium on bonds issued | (11,971,197) |
| Payment to escrow agent for advance bond refunding | 77,185,738 |
| Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in the governmental funds. | |
| Accrued interest payable | (67,580) |
| Compensated absences | 736,817 |
| Contractually required contributions are reported as expenditures in the governmental | |
| funds, however, the statement of activities reports these amounts as deferred outflows. | 6,372,322 |
| Except for amounts reported as deferred outflows/inflows, changes in the net pension liability are reported as pension expense among the functions in the statement | (4, 400, 500) |
| of activities. | (4,422,598) |
| Internal service funds are used by management to accumulate sufficient resources to make premium payments for worker's compensation through payroll charges to | |
| to the funds. The net revenue or expense of the internal service fund is allocated among the governmental activities on the statement of activities. | (35,987) |
| | (33,307) |
| Change in Net Positon of Governmental Activities | \$ 4,702,292 |

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2015

1. Description of the District and Reporting Entity

The Beavercreek City School District (the "District") is a body politic and corporate established for the purpose of exercising the rights and privileges conveyed to it by the constitution and laws of the State of Ohio. The District is a city district as defined by Section 3311.02 of the Ohio Revised Code. The District operates under a locally elected five member board and is responsible for the provision of public education to residents of the District. The Board controls the District's instructional/support facilities staffed by 378 non-certificated staff, 461 certificated staff members and 37 administrative staff to provide services to approximately 7,700 students.

Reporting Entity

The reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the basic financial statements of the District are not misleading.

The primary government consists of all funds and departments, which provide various services including instruction, student guidance, extracurricular activities, food service, pre-school, educational media and care and upkeep of grounds and buildings. The operation of each of these activities is directly controlled by the Board of Education.

Current State legislation provides funding to parochial schools, as well as the community and Montessori schools within the District boundaries. These monies are received and disbursed on behalf of the non-public school by the treasurer of the District, as directed by the non-public school. The State monies received/disbursed by the District are reflected as a governmental activity for financial reporting purposes.

Component units are legally separate organizations for which the District is financially accountable. The District is financially accountable for an organization if the District appoints a voting majority of the organization's governing body and (1) the District is able to significantly influence the programs or services performed or provided by the organization; or (2) the District is legally entitled to or can otherwise access the organization's resources; (3) the District is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or (4) the District is obligated for the debt of the organization. Component units may also include organizations for which the District approves the budget, the issuance of debt or the levying of taxes. The District does not have any component units.

The District is associated with four organizations, which are defined as jointly governed. These organizations include the Southwestern Ohio Education Purchasing Council (SOEPC), Miami Valley Educational Cooperative Association (MVECA), the Greene County Career Center, and the Southwestern Ohio Instructional Technology Association (SOITA). These organizations are presented in Note 17 to the basic financial statements.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2015

2. <u>Summary of Significant Accounting Policies</u>

The significant accounting policies followed in the preparation of these financial statements are summarized below. These policies conform to accounting principles generally accepted in the United States of America (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the District's policies are described below.

a. Fund Accounting

The District uses funds to maintain its financial records during the fiscal year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. The funds of the District are divided into the categories governmental, proprietary and fiduciary.

Governmental Funds

Governmental funds are those through which most governmental functions of the District are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the District's major governmental funds:

<u>General Fund</u> - The general fund is used to account for all financial resources except those required to be accounted for in another fund. The general fund balance is available for any purpose provided it is expended or transferred according to the general laws of Ohio.

<u>Debt Service Fund</u> - The debt service fund is used to account for the accumulation of resources that are restricted for the payment of general long-term debt principal, interest and related costs.

Other governmental funds of the District may be used to account for specific resources that are restricted or committed to specified purposes.

Proprietary Fund

The proprietary fund focuses on the determination of operating income, the change in net position, financial position, and cash flows. Proprietary funds are classified as enterprise or internal service; the District has no enterprise funds.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2015

2. <u>Summary of Significant Accounting Policies</u> (continued)

<u>Internal Service Fund</u> – The internal service fund accounts for the financing of services provided by one department or agency to other departments or agencies of the District on a cost reimbursement basis. The District has one internal service fund used to accumulate monies charged to other funds for the payment of future workers' compensation claims and related expenses.

Fiduciary Funds

Fiduciary Funds are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, other governmental units and/or other funds. These include agency funds. Agency funds are purely custodial and thus do not involve measurement of results of operations. The District's agency funds account for student activities, scholarship resources that belong to outside entities, as well as employee payroll withholdings and undistributed state athletic tournament funds that remain unremitted at year-end.

b. Basis of Presentation

Government-wide Financial Statements

The statement of net position and the statement of activities display information about the District as a whole. These statements include the financial activities of the primary government, except for fiduciary funds.

The government-wide statements are prepared using the economic resources measurement focus. All assets, deferred outflows of resources, liabilities and deferred inflows of resources associated with the operation of the District are included on the statement of net position. This approach differs from the manner in which governmental fund financial statements are prepared. Governmental fund financial statements therefore include reconciliation with brief explanations to better identify the relationship between the government-wide statements and the statements for governmental funds.

The government-wide statement of activities presents a comparison between direct expenses and program revenues for each function or program of the governmental activities of the District. Direct expenses are those that are specifically associated with a service, program or department and therefore clearly identifiable to a particular function. Program revenues include amounts paid by the recipient of goods or services offered by the program and grants and contributions that are restricted to meeting the operational requirements of a particular program. Revenues not classified as program revenues are presented as general revenues.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2015

2. <u>Summary of Significant Accounting Policies</u> (continued)

Fund Financial Statements

Fund financial statements report detailed information about the District. The focus of governmental fund financial statements is on major funds rather than reporting funds by type. Each major fund is presented in a separate column, and all non-major funds are aggregated into one column. Internal service and fiduciary funds are reported by fund type.

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and liabilities, as well as deferred inflows of resources, are generally included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in current fund balances. Like the government-wide statements, all proprietary and fiduciary funds are accounted for on a flow of economic resources management focus.

c. Basis of Accounting

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. The Fund financial statements are prepared using either modified accrual for governmental funds or accrual basis for proprietary and fiduciary funds.

Revenues, Exchange and Non-exchange Transactions

Revenue resulting from exchange transactions is recorded on the accrual basis when the exchange takes place. On a modified accrual basis, revenues are recognized in the accounting period when they become both measurable and available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current fiscal year. The available period of the District is sixty days after year end.

Non-exchange transactions, in which the District receives value without directly giving equal value in return, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied (See Note 6). Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been met. On the modified accrual basis, revenue from non-exchange transactions must also be available before it can be recognized.

In applying the susceptible to accrual concept under the modified accrual basis, the following revenue sources are deemed both measurable and available: property taxes available for advance, investment earnings, tuition, grants and student fees.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2015

2. <u>Summary of Significant Accounting Policies</u> (continued)

Deferred Outflows/Inflows of Resources

In addition to asses, the statements of financial position will sometimes report a separate section for deferred outflows of resources. Deferred outflows of resources represent a consumption of net position that applies to a future period and will not be recognized as an outflow of resources (expense/expenditure) until then. For the District, deferred outflows of resources are reported on the government-wide statement of net position for deferred charges on refunding and for pension. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The deferred outflows of resources related to pension are explained further in Note 12.

In addition to liabilities, the statements of financial position report a separate section for deferred inflows of resources. Deferred inflows of resources represent an acquisition of net position that applies to a future period and will not be recognized as an inflow of resources (revenue) until that time. For the District, deferred inflows of resources include property taxes, pension, and unavailable revenue. Property taxes represent amounts for which there is an enforceable legal claim as of June 30, 2015, but which were levied to finance fiscal year 2016 operations. These amounts have been recorded as a deferred inflow on both the government-wide statement of net position and governmental fund financial statements. Unavailable revenue is reported only on the governmental funds balance sheet, and represents receivables which will not be collected within the available period. For the District, unavailable revenue includes delinquent property taxes and intergovernmental grants. These amounts are deferred and recognized as an inflow of resources as an inflow of resources in the period the amounts become available. Deferred inflows of resources related to pension are reported on the government-wide statement of net position and are further explained in Note 12.

Expenditures/Expenses

The measurement focus of governmental fund accounting is on flow of current financial resources. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred except for (1) principal and interest on general long-term debt, which is recorded when due, and (2) the costs of accumulated unpaid vacation and sick leave are reported as fund liabilities to the extent that payments come due each period upon the occurrence of employee resignations and retirements. Allocation of costs, such as depreciation and amortization, are not recognized in governmental funds.

The accrual basis of accounting utilized by the government-wide and proprietary fund financial statements recognize revenues when they are earned, and expenses are recognized at the time they are incurred.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2015

2. <u>Summary of Significant Accounting Policies</u> (continued)

Budgets and Budgetary Accounting

The budgetary process is prescribed by provisions of the Ohio Revised Code and entails the preparation of budgetary documents within an established timetable. The major documents prepared are the tax budget, certificate of estimated resources, and the appropriations resolution, all of which are prepared on the budgetary basis of accounting. The certificate of estimated resources and the appropriation resolution are subject to amendment throughout the year with the legal restriction that appropriations cannot exceed estimated resources, as certified.

All funds, other than agency funds, are legally required to be budgeted and appropriated, however the District elects to adopt appropriations and budgets for its agency funds. The legal level of control is at the fund level. Any budgetary modifications at this level may only be made by resolution of the Board of Education.

Advances in and advances out are not required to be budgeted since they represent a temporary cash flow resource and are intended to be repaid.

Tax Budget

Prior to January 15, the Superintendent and Treasurer submit to the Board of Education a proposed operating budget for the fiscal year commencing on the following July 1. The budget includes proposed expenditures and means of financing for all funds. Public hearings are publicized and conducted to obtain taxpayer's comments. The express purpose of this budget document is to reflect the need for existing (or increased) tax rates.

By no later than January 20, the Board-adopted budget is filed with the Greene County Budget Commission for rate determination.

Estimated Resources

Prior to April 1, the Board of Education accepts, by formal resolution, the tax rates as determined by the Budget Commission and receives the Commission's Certificate of Estimated Resources, which states the projected revenue of each fund. Prior to June 30, the District must revise its budget so that total contemplated expenditures from any fund during the ensuing year will not exceed the amount stated in the Certificate of Estimated Resources. The revised budget then serves as the basis for the appropriation measure. On or about July 1, the Certificate is amended to include unencumbered cash balances from the preceding year. The certificate may be further amended during the year if the fiscal officer determines that the revenue collected is greater or less than the current estimates. The amounts reported on the budgetary statement reflect the amounts in the final amended official certificate of estimated resources issued during fiscal year 2015.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2015

2. Summary of Significant Accounting Policies (continued)

Appropriations

Upon receipt from the County Auditor of an amended certificate of estimated resources based on final assessed values and tax rates or a certificate saying no new certificate is necessary, the annual appropriation resolution is legally enacted by the Board of Education at the fund level of expenditures, which is the legal level of budgetary control. Prior to the passage of the annual appropriation measure, the Board may pass a temporary appropriation measure to meet the ordinary expenses of the District. The appropriation resolution, by fund, must be within the estimated resources as certified by the County Budget Commission and the total of expenditures may not exceed the appropriation totals at the legal level of control. Any revisions that alter the total of any fund appropriation must be approved by the Board of Education.

The Board may pass supplemental fund appropriations so long as the total appropriation by fund does not exceed the amounts set forth in the most recent Certificate of Estimated Resources. The budget figures, which appear in the statements of budgetary comparison, represent the final appropriation amounts, including all amendments and modifications.

As part of formal budgetary control, purchase orders, contracts and other commitments for the expenditure of monies are recorded as the equivalent of expenditures on the non-GAAP budgetary basis in order to reserve that portion of the applicable appropriation and to determine and maintain legal compliance. The Ohio Revised Code prohibits expenditures from exceeding appropriations. On the fund financial statement encumbrances are reported within the restricted, committed or assigned fund balances depending on the restrictions placed upon the resources encumbered. For the general fund, encumbrances are reported as a component of assigned fund balance indicating that amount is not currently available. Encumbrances are reported as part of expenditures/expenses on a non-GAAP budgetary basis.

Lapsing of Appropriations

At the close of each year, the unencumbered balance of each appropriation reverts to the respective fund from which it was appropriated and becomes subject to future appropriations. Encumbered appropriations are carried forward to the succeeding fiscal year and are not re-appropriated.

d. Cash and Investments

The District maintains a cash and investment pool used by all funds. The cash and investment pool has the same characteristics as demand deposits. Each fund type's portion of this pool is displayed in the financial statements as cash and cash equivalents. The District utilizes a financial institution to service bonded debt as principal and interest payments come due. The monies are either maintained in a central bank account or used to purchase legal investments.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2015

2. Summary of Significant Accounting Policies (continued)

The Ohio Revised Code authorizes the District to invest in United States and State of Ohio bonds, notes and other obligations; bank certificates of deposit; bankers' acceptances; commercial paper notes rated prime and issued by United States corporations; and STAR Ohio.

STAR Ohio is an investment pool managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's net asset value per share which is the price the investment could be sold for on June 30, 2015.

It is the policy of the District to value investment contracts and money market investments at fair value. All other investments are reported at fair value, which is based on quoted market prices. All investments of the cash management pool and those with an original maturity of three months or less when purchased are considered to be cash equivalents.

Under existing Ohio statutes, all investment earnings accrue to the general, food service fund and auxiliary service fund, and building fund. Interest earnings allocated to the food service and auxiliary service funds are based on average monthly cash balances. Investment earnings allocated to the building fund is actual earnings earned on debt proceeds used to finance building projects. Investment income credited to the general fund during the fiscal year amounted to \$132,740, which includes \$45,418 assigned from other District funds. Non-major governmental funds reported investment income of \$39,968 as well.

e. Inventory

On government-wide financial statements, inventories are presented at the lower of cost or market using the first in, first out (FIFO) method and are expensed when used.

On fund financial statements, inventories of governmental funds are valued at cost. For all funds, cost is determined using the FIFO method, and are determined by physical count. Inventory in governmental funds consists of expendable supplies held for consumption, and supplies held for resale. The cost is recorded as an expenditure when used. Reported inventories in these funds are reported as a non-spendable component of fund balance.

f. Prepaid Items

Payments made to vendors for services that will benefit periods beyond June 30, 2015 are recorded as prepaid items on the government-wide financial statements using the consumption method and recording a current asset for the prepaid amount and reflecting the expenditure in the current year in which services are consumed. Reported prepaid items are reported as a non-spendable component of fund balance.
Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2015

2. Summary of Significant Accounting Policies (continued)

g. Capital Assets and Depreciation

General capital assets are reported in the government-wide statement of net position but are not reported in the fund financial statements.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their fair market values as of the date received. The District follows the policy of not capitalizing assets with a cost of less than \$5,000 and a useful life of less than 1 year. The District does not possess any infrastructure.

All reported capital assets, with the exception of land, are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method over the following useful lives:

| Description | <u>Useful Life</u> |
|--------------------------------|--------------------|
| Land | Not depreciated |
| Land Improvements | 30 |
| Buildings & Improvements | 30 |
| Furniture, Fixtures & Vehicles | 5-10 |

h. Interfund Balances

On fund financial statements, receivables and payables resulting from short-term interfund loans are classified as interfund receivables/payables. These amounts are eliminated in the statement of net position.

i. Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employee's right to receive compensation is attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or some other means. Sick leave benefits are accrued as a liability using the vesting method. The liability is based on the sick leave accumulated at June 30 by those employees who are currently eligible to receive termination payments and those employees for whom it is probable they will become eligible to receive termination benefits in the future. The criteria for determining the vacation and sick leave liability is derived from Board policy, negotiated agreements, and state laws. The liability is based upon pay rates in effect at the balance sheet date.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2015

2. <u>Summary of Significant Accounting Policies</u> (continued)

The entire compensated absence liability is reported on the government-wide financial statements. For governmental fund financial statements, compensated absences are recognized as liabilities and expenditures as payments come due each period upon the occurrence of employee resignations and retirements. These amounts are recorded in the account "matured compensated absences payable" in the fund from which the employee will be paid.

j. Accrued Liabilities and Long-term Obligations

For governmental fund financial statements, the accrued liabilities are generally reported as a governmental fund liability if due for payment as of the balance sheet date regardless of whether they will be liquidated with current financial resources. However, compensated absences paid from governmental funds (typically the general fund) are reported as a liability in the fund financial statements only for the portion expected to be financed from expendable available financial resources. Long-term debt paid from governmental funds is not recognized as a liability in the fund financial statements until due.

k. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the pension plans and additions to/deductions from their fiduciary net positon have been determined on the same basis as they are reported by the pension systems. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. The pension systems report investments at fair value.

I. Fund Balance

The District reports classifications of fund balance based on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. The following categories are used:

<u>Nonspendable</u> – amounts that cannot be spent because they are either (a) not in spendable form or (b) legally required to be maintained intact.

<u>Restricted</u> – amounts that have constraints placed on the use of resources that are either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments, or (b) imposed by law through constitutional provisions or enabling legislation.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2015

2. <u>Summary of Significant Accounting Policies</u> (continued)

<u>Committed</u> – amounts that can only be used for specific purposes pursuant to constraints imposed by formal action (resolution) of the District's highest level of decision-making authority, the Board of Education.

<u>Assigned</u> – amounts that are constrained by the District's intent to be used for specific purpose, but are neither restricted not committed. Assigned amounts include those approved through the District's formal purchasing procedure by the Treasurer. Through the District's purchasing policy, the Board of Education has given the Treasurer the authority to constrain monies for intended purposes.

<u>Unassigned</u> – residual fund balance within the general fund that is in spendable form that is not restricted, committed or assigned. In other governmental funds, the unassigned classification is used only to report a deficit balance resulting from overspending for specific purposes for which amounts had been restricted, committed or assigned.

The District applies restricted resources first when an expenditure is incurred for purposes for which restricted and unrestricted fund balance is available. The District considers committed, assigned, and unassigned fund balances, respectively, to be spent when expenditures are incurred for purposes for which any of the unrestricted fund balance classifications could be used.

m. Net Position

Net position represents the difference between assets and deferred outflows of resources compared with liabilities and deferred inflows of resources. Net investment in capital assets represents capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowings used for the acquisition, construction or improvements of those assets. For the district this includes outstanding balance of the 1995, 2006, 2009 and 2015 school improvement and refunding bonds, as well as the reported capital lease obligation at year end. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors or laws, regulations or other governments.

The District applies restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net position is available.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2015

2. <u>Summary of Significant Accounting Policies</u> (continued)

n. Interfund Activity

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements to avoid "doubling up" revenues and expenses. Transfers within governmental activities are eliminated on the government-wide financial statements. Internal allocations of overhead expenses from one function to another or within the same function are also eliminated. Payments for interfund services provided and used are not eliminated.

o. Operating Revenues and Expenses

Operating revenues and expenses generally result from providing services in connection with a proprietary fund's principal ongoing operations. The principal operating revenue of the District's internal service fund are charges made to other funds for workers' compensation premiums and operating expenses are the payments of those premiums. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

p. Unamortized Bond Premium and Discount/Accounting Gain or Loss

On government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable government activities statement of net position. Bond premiums and discounts, as well as deferred gain or loss on refunding, are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount. Unamortized deferred gain or loss on refunding are reported as a component of deferred inflows of resources or deferred outflows of resources, respectively. Bond issuance costs are reported as current period expense when incurred.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

q. Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported on the financial statements and accompanying notes. Actual results may differ from those estimates.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2015

3. Accountability

a. Change in Accounting Principle and Restatement of Net Position

For fiscal year 2015, the District implemented the Governmental Accounting Standards Board (GASB) Statement No. 68, "Accounting and Financial Reporting for Pensions" and GASB Statement No. 71, "Pension Transition for Contributions Made Subsequent to the Measurement Date—an amendment of GASB Statement No. 68." GASB 68 established standards for measuring and recognizing pension liabilities, deferred outflows of resources deferred inflows of resources and expense/expenditure. The implementation of this pronouncement had the following effect on net position as reported June 30, 2014:

| | Governmental Activities | | | | | |
|---|----------------------------|--|--|--|--|--|
| Net Position at June 30, 2014 as previously reported | \$ 37,309,471 | | | | | |
| Adjustments: Net Pension Liability at June 30, 2014 Deferred Outflows - Payments Subsequent to Measurement Date | (113,030,100) 6,038,576 | | | | | |
| Net Position at June 30, 2014 as restated | <u>\$ (69,682,053)</u> | | | | | |

Other than employer contributions subsequent to the measurement date, the District made no restatement for deferred inflows/outflows of resources as the information needed to generate these restatements was not available.

b. Deficit Fund Balances

Individual fund deficits reported at June 30, 2015 include the following:

| Non-Major Funds | Deficit |
|--|-------------|
| Other State Grants | \$ 5,043 |
| IDEA, Part B Grant | 25,740 |
| Title III, Limited English Proficiency Grant | 1,345 |
| Title I Grant | 35,888 |
| Miscellaneous Federal Grants | 29,523 |

These deficit balances resulted from adjustments for accrued liabilities. The general fund is liable for any deficit in these funds and will provide transfers when cash is required, not when accruals occur.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2015

4. <u>Budgetary Basis of Accounting</u>

While the District is reporting financial position, results of operations and changes in fund balance on the basis of GAAP, the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements and encumbrances. The Statement of Revenues, Expenditures and Changes in Fund Balances – Budget (Non-GAAP Basis) and Actual presented for the general fund is presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and GAAP basis are that:

Revenues and other financing sources are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis);

Expenditures and other financing uses are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis);

In order to determine compliance with Ohio law, and reserve that portion of the applicable appropriation, total outstanding encumbrances (budget basis) are recorded as the equivalent of an expenditure, as opposed to an assignment of fund balance for that portion of outstanding encumbrances not already recognized as an account payable (GAAP basis); and,

Some funds are included in the general fund (GAAP basis), but have separate legally adopted budgets (budget basis).

The adjustments necessary to convert the results of operations for the year on the budget basis to the GAAP basis for the general fund are as follows:

| Net Change in Fund Balance | | |
|-------------------------------------|----|--------------|
| | (| General Fund |
| Budget Basis | \$ | 9,455,288 |
| Adjustments: | | |
| Revenue Accruals | | (1,420,545) |
| Expenditure Accruals | | (1,249,419) |
| Encumbrances | | 491,344 |
| Other Financing Sources(Uses) | | (2,237,051) |
| Perspective Budgeting Difference ** | | 248,072 |
| GAAP Basis | \$ | 5,287,689 |

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2015

4. Budgetary Basis of Accounting (continued)

** As part of GASB Statement No. 54, "<u>Fund Balance Reporting</u>", certain funds that are legally budgeted in separate special revenue funds are considered part of the general fund on a GAAP basis. This includes the uniform school supply fund, public school support fund, summer school fund, and employee summer insurance escrow fund. These funds have legally adopted budgets and have a schedule of revenues, expenditures and changes in fund balance – budget (Non-GAAP basis) and actual presented.

5. Deposits and Investments

State statutes require the classification of monies held by the District into three categories.

Active Monies - Those monies required to be kept in a "cash" or "near-cash" status for immediate use by the district. Such monies must be maintained either as cash in the District Treasury, in depository accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Inactive Monies - Those monies not required for use within the current five year period of designation of depositories. Inactive monies may be deposited or invested as certificates of deposit maturing not later than the end of the current period of designation of depositories, or as savings or deposit accounts including, but not limited to, passbook accounts.

Interim Monies - Those monies which are not needed for immediate use but which will be needed before the end of the current period of designation of depositories. Ohio law permits interim monies to be invested in legal securities (see Note 2d).

Interim monies may be deposited or invested in the following securities:

United States Treasury Notes, Bills, Bonds or any other obligation or security issued by the United States Treasury or any other obligation guaranteed as to principal and interest by the United States;

Bonds, notes, debentures, or any other obligations or securities issued by any federal government agency or instrumentality, including but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;

Written repurchase agreements in the securities listed above provided that the market value of the securities subject to the repurchase agreement must exceed the principal value of the agreement by at least 2% and be marked to market daily, and that the term of the agreement must not exceed thirty days;

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2015

5. **Deposits and Investments** (continued)

Bonds and other obligations of the State of Ohio;

No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2) of this section and repurchase agreements secured by such obligations, provided that investments in securities described in this division are made only through eligible institutions;

The State Treasurer's investment pool (STAR Ohio);

Certain banker's acceptance and commercial paper notes for a period not to exceed one hundred eighty days from purchase date in an amount not to exceed 25% of the interim monies available for investment at any one time, and under limited circumstances, corporate debt interests rated in either of the two highest classifications by at least two nationally recognized rating agencies.

Investments in stripped principal or interest obligations reverse repurchase agreements and derivatives are prohibited. The issuance of table notes for the purpose of arbitrage, the use of leverage and short selling are also prohibited. An investment must mature within five years from the date of purchase unless <u>matched</u> to a specific obligation of or debt of the District, and must be purchased with the expectation that it will be held to maturity. Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

Deposits

The carrying amount of all District deposits was \$24,930,207 including cash on hand. Based on the criteria described in GASB Statement 40, "Deposits and Investment Risk Disclosures", \$7,733,851 of the District's bank balance of \$26,663,716 was exposed to custodial risk as discussed below, while \$18,929,865 was covered by Federal Deposit Insurance Corporation.

Custodial credit risk is the risk that, in the event of bank failure, the District's deposits may not be returned. All deposits are collateralized with eligible securities in amounts equal to at least 105% of the carrying value of the deposits. Such collateral, as permitted by the Ohio Revised Code and the District's investment policy, is held in single financial institution collateral pools at Federal Reserve Banks, or at member banks of the federal reserve system, in the name of the respective depository bank and pledged as a pool of collateral against all of the public deposits it holds or as specific collateral held at the Federal Reserve Bank in the name of the District.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2015

5. **Deposits and Investments** (continued)

Investments

As of June 30, 2015, the District had the following investments and maturities:

| | Fair | Maturity (in years) | | | | | |
|---------------------------|------------------|---------------------|-------------------|----|-----------|--------|-----------|
| Investment Type | Value | | ess than 1 | | 1 to 3 | 4 to 5 | |
| U.S. Treasuries | \$ 3,655,885 | \$ | 2,187,115 | \$ | 1,468,770 | \$ | - |
| U.S. Agencies | | | | | | | |
| Federal Home Loan | | | | | | | |
| Mortgage Corp. (FHLMC) | 2,019,719 | | 500,018 | | 774,516 | | 745,185 |
| Federal National Mortgage | | | | | | | |
| Association (FNMA) | 3,088,573 | | 165,310 | | 209,391 | | 2,713,872 |
| Negotiable CDs | 6,256,682 | | 1,454,671 1,829,2 | | 1,829,212 | | 2,972,799 |
| Mutual Fund | 321,101 | | 321,101 | - | | | - |
| Commerical Paper | 42,010 | | 42,010 | - | | | - |
| STAROhio | 10,196 | | 10,196 | | - | _ | - |
| Total | \$ 15,394,166 | \$ | 4,680,421 | \$ | 4,281,889 | \$ | 6,431,856 |

Interest Rate Risk

As a means of limiting its exposure to fair value losses arising from rising interest rates and according to State law, the District's investment policy limits investment portfolio maturities to five years or less.

Credit Risk

The District's investment in securities of Federal agencies were rated Aaa by Moody's and AA+ by Standard & Poor's; commercial paper held was rated P-1 by Moody's; and the mutual fund and STAR Ohio were rated AAAm by Standard & Poor's. Negotiable Certificates of Deposits (CDs) were fully insured by FDIC. The District has no policy limiting investments based on credit risk other than those established by ORC.

Custodial Credit Risk

For an investment, custodial credit risk is the risk that, in the event of the failure of the counterparty, the District will not be able to recover the value of its investment or collateral securities that are in the possession of an outside party. The District's investment policy does not specifically address custodial credit risk beyond the adherence to those investments permitted by the ORC. Requirements in State statute prohibit payment for investments prior to the delivery of the securities representing such investments to the treasurer or qualified trustee.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2015

5. **Deposits and Investments** (continued)

Concentration of Credit Risk

The District places a limit on the percentage of the portfolio that may be held in the form of commercial paper, other than this stipulation, the District places no limit on the amount that may be invested in any one issuer. The following table includes the percentage of each investment type held by the District at June 30, 2015:

| Investment Type | Fair Value | % of Portfolio |
|------------------|---------------|-------------------|
| U.S. Treasuries | \$ 3,655,885 | 23.75% |
| U.S. Agencies | 5,108,292 | 33.18% |
| Negotiable CDs | 6,256,682 | 40.64% |
| Mutual Fund | 321,101 | 2.09% |
| Commercial Paper | 42,010 | 0.27% |
| STAROhio | 10,196 | 0.07% |
| Total | \$ 15,394,166 | |

6. <u>Property Taxes</u>

Property taxes are levied and assessed on a calendar year basis. Distributions from the second half occur in a new fiscal year and are intended to finance the operations of that year. Property taxes include amounts levied against all real, public utility and tangible personal (used in business) property located in the District. All property taxes are collected on behalf of the District by the auditors of Greene and Montgomery Counties. Greene County collects approximately 98% and Montgomery County collects approximately 2% of the District's taxes. Taxpayers remit payment to their respective county, Greene or Montgomery, which then distributes funds to the District on settlement dates that vary each year.

Real property taxes and public utility taxes are levied in April on the assessed value listed as of the prior January 1, the lien date. Assessed values for real property taxes are established by State law at 35% of appraised market value. All property is required to be revalued every six years. Real property taxes are payable annually or semi-annually. If paid annually, payment is due January 20; if paid semi-annually, the first payment is due January 20 with the remainder payable by June 20. Settlement dates for real property taxes generally occur during the months of February and August but on occasion run into the following month. Amounts certified by the county auditor prior to June 30 are available to the District as an advance and should therefore be recognized as revenue in the current fiscal year. The District's policy is not to take an advance on these taxes, as they are budgeted for the next fiscal year.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2015

6. <u>Property Taxes</u> (continued)

Public utility property taxes are assessed on tangible personal property at 25% of true value (with certain exceptions) and on real property at 35% of true value. Public utility property taxes attached as a lien on December 31 of the prior year, were levied April 1 and are collected with real property taxes.

The assessed values upon which fiscal year 2015 taxes receipts were based on are as follows:

| | 2 | 2015 First Half Collections | ŀ | 2014 Second Ialf Collections |
|---------------------------|----|--------------------------------|----|---------------------------------|
| Real Estate | | | | |
| Residential /Agricultural | \$ | 1,218,690,070 | \$ | 1,245,794,910 |
| Commerical / Industrial | | 438,735,390 | | 422,175,350 |
| Public Utility Property | | 36,711,730 | | 35,524,410 |
| Total | \$ | 1,694,137,190 | \$ | 1,703,494,670 |

Accrued property taxes receivable represents delinquent taxes outstanding and real property, personal property and public utility taxes which became measurable as of June 30, 2015, and for which there is an enforceable legal claim. Although total property tax collections for the next fiscal year are measurable, only the amount available as an advance at June 30 is intended to finance current fiscal year operations. The receivable is therefore offset by a credit to deferred revenue for that portion not intended to finance current year operations. On the accrual basis, total delinquent property tax amounts existing at year end have been recorded as revenue.

7. <u>Receivables</u>

Receivables at June 30, 2015 consisted of taxes, accounts (tuition and student fees), and intergovernmental grants and entitlements. All receivables are considered collectible in full due to the ability to foreclose for the nonpayment of taxes, the stable condition of State programs and the current year guarantee of federal funds.

A summary of receivables is as follows:

| Governmental Activities: | | Amount |
|--------------------------|-------------|------------|
| Accounts | \$ | 287,366 |
| Intergovernmental | | 905,244 |
| Property Taxes | 6 | 56,712,061 |
| Total | <u>\$</u> 6 | 67,904,671 |

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2015

8. <u>Capital Assets</u>

A summary of capital asset activity during the fiscal year follows:

| | | Balance at 7/1/2014 | | Additions | | eductions | Balance at 6/30/2015 | | |
|--|------|------------------------|---------|-------------|--------------|-----------|-------------------------|-------------|--|

| Less: Accumulated Depreciation: | | | | | | | | | |
| Land Improvements | | 758,766 | | 119,775 | | - | | 878,541 | |
| Buildings | : | 26,851,277 | | 5,518,281 | | - | | 32,369,558 | |
| Building Improvements | | 590,655 | | 49,856 | | - | | 640,511 | |
| Furniture and Equipment | | 2,047,775 | | 321,906 | | 38,587 | | 2,331,094 | |
| Vehicles | | 4,954,400 | | 454,160 | | - | | 5,408,560 | |
| | | 35,202,873 | | 6,463,978 * | | 38,587 | | 41,628,264 | |
| Capital Assets, being depreciated, net | | 93,976,482 | | 4,326,879 | | 11,989 | | 98,291,372 | |
| Total Capital Assets, net | \$ 1 | \$ 101,362,529 | | 13,089,484 | \$ 9,281,774 | | \$ | 105,170,239 | |

* - Depreciation expense was charged to governmental functions as follows:

| Instruction: | |
|------------------------------------|-----------------|
| Regular | \$ 35,676 |
| Special | 3,938 |
| Support Services: | |
| Instructional Staff | 7,077 |
| Administration | 1,920 |
| Operation and Maintenance of Plant | 54,369 |
| Pupil Transportation | 414,586 |
| Central | 5,912,145 |
| Extracurricular Activities | 34,267 |
| Total Depreciation Expense | \$ 6,463,978 |

During the fiscal year, the District took possession of a Boeing 727 airplane donated by Federal Express Corporation (FEDEX). The value of the donated airplane was \$405,000. As of June 30, 2015 this asset has not been placed into operation by the District and therefore is not being depreciated. Final use of the asset will depend on securing appropriate funding.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2015

9. Interfund Transactions

Interfund balances on the fund statements at June 30, 2015 consist of the following receivables and payables:

| Fund | R | eceivable | Payable | | | |
|--|----|-----------|---------------|--|--|--|
| General Fund | \$ | 236,000 | | | | |
| Other Governmental Funds: | | | | | | |
| Non-Major Special Revenue Funds: | | | | | | |
| Straight A's State Grant Fund | | | \$ 89,000 | | | |
| Other State Grants Fund | | | 2,000 | | | |
| IDEA, Part B Grant Fund | | | 76,000 | | | |
| Title III - English Proficiency Grant Fund | | | 3,000 | | | |
| Title I Grant Fund | | | 23,000 | | | |
| IDEA Preschool Grant Fund | | | 2,000 | | | |
| Title II-A, Improving Teacher Quality Grant Fund | | | 26,000 | | | |
| Miscellaneous Federal Grants Fund | | | 15,000 | | | |
| | \$ | 236,000 | \$ 236,000 | | | |

Interfund receivables and payables were made by the general fund to other governmental funds to cover any deficit unencumbered balance. Funds will be returned to the general fund within one year from June 30, 2015.

10. Long-Term Obligations

The activity of the District's long-term obligations during fiscal year 2015 was as follows:

| | ; | Revised Balance 7/1/2014 | Increase De | | | Decrease | Balance 6/30/2015 | | | Amount Due Within One Year | |
|--------------------------------|----|--------------------------------|-------------|------------|----|-------------------|----------------------|-------------|----|----------------------------------|--|

a. General Obligations Bonds

In fiscal year 1996, the District issued approximately \$42,000,000 in general obligation bonds for the improvement, repair and addition of District school buildings. A portion of these bonds were refunded in fiscal year 2007. The balance of the bonds at June 30 was \$2,360,000. This bond issue will be paid through the debt service fund from property taxes collected by the County Auditor.

On December 13, 2006, the District issued general obligation bonds (Series 2006 Refunding Bonds) to refund the callable portion of the Series 1995 general obligation bonds. The balance of the refunded bonds was \$15,415,000 at June 30, 2015. The refunding issue is comprised of current interest bonds, par value of \$22,435,000. The interest rates on the refunding ranges from 3.5% to 5% and the bonds mature on December 31, 2020. Interest and principal payments are due each June 1 and December 1.

In fiscal year 2009, the District issued approximately \$84 million in school improvement bonds. The school improvement bonds will be used for the construction of two new school buildings as well as for the improvement or repair current District school buildings. A portion of these bonds were refunded in fiscal year 2015. This bond issue will be paid through the debt service fund from property taxes collected by the County Auditor. The balance of the bonds was \$7,715,000 at June 30, 2015 and will mature on December 1, 2019.

On March 10, 2015, the District issued general obligation bonds (Series 2015 Refunding Bonds) to refund the callable portion (\$65.9 million) of the Series 2009 general obligation bonds. The refunding issue totaled \$65,929,980; consisting of \$58,200,000 current interest bonds (rates 2.5%-5%) maturing in 2034, \$7,450,000 current interest term bond (3.25%) maturing in 2036, and \$279,980 capital appreciation bonds which mature in fiscal years 2016 through 2021.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2015

10. Long-Term Obligations (continued)

The capital appreciation bonds have a total maturity value of \$4,115,000 (\$1,070,000 in fiscal year 2016; \$330,000 in fiscal years 2017 through 2020; and \$1,725,000 in fiscal year 2021) and were issued at \$3,882,384. These bonds are not subject to redemption prior to scheduled maturity. Accretion on the capital appreciation bonds for the current fiscal year amounted to \$3,613,983.

The 2015 refunding bonds were issued to provide resources to purchase U.S. Government securities which were placed, along with premium proceeds received from the sale of the bonds, in an irrevocable trust for the purpose of generating sufficient resources to satisfy the debt service requirements of \$65,930,000 of the 2009 school improvement bonds at the call date of December 1, 2019. As a result, the refunded bonds are considered to be defeased and the liability associated with these bonds has been removed from the statement of net position. The reacquisition price exceeded the net carrying value of the old debt by \$10,840,840. This amount is being reported as deferred charge on refunding with the deferred outflows of resources section of the statement of net position and is being amortized over the remaining life of the new debt issue, which is the same as the debt defeased. This advance refunding was undertaken to reduce total debt service payments over the next 22 years by \$5,853,104, and resulted in an economic gain of \$4,330,577.

The following is a summary of the District's future annual debt service requirements to maturity for general obligation bonds payable:

| Fiscal Year | Principal | Interest | Total |
|----------------|---------------|---------------|----------------|
| 2016 | \$ 3,865,895 | \$ 4,587,360 | \$ 8,453,255 |
| 2017 | 3,887,015 | 3,932,360 | 7,819,375 |
| 2018 | 4,161,759 | 3,790,216 | 7,951,975 |
| 2019 | 4,980,258 | 3,606,043 | 8,586,301 |
| 2020 | 5,215,036 | 3,369,264 | 8,584,300 |
| 2021-2025 | 17,925,017 | 14,067,783 | 31,992,800 |
| 2026-2030 | 24,915,000 | 8,031,700 | 32,946,700 |
| 2031-2035 | 19,020,000 | 3,013,425 | 22,033,425 |
| 2036-2037 | 7,450,000 | 244,074 | 7,694,074 |
| Total | \$ 91,419,980 | \$ 44,642,225 | \$ 136,062,205 |

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2015

10. Long-Term Obligations (continued)

b. Capitalized Leases - Lessee Disclosure

In prior years, the District had entered into a lease agreement for the construction/improvements to Miami Valley Hospital/Zink Field. This lease met the criteria of a capital lease in that the benefits and risk of ownership had transferred to the lessee. Capital lease payments are reflected as debt service payments in the debt service fund in the basic financial statements. These expenditures are reflected as program/function expenditures on a budgetary basis. During the current fiscal year, the District made principal payments totaling \$105,000.

The capital assets acquired through capital lease are recorded in the financial statements with a carrying value of \$1,173,855 (\$1,277,051 historical cost less \$103,196 in accumulated depreciation).

The following is a schedule of the future long-term minimum lease payments required under the capital leases, and the present value of the minimum lease payments as of June 30, 2015:

| Fiscal Year Ended June 30, | P | Total ayments |
|--|-----------|------------------|
| 2016 | \$ | 122,999 |
| 2017 | | 122,446 |
| 2018 | | 122,667 |
| Total Minimum Lease Payments | | 368,112 |
| Less: Amount Representing Interest | | (25,112) |
| Present Value of Minimum Lease Payements | <u>\$</u> | 343,000 |

c. Compensated Absences and Pension Liability

The District pays obligations related to employee compensation (compensated absences and pension obligations) from the fund benefitting from their service which include the general fund, food service fund, auxiliary service fund and IDEA Part B grant fund, Title I grant fund, IDEA Part B preschool fund and miscellaneous Federal grant fund.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2015

11. Risk Management

The District is exposed to various risks of loss related to torts, theft or, damage to, and destruction of assets, errors and omissions, injuries to employees and natural disasters.

During fiscal year 2015, the District contracted with the Great American Insurance Company for general liability insurance, property and vehicle coverage. General liability insurance has coverage of \$1,000,000 single occurrence limit and a \$3,000,000 general aggregate. Property insurance is at blanket value and generally has a \$1,000 deductible. Certain scheduled items (computers, software, cameras, instruments, etc.) have a \$500 deductible. The vehicle coverage has \$1,000,000 injury property damage, \$50,000 of uninsured/underinsured and a comprehensive and collision deductible of \$1,000. In addition, the District has an umbrella liability policy that provides an additional \$5,000,000 limit. The District also has \$500,000 public employee dishonesty coverage. The superintendent, treasurer and board president are all bonded separately. Settled claims have not exceeded this coverage in any of the past three years. There have been no significant reductions in insurance coverage from last year.

The District provides employee medical benefits through United Health Care and dental benefits through Superior Dental. The Board picks up 85% of medical and 90% of dental monthly premiums for certified employees and a scaled percentage based on hours worked for classified employees. Life insurance is made available to employees through Sun Life Insurance Company.

The District is self-insured for workers' compensation claims. Prior to January 1, 2013, the District participated in the traditional Ohio Bureau of Workers' Compensation coverage. Essentially, the District has assumed all responsibility of paying all compensation and medical expenses for claims incurred during the policy year. Excess insurance coverage was purchased to cover catastrophic claims which exceed \$500,000. There is no aggregated annual claim coverage or limit in the program. The District pays an assessment of \$0.31 per dollar on every dollar of paid compensation. The following table summarizes workers' compensation claims payable for the past two fiscal years.

| | | Beginning | | | | | | Ending |
|-----------|----|-----------|--------|----------------|----------|---------|---------|--------|
| | | Claims | | Current Claim: | | Claims | Claims | |
| Fiscal Ye | ar | Payable | Claims | | Payments | | Payable | |
| 2015 | \$ | 54,299 | \$ | 115,009 | \$ | 124,583 | \$ | 44,725 |
| 2014 | | 16,632 | | 62,564 | | 24,897 | | 54,299 |

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2015

12. <u>Pension Plans</u>

Net Pension Liability

The net pension liability reported on the statement of net position represents a liability to employees for pensions. Pensions are a component of exchange transactions—between an employer and its employees—of salaries and benefits for employee services. Pensions are provided to an employee—on a deferred-payment basis—as part of the total compensation package offered by an employer for employee services each financial period. The obligation to sacrifice resources for pensions is a present obligation because it was created as a result of employment exchanges that already have occurred.

The net pension liability represents the District's proportionate share of each pension plan's collective actuarial present value of projected benefit payments attributable to past periods of service, net of each pension plan's fiduciary net position. The net pension liability calculation is dependent on critical long-term variables, including estimated average life expectancies, earnings on investments, cost of living adjustments and others. While these estimates use the best information available, unknowable future events require adjusting this estimate annually.

Ohio Revised Code limits the District's obligation for this liability to annually required payments. The District cannot control benefit terms or the manner in which pensions are financed; however, the District does receive the benefit of employees' services in exchange for compensation including pension.

GASB 68 assumes the liability is solely the obligation of the employer, because (1) they benefit from employee services; and (2) State statute requires all funding to come from these employers. All contributions to date have come solely from these employers (which also includes costs paid in the form of withholdings from employees). State statute requires the pension plans to amortize unfunded liabilities within 30 years. If the amortization period exceeds 30 years, each pension plan's board must propose corrective action to the State legislature. Any resulting legislative change to benefits or funding could significantly affect the net pension liability. Resulting adjustments to the net pension liability would be effective when the changes are legally enforceable.

The proportionate share of each plan's unfunded benefits is presented as a long-term net pension liability on the accrual basis of accounting. Any liability for the contractually-required pension contribution outstanding at the end of the year is included in intergovernmental payable on both the accrual and modified accrual bases of accounting.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2015

12. <u>Pension Plans</u> (continued)

Plan Description - School Employees Retirement System (SERS)

Plan Description – District non-teaching employees participate in SERS, a cost-sharing multipleemployer defined benefit pension plan administered by SERS. SERS provides retirement, disability and survivor benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Authority to establish and amend benefits is provided by Ohio Revised Code Chapter 3309.

SERS issues a publicly available, stand-alone financial report that includes financial statements, required supplementary information and detailed information about SERS' fiduciary net position. That report can be obtained by visiting the SERS website at <u>www.ohsers.org</u> under Employers/Audit Resources.

Age and service requirements for retirement are as follows:

| | Eligible to Retire on or before | Eligible to retire on or after |
|------------------------------|--|---|
| | August 1, 2017 ** | August 1, 2017 |
| Full benefits | Any age with 30 years of service credit | Age 67 with 10 years of service credit; or age 57 with 30 years of service credit |
| Actuarially reduced benefits | Age 60 with 5 years of service credit; or age 55 with 25 years of service credit | Age 62 with 10 years of service credit; or age 60 with 25 years of service credit |

** - Members with 25 years of service credit as of August 1, 2017 will be included in this plan.

Annual retirement benefits are calculated based on final average salary multiplied by a percentage that varies based on year of service; 2.2 percent for the first thirty years of service and 2.5 percent for years of service credit over 30. Final average salary is the average of the highest three years of salary.

One year after an effective benefit date, a benefit recipient is entitled to a three percent cost-ofliving adjustment (COLA). This same COLA is added each year to the base benefit amount on the anniversary date of the benefit.

Funding Policy – Plan members are required to contribute 10 percent of their annual covered salary and the District is required to contribute 14 percent of annual covered payroll. The contribution requirements of plan members and employers are established and may be amended by the SERS' Retirement Board up to statutory maximum amounts of 10 percent for plan members and 14 percent for employers. The Retirement Board, acting with the advice of the actuary, allocates the employer contribution rate among four of the System's funds (Pension

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2015

12. <u>Pension Plans</u> (continued)

Trust Fund, Death Benefit Fund, Medicare B Fund, and Health Care Fund). For the fiscal year ended June 30, 2015, the allocation to pension, death benefits, and Medicare B was 13.18 percent. The remaining 0.82 percent of the 14 percent employer contribution rate was allocated to the Health Care Fund.

The District's contractually required contribution to SERS was \$1,717,122 for fiscal year 2015; \$193,350 of contributions is reported within intergovernmental payable at June 30, 2015.

Plan Description - State Teachers Retirement System (STRS)

Plan Description – District licensed teachers and other faculty members participate in STRS Ohio, a cost-sharing multiple-employer public employee retirement system administered by STRS. STRS provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS issues a stand-alone financial report that includes financial statements, required supplementary information and detailed information about STRS' fiduciary net position. That report can be obtained by writing to STRS, 275 E. Broad St., Columbus, OH 43215-3771, by calling (888) 227-7877, or by visiting the STRS Web site at <u>www.strsoh.org</u>.

New members have a choice of three retirement plans; a Defined Benefit (DB) Plan, a Defined Contribution (DC) Plan and a Combined Plan. Benefits are established by Ohio Revised Code Chapter 3307. The DB plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service. Effective August 1, 2015, the calculation will be 2.2 percent of final average salary for the five highest years of earnings multiplied by all years of service. With certain exceptions, the basic benefit is increased each year by two percent of the original base benefit. For members retiring August 1, 2013, or later, the first two percent is paid on the fifth anniversary of the retirement benefit. Members are eligible to retire at age 60 with five years of age. Age and service requirements for retirement will increase effective August 1, 2015, and will continue to increase periodically until they reach age 60 with 35 years of service or age 65 with five years of service on August 1, 2026.

The DC Plan allows members to place all their member contributions and 9.5 percent of the 14 percent employer contributions into an investment account. Investment allocation decisions are determined by the member. The remaining 4.5 percent of the 14 percent employer rate is allocated to the defined benefit unfunded liability. A member is eligible to receive a retirement benefit at age 50 and termination of employment. The member may elect to receive a lifetime monthly annuity or a lump sum withdrawal.

The Combined Plan offers features of both the DB Plan and the DC Plan. In the Combined Plan, member contributions are allocated among investment choices by the member, and employer contributions are used to fund the defined benefit payment at a reduced level from the regular

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2015

12. Pension Plans (continued)

DB Plan. The defined benefit portion of the Combined Plan payment is payable to a member on or after age 60 with five years of services. The defined contribution portion of the account may be taken as a lump sum payment or converted to a lifetime monthly annuity at age 50.

New members who choose the DC plan or Combined Plan will have another opportunity to reselect a permanent plan during their fifth year of membership. Members may remain in the same plan or transfer to another STRS plan. The optional annuitization of a member's defined contribution account or the defined contribution portion of a member's Combined Plan account to a lifetime benefit results in STRS bearing the risk of investment gain or loss on the account. STRS has therefore included all three plan options as one defined benefit plan for GASB 68 reporting purposes.

A DB or Combined Plan member with five or more years of credited service who is determined to be disabled may qualify for a disability benefit. Eligible survivors of members who die before service retirement may qualify for monthly benefits. New members on or after July 1, 2013, must have at least ten years of qualifying service credit that apply for disability benefits. Members in the DC Plan who become disabled are entitled only to their account balance. If a member of the DC Plan dies before retirement benefits begin, the member's designated beneficiary is entitled to receive the member's account balance.

Funding Policy – Employer and member contribution rates are established by the State Teachers Retirement Board and limited by Chapter 3307 of the Ohio Revised Code. The statutory maximum employee contribution rate was increased one percent July 1, 2014, and will be increased one percent each year until it reaches 14 percent on July 1, 2016. For the fiscal year ended June 30, 2015, plan members were required to contribute 12 percent of their annual covered salary. The District was required to contribute 14 percent; the entire 14 percent was the portion used to fund pension obligations. The fiscal year 2015 contribution rates were equal to the statutory maximum rates.

The District's contractually required contribution to STRS was \$4,655,200 for fiscal year 2015; \$1,060,192 of contributions is reported within intergovernmental payable at June 30, 2015.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

The net pension liability was measured as of June 30, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The District's proportion of the net pension liability was based on the District's share of contributions to the pension plan relative to the contributions of all participating entities.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2015

12. <u>Pension Plans</u> (continued)

Following is information related to the proportionate share and pension expense:

| | SERS | 1 | STRS | Total |
|--|------------------|----|-------------|------------------|
| Proportionate share of the net pension liability | \$ 20,488,418 | \$ | 74,677,982 | \$ 95,166,400 |
| Proportion of the net pension liability | 0.404834% | | 0.30702038% | |
| Pension expense | \$ 1,204,887 | \$ | 3,450,054 | \$ 4,654,941 |

At June 30, 2015, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

| | SERS | STRS | Total |
|--|-----------------|------------------|------------------|
| Deferred Outflows of Resources: Differences between expected and actual experience | \$ 174,378 | \$ 718,938 | \$ 893,316 |
| School District contributions subsequent to the measurement date | 1,717,122 | 4,655,200 | 6,372,322 |
| Total | \$ 1,891,500 | \$ 5,374,138 | \$ 7,265,638 |
| <u>Deferred Inflows of Resources:</u> Net difference between projected and actual earnings on pension plan investments | \$ 3,325,328 | \$ 13,815,710 | \$ 17,141,038 |

\$6,372,322 reported as deferred outflows of resources related to pension resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pension will be recognized in pension expense as follows:

| | SERS | | STRS | | Total |
|-----------------------------|-------------------|----|--------------|----|--------------|
| Fiscal Year Ending June 30: | | | | | |
| 2016 | \$ (787,737) | \$ | (3,274,193) | \$ | (4,061,930) |
| 2017 | (787,738) | | (3,274,193) | | (4,061,931) |
| 2018 | (787,737) | | (3,274,193) | | (4,061,930) |
| 2019 | (787,738) | | (3,274,193) | | (4,061,931) |
| | \$ (3,150,950) | \$ | (13,096,772) | \$ | (16,247,722) |

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2015

12. Pension Plans (continued)

Actuarial Assumptions - SERS

SERS' total pension liability was determined by their actuaries in accordance with GASB Statement No. 67, as part of their annual actuarial valuation for each defined benefit retirement plan. Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts (e.g., salaries, credited service) and assumptions about the probability of occurrence of events far into the future (e.g., mortality, disabilities, retirements, employment termination). Actuarially determined amounts are subject to continual review and potential modifications, as actual results are compared with past expectations and new estimates are made about the future.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employers and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employers and plan members to that point. The projection of benefits for financial reporting purposes does not explicitly incorporate the potential effects of legal or contractual funding limitations.

Actuarial calculations reflect a long-term perspective. For a newly hired employee, actuarial calculations will take into account the employee's entire career with the employer and also take into consideration the benefits, if any, paid to the employee after termination of employment until the death of the employee and any applicable contingent annuitant. In many cases actuarial calculations reflect several decades of service with the employer and the payment of benefits after termination.

Key methods and assumptions used in calculating the total pension liability in the latest actuarial valuation, prepared as of June 30, 2014, are presented below:

| Wage inflation | 3.25 percent |
|--|--|
| Future salary increases, including inflation | 4.00 percent to 22 percent |
| COLA or Ad Hoc COLA | 3 percent |
| Investment rate of return | 7.75 percent of net investments expense, including inflation |
| Actuarial cost method | Entry Age Normal |

For post-retirement mortality, the table used in evaluating allowances to be paid is the 1994 Group Annuity Mortality Table set back one year for both men and women. Special mortality tables are used for the period after disability retirement.

The most recent experience study was completed June 30, 2010.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2015

12. <u>Pension Plans</u> (continued)

The long-term return expectation for the Pension Plan Investments has been determined using a building-block approach and assumes a time horizon, as defined in SERS' *Statement of Investment Policy*. A forecasted rate of inflation serves as the baseline for the return expectation. Various real return premiums over the baseline inflation rate have been established for each asset class. The long-term expected nominal rate of return has been determined by calculating a weighted averaged of the expected real return premiums for each asset class, adding the projected inflation rate, and adding the expected return from rebalancing uncorrelated asset classes. The target allocation and best estimates of arithmetic real rates of return for each major assets class are summarized in the following table:

| Asset Class | Target Allocation | Long-Term Expected Real Rate of Return |
|------------------------|----------------------|---|
| Cash | 1.00% | 0.00% |
| US stocks | 22.50% | 5.00% |
| Non-US stocks | 22.50% | 5.50% |
| Fixed income | 19.00% | 1.50% |
| Private equity | 10.00% | 10.00% |
| Real assets | 10.00% | 5.00% |
| Multi-asset strategies | <u>15.00%</u> | 7.50% |
| Total | <u>100.00%</u> | |

Discount Rate The total pension liability was calculated using the discount rate of 7.75 percent. The projection of cash flows used to determine the discount rate assumed the contributions from employers and from the members would be computed based on contribution requirements as stipulated by State statute. Projected inflows from investment earning were calculated using the long-term assumed investment rate of return (7.75 percent). Based on those assumptions, the plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits to determine the total pension liability.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate Net pension liability is sensitive to changes in the discount rate, and to illustrate the potential impact the following table presents the net pension liability calculated using the discount rate of 7.75 percent, as well as what each plan's net pension liability would be if it were calculated using a discount rate that is one percentage point lower (6.75 percent), or one percentage point higher (8.75 percent) than the current rate.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2015

12. <u>Pension Plans</u> (continued)

| | Current | | | | | |
|--|------------------------|------------|--------------------------|------------|------------------------|------------|
| | 1% Decrease (6.75%) | | Discount Rate (7.75%) | | 1% Increase (8.75%) | |
| School District's proportionate share of the net pension liability | \$ | 29,230,885 | \$ | 20,488,418 | \$ | 13,135,248 |

Actuarial Assumptions - STRS

The total pension liability in the June 30, 2014, actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

| Inflation | 2.75 percent |
|-----------------------------------|---|
| Future salary increases | 2.75 percent at age 70 to 12.25 percent at age 20 |
| Investment rate of return | 7.75 percent, net of investment expenses |
| Cost-of-Living Adjustments (COLA) | 2 percent simple applied as follows: for members retiring before August 1, 2013, 2 percent per year; for members retiring August 1, 2013, or later, 2 percent COLA paid on fifth anniversary of retirement date. |

Mortality rates were based on the RP-2000 Combined Mortality Table (Projection 2022—Scale AA) for Males and Females. Males' ages are set-back two years through age 89 and no set-back for age 90 and above. Females younger than age 80 are set back four years, one year set back from age 80 through 89 and not set back from age 90 and above.

Actuarial assumptions used in the June 30, 2014, valuation are based on the results of an actuarial experience study, effective July 1, 2012.

The 10 year expected real rate of return on pension plan investments was determined by STRS' investment consultant by developing best estimates of expected future real rates of return for each major asset class. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized as follows:

| Asset Class | Target Allocation | Long-Term Expected Real Rate of Return |
|----------------------|----------------------|---|
| Domestic equity | 31.00% | 8.00% |
| International equity | 26.00% | 7.85% |
| Alternatives | 14.00% | 8.00% |
| Fixed income | 18.00% | 3.75% |
| Real estate | 10.00% | 6.75% |
| Liquidity reserves | <u>1.00%</u> | 3.00% |
| Total | <u>100.00%</u> | |

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2015

12. <u>Pension Plans</u> (continued)

Discount Rate The discount rate used to measure the total pension liability was 7.75 percent as of June 30, 2014. The projection of cash flows used to determine the discount rate assumes member and employer contributions will be made at the statutory contribution rates in accordance with rate increases described above. For this purpose, only employer contributions that are intended to fund benefits of current plan members and their beneficiaries are included. Projected employer that are intended to fund the service costs of future plan members and their beneficiaries, as well as projected contributions from future plan members, are not included. Based on those assumptions, STRS' fiduciary net position was projected to be available to make all projected future benefit payments to current plan members as of June 30, 2014. Therefore, the long-term expected rate of return on pension plan investments of 7.75 percent was applied to all periods of projected benefit payment to determine the total pension liability as of June 30, 2014.

Sensitivity of the District's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate The following table presents the District's proportionate share of the net pension liability calculated using the current period discount rate assumption of 7.75 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one-percentage-point lower (6.75 percent) or one-percentage-point higher (8.75 percent) than the current rate:

| | | | | Current | |
|--|-------|------------------------|----|------------------------|----------------------------|
| | : | 1% Decrease (6.75%) | Di | scount Rate (7.75%) | 1% Increase (8.75%) |
| School District's proportionate share of the net pension liability | \$ | 106,909,673 | \$ | 74,677,982 | \$ 47,420,817 |

Social Security System

Effective July 1, 1991, all employees not otherwise covered by the SERS or STRS Ohio have an option to choose Social Security or the School Employees Retirement System/State Teachers Retirement System of Ohio. As of June 30, 2015, two members of the Board of Education have elected Social Security. The District's liability is 6.2% of wages paid.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2015

13. Post-employment Benefits

School Employees Retirement System

Plan Description – In addition to a cost sharing multiple employer defined benefit pension plan, SERS administers a postemployment benefit plan. Sections 3309.375 and 3309.69 of the Ohio Revised Code (ORC) permit SERS to offer health care benefits to eligible retirees and beneficiaries. SERS offers several types of health plans from various vendors including HMOs, PPOs, Medicare Advantage and traditional indemnity plans. A prescription drug program is also available to those who elect health care coverage. SERS employs two third-party administrators and a pharmacy benefit manager to manage the self-insurance and prescription drug plans, respectively. The ORC provides the statutory authority to fund SERS' postemployment benefits through employer contributions. Active members do not make contributions to the postemployment benefit plan.

Funding Policy – The Health Care Fund was established under, and is administered in accordance with Internal Revenue Code 105(e). Each year after the allocation for statutorily required pension and benefits, the Retirement Board allocates the remainder of the employer 14% contribution to the Health Care Fund to be used to subsidize the cost of health care coverage. For the year ended June 30, 2015, the health care allocation is 0.82%. An additional health care surcharge on employers is collected for employees earning less than an actuarially determined minimum compensation amount, pro-rated if less than a full year of service was earned. By statute no employer shall pay a health care surcharge greater than 2% of that employer's SERS-covered payroll; nor may SERS collect in aggregate more than 1.5% of the total statewide SERS-covered payroll for health care surcharge. For fiscal year 2015, the minimum compensation level was established at \$20,450. The School District's allocated contributions and surcharge to the health care fund for the years ended June 30, 2015, 2014 and 2013 were \$296,724, \$194,220, and \$198,918 respectively; which equaled the required contributions for each year.

The SERS Retirement Board establishes the rules for the premiums paid by the retirees for health care coverage for themselves, dependents, or surviving beneficiaries. Premiums vary depending on plan selected, qualified years of service, Medicare eligibility, and retirement status. The financial reports of the health care plan are included in SERS' CAFR which can be obtained at <u>www.ohsers.org</u> under employers/audit resources.

State Teachers Retirement System

Plan Description – The School District contributes to the cost sharing multiple employer defined benefit Health Plan administered by the State Teachers Retirement System of Ohio (STRS Ohio) for eligible retirees who participated in the defined benefit or combined pension plans offered by STRS Ohio. Benefits include hospitalization, physicians' fees, prescription drugs and reimbursement of monthly Medicare Part B premiums. The Plan is included in the report of STRS Ohio which may be obtained by visiting www.strsoh.org or by calling (888) 227-7877.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2015

13. Post-employment Benefits (continued)

Funding Policy – Ohio law authorizes STRS Ohio to offer the Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS Ohio. Active employee members do not contribute to the Plan. All benefit recipients pay a monthly premium. Under Ohio law, funding for post-employment health care may be deducted from employer contributions. For 2015, STRS Ohio did not allocated any portion of the employer contributions to the Health Care Stabilization Fund. The School District's contributions for health care for the fiscal years ended June 30, 2015, 2014, and 2013 were \$0, \$322,193, and \$330,709 respectively; which equaled the required contributions for each year.

14. <u>Statutory Reserve</u>

The District is required by State statute to annually set aside, in the general fund, an amount based on a statutory formula for the acquisition or construction of capital improvements. Amounts not spent by the year-end or offset by similarly restricted resources received during the year must be held in cash at year-end and carried forward to be used for this same purpose in future years.

The following cash basis information describes the change in year-end set aside amounts. Disclosure of this information is required by State statute.

| | Capital Acquisition | | | | | | |
|--|------------------------|-------------|--|--|--|--|--|
| Set-aside cash balance as of June 30, 2014 | \$ | - | | | | | |
| Current year set-aside requirements | | 1,236,537 | | | | | |
| Current year offset - PI Levy | | (2,571,619) | | | | | |
| Total | \$ | (1,335,082) | | | | | |
| Set-aside cash balance as of June 30, 2015 | \$ | - | | | | | |

Although the District had current year offsets which exceeded the current year set-aside requirement, the excess amount may not be used to reduce the set-aside requirements of future fiscal years. Therefore, the excess is not presented as being carried forward to the next fiscal year.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2015

15. <u>Commitments - Encumbrances</u>

The District utilizes encumbrance accounting as part of its budgetary controls. Encumbrances outstanding at year-end may be reported as part of restricted, committed or assigned classifications of fund balance. At year end, the District's commitments for encumbrances in the governmental funds were as follows:

| | ` | Year-End | | | |
|--------------------------|-----|---------------------|--|--|--|
| Fund Type | Enc | Encumbrances | | | |
| General fund | \$ | 577,530 | | | |
| Other governmental funds | | 2,989,975 | | | |
| Total | \$ | 3,567,505 | | | |

16. <u>Contingencies</u>

a. Grants

The District received financial assistance from federal and state agencies in the form of grants. The expenditure of funds received under these programs generally requires compliance with terms and conditions specified in the grant agreements and are subject to audit by the grantor agencies. Any disallowed claims resulting from such audits should become a liability of the General Fund or other applicable funds. However, the effect of any such disallowed claims on the overall financial position of the District at June 30, 2015, if applicable, cannot be determined at this time.

b. Full-Time Equivalency Review

Full-Time Equivalency Review – The Ohio Department of Education began conducting reviews of enrollment and full-time equivalency (FTE) calculations made by school districts within the State starting for fiscal year 2015. These reviews are being conducted to ensure the school districts are reporting accurate student enrollment data to the State, which is used in determining state funding allocations. The conclusions of such reviews could result in adjustments to state funding allocations for the fiscal year being reviewed. The fiscal year 2015 reviews have not been completed as of the date of these financial statements, however, management does not anticipate significant adjustments to its state funding allocation to result when reviews are completed.

c. Litigation

It is the opinion of management that any potential claims against the District, which would not be covered by insurance, would not materially affect the financial statements.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2015

17. Jointly Governed Organizations

a. Southwestern Ohio Educational Purchasing Council (SOEPC)

The Southwestern Ohio Educational Purchasing Council (SOEPC) is a purchasing council made up of 126 public school districts in 18 counties in southwestern Ohio. The purpose of the council is to obtain prices for quality merchandise and services commonly used by schools. All member districts are obligated to pay all fees, charges, or other assessments as established by the SOEPC. Each member district has one voting representative. Title to any and all equipment, furniture and supplies purchased by the SOEPC is held in trust for the member districts. Any district withdrawing from the SOEPC shall forfeit its claim to any and all SOEPC assets. One year prior notice is necessary for withdrawal from the group.

During this time, the withdrawing member is liable for all member obligations. Payments to SOEPC are made from the general fund. During fiscal year 2015, the District paid \$162,646 to SOEPC. To obtain financial information, write to the Southwestern Ohio Educational Purchasing Council, Ken Swink, who serves as Director, 303 Corporate Center, Suite 208, Vandalia, Ohio 45377.

b. Miami Valley Educational Computer Association (MVECA)

The District is a member district in the Miami Valley Educational Computer Association (MVECA) which is a Council of Governments. MVECA is an association of 24 school districts from Clark, Clinton, Greene, Highland, Fayette and Madison counties. The organization was formed for the purpose of applying modern technology with the aid of computers and other electronic equipment to administrative and instructional functions among member districts.

The governing board of MVECA consists of seven members. The government board consists of not less than two Superintendents and not less than two Treasurers of member school districts. The District paid MVECA \$260,549 for services provided during the year. Financial information can be obtained from Thor Sage, Executive Director, at 330 East Enon Road, Yellow Springs, Ohio 45387.

c. Greene County Career Center

The Greene County Career Center is a distinct political subdivision of the State of Ohio operated under the direction of a Board consisting of one representative from each of the seven participating school districts elected boards, which possesses its own budgeting and taxing authority. To obtain financial information, write to the Greene County Career Center, 2960 West Enon Road, Xenia, Ohio 45385-9545.

Notes to the Basic Financial Statements For the Fiscal Year Ended June 30, 2015

17. Jointly Governed Organizations (continued)

d. Southwestern Ohio Instructional Technology Association

The Southwestern Ohio Instructional Technology Association (SOITA) is a non-profit corporation organized to serve the educational needs of the area through television programming for the advancement of educational programs. The Board of Trustees is comprised of twenty-one representatives of SOITA member schools or institutions. Nineteen representatives are elected from within the counties by the qualified members within the counties, i.e. Auglaize, Butler, Champaign, Clark, Clinton, Darke, Fayette, Greene, Hamilton, Logan, Mercer, Miami, Montgomery, Preble, Shelby, and Warren. Montgomery, Greene and Butler Counties elect two representatives per area. All others elect one representative per area. One at-large non-public school SOITA members from the State assigned SOITA service area. One at-large higher education representative is elected by higher education SOITA members from within the State assigned SOITA members from within the State assigned SOITA members from within the State assigned SOITA members from the State assigned SOITA members from within the State assigned SOITA members from within the State assigned SOITA members from the State assigned SOITA members from within the State assigned SOITA area.

All member districts are obligated to pay all fees, charges or other assessments as established by SOITA. Upon dissolution, the remaining net position shall be distributed to the federal government, or to a state or local government, for a public purpose. During the fiscal year ending June 30, 2015 the District paid SOITA \$150 in fees and services provided. To obtain financial information, write to the Southwestern Ohio Instructional Technology Association, Frank DePalma, who serves as the Interim Director, at 150 East Sixth Street, Franklin, Ohio 45005.

(1) - Information Prior to 2011 is not available. The District will continue to present information for years available until a full ten-year trend is presented.

Combining Statements and Individual Fund Schedules

The Following Combining Statements and Schedules Include the Major and Nonmajor Governmental Funds

Special Revenue Funds

The Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than major capital projects) that are legally restricted to expenditure for specified purposes.

Food Service Fund

To account for the financial transactions related to the food service operation of the District.

Lida Ferguson Land Fund

To account for donations received and expenditures made for the upkeep of the Lida Ferguson Land Lab.

Uniform School Supply Fund

To account for the purchase and sale of instructional supplies as adopted by the Board of Education for us in all buildings throughout the District. This fund is included with the general fund for GAAP reporting as it does not have restricted or committed revenue source, therefore only Budget (Non-GAAP Basis) information is presented within this section.

Public School Support Fund

To account for specific local revenue sources (other than taxes) generated by individual school buildings (i.e., sale of pictures, profits from vending machines, etc.). Expenditures include field trips, materials, equipment and other items to supplement co-curricular and extra-curricular programs. This fund is included with the general fund for GAAP reporting as it does not have restricted or committed revenue source, therefore only Budget (Non-GAAP Basis) information is presented within this section.

Other Grant Fund

To account for funding provided from local and state sources which are provided to assist the District with various educational programs.

Summer School Fund

To account for tuition/fees received for the operation of summer school. This fund is included with the general fund for GAAP reporting as it does not have restricted or committed revenue source, therefore only Budget (Non-GAAP Basis) information is presented within this section.

District Managed Student Activity Fund

To account for local funds generated to assist student activities, which are managed by District personnel.

Auxiliary Services Fund

To account for state funds which provide services and materials to students attending nonpublic schools within the boundaries of the District as provided by state law.
Special Revenue Funds (continued)

Data Communication Fund

To account for state funds appropriated for the Ohio Educational Computer Network Connections.

Straight A's State Grant Fund

To account for state funds awarded to districts based on applications submitted to finance new initiatives aimed at meeting one or a combination of the following outcomes 1) meeting the learning needs of students, 2) reduce the cost of running a school or district, or 3) increase classroom funding.

Other State Grants Fund

To account for state funds provided for miscellaneous state programs.

Race to the Top Grant Fund

To account for funds received from the state to accelerate to academic achievement for District students.

IDEA, Part B Grant Fund

To account for federal funds received for the purpose of assisting in the identification of handicapped children, development of procedural safeguards, implementation of least restrictive alternate service patterns, and provision of full educational opportunities to handicapped children.

Title III, Limited English Proficiency Grant Fund

To account for federal funds used to meet the educational needs of children of limited English proficiency.

Title I Grant Fund

To account for federal funds used to meet the special needs of educationally deprived children.

IDEA Preschool Grant Fund

To account for revenues and expenditures made in conjunction with early childhood activities.

Title II-A - Improving Teacher Quality Grant Fund

To account for monies received under a federal grant to provide training and professional development for professional staff members.

Miscellaneous Federal Grants Fund

To account for federal funds provided for miscellaneous federal programs.

Debt Service Fund

The Debt Service Fund is used to account for the accumulation of resources for and the payment of general obligation bond principal and interest and certain other long-term obligations from governmental resources when the District is obligated in some manner for the payment.

Since there is only one Debt Service Fund and it is considered a major fund included in the Basic Financial Statements, only Budget (Non-GAAP Basis) information is presented here.

Capital Projects Funds

The Capital Projects funds are used to account for the financing and acquisition or construction of major capital facilities, such as new school buildings and additions to existing buildings, or for major renovation projects.

Permanent Improvement Fund

The account for all transactions related to acquiring, constructing or improving such permanent improvements as are authorized by Chapter 5705 of the Ohio Revised Code.

Building Fund

To account for all transactions related to special bond funds in the District. Proceeds from the sale of bonds, except premium and accrued interest, are paid into this fund.

Fiduciary Funds

Fiduciary are used to account for assets held by the District in a trustee capacity or as an agent for individuals, organizations, other governmental units, and/or other funds. The District's Fiduciary Funds are limited to Agency Funds.

Agency Funds

Beavercreek High School Scholarship Fund

The funds in this account will be expended on scholarships as directed by these outside entities.

Student Managed Activities Fund

To account for the resources that belongs to the various student groups in the District.

Payroll Withholding Fund

To account for withholdings from employees pay which are not paid each pay-period.

OHSAA Tournaments Clearing Fund

To account for funds received in conjunction with hosting Ohio High School tournament games until those funds are properly disbursed.

Statistical Section

BACKSIDE OF STATISTICAL SECTION DIVIDER

This part of the District's comprehensive annual financial report presents detailed information as a context for understanding what the information in the financial statements, note disclosures, and required supplementary information says about the District's overall financial health.

| Contents | <u>Page</u> |
|---|-------------|
| Financial Trends | . 97-103 |
| These schedules contain trend information to help the reader | |
| understand how the District's financial performance and well-being | |
| have changed over time. | |
| Revenue Capacity | 104-107 |
| These schedules contain information to help the reader assess the | |
| District's most significant local revenue source, the property tax. | |
| Debt Capacity | 108-111 |
| These schedules present information to help the reader assess the | |
| affordability of the District's current levels of outstanding debt and | |
| the District's ability to issue additional debt in the future. | |
| Demographic and Economic Information | 112-113 |
| These schedules offer demographic and economic indicators to help | |
| the reader understand the environment within which the District's | |
| financial activities take place. | |
| Operating Information | 114-119 |
| These schedules contain service and infrastructure data to help the | |
| reader understand how the information in the District's financial | |
| report relates to the services the District provides and the activities | |
| it performs. | |

| Source: School District records. | | | | | | | | | | |

Note:

(1) 2009's balance were restated to more properly reflect components of net position.
 (2) District implemented the provisions of GASB Statement No. 65 in fiscal year 2013 which

required a restatement of fiscal year 2012 amounts. (3) District implemented the provisions of GASB Statement No. 68 in fiscal year 2015 which required a restatement of fiscal year 2014 amounts and explains the significant decrease in Unrestricted Net Position for those two years.

Source: School District records.

Note:

(1) District implemented the provisions of GASB Statement No. 65 in fiscal year 2013 which required restatement of fiscal year 2012 amounts.

District implemented the provisions of GASB Statement No. 68 in fiscal year 2015 which required a restatement of fiscal year 2014 ending net position; however information necessary to restate beginning balance was not available.
 The District started receiving additional 6.30 mill emergency levy in fiscal year 2014.

Source: School District records.

Notes:

(1) - The increase in unreserved reported in capital project funds (restricted) fund balance starting in fiscal year 2009 was due to approval of 3.3 mill bond lexy for school facilities construction and improvements.

(89,928)

(181, 559)

(49,060)
