

Lincoln Learning Login Information and Orientation Course

Your student's login to the Lincoln Learning platform to access their kindergarten through fifth grade online courses is now available. Directions for logging in are provided below.

In addition, a short orientation module has been loaded in Lincoln Learning for all students. This is the only course that will initially be available to the student. Completing the orientation course will be the first assignment this year and helps students and parents become familiar with the platform and gain an understanding of how their online classes will be structured. Students' academic coursework will become available during the first week of school.

If you need help logging in or accessing course materials, online learning support is available by emailing creekonline@gocreek.org

Lincoln Learning Login Directions Grades K-5

1. Go to <https://pulse.ilsapps.org/>
