# Rain Or Shine Homecoming's Fun!

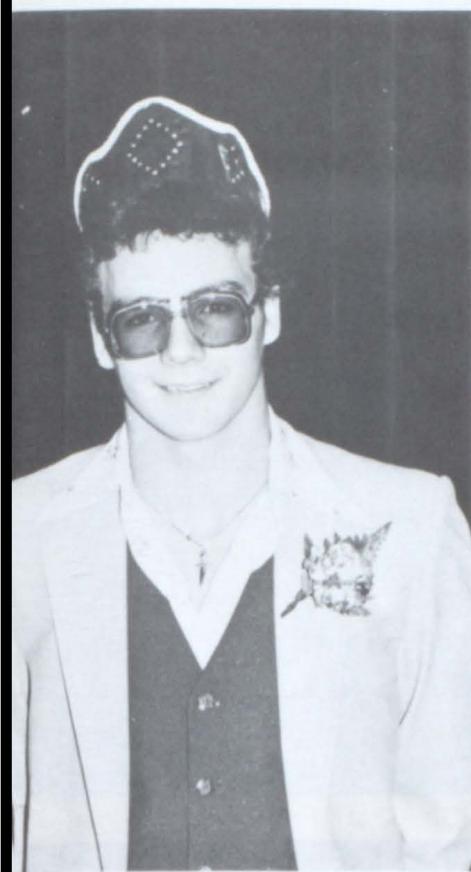

Coronation! Parade! Football! The 1981 E.H.S. homecoming began on September 25. The Master and Mistress of Ceremonies, Wayne Haas and JoAnn Beck led the program which included a freshman skit, poem and musical selections. The band performance and foot-stompin' pep assembly prepared the Trojans for a victory.

This year's parade, based on cartoons, was accompanied by chilly winds. The bands, organizations, and classes participated in the festivities.

The highlight of the day's events was the Trojans' first Homecoming victory in 7 years. The opponents were the Ipswich Tigers who were defeated by a score of 43 to 14. The rainy weather tried to put an early end to the victorious efforts by knocking out the lights. The Trojans would not give in until a victory was made.

## Business And Math Provide Needed Skills

Several business courses are offered to the Eureka High School students. These courses include: accounting, business law/business math, typing I and II, shorthand and general business, accounting, which is taught by Mr. Neuharth, is offered to strictly seniors. Mr. Neuharth also reaches business law/business math, which is offered to juniors and seniors.

Typing I and II, shorthand, and general business are all taught by Mr. Berreth. General business is the course taken by freshmen. For those of you that prefer the mathematical side of life, you are in luck because Eureka High School offers four math courses. Algebra I is the only required course. If you would like to pursue further studies in math you may take geometry, algebra II, and advanced math. All four of the math classes are taught by Mr. Hermansen. Whether you pursue business or math, or both of them, you will be well prepared.

# Science Is The Study Of Life, Matter, And Motion

Science is a branch of study concerned with observation and classification of facts. The Eureka education department deals with four areas of science: general science, biology I and II, chemistry.

General Science is a required course for all freshmen. It introduces them to the various lab equipment.

Biology I and II are all about the study of life. Biology I gains experience in dissecting various organisms. It is a required course for all sophomores. Biology II is offered to all juniors and seniors who are interested in life science. Biology II deals with blood typing and also the dissection of a fetal pig.

Chemistry, the study of composition and decomposition of matter, is taught by Mr. Cooper and is offered to all juniors and seniors. They are given many different types of chemicals to work with. This science has many different areas which are educational and beneficial for the future.

- 1: The advanced biology class has the rare opportunity to see the dissection of a cadaver at Presentation College in Aberdeen.

# Wood, Tools, And Projects

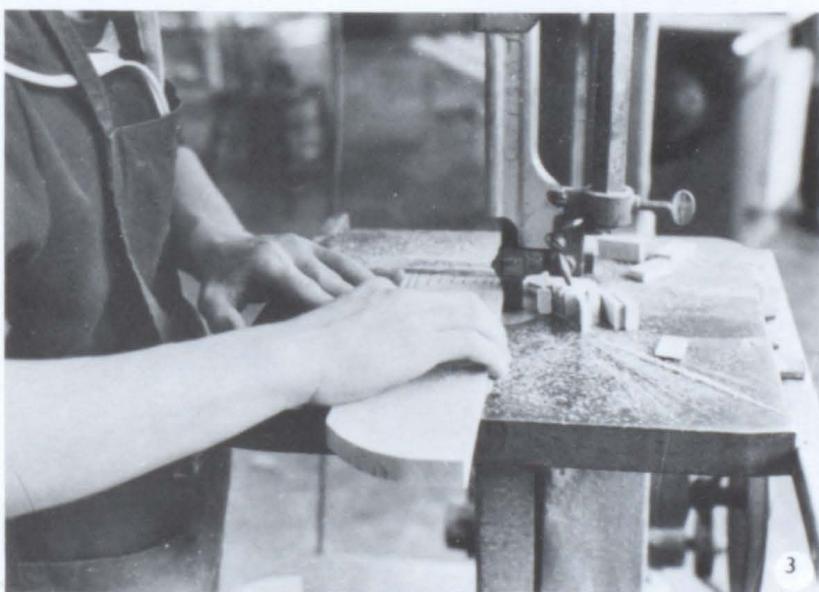

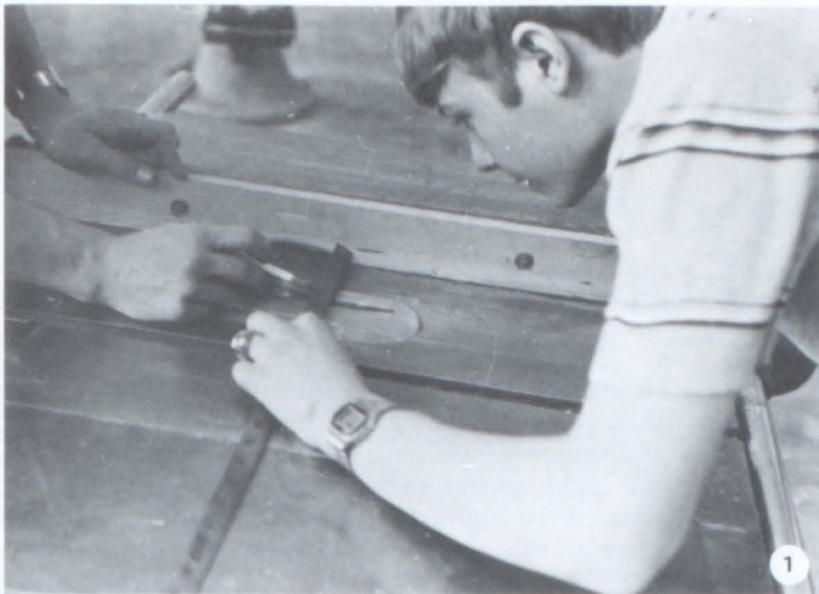

Shop can definitely be a challenging course to take. Figuring out how to use the tools and what wood to use can be a challenge in itself.

In the shop classes the students learn how to tell the difference between the different types of wood. It is important to know what type of wood you are working with so you know what to expect of it.

Using the different tools is hard to learn. There are many safety requirements that have to be met. Experimenting with them is one way to learn how to use them properly.

All projects must be challenging. If they aren't challenging they aren't much fun. It takes skill and knowledge to come up with a nice looking end product and the pride you will feel when it is completed will be great. Taking shop can show your creativity through the projects you make.

- 1: Brian Dais show us that fine detailed work sometimes brings out the best of a project.
- 2: Putting things together takes as much time as any other part of a project.
- 3: Using the tools is a very important part of making projects.

# Building Future Skills

If you like to cook, sew, ear, play with children, or work on projects, home economics is the class for you. Mrs. Joan Anderson teaches home ec I, II, and III.

Home ec I is the first home ec class you can take. It teaches all the basics of cooking and sewing. With so many boys in the home ec I classes, they did a lot more eating than sewing this year. All the students in their first year of home ec are required to sew a garment. This can be a real challenge for some of the students.

Home ec II consists of a little more difficult things than the first year. You cook more difficult things and sew more difficult patterns. This is the year for the child development course. A week long preschool is the highlight of this. The students also must carry an egg around with them for a whole week.

Home ec III is just a continuation of the home ec program. They do the same things basically as the other two home ec programs.

- 1: Holly Wanner wonders if her dress she has made will fit her.
- 2: Help is always necessary when you just can't quite figure something out.
- 3: Tina Staebner knows just what we mean when we say frustration.

# Creativity Expresses In Art

Art is a talent of creativity! You begin by drawing the basic shapes, buildings, and trees. By doing this the student learns to put things into perspective. It also makes the student relate to the surroundings. Later the art student learns shading and the effects that can be derived from using it. The art I students do these things plus basic painting, calligraphy, and

macrame. Students in art II continue studying painting (mostly oil painting). The projects they undertake are more difficult than the ones they did as an art I student. Also, the students in art II begin working with pottery. Art teaches patience and neatness. It's definitely a course worth taking.

# Students Experience Government

Many students who enjoy political and other various world events find Mr. Gerald Haupt's classes very interesting. He teaches American history, government, sociology, economics, and world geography. Mr. Herbert Heupel teaches World History. In American history you discover many events which have happened throughout the history of the United States. You discover how our country came to be.

Many seniors find government to be a helpful course in understanding our political system. You discover our political background in the United States and how our type of government is run.

In sociology you learn about the interesting facts of

social behavior and the building of human character. Students find interest in discussing social problems and the various social institutions.

Economics gives you the background of the economy in America and how it is run today. You learn about the banking systems, monopolies, and corporations. You also discuss the supply and demand system.

World history is the study of world events which have happened throughout time. You discover the early history of the world and how the world's countries came to be.

1: As Mr. Gerald Haupt lectures on various sociology topics, he gains full attention from the seniors who are the students.

2: Mr. Gerald Haupt, along with his Economic class, Deb Hoff and Mike Hottman, discover the problems in economy today.

3: While the teacher is patiently waiting for the answer, the students are still puzzled by the question.

Providing a book of memories for all to enjoy is the goal for the 1981-1982 yearbook staff. The staff consists of Editor Dana Miller and her 11 co-workers under the direction of Advisor Mr. Richard Greco.

Throughout the year the staff diligently spends time writing stories, cropping and pasting pictures, typing and retyping copy, and thinking of headlines and captions, all this is done to finish pages for certain deadlines which must be met in order to acquire the finished product.

The Yearbook Staff uses their knowledge and skill to complete pages in the yearbook.

Deep concentration is displayed by the staff as they use their imagination to come up with new ideas.

# Ideas Make The Paper

Every month writing, typing, proof-reading, and retyping are done to produce a high school newspaper known as the Trojanite. This paper is written and put together under the direction of the senior editor, JoAnn Beck. Stories are thought up and written down, everyone's always interested in trying to find new ideas to work with. Each issue fea-

tures an editorial, sport stories, human-interest stories, book reviews, and current events. Frustrations and determination to get the paper out on time can always be noticed during the month's publication week. Hard work pays off, last year's editions of the Trojanite won an All-State Award.

The Trojanite staff includes: First Row: Rhonda Neuharth, JoAnn Beck, Dawn Huber. Second Row: Mr. Clifford Berreh, advisor, Sara Bentz, Monica Gab, Barb Kramlich, Nora Schaeffer, Wendy Smith, Karla Wolff, Julie Pfeiffer, Lisa Lutz, Joleen Rau, Lana Wanner, Debbie Hoff. Third Row:

time when typing the final copy of the Trojanite on stencils.

Monica Gab finds errors early in production so they won't be found after the paper has been printed.

# High Ratings Received

The FHA organization had an active year. Action activity events were one of the highlights. Many of the members attended the regional meeting held in Hoven in January. The group came home with many awards. Our chapter's scrapbook won an award for its superiority. Those who won superior awards were then eligible for state competition. All of these students who did attend the state meeting came home with all superiors. Another event of importance is while at the state meeting, one of the members-Carrie Gab-was elected to the state presidency.

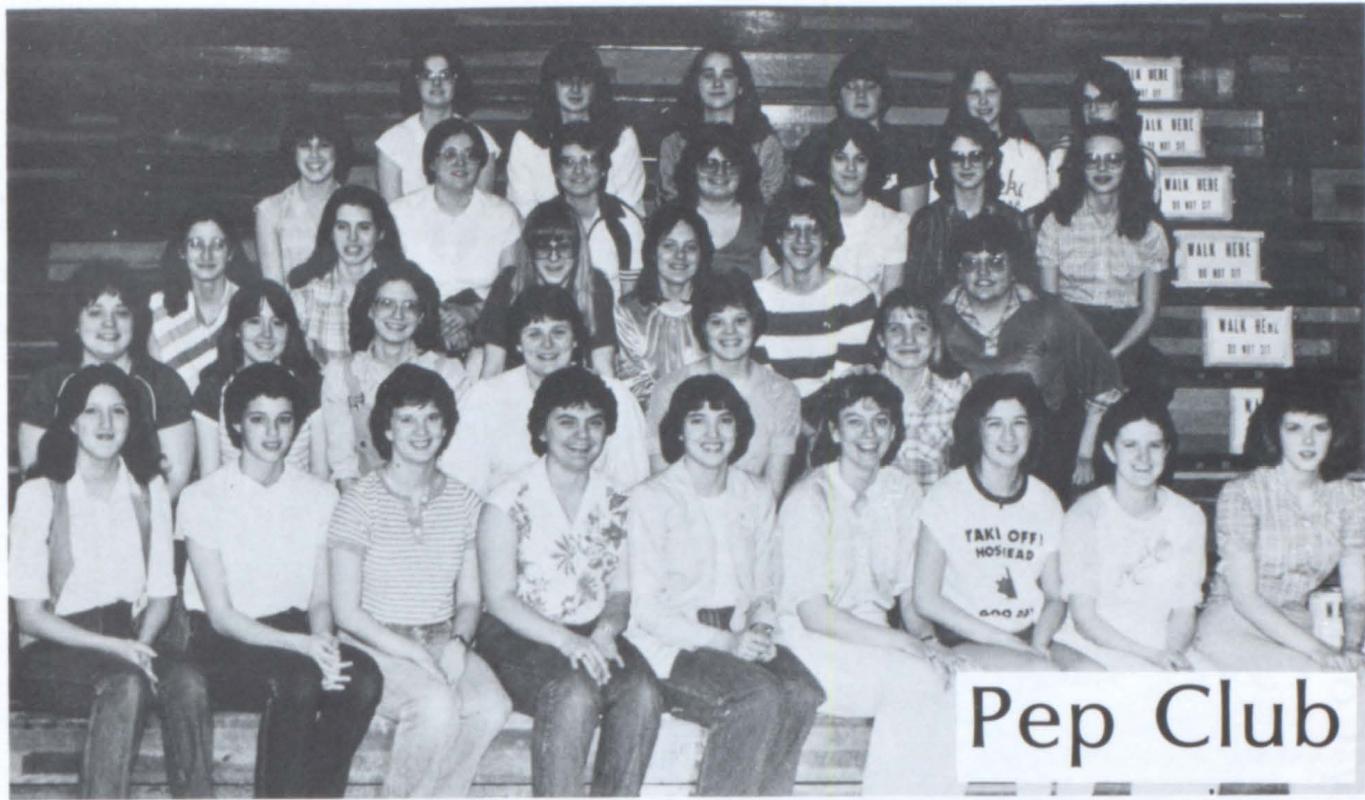

Other projects this year were: a teacher's breakfast, a red carpet supper, baking and selling Christmas cookies, selling stationery, and the annual ruebella tests.

# SENIORS

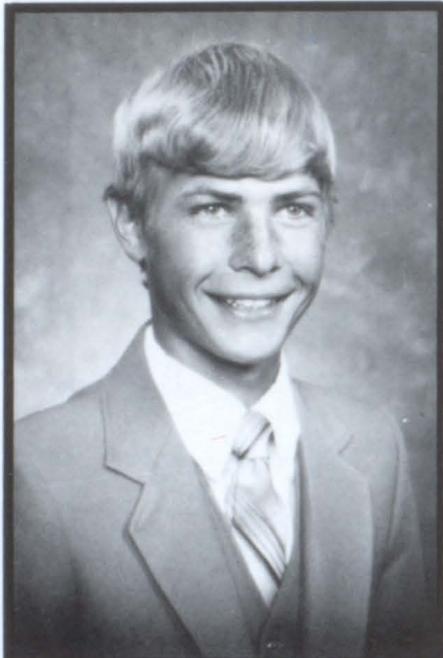

## The End Is Here

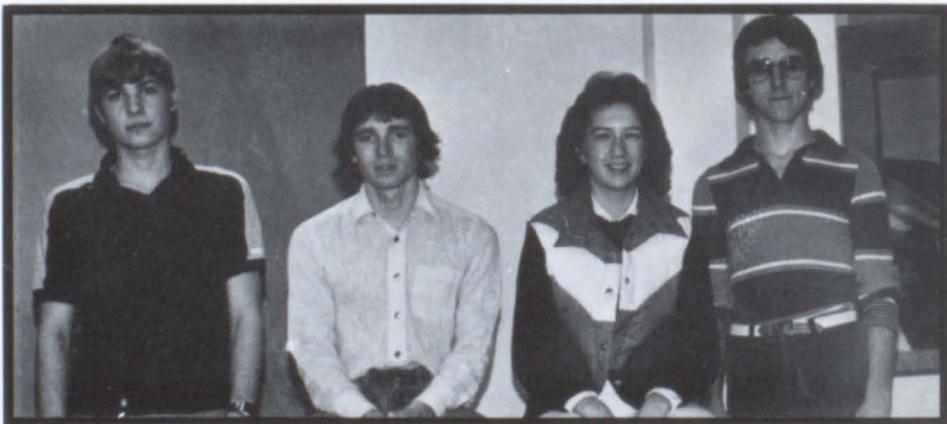

The Senior Year. This is the year the students in the Eureka School system look forward to for 13 years. Twenty-nine seniors experienced this tremendous feeling. The 1981-82 school year was filled with making many important decisions in life, what school to attend, what profession to enter, or where to find work following graduation.

The traditional choosing of the class symbols was hard to make. The class finally decided on the following: class colors-navy and ivory, class flower-white rose, class song—"Don't Stop Believin'", class hymn—"Precious Memories", class motto—"Take pride in today's accomplishments for they lead to tomorrow's success."

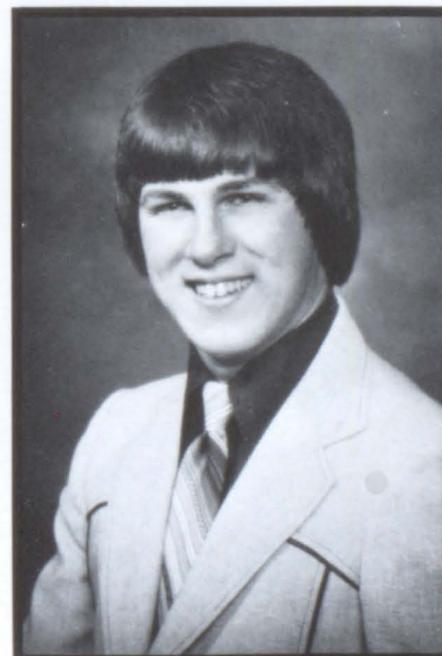

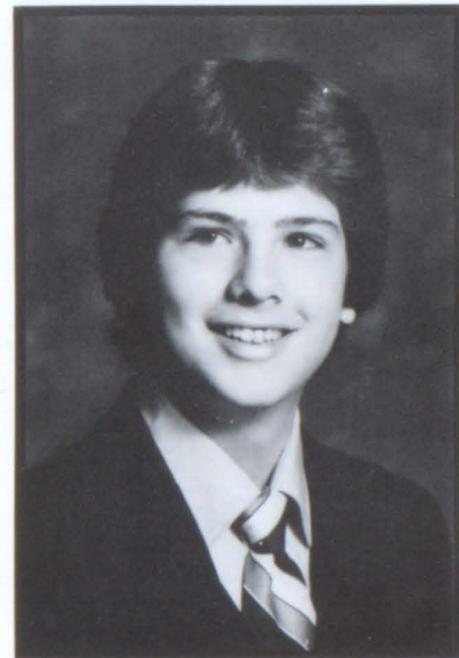

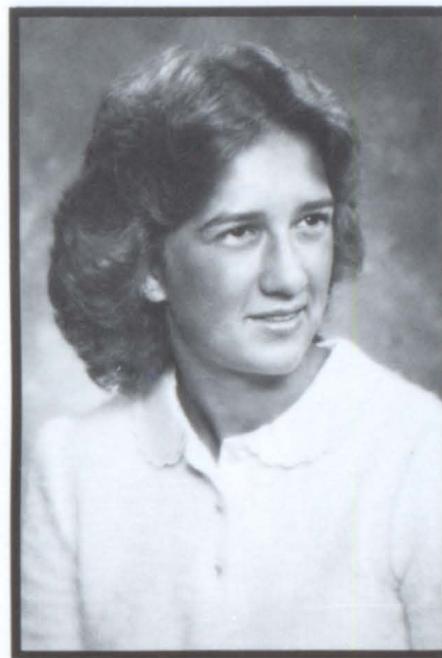

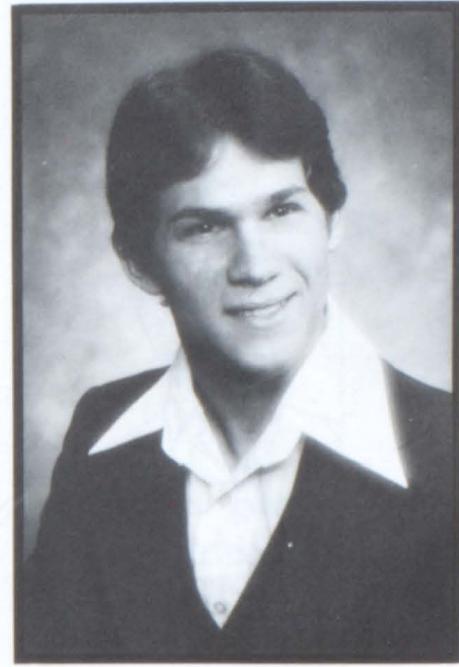

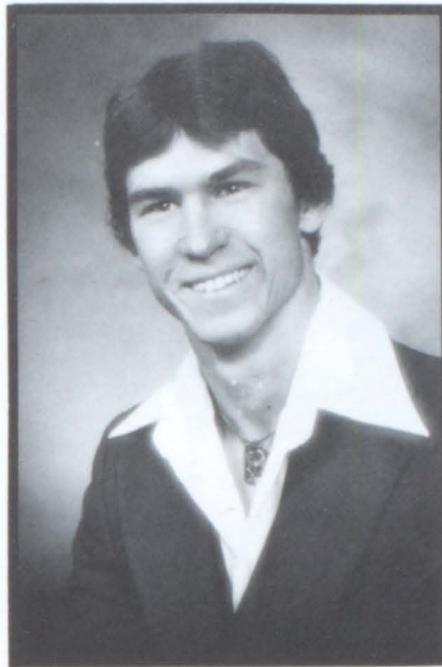

Upon graduation on May 17, the members of the Class of 1982 will be scattered abroad but many memories will remain.

# Juniors Have Busy Year

As the juniors await their senior year, many preparations must be made. The juniors have accomplished many tasks throughout their busiest year at E.H.S. The junior class play was held in the fall. This was the junior's first main activity of the year. Prom is by far the biggest event of the year. The juniors must plan and organize the whole thing with the help of their class advisor, Mr. Ron Cooper. This year they chose "Endless Love" as their theme. The juniors were busy ordering supplies, decorating the gym, and finance the event. The financial support came from selling concessions during the various school activities.

Daydreaming is a favorite past time of juniors. Todd Heinle wonders what his future will bring for him.

Sophomores experience a little more freedom in their choice of classes they want to enroll in. They get an introduction to typing and basic driving skills in addition to increasing their knowledge of the basics. The sophomores have a little more insight on what high school is all about. This year ten members of this class were chosen to be prom servers. Many sophomore students participate in various organizations that are open to them as sophomores.

## First Time For Everything

The first day of high school can be a scary time for freshmen. They don't know where to go, what to do, what they will expect there, or who they'll meet in the hall. After the first day the freshmen become acquainted with the facility and start to

feel comfortable.

The freshmen year is a lot of fun. It's the getting used to it that can be tough.

Leading the freshmen class are officers Derek Mehlhaff, Craig Albrecht, and Danny Geist.

# Junior High Is . . .

Junior high is a chance for students to experience more independence along with greater responsibilities. Throughout the school year some of the activities participated in are: art, band, chorus, football, basketball, and track.

Junior high parties and lockers are new for the seventh graders while the eighth graders get ready for high school.

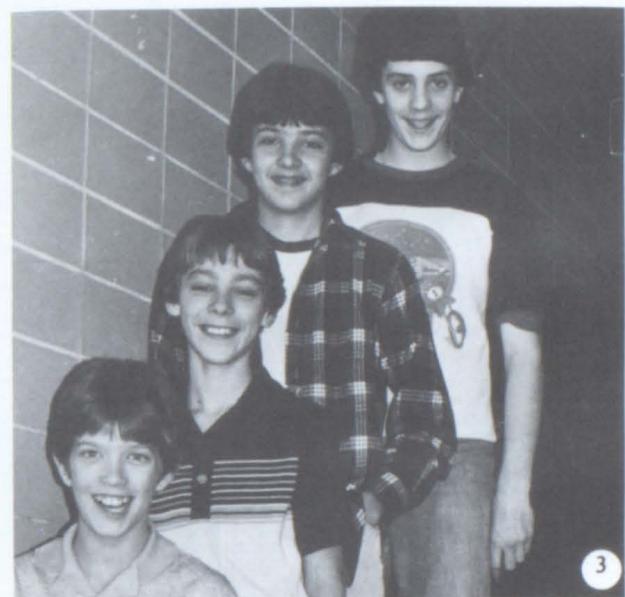

The excitement of junior high years will always be remembered.

# Early Sports Challenge

Junior High Sports are a very exciting time for those who participate. Skill, competition, and learning are all part of the conditioning of a future EHS athlete. Even though victory was not always the final result, the drive that an athlete possesses was developed.

Some Junior High athletes were double conditioned. Danny Weber, Terry Fauth, and Ryan Deibert chose to take part in both Junior High Basketball team and the high school wrestling squad.

Cheerleaders are always welcome in any sport. This year's squad consisted of four regular cheerleaders plus two alternates. They led cheers at all Junior High basketball games.

## Decisions Are Made

Administrating a school can be a tough job. This heavy burden is placed on Mr. Gerald Beutler and Mr. Harvey Diedrich with the aid of the school board. Many decisions are made by these people. Scheduling classes, excusing students and writing out make-up slips take up a lot of time. Paula Schumacher takes care of the secretarial needs at the same time that she is caring for the students as the school nurse. The school board meets once a month to discuss important decisions. They help with maintaining a good school.

They also help with the grade school milk break. The custodians work to help keep our school neat and clean. You can always see one of them scrubbing and shining something. # Determination Stands Out

The Trojan's success was not determined by their scores or their record, but their efforts. Their efforts did not often result in a victory but the determination and spirit was never lost. Though the season's record was in the opponents favor, the girls' will benefit from the chance to compete. The Trojan team finished their season by traveling to Ipswich for the district tournaments. The team had a bye the first round and then lost to Leola in second round action. They then played Frederick for the final game. The team received fourth place in the district tournament.

## Trojans Prove Their Strength

Kicking off to a great 1981 season, tri-captains Wayne Haas, Willie Haas, and Shaun Wanner led the Eureka Trojans to the first year of the South Dakota football playoffs. This was achieved on the basis of a state-wide point system. The successful season ended in a 7-2 record, the product of hard work and determination. The homecoming victory over the Ipswich Tigers was an outstanding highlight with a score of 43-14. This defeat was the first homecoming win since 1974. Along with Northwestern, Eureka held the 1981 Conference Co-Championship. This was the Trojans second consecutive year holding this title. Shaun Wanner was named to the 1981 All-State Class 9AA Football team, selected by the South Dakota Sports Writers Association.

A blow of the whistle and the 1981-82 basketball season was off. Starting their season, the Varsity and Jr. Varsity teams defeated Selby to motivate their determination. The long practices by both of the teams paid off. At the beginning of the season, the Jr. Varsity showed their aggression by jumping in and having many victories. The Varsity team ended the season with Shaun Wanner setting a new school record by scoring 51 points against Gettysburg. The senior Varsity players ended their basketball careers by losing to the Ipswich Tigers in the first round in the Districts.

Determination, hard work and long hours of practice are the major factors of the successful season of the 1981-82 wrestling squad. The team is compiled of twelve seniors, one sophomore, three freshmen, one eighth grader, and three seventh graders. The team's record for duals this year is outstanding with five wins and just one loss.

Eureka placed fifth in district competition and ninth in the regional tournaments, while advancing Stu Opp, Wayne Hass, and Joel Bertsch to the state competition. The Trojans proved successful by placing 14th in the state tournament. This is the highest record any wrestling squad has achieved in Eureka High School. Their individual standings at the tournament were Stu Opp placing fourth, Joel Bertsch placing fifth, and Wayne Haas placing sixth.

Coach Haupt commented, "The season is considered a very successful one. We came very close to achieving many of our goals."

## Cheers Excite Crowds

This year was a new experience for three senior girls. It was their first year as EHS cheerleaders. They were chosen to lead the cheers for the girls' basketball games. Even though the team had a losing season, the girls kept cheering and raising spirit in the crowd. Many hours were spent learning cheers and trying to think up new moves for just three cheerleaders. They commented, "It was a great experience and a lot of fun."

1: Cheerleaders try to raise enthusiasm in the crowd.

2: Cheerleaders play an important part in the District Tournament.

3: The 1981-82 Girls' Basketball Cheerleaders were Lisa Lutz, Julie Pfeiffer, and JoAnn Beck.

# We Have Power

Cheerleading takes time and energy? Ask any of these eight girls this question and you'll always receive the same answer, "YES". The cheerleading squads had an active year. In September, they attended a cheerleading clinic held at Northern State College in Aberdeen. They learned new cheers, chants, and stunts.

Something new to the football cheerleaders was the addition of the Junior Varsity cheerleaders at all home football games.

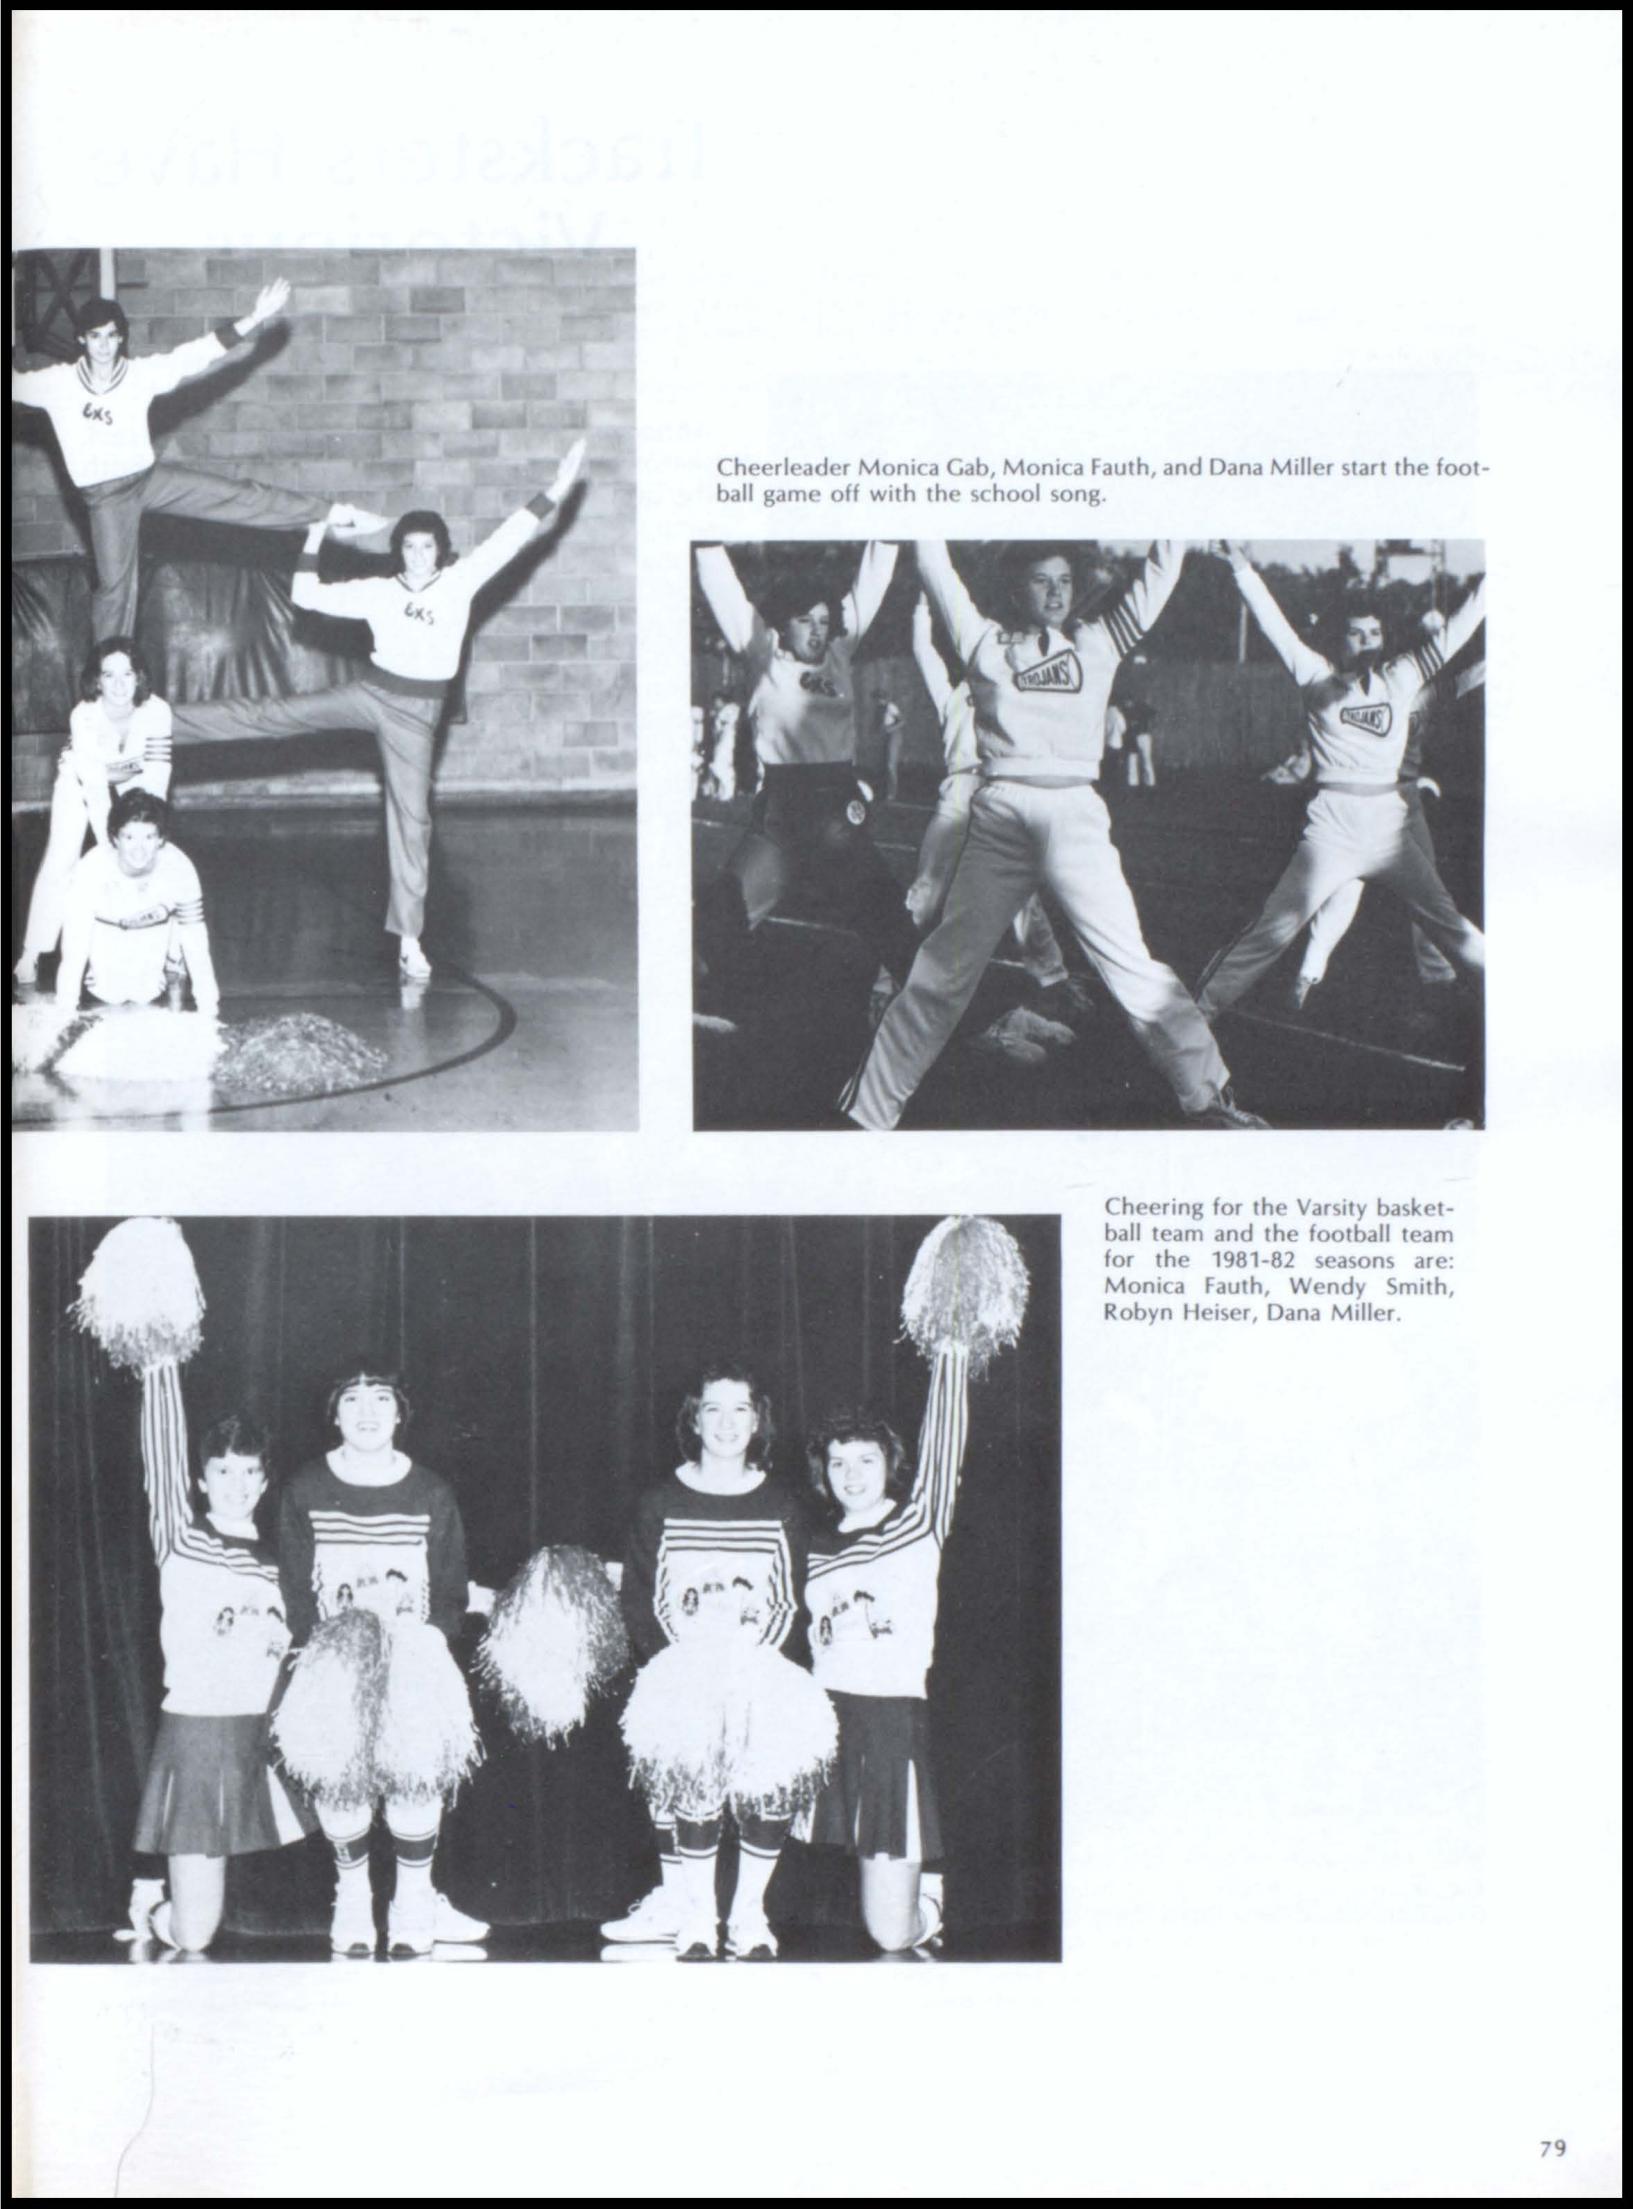

The school bought new cheerleading sweaters for the Varsity cheerleaders. This hadn't been done for many years, so it was well appreciated.

Much time and effort was put in by the cheerleaders to raise crowd spirit. Sports always need fan support!

The new checkerboard stunt is one that was learned at the cheerleading clinic this year. The football cheerleaders include: First Row: Wendy Smith, Monica Fauth. Second Row: Monica Gab, Dana Miller, Robyn Heiser, Holly Wanner. Third Row: Rhonda Neuharth, Sarah Krein.

Even though there were a few unexpected disappointments at state, the boys scored fourth in over all competition with a highlight being the 3200m relay consisting of William Haas, Stu Opp, Troy Wanner, and Shaun Wanner who got first place. The girls scored points with Holly Wanner taking two seconds in the 110m and 330m hurdles.
