

2023-2024

**TO:** Parents and Staff of Hillsboro Public School  
**FROM:** Paula Suda, Superintendent  
**RE:** ANNUAL NOTIFICATION OF ASBESTOS CONTAINING MATERIALS

In compliance with the US Environmental Protection Agency (EPA) Asbestos Hazard Emergency Response Act (AHERA), in the fall of 1988 we performed inspections of our school buildings for asbestos-containing building materials. The inspection findings and asbestos management plans have been on file in the school administrative office since that time.

The EPA requires us to perform inspections of the asbestos materials every three years. An accredited Inspector/Management Planner from Trio Environmental Consulting Inc., 2111 Main Ave. E., West Fargo, ND 58078, performed the inspection of our district on July 27, 2022, and issued a report regarding the results. There were no significant changes in condition of the remaining asbestos.

Trio Environmental Consulting Inc. has been contracted to provide environmental services, which includes maintaining compliance with Federal regulations regarding asbestos and other regulated environmental concerns.

All asbestos containing materials to our school are in good condition and we will continue to manage them in place, as recommended by the accredited Management Planner.

The results of the inspection as well as the last 6 Month Surveillance are on file in the Management Plan in the school's administrative office. Everyone is welcome to view these anytime during normal school hours (M-F 8:30 a.m.-4:00 p.m.).

We are intent on not only complying with, but exceeding federal, state and local regulations in this area. We plan on taking whatever steps are necessary to insure your children and our employees have a safe and healthy environment in which to learn and work.

Sincerely,

Paula Suda, Superintendent  
Hillsboro Public Schools
