INDEPENDENT AUDITOR'S REPORT

School Board
Estelline School District No. 28-2
Hamlin County, South Dakota

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund and the aggregate remaining fund information of the Estelline School District No. 28-2, Hamlin County, South Dakota, (School District) as of June 30, 2020 and for the year then ended, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the Table of Contents.

Management's Responsibility for the Financial Statements

The School District's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatements, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the School District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, each major fund, and the aggregate remaining fund information of Estelline School District No. 28-2 as of June 30, 2020, and the respective changes in financial position and, where applicable, cash flows

thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis (MD&A), the Pension Schedules, and the Budgetary Comparison Schedules, as listed in the Table of Contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated January 14, 2021, on our consideration of the School District's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

ESTELLINE SCHOOL DISTRICT NO. 28-2 MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of Estelline School District 28-2's annual financial report presents our discussion and analysis of the School District's financial performance during the fiscal year ended on June 30, 2020. Please read it in conjunction with the School's financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

- During the year, the School's revenues generated from taxes and other revenues of the governmental and business-type programs were \$3,808,681.53 and the governmental and business-type program expenditures totaled \$3,750,621.27.
- The district has a \$145,000 opt-out (perpetual) and an additional opt out in the amount of \$350,000 for five years (expires 2023) that will be utilized as a revenue source for the upcoming year's general fund budget.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts – management's discussion and analysis (this section), the basic financial statements and required supplementary information. The basic financial statements include two kinds of statements that present different views of the School:

- The first two statements are government-wide financial statements that provide both long-term and short-term information about the School's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the School government, reporting the School's operations in more detail than the government-wide statements.
 - The governmental funds statements tell how general government services were financed in the short-term as well as what remains for future spending.
 - Proprietary fund statements offer short- and long-term financial information about the activities that the school operates like businesses. The proprietary funds operated by the school are the Food Service Operation and Other Enterprise Fund which accounts for Pre-School Services and Driver's Education.
 - Fiduciary fund statements provide information about the financial relationships - like scholarship plans for graduating students - in which the School acts solely as a trustee or agent for the benefit of others, to whom the resources in question belong.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the information in the financial statements.

Figure A-1 shows how the required parts of this annual report are arranged and relate to one another.

Figure A-1

**Required Components of
Estelline School's Annual Financial Report**

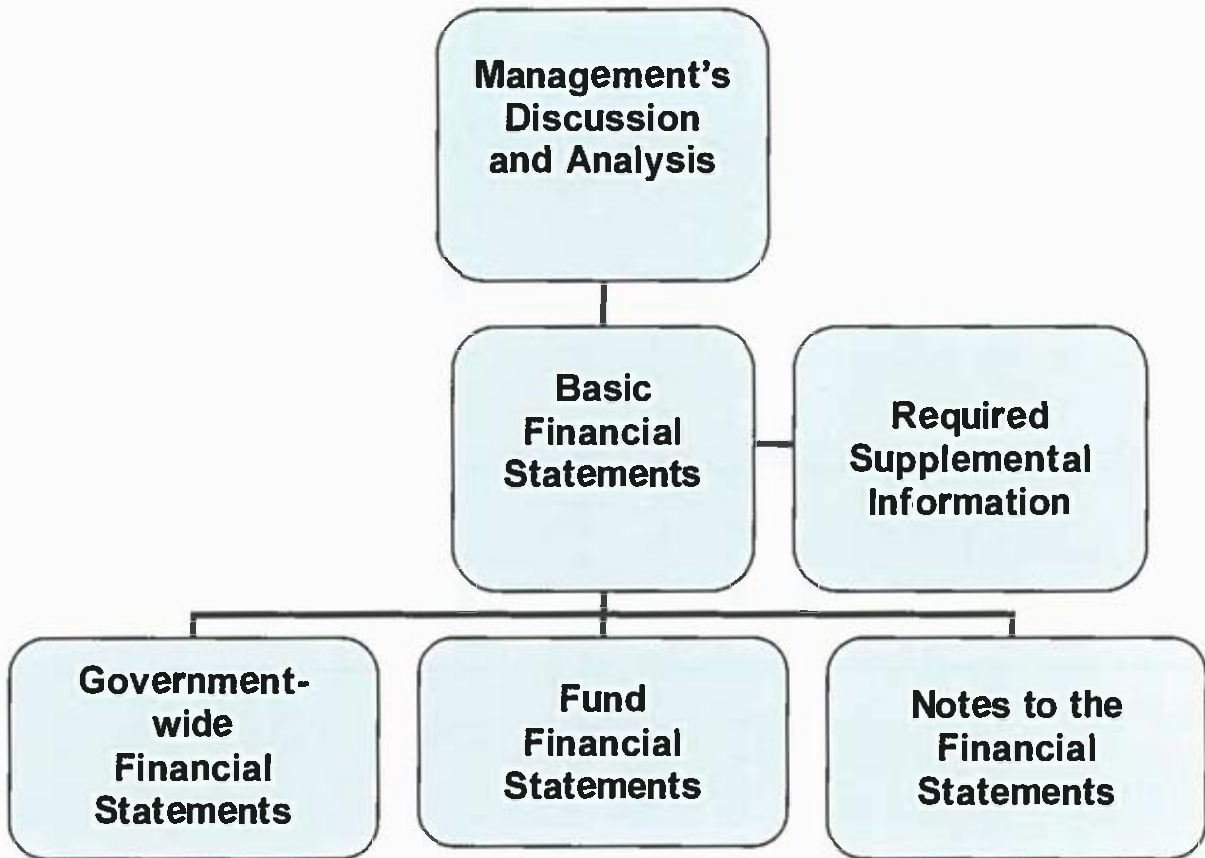

Figure A-2 summarizes the major features of the School's financial statements, including the portion of the School government covered and the types of information contained. The remainder of the overview section of the management's discussion and analysis explains the structure and contents of each of the statements.

Figure A-2

Major Features of Estelline School's Government-wide and Fund Financial Statements				
	Government-wide	Fund Statements		
	Statements	Governmental Funds	Proprietary Funds	Fiduciary Funds
Scope	Entire School government (except for fiduciary funds)	The activities of the School that are not proprietary or fiduciary, such as elementary and high school education programs.	Activities the School operates similar to private businesses, the food service operation, pre-school services, and driver's education.	Instances in which the School is the trustee or agent for someone else's resources.
Required Financial Statements	*Statement of Net Position *Statement of Activities	*Balance Sheet *Statement of Revenues, Expenditures and Changes in Fund Balances	*Statement of Net Position *Statement of Revenues, Expenses and Changes in Net Position *Statement of Cash Flows	*Statement of Net Position *Statement of Changes in Net Position
Accounting Basis and	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus
Type of Asset/Liability information	All assets and liabilities, both financial and capital, and short-term and long-term	Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets included	All assets and liabilities, both financial and capital, and short-term and long-term	All assets and liabilities, both short-term and long-term; the School's funds do not currently contain capital assets although they can
Type of Inflow/Outflow information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter	All revenues and expenses during year, regardless of when cash is received or paid	All revenues and expenses during year, regardless of when cash is received or paid

Government-wide Statements

The government-wide statements report information about the School as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the School's net position and how they have changed. Net position – the difference between the School's assets and liabilities – is one way to measure the School's financial health or position.

- Increases or decreases in the School's net position are an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the School you need to consider additional nonfinancial factors such as changes in the School's property tax base and changes in the state school aid funding formula from the State of South Dakota.

The government-wide financial statements of the School are reported in two categories:

- **Governmental Activities** - This category includes the School's basic instructional services, such as elementary and high school educational programs, support services (guidance counselor, executive administration, board of education, fiscal services, etc.), debt service payments, extracurricular activities (sports, debate, music, etc.) and capital equipment purchases. Property taxes, state grants, federal grants and interest earnings finance most of these activities.
- **Business-type Activities** - The school charges a fee to students to help cover the costs of providing hot lunch services to all students. The Food Service Fund AND Driver's Education Fund is the only business-type activity of the School.

Fund Financial Statements

The fund financial statements provide more detailed information about the School's most significant funds – not the School as a whole. Funds are accounting devices that the School uses to keep track of specific sources of funding and spending for particular purposes.

- State Law requires some of the funds.
- The School Board establishes other funds to control and manage money for particular purposes (like the Scholarship Trust).

The School has three kinds of funds:

- **Governmental Funds** – Most of the School's basic services are included in the governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at the year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the School's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information at the bottom of the governmental funds statements, or on the subsequent page, that explains the relationship (or differences) between them.
- **Proprietary Funds** – Services for which the School charges customers a fee are generally reported in proprietary funds. Proprietary funds, like the government-wide statements, provide both short- and long-term financial information. The Food Service Enterprise Fund and Driver's Education Program are the only proprietary funds maintained by the School.
- **Fiduciary Funds** – The School is the trustee, or fiduciary, for various external and internal parties. The School is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the School's fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. We exclude these activities from the School's government-wide financial statements because the School cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE SCHOOL AS A WHOLE

Net Position

The School's combined net position increased as follows:

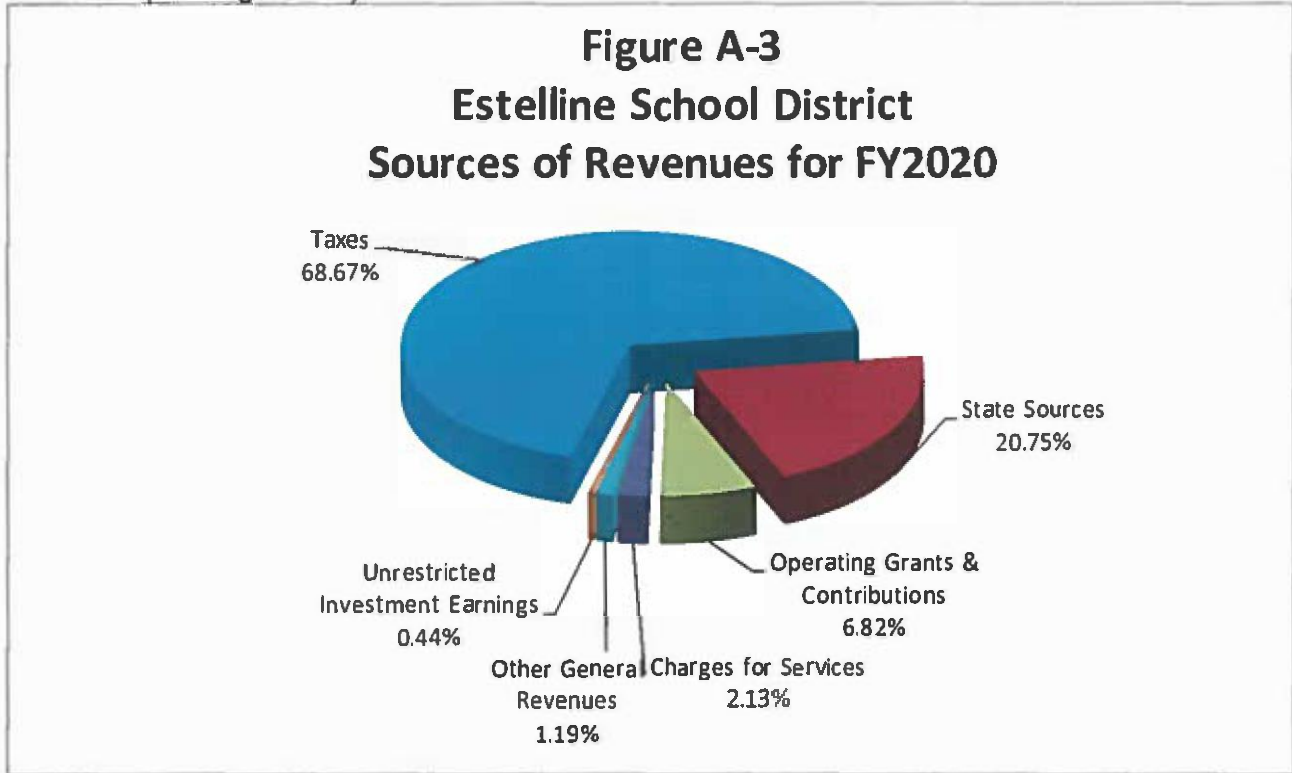

TABLE A-1
ESTELLINE SCHOOL DISTRICT NO. 28-2
STATEMENT OF NET POSITION

	Governmental Activities		Primary Government Business-Type Activities		Total	
	FY2019	FY2020	FY2019	FY2020	FY2019	FY2020

Ending Net Position	\$ 4,684,737.09	\$ 4,756,873.29	\$ 19,384.78	\$ 24,224.34	\$ 4,704,121.87	\$ 4,781,097.63
Percentage of Increase (Decrease) in						
Net Position	0.42%	1.54%	7.83%	24.97%	0.45%	1.64%

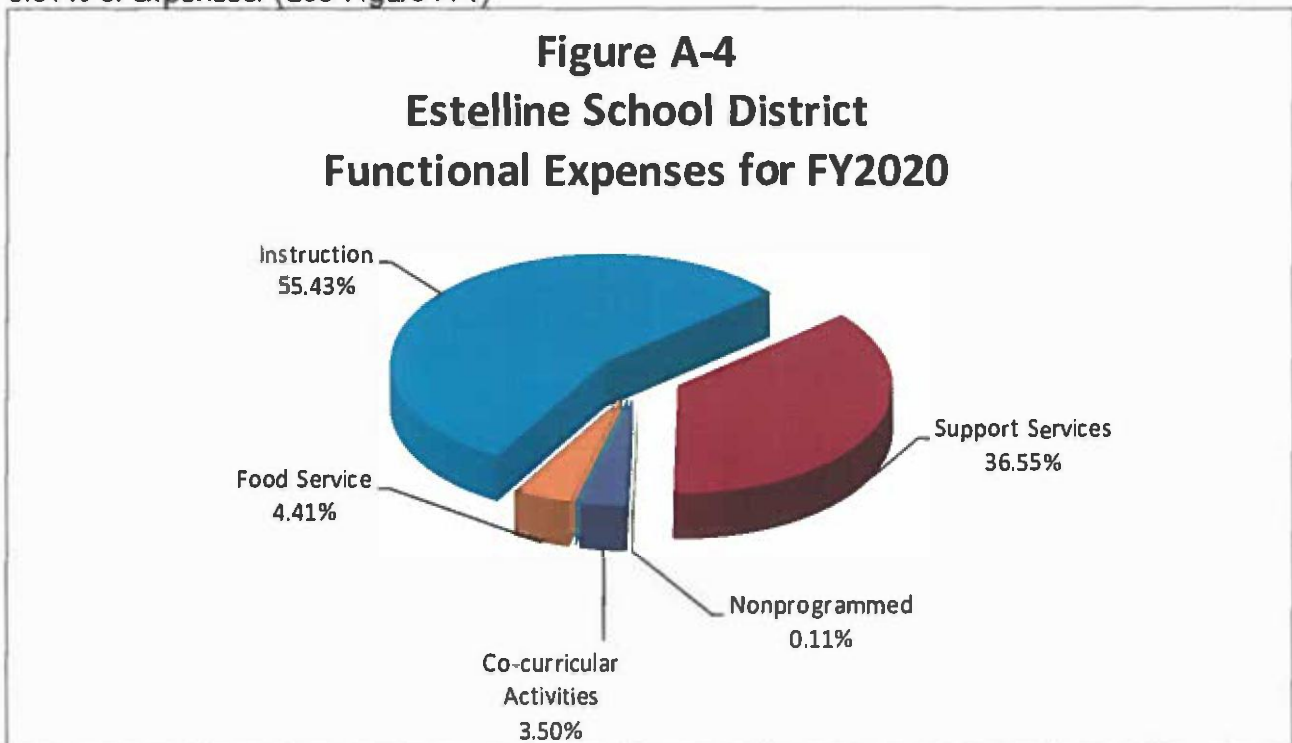

The Statement of Net Position reports all financial and capital resources. The statement presents the assets and liabilities in order of relative liquidity. The liabilities with average maturities greater than one year are reported in two components – the amount due within one year and the amount due in more than one year. The long-term liabilities of the school, consisting of compensated absences payable and capital leases have been reported in this manner on the Statement of Net Position. The difference between the school's assets and liabilities is its net position.

Changes in Net Position

The School's total revenues totaled \$3,808,681.53. (See Table A-2.) Approximately 68.67% of the School's revenue comes from property and other taxes, with approximately 20.75% coming from state aid. (See Figure A-3).

The Estelline School's total expenses were \$3,750,621.27 (See Table A-2.) The School's expenses cover a range of services, with instruction at 55.43%, support services at 36.55% and food services at 4.41%. Debt services and co-curricular activities have 3.61% of expenses. (See Figure A-4)

GOVERNMENTAL AND BUSINESS-TYPE ACTIVITIES

Table A-2 and the narrative that follows consider the operations of the governmental activities and the business-type activities of the school.

GOVERNMENTAL ACTIVITIES

The general fund showed an increase in tax revenue due to an opt-out that passed by election and yearly increased tax valuations. Instruction expenses increase due to pay increases for the certified teaching staff and classified support staff during yearly negotiations. The Nonprogrammed Charges increased due to unemployment benefits charged to our district due to COVID-19 and the closure of schools in March, 2020.

BUSINESS-TYPE ACTIVITIES

The Estelline School District had a net increase of \$4,830.66 in its food service net position. Factors contributing to these results included:

- There has been a revenue short fall compared to expenses in the food service account. It has relied on transfers from the General Fund. The food service fund also had a Capital Contribution project that was started at the end of FY20.

FINANCIAL ANALYSIS OF THE SCHOOL'S FUNDS

The General Fund had an increase of \$368,881.80 in its fund balance and ended the fiscal year at \$774,720.32. The Capital Outlay fund balance decreased by \$68,332.06 with an ending balance at \$673,021.54. The Special Education Fund increased by \$467.74 with an ending balance of \$3,634.94.

GENERAL FUND BUDGETARY HIGHLIGHTS

In this fiscal year the school had ongoing pay increases to the certified teaching staff and the classified support staff. The district also transferred funds to the Food Service Program from General Fund. This brought that fund to a positive fund balance so it was no longer running in the negative at year end.

The board has implemented the \$145,000.00 perpetual opt-out, passed a \$375,000.00 opt-out for five years (expires 2023) and the maximum capital outlay transfer for FY20.

CAPITAL ASSET ADMINISTRATION

By the end of the 2020 fiscal year, the School had invested \$3,104,821 in capital assets (net of depreciation) including, land, buildings, various machinery and equipment. (See Table A-3.) This amount represents an increase of \$47,872 (including additions and deductions), over last year.

Table A-3
ESTELLINE SCHOOL DISTRICT NO. 28-2 - Capital Assets
(Net of Depreciation)

	Governmental Activities			Business-Type Activities		
	FY2019	FY2020	Increase/ (Decrease)	FY2019	FY2020	Increase/ (Decrease)
Land	\$ 42,998	\$ 42,998	\$ 0	\$	\$	\$
Buildings	2,206,659	2,134,023	(72,636)			
Improvements other than Building	620,981	660,174	39,193			
Machinery and Equipment	161,657	211,113	49,456	14,120	26,967	12,847
Library Books	10,534	5,295	(5,239)			
Total Capital Assets	\$ 3,042,829	\$ 3,077,854	\$ 35,025	\$ 14,120	\$ 26,967	\$ 12,847

This year's capital asset purchases include elementary carpet, digital temperature control replacement, Ruckus wireless system/switches, intercom/paging system, AC unit replacement, 2 used school buses, drone, HP Designjet inkjet printer, library books and kitchen walk-in cooler.

LONG-TERM DEBT

At fiscal year-end 2020 the Estelline School District decreased \$7,750.80 to the Early Retirement liability. The Capital Acquisition Lease was decreased by \$4,314.60 and the Compensated Absences were increased by \$206.22. This represents a total decrease of 16.38% as shown on Table A-4 below.

Table A-4
ESTELLINE SCHOOL DISTRICT NO. 28-2
Outstanding Debt and Obligations

	Governmental Activities		Total % Change
	<u>FY2019</u>	<u>FY2020</u>	
Capital Acquisition Lease	\$ 8,629.20	\$ 4,314.60	-50.00%
Early Retirement	36,816.30	29,065.50	-21.05%
Compensated Absences	26,965.72	27,171.94	0.76%
Total Long-Term Liabilities	<u>\$ 72,411.22</u>	<u>\$ 60,552.04</u>	
 Net Increase (Decrease)		 -16.38%	

The School is liable for the accrued sick leave payable to the superintendent, business manager certified and classified employees.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

One of the primary sources of revenue to the School is based on local tax collections set by the State Legislative body and the State Formula that determines the need of the school district to adequately fund average teacher compensation. The State will make up the difference from local taxes revenue and the targeted need per school, which makes the per student aid vary from district to district. Classroom size and certified instructional staff has now become a factor in what is received in state aid versus the weighted student enrollment as in the past. The Estelline School District will continue to base our next year's budgets on tax valuations and state aid. The perpetual opt out of \$145,000 was implemented and an additional opt out was passed in the amount of \$350,000.00 for five years (expires 2023).

CONTACTING THE SCHOOL'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the School's finances and to demonstrate the School's accountability for the money it receives. If you have questions about this report or need additional information, contact the Estelline School Business Office, PO Box 306, Estelline, SD 57234

**ESTELLINE SCHOOL DISTRICT NO. 28-2
RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET
TO THE STATEMENT OF NET POSITION
JUNE 30, 2020**

Total Fund Balances - Governmental Funds \$1,451,376.80

Amounts reported for governmental activities in the statement of net position is different because:

Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds.

Capital Assets	\$ 7,047,030.41	
Accumulated Depreciation	<u>(3,969,176.08)</u>	3,077,854.33

Long-term liabilities, including bonds payable, capital leases payable and accrued leave payable are not due and payable in the current period and therefore are not reported in the funds. Long-term liabilities at year-end consist of:

Capital (Acquisition) Leases	(4,314.60)	
Early Retirement Payable	(29,065.50)	
Compensated Absences	<u>(27,171.94)</u>	(60,552.04)

Net Pension Asset reported in governmental activities is not an available financial resource and therefore is not reported in the funds.

8,024.58

Pension related deferred outflows are components of pension asset and therefore are not reported in the funds.

433,241.68

Pension related deferred inflows are components of pension liability and therefore are not reported in the funds.

(179,629.19)

Assets such as taxes receivable (delinquent) are not available to pay for current period expenditures and therefore are deferred in the funds.

26,557.13

Net Position- Governmental Funds

\$4,756,873.29

**ESTELLINE SCHOOL DISTRICT NO. 28-2
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES
IN FUND BALANCES TO THE GOVERNMENT-WIDE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED JUNE 30, 2020**

Net Change in Fund Balances - Total Governmental Funds		\$ 215,566.16
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report property taxes as revenue when they meet available criteria, that is collectible within one normal bill paying cycle; but the statement of activities includes the property taxes as revenue when earned.		22,383.89
Capital Outlays to purchase or build capital assets are reported in governmental funds as expenditures. However, for governmental activities these costs are shown in the statement of net position and allocated over their estimated useful lives as annual depreciation expense in the statement of activities. This is the amount by which capital outlays exceeds depreciation expense in the period.		
Capital Outlays	\$ 247,759.57	
Depreciation Expense	<u>(212,734.30)</u>	35,025.27
Repayment of principal on long-term debt is an expenditure in the governmental funds but the payment reduces long-term liabilities in the statement of net position		
Capital Lease Payable		4,314.60
Changes in the pension related deferred outflows/inflows are direct components of pension liability(asset) and are not reflected in the governmental funds.		(212,698.30)
In the statement of activities, certain operating expenses (compensated absences and early retirement benefits) are measured by the amounts earned and paid during the year. In the governmental funds however, expenditures for these items are different than the amount of financial resources used. This is the change in the current year:		
Change in early retirement	7,750.80	
Change in compensated absences	<u>(206.22)</u>	<u>7,544.58</u>
Change in Net Position of Governmental Activities		<u>\$ 72,136.20</u>

The notes to the financial statements are an integral part of this statement.

ESTELLINE SCHOOL DISTRICT NO. 28-2
NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the School District conform to generally accepted accounting principles applicable to government entities of the United States of America.

a. Financial Reporting Entity

The reporting entity of Estelline School District No. 28-2 consists of the primary government (which includes all of the funds, organizations, institutions, agencies, departments, and offices that make up the legal entity, plus those funds for which the primary government has a fiduciary responsibility, even though those fiduciary funds may represent organizations that do not meet the criteria for inclusion in the financial reporting entity); those organizations for which the primary government is financially accountable; and other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the financial reporting entity's financial statements to be misleading or incomplete.

The School District participates in a cooperative service unit with several other school districts. See detailed note entitled "Joint Ventures" for specific disclosures. Joint ventures do not meet the criteria for inclusion in the financial reporting entity as component unit, but are discussed in these notes because of their relationship with the School District.

b. Basis of Presentation

Government-wide Financial Statements:

The Statement of Net Position and Statement of Activities display information about the reporting entity as a whole. They include all funds of the reporting entity except for fiduciary funds. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

The Statement of Net Position reports all financial and capital resources, in a net position form (assets and deferred outflows of resources minus liabilities and deferred outflows of resources equal net position). Net position is displayed in three components, as applicable, net investment in capital assets, restricted (distinguishing between major categories of restrictions), and unrestricted.

The Statement of Activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the School District and for each function of the School District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements:

Fund financial statements of the reporting entity are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues, and

expenditures/expenses. Funds are organized into three major categories: governmental, proprietary, and fiduciary. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the School District or it meets the following criteria:

1. Total assets and deferred outflows of resources, liabilities and deferred inflows of resources, revenues, or expenditures/expenses of the individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type, and
2. Total assets and deferred outflows of resources, liabilities and deferred inflows of resources, revenues, or expenditures/expenses of the individual governmental or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined, or
3. Management has elected to classify one or more governmental or enterprise funds as major for consistency in reporting from year to year, or because of public interest in the fund's operations.

The funds of the School District financial reporting entity are described below within their respective fund types:

Governmental Funds:

General Fund-A fund established by South Dakota Codified Laws (SDCL) 13-16-3 to meet all the general operational costs of the school district, excluding capital outlay fund and special education fund expenditures. The General Fund is always a major fund.

Special Revenue Funds- special revenue funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

Capital Outlay Fund - A fund established by SDCL 13-16-6 to meet expenditures which result in the lease of, acquisition of or additions to real property, plant or equipment, textbooks and instructional software. This fund is financed by property taxes. This is a major fund.

Special Education Fund-A fund established by SDCL 13-37-16 to pay the costs for the special education of all children in need of special assistance and prolonged assistance who reside within the district. This fund is financed by grants and property taxes. This is a major fund.

Pension Fund - A fund established by SDCL 13-10-6 for the purpose of paying pensions to retired employees of school districts, which have established such systems, paying the school district's share of retirement plan contributions, and for funding early retirement benefits to qualifying employees. This fund is financed by property taxes. This is a major fund and is being closed per SDCL as of June 30, 2020.

Debt Service Funds – Debt Service funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.

Bond Redemption Fund – A fund established by SDCL 13-16-13 to account for the proceeds of a special property tax restricted to use for the payment of principal and interest on general obligation bonded debt. The Bond Redemption Fund is the only debt service fund maintained by the School District. This is a major fund and is closed as of June 30, 2020.

Proprietary Funds:

Enterprise Funds- enterprise funds may be used to report any activity for which a fee is charged to external users for goods or services. Activities are required to be reported as enterprise funds if any one of the following criteria is met.

- a. The activity is financed with debt that is secured solely by a pledge of the net revenues from fees and charges of the activity. Debt that is secured by a pledge of net revenues from fees and charges and the full faith and credit of a related primary government or component unit—even if that government is not expected to make any payments—is not payable solely from fees and charges of the activity. (Some debt may be secured, in part, by a portion of its own proceeds but should be considered as payable "solely" from the revenues of the activity.)
- b. Laws or regulations require that the activity's costs of providing services, including capital costs (such as depreciation or debt service), be recovered with fees and charges, rather than with taxes or similar revenues.
- c. The pricing policies of the activity establish fees and charges designed to recover its costs, including capital costs (such as depreciation or debt service).

Food Service Fund - A fund used to record financial transactions related to food service operations. This fund is financed by user charges and grants. This is a major fund.

Other Enterprise Funds – A fund used to record financial transactions related to pre-school services and driver's education instruction conducted for the benefit of the children. This fund is financed by user charges. This is a major fund.

Fiduciary Funds:

Fiduciary Funds consist of the following sub-categories and are never considered to be major funds:

Private-Purpose Trust Funds – private-purpose trust funds are used to account for all other trust arrangements under which principal and income benefit individuals, private organizations, or other governments. The School District maintains only the following private-purpose trust fund:

Rural Museum Trust Fund – A fund generated from donations for the purpose of the care and upkeep of the rural school museum.

Agency Funds - agency funds are used to account for resources held by the School District in a purely custodial capacity (assets equal liabilities). Since agency funds are custodial in nature they do not involve the measurement of results of operations. The School District maintains agency funds for the following purposes: student class funds, student club funds and clearing accounts.

c. Measurement Focus and Basis of Accounting

Measurement focus is a term used to describe "how" transactions are recorded within the various financial statements. Basis of accounting refers to "when" revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements, regardless of the measurement focus.

Measurement Focus:

Government-wide Financial Statements:

In the government-wide Statement of Net Position and Statement of Activities, both governmental and business-type activities are presented using the economic resources measurement focus, applied on the accrual basis of accounting.

Fund Financial Statements:

In the fund financial statements, the "current financial resources" measurement focus and the modified accrual basis of accounting are applied to governmental funds, while the "economic resources" measurement focus and the accrual basis of accounting are applied to the proprietary and fiduciary fund types.

Basis of Accounting:

Government-wide Financial Statements:

In the government-wide Statement of Net Position and Statement of Activities, governmental and business-type activities are presented using the accrual basis of accounting. Under the accrual basis of accounting revenues and related assets generally are recorded when earned (usually when the right to receive cash vests); and, expenses and related liabilities are recorded when an obligation is incurred (usually when the obligation to pay cash in the future vests).

Fund Financial Statements:

All governmental fund types are accounted for using the modified accrual basis of accounting. Their revenues, including property taxes, generally are recognized when they become measurable and available. "Available" means resources are collected or to be collected soon enough after the end of the fiscal year that they can be used to pay the bills of the current period. The accrual period for the School District is 60 days. The revenues which were accrued at June 30, 2020 are amounts due from other governments for grants.

Under the modified accrual basis of accounting, receivables may be measurable but not available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Reported deferred revenues are those where asset recognition criteria have been met but for which revenue recognition criteria have not been met.

Expenditures generally are recognized when the related fund liability is incurred. Exceptions to this general rule include principal and interest on general long-term debt which are recognized when due.

All proprietary fund and fiduciary fund types are accounted for using the accrual basis of accounting. Their revenues are recognized when they are earned, and their expenses are recognized when they are incurred.

d. Interfund Eliminations and Reclassifications

Government-wide Financial Statements:

In the process of aggregating data for the government-wide financial statements, some amounts reported as interfund activity and balances in the fund financial statements have been eliminated or reclassified, as follows:

1. In order to minimize the grossing-up effect on assets and liabilities within the governmental and business-type activities columns of the primary government, amounts reported as interfund receivables and payables have been eliminated in the governmental and business-type activities columns, except for the net, residual amounts due between governmental and business-type activities, which are presented as Internal Balances.

2. In order to minimize the doubling-up effect on internal service fund activity, certain "centralized expenses" including an administrative overhead component, are charged as direct expenses to funds or programs in order to show all expenses that are associated with a service, program, department, or fund. When expenses are charged, in this manner, expense reductions occur in the General Fund, so that expenses are reported only in the function to which they relate.

e. Deposits and Investments:

For the purpose of financial reporting, "cash and cash equivalents" includes all demand and savings accounts and certificates of deposit or short-term investments with a term to maturity at date of acquisition of three months or less. Investments in open-end mutual fund shares, or similar investments in external investment pools, are also considered to be cash equivalents.

Investments classified in the financial statements consist entirely of certificates of deposit whose term to maturity at date of acquisition exceeds three months, and/or those types of investment authorized by South Dakota Codified Law (SDCL) 4-5-6.

f. Capital Assets

Capital assets include land, buildings, machinery and equipment, and all other tangible or intangible assets that are used in operations and that have initial useful lives extending beyond a single reporting period.

The accounting treatment over capital assets depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

Government-Wide Statements:

All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated capital assets are valued at their estimated fair value on the date donated. Reported cost values include ancillary charges necessary to place the asset into its intended location and condition for us. Subsequent to initial capitalization, improvements or betterments that are significant, and which extend the useful life of a capital asset are also capitalized.

For governmental activities Capital Assets, construction-period interest is not capitalized, in accordance with USGAAP, while for capital assets used in business-type activities/proprietary fund's operations, construction period interest is capitalized in accordance with USGAAP.

The total June 30, 2020 balance of capital assets for governmental activities includes approximately 1.56% for which the costs were determined by estimates of the original costs. The total June 30, 2020 balance of capital assets for business-type activities are all valued at the original cost.

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the government-wide Statement of Activities, with net capital assets reflected in the Statement of Net Position. Capitalization thresholds (the dollar values above which asset acquisitions are added to

the capital asset accounts), depreciation methods, and estimated useful lives of capital assets reported in the government-wide statements and proprietary funds are as follows:

	Capitalization Threshold	Depreciation Method	Estimated Useful Life
Land	All	NA	NA
Improvements	\$ 10,000	Straight Line	15-25 yrs
Buildings	20,000	Straight Line	50 yrs
Machinery and Equipment	2,500	Straight Line	5-20 yrs
Food Service Machinery and Equipment	1,000	Straight Line	5-20 yrs

Land is an inexhaustible capital asset and is not depreciated.

Fund Financial Statements

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital expenditures of the appropriate governmental fund upon acquisition. Capital assets used in proprietary fund operations are accounted for on the accrual basis, the same as in the government-wide statements.

g. Long-Term Liabilities:

The accounting treatment of long-term liabilities depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

All long-term liabilities to be repaid from governmental and business-type resources are reported as liabilities in the government-wide statements. The long-term liabilities primarily consist of capital acquisition financing leases and compensated absences.

In the fund financial statements, debt proceeds are reported as revenues (other financing sources), while payments of principal and interest are reported as expenditures when they become due. The accounting for proprietary fund long-term debt is on the accrual basis, the same in the fund statements as in the government-wide statements.

h. Program Revenues

In the government-wide Statement of Activities, reported program revenues derive directly from the program itself or from parties other than the School District's taxpayers or citizenry, as a whole. Program revenues are classified into three categories, as follows:

- a. **Charges for services** – These arise from charges to customers, applicants, or others who purchase, use, or directly benefit from the goods, services, or privileges provided, or are otherwise directly affected by the services.
- b. **Program-specific operating grants and contributions** – These arise from mandatory and voluntary non-exchange transactions with other governments, organizations, or individuals that are restricted for use in a particular program.
- c. **Program-specific capital grants and contributions** – These arise from mandatory and voluntary non-exchange transactions with other governments, organizations, or individuals that are restricted for the acquisition of capital assets for use in a particular program.

I. Proprietary Funds Revenue and Expense Classifications:

In the proprietary fund's Statement of Activities, revenues and expenses are classified in a manner consistent with how they are classified in the Statement of Cash Flows. That is, transactions for which related cash flows are reported as capital and related financing activities, noncapital financing activities, or investing activities are not reported as components of operating revenues or expenses.

j. Deferred Inflows and Deferred Outflows of Resources:

In addition to assets, the statement of financial position reports a separate section for deferred outflows of resources. Deferred outflows of resources represent consumption of net position that applies to a future period or periods. These items will not be recognized as an outflow of resources until the applicable future period.

In addition to liabilities, the statement of financial position reports a separate section for deferred inflows of resources. Deferred inflows of resources represent acquisitions of net position that applies to a future period or periods. These items will not be recognized as an inflow of resources until the applicable future period.

k. Cash and Cash Equivalents:

The School District pools its cash resources for depositing and investing purposes. Accordingly, the enterprise fund has access to its cash resources on demand and all reported enterprise fund deposit and investment balances are considered to be cash equivalents for the purpose of the Statement of Cash Flows.

I. Equity Classifications

Government-wide Financial Statements:

Equity is classified as Net Position and is displayed in three components

1. Net Investment in Capital Assets – Consists of capital assets, including restricted capital assets, net of accumulated depreciation (if applicable) and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
2. Restricted Net Position – Consists of net position with constraints placed on their use either by (a) external groups such as creditors, grantors, contributors, or laws and regulations of other governments; or (b) law through constitutional provisions or enabling legislation.
3. Unrestricted Net Position – All other net position that do not meet the definition of "restricted" or "net investment in capital assets."

Fund Financial Statements:

Governmental fund equity is classified as fund balance, and is distinguished between Nonspendable, Restricted, Committed, Assigned, or Unassigned components. Proprietary fund equity is classified the same as in the government-wide financial statements. Fiduciary fund equity (except for Agency Funds, which have no fund equity) is reported as net position held in trust for other purposes.

m. Application of Net Position:

It is the School District's policy to first use restricted net position, prior to the use of unrestricted net position, when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

n. Fund Balance Classification Policies and Procedures:

In accordance with Government Accounting Standards Board (GASB) No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, the School District classifies governmental fund balances as follows:

- Nonspendable – includes fund balance amounts that cannot be spent either because it is not spendable form or because of legal or contractual constraints.
- Restricted – includes fund balance amounts that are constrained for specific purposes which are externally imposed by providers, such as creditors or amounts constrained due to constitutional provisions or enabling legislation.
- Committed – includes fund balance amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the highest level of decision-making authority and does not lapse at year-end.
- Assigned – includes fund balance amounts that are intended to be used for specific purposes that are neither considered restricted or committed. Fund Balance may be assigned by the School Board
- Unassigned – includes positive fund balance within the General Fund which has not been classified within the above-mentioned categories and negative fund balances in other governmental funds.

The School District uses *restricted /committed* amounts first when both restricted and unrestricted fund balance is available unless there are legal documents/contracts that prohibit doing this, such as a grant agreement requiring dollar for dollar spending. Additionally, the District would first use *committed, then assigned, and lastly unassigned amounts* of unrestricted fund balance when expenditures are made.

The School District does not have a formal minimum fund balance policy.

A schedule of fund balances is provided as follows:

**ESTELLINE SCHOOL DISTRICT NO. 28-2
DISCLOSURE OF FUND BALANCES REPORTED ON BALANCE SHEET
GOVERNMENTAL FUNDS
JUNE 30, 2020**

	<u>General Fund</u>	<u>Capital Outlay Fund</u>	<u>Special Education Fund</u>	<u>Total Governmental Funds</u>
Fund Balances:				
<i>Restricted for:</i>				
Capital Outlay	\$	\$673,021.54	\$	\$ 673,021.54
Special Education			3,634.94	3,634.94
<i>Assigned to:</i>				
Unemployment	48,523.80			48,523.80
Unassigned	726,196.52			726,196.52
Total Fund Balances	<u>\$774,720.32</u>	<u>\$673,021.54</u>	<u>\$ 3,634.94</u>	<u>\$1,451,376.80</u>

o. Pensions:

For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense (revenue), information about the fiduciary net position of the South Dakota Retirement System (SDRS) and additions to/deletions from SDRS's fiduciary net position have been determined on the same basis as they are reported by SDRS. School District contributions and net pension liability (asset) are recognized on an accrual basis of accounting.

NOTE 2 – DEPOSITS AND INVESTMENTS CREDIT RISK, CONCENTRATIONS OF CREDIT RISK AND INTEREST RATE RISK

The School District follows the practice of aggregating the cash assets of various funds to maximize cash management efficiency and returns. Various restrictions on deposits and investments are imposed by statutes. These restrictions are summarized below:

Deposits - The School District's deposits are made in qualified public depositories as defined by SDCL 4-6A-1, 13-16-15, 13-16-15.1 and 13-16-18.1. Qualified depositories are required by SDCL 4-6A-3 to maintain at all times, segregated from their other assets, eligible collateral having a value equal to at least 100 percent of the public deposit accounts which exceed deposit insurance such as the FDIC and NCUA. In lieu of pledging eligible securities, a qualified public depository may furnish irrevocable standby letters of credit issued by federal home loan banks accompanied by written evidence of that bank's public debt rating which may not be less than "AA" or a qualified public depository may furnish a corporate surety bond of a corporation authorized to do business in South Dakota.

Investments – In general, SDCL 4-5-6 permits school funds to be invested only in (a) securities of the United States and securities guaranteed by the United States Government either directly or indirectly; or (b) repurchase agreements fully collateralized by securities described in (a) above; or in shares of an open-end, no-load fund administered by an investment company whose investments are in securities described in (a) above and repurchase agreements described in (b) above. Also, SDCL 4-5-9 requires investments to be in the physical custody of the political subdivision or may be deposited in a safekeeping account with any bank or trust company designated by the political subdivision as its fiscal agent.

Credit Risk - State law limits eligible investments for the School District, as discussed above. The School District has an investment policy that would further limit its investment choices.

Interest Rate Risk – The school district does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Concentration of Credit Risk- The school district places no limit on the amount that may be invested in any one issuer.

Assignment of Investment Income - State law allows income from deposits and investments to be credited to either the General Fund or the fund making the investment. The School District's policy is to credit all income from investments to the General Fund except for the Debt Service Fund which retains its earnings. USGAAP, on the other hand, requires income from deposits and investments to be reported in the fund whose assets generated that income. Investment earnings were not material to the individual funds.

NOTE 3 – RECEIVABLES AND PAYABLES

Receivables and payables are not aggregated in these financial statements. The School District expects all receivables to be collected within one year.

NOTE 4–INVENTORY

Inventory for resale is stated at the lower of cost or market. The cost valuation method is the first in, first out method. Donated commodities are valued at estimated market value based on the USDA price list at date of receipt.

In the government-wide and proprietary fund financial statements, inventory items are initially recorded as assets and charged to expense in the various functions of government as they are consumed.

In the governmental fund financial statements, inventories consist of expendable supplies held for consumption. The cost is recorded as an expenditure at the time individual inventory items are consumed. No material inventories were on hand as of June 30, 2020 in the governmental funds.

NOTE 5-PROPERTY TAXES

Property taxes are levied on or before each October 1, attach as an enforceable lien on property as of the following January 1, and are payable in two installments on or before the following April 30 and October 31. The county bills and collects the School District's taxes and remits them to the School District.

School District property tax revenues are recognized to the extent that they are used to finance each year's appropriations. Revenue related to current year property taxes receivable which is not intended to be used to finance the current year's appropriations and therefore are not susceptible to accrual has been reported as deferred revenue in both the fund financial statements and the government-wide financial statements. Additionally, in the fund financial statements, revenue from property taxes may be limited by any amount not collected during the current fiscal period or within the "availability period."

NOTE 6 - CHANGES IN CAPITAL ASSETS

A summary of changes in capital assets for the year ended June 30, 2020 is as follows:

Primary Government:

	Balance 06/30/19	Increases	Decreases	Balance 06/30/20
Capital Assets, not depreciated:				
Land	\$ 42,998.47	\$	\$	\$ 42,998.47
Construction Work In Process		24,251.00		24,251.00
Totals	<u>42,998.47</u>	<u>24,251.00</u>		<u>67,249.47</u>
Capital Assets, being depreciated:				
Buildings	4,144,734.79			4,144,734.79

Library Books	131,244.20	7,186.27		138,430.47
Machinery and Equipment	867,319.09	61,322.69		928,641.78
Totals	<u>3,756,441.78</u>	<u>212,734.30</u>		<u>3,969,176.08</u>
Capital Assets being depreciated, net	<u>2,999,830.59</u>	<u>10,774.27</u>		<u>3,010,604.86</u>
Governmental Activities				
Capital Assets, Net	<u>\$ 3,042,829.06</u>	<u>\$ 35,025.27</u>	<u>\$</u>	<u>\$ 3,077,854.33</u>

Depreciation expense was charged to the functions as follows:

Instruction	\$ 95,730.44
Support Service	95,730.44
Co-curricular	21,273.42
Total Depreciation expense-governmental activities	<u>\$ 212,734.30</u>

	Balance 06/30/19	Increases	Decreases	Balance 06/30/20
Business-Type Activity				
Capital Assets being Depreciated				
Machinery & Equipment	\$ 76,241.51	\$ 15,748.50	\$	\$ 91,990.01
Less Accumulated Depreciation				
Machinery & Equipment	62,121.12	2,902.09		65,023.21
Total Business-type Activity	<u>\$ 14,120.39</u>	<u>18,650.59</u>	<u>\$</u>	<u>\$ 26,966.80</u>

Depreciation expense was charged to functions as follows:

Business-type activity	
Food Service	<u>\$ 2,902.09</u>

Construction Work in Process at June 30, 2020 is composed of the following:

<i>Project Name</i>	Project	Expended	Committed	Required Future
	Authorization	Thru 6/30/2020		Financing
Air Conditioning Replacement	\$ 73,838.00	\$ 24,251.00	\$ 49,587.00	\$
Total Primary Government	\$ 73,838.00	\$ 24,251.00	\$ 49,587.00	\$

NOTE 7 – LONG-TERM LIABILITIES

A summary of the changes in long-term liabilities for the year ended June 30, 2020 is as follows:

<i>Primary Government</i>	Beginning Balance	Additions	Deletions	Ending Balance	Due Within One Year
Governmental Activities:					
Financing (Capital Acquisition) Lease	\$ 8,629.20	\$	\$ 4,314.60	\$ 4,314.60	\$ 4,314.60
Early Retirement	36,816.30		7,750.80	29,065.50	7,750.80
Accrued Compensated Absences	26,965.72	13,833.03	13,626.81	27,171.94	13,585.97
Total Primary Government	\$ 72,411.22	\$ 13,833.03	\$ 25,692.21	\$ 60,552.04	\$ 25,651.37

Compensated absences for governmental activities typically have been liquidated from the General Fund.

The annual debt service requirements to maturity, except for compensated absences and early retirement, for all debt outstanding as of June 30, 2020, are as follows:

Year Ending June 30	Financing (Capital Acquisition) Leases	
	Principal	Interest
	2021	\$ 4,314.60
Totals	\$ 4,314.60	\$

Liabilities payable at June 30, 2020 are comprised of the following:

Early Retirement Payments:

Represents Obligations to employees who have chosen to take advantage of the district's early retirement plan. Payable from General Fund. \$ 29,065.50

Compensated Absences:

Payment for Accrued Sick and Personal Leave
Payments to be made by the fund with the related charges for payroll expenses. 27,171.94

Financing (Capital Acquisition) Leases:

Capital lease financing for the purchase of copiers, due in 60 monthly installments of \$780.45, including interest at 0%. Final payment due August 2021. Payable from Capital Outlay Fund. 4,314.60

The purchase price at the commencement of the financing (capital acquisition) lease was:

	<u>Copier Lease</u>
Principal Interest	\$21,573.00
Total	<u>\$21,573.00</u>

NOTE 8-RESTRICTED NET POSITION

Restricted net position for the fiscal year ended June 30, 2020 was as follows:

<u>Major Pur poses</u>	<u>RestrictedBy</u>	<u>Amount</u>
Capital Outlay Purposes	Law	\$ 672,675.22
Special Education Purpose:	Law	9,296.22
SDRS Pension Purposes	Law	<u>261,637.07</u>
Total Restricted Net Position		<u>\$ 943,608.51</u>

NOTE 9-INTERFUND TRANSFERS

Interfund transfers for the year ended June 30, 2020 were as follows:

<u>Transfer From:</u>	<u>Transfer To :</u>		<u>Totals</u>
	<u>Governmental</u>	<u>Business Type</u>	
<u>Governmental</u>			
<u>Activities</u>	<u>General Fund</u>	<u>Food Service</u>	
Capital Outlay	\$ 132,473.00	\$	\$ 132,473.00
General Fund		10,000.00	10,000.00
Bond Redemption	887.98		887.98
Pension Fund	<u>78,104.34</u>		<u>78,104.34</u>
Totals	<u>\$ 211,465.32</u>	<u>\$ 10,000.00</u>	<u>\$ 221,465.32</u>

The Pension Fund transferred \$78,104.34 to close out the Pension Fund per SDCL. The Bond Redemption Fund transferred \$887.98 to close out the Bond Redemption fund.

The Capital Outlay Fund transferred monies to the General Fund to pay expenses per SDCL. The General Fund transferred monies to the Food Service Fund for cash shortages.

NOTE 10 – PENSION PLAN

Plan Information:

All employees, working more than 20 hours per week during the school year, participate in the South Dakota Retirement System (SDRS), a cost sharing, multiple employer defined benefit pension plan administered by SDRS to provide retirement benefits for employees of the State of South Dakota and its political subdivisions. The SDRS provides retirement, disability, and survivors' benefits. The right to receive retirement benefits vests after three years of credited service. Authority for establishing, administering and amending plan provisions are found in SDCL 3-12. The SDRS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained at

<http://www.sdrs.sd.gov/publications/> or by writing to the SDRS, P.O. Box 1098, Pierre, SD 57501-1098 or by calling (605) 773-3731.

Benefits Provided:

SDRS has three different classes of employees, Class A general members, Class B public safety and judicial members, and Class C Cement Plant Retirement Fund members.

Members that were hired before July 1, 2017, are Foundation members. Class A Foundation members and Class B Foundation members who retire after age 65 with three years of contributory service are entitled to an unreduced annual retirement benefit. An unreduced annual retirement benefit is also available after age 55 for Class A Foundation members where the sum of age and credited service is equal to or greater than 85 or after age 55 for Class B Foundation judicial members where the sum of age and credited service is equal to or greater than 80. Class B Foundation public safety members can retire with an unreduced annual retirement benefit after age 55 with three years of contributory service. An unreduced annual retirement benefit is also available after age 45 for Class B Foundation public safety members where the sum of age and credited service is equal to or greater than 75. All Foundation retirements that do not meet the above criteria may be payable at a reduced level.

Members that were hired on/after July 1, 2017, are Generational members. Class A Generational members and Class B Generational judicial members who retire after age 67 with three years of contributory service are entitled to an unreduced annual retirement benefit. Class B Generational public safety members can retire with an unreduced annual retirement benefit after age 57 with three years of contributory service. At retirement, married Generational members may elect a single-life benefit, a 60 percent joint and survivor benefit, or a 100 percent joint and survivor benefit. All Generational retirement benefits that do not meet the above criteria may be payable at a reduced level. Generational members will also have a variable retirement account (VRA) established, in which they will receive up to 1.5 percent of compensation funded by part of the employer contribution. VRAs will receive investment earnings based on investment returns.

Legislation enacted in 2017 established the current COLA process. At each valuation date:

- Baseline actuarial accrued liabilities will be calculated assuming the COLA is equal to long-term inflation assumption of 2.25%.
- If the fair value of assets is greater or equal to the baseline actuarial accrued liabilities, the COLA will be:
 - The increase in the 3rd quarter CPI-W, no less than 0.5% and no greater than 3.5%.
- If the fair value of assets is less than the baseline actuarial accrued liabilities, the COLA will be:
 - The increase in the 3rd quarter CPI-W, no less than 0.5% and no greater than a restricted maximum such that, that if the restricted maximum is assumed for future COLAs, the fair value of assets will be greater or equal to the accrued liabilities.

All benefits except those depending on the Member's Accumulated Contributions are annually increased by the Cost-of-Living Adjustment.

Contributions:

Per SDCL 3-12, contribution requirements of the active employees and the participating employers are established and may be amended by the SDRS Board. Covered employees are required by state statute to contribute the following percentages of their salary to the plan; Class A Members, 6.0% of salary; Class B Judicial Members, 9.0% of salary; and Class B Public Safety Members, 8.0% of salary. State statute also requires the employer to contribute an amount equal to the employee's contribution. State statute also requires the employer to make an additional contribution in the amount of 6.2 percent for any compensation exceeding the maximum taxable amount for social security for general employees only. The School District's share of contributions

to the SDRS for the fiscal years ended June 30, 2020, 2019, and 2018 were \$106,402.69, \$96,601.91, and \$100,244.48, respectively, equal to the required contributions each year.

Pension Liabilities(Assets), Pension Expense (Revenue), and Deferred Outflows of Resources and Deferred Inflows of Resources to Pensions:

At June 30, 2019, SDRS is 100.09% funded and accordingly has a net pension asset. The proportionate shares of the components of the net pension asset of South Dakota Retirement System, for the School District as of June 30, 2020 are as follows:

Proportionate share of pension benefits	\$ 9,436,778.44
Less proportionate share of net pension restricted for pension benefits	<u>9,444,803.02</u>
Proportionate share of net pension asset	<u>\$ (8,024.58)</u>

At June 30, 2020, the School District reported a liability (asset) of \$(8,024.58) for its proportionate share of the net pension liability (asset). The net pension liability (asset) was measured as of June 30, 2019 and the total pension liability (asset) used to calculate the net pension liability (asset) was based on a projection of the School's share of contributions to the pension plan relative to the contributions of all participating entities. At June 30, 2019, the School District's proportion was 0.07572320%, which is an increase (decrease) of -0.0046428% from its proportion measured as of June 30, 2018.

For the year ended June 30, 2020, the School District recognized pension expense (reduction of expense) of \$212,698.30. At June 30, 2020, the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	<u>Deferred Outflows of Resources</u>	<u>Deferred Inflows of Resources</u>
Difference between expected and actual experience	\$ 31,477.32	\$ 3,632.07
Changes in assumption	277,148.26	113,617.36
Net difference between projected and actual earnings on pension plan investments		46,228.18
Changes in proportion and difference between District contributions and proportionate share of contributions	18,213.41	16,151.58
District contributions subsequent to the measurement date	<u>106,402.69</u>	
TOTAL	<u>\$ 433,241.68</u>	<u>\$ 179,629.19</u>

\$106,402.69 reported as deferred outflow of resources related to pensions resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability (asset) in the year ending June 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense (revenue) as follows:

Year Ended June 30:	
2021	\$ 175,445.75
2022	(27,190.32)
2023	(18,500.31)
2024	<u>15,392.86</u>
TOTAL	<u>\$ 145,147.98</u>

Actuarial Assumptions:

The total pension liability (asset) in the June 30, 2019 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.25 percent
Salary Increases	Graded by years of service, from 6.50% at entry to 3.00% after 25 years of service
Investment Rate of Return	6.50% net of plan investment expense
Future COLAs	1.88%

Mortality rates were based on 97% of the RP-2014 Mortality Table, projected generationally with Scale MP-2016, white collar rates for females and total dataset rates for males. Mortality rates for disabled members were based on the RP-014 Disabled Retiree Mortality Table, projected generationally with Scale MP-2016.

The actuarial assumptions used in the June 30, 2019 valuation were based on the results of an actuarial experience study for the period of July 1, 2011 to June 30, 2016.

Investment portfolio management is the statutory responsibility of the South Dakota Investment Council (SDIC), which may utilize the services of external money managers for management of a portion of the portfolio. SDIC is governed by the Prudent Man Rule (i.e., the council should use the same degree of care as a prudent man). Current SDIC investment policies dictate limits on the percentage of assets invested in various types of vehicles (equities, fixed income securities, real estate, cash, private equity, etc.). The long-term expected rate of return on pension plan investments was determined using a method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2017 (see the discussion of the pension plan's investment policy) are summarized in the following table using geometric means:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Global Equity	58.0%	4.7%
Fixed Income	30.0%	1.7%
Real Estate	10.0%	4.3%
Cash	2.0%	0.9%
Total	<u>100.0%</u>	

Discount Rate:

The discount rate used to measure the total pension liability (asset) was 6.5%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that matching employer contributions from will be made at rates equal to the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability (asset).

Sensitivity of liability (asset) to changes in the discount rate:

The following presents the School District's proportionate share of net pension liability (asset) calculated using the discount rate of 6.5%, as well as what the School's proportionate share of the

net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage point lower (5.50%) or 1-percentage point higher (7.50%) than the current rate:

	<u>1%</u> <u>Decrease</u>	<u>Current</u> <u>Discount</u> <u>Rate</u>	<u>1%</u> <u>Increase</u>
School District's proportionate share of the net pension liability (asset)	\$ 1,331,924.16	\$ (8,024.58)	\$ (1,099,840.69)

Pension Plan Fiduciary Net Position:

Detailed information about the plan's fiduciary net position is available in the separately issued SDRS financial report.

NOTE 11 - JOINT VENTURES

NORTHEAST EDUCATIONAL SERVICES COOPERATIVE

The school district participates in the Northeast Educational Services Cooperative, a cooperative service unit (co-op) formed for the purpose of providing appropriate educational support services for all children and to offer, on a cooperative fee assessment basis, services that the districts would not be able to provide as effectively or as economically acting alone, to the member school districts.

The members of the co-op and their relative percentage participation in the co-op as of June 30, 2020 are as follows:

<u>School District</u>	<u>Percent</u>	<u>School District</u>	<u>Percent</u>
Arlington	3.45%	Hamlin	10.94%
Britton-Hecla	5.84%	Henry	2.32%
Castlewood	3.99%	Iroquois	2.89%
Clark	5.09%	Lake Preston	2.26%
De Smet	3.99%	Rosholt	3.43%
Deubrook	5.11%	Sioux Valley	9.00%
Deuel	6.55%	Summit	2.15%
Elkton	5.07%	Waubay	2.27%
Enemy Swim	2.18%	Waverly	3.14%
Estelline	3.54%	Webster	7.01%
Florence	3.47%	Willow Lake	3.31%
		Wilmot	3.00%

The co-op's governing board is composed of one school board member representative from each member school district. The board is responsible for adopting the co-op's budget and setting service fees at a level adequate to fund the adopted budget. The school district retains no equity in the net position of the co-op, but does have a responsibility to fund deficits of the co-op in proportion to the relative participation described above. Separate financial statements for the joint venture are available from the Northeast Educational Services Cooperative.

At June 30, 2020, this joint venture had total assets of \$2,087,352.87, total liabilities of \$501,645.51, and total net position of \$1,585,707.36.

NOTE 12-RISK MANAGEMENT

The school district is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During the period ended June 30, 2020, the school district managed its risks as follows:

Employee Health Insurance

The school district joined the South Dakota School District Health Benefits Fund. This is a public entity risk pool operating as a common risk management and insurance program for South Dakota local government entities through the Associated School Boards of South Dakota. The school district pays a monthly premium to the pool to provide health insurance coverage for its employees. The pool purchases reinsurance coverage with the premiums it receives from the members.

The coverage includes the option of four different plans with a deductible from \$1,000 to \$3,000.

The school district does not carry additional health insurance coverage to pay claims in excess of this upper limit. Settled claims resulting from these risks have not exceeded the liability coverage during the past three years.

Liability Insurance

The school district purchases liability insurance for risks related to torts, theft or damage to property, and errors and omissions of public officials from a commercial insurance carrier. Settled claims resulting from these risks have not exceeded the liability coverage during the past three years.

Worker's Compensation

The school district purchases liability insurance for worker's compensation from a commercial carrier. Settled claims resulting from these risks have not exceeded the liability coverage over the past three years.

Unemployment Benefits

The school district has elected to be self-insured and retain all risk for liabilities resulting from claims for unemployment benefits.

The school district has assigned equity in the General Fund in the amount of \$48,523.80 for the payment of future unemployment benefits.

During the year ended June 30, 2020, no claims for unemployment benefits were paid. At June 30, 2020, no claims had been filed for unemployment benefits and none are anticipated in the next fiscal year.

NOTE 13-EARLY RETIREMENT PLAN

The district maintains an early retirement plan for certified teachers and administrators. The plan is available to employees who choose early retirement after the age of 55 and have at least fifteen years of continuous service with the district. Under the plan, the district will pay \$300 per years of employment until they turn 62 years of age. Such amounts are payable each year until employee turns 62 years of age. The district uses the expected future benefit payment amounts as the method for disclosure. During fiscal year 2020, 3 employees participated in the early retirement plan. The amount paid for such benefits during the year was \$7,750.80.

NOTE 14 – SIGNIFICANT CONTINGENCIES- LITIGATION

At June 30, 2020, the School District was not involved in any litigation.

NOTE 15 – EXTRAORDINARY ITEM

The School District recorded revenue of \$18,915.50 for an insurance claim for hail damage to air conditioning units that was incurred during this fiscal year.

NOTE 16 – SUBSEQUENT EVENT

On January 30, 2020, the World Health Organization (WHO) announced a global health emergency because of a new strain of coronavirus originating in Wuhan, China (the COVID-19 outbreak) and the risks to the international community as the virus spreads globally beyond its point of origin. In March, 2020, the WHO classified the COVID-19 outbreak as a pandemic, based on the rapid increase in exposure globally.

The full impact of the COVID-19 outbreak continues to evolve as of the date of this report. As such, it is uncertain as to the full magnitude that the pandemic will have on the school's financial condition and liquidity. Given the daily evolution of the COVID-19 outbreak and the global responses to curb its spread, the school is not able to estimate the effects of the COVID-19 outbreak on its financial condition or liquidity for fiscal year 2021 and future years.

ESTELLINE SCHOOL DISTRICT NO. 28-2
NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION
Schedules of Budgetary Comparisons for the General Fund
and for each major Special Revenue Fund with a legally required budget

NOTE 1 – BUDGET AND BUDGETARY ACCOUNTING

The School District followed these procedures in establishing the budgetary data reflected in the financial statements:

1. Prior to the first regular board meeting in May of each year the board causes to be prepared a proposed budget for the next fiscal year according to the budgetary standards prescribed by the Auditor General.
2. The proposed budget is considered by the board at the first regular meeting held in the month of May of each year.
3. The proposed budget is published for public review no later than July 15 each year.
4. Public hearings are held to solicit taxpayer input prior to the approval of the budget.
5. Before October 1 of each year, the board must approve the budget for the ensuing fiscal year for each fund, except fiduciary funds.
6. After adoption by the board, the operating budget is legally binding and actual expenditures of each fund cannot exceed the amounts budgeted, except as indicated in number 8.
7. A line item for contingencies may be included in the annual budget. Such a line item may not exceed 5 percent of the total school district budget and may be transferred by resolution of the board to any other budget category, except for capital outlay, that is deemed insufficient during the year.
8. If it is determined, during the year, that sufficient amounts have not been budgeted, state statute allows the adoption of supplemental budgets when moneys are available to increase legal spending authority.
9. Unexpended appropriations lapse at year-end unless encumbered by resolution of the board.
10. Formal budgetary integration is employed as a management control device during the year for the General Fund and each major Special Revenue fund.
11. Budgets for the General Fund and each major Special Revenue fund are adopted on a basis consistent with generally accepted accounting principles (GAAP).

NOTE 2- GAAP/BUDGETARY ACCOUNTING BASIS DIFFERENCES

The financial statements prepared in conformity with USGAAP present capital outlay expenditure information in a separate category of expenditures. Under the budgetary basis of accounting, capital outlay expenditures are reported within the function to which they relate. For example, the purchase of a new school bus would be reported as a capital outlay expenditure on the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances, however in the Budgetary RSI Schedule, the purchase of a school bus would be reported as an expenditure of the Support Services- Business/Pupil Transportation function of government, along with all other current Pupil Transportation related expenditures.

CHANGES OF BENEFIT TERMS

No significant changes

CHANGES OF ASSUMPTIONS

Legislation enacted in 2017 modified the SDRS COLA. For COLAs first applicable in 2018, the SDRS COLA will equal the percentage increase in the most recent third calendar quarter CPI-W over the prior year, no less than 0.5% and no greater than 3.5%. However, if the FVFR assuming the long-term COLA is equal to the baseline COLA assumption (currently 2.25%) is less than 100%, the maximum COLA payable will be limited to the increase that if assumed on a long-term basis, results in a FVFR equal to or exceeding 100%. That condition existed as of June 30, 2018 and exists again this year as of June 30, 2019. Future COLAs are assumed to equal the current restricted maximum COLA which was 2.03% as of June 30, 2018 and is 1.88% as of June 30, 2019.

The changes in actuarial assumptions decreased the Actuarial Accrued Liability by 1.5% of the Actuarial Accrued Liability based on the 2.03% COLA, reflecting the current and assumed future restricted maximum COLA of 1.88%.

Actuarial assumptions are reviewed in depth periodically, with the next experience analysis anticipated before the June 30, 2022 Actuarial Valuation and any recommended changes anticipated to be first implemented in the June 30, 2022 Actuarial Valuation.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

School Board
Estelline School District No. 28-2
Hamlin County, South Dakota

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Estelline School District No. 28-2, Hamlin County, South Dakota (School District), as of June 30, 2020 for the year then ended, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements and have issued our report thereon dated January 14, 2021.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the School District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the School District's financial statements will not be prevented or detected and corrected on a timely basis. A significant deficiency is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, and contracts, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance that are required to be reported under Government Auditing Standards.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. As required by South Dakota Codified Law 4-11-11, this report is a matter of public record and its distribution is not limited.
