If a person enrolling a student fails to provide a certified copy of the

student's birth certificate, the Superintendent or designee shall immediately notify the local law enforcement agency, and shall also notify the person enrolling the student in writing that, unless he or she complies within 10 days, the case will be referred to the local law enforcement authority for investigation. The school establishes fees and charges to fund certain school activities. Some students may be unable to pay these fees. Students will not be denied educational services or academic credit due to the inability of their parent or guardian to pay fees or certain charges. Students whose parent or guardian is unable to afford student fees may receive a fee waiver. A fee waiver does not exempt a student from charges for lost and damaged books, locks, materials, supplies, and/or equipment. Applications for fee waivers are available in the school office and may be submitted by a parent or guardian of a student who has been assessed a fee. A student is eligible for a fee waiver if at least one of the following prerequisites is met:

- An illness in the family;
- Unusual expenses such as fire, flood, storm damage, etc.;
- Unemployment;
- Emergency situations; or
- When one or more of the parents/guardians are involved in a work stoppage.

The building principal will notify the parent/guardian promptly as to whether the fee waiver request has been granted or denied. Questions regarding the fee waiver application process should be addressed to the building principal. Pursuant to the Hunger-Free Student's Bill of Rights Act, the school is required to provide a federally reimbursable meal or snack to a student who requests one, regardless of whether the student has the ability to pay for the meal or snack or owes money for earlier meals or snacks. Students may not be provided with an alternative meal or snack and the school is prohibited from publicly identifying or stigmatizing a student who cannot pay for or owes money for a meal or snack.

Student Records

The Illinois School Student Records Act and the Family Educational Rights and Privacy Act provide guidelines for the release of student record information. The guidelines are available in each school office.

1. The student's permanent record consists of basic identifying information, academic transcript, attendance record, accident reports, and health information. The permanent record shall be kept for 60 years after graduation or permanent withdrawal. The school is the custodian of all permanent records.
2. The student's temporary record consists of all information not required to be in the student permanent record including family background information, test scores, teacher anecdotal records, and release information. The temporary record will be reviewed every four years for destruction of out of date information and will be destroyed entirely within five (5) years after graduation or permanent withdrawal.

This is official notification that after a period of five (5) years from the students leaving Mount Pulaski schools, his/her temporary records will be destroyed. Permanent records will be maintained for 60 years.

Notification of Rights Under the Family Educational Rights & Privacy Act

The Family Educational Rights and Privacy Act (FERPA) and the Illinois Student Records Act afford parents/guardians and students over 18 years of age ("eligible students") certain rights with respect to the student's school records. They are:

1. The right to inspect and copy the student's education records within 10 business days of the day the District receives a request for access.
The degree of access a student has to his or her records depends on the student's age.

Students less than 18 years of age have the right to inspect and copy only their permanent record. Students 18 years of age or older have access and copy rights to both permanent and temporary records. A parent/guardian or student should submit to the building principal a written request that identifies the record(s) he or she wishes to inspect. Within 10 business days, the building principal will make arrangements for access and notify the parent/guardian or student of the time and place where the records may be inspected. In certain circumstances, the District may request an additional 5 business days in which to grant access. The District charges \$.35 per page for copying but no one will be denied their right to copies of their records for inability to pay this cost. These rights are denied to any person against whom an order of protection has been entered concerning the student.

2. The right to have one or more scores received on college entrance examinations included on the student's academic transcript. Parents/guardians or eligible students will have one (or more) score(s) on college entrance examinations included on the student's academic transcript. To opt out of this, contact the high school counselor. The District will include scores on college entrance examinations upon the written request of the parent/guardian or eligible student stating the name of each college entrance examination that is the subject of the request and the dates of the scores that are to be included.
3. The right to request the amendment of the student's education records that the parent/guardian or eligible student believes are inaccurate, irrelevant, or improper. A parent/guardian or eligible student may ask the District to amend a record that is believed to be inaccurate, irrelevant, or improper. Requests should be sent to the building principal and should clearly identify the record the parent/guardian or eligible student wants changed and the specific reason a change is being sought. If the District decides not to amend the record, the District will notify the parent/guardian or eligible student of the decision and advise him or her of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent/guardian or eligible student when notified of the right to a hearing.
4. The right to permit disclosure of personally identifiable information contained in the student's education records, except to the extent that the FERPA or Illinois School Student Records Act authorizes disclosure without consent.

Disclosure without consent is permitted to school officials with legitimate educational or administrative interests. A school official is a person employed by the District as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the School Board. A school official may also include a volunteer, contractor, or consultant who, while not employed by the school, performs an institutional service or function for which the school would otherwise use its own employees and who is under the direct control of the school with respect to the use and maintenance of personally identifiable

information from education records (such as an attorney, auditor, medical consultant, therapist, or educational technology vendor); or any parent/guardian or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility or contractual obligation with the district.

Upon request, the District discloses education records without consent to officials of another school district in which a student has enrolled or intends to enroll, as well as to any person as specifically required by State or federal law. Before information is released to these individuals, the parents/guardians or eligible student will receive prior written notice of the nature and substance of the information, and an opportunity to inspect, copy, and challenge such records.

Academic grades and references to expulsions or out-of-school suspensions cannot be challenged at the time a student's records are being forwarded to another school to which the student is transferring.

Disclosure is also permitted without consent to: any person for research, statistical reporting or planning, provided that no student or parent/guardian can be identified; to another school district that overlaps attendance boundaries with the District, if the District has entered into an intergovernmental agreement that allows for sharing of student records and information with the other district, any person named in a court order; appropriate persons if the knowledge of such information is necessary to protect the health or safety of the student or other persons; and juvenile authorities when necessary for the discharge of their official duties who request information before adjudication of the student.

5. The right to a copy of any school student record proposed to be destroyed or deleted. The permanent record is maintained for at least 60 years after the student transfers, graduates, or permanently withdraws. The temporary record is maintained for at least 5 years after the student transfers, graduates, or permanently withdraws. Temporary records that may be of assistance to a student with a disability who graduates or permanently withdraws, may, after 5 years, be transferred to the parent/guardian or to the student, if the student has succeeded to the rights of the parent/guardian. Student temporary records are reviewed every 4 years or upon a student's change in attendance centers, whichever occurs first.
6. The right to prohibit the release of directory information. Throughout the school year, the District may release directory information regarding students, limited to:
 - Name
 - Address
 - Grade level
 - Birth date and place

- Parent/guardian names, addresses, electronic mail addresses, and telephone numbers
 - Photographs, videos, or digital images used for informational or news-related purposes (whether by a media outlet or by the school) of a student participating in school or school-sponsored activities, organizations, and athletics that have appeared in school publications, such as yearbooks, newspapers, or sporting or fine arts programs
 - Academic awards, degrees, and honors
 - Information in relation to school-sponsored activities, organizations, and athletics
 - Major field of study
 - Period of attendance in school
 - Any parent/guardian or eligible student may prohibit the release of any or all of the above information by delivering a written objection to the building principal within 30 days of the date of this notice.
7. The right to request that military recruiters or institutions of higher learning not be granted access to your student's information without your prior written consent. Federal law requires a secondary school to grant military recruiters and institutions of higher learning, upon their request, access to secondary school students' names, addresses, and telephone numbers, unless the student's parent/guardian, or student who is 18 years of age or older, submits a written request that the information not be released without the prior written consent of the parent/guardian or eligible student. If you wish to exercise this option, notify the building principal.
 8. The right contained in this statement: No person may condition the granting or withholding of any right, privilege or benefits or make as a condition of employment, credit, or insurance the securing by any individual of any information from a student's temporary record which such individual may obtain through the exercise of any right secured under State law.
 9. The right to file a complaint with the U.S. Department of Education concerning alleged failures by the District to comply with the requirements of FERPA.

The name and address of the Office that administers FERPA is:

Annual Notice to Parents about Educational Technology

School districts throughout the State of Illinois contract with different educational technology vendors for beneficial K-12 purposes such as providing personalized learning and innovative educational technologies, and increasing efficiency in school operations. Under Illinois' Student Online Personal Protection Act, or SOPPA (105 ILCS 85/), educational technology vendors and other entities that operate Internet websites, online services, online applications, or mobile applications that are designed, marketed, and primarily used for K-12 school purposes are referred to in SOPPA as *operators*. SOPPA is intended to ensure that student data collected by operators is protected, and it requires those vendors, as well as school districts and the Illinois State Board of Education, to take a number of actions to protect online student data.

Depending upon the particular educational technology being used, Mount Pulaski CUSD #23 may need to collect different types of student data, which is then shared with educational technology vendors through their online sites, services, and/or applications. Under SOPPA, educational technology vendors are prohibited from selling or renting a student's information or from engaging in targeted advertising using a student's information. Such vendors may only disclose student data for K-12 school purposes and other limited purposes permitted under the law.

In general terms, the types of student data that may be collected and shared include personally identifiable information (PII) about students or information that can be linked to PII about students, such as:

- Basic identifying information, including student or parent/guardian name and student or parent/guardian contact information, username/password, student ID number
- Demographic information
- Enrollment information
- Assessment data, grades, and transcripts
- Attendance and class schedule
- Academic/extracurricular activities
- Special indicators (e.g., disability information, English language learner, free/reduced meals or homeless/foster care status)
- Conduct/behavioral data
- Health information
- Food purchases
- Transportation information
- In-application performance data
- Student-generated work
- Online communications
- Application metadata and application use statistics
- Permanent and temporary school student record information

Operators may collect and use student data only for K-12 purposes, which are purposes that aid in the administration of school activities, such as:

- Instruction in the classroom or at home (including remote learning)
- Administrative activities
- Collaboration between students, school personnel, and/or parents/guardians
- Other activities that are for the use and benefit of the school district.

Search & Seizures

To maintain order and security in the schools, school authorities are authorized to conduct reasonable searches of school property and equipment, as well as of students and their personal effects. "School authorities" includes school liaison and/or police officers.

School Property and Equipment As Well As Personal Effects Left There By Students

School authorities may inspect and search school property and equipment owned or controlled by the school (such as lockers, desks, and parking lots), as well as personal effects left there by a student, without notice to or the consent of the student. Students have no reasonable expectation of privacy in these places or areas or in their personal effects left there.

The Superintendent may request the assistance of law enforcement officials to conduct inspections and searches. This may include, but not be limited to lockers, desks, parking lots, and other school property and equipment for illegal drugs, weapons, or other illegal or dangerous substances or materials. These searches conducted may include the use of specially trained dogs.

Students Searches

School authorities may search a student and/or the student's personal effects in the student's possession (such as purses, wallets, book bags, lunch boxes, etc.) when there is reasonable ground for suspecting that the search will produce evidence that the particular student has violated or is violating either the law or the District's student conduct rules. The search itself must be conducted in a manner, which is reasonably related to its objectives and not excessively intrusive in light of the age and sex of the student and the nature of the infraction. Strip searches are prohibited by school personnel.

When feasible, the search should be conducted as follows:

- outside the view of others, including students;
- in the presence of a school administrator or adult witness; and
- by a certificated employee or liaison police officer of the same sex as the student.

A written report must be kept on file whenever students are personally searched.

School officials may require a student to cooperate in an investigation if there is specific information about activity on the student's account on a social networking website that violates

the school's disciplinary rules or school district policy. In the course of the investigation, the student may be required to share the content that is reported in order for the school to make a factual determination. School officials may not request or require a student or his or her parent/guardian to provide a password or other related account information to gain access to the student's account or profile on a social networking website.

Seizure of Property

If a search produces evidence that the student has violated or is violating the law or the District's policies or rules, such evidence may be seized and impounded by school authorities and disciplinary action may be taken. When appropriate, such evidence may be transferred to law enforcement authorities.

Video & Audio Monitoring Systems

A video and/or audio monitoring system may be in use on school buses and a video monitoring system may be in use in public areas of the school building. These systems have been put in place to protect students, staff, visitors and school property. If a discipline problem is captured on audiotape or videotape, these recordings may be used as the basis for imposing student discipline. If criminal actions are recorded, a copy of the tape may be provided to law enforcement personnel.

Questioning of Students Suspected of Committing Criminal Activity

Before a law enforcement officer, school resource officer, or other school security person detains and questions on school grounds a student under 18 years of age who is suspected of committing a criminal act, the building principal or designee will: (a) Notify or attempt to notify the student's parent/guardian and document the time and manner in writing; (b) Make reasonable efforts to ensure the student's parent/guardian is present during questioning or, if they are not present, ensure that a school employee (including, but not limited to, a social worker, psychologist, nurse, guidance counselor, or any other mental health professional) is present during the questioning; and (c) If practicable, make reasonable efforts to ensure that a law enforcement officer trained in promoting safe interactions and communications with youth is present during the questioning.

Police or DCFS Requests to Interview Students

The administration at Mount Pulaski CUSD #23 feels it is imperative that we cooperate with local police authorities and representatives from the Department of Children and Family Services (DCFS). There have been occasions when police officers or DCFS workers have asked to question students during the school day. It is important for parents and students to understand that the school administration does not have the right to prevent or delay DCFS workers from questioning students. If given authorization by the DCFS workers, the principal or other school personnel will attempt to contact the parents of the student prior to any discussions with the police. If contact is made, parents have three options, and these options are available strictly at the discretion of the police. Parents may: simply approve the police request with no

restrictions, ask the principal or other school authority to sit in with the student during the interview, or request that the police officer delay the interview until later in the day when either or both parents can be present. If the parents cannot be contacted, DCFS workers will have the right to question a student. With DCFS approval, however, the principal or other school personnel will be present with the student during the interview. In all cases when the police are questioning students, the building principal or his designee must be present.

English Learners

The school offers opportunities for resident English Learners to achieve at high levels in academic subjects and to meet the same challenging State standards that all children are expected to meet.

Parents/Guardians of English Learners will be informed how they can: (1) be involved in the education of their children, and (2) be active participants in assisting their children to attain English proficiency, achieve at high levels within a well-rounded education, and meet the challenging State academic standards expected of all students. For questions related to this program or to express input in the school's English Learners program, contact the building principal.

The Steven's Amendment

The Steven's amendment requires that when an LEA (Local Educational Agency) is issuing statements, press releases, requests for proposals, bid solicitations and other documents describing projects or programs supported in whole or in part with federal funds, all grantees receiving federal funds shall clearly state the percentage of the total costs of the program or project which will be financed with federal funds, the dollar amount of federal funds for the project or program, and percentage and dollar amount of the total costs of the project or program that will be financed by non-governmental sources.

Student Handbook

The Superintendent and Principal, with input from the student handbook committee, shall prepare disciplinary rules implementing the District's disciplinary policies. These disciplinary rules shall go to the Board for its review and approval. Parents and students must sign a notice that they have received the handbook and agree to abide by all rules.

Food & Drink

Without prior permission from the building principal or classroom teacher, no outside beverages or food (with the exception of lunches brought from home) will be allowed on school property. Soda, energy drinks, coffee, and gum are not permitted inside the school building during normal school hours. No open cans or bottles of soda/beverages may be kept in lockers at any time; however, clear/transparent plastic bottles filled with water are allowed. The bottle must have a securable opening (flip top, screw top - no straws).

SECTION 3 – Attendance and Truancy

Attendance Requirement for Credit or Promotion

The Illinois School Code requires compulsory school age attendance (105 ILCS 5/26-I.-15). Valid cause for student absence shall be illness (including mental or behavioral health of the student), observance of a religious holiday or event, death in the immediate family, family emergency, situations beyond the control of the student, circumstances that cause reasonable concern to the parent/guardian for the student's mental, emotional, or physical health or safety, attending a military honors funeral to sound TAPS, or other reason as approved by the building principal.

The Illinois School Code, Article 26-1, requires those who have custody or control of any child between the ages of 7 and 17 to cause such a child to attend school the entire time it is in session during the regular school term.

In the event of any absence, the student's parent/guardian is required to call the school at 217-792-7220 to explain the reason for the absence. Up to nine (9) absences will be considered excused if a call is made into the grade school office by 9 a.m. on the day of the absence. In the event that the office must contact a parent to determine the whereabouts of the student or for parents calling after 9 a.m., the absence will be considered unexcused. If the office is unable to reach a parent to determine the whereabouts of a student or if a phone call is made after 9 a.m., then a note must be sent the next day to be considered excused. If a student-athlete arrives at school for a partial day, a note from a licensed medical professional or college or a funeral (parent notified) will be required for them to participate in practices or games.

When a student enters school after the start of the day, he/she must report to the school office, before going to class, to receive an admit slip from the secretary. The student should have a note with them explaining their absence for the morning, whether from a parent/guardian or from a licensed medical professional should the absence result from a medical appointment.

Students are limited to nine (9) days of absence per school year. Any absences beyond the allotted amount will be considered an unexcused absence unless a medical statement by a licensed medical professional is submitted to the school upon returning. Students who have used their allotted nine (9) absences per school year will be considered unexcused and therefore truant per class period missed.

Excused Absences

An excused absence can be defined as, but is not limited to:

1. Students absent due to a valid cause as per Illinois school code law (see above)
2. Medical appointment verified by a medical note.
3. Illness confirmed by a medical note.
4. Observance of a religious holiday.

5. Illness confirmed by a note from a parent/guardian (parent/guardian verified absences may not be excused if total absences are in excess of 9 days per school year).
6. Court appearance demanded by official summons or subpoena verified by court.
7. Funeral (confirmed with a parent/guardian note).
8. School sponsored activities, i.e. field trips, athletic events or scholastic competitions (see Pre-arranged Absences).

Medical appointments or illness verified by a medical note are excused absences and do not count against the 9 allotted absences per school year. Rarely do scheduled medical appointments take a full day. In those cases, the medical excuse must indicate that the appointment required the student to be absent from school the entire day. Otherwise, missing school for medical appointments should take less than 4 hours. It is the responsibility of the parent/student to have the medical professional indicate the time the student left the office on the medical excuse.

Additionally, a student will be excused for up to 5 days in cases where the student's parent/guardian is an active-duty member of the uniformed services and has been called to duty for, is on leave from, or has immediately returned from deployment to a combat zone or combat-support postings. The Board of Education, in its discretion, may excuse a student for additional days relative to such leave or deployment. A student and the student's parent/guardian are responsible for obtaining assignments from the student's teachers prior to any excused absences and for ensuring that such assignments are completed by the student prior to his or her return to school.

Unexcused Absences

An unexcused absence can be defined as, but is not limited to:

1. Any absence that is not confirmed with a parental/guardian, medical, or college note within the one day grace period.
2. Truancy
3. An illness which lasts for more than two consecutive days that is not verified by a medical note.
4. Vacation days taken with family (credit will be given if a student meets the expectation of the building principal and classroom teachers) see Prearranged Absences.
5. Personal reasons or business.
6. Failure to attend because of transportation problems, unless transported by school bus.

Parents will be notified after a student's 5th and 7th absence in a school year. Another notification will occur at the 9th absence. Parents will be informed by letter and concern is shared about their student's attendance. The letter informs parents that, if the student misses any more school for the remainder of the year (beyond the 9th absence), a licensed medical professional's medical excuse will be required for the absence to be considered excused.

Unless there are very unusual circumstances, missing more than 9 days of school in a year is excessive. With the exception of excused absences due to medical reasons, bereavement, and

religious holiday observance, both unexcused and excused absences count towards semester absence days. Therefore, a student's grade is seriously affected by unexcused absences. Each teacher has his/her own policy on late grades. Please remember there is a positive relationship between attendance and success in school.

Pre-Arranged Absences

A pre-arranged absence is an absence for the reasonable convenience of the student or parent (family). Pre-arranged absences can be excused or unexcused, depending on the reason for absence (see Attendance Requirements for Credit).

If a student knows ahead of time that they will be absent from school, the student is required to complete a Pre-arranged Absence form which can be obtained from the building principal. All assignments are due as the teacher notes on the form. Any outstanding late work may be required to be turned in prior to participating in a school sponsored event. Credit for the student's work is dependent upon the form being returned on time.

Family Trips

A vacation or family trip taken during the school year is an unfortunate interruption to classroom work. We realize that the choice of vacation time may be dictated by an employer so that the student and parents are faced with a choice between a family trip during the school term and no trip at all. During the school year, such trips will be considered an excused absence if the following guidelines are followed:

1. No more than five (5) school days will be excused. Days in excess of five (5) will be marked as unexcused.
2. The office must be given at least one week's notice by the parents that their intention is to take such a trip.
3. The student will present a pre-arranged absence form to each teacher five (5) days prior to leaving in order to secure all work that will be assigned.
4. All work missed must follow the Assignment Make-Up Policy.
5. No absences will be approved during semester or final exams without prior approval of the administration.

Truancy

A truant is defined as a child subject to compulsory school attendance who is absent without valid cause from such attendance for a school day or a portion thereof. Examples of truancy include oversleeping, missing the bus, shopping, working, babysitting, going on vacations that were not prearranged, having car trouble, and leaving school without administrative approval. Student attendance is critical to the learning process. Truancy is therefore a serious issue and will be dealt with in a serious manner by the school and district.

Students who miss more than 1% but less than 5% of the prior 180 regular school days without valid cause (a recognized excuse) are truant. Students who miss 5% or more of the prior 180

regular school days without valid cause are chronic truants. Students who are chronic truants will be offered support services and resources aimed at correcting the truancy issue.

If chronic truancy persists after support services and other resources are made available, the school and district will take further action, including:

- Referral to the truancy officer
- Reporting to officials under the Juvenile Court Act
- Referral to the State's Attorney
- Appropriate school discipline

A student who misses 15 consecutive days of school without valid cause and who cannot be located or, after exhausting all available support services, cannot be compelled to return to school is subject to expulsion from school.

Appropriate supportive services and available resources which must be provided to the chronic truant may include, but not be limited to:

- | | |
|-------------------------|------------------------------|
| 1. Conference | 2. Letter to parent/guardian |
| 3. Telephone contact | 4. Saturday Detention |
| 5. In-School Suspension | 6. Referral to ROE #17 |
| 7. Home Visit | 8. Truancy Review Board |

In addition, the State of Illinois requires every parent to properly care for, train, educate, discipline and control each child. To educate means to see that your child is in all classes every day. If this does not occur, the law states that parents can be fined from \$25 to \$500 or be imprisoned in the county jail or both. Students who "skip" or who miss all or any part of a school day without parent or school consent will be subjected to discipline according to the unexcused absence policy and/or at the discretion of the principal.

Tardiness

At the elementary level, students are allowed three (3) minutes to pass between classes. This will give students more than ample time to move orderly between classes, go to the restroom, and get to their lockers. Tardiness is defined as not being in your seat when the second bell rings.

- 1st - 3rd Tardies – Conference with Principal
- 4th Tardy - After school detention assigned
- Every following set of 4 tardies - After school detention assigned

Attendance: Extra-Curricular Participation

Students who leave school because of sickness, who are tardy or absent for any reason other than for medical appointments, or who miss school because of funerals (all must be verified) will not be allowed to attend or participate in extracurricular activities or practice on the same day.

This pertains to that day only. Any student who is failing more than one course is not allowed to attend **any** extra-curricular event per the weekly eligibility list.

Assignment Make-Up Policy

1. For every day a student is absent (excused), a student will be given one (1) day to make up assignments missed during the absence. A maximum of five (5) days will be allowed for make-up work. Unusual circumstances will be subject to the discretion of the teacher.
2. Students with a medical condition could be given additional time to make up assignments. A physician's note requesting additional time would be required.
3. If an assignment and or test has been assigned prior to a student being absent, even with an excused absence, the student will be expected to take care of the assignment and/or test the day the student returns. Unusual circumstances will be subject to the discretion of the teacher.
4. It is the responsibility of the student to contact each teacher for the assignments missed, preferably before or after class on the day the student returns to school.
5. A student has one (1) day following an unexcused absence to change it to an excused absence or the student will remain an unexcused absence.
6. Certain long-term assignments and projects may have specific due dates set and are announced to all students in advance. These projects are due on or before the due date unless specific arrangements are made and approved in advance by the teacher involved. Students missing a due date due to illness may be required to provide a doctor's excuse to be exempt for the due date.
7. Students who are suspended out of school are responsible for collecting their work and completing it. Students will be given one (1) day for every day suspended to make work up. A maximum of five (5) days will be allowed for make-up work. Students will be allowed full credit for the work they make up.

SECTION 4 – Discipline

Prohibited Student Conduct

Students may be disciplined for gross disobedience or misconduct, including, but not limited to:

1. Using, possessing, distributing, purchasing, selling or offering for sale tobacco or nicotine materials, including electronic cigarettes (e-cigarettes), vapes, vape pens, and other vaping related products.
2. Using, possessing, distributing, purchasing, or selling alcoholic beverages or powders. Students who are under the influence of an alcoholic beverage or powders are not permitted to attend school or school functions and are treated as though they had alcohol in their possession.

3. Using, possessing, distributing, purchasing, selling or offering for sale:
 - a. Any illegal drug, controlled substance, or cannabis (including marijuana, medical cannabis and hashish).
 - b. Any anabolic steroid unless it is being administered in accordance with a licensed medical professional's prescription.
 - c. Any performance-enhancing substance on the Illinois High School Association's most current banned substance list unless administered in accordance with a licensed medical professional's prescription or licensed practitioner's prescription.
 - d. Any prescription drug when not prescribed for the student by a licensed medical professional, or when used in a manner inconsistent with the prescription or prescribing licensed medical professional's instructions. The use or possession of medical cannabis, even by a student for whom medical cannabis has been prescribed, is prohibited.
 - e. Any inhalant, regardless of whether it contains an illegal drug or controlled substance: (a) that a student believes is, or represents to be capable of, causing intoxication, hallucination, excitement, or dulling of the brain or nervous system; or (b) about which the student engaged in behavior that would lead a reasonable person to believe that the student intended the inhalant to cause intoxication, hallucination, excitement, or dulling of the brain or nervous system. The prohibition in this section does not apply to a student's use of asthma or other legally prescribed inhalant medications.
 - f. "Look-alike" or counterfeit drugs, including a substance that is not prohibited by this policy, but one: (a) that a student believes to be, or represents to be, an illegal drug, controlled substance, or other substance that is prohibited by this policy; or (b) about which a student engaged in behavior that would lead a reasonable person to believe that the student expressly or impliedly represented to be an illegal drug, controlled substance or other substance that is prohibited by this policy.
 - g. Drug paraphernalia, including devices that are or can be used to: (a) ingest, inhale, or inject cannabis or controlled substances into the body; and (b) grow, process, store, or conceal cannabis or controlled substances.
 - h. Any substance inhaled, injected, smoked, consumed or otherwise ingested or absorbed with the intention of causing a physiological or psychological change in the body, including without limitation, pure caffeine in a tablet or powdered form.
 - i. Students who are under the influence of any prohibited substance are not permitted to attend school or school functions and are treated as though they have the prohibited substance, as applicable, in their possession
4. Using, possessing, controlling or transferring a "weapon" or violating the procedures listed below under the Weapons Prohibition section of this handbook procedure.
5. Using or possessing an electronic paging device.
6. Using a cellular telephone, smartphone, smartwatch, video recording device, personal digital assistant (PDA), or similar electronic device in any manner that disrupts the educational environment or violates the rights of others, including using the device to take photographs in locker rooms or bathrooms, cheat, or otherwise violate student conduct rules. Prohibited conduct specifically includes, without limitation, creating and

sending, sharing, viewing, receiving or possessing an indecent visual depiction of oneself or another person through the use of a computer, electronic communication device or cellular telephone, commonly known as “sexting.” Unless otherwise banned under this policy or by the building principal, all cellular phones, smartphones, smartwatches, and other electronic devices must be kept silenced and in student lockers during the regular school day unless: (a) the supervising teacher grants permission; (b) use of the device is provided in a student’s individualized education program (IEP); or (c) it is needed in an emergency that threatens the safety of students, staff, or other individuals.

7. Using or possessing a laser pointer unless under a staff member’s direct supervision and in the context of instruction.
8. Disobeying rules of student conduct or directives from staff members or school officials. Examples of disobeying staff directives include refusing a staff member’s request to stop, present school identification or submit to a search.
9. Engaging in academic dishonesty including cheating, intentionally plagiarizing, wrongfully giving or receiving help during an academic examination, altering report cards and wrongfully obtaining test copies or scores.
10. Engaging in bullying, hazing or any kind of aggressive behavior that does physical or psychological harm to a staff person or another student or encouraging other students to engage in such behavior. Prohibited conduct specifically includes, without limitation, any use of violence, intimidation, force, noise, coercion, threats, stalking, harassment, sexual harassment, public humiliation, theft or destruction of property, retaliation, hazing, bullying, and bullying using a school computer or a school computer network or other comparable conduct.
11. Engaging in any sexual activity, including without limitation, offensive touching, sexual harassment, indecent exposure (including mooning) and sexual assault.

13. Causing or attempting to cause damage to, stealing, or attempting to steal, school property or another person’s personal property.
14. Entering school property or a school facility without proper authorization.
15. In the absence of a reasonable belief that an emergency exists, calling emergency responders (calling 9-1-1); signaling or setting off alarms or signals indicating the presence of an emergency; or indicating the presence of a bomb or explosive device on school grounds, school bus or at any school activity.
16. Being absent without a recognized excuse.
17. Being involved with any public school fraternity, sorority, or secret society.
18. Being involved in a gang or engaging in gang-like activities, including displaying gang symbols or paraphernalia.
19. Violating any criminal law, including but not limited to, assault, battery, arson, theft, gambling, eavesdropping, and vandalism and hazing.
20. Engaging in any activity, on or off campus, that interferes with, disrupts, or adversely affects the school environment, school operations, or an educational function, including but not limited to, conduct that may reasonably be considered to: (a) be a threat or an attempted intimidation of a staff member; or (b) endanger the health or safety of students, staff, or school property.

21. Making an explicit threat on an internet website against a school employee, a student, or any school-related personnel if the internet website through which the threat was made is a site that was accessible within the school at the time the threat was made or was available to third parties who worked or studied within the school grounds at the time the threat was made, and the threat could be reasonably interpreted as threatening to the safety and security of the threatened individual because of his or her duties or employment status or status as a student inside the school.
22. Operating an unarmed aircraft system (AUS) or drone for any purpose on school grounds or at any school event unless granted permission by the building principal.
23. Public Displays of Affection-overt affection is defined as any excessive display of affection and other behaviors which cause embarrassment to onlookers and interferes with everyone's right to an orderly, educational atmosphere.

For purposes of these rules, the term "possession" includes having control, custody, or care, currently or in the past, of an object or substance, including situations in which the item is: (a) on the student's person; (b) contained in another item belonging to, or under the control of, the student, such as in the student's clothing, backpack, or automobile; (c) in a school's student locker, desk, or other school property; (d) at any location on school property or at a school-sponsored event; or (e) in the case of drugs and alcohol, substances ingested by the person.

Efforts, including the use of positive interventions and supports shall be made to deter students, while at school or a school-related event, from engaging in aggressive behavior that may reasonably produce physical or psychological harm to someone else. No disciplinary action shall be taken against any student that is based totally or in part on the refusal of the student's parent/guardian to administer or consent to the administration of psychotropic or psychostimulant medication to the student.

When & Where Conduct Rules Apply

The grounds for disciplinary action also apply whenever the student's conduct is reasonably related to school or school activities, including but not limited to:

1. On, or within sight of, school grounds before, during, or after school hours or at any time;
2. Off school grounds at a school-sponsored activity or event, or any activity or event that bears a reasonable relationship to school;
3. Traveling to or from school or a school activity, function, or event.
4. Anywhere, if the conduct interferes with, disrupts, or adversely affects the school environment, school operations, or an educational function, including but not limited to, conduct that may reasonably be considered to: (a) be a threat or an attempted intimidation of a staff member; or (b) endanger the health or safety of students, staff, or school property.
5. During periods of remote learning.

Disciplinary Measures

School officials shall limit the number and duration of expulsions and out-of-school suspensions to the greatest extent practicable, and, where practicable and reasonable, shall consider forms of non-exclusionary discipline before using out-of-school suspensions or expulsions. School personnel shall not advise or encourage students to drop out of school voluntarily due to behavioral or academic difficulties. Potential disciplinary measures include, without limitation, any of the following measures:

1. Notifying parents/guardians.
2. Disciplinary conference.
3. Withholding of privileges.
4. Temporary removal from the classroom.
5. Return of property or restitution for lost, stolen or damaged property.
6. Lunch or After-school detention.
7. Content specific educational activity or seminar.
8. In-school suspension.
9. After-school study or Saturday study provided the student's parent/guardian has been notified. (If transportation arrangements cannot be made in advance, an alternative disciplinary measure will be assigned to the student.)
10. Community service.
11. Seizure of contraband; confiscation and temporary retention of the personal property that was used to violate school rules.
12. Suspension of bus riding privileges.
13. Suspension from school and all school activities for up to 10 days. A suspended student is prohibited from being on school grounds.
14. Expulsion from school and all school activities for a definite time period not to exceed 2 calendar years. An expelled student is prohibited from being on school grounds.
15. Transfer to an alternative program if the student is expelled or otherwise qualifies for transfer under State law.
16. Notifying juvenile authorities or other law enforcement whenever the conduct involves criminal activity, such as, illegal drugs (controlled substances), "look-alikes," alcohol or weapons or in other circumstances as authorized by the reciprocal reporting agreement between the District and local law enforcement agencies.

The above list of disciplinary measures is a range of options that will not always be applicable in every case. In some circumstances, it may not be possible to avoid suspending or expelling a student because behavioral interventions, other than a suspension or expulsion, will not be appropriate and available, and the only reasonable and practical way to resolve the threat and/or address the disruption is a suspension or expulsion.

Detentions

Detention assigned by teachers – A detention assigned to a student by a teacher could be served any day of the week. Parents/guardians and students will be notified by the teacher at least one day in advance so that transportation arrangements can be made, if necessary.

Detention assigned by principal – A detention assigned to a student by the principal must be served on Tuesdays or Thursdays. Detentions are 30 minutes and will be held from 3:15 p.m. - 3:45 p.m. Parents/guardians will be notified by the principal at least one day in advance so that transportation arrangements can be made, if necessary. Students who refuse to serve assigned detentions will be assigned a Saturday detention.

Saturday Detention – A Saturday detention is 2 hours and will be held from 8:00 a.m. to 10:00 a.m. Parents/guardians will be notified by phone and/or email by the principal. Students will assume full responsibility for transportation to and from the detention. Students are expected to work on school work during this time. Students are also allowed to read a school appropriate book or magazine. Students who refuse to serve an assigned Saturday detention will be assigned an In-School suspension.

In-School Suspensions

Any student assigned an in-school suspension must abide by the following in-school suspension rules:

1. Talking will be permitted only upon receiving permission from the supervisor.
2. You may not leave your assigned seat without permission.
3. You will be courteous at all times to the supervisor.
4. All assignments are to be completed and returned to the supervisor.
5. Students will receive credit for all work that is completed. Work not completed as assigned will become a zero.
6. Students must bring all books and materials to the in-school suspension.
7. Students may NOT sleep or assume a sleeping position.
8. No game playing allowed.
9. No cell phones are allowed during in-school suspension. Cell phones will be given to the supervisor upon arrival. Cell phones will be returned to students at the end of the school day.

Isolated Time Out, Time Out and Physical Restraint

Isolated time out, time out, and physical restraint shall only be used if the student's behavior presents an imminent danger of serious physical harm to the student or others and other less restrictive and intrusive measures were tried and proven ineffective in stopping it. The school may not use isolated time out, time out, and physical restraint as discipline or punishment, convenience for staff, retaliation, a substitute for appropriate educational or behavioral support, a routine safety matter, or to prevent property damage in the absence of imminent danger of serious physical harm to the student or others.

Corporal Punishment

Corporal punishment is illegal and will not be used. Corporal punishment is defined as slapping, paddling, or prolonged maintenance of students in physically painful positions, or intentional infliction of bodily harm. Corporal punishment does not include reasonable force as needed to

maintain safety for students, staff, or other persons, or for the purpose of self-defense or defense of property.

Weapons Prohibition

A student who is determined to have brought one of the following objects to school, any school-sponsored activity or event, or any activity or event that bears a reasonable relationship to school shall be expelled for a period of not less than one year but not more than 2 calendar years:

1. A firearm, meaning any gun, rifle, shotgun, weapon as defined by Section 921 of Title 18 of the United States Code, firearm as defined in Section 1.1 of the Firearm Owners Identification Card Act, or firearm as defined in Section 24-1 of the Criminal Code of 1961. The expulsion period may be modified by the superintendent, and the superintendent's determination may be modified by the board on a case-by-case basis.
2. A knife, brass knuckles or other knuckle weapon regardless of its composition, a billy club, or any other object if used or attempted to be used to cause bodily harm, including "lookalikes" of any firearm as defined above. The expulsion requirement may be modified by the superintendent, and the superintendent's determination may be modified by the board on a case-by-case basis. The expulsion requirement may be modified by the superintendent, and the superintendent's determination may be modified by the board on a case-by-case basis.

Gang Activity Prohibited

"Gang" is defined as any group, club or organization of two or more persons whose purposes include the commission of illegal acts. What are possible child abuse indicators?

Possible indicators of abuse are listed below, but do not necessarily constitute proof that a child is being abused. They should serve as warning signs to look further, ask questions or seek assistance in determining whether or not a child needs help. Trust your instincts if you think a family or individual is in trouble. Clergy and other ministers are in a key position with families to sense when something is wrong and to speak honestly. Some of the possible indicators of child abuse and neglect are:

- Self-destructive and destructive behavior
- Fractures, lacerations, bruises that cannot be explained or explanations which are improbable given a child's developmental stage
- Failure to thrive

- Depression, passivity
- Hyperactive/disruptive behavior
- Sexualized behavior or precocious knowledge of explicit sexual behavior, pseudo-maturity
- Running away, promiscuous behavior
- Alcohol or drug abuse, other self-destructive behavior, e.g., eating disorders

Making a Complaint: Enforcement

Students are encouraged to report claims or incidents of sexual harassment, teen dating violence or any other prohibited conduct to the nondiscrimination coordinator, building principal, assistant building principal, dean of students, or a complaint manager. A student may choose to report to a person of the student's same gender. Complaints will be kept confidential to the extent possible given the need to investigate. Students who make good faith complaints will not be disciplined. Any person making a knowingly false accusation regarding prohibited conduct will likewise be subject to discipline.

Prevention of & Response to Bullying, Intimidation & Harassment

Bullying, intimidation, and harassment diminish a student's ability to learn and a school's ability to educate. Preventing students from engaging in these disruptive behaviors and providing all students equal access to a safe, non-hostile learning environment are important school goals.

Bullying on the basis of actual or perceived race, color, national origin, immigration status, military status, unfavorable discharge status from the military service, sex/gender, sexual orientation, gender identity, gender-related identity or expression, ancestry, age, religion, physical or mental disability, order of protection status, status of being homeless, or actual or potential marital or parental status, including pregnancy, association with a person or group with one or more of the aforementioned actual or perceived characteristics, or any other distinguishing characteristic is prohibited in each of the following situations:

1. During any school-sponsored education program or activity.
2. While in school, on school property, on school buses or other school vehicles, at designated school bus stops waiting for the school bus, or at school-sponsored or school-sanctioned events or activities.
3. Through the transmission of information from a school computer, a school computer network, or other similar electronic school equipment.
4. Through the transmission of information from a computer that is accessed at a non-school-related location, activity, function, or program or from the use of technology or an electronic device that is not owned, leased, or used by the school district or school if the bullying causes a substantial disruption to the educational process or orderly operation of a school.

Bullying includes cyber-bullying (bullying through the use of technology or any electronic communication) and means any severe or pervasive physical or verbal act or conduct, including communications made in writing or electronically, directed toward a student or students that has or can be reasonably predicted to have the effect of one or more of the following:

1. Placing the student or students in reasonable fear of harm to the student's or students' person or property;
2. Causing a substantially detrimental effect on the student's or students' physical or mental health;
3. Substantially interfering with the student's or students' academic performance; or
4. Substantially interfering with the student's or students' ability to participate in or benefit from the services, activities, or privileges provided by a school.

Cyberbullying means bullying through the use of technology or any electronic communication, including without limitation any transfer of signs, signals, writing, images, sounds, data, or intelligence of any nature transmitted in whole or in part by a wire, radio, electromagnetic system, photo-electronic system, or photo-optical system, including without limitation electronic mail, Internet communications, instant messages, or facsimile communications. Cyberbullying includes the creation of a webpage or weblog in which the creator assumes the identity of another person or the knowing impersonation of another person as the author of posted content

or messages if the creation or impersonation creates any of the effects enumerated in the definition of bullying. Cyberbullying also includes the distribution by electronic means of a communication to more than one person or the posting of material on an electronic medium that may be accessed by one or more persons if the distribution or posting creates any of the effects enumerated in the definition of bullying.

Bullying may take various forms, including without limitation one or more of the following: harassment, threats, intimidation, stalking, physical violence, sexual harassment, sexual violence, theft, public humiliation, destruction of property, or retaliation for asserting or alleging an act of bullying. This list is meant to be illustrative and non-exhaustive.

Students are encouraged to immediately report bullying. A report may be made orally or in writing to the district complaint manager or any staff member with whom the student is comfortable speaking. All school staff members are available for help with a bully or to make a report about bullying. Anyone, including staff members and parents/guardians, who has information about actual or threatened bullying is encouraged to report it to the district complaint manager or any staff member. Anonymous reports are also accepted by phone call or in writing.

A reprisal or retaliation against any person who reports an act of bullying is prohibited. A student's act of reprisal or retaliation will be treated as bullying for purposes of determining any consequences or other appropriate remedial actions.

A student will not be punished for reporting bullying or supplying information, even if the school's investigation concludes that no bullying occurred. However, knowingly making a false accusation or providing knowingly false information will be treated as bullying for purposes of determining any consequences or other appropriate remedial actions.

Guidelines for Distribution of Non-Curricular Student Publications

Students may distribute with permission of the building Principal, at reasonable times and places, unofficial written material, petitions, buttons, badges, or other insignia, except expressions which:

1. Are obscene to minors;
2. Are libelous;
3. Are pervasively indecent or vulgar (secondary schools);
4. Advertise any product or service not permitted to minors by law;
5. Constitute insulting or fighting words, the very expression of which injures or harasses other people (e.g. threats of violence, defamation of character or of a person's race, religion or ethnic origin);
6. Present a clear, and present likelihood that, either because of their content or their manner of distribution, will cause a material and substantial disruption of the proper and orderly operation and discipline of the school or school activities, will cause the commission of unlawful acts or the violation of lawful school regulations.

Lunch Hour – Elementary

Students will be released to go to the cafeteria in grades K-5 at Mount Pulaski Grade School by their teacher. Students in other grades will proceed to the cafeteria at scheduled times. After lunch, NO STUDENT will go to lockers, bathrooms, or hallways without permission or a pass. Food and drink are to be in the cafeteria only.

No-Nit Policy for Head Lice

A head louse is a condition that is contagious. A student will be sent home if live lice or nits are found on the head. Students who have been sent home for head lice may not return to class until they have had all lice and nits (eggs) removed. They must be inspected by the principal or his/her designee in the office, before being readmitted to school. They must also show proof that the lice control shampoo has been used by presenting the empty bottle. The child must be nit-free to return to class. Parents will be provided with information on how a lice problem can be resolved at the time of the exclusion.

Entering & Leaving School Grounds

Any student leaving or entering Mount Pulaski Grade School must check in or sign out at the office. Students need parental permission to sign out. Students are encouraged to make appointments after school hours, although we realize this is not always possible.

Hall Passes - Grade 6 through 8

Passes are required of all students who are in an unsupervised area (hallways, restrooms) during the school day. Students must make previous arrangements with teachers if they want a pass from the study hall or library. No passes will be issued by any teacher or excuse a student from another teacher's class. Passes to get into class because of being late for school will only

be issued by authorized office staff. It is the responsibility of the student to have his/her school-issued chromebook daily in order to have pass privileges (as passes are assigned using eHall Pass on the chromebook).

Care of Books

Mount Pulaski CUSD #23 rents textbooks to students rather than having students buy them. This is economical and convenient to everyone. In return for this service, students are expected to take reasonable care of their books. Any lost or damaged books will be assessed accordingly.

Dress Code

Generally it is the prerogative of parents to determine what is appropriate dress and grooming for their children in accordance with the age and grade of the student. It is expected that decisions made by parents and students in these matters reflect favorably upon the individual student, the school, and the community. In the interest of cleanliness, decency, and good taste, restrictions on a student's dress and grooming are necessary when they create a danger to the student's health and safety and interfere with the education process or cause a disruption in school. Exceptions to the dress code may be authorized by the building principal for special event days. Students must adhere to the following rules:

1. Tops must have shoulder straps.
2. Students must be completely covered from armpit to mid-thigh (3 inch inseam mark) including when arms are raised above the head.
3. Shorts must have a minimum of a 3 inch inseam.
4. Shoes/appropriate footwear must be worn at all times.

 - Military fatigues
 - Gang-affiliated clothing/articles
 - Caps, hats, or raised hoods
 - Slippers
 - Pajama pants
 - Spurs

Parents and students should keep in mind that school is the “business” of youth and dress should conform to standards appropriate for such business.

Parties/Dances

Any parties/dances after school, whether sponsored by the school or an outside organization, must have at least one staff member in attendance. All parties must conclude by 9:30 p.m. and

must be cleared by the principal. Students who leave a school event may not return. Students must be eligible (no failing grades) and not have more than one detention for the quarter to be able to attend quarterly dances. Any suspensions (in or out of school) for the quarter also disqualify students from the dance. Invitations to personal parties are not to be distributed at school.

Student Privacy Protections

Surveys by Third Parties

Instructional Material

A student's parent/guardian may inspect, upon their request, any instructional material used as part of their child's educational curriculum within a reasonable time of their request.

Selling or Marketing Students' Personal Information Is Prohibited

No school official or staff member may market or sell personal information concerning students (or otherwise provide that information to others for that purpose). The term personal information means individually identifiable information including: (1) a student or parent's first and last name, (2) a home or other physical address (including street name and the name of the city or town), (3) a telephone number, (4) a Social Security identification number or (5) driver's license number or State identification card.

The above paragraph does not apply: (1) if the student's parent/guardian has consented; or (2) to the collection, disclosure or use of personal information collected from students for the exclusive purpose of developing, evaluating or providing educational products or services for, or to, students or educational institutions.

All parental notes will count towards a no-dress as described below. After the 3rd offense, a doctor's note is required to be excused from class and to re-enter class.

Asbestos

Our district buildings have been inspected for asbestos containing materials as mandated by the USEPA, 40 CFR Part 763: Asbestos Containing Materials in Schools. A management plan has been prepared by an accredited management planner with Asbestos Consultants of Illinois, Inc. to offer direction and guidance in the management of asbestos in our buildings. These reports are available for inspection at the administrative office during normal working hours.

Grievance Procedure

Students or their parents/guardians, employees or community members should notify the Superintendent or Building Principal if they believe that the School Board, its employees or agents have violated their rights guaranteed by the State or Federal Constitution, State or Federal statute or Board policy. A person who wishes to avail themselves of this grievance procedure may do so by filing a complaint with the Superintendent or Building Principal in writing. The Superintendent or Building Principal will respond to and resolve complaints without resorting to this grievance procedure and, if a complaint is filed, to address the complaint promptly and equitably. The procedures for filing a complaint, the investigation, decision and appeal is set forth within Board Policy.

Concerns relating to potential violations of the District's policies regarding non-discrimination, sex equity, and sexual harassment should be directed to:

Elementary Principal – Danielle Lora OR Superintendent – Fred Lamkey

Any individual may file a sex-equity, sexual harassment, Section 504 disability, or other discrimination complaint by using the grievance procedures described above.

Fire, Storm and Standard Response Protocol (Emergency) Drills

Exit routes are posted in each room. Safety drills will occur at times established by the principal. All other drills will not be preceded by a warning to students.

It is an extra-curricular activity and a field of endeavor which has as its aim the good development of physically, mentally, emotionally, and socially fit citizens through the medium of interschool athletics. All coaches emphasize and require that all rules and regulations of this code be followed during the entire school year including summer. This policy is in effect for 12 months.

Student Involvement

Athletic involvement at Mount Pulaski CUSD #23 schools is considered a student privilege - not a right. Such opportunity shall be provided with the expressed intent of reinforcing the spirit of competition and cooperation. Requirements for athletic participation shall include but not be limited to the following:

1. Students must be physically able to participate.

First Violation: 5 game suspension at the highest level of participation including all subsequent games in between, or a 3 game suspension if a student-athlete admits to violation upon initial questioning with the building principal or coach. The 3 game suspension is also at the highest level of participation including all subsequent games in between.

Second Violation: One-year suspension from all sports or a student option of a 10 game suspension with enrollment and active participation in an approved counseling program at the

parent's expense. The 10 game suspension is at the highest level of participation including all subsequent games in between.

Third Violation: The student-athlete will be banned from participation for their entire junior high or high school athletic careers. Notwithstanding the foregoing, the Board of Education reserves the right to revoke any and all privileges of student-athlete's participation if the Board of Education in its discretion determines that the violation warrants such action.

2. The student-athlete is defined as an athletic participant on the first day of practice of the first athletic activity they participate in during their elementary and high school career. Participant status is continuous throughout the calendar year thereafter and will end only when:
 - a. Student removes self as an athlete in writing.
 - b. Student is excluded for violations of the athletic code.

Violation of the Athletic Code at any time a student is considered a student athlete, even while the athlete's sport is not in season, may result in disciplinary action. Verification will be by staff or law enforcement.

Any student-athlete who has been excluded for disciplinary reasons from a previous sport shall be required, with parent/guardian, to meet with the coach and building principal prior to resuming participation. All game suspensions are at the highest level of participating including subsequent games in between. All game suspensions not fulfilled within a sport season will be carried over into the next sport season in which the student athlete participates.

It is the intent and purpose of the Athletic Code that all student-athletes desiring competition in the name of Mount Pulaski CUSD #23 schools shall be observant of the training rules on a yearly basis. Any disregard of this code may be a reason for exclusion.

Reports of violations and any follow-up investigation shall be the building principal's responsibility with cooperation from the respective coach.

Parents and athletes are urged to retain the training rules listed above. Please complete and detach the applicable forms and return to the head coach. It will be necessary for parents to complete and return forms on an annual basis regardless of how many sports the athlete participates in during the school year.

A mandatory meeting between the Athletic Director, parents, coaches and athletes (stressing parents' attendance) will be held before a specific sport's season begins to explain the athletic code and answer/clarify the questions by meeting participants. The signing of the code is encouraged to be done at the meeting. Parent's participation permit form must be returned and signed prior to the student's participation in the first practice session.

- b. Students engaged in producing web pages must provide an administrator with email or hard copy permissions before the web pages are published. Printed evidence of the status of public domain documents must be provided.
- c. The absence of a copyright notice may not be interpreted as permission to copy the materials. Only the copyright owner may provide the permission. The manager of the website displaying the material may not be considered a source of permission.
- d. The fair use rules governing student reports in classrooms are less stringent and permit limited use of graphics and text.
- e. Student work may only be published if there is written permission from both the parent/guardian and student.

- b. Each person should use the same degree of care in drafting an email message as would be put into a written memorandum or document. Nothing should be transmitted in an email message that would be inappropriate in a letter or memorandum.
- c. Electronic messages transmitted via the District's Internet gateway carry with them an identification of the user's Internet domain. This domain is a registered name and identifies the author as being with the District. Great care should be taken, therefore, in the composition of such messages and how such messages might reflect on the name and reputation of the District. Users will be held personally responsible for the content of any and all email messages transmitted to external recipients.

- d. Any message received from an unknown sender via the Internet, such as spam or potential phishing emails, should either be immediately deleted or forwarded to the system administrator.
