Discussion involved making a goal to help support college prep for next year and included what the school already does. Thoughts about extending the goal to include any type of education after HS, including tech training and life skills, not just college prep.
 - Teachers on the committee commented on what they thought teachers needed funded from Trust Lands, including, additional *Zoom cams, ipads for teachers, headphones and computer cams for students to take come in case of closure, programs that help teach online, addition training on Canvas*. AJ mentioned that more Canvas training would be forthcoming and was already scheduled.
 - Two new goals were rough outlined for review online in December. Goals attached to the end of these minutes. Clarification and more details can be added during our email meeting in December.
