Re: Online Registration for Existing Students - Please complete by August 13th

Hello BV Schools Families! We hope you are enjoying your summer.

Every year before school starts, your child's school has traditionally sent home paper packets asking you to update information about your student for the upcoming school year.

This year, we are excited to announce that we have an online registration system - you'll be able to enter and update information about your child online, using the parent portal of Infinite Campus! We will be saving loads of paper, and hopefully you will find this new system to be quick, easy, and efficient.

To access this system, simply sign into your [parent portal](#) on Infinite Campus. On the left hand side menu, select "More". Then, select "Online Registration". The system will walk you through the process. You can also find a direct link to the parent portal on the district website. Please allow about 15 minutes per child to complete the registration. *Complete this annual registration no later than 5pm on Friday, August 13th.*

If you have a parent portal account, but don't remember your login information, please send an email to either Diane Look (dianel@bvschools.org) or Hannah Jayne (hannahj@bvschools.org). Include your name and the name of your student(s). Diane or Hannah will get back to you within a few days.

If you do NOT have an Infinite Campus portal account, do not have computer or internet access, or have any questions in the process, please email Diane or Hannah and let them know what you need. Please be sure to include your first and last name in the email.

We know there may be questions and challenges this first year, but in the long run, we are excited about this update and think you will be, too! Thank you for working with us through the transition.

Lisa Yates, Superintendent
