About

Mastery Based

Personalized
Learning

Public School

Ensure Growth

Welcome to Idaho Future Ready Academy for Virtual Learning. We provide parents and students a new option in education, that ensures kids the opportunity to focus on their growth and development. Where they are not left behind or stuck based on a grade level. Students growth and learning are the focus rather than the time in a seat or a grade level.

We have had seven years of developing the mastery based model in our district schools and have shown distinction in the benefits of our model. We are ready to offer this opportunity to families enrolled with Another Choice Virtual Charter.

100%

PERSONALIZED

All students have a
personalized pathway
to learning

100%

MASTERY

All students master
learning and move
forward at their pace.

100%

GROWTH

Students demonstrate
growth in ownership,
habits of mind, and
academic progress.

Success

We truly believe in teaching the whole child and incorporate social skills and the 16 Habits of Mind into our daily routine which encourages our students to use empathy, persistence and flexible thinking. This increases the ability for students to have greater academic gains above the typical years worth of growth. Students on average now can gain more than a years worth of growth.

Learning Opportunities

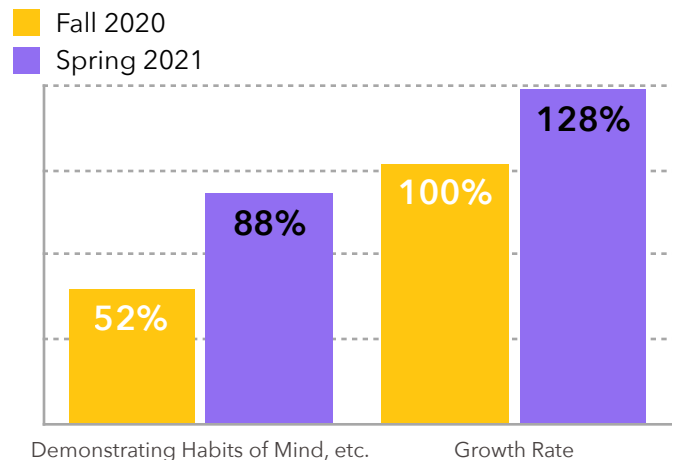

Idaho Future Ready Academy for Virtual Learning provides a rigorous mastery based, personalized learning environment where students will have the skills needed to be leaders and creatively design their own futures. Students take ownership as they set and achieve goals towards their own pace and plan. We empower our students to be responsible and allow them the time needed to master their work before moving on.

Wilder offers a variety of curriculum applications to allow for student choice. We analyze student data to make sure that we are meeting the needs of each individual student and tracking their growth throughout the year.

Learning can happen anywhere, anytime and parents are able to be reimbursed \$1000 per semester which equals to \$2000 per year that can be used to purchase a device, pay for educational materials, and be used for learning experiences such as field trips, piano lessons, dance, karate, etc.

Family

We partner with parents and families to create experiences for kids to be ready for their future. We see the value of family time with kids and create flexibility of schedules that allows for both academic rigor and family learning opportunities. Family time also becomes learning time and using family activities that supports learning goals becomes the norm.

➔ What's Next

We understand the need for families and students to have stability in learning, as a “plan B”, Wilder School District has partnered with Another Choice Virtual Charter School to provide students this stability to transition. If you are interested please visit our website at wilderschools.org and click virtual school at the top of the page or scan the QR code below.
