SCHOOL INFORMATION

Foreword

Many policies in this handbook are based on state and federal legislation. It is our sincere desire that this handbook may provide clearer understanding for teachers, students, and parents, so that by working together we may accomplish our school mission.

To new students who come to the Beebe School District, this book brings you the assurance of welcome and good will. May your time at Beebe be happy and profitable.

The material in this handbook is published to familiarize new students with the regulations, organizations, and student activities of our school and to serve as a reference for all students, teachers, and parents. It is prepared for you, and we hope you will make frequent use of it.

Student Handbook

It shall be the policy of the Beebe School District that the most recently adopted version of the Student Handbook be incorporated by reference into the policies of this district. In the event there is a conflict between the student handbook and a general board policy or policies, the more recently adopted language will be considered binding and controlling on the matter provided the parent(s) of the student, or the student if 18 years of age or older have acknowledged receipt of the controlling language.

Principals shall review all changes to student policies and ensure that such changes are provided to students and parents, either in the Handbook, or if changes are made after the handbook is printed, as an addendum to the handbook.

Principals and counselors shall also review Policies 4.45 – Smart Core Curriculum and Graduation Requirements and the current ADE Standards for Accreditation Rules to ensure that there is no conflict. If a conflict exists, the Principal and/or Counselor shall notify the Superintendent and Curriculum Coordinator immediately, so that corrections may be made and notice of the requirements given to students and parents.

During the months of May and June each year, a Handbook Committee is formed and the handbook is reviewed. The 2021-22 Handbook Committee members are:

Pledge of Allegiance

The pledge to the flag is given each morning. A student will be designated to lead the student body in stating the pledge. All students will stand and place their right hands over their heart and say:

I pledge allegiance to the flag of the United States of America and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

School Mascot- Badger

Many years ago the founders of our school along with students and patrons put their heads together in an effort to select a school mascot that would represent our school with pride. The Badger was elected because it could overcome all odds by its tremendous strength, courage, alertness and intelligence.

School Colors

The colors of Beebe School are cardinal red and white. These are used in all school interscholastic activities, in letters given by the school, and in all uniforms worn by various organizations and teams.

Civic Responsibility

As patrons of Beebe School District, students, teachers, and staff are all responsible for maintaining the school's facilities. Students are expected to participate in scheduled clean-up activities, as well as to make personal efforts to preserve a safe, clean school environment.

Philosophy of Beebe School District

The Beebe Board of Education, administration, and teachers consider education a cooperative endeavor that includes the home, community, and state.

The primary role of the school is to teach educational skills while offering a broad-based and flexible curriculum which provides opportunities for individual students regardless of race, color, national origin, sex, or handicap.

Educational experiences, which include extracurricular activities, should promote good citizenship, encourage students to take responsibility for their own actions, encourage students to perform well in the classroom, teach the importance of cooperation and working together to achieve common goals, and provide opportunities for students to succeed.

The school should provide competent, qualified, and dedicated instructors for its students as well as a physical plant that lends itself to changing educational programs while providing a stimulating atmosphere.

In applying this philosophy, the following specific objectives will be sought:

1. To strengthen the curriculum in the basic areas such as reading, language arts, and math.
2. To broaden the scope of the curriculum to meet or exceed the recommended state educational standards.
3. To provide in-service training to help teachers to keep abreast of new developments in education.
4. To offer programs which will help each learner to develop toward his/her potential.
5. To provide educational experiences which will promote good citizenship, responsibility, and a spirit of cooperation.
6. To encourage increased parent-community participation in the school program.
7. To promote maximum student attendance.

Code of Ethics

- As a student of Beebe Public School, I shall uphold its standards and strive to raise them at all times.
- I shall endeavor to raise my scholastic record and to influence other students to do their best.
- I shall consider it an honor to represent my school to the best of my ability whenever possible.

- Because good manners and good conduct are essential to good citizenship, I shall practice them at all times.
- As a part of being a good citizen, I shall keep my school building and grounds clean and attractive.
- I shall cooperate with the school officials in taking the best possible care of the school, its grounds, and its equipment.
- I shall consider it an honor as well as a duty to live up to this “Code of Ethics” in order to be a good student of Beebe Schools.

Family Educational Rights and Privacy Act (FERPA)

The Family Educational Rights and Privacy Act (FERPA) is a Federal law designed to protect the privacy of a student’s education records. The law applies to all schools which receive funds under an applicable program of the U.S. Department of Education.

Generally, schools must have written permission from their parent or eligible student before releasing any information from a student’s record.

However, the law allows schools to disclose those records, without consent, to the following parties:

- School employees who have a need to know;
- Other schools to which a student is transferring;

- Certain government officials in order to carry out lawful functions;
- Appropriate parties in connection with financial aid to a student;
- Organizations conducting certain studies for the school;
- Accrediting organizations;
- Individuals who have obtained court orders or subpoenas;
- Persons who need to know in cases of health and safety emergencies; and
- State and local authorities, within a juvenile justice system, pursuant to specific State law.

Other state laws may apply depending upon your situation. You are required to follow all federal, state, and local laws pertaining to student confidentiality.

“No Child Left Behind Act” required that school districts receiving certain federal funding provide student names, addresses, and phone numbers on request to various branches of the United States military for recruiting purposes. In addition, schools must allow military recruiters the same access to students as they do institutions of higher education and employers.

The law also requires that schools give students and parents the opportunity to have their contact information withheld from the military (20 U.S.C 7908).

A secondary school student or the parent of the student may request that the student’s name, address, and telephone listing described in paragraph one not be released without prior written parental consent, and the local educational agency or private school shall notify parents of the option to make a request and shall comply with any request.

If you would like to exercise your opportunity to opt out of releasing your child’s information, name, address, and telephone number, to military recruiters and/or institutions of higher education, you may complete the required form and turn it in at the High School office.

A student’s parent, or student over the age of 18, requesting to review the student’s education records will be allowed to do so within no more than forty-five (45) days of the request.

Parents or guardians choosing to opt out of Medicaid billing for hearing and vision testing may contact their building principal.

Equal Educational Opportunity

No student in the Beebe School District shall, on the grounds of race, color, religion, national origin, sex, sexual orientation, gender identity, age, or disability be excluded from participating in, or denied the benefits of, or subjected to discrimination under any educational program or activity sponsored by the District. The District has a limited open forum granting equal access to the Boy Scouts of America and other groups.

Student Religious Expression

The Beebe School District Board of Directors does not allow the discrimination against a student based on a student’s voluntary religious expression, if any. At the same time, the District shall

provide a process to eliminate any actual or perceived sponsorship or attribution to the District of a student's public voluntary expression of a religious viewpoint, if any.

Student Assignments

Student assignments include, but are not limited to:

- Homework;
- Classwork;
- Artwork; and
- Other written or oral assignments.

A student may express the student's religious viewpoint, if any, in the student's assignments without discrimination based on the religious content, if any. A student's assignments shall:

1. Be graded and judged:
 - By ordinary academic standards of substance and relevance; and
 - Against other conventional, pedagogical topics as identified by the District curriculum; and
2. Not be penalized or rewarded based on the religious content, if any, of the student's assignments.

Student Presenters

A student's expression of a religious viewpoint, if any, on an otherwise permissible subject shall not be excluded from a forum, whether oral or in writing, where students are allowed to speak.

The District has the right to restrict student speech that is inappropriate in the school setting by being obscene, vulgar, offensively lewd, or indecent.

Review of written student forums shall be handled in accordance with Policy 4.14—STUDENT MEDIA AND THE DISTRIBUTION OF LITERATURE.

If the forum is a scheduled event with designated student speakers, the building principal shall have an opportunity to review pre-written remarks prior to the student's presentation at the scheduled forum. The principal may require the student to amend the student's remarks to the extent necessary to address any portions that are determined to be inappropriate. A student's refusal to amend the remarks that were determined to be inappropriate may be prohibited from participation in the forum. A student who diverts from the approved pre-written remarks during a speech in such a manner that is determined to be inappropriate by the building principal or another present District staff member may be asked to return to the approved remarks. If a student refuses to return to the approved remarks or continues to divert from the approved

remarks in a manner that is determined to be inappropriate may be escorted from the forum and disciplined in accordance with the District's Student Code of Conduct.

If the timing or format of the forum does not provide for pre-written remarks to be reviewed, then the building principal or other District staff shall have the authority to address a student whose remarks are determined to be inappropriate. The building principal or District staff member shall initially ask the student to cease the inappropriate remarks. If the student refuses or makes additional inappropriate remarks after being directed to cease such remarks, Then the building principal or District staff member may escort the student from the forum and the student may be disciplined in accordance with the District's Student Code of Conduct

There shall be a disclaimer that a student speaker's speech does not reflect the endorsement, sponsorship, position, or expression of the District. The disclaimer shall be provided at all forums where students speak and at all graduation ceremonies. The disclaimer shall be provided orally or in writing as most appropriately fits the format of the forum.

Information on how to participate in a student forum shall be provided to all students via email.¹

In addition to the salutatorian and valedictorian selection process in Policy 5.17—HONOR ROLL AND HONOR GRADUATES, the following students may speak during the District's graduation ceremony:²

Any student deemed appropriate by the high school principal and guidance counselor.

Inquiries on non-discrimination may be directed to Assistant Superintendent/Curriculum and Student Affairs, who may be reached at Central Office, 1201 West Center Street, Beebe, Arkansas.

For further information on notice on non-discrimination or to file a complaint, visit <http://wdcrobcolp01.ed.gov/CFAPPS/OCR/contactus.cfm>; for the address and the phone number of the office that serves your area, or call 1-800-421-3481.

Special Education

In accordance with the Individuals With Disabilities Education Act (IDEA), Section 504 of the Rehabilitation Act of 1973, the Americans With Disabilities Act, and Arkansas Statutes, the district shall provide a free appropriate public education and necessary related services to all children with disabilities who reside within the district boundaries or outside of the district boundaries but are enrolled in the district.

It is the intent of the district to ensure that students who are disabled within the definition of Section 504 of the Rehabilitation Act of 1973 are identified, evaluated and provided with

appropriate educational services. Students may be disabled within the meaning of Section 504 of the Rehabilitation Act even though they do not require services pursuant to the IDEA.

For students eligible for services under IDEA, the District shall follow procedures for identification, evaluation, placement, and delivery of services to children with disabilities provided in the state and federal statutes governing special education. Implementation of an Individualized Education Program (IEP) in accordance with the IDEA satisfies the district's obligation to provide a free and appropriate education under Section 504.

The Board directs the superintendent to ensure procedures are in place for the implementation of special education services and that programs are developed to conform to the requirements of state and federal legislation. The superintendent is responsible for appointing a district coordinator for overseeing district fulfillment of its responsibilities regarding students with disabilities. Among the coordinator's responsibilities shall be ensuring district enforcement of the due process rights of students with disabilities and their parents.

Daily Time Schedule

School begins at 8:00 a.m. and dismisses at approximately 3:12 p.m.

Early Dismissal Procedures

Students are not permitted to leave campus from the time of arrival until dismissal time at the end of the day without special permission from the principal's office. A student who fails to check out through the office will be considered truant. If it does become necessary for a student to leave campus during the school day, the student's parent may come to the school to check him/her out. If a parent is unable to come to school, it is requested that the parent telephone the school to give permission. If the parent is unable to telephone, he or she may have a relative or friend give proper permission if the designee is identified in a note from the parent.

In an event that a student gets sick at school or has an accident, every effort will be made to contact a parent or guardian. If, however, a parent cannot be contacted, the school nurse will take whatever steps are appropriate for the situation.

If a parent sends a note for their child to check out, the student must bring the note to the office prior to the start of the school day in which they are checking out. The parent, if possible, needs to have a contact phone number to verify the checkout time and day.

A student checking out during the school day may not return to school that day unless he/she left for one of the following reasons, documentation from the appointment is required for the student to return to school.

- Official school-sponsored activity
- Required court appearance
- Medical appointment
- Extenuating circumstances as determined by the school

Daily Bulletin

A bulletin containing general announcements is issued each day. Announcements to appear in the bulletin should be given to the office by 2:00 p.m. the previous day.

Emergency Drills

All schools in the District shall conduct fire drills at least monthly. Tornado drills shall also be conducted no fewer than three (3) times per year with at least one each in the months of September, January, and February. Students who ride school buses, shall also participate in emergency evacuation drills at least twice each school year.

The District shall annually conduct a lockdown drill and school safety assessment for all District schools in collaboration with local law enforcement, medical professionals, fire department officials, and emergency management personnel. The training will include a lockdown exercise with panic button alert system training. Students will be included in the drills to the extent that is developmentally appropriate for the age of both the students and grade configuration of the school.

All pupils should read closely the directions posted by the teacher in each classroom. Each teacher will instruct the individual classes as to warning signals and actions to be taken in his/her classroom. When drills are conducted during the school day and the signal is given, students should leave the building quickly and quietly by assigned routes. Return to the building shall be signaled by a warning bell.

Beebe Public School Police Officers

Beebe School District employs five full time uniformed police officers on school campus who also police extracurricular activities. Any such officer is a resource for the school, the students, and parents. The officer(s) will work interactively with students, teachers and administrators in an effort to maintain a safe and wholesome environment that is conducive to learning. Any such officer(s) will be involved in law enforcement, instruction and counseling.

Guidance and Counseling

Beebe High School maintains counseling and guidance for all its students. Students needing assistance with educational, vocational, and personal issues may secure help at the guidance office. An up-to-date library of college catalogs, vocational information and related materials are kept in the Guidance Office for use of students and teachers.

An educational and social record of each student, from the time he entered school, is kept on file. This includes test information, vocational choice, grades and other information considered

beneficial to the student. A student may review this information and bring it up to date at his convenience. The counselor requests at least one personal conference with each student a year.

The faculty and staff want to provide each student with the support to make every day a good day for learning. There are days students face challenges that affect them mentally, emotionally and socially, which can interfere with their schoolwork. The Beebe School District is fortunate to be staffed with guidance counselors who are prepared to assist students when support is needed in one of these areas. In addition to our school counselors, mental health agencies sometimes provide counselors for students during the school day. These counselors work with the building administrators and counselors to assist students in addressing behaviors that interfere with learning.

Parents are always welcome to contact the building counselor at any time during the school day. Parent involvement is a key ingredient for student success, and we appreciate your efforts in making your child's days at Beebe Schools a positive experience. Parents are welcome to visit with the counselor to see their child's test scores, discuss educational plans, or to discuss other problems that their child might be experiencing. If requested, building counselors can provide information to parents regarding available resources for additional student support.

Security Surveillance

Beebe Public School utilizes security cameras to monitor the buildings and campus for safety purposes. School administrators and School Resource Officers will monitor the system.

Visitors on School Campus

Visitors to the campus during school hours are to register with the principal prior to fulfilling the purpose of the visit. Visitors failing to register with the principal may be considered as trespassing. The school discourages students from bringing visitors to school. The school officials and teachers feel that bringing a visitor will result in one's getting less from his/her day than normal, plus the fact that, quite often the visitor should be in attendance in his/her own respective school. Students from other schools may not eat lunch with our students. All persons on school grounds, in school buildings, or at any school sponsored activity must identify themselves to school authorities upon request.

Deliveries

No flowers, balloons, candy, or restaurant/fast food lunches shall be delivered to the school. It tends to be disruptive and might create problems during the school day. Any other item must be delivered via the principal's office.

Contact with Students While at School

Parents wishing to speak to their student during the school day shall report to the office. By law, if parents are legally separated or divorced, each parent has equal rights to the access of the student's school records, unless a parent has a court order that indicates which parent has access to the student's school records. The school must have a copy of the court order on file. Otherwise, either parent may check the student out of school or obtain school records with proper identification.

Contact by Non-Custodial Parent

If there is any question concerning the legal custody of the student, the custodial parent shall present documentation to the principal or the principal's designee establishing the parent's custody of the student. It shall be the responsibility of the custodial parent to make any court ordered no contact or other restrictions regarding the non-custodial parent known to the principal by presenting a copy of a file marked court order. Without such a court order on file, the school will release the child to either of his/her parents. Non-custodial parents who file with the principal a date stamped copy of current court orders granting unsupervised visitation may each lunch, volunteer in their child's classroom, or otherwise have contact with the child during school hours and the prior approval of the school's principal. Such contact is subject to the limitations outlined in Policy 4.16, Policy 6.5, and any other policies that may apply.

Arkansas law provides that, in order to avoid continuing child custody controversies from involving school personnel and to avoid disruptions to the educational atmosphere in the District's schools, the transfer of a child between his/her custodial parent and non-custodial parent, when both parents are present, shall not take place on the school's property or normal school days during normal hours of school operation. The custodial or non-custodial parent may send to/drop off the student at school to be sent to/picked up by the other parent on predetermined days in accordance with any court order provided by the custodial parent or by a signed agreement between both the custodial and non-custodial parents that was witnessed by the student's building principal. Unless a valid no-contact order has been filed with the student's principal or the principal's designee, district employees shall not become involved in disputes concerning whether or not that parent was supposed to pick up the student on any given day.

Contact by Law Enforcement, Social Services, or by Court Order

State Law requires that Department of Human Services employees, local law enforcement, or agents of the Crimes Against Children Division of the Arkansas State Police may interview students without a court order for the purpose of investigating suspected child abuse. In instances where the interviewers deem it necessary, they may exercise a "72-hour hold" without first obtaining a court order. Except as provided below, other questioning of students by non-school personnel shall be granted only with a court order directing such questioning, with permission of

the parents of a student (or the student if above eighteen (18) years of age), or in response to a subpoena or arrest warrant.

If the District makes a report to any law enforcement agency concerning student misconduct or if access to a student is granted to a law enforcement agency due to a court order, the principal or the principal's designee shall make a good faith effort to contact the student's parent, legal guardian, or other person having lawful control by court order, or person acting in loco parentis identified on student enrollment forms. The principal or the principal's designee shall not attempt to make such contact if presented documentation by the investigator that notification is prohibited because a parent, legal guardian, person having lawful control of the student, or person standing in loco parentis is named as an alleged offender of the suspected child maltreatment. This exception applies only to interview requests made by a law enforcement officer, an investigator of the Crimes Against Children Division of the Division of Arkansas State Police, or an investigator or employee of the Department of Human Services.

In instances other than those related to cases of suspected child abuse, principals must release a student to either a police officer who presents a subpoena for the student, or a warrant for arrest, or to an agent of state social services or an agent of a court with jurisdiction over a child with a court order signed by a judge. Upon release of the student, the principal or designee shall give the student's parent, legal guardian, or other person having lawful control of the student, or person standing in loco parentis notice that the student has been taken into custody by law enforcement personnel or a state's social services agency. If the principal or designee is unable to reach the parent, he or she shall make a reasonable, good faith effort to get a message to the parent to call the principal or designee, and leave both a day and an after-hours telephone number.

Contact by Professional Licensure Standards Board Investigators

Investigators for the Professional Licensure Standards Board may meet with students during the school day to carry out the investigation of an ethics complaint.

Privacy of Students' Records/District Information

Parents should notify the school **immediately** if there is a change in address, phone number or emergency contact person(s). It is important to have correct information on file in the event of illness or injury.

Except when a court order regarding a student has been presented to the District to the contrary, all student's educational records are available for inspection and copying by the parent of his/her student who is under the age of eighteen (18). At the age of 18, the right to inspect and copy a student's records transfer to the student. A student's parent or the student, if over the age of 18, requesting to review the student's educational records will be allowed to do so within no more than forty-five (45) days of the request. The District forwards educational records, including disciplinary records, to schools that have requested them and in which the student seeks or

intends to enroll, or is already enrolled so long as the disclosure is for purposes related to the student's enrollment or transfer.

The District shall receive written permission before releasing educational records to any agency or individual not authorized by law to receive and/or view the educational records without prior parental permission. The District shall maintain a record of requests by such agencies or individuals for access to, and each disclosure of, personally identifiable information (PII) from the education records of each student. Disclosure of education records is authorized by law to school officials with legitimate educational interest. A personal record kept by a school staff member is not considered an educational record if it meets the following tests:

1. It is in the sole possession of the individual who made it
2. It is used only as a person memory aid
3. Information contained in it has never been revealed or made available to any other person, except the maker's temporary substitute.

For the purposes of this policy, a school official is a person employed by the school as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel), a person serving on the school board, a person or company with whom the school has contracted to perform a special task (such as attorney, auditor, medical consultant, or therapist), or a parent or student serving on an official committee, such as disciplinary or grievance committee, or assisting another school official in performing his or her tasks. For the purpose of this policy, a school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility, contracted duty, or duty of elected office.

In addition to releasing PII to school officials without permission, the District may disclose PII from the education records of students in foster care placement to the student's caseworker or to the caseworker's representative without prior consent of the parent (or the student if over 18). For the District to release the student's PII without getting permission:

- The student must be in foster care
- The individual to whom the PII will be released must have legal access to the student's case plan and
- The Arkansas Department of Human Services, or a sub agency of the Department, must be legally responsible for the care and protection of the student.

The District discloses personally identifiable information from an education record to appropriate parties, including parent, in connection with an emergency if knowledge of the information is necessary to protect the health or safety of the student or other individuals. The Superintendent or designee shall determine who will have access to and the responsibility for disclosing information in emergency situations.

When deciding whether to release in a health or safety emergency, the District may take into account the totality of the circumstances pertaining to a threat to the health or safety of a student or other individuals. If the District determines that there is an articulable and significant threat to the health or safety of a student or other individuals, it may disclose information from education

records to any person whose knowledge of the information is necessary to protect the health or safety of the student or other individuals.

For the purpose of this policy, the Beebe School District does not distinguish between a custodial and noncustodial parent, or a non-parent such as a person acting in loco parentis or a foster parent with respect to gaining access to a student's records. Unless a court order restricting such access has been presented to the District to the contrary, the fact of a person's status as parent or guardian, alone, enables that parent or guardian to review and copy his/her child's records.

If there exists a court order which directs that a parent not have access to a student or his/her records, the parent, guardian, person acting in loco parentis, or an agent of the Department of Human Services must present a file marked copy of such order to the building principal and the Superintendent. The school will make good faith efforts to act in accordance with such court order, but the failure to do so does not impose legal liability upon the school. The actual responsibility for enforcement of such court orders rests with the parent or guardian, their attorney and the court which issued the order.

A parent or guardian does not have the right to remove any material from a student's records, but such parent or guardian may challenge the accuracy of a record. The right to challenge the accuracy of a record does not include the right to dispute a grade, which must be done only through the appropriate teacher and/or administrator, the decision of whom is final. A challenge to the accuracy of material contained in a student's file must be initiated with the building principal, with an appeal available to the Superintendent or his/her designee. The challenge shall clearly identify the part of the student's record the parent wants changed and specify why he/she believes it is inaccurate or misleading. If the school determines not to amend the record as requested, the school will notify the requesting parent or student of the decision and inform them of their right to a hearing regarding the request for amending the record. The parent or eligible student will provide information regarding the hearing procedure when notified of the right to a hearing.

Unless the parent or guardian of a student (or student, if above the age of 18) objects, directory information about a student may be made available to the public military recruiters, post-secondary educational institutions, prospective employers of those students, as well as school publications such as annual yearbook and graduation announcements. "Directory Information" includes, but is not limited to, a student's name, address, telephone number, electronic email address, photograph, date and place of birth, dates of attendance, his/her placement on the honor roll (or other types of honors), as well as his/her participation in school clubs and extracurricular activities, among others. If the student participates in inherently public activities (for example, basketball, football, or other interscholastic activities), the publication of such information will be beyond the control of the District. "District Information" also includes a student identification (ID) number, user ID, or other unique personal identifier used by a student for purposes of accessing or communicating in electronic systems and student ID number or other unique personal identifier that is displayed on a student's ID badge, provided the ID cannot be used to gain access to education records except when used in conjunction with one or more factors that authenticate the user's identity, such as a personal identification number (PIN),

password or other factor known or possessed only by the authorized user. A student's name and photograph will only be displayed on the District or School's web page(s) after receiving the written permission from the student's parent or student if over age 18.

The form for objecting to making directory information available is located in the office and must be completed and signed by the parent or age-eligible student and filed with the building principal's office no later than ten (10) school days after the beginning of each school year or the date the student is enrolled for school. Failure to file an objection by that time is considered a specific grant of permission. The District is required to continue to honor any signed-opt out form for any student no longer in attendance at the District.

The right to opt out of the disclosure of directory information under FERPA does not prevent the District from disclosing or requiring a student to disclose the student's name, identifier, or institutional email address in a class in which the student is enrolled. Parents and students over the age of 18 who believe the District has failed to comply with the requirements for the lawful release of student records may file a complaint with the U. S. Department of Education at Student Privacy Policy Office, U.S. Dept. of Education, 400 Maryland Avenue, SW, Washington, DC 20202.

The District shall ensure that all contracts that disclose or make available student personally identifiable information to vendors, including school service contract providers, school service on-demand providers, and other third parties, including without limitation subcontractors of contract providers, include express provisions that safeguard the privacy and security of student personally identifiable information that meet the requirements under A.C.A. § 6-18-2601 et seq. The District shall maintain a list of the school service contract providers that the District contracts with for school services that include or make available student personally identifiable information. The list shall be updated at least once at the beginning of each semester and provided to parents upon request.

Student Name, Title, or Pronoun

Unless a District employee has the written permission of the parent, legal guardian, person having lawful control of the student, or person standing in loco parentis to the student or the student if the student is an emancipated minor or over eighteen (18) years of age, a District employee shall not address a student with a:

1. Name other than that listed on the student's birth certificate, except for a derivative of the name; or
2. Pronoun or title that is inconsistent with the student's biological sex.

A student shall not be subject to discipline for declining to address a person using a:

- a. Name other than that listed on the student's birth certificate, except for a derivative of the name; or

- b. Pronoun or title that is inconsistent with the person's biological sex.

Free Textbooks

Textbooks, workbooks, and many other educational materials will be supplied to the student by the school. It must be kept in mind that many of these books are purchased by the school with the expectation of using them for five years. Students who lose, destroy, or deface books which are issued to them will be charged with the responsibility of paying for these items on a pro-rated basis.

Distribution of Literature

Students shall have the right to distribute and possess literature subject to individual building procedures and accordance with Board of Education policies. The District may prohibit a specific issue of a publication if there is a substantial basis to believe its distribution or possession will cause disruption of school activities. Principals have the responsibility to see the Board of Education policies are adhered to.

Library

The library is for your use and convenience. Do not hesitate to consult the librarian or the student assistants for help in locating a book or finding information.

The library is open from 7:30 a.m. until 3:30 p.m. Students do not need permission to go to the library before school, during lunch period, or after school.

All books taken from the library must be checked out to the student. Students are responsible for books checked out until they are returned to the circulation desk and have been placed under the counter. Fines will be charged for overdue or lost books. Information concerning overdue-books will be posted in the library. Students who lose books should consult with the librarian.

Fees/Lockers

1. Each student will be offered a locker with a lock for a rental fee. Students will be required to keep their lockers locked at all times throughout the school year.
2. Lockers are a part of the school and may be opened by school authorities when deemed necessary. Any student who wishes to carry his/her books may do so.
3. Students are to use only their assigned lockers. Sharing of lockers is not permitted.
4. Students will keep lockers neat, orderly and closed. If the locker will not close, contents will be collected and students will pay a fine to get the contents back. Students may only pay locker fines and retrieve contents before and after school.

Reports to Parents

The faculty and administration at Beebe Public School believe that communication between the school and home is extremely important. Several methods will be used by the school to communicate with parents. Open house will be held in the fall for parents to meet teachers and view classrooms. Teachers shall meet the parent(s) or guardian(s) of each student at least once a semester in a parent-teacher conference, a telephone conference, or a home visit. In addition, teachers are encouraged to contact parents frequently through phone calls and e-mail. Parents may also keep abreast of their student's academic progress by using the Home Access Center on the Beebe Public School home page on the Internet.

Report cards will be issued at the end of each nine-week grading period. Notices for report card dates will be made in the local newspaper and on the school's web page to inform parents.

Progress reports will also be sent home at midpoint of each grading period. Teachers or parents may request a conference at this time if they feel it will benefit the student. Parents may request a conference with their child's teacher at any time.

Parent Involvement Plan

Philosophy

We recognize the family as the primary influence in a child's life. We believe:

- A child's education is a responsibility shared by the school staff and family during the entire time they are in school.
- Families and school staff must work as knowledgeable partners.
- Families must play a positive role in providing for student success.

A successful Parental Involvement Plan will include, but not limited to the following components:

- **Parents, Alumni, and Community Involvement**-Volunteer plan, activities and events, resource materials, recognition of parents, information kits, parent center, and a parent facilitator.
- **School Programs**-School programs are provided to assist parents including but not limited to those with limited English proficiency, parents, with disabilities, and parents of migratory children.
- **School Policies**-school policies are implemented which encourage parental involvement and participation.

Volunteer Organizations

Beebe School has some parent volunteer organizations. Through these programs, parents and interested citizens have an opportunity to contribute their time in a variety of ways and make a significant contribution to the educational program of the school. Applications for being a volunteer can be obtained through the district office.

College Entrance Requirements

Beebe High School is fully accredited by North Central Association; however, most colleges and universities recommend either the American College Test (ACT) or College Entrance Examination Board Scholastic Aptitude Test (SAT) for admission. Applications for these tests are available in the Guidance Office. Frequent announcements will be made concerning various tests.

Entrance requirements differ; therefore, students should check with the bulletin of the school for their choice. College catalogs for many of the colleges and universities are on file in the Guidance Office.

Colleges and universities also consider the student's scholastic record, intelligence, health, personality, character and activities in which one participates.

Student Participation in Surveys (Act 1100 of 2003)

No student shall be required to submit to a survey, analysis, or evaluation which is administered or distributed by the Beebe School District, and is funded in whole or in part by any program administered by the U.S. Department of Education without the prior written consent of the Parent/Guardian that reveals information concerning the following: **political affiliations, mental and psychological problems potentially embarrassing to the student or his/her family, sex behavior, and attitudes, illegal, anti-social, self-incriminating, demeaning behavior , critical appraisals of other individuals with whom respondents have close family relationships; legally recognized privileged or analogous relationships, such as those of lawyers, physicians, and ministers; religious practices, affiliations, or beliefs of the student or student's parents; or income (other than required by law to determine eligibility for participation in a program or for receiving financial assistance under such program.)** No survey will be administered without prior approval of the school principal. Prior written parental permission is required before any survey or questionnaire is administered.

Surveys will be in the administrative office where they will be available for inspection by the parents or guardians for a period of ten (10) days prior to being sent. Information will be given on how the survey will be conducted, where the surveys shall be available for inspections, how they will be utilized, and the persons or entities that will have access to the results.

Parents may refuse to allow their student to participate before or after reviewing the survey or questionnaire. This does not apply to students in accordance with the IDEA. This does not include mandated tests by state or federal law or regulation and standardized scholastic achievement tests.

Lost and Found

Found articles are to be turned in at the office. Recovery will be made at the office upon identification by the student. Articles which are not claimed by the end of the year will be distributed to needy families or organizations which help those in need.

In order for a person under the age of eighteen (18) years to establish a residence for the purpose of attending the District's schools separate and apart from his or her parent, legal guardian, person having lawful control of the student, or a person standing in loco parentis, the student is required to reside in the District for a primary purpose other than that of school attendance; however, a student previously enrolled in the district whose parents move the student into another district or who is placed under the legal guardianship of a noncustodial parent living outside the district by a custodial parent on active military duty may continue to attend district schools.² A foster child who was previously enrolled in a District school and who has had a change in placement to a residence outside the District, may continue to remain enrolled in his/her current school unless the presiding court rules otherwise.³

Under instances prescribed in A.C.A. § 6-18-203, a child or ward of an employee of the district or of the education coop to which the district belongs may enroll in the district even though the employee and the employee's child or ward reside outside the district.⁴

A child may complete all remaining school years at the enrolled school district regardless of mobilization, deployment, or military status of the parent or guardian. The Arkansas Purple Star School Award for military-friendly schools recognizes schools that show a major commitment to serving students and families connected to our nation's armed forces. The individual the superintendent designates as the District’s military education coordinator shall have specialized knowledge regarding the educational needs of children of military families and the obstacles that children of military families face in obtaining an education.

5. Be provided services comparable to those the student with disabilities received in his/her previous school based on his/her previous Individualized Education Program (IEP). This does not preclude the District school from performing subsequent evaluations to ensure appropriate placement of the student;

"Host family" means the individual or family with whom an international exchange student is placed by an international student exchange visitor placement organization under the International Student Exchange Visitor Placement Organization Registration Act, § 6-18-1701 et seq..

"International exchange student" means a student who is placed with a host family by an international student exchange visitor placement organization under the International Student Exchange Visitor Placement Organization Registration Act, § 6-18-1701 et seq.

Before an international exchange student may attend a District school, the District requires all international student exchange visitor placement organizations that are placing international exchange students within the District to:

- Be certified by the Council on Standards for International Educational Travel;
- Provide documented proof of the international exchange student's English proficiency;
- and
- Notify the District at least three (3) weeks before the beginning of the academic semester the international exchange student plans to enroll in the District.

The District shall admit for enrollment and attendance an international exchange student who has been placed with a host family who resides within the District boundaries. The international exchange student shall attend the school in the District based on the attendance zone where the host family resides.⁶

Upon an international exchange student's arrival, the international exchange student may be required to submit to quarantine to prevent the spread of infectious diseases as may be necessary, which shall not exceed seven (7) days unless otherwise recommended by the Arkansas Department of Health or the Centers for Disease Control and Prevention.

International exchange students are expected to follow the District handbook and student code of conduct as the District has the authority to expel a student for violations of the school district's written student discipline policies or if the international exchange student presents a danger to the District's students or employees.

Statewide assessment results achieved by an international exchange student enrolled in the District shall be included in the District's results on the statewide assessments.⁷

The District shall provide English-language services to international exchange students as necessary.⁸

Student Transfers

Transfer applications received by the District shall be placed on the Board's next meeting agenda.¹ At least five (5) days before the meeting where the transfer application appears on the agenda, the superintendent shall notify the Board regarding:

- All transfer applications received since the last meeting; and
- The superintendent's recommendation concerning each transfer application.

Each transfer application shall be considered individually and receive a separate vote by the Board. The parent, legal guardian, person having lawful control of the student, or person standing in loco parentis to a student who submits a transfer application shall be given at least five (5) minutes to present the student's case for a transfer to the Board.

The Board may reject a nonresident's application for admission if its acceptance would necessitate the addition of staff or classrooms, exceed the capacity of a program, class, grade level, or school building, or cause the District to provide educational services not currently provided in the affected school.² The District shall reject applications that would cause it to be out of compliance with applicable laws and regulations regarding desegregation.

If the superintendent intends to recommend the Board deny the transfer application, the superintendent shall provide a written explanation of the reasons for the recommendation to the Board and the parent, legal guardian, person having lawful control of the student, or person standing in loco parentis to the student.

The parent, legal guardian, person having lawful control of a student, or person standing in loco parentis to the student who submitted a transfer application that was rejected may appeal the decision of the Board to the State Board of Education.

Any student transferring from a school accredited by the Division of Elementary and Secondary Education (DESE) to a school in this district shall be placed into the same grade the student would have been in had the student remained at the former school. Any grades, course credits, and/or promotions received by a student while enrolled in the Division of Youth Services system of education shall be considered transferable in the same manner as those grades, course credits, and promotions from other accredited Arkansas public educational entities.

Any student transferring from home school or a school that is not accredited by the DESE to a District school shall be evaluated by District staff to determine the student's appropriate grade placement. A student transferring from home school will be placed in accordance with Policy 4.6—HOME SCHOOLING

Any person who has been expelled from any other school district shall receive a hearing before the Board at the time the student is seeking enrollment in the District. The Board reserves the right to not allow the enrollment of such students until the time of the person's expulsion has expired following the hearing before the Board.

Except as otherwise required or permitted by law, the responsibility for transportation of any nonresident student admitted to a school in this District shall be borne by the student or the student's parents. The District and the resident District may enter into a written agreement with the student or student's parents to provide transportation to or from the District, or both.

School Choice

Standard School Choice

Definition

"Sibling" means each of two (2) or more children having a common parent in common by blood, adoption, marriage, or foster care.

TRANSFERS INTO THE DISTRICT

Arkansas Course Choice Program

District students are eligible to take courses through the Arkansas Course Choice Program (ACCP) if the student is:

- Seeking to take a course not offered by the District; or
- Attending a District school that received a school letter grade of C, D, or F.¹

The ACCP course catalog shall be made available to all students during student course selection.² The District shall not actively discourage, intimidate, or threaten a student during course selection to not take a course through the ACCP.

A student attending courses through the ACCP shall enroll in at least one (1) course at the District, which may be either in person or a digital course offered by the District.

A District student attending courses through the ACCP is entitled to the following services as if the student were attending courses at the District:

1. Required assessments, including without limitation:
 - a. Statewide assessments;
 - b. Advanced Placement; and
 - c. International Baccalaureate,
2. Participation in extracurricular or cocurricular activities; and
3. Special education services pursuant to the student's individualized education program.

Credits earned through the ACCP shall appear on a student's official transcript and count fully towards the student's graduation requirements.

Capacity Determination and Public Pronouncement

The Board of Directors will adopt a resolution containing the capacity standards for the District. The resolution will contain the acceptance determination criteria identified by academic

program, class, grade level, and individual school. The school is not obligated to add any teachers, other staff, or classrooms to accommodate choice applications. The District may only deny a Standard School Choice application if the District has a lack of capacity by the District having reached ninety percent (90%) of the maximum student population in a program, class, grade level, or school building authorized by the Standards or other State/Federal law.

The District shall advertise in appropriate broadcast media and either print media or on the Internet to inform students and parents in adjoining districts of the range of possible openings available under the School Choice program. The public pronouncements shall state the application deadline; the requirements and procedures for participation in the program; and include contact information for the primary point of contact at the District for school choice questions. Such pronouncements shall be made in the spring, but in no case later than January 31.

Application Process

The student's parent shall submit a school choice application on a form approved by ADE to this District along with a copy to the student's resident district. Except for students who are transferring under Uniformed Service Member Dependent School Choice, the transfer application must be postmarked or hand delivered on or before May 1 of the year preceding the fall semester the applicant would begin school in the District. The District shall date and time stamp all applications the District receives as both the resident and nonresident district as they are received in the District's central office. Except for applications from students who are transferring under Uniformed Service Member Dependent School Choice, applications postmarked or hand delivered on or after May 2 will not be accepted. Statutorily, preference is required to be given to siblings of students who are already enrolled in the District. Therefore, siblings whose applications fit the capacity standards approved by the Board of Directors may be approved ahead of an otherwise qualified non-sibling applicant who submitted an earlier application as identified by the application's date and time stamp.

Except for students who are transferring under Uniformed Service Member Dependent School Choice, no earlier than January 1 of each year, the Superintendent will consider all properly submitted applications for School Choice. By July 1, the Superintendent shall notify the parent and the student's resident district, in writing, of the decision to accept or reject the application.

Accepted Applications

Applications which fit within the District's stated capacity standards shall be provisionally accepted, in writing, with the notification letter stating a reasonable timeline by which the student shall enroll in the District by taking the steps detailed in the letter, including submission of all required documents. If the student fails to enroll within the stated timeline, or if all necessary steps to complete the enrollment are not taken, or examination of the documentation indicates the applicant does not meet the District's stated capacity standards, the acceptance shall be null and void.

A student, whose application has been accepted and who has enrolled in the District, is eligible to continue enrollment until completing his/her secondary education. Continued enrollment is conditioned upon the student meeting applicable statutory and District policy requirements. Any student who has been accepted under choice and who fails to initially enroll under the timelines and provisions provided in this policy; chooses to return to his/her resident district; or enrolls in a home school or private school voids the transfer and must reapply if, in the future, the student seeks another school choice transfer. A subsequent transfer application will be subject to the capacity standards applicable to the year in which the application is considered by the District.

A present or future sibling of a student who continues enrollment in this District may enroll in the District by submitting a Standard School Choice application. Applications of siblings of presently enrolled choice students are subject to the provisions of this policy including the capacity standards applicable to the year in which the sibling's application is considered by the District. A sibling who enrolls in the District through Standard School Choice is eligible to remain in the District until completing his/her secondary education.

Students whose applications have been accepted and who have enrolled in the district shall not be discriminated against on the basis of gender, national origin, race, ethnicity, religion, or disability.

Rejected Applications

The District may reject an application for a transfer into the District under Standard School Choice due to a lack of capacity. However, the decision to accept or reject an application may not be based on the student's previous academic achievement, athletic or other extracurricular ability, English proficiency level, or previous disciplinary proceedings other than a current expulsion.

Rejection of applications shall be in writing and shall state the reason(s) for the rejection. A student whose application was rejected may request a hearing before the State Board of Education to reconsider the application. The request for a hearing must be submitted in writing to the State Board within ten (10) days of receiving the rejection letter from the District.

Transfers Out of the District

All Standard School Choice applications for transfers out of the District shall be granted.

Facilities Distress School Choice Applications

There are a few exceptions from the provisions of the rest of this policy that govern choice transfers triggered by facilities distress. Any student attending a school district that has been identified as being in facilities distress may transfer under the provisions of this policy, but with the following four (4) differences:

- The receiving district cannot be in facilities distress;

- The transfer is only available for the duration of the time the student's resident district remains in facilities distress;
- The student is not required to meet the May 1 application deadline; and
- The student's resident district is responsible for the cost of transporting the student to this District's school.

OPPORTUNITY SCHOOL CHOICE

Transfers Into or Within the District

For the purposes of this section of the policy, a “lack of capacity” is defined as when the receiving school has reached the maximum student-to-teacher ratio allowed under federal or state law, the DESE Rules for the Standards for Accreditation, or other applicable rules. There is a lack of capacity if, as of the date of the application for Opportunity School Choice, ninety-five percent (95%) or more of the seats at the grade level at the nonresident school are filled.

Unless there is a lack of capacity at the District’s school or the transfer conflicts with the provisions of a federal desegregation order applicable to the District, a student may transfer from the student’s assigned school to another school in the District or from the student’s resident district into the District if:

- Either:
 - The student’s resident district has been classified by the state board as in need of Level 5 — intensive support; or
 - The student’s assigned school has a rating of "F"; and
- Except for students who are transferring under Uniformed Service Member Dependents School Choice, the student’s parent, guardian, or the student if the student is over eighteen (18) years of age has submitted an application of the student’s request to transfer by no earlier than January 1 and no later than May 1 of the school year before the school year the student intends to transfer to both the sending and receiving school districts.

Except for students who are transferring under Uniformed Service Members Dependent School Choice or seeking to transfer within the District, the Superintendent shall notify in writing the parent or guardian, or the student if the student is over eighteen (18) years of age, and the student’s resident district whether the Opportunity School Choice application has been accepted or rejected by no later than July 1 of the school year the student is seeking to enroll. If the student is seeking a transfer within the District, the Superintendent shall notify in writing the parent or guardian, or the student if the student is over eighteen (18) years of age, whether the Opportunity School Choice application has been accepted or rejected within fifteen (15) days from receipt of the student’s application. The notification shall be sent via First-Class Mail to the address on the application.

If the application is accepted, the notification letter shall state the deadline by which the student must enroll in the receiving school or the transfer will be null and void.

If the District rejects the application, the District shall state in the notification letter the specific reasons for the rejection. Unless the student's application was rejected due to the application not being timely received by both the resident and nonresident districts, a parent or guardian, or the student if the student is over eighteen (18) years of age, may appeal the District's decision to deny the application to the State Board of Education. The appeal must be in writing to the State Board of Education via certified mail, return receipt requested, no later than ten (10) calendar days, excluding weekends and legal holidays, after the notice of rejection was received from the District.

Except for students who are transferring under Uniformed Service Member Dependent School Choice, a student's transfer under Opportunity School choice is effective at the beginning of the next school year and the student's enrollment is irrevocable for the duration of the school year and is renewable until the student completes high school or is beyond the legal age of enrollment. This provision for continuing eligibility under Opportunity School Choice does not negate the student's right to apply for transfer to a district other than the student's assigned school or resident district under the Standard School Choice provisions of this policy.

The District may, but is not obligated to provide transportation to and from the transferring district.

Transfers out of, or within, the District

If a District school receives a rating of "F" or the District has been classified by the State Board as in need of Level 5 Intensive Support, the District shall timely notify the parents, guardians, or students, if over eighteen (18) years of age, as soon as practicable after the school or district designation is made of all options available under Opportunity School Choice. The District shall offer the parent or guardian, or the student if the student is over eighteen (18) years of age, an opportunity to submit an application to enroll the student in a school district that has not been classified by the State Board as in need of Level 5 Intensive Support or in a public school that does not have a rating of "F".

Additionally, the District shall request public service announcements to be made over the broadcast media and in the print media at such times and in such a manner as to inform parents or guardians of students in adjoining districts of the availability of the program, the application deadline, and the requirements and procedure for nonresident students to participate in the program.

Uniformed Service Member Dependent School Choice

"Uniformed service member" means an active or reserve component member of the:

- United States Army, United States Navy, United States Air Force, United States Marine Corps, United States Space Force, or United States Coast Guard;
- National Oceanic and Atmospheric Administration Commissioned Officer Corps; or
- United States Commissioned Corps of the Public Health Service.

"Uniformed service veteran" means a former uniformed service member who has been discharged under conditions other than dishonorable.

A student shall be eligible for school choice under Uniformed Service Member Dependent School Choice if the student is a dependent of a:

- o Uniformed service member in full-time active-duty status;
- o Surviving spouse of a uniformed service member;
- o Reserve component uniformed service member during the period six (6) months before until six (6) months after a Title 10, Title 32, or state active duty mobilization and service; or
- o Uniformed service veteran who is returning to civilian status at the conclusion of the uniformed service veteran's active duty status.

A student's parent, legal guardian, person having lawful control of a student, or person standing in loco parentis to the student shall submit a school choice application by mail, e-mail, or in person to the student's nonresident district and resident district. The application shall be accompanied by:

- a. A copy of the identification card of the student's parent, legal guardian, person having lawful control of the student, or person standing in loco parentis that qualifies the student under this section; and
- b. A copy of the official orders, assignment notification, or notice of mobilization of the student's parent, legal guardian, person having lawful control of the student, or person standing in loco parentis.

The application deadline required under Standard School Choice and Opportunity School Choice shall not apply to uniformed service member dependents.

The superintendent of the nonresident district shall notify the parent, legal guardian, person having lawful control of the student, or person standing in loco parentis of the student in writing whether the student's application has been accepted or rejected within fifteen (15) days of the nonresident district's receipt of the application. A student's transfer under the Uniformed Services Member Dependent School Choice is effective immediately upon the nonresident district's written notification of an acceptance.

A student shall be permitted only one (1) school transfer per academic year.

The parent, legal guardian, person having lawful control of a student, or person standing in loco parentis to a student shall be responsible for transportation of the student.

Unsafe School Choice Program

Any student that becomes the victim of a violent criminal offense while in or on the grounds of a District school or who is attending a school classified by DESE as a persistently dangerous public school shall be allowed to attend a safe public school within the District.

Homeless Students

The Beebe School District will afford the same services and educational opportunities to homeless children as are afforded to non-homeless children. The Superintendent or his/her designee shall appoint an appropriate staff person to be the local educational liaison for homeless children and youth whose responsibilities shall include coordinating with the state educational liaison for homeless children and youth to ensure that homeless children are not stigmatized or segregated on the basis of their status as homeless and such other duties as are prescribed by law and this policy.

Homeless students living in the district are entitled to enroll in the district's school that non-homeless students who live in the same attendance area are eligible to attend. If there is a question concerning the enrollment of a homeless child due to a conflict, the child shall be immediately admitted to the school in which enrollment is sought pending resolution of the dispute. It is the responsibility of the District's local educational liaison for homeless children and youth to carry out the dispute resolution process.

To the extent feasible, the District shall do one of the following according to what is in the best interests of a homeless child. (For the purposes of this policy "school of origin" means the school the child attended when permanently housed or the school in which the child was last enrolled.)

1. continue educating the child who becomes homeless between academic years or during an academic year in their school of origin for the duration of their homelessness;
2. continue educating the child in his/her school of origin who becomes permanently housed during an academic year for the remainder of the academic year; or
3. enroll the homeless child in the school appropriate for the attendance zone where the child lives.

If the District elects to enroll a homeless child in a school other than their school of origin and such action is against the wishes of the child's parent or guardian, the District shall provide the parent or guardian with a written explanation of their reason for so doing which shall include a statement of the parent/guardian's right to appeal.

In any instance where the child is unaccompanied by a parent or guardian, the District's local educational liaison for homeless children and youth shall assist the child in determining his/her place of enrollment. The Liaison shall provide the child with a notice of his/her right to appeal the enrollment decision.

The District shall be responsible for providing transportation for a homeless child, at the request of the parent or guardian (or in the case of an unaccompanied youth, the Liaison), to and from the child's school of origin.

A homeless student shall be immediately eligible to participate in interscholastic activities at the school in which the student is enrolled.

For the purposes of this policy, students shall be considered homeless if they lack a fixed, regular, and adequate nighttime residence and

- A. Are;
 - Sharing the housing of other persons due to loss of housing, economic hardship, or a similar reason;
 - Living in motels, hotels, trailer parks, or camping grounds due to the lack of alternative adequate accommodations;
 - Living in emergency or transitional shelters;
 - Abandoned in hospitals; or
 - Awaiting foster care placement;
- B. Have a primary nighttime residence that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation for human beings;
- C. Are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations, or similar settings;
- D. Are migratory children who are living in circumstances described in clauses (a) through (c).

Home Schooling

Enrollment in Home School

Parents or legal guardians desiring to provide a home school for their children shall give written notice to the Superintendent of their intent to home-school. The notice shall be given:

1. At the beginning of each school year, but no later than August 15;
2. Fourteen (14) calendar days prior to withdrawing the child (provided the student is not currently under disciplinary action for violation of any written school policy, including, but not limited to, excessive absences) and at the beginning of each school year thereafter; or
3. Within thirty (30) calendar days of the parent or legal guardian establishing residency within the district during the school year.

Written notice of the parent or legal guardian's intent to home-school shall be delivered to the Superintendent through any of the following methods:

- Electronically, including without limitation by email;
- By mail; or
- In person.

The notice shall include:

- a. The name, sex, date of birth, grade level, and the name and address of the school last attended, if any;
- b. The mailing address and telephone number of the home school;
- c. The name of the parent or legal guardian providing the home school;

- d. Indicate if the home-schooled student intends to participate in extracurricular activities during the school year;
- e. A statement of whether the home-schooled student plans to seek a high school equivalency diploma during the current school year;
- f. A statement if the home-school student plans to seek a driver's license during the current school year;
- g. A statement that the parent or legal guardian agrees that the parent or legal guardian is responsible for the education of their children during the time the parents or legal guardians choose to home school; and
- h. A signature of the parent or legal guardian, which must be notarized if the home-schooled student plans to seek a driver's license during the school year.

To aid the District in providing a free and appropriate public education to students in need of special education services, the parents or legal guardians home-schooling their children shall provide information that might indicate the need for special education services.

Enrollment or Re-Enrollment in Public School

A home-schooled student who wishes to enroll or re-enroll in a District school shall submit:

- A transcript listing all courses taken and semester grades from the home school;
- A score of at least the thirtieth percentile on a nationally recognized norm-referenced assessment taken in the past year; and
- A portfolio of indicators of the home-schooled student's academic progress, including without limitation:
 - Curricula used in the home school;
 - Tests taken and lessons completed by the home-schooled student; and
 - Other indicators of the home-schooled student's academic progress.

If a home-schooled student is unable to provide a nationally recognized norm-referenced score, the District may either assess the student using a nationally recognized norm-referenced assessment or waive the requirement for a nationally recognized norm-referenced assessment score.

A home-schooled student who enrolls or re-enrolls in the District will be placed at a grade level and academic course level equivalent to or higher than the home-schooled student's grade level and academic course level in the home school:

1. As indicated by the documentation submitted by the home-schooled student;
2. By mutual agreement between the public school and the home-schooled student's parent or legal guardian; or
3. If the home-schooled student fails to provide the documentation required by this policy, with the exception of the nationally recognized norm-referenced assessment score, the District may have sole authority to determine the home-schooled student's grade placement and course credits. The District will determine the home-schooled student's grade placement and course credits in the same manner the District uses when

determining grade placement and course credits for students enrolling or re-enrolling in the District who attended another public or private school.

The District shall afford a home-schooled student who enrolls or re-enrolls in a public school the same rights and privileges enjoyed by the District's other students. The District shall not deny a home-schooled student who enrolls or re-enrolls in the District any of the following on the basis of the student having attended a home school:

- a. Award of course credits earned in the home school;
- b. Placement in the proper grade level and promotion to the next grade level;
- c. Participation in any academic or extracurricular activity;
- d. Membership in school-sponsored clubs, associations, or organizations;
- e. A diploma or graduation, so long as the student has enrolled or re-enrolled in the District to attend classes for at least the nine (9) months immediately prior to graduation; or
- f. Scholarships.

Foster Children

The District will afford the same services and educational opportunities to foster children that are afforded other children and youth. The District shall work with the Department of Human Services "DHS" the Division of Elementary and Secondary Education (DESE), and individuals involved with each foster child to ensure that he/she is able to maintain his/her continuity of educational services to the fullest extent that is practical and reasonable.

The Superintendent or his/her designee shall appoint an appropriate staff person to be the local educational liaison for foster children and youth whose responsibilities shall include ensuring the timely school enrollment of each foster child and assisting foster children who transfer between schools by expediting the transfer of relevant educational records.

The District, working with other individuals and agencies shall, unless the presiding court rules otherwise, or DHS grants a request to transfer under Foster Child School Choice, ensure that the foster child remains in his/her current school, even if a change in the foster child's placement results in a residency that is outside the District. In such a situation, the District will work to arrange transportation to and from school for the foster child to the extent it is reasonable and practical.

Upon notification to the District's foster care liaison by a foster child's caseworker that a foster child's school enrollment is being changed to one of the District's schools, the school receiving the child must immediately enroll him/her. Immediate enrollment is required even if the child lacks the required clothing, academic or medical records, or proof of residency.

A foster child's grades shall not be lowered due to absences from school that are caused by a change in the child's school enrollment, the child's attendance at dependency-neglect court proceedings, or other court ordered counseling or treatments.

Any coursework completed by the foster child prior to a school enrollment change shall be accepted as academic credit so long as the child has satisfactorily completed the appropriate academic placement assessment.

If a foster child was enrolled in a District school immediately prior to completing his/her graduation requirements while detained in a juvenile detention facility or while committed to the Division of Youth Services of DHS, the District shall issue the child a diploma.

Foster Child School Choice

If DHS approves a request from a foster parent, or the foster child if the foster child is eighteen (18) years of age, to transfer to another school in the District or into the district as being in the best interest of the foster child, the District shall allow the foster child to transfer to another school in the District or into the District if the foster parent, or the foster child if the foster child is eighteen (18) years of age, submits a request to transfer on a form approved by ADE that is postmarked by no later than May 1 of the year the student seeks to begin the fall semester at another school in the District or in the District.

By July 1 of the school year in which the student seeks to transfer under this section, the superintendent shall notify the foster parent, or the foster child if the foster child is eighteen (18) years of age, in writing whether the application has been accepted or rejected. If the application is accepted, the superintendent shall state in the notification letter a reasonable deadline for the foster child to enroll in the new school or the District and that failure to enroll by the date shall void the school choice acceptance. If the application is rejected, the superintendent shall state in the notification letter the reason for the rejection and that the foster parent, or the foster child if the foster child is eighteen (18) years of age, may submit a written appeal of the rejection to the State board within ten (10) days of receiving the notification letter.

The District shall only reject a Foster Child School Choice application if:

1. The public school or District has reached the maximum student-to-teacher ratio allowed under federal law; state law; the standards for accreditation; or other applicable State rule or Federal regulation; or
2. Approving the transfer would conflict with a provision of an enforceable desegregation court order or a public school district's court-approved desegregation plan regarding the effects of past racial segregation in student assignment.

A foster child whose application is rejected by the District may submit a written request within ten (10) days following the receipt of the rejection letter from the superintendent to the State Board of Education for the State Board to reconsider the transfer.

A Foster Child School Choice transfer shall remain in effect until the foster child:

- Graduates from high school; or
- Transfers to another school or school district under:
 - The Foster Child School Choice Act;
 - Opportunity Public School Choice Act of 2004;
 - The Public School Choice Act of 2015; or

- Any other law that allows a transfer.

The District shall accept credits toward graduation that were awarded by another public school district.

When a foster child transfers from the foster child's school of origin to another school in the District or into the District, the foster child or the foster parent is responsible for the foster child's transportation to and from the school the foster child transferred to. The District and the foster parent, or the foster child if the foster child is eighteen (18) years of age, may enter into a written agreement for the District to provide the transportation to and from the school the foster child transferred to.

Moving from the School District

If a student leaves this school to go to another school, he/she should get a checkout sheet from the office and have his/her teachers, the food services manager, and the librarian sign it. The student should return the checkout sheet to the office for the principal's signature. All fees and fines should be paid before checking out. Any student who owes an obligation to the school will not be issued a transcript.

ATTENDANCE

Attendance Policy

If any student's Individual Education Program (IEP) or 504 Plan conflicts with this policy, the requirements of the student's IEP or 504 Plan take precedence.

Education is more than the grades students receive in their courses. Important as that is, students' regular attendance at school, whether in person or digitally, is essential to their social and cultural development and helps prepare them to accept the responsibilities they will face as an adult. Interactions with other students and participation in the instruction within the classroom enrich the learning environment and promote a continuity of instruction which results in higher student achievement.

Absences for students enrolled in synchronous digital courses shall be determined in the same manner as for District students attending courses in person.

Absences from School

School Districts are given the right to limit excused absences as well as unexcused absences.

Missing more than 8 absences in a semester is considered chronic absenteeism and affects the education of the student. For this reason, Beebe School District is implementing the following attendance policy.

Students may not exceed more than eight (8) excused absences in a semester. This includes excused and unexcused absences. At the discretion of the principal after consultation with persons having knowledge of the circumstances of the absences, the student may be denied credit, promotion or graduation if they have exceeded the number of days absent. Excessive absences shall not be a reason for expulsion or dismissal of a student.

When a student has (4) absences, his/her parents, legal guardians, persons with lawful control of the student, or persons standing in loco parentis shall be notified. Notification shall be by telephone by the end of the school day in which such absence occurred or by regular mail with a return address sent no later than the following school day.

Whenever a student exceeds (10) absences in a semester, the District shall notify the prosecuting authority and the parent, legal guardian, person having lawful control of the student, or persons standing in loco parentis shall be subject to a civil penalty as prescribed by law.

It is the Arkansas General Assembly's intention that students having excessive absences be given assistance in obtaining credit for their courses. Therefore, at any time prior to when a student exceeds the number of absences permitted by this policy, the student, or his/her parent, legal guardian, person with lawful control of the student, or person standing in loco parentis may

petition the school or district's administration for special arrangements to address the student's absences. If formal arrangements are granted, they shall be formalized into a written agreement which will include the conditions of the agreement and the consequences for failing to fulfill the agreement's requirements. The agreement shall be signed by the student, the student's parent, legal guardian, person having lawful control of the student or, person standing in loco parentis, and the school or district administrator or designee.

For the purpose of this agreement, the following definitions shall apply to excused and unexcused absences.

Excused absences are those where the student was on official school business or when the absence was due to one of the following reasons:

1. The student's illness or when attendance could jeopardize the health of other students. A maximum of six (6) such days are allowed per semester unless the condition(s) causing such absences is of a chronic or recurring nature, is medically documented, and approved by the principal.
2. Death or serious illness in their immediate family; (not to exceed 2 days in state or 3 days out of state without administrative prior approval)
3. Observance of recognized holidays observed by the student's faith;
4. Attendance at an appointment with a government agency;
5. Attendance at a medical appointment;
6. Exceptional circumstances with prior approval of the principal;
7. Participation in an FFA, FHA, or 4-H sanctioned activity;
8. Participation in the election poll workers program for high school students.
9. Absences granted to allow a student to visit his/her parent or legal guardian who is a member of the military and been called to active duty, is on leave from active duty, or has returned from deployment to a combat zone or combat support posting. The number of additional excused absences shall be at the discretion of the superintendent or designee.
10. Absences granted, at the Superintendent's discretion, to seventeen (17) year-old students who join the Arkansas National Guard while in eleventh grade to complete basic combat training between grades eleven (11) and (12).
11. Absences for students excluded from school by the Arkansas Department of Health during a disease outbreak because the student has an immunization waiver or whose immunizations are not up to date.
12. Absences due to conditions related to pregnancy or parenting, including without limitation:
 - Labor, delivery, and recovery;

- Prenatal and postnatal medical appointments and other medically necessary, pregnancy-related absences;
- The illness or medical appointment of a child belonging to a parent who is enrolled at a District school;
- A legal appointment related to pregnancy or parenting, including without limitation:

 - Visitation;
- A reasonable amount of time to accommodate a lactating student's need to express breast milk or to breastfeed the student's child on the District's campus; and
- At least ten (10) school days of absences for both a parenting mother and a parenting father after the birth of a child.⁶

Students who serve as pages for a member of the General Assembly shall be considered on instructional assignment and shall not be considered absent from school for the day the student is serving as a page.

Up to one (1) time during each scheduled election, a student shall not be considered absent from school for the time the student accompanies the student's parent when the parent is exercising the parent's right to vote in a scheduled election.

In order for the absence to be considered excused, the student must:

- a. Bring a written statement to the principal or designee upon the student's return to school from the student's parent, legal guardian, or treating physician stating the reason for the student's absence; or
- b. If the student is attending the District's courses digitally, upload a written statement from the student's parent or legal guardian stating the reason for the student's absence through the District's digital course management platform for review by the principal or designee.
- c. Provide documentation as proof of a student's participation in an activity or program scheduled and approved by the 4-H program that is provided by a 4-H county extension agent, 4-H educator, or other appropriate entity associated with the 4-H activity or program.

Unexcused Absences

Absences that are not defined above; do not have an accompanying note from the parent, legal guardian, person having lawful control of the student, person standing in loco parentis, the student's treating physician, or a 4-H county extension agent, 4-H educator, or other appropriate entity associated with the 4-H activity or program;

Students with (8) unexcused absences in a course in a semester may not receive credit for that course. At the discretion of the principal after consultation with persons having knowledge of the circumstances of the absences, the student may be denied promotion or graduation. Excessive absences shall not be a reason for expulsion or dismissal of a student.

Students who attend in-school suspension shall not be counted absent for those days.

Days missed due to out-of-school suspension or expulsion shall be unexcused absences.

The District shall notify the Department of Finance and Administration whenever a student fourteen (14) years of age or older is no longer in school. The Department of Finance and Administration is required to suspend the former student's operator's license unless he/she meets certain requirements specified in the statute.

Compulsory Attendance Requirements

It is very important that all students and parents understand that school attendance is necessary for appropriate educational objectives to be met by the students. Every parent, legal guardian, person having lawful control of the child, or person standing in loco parentis of any child age five (5) through seventeen (17) years on or before August 1 of that year who resides, as defined by policy (4.1—RESIDENCE REQUIREMENTS), within the District shall enroll and send the child to a District school with the following exceptions

1. The child is enrolled in private or parochial school.
2. The child is being home-schooled and the conditions of policy (4.6—HOMESCHOOLING) have been met.
3. The child will not be age six (6) on or before August 1 of that particular school year and the parent, legal guardian, person having lawful control of the child, or person standing in loco parentis of the child elects not to have him/her attend kindergarten. A kindergarten waiver form prescribed by regulation of the Division of Elementary and Secondary Education must be signed and on file with the District administrative office.
4. The child has received a high school diploma or its equivalent as determined by the State Board of Education.
5. The child is age sixteen (16) or above and is enrolled in a post-secondary vocational-technical institution, a community college, or a two-year or four-year institution of higher education.
6. The child is age sixteen (16) or seventeen (17) and has met the requirements to enroll in an adult education program as defined by A.C.A. § 6-18-201 (b).

Procedures for Absences

Parents are to call before 9:00 a.m. to inform the school of their child's absence.

It is the responsibility of the parent and student to keep up with doctor's notes or any documentation for missed days.

It is the responsibility of the parent to contact their child's building administrator when their child is at risk of exceeding the number of allowed absences.

A parent who wishes to dispute a student's attendance record and/or loss of credit must do so within 30 days of the end of the semester for which the absences or loss of credit occurred.

Doctor's notes or school excuses will only be taken within (2) weeks of the last day absent (if for multiple days).

Make-Up Work

Students who miss school due to an excused absence shall be allowed to make up the work they missed during their absence under the following rules.¹

1. Students are responsible for asking the teachers of the classes they missed what assignments they need to make up.
2. Teachers are responsible for providing the missed assignments when asked by a returning student.²
3. Students are required to ask for their assignments on their first day back at school or their first class day after their return.³
4. Make-up tests are to be rescheduled at the discretion of the teacher, but must be aligned with the schedule of the missed work to be made up.
5. Students shall have one class day (unless specified by the teacher) to make up their work for each class day they are absent.³
6. Make-up work which is not turned in within the make-up schedule for that assignment shall receive a zero.⁴
7. Students are responsible for turning in their make-up work without the teacher having to ask for it.²
8. Students who are absent on the day their make-up work is due must turn in their work the day they return to school whether or not the class for which the work is due meets the day of their return.

9. As required/permitted by the student's Individual Education Plan or 504 Plan.

Work may not be made up for credit for unexcused absences unless the excused absences are part of a signed agreement as permitted by policy

Work for students serving an out-of-school suspension or expulsion shall be in accordance with the District's programs, measures, or alternative means and methods to continue student engagement and access to education during the student's period of suspension or expulsion. In addition to the make-up work process above, at the conclusion of a pregnancy-related or parenting-related period of absence, a student may choose from various options to make up missed work, including without limitation:

- a. Retaking a semester at the District school where the student is enrolled;
- b. Participating in an online course credit recovery program;
- c. Being granted six (6) weeks to continue at the same pace and finish the semester at a later date, provided that the student may:
 - Complete the student's coursework within the current school year; or
 - Attend previously scheduled summer school classes made available by the District Where the student is enrolled; and
- d. Receiving home-based instruction services.

Dropping/Changing a Class

Students may request a schedule change up to the deadline determined each semester by the Counseling Center. Deadlines will be publicized in the daily bulletin and in the announcements.

Any course may be dropped five days after progress reports at 4.5 weeks provided there is a corresponding class to take. Students have the option to drop an Honors class with AP coordinator approval at 9 weeks or semester. Students who drop an AP course after November 10th (date AP exams are ordered), in a given school year, will be asked (per College Board guidelines) to pay a \$40 fee. If there is not a corresponding non-AP class to take, the student can drop the class at semester.

Semester Test Policy

Any student with 4 or fewer absences may be exempt in a class.

Students with a D or F in a class will not be exempt from that class period's semester test.

Students with outstanding fines and invoices will not be exempt from semester tests.

Students who are suspended from school during the semester will not be exempt from any semester test for that semester.

Any student having missed more than four (4) absences in a semester will not be exempt from semester tests in those classes.

Students taking online classes will not be exempt from semester tests.
Seniors who are passing their classes in the spring semester will be exempt from semester tests for that semester.

Any student exempt from a semester test may take the test to improve their grade. If the semester test grade lowers the grade, the test will not be counted.

Administration may include, at their discretion, semester test exemptions based on student performance.

Students are NOT allowed to take the semester test early or before their scheduled time.

Tardiness

Students arriving at school must be in their first period class by 8:00 in order not to be counted tardy. Students who arrive at school between 8:00 and 8:20 will be considered tardy.

In grades 7-12, students are considered absent from a class when they miss more than 15 minutes of that class during periods 2nd-8th. A student in grades 7-12 who arrives late to a class after the first arrival on campus will be counted tardy.

Students in the High School are allowed six (6) minutes between classes. The Junior High will allow five (5) minutes in between classes. This time is not for loitering in the halls or visiting. Students should move to their classrooms and prepare to begin class.

High School

After the 4th tardy the following occurs:

- 5th tardy- 3 days Detention
- 6th tardy- 1 day Saturday School
- 7th tardy- 1 day ISS
- 8th tardy- 2 days ISS
- Additional tardies- ISS

Junior High

After the 4th tardy the following occurs:

- 5th tardy- 3 days Detention
- 6th tardy- 1 day Saturday School
- 7th tardy- 1 day ISS
- 8th tardy- 2 days ISS
- Additional tardies- ISS

Truancy

Truancy is unexcused and is defined as a student who is absent from school and/or class without the consent of parents and/or without permission from the office of the principal. Parents will be contacted about each offense.

A truant student may be assigned a minimum of Saturday School to a maximum of In-school suspension (ISS).

A student truant a second time must be accompanied by a parent to the office of the principal. Juvenile and/or local authorities will be notified of truant students for appropriate action (Act 473 of 1989).

ACADEMICS

Classification of Students

The classification of a student is determined at the beginning of each school year and continues throughout the school year. Classifications do not change at semester. Classifications for 2006 and beyond:

- Sophomore-6 credits
- Junior-12 credit
- Senior-17 credits (beginning with the 23-24 school year Seniors will be required to take 4 credited classes).

At semester any student that is on pace to gain the required credits to graduate during the current school year will need to meet with the building principal for approval to change classification.

Smart Core Curriculum & Graduation Requirements for the Classes 2027 and Thereafter

All students are required to participate in the Smart Core curriculum unless their parents or guardians, or the students if they are eighteen (18) years of age or older, sign a Smart Core Waiver Form to not participate. While Smart Core is the default option, both a Smart Core Informed Consent Form and a Smart Core Waiver Form will be sent home with students prior to their enrolling in seventh (7th) grade, or when a seventh (7th) through twelfth (12th) grade student enrolls in the district for the first time and there is not a signed form in the student's permanent record. Parents must sign one of the forms and return it to the school so it can be placed in the students' permanent record. This policy is to be included in student handbooks for grades six (6) through twelve (12) and both students and parents must sign an acknowledgement they have received the policy. Those students not participating in the Smart Core curriculum will be required to fulfill the Core curriculum or the Alternate Pathway to Graduation when required by their IEP to be eligible for graduation. Counseling by trained personnel shall be available to

students and their parents or legal guardians prior to the deadline for them to sign and return the waiver form.

While there are similarities between the two curriculums, following the Core curriculum may not qualify students for some scholarships and admission to certain colleges could be jeopardized. Students initially choosing the Core curriculum may subsequently change to the Smart Core curriculum **providing** they would be able to complete the required course of study by the end of their senior year.² Students wishing to change their choice of curriculums must consult with their counselor to determine the feasibility of changing paths.

This policy, the Smart Core curriculum, and the courses necessary for graduation shall be reviewed by staff, students, and parents at least every other year to determine if changes need to be made to better serve the needs of the district's students. The superintendent, or his/her designee, shall select the composition of the review panel.

Sufficient information relating to Smart Core and the district's graduation requirements shall be communicated to parents and students to ensure their informed understanding of each. This shall be accomplished through holding an informational meeting for parents, legal guardians, or persons standing in loco parentis to students enrolled in grades six through twelve (6-12) with the school counselor and may be accomplished through any or all of the additional following means:⁴

- Inclusion in the student handbook of the Smart Core curriculum and graduation requirements;
- Discussion of the Smart Core curriculum and graduation requirements at the school's annual public meeting, PTA meetings, or a meeting held specifically for the purpose of informing the public on this matter; and/or
- Distribution of a newsletter(s) to parents or guardians of the district's students.

Administrators, or their designees, shall train newly hired employees, required to be licensed as a condition of their employment, regarding this policy. The district's annual professional development shall include the training required by this paragraph.

To the best of its ability, the District shall follow the requirements covering the transfer of course credit and graduation set forth in the Interstate Compact on Educational Opportunity for Military Children for all students who meet the definition of "eligible child" in Policy 4.2—ENTRANCE REQUIREMENTS including the waiving of specific courses that are required for graduation if similar coursework has been satisfactorily completed.

Graduation Requirements

The number of units students must earn to be eligible for high school graduation is to be earned from the categories listed below. A minimum of twenty-two (22) units is required for graduation for a student participating in either the Smart Core or Core curriculum. ⁶ There are some distinctions made between Smart Core units and Graduation units. Not all units earned toward graduation necessarily apply to Smart Core requirements. Career education courses that are

determined by DESE to be eligible for use in the place of a listed course may be substituted for the course as designated by DESE.

All students must receive a passing score on the Arkansas Civics Exam in order to graduate.

Students shall be trained in quality psychomotor skill bases in cardiopulmonary resuscitation and the use of automated external defibrillators in order to graduate.

See District policy for smart core curriculum and graduation requirements for years 2024-2026.

Personal and Family Finance

All students shall receive credit in a course covering the Personal and Family Finance Standards in order to graduate. Economics fulfills this requirement.

Computer Science

All students shall earn one (1) unit of credit in a computer science or computer science related career and technical education course in order to graduate.

Community Service

Each student must receive seventy-five (75) clock hours of community service that is certified by the service agency or organization where the student volunteers.

The community service must be in programs or activities, either in Arkansas or outside of Arkansas, that meet the requirements established by the State Board and the District Board of Directors and include preparation, action, and reflection components. Except as provided by this policy, a student must receive at least the following documented clock hours of community service each year:

- Fifteen (15) hours for students in grade nine (9);
- Twenty (20) hours for students in grade ten (10);
- Twenty (20) hours for students in grade eleven (11); and
- Twenty (20) hours for students in grade twelve (12).

Students transferring into the District after grade nine (9) or students who are graduating early may receive a diploma provided that the minimum requirement for each year the student attends the District is met. The District Board of Directors may grant a waiver of the community service requirement for extenuating circumstances on a case-by-case basis, which may include without limitation:

- A major illness associated with a student or a family member of a student;
- Student homelessness or housing insecurity; and

· Notice to the public school district board of directors if the student is a major contributor to family income.

Grading

Parents, legal guardians, persons having lawful control of a student, or persons standing in loco parentis shall be kept informed concerning the progress of their student. Parent-teacher conferences are encouraged and may be requested by parents, guardians, persons having lawful control of a student, persons standing in loco parentis, or teachers. If the progress of a student is unsatisfactory in a subject, the teacher shall attempt to schedule a parent-teacher conference. In the conference, the teacher shall explain the reason for the difficulties and shall develop, cooperatively with the parents, a plan for remediation, which may enhance the probability of the student succeeding. The school shall also send timely progress reports and issue grades for each nine (9) week grading period to keep parents/guardians informed of their student's progress.

The evaluation of each student's performance on a regular basis serves to give the parents/guardians, students, and the school necessary information to help effect academic improvement. Students' grades shall reflect only the extent to which a student has achieved the expressed educational objectives of the course.

The grades of a child in foster care shall not be lowered due to an absence from school due to;

1. A change in the child's school enrollment;
2. The child's attendance at a dependency-neglect court proceeding; or

3. The child's attendance at court-ordered counseling or treatment.

The grading scale for all schools in the district shall be as follows;

A = 100 – 90

B = 89 – 80

C = 79 – 70

D = 69 – 60

F = 59 and below

For the purpose of determining grade point averages, the numeric value of each letter grade shall be:

A = 4 points

B = 3 points

C = 2 points

D = 1 point

F = 0 points

The grade point values for Advanced Placement (AP), approved courses for weighted credit, International Baccalaureate (IB), and approved honor courses shall be one (1) point greater than for regular courses with the exception that an F shall still be worth zero (0) points.

The final grades of students who transfer in for part of the semester will be determined by blending the grades earned in the district with those earned outside the district. Each final grade will be the sum of the percentage of days in the grading period transferred from outside the district times the transferred grade from outside the district plus the percentage of days in the grading period while in the district times the grade earned in the district.

For example: The grading period had forty (40) days. A student transferred in with a grade of eighty-three percent (83%) earned in ten (10) days at the previous school. The student had a grade of seventy-five percent (75%) in our district's school earned in the remaining thirty (30) days of the grading period. Ten (10) days is twenty-five percent (25%) of forty (40) while thirty (30) days is seventy-five percent (75%) of forty (40) days. Thus the final grade would be $(0.25 \times 83) + (0.75 \times 75) = 77\%$.

Grading Policy

All students' grades will be based on the academic objectives of the class. While behavior will not be used in determining a student's grade, some courses will require a participation grade. Participation points will be used in courses like band, choir, and physical education.

Grading, Class Standing, and Grade Point

Grades assigned to students for performance in a course shall reflect only the extent to which a student has achieved the expressed academic objectives of the course. Grades that reflect other educational objectives such as the student learning expectations contained in the curriculum frameworks may also be given. Class standings and grade points are figured each year. These are

available to parents or students upon request. The counselor will have this and other data available if needed. Non-academic courses (Flag line, P.E./Athletics, Athletic Trainer, and Cheerleading) are not included in figuring class standings and grade point. Band and Choir are academic courses and are included in figuring class standings and grade point.

Core Curriculum Courses for Seventh Grade

- Language Arts or Honors Language Arts
- Pre-Algebra or Honors Pre-Algebra
- World History/Arkansas History
- Science

Core Curriculum Courses for Eighth Grade

- Language Arts or Honors Language Arts
- Eighth Grade Mathematics or Algebra I
- Science or Honors Physical Science
- World History

Report Cards and Progress Reports

Students who expect to pass must be regular in attendance, take all tests, make all reports, and do all work assigned by the instructor of the particular course.

Report cards are issued at the end of every nine weeks school period. The report is made to the parents and is taken home by the student. The intent is to acquaint the parents with the progress of their children. A four weeks progress report will be sent home by the student. The progress report will state the student's present grade. Conferences can be requested by the teacher or parent at any time.

Homework Policy

The Beebe School District recognizes that homework is a beneficial addition to the in-school instructional program. For most students additional study directly related to academic work-in-progress can make the difference between mastery and non-mastery, between satisfactory and exemplary achievement. Homework tells students that learning is more than just a classroom activity that expectations go beyond minimum effort, and that independent learning is valued. Through a well-formulated homework system students will acquire academic content while also developing self-discipline, responsibility, and good study/work habits. Students who possess these characteristics will be prepared for both academic and/or vocational careers.

Because of the individual differences and needs of students, it is unsound to require or expect all students to experience the same kind of homework in connection with their school instruction. Purposeful homework varies from day to day and the professional discretion of the teacher should determine when homework is assigned.

Basically, homework can be classified into three categories: practice, preparation, and extension. When homework is given as an assigned responsibility for the students, such homework will be based on one or more of the following purposes:

- Drill and additional practice to strengthen new skills introduced in the classroom;
- Work on projects of short-term and/or long-term nature;
- Participation in research activities in locating facts and data;
- Expanding reading for pleasure and enjoyment.

A.C.A. § 6-18-101 is amended to add an additional subsection to read as follows:

A school district may establish an honor roll system to recognize or reward students for achievement. No school district shall be prohibited from identifying students who qualify for the honor roll or who are eligible to serve as valedictorian or salutatorian of the students' graduating class or who qualify for honor graduate status as provided under this section. Any parent or student who does not want to have the student identified as an honor student or listed on the honor roll shall submit a written request to the principal of the school requesting that the student not be identified (Senate Bill 250).

Student Promotion and Retention

A disservice is done to students through social promotion and is prohibited by state law. The District shall, at a minimum, evaluate each student annually in an effort to help each student who is not performing at grade level. Parents, legal guardians, persons having lawful control of the student, or persons acting in loco parentis shall be kept informed concerning the progress of their student(s). Notice of a student's possible retention or required retaking of a course shall be included with the student's grades sent home to each parent/guardian or the student if 18 or older. Parent-teacher conferences are encouraged and may be held as necessary in an effort to improve a student's academic success.

Each time a student is assessed by use of a high-quality literacy screener, with results at least once each semester, the Parents, legal guardians, persons having lawful control of the student, or persons acting in loco parentis, and teacher(s) of a student in kindergarten through eighth (8th) grade shall be notified in writing of the student's independent grade-level-equivalency in reading and, in a parent friendly manner, the student's reading progress.

Promotion or retention of students, or their required retaking of a course shall be primarily based on the following criteria:

A student who has not met the third-grade reading standard as defined by the state board shall not be promoted to fourth(4th) grade unless the student has a good cause waiver. The following students may receive a good cause waiver:

- Limited English Proficiency students who have had less than three (3) years of instruction in an English language learner program;

- Students with a disability who are not eligible for the alternate assessment and who have an individualized education program or a 504 plan that reflects that the individual student:
 - Has received an intensive, evidence-based literacy intervention program aligned to the science of reading for more than two (2) years; and
 - Still demonstrates a need in reading proficiency or previously was retained in kindergarten, grade one (1), grade two (2), or grade three (3);
- Students who:
 - Have received an intensive, evidence-based literacy intervention program aligned to the science of reading for two (2) or more years;
 - Still demonstrate a need in reading proficiency and who previously were retained in kindergarten, grade one (1), grade two (2), or grade three (3);
 - Have received a special education referral and a full comprehensive evaluation; and
 - Have not met exceptional education criteria;
- Students who have already been retained in kindergarten, grade one (1), grade two (2), or grade three (3) for one (1) year;
- Students who can demonstrate that they are successful and independent readers and can perform at or above grade level by use of subsequent student assessments or alternative assessments; or
- Other students with necessary, justifiable good-cause exemptions identified as appropriate by the state board, in consultation with reading experts.

If there is doubt concerning the promotion or retention of a student or his/her required retaking of a course, a conference between the building principal, the student's teacher(s), counselor, a 504/special education representative (if applicable), and the student's parents, legal guardians, persons having lawful control of the student, or persons standing in loco parentis shall be held before a final decision is made. The conference shall be held at a time and place that best accommodates those participating in the conference. The school shall document participation or non-participation in required conferences. If the conference attendees fail to agree concerning the student's placement or receipt of course credit, the final decision shall rest with the principal or the principal's designee.

- Provide a basis for counseling concerning postsecondary preparatory programs.

A student's SSP shall include the recommended sequence of courses for successful completion of the diploma pathway selected by the student but be sufficiently flexible to allow the student to change the student's selected diploma pathway. The school counselor shall meet with the student's parent, legal guardian, or persons standing in loco parentis and the student to review the student's SSP annually and to revise the student's SSP as necessary to identify the courses to be taken each year until all required core courses are completed. Part of the review shall include an explanation of the possible impacts the revisions to the plan might have on the student's graduation requirements and postsecondary education goals. Any change made to a student's SSP as part of the review that amends the student's diploma pathway shall be structured to ensure that the student will meet the high school graduation requirements for the student's chosen diploma pathway and be qualified for admission to a postsecondary educational institution or to enter the workforce. After each review, the student's SSP shall be signed by the student; student's parent, legal guardian, or person standing in loco parentis to the student; and the school counselor.

A student's individualized education program (IEP) may act in the place of the student's SSP if the IEP addresses academic deficits and interventions for the student's failure to meet standards-based academic goals at an expected rate or level and includes a transition plan that addresses college and career planning components. Promotion or retention of students with an IEP shall be based on their successful attainment of the goals set forth in their IEP.

Students who either refuse to sit for a Statewide assessment or attempt to boycott a Statewide assessment by failing to put forth a good faith effort on the assessment as determined by the assessment administrator/proctor, or whose parents do not send their student to school on the dates the assessments are originally administered or scheduled as make-up days shall not be permitted to participate in any non-curriculum related extracurricular activity, including school dances, prom, homecoming, senior events, and may be prevented from walking or participating in graduation exercises. The student shall remain ineligible to participate until the student takes the same or a following Statewide assessment, as applicable. The Superintendent or designee may wave this paragraph's provisions when the student's failure was due to exceptional or extraordinary circumstances.³ Students falling under the provisions of this paragraph shall be permitted to attend curriculum related field trips occurring during the school day.

Seventh and Eighth-Grade Promotion Policy

7th and 8th-grade students failing math or language arts or any two of the core classes may be required to attend Summer School and/or Badger Academy or be retained. Students will be required to show mastery of the material in order to complete Summer School or Badger Academy. Placement at Badger Academy is at the discretion of the instructional committee composed of educational staff and may be recommended for students who do not meet the criteria mentioned above. Students who have missed over the maximum number of days allowed may also be required to attend Summer School and/or Badger Academy.

Students who fail three (3) or more of the yearly core curriculum subjects will be retained in the previous grade (ACT 35).

Student Acceleration

The Board believes that acceleration is an effective and research-based intervention for the academic growth of students who are ready for an advanced or faster-paced curriculum. Acceleration can allow a student to move through the traditional educational setting more rapidly, based on assessed readiness, capability and motivation. At the same time, the Board understands that acceleration is not a replacement for gifted education services or programs.

Generally, acceleration can occur through one of two broad categories: content based and grade based. Grade based acceleration shortens the number of years a student would otherwise spend in K-12 education, while content based acceleration occurs within the normal K-12 time span.

Either form of acceleration can be triggered by a parent/guardian, student, or community member's request or by the referral of school personnel. In either case, the process of determining the appropriateness of the request shall be under the direction of the district/school Gifted and Talented Program Coordinator. The district/school Gifted and Talented Program Coordinator shall convene the Acceleration Placement Committee and communicate with the individuals necessary for the Acceleration Placement Committee to make an informed decision, which shall include the student's parents or guardians.

While the needs of the student should dictate when acceleration decisions are considered, the Board believes the optimal time for referrals is in the spring this gives adequate time for working through the determination process and for preparing those concerned for a smooth transition to the acceleration beginning in the following school-year.

The District's Gifted and Talented Program Coordinator will create a written format to govern the referral and determination process which shall be made available to any parent or staff member upon request.

The parents/guardians of any student whose request for acceleration has been denied may appeal the decision, in writing to the District's GT Coordinator. The District's GT Coordinator and the Acceleration Placement Committee will again thoroughly review the case study that was completed on the student. Upon completion of the review, the Committee will either request additional new testing be conducted to help the Committee make its determination or it will uphold the initial decision. The Committee's decision may not be further appealed.

Digital Learning Courses

Definitions

For the purposes of this policy:

“Blended Learning” is education in which instruction and content are delivered through supervised instruction in a classroom and online delivery of instruction with some element of student control over time, place, path, or pace.

“Digital Learning” means a digital technology or internet-based educational delivery model that does not rely exclusively on compressed interactive video (CIV). Digital learning includes online and blended learning.

"Instructional Materials" means:

1. Traditional books, textbooks, and trade books in printed and bound form;
2. Activity-oriented programs that may include:
 - Manipulatives;
 - Hand-held calculators;

- Other hands-on materials; and
3. Technology-based materials that require the use of electronic equipment in order to be used in the learning process.

“Online Learning” is education in which instruction and content are delivered primarily over the Internet. The term does not include print-based correspondence education, broadcast television or radio, videocassettes, compact disks and stand-alone educational software programs that do not have a significant Internet-based instructional component.

“Public School Student Accessing Courses at a Distance” means a student who is scheduled for a full course load through the District and attends all classes virtually.

Digital Course Offerings

The District shall offer one or more digital learning course(s) through one or more District approved provider(s) as either a primary or supplementary method of instruction. The courses may be in a blended learning, online-based, or other technology-based format and shall be tailored to meet the needs of each student.

All digitally offered courses shall meet or exceed the State Board of Education's curriculum standards and requirements and be capable of being assessed and measured through standardized or local assessments. Additionally, the District shall ensure there is sufficient infrastructure to handle and facilitate a quality digital learning environment.

The District shall annually determine what District created digital learning courses it will provide to our students. The District may also choose to provide digital learning courses by contracting with outside providers of such courses, who have been pre-approved as part of the Arkansas Course Choice Program by the Division of Elementary and Secondary Education (DESE). The School Board shall determine the provider method or combination of methods for the District. The Superintendent shall ensure that all digital learning courses provided to District students, regardless of the source of the course, have been approved by ADE.

District created digital courses and any digital courses the district purchases from outside providers shall adhere to the guidelines for the use of digitally transmitted copyrighted materials set forth in Policy 5.8—USE OF COPYRIGHTED MATERIALS as well as applicable statutory requirements.

The District shall require all outside providers to incorporate Policy 5.8 as a condition of the service contract. Failure of the outside provider to abide by Policy 5.8 shall constitute a breach of contract and the outside provider shall be responsible for any costs resulting from such breach.

A student may elect to take any scheduled courses digitally if offered digitally by the District or, if applicable, through the Arkansas Course Choice Program. The student's attendance in his/her digital course(s) shall be determined by the online attendance and time the student is working on the course rather than the student's physical presence at school.

The District is responsible for providing all instructional materials for each student who enrolls in a District approved digital learning course.

Except as required by Policy 5.19, the District may restrict a student's access to digital courses when the student's building principal determines the student's participation in such a course would not be academically appropriate based on the student's past performance in digital courses. Furthermore, the student's building principal may revoke a student's eligibility to continue taking a digital learning course if the student's performance during the semester indicates the student is not succeeding in the course.

Correspondence and Summer School Work

For a student to complete the requirements for high school graduation by taking correspondence courses or summer school credit, these requirements must be met:

1. All work must be done through the school or an accredited institution.
2. A school official must approve all work beforehand.

Concurrent Credit

A ninth (9th) through twelfth (12th) grade student who successfully completes a college course(s) from an institution approved by the Division of Elementary and Secondary Education shall be given credit toward high school grades and graduation at the rate of one (1) high school credit for each three (3) semester hours of college credit. Unless approved by the school's principal, **prior to enrolling for the course**, the concurrent credit shall be applied toward the student's graduation requirements as an elective.

As permitted by the DESE Rules of Governing Concurrent College and High School Credit, a student, who takes a three (3)-semester hour remedial/developmental education course, receives a half (1/2) credit for a high school career focus elective. The remedial/developmental education course cannot be used to meet the core subject area/unit requirements in English and mathematics.

Participation in the concurrent high school and college credit program must be documented by a written agreement between:

- The student;
- The student's parent(s) or legal guardian(s) if the student is under the age of eighteen (18) ;
- The District; and
- The publicly supported community college, technical college, four-year college or university, or private institution the student attends to take the concurrent credit course.

Students are responsible for having the transcript for the concurrent credit course(s) they've taken sent to their school in order to receive credit for the course(s). Credit for concurrent credit

courses will not be given until a transcript is received. Students may not receive credit for the course(s) they took or the credit may be delayed if the transcripts are not received at all or in a timely manner; this may jeopardize students' eligibility for extracurricular activities and/or graduation.

Students will retain credit earned through the concurrent credit program that was applied toward a course required for high school graduation from a previously attended, accredited, public school.

A student eligible to receive free or reduced price meals shall not be responsible for any of the costs for the student's first six (6) concurrent credit hours so long as the concurrent credit courses are taught on the District grounds and by a teacher employed by the District.² Any and all costs of concurrent credit courses beyond the six (6) hours permitted, that are not taught on the District's campus, or are not taught by a teacher employed by the District are the responsibility of the student. Students who are not eligible to receive free or reduced price meals are responsible for any and all costs associated with concurrent credit courses.

Graduation

The Graduation ceremony is a privilege and students must be in good standing in order to participate.

Early Graduation

Any student who is enrolled in Beebe High School and has earned the number of credits required by the local school district for graduation shall be eligible to graduate from high school without regard to the grade level the student is enrolled in at the time such credits are earned. (Act 275 of 1997)

For the purposes of this section graduation will be defined as "completing requirements for receiving a diploma." Graduation exercises will be defined as "those exercises during which diplomas are conferred."

Students who plan to graduate early must file an Early Graduation Intent Form with the principal's office. This form must be filed by May 15th before December graduation or by December 15th before a planned spring or summer graduation.

Students who graduate in December may participate in graduation exercises in May but may not be a part of the program. These students will not be included in any senior class activities which occur during the spring semester.

Any student who plans to graduate early but who is classified as a junior will not be eligible for senior activities or privileges. For those students who plan to graduate early, a senior is a student who has earned 17 (seventeen) credits by the time school starts in August. If necessary, special provisions will be made so that semester exams can be completed before the graduation exercises.

EXTRACURRICULAR ACTIVITIES

Extra Curricular Activities

Beebe School recognizes that extracurricular activities are an important part of the educational experience. Although we encourage all students to participate in extracurricular activities, we strive to keep classroom interruptions to a minimum.

Definitions:

"Academic Courses" are those courses for which class time is scheduled, which can be credited to meet the minimum requirements for graduation, which is taught by a teacher required to have State licensure in the course or is otherwise qualified under Arkansas statute, and has a course content guide which has been approved by the Division of Elementary and Secondary Education (DESE). Any of the courses for which concurrent high school credit is earned may be from an institution of higher education recognized by DESE. If a student passes an academic course offered on a block schedule, the course can be counted twice toward meeting the requirement for students to pass four (4) academic courses per semester as required by this policy.

"Extracurricular activities" are defined as: any school sponsored program where students from one or more schools meet, work, perform, practice under supervision outside of regular class time, or are competing for the purpose of receiving an award, rating, recognition, or criticism, or qualification for additional competition. Examples include, but are not limited to,

inter/intrascholastic athletics, cheerleading, band, choral, math, or science competitions, field trips, and club activities.

“Field Trips” are when individual students or groups of students are invited to programs or events when there is no competition and the students are not interacting with each other for the purpose of planning, qualifying, or arranging for future programs or for the purpose of receiving recognition.

Extra-Curricular Eligibility

The Board believes in providing opportunities for students to participate in extracurricular activities that can help enrich the student’s educational experience. At the same time, the Board believes that a student’s participation in extracurricular activities cannot come at the expense of his/her classroom academic achievement. Interruptions of instructional time in the classroom are to be minimal and absences from class to participate in extracurricular activities shall not exceed one per week per extracurricular activity (tournaments accepted). Additionally, a student’s participation in, and the District’s operation of, extracurricular activities shall be subject to the following policy. All students are eligible for extracurricular activities unless specifically denied eligibility on the basis of criteria outlined in this policy.

Any student who refuses to sit for a State assessment or attempts to boycott a State assessment by failing to put forth a good faith effort on the assessment as determined by the assessment administrator/proctor, or whose parents do not send their student to school on the dates the assessments are administered or scheduled as make-up days shall not be permitted to participate in any non-curriculum related extracurricular activity. The student shall remain ineligible to participate until the student takes the same or a following state mandated assessment, as applicable, or completes the required remediation for the assessment the student failed to put forth a good faith effort on. The superintendent or designee may waive this paragraph's provisions when the student’s failure was due to exceptional or extraordinary circumstances.³ Students falling under the provisions of this paragraph shall be permitted to attend curriculum related field trips occurring during the school day.

A student who enrolls in the district and meets the definition of “eligible child” in Policy 4.2—ENTRANCE REQUIREMENTS shall be eligible to try out for an extracurricular activity

regardless of the date the student enrolls in the District so long as the student meets all other eligibility requirements and the extracurricular activity is still ongoing.

A student and the parent or legal guardian of the student shall sign and return and acknowledgement of receipt and review of an information sheet regarding signs and symptoms of sudden cardiac arrest before the student may participate in an athletic activity and before each school year the student participates in an athletic activity.

No student shall be required to pay for individual or group instruction in order to participate in an extracurricular activity.

Interscholastic Activities

Each school in the District shall post on its website its schedule of interscholastic activities, including sign-up, tryout, and participation deadlines, at least one semester in advance of those activities. A hard copy of the schedule shall be available upon request.

Academic Requirements: Junior High

A student promoted from the sixth to the seventh grade automatically meets scholarship requirements. A student promoted from the seventh to the eighth grade automatically meets scholarship requirements for the first semester. The second semester eighth-grade student meets the scholarship requirements for junior high if he/she has successfully passed four (4) academic courses the previous semester.

The first semester ninth-grade student meets the scholarship requirements for junior high if he/she has successfully passed four (4) academic courses the previous semester.

The second semester ninth-grade student meets the scholarship requirements for junior high if he/she has successfully passed (4) academic courses the previous semester which count toward his/her high school graduation requirements.

Ninth-grade students must meet the requirements of the senior high scholarship rule by the end of the second semester in the ninth grade in order to be eligible to participate in the fall semester of their tenth-grade year.

Academic Requirements: Senior High

In order to remain eligible for competitive interscholastic activity, a student must have passed (4) academic courses the previous semester and either:

1. Have earned a minimum Grade Point Average (GPA) of 2.0 from all academic courses the previous semester; or

In addition to the foregoing rules, the district shall abide by the rules and regulations of AAA governing interscholastic activities. AAA provides catastrophic insurance coverage for students participating in AAA governed extracurricular activities who are enrolled in school. As a matter of District policy, no student may participate in a AAA governed extracurricular activity unless he or she is enrolled in a district school, to ensure all students are eligible for AAA catastrophic insurance.

Interscholastic Activities

AAA Governed Activities

Students participating in interscholastic extracurricular activities that would be governed by AAA if they were to occur between students of different schools shall meet all interscholastic activity eligibility requirements to be eligible to participate in the comparable interscholastic activity. The District will abide by the AAA Handbook for such activities to ensure District students are not disqualified from participating in interscholastic activities.⁷

Non-AAA Governed Activities

Unless made ineligible by District policies, all students shall be eligible to participate in non-AAA governed interscholastic extracurricular activities. Interscholastic activities designed for a particular grade(s) or course(s) shall require the student to be enrolled in the grade(s) or course(s).

School Choice Transfers

A student who transfers under a legal school choice option shall not be denied participation in an extracurricular activity where the student transfers based exclusively on the student's decision to transfer. A student who transfers after July 1 of the year the student enters grade seven (7) shall complete a Changing Schools/Athletic Participation form as defined by AAA, which must be signed by the:

- Superintendent of the student's resident school district;
 - Superintendent of the nonresident school district to which the student transfers;
- and

· Parent, legal guardian, person having lawful control of the student, or person standing in loco parentis to the student.

The completed Changing Schools/Athletic Participation form shall be filed with the non-resident school district where the student transfers and the AAA. The Changing Schools/Athletic Participation form shall be signed by the superintendent of a student's resident school district and the superintendent of the nonresident school district to which a student transfers unless there is demonstrable evidence of recruiting by the receiving school district personnel or that the student is transferring to the nonresident school district solely for athletic purposes.

Extracurricular Activity Eligibility for Home-Schooled Students

Home-schooled student means a student legally enrolled in an Arkansas home school and who meets or has met the criteria for being a home-schooled student, as established by A.C.A. § 6-15-503.

Interscholastic activity means an activity between schools subject to rules of the Arkansas Activities Association that is outside the regular curriculum of the school district, such as an athletic activity, fine arts program, or a special interest group or club.

Each school in the District shall post on its website its schedule of interscholastic activities, including sign-up, tryout, and participation deadlines, at least one semester in advance of those activities. A hard copy of the schedule shall be available upon request.

Home-schooled students whose parents or guardians are legal residents of the school district will be permitted to pursue participation in an interscholastic activity in the student's resident school zone² as permitted by this policy.

Home-schooled students whose parent or legal guardian are not residents of the school district will be permitted to pursue participation in an interscholastic activity in the District if:

- The superintendent of the student's resident district and the superintendent of the District both agree in writing to allow the student to participate in interscholastic activities at the District; or
- The student's resident school does not offer the interscholastic activity and the superintendent of the non-resident district agrees to allow the student to enroll in the interscholastic activity.

Although not guaranteed participation in an interscholastic activity, home-school students who meet the provisions of this policy, AAA Rules, and applicable Arkansas statutes shall have an equal opportunity to try out and participate in interscholastic activities without discrimination. The District shall provide a reasonable alternative to any prerequisite for eligibility to participate in an interscholastic activity that the home-schooled student is unable to meet because of his or her enrollment in a home school.

No student shall be required to pay for individual or group instruction in order to participate in an interscholastic activity.

To be eligible to try out and participate in interscholastic activities, the student or the parent of a student shall mail or hand deliver the student's request to participate to the student's school's principal before the signup, tryout or participation deadline established for traditional students. Additionally, the student shall demonstrate academic eligibility by obtaining a minimum test score of the 30th percentile or better in the previous 12 months on the Stanford Achievement Test Series, Tenth Edition; another nationally recognized norm-referenced test; or a minimum score on a test approved by the State Board of Education.

A student who meets the requirements for eligibility to participate in an interscholastic activity is required to register for no more than one non-academic course³ in the District's school where the student is intending to participate in an interscholastic activity that coincides with the interscholastic activity in which the homeschooled student participates and shall be required to be at school only when participation in the interscholastic activity requires other students who participate in the interscholastic activity to be at school.

The student shall regularly attend the class in which the student is registered beginning no later than the eleventh (11th) day of the semester in which the student's interscholastic activity participation is desired. The student must attend the practices for the interscholastic activity to the same extent as is required of traditional students.

A student and the parent or legal guardian of the student shall sign and return an acknowledgment of receipt and review of an information sheet regarding signs and symptoms of sudden cardiac arrest before the student may participate in an athletic activity and before each school year, the student participates in an athletic activity.

A home-schooled student who has met the tryout criteria; and who has been selected to participate in the interscholastic activity shall meet the following criteria that also apply to traditional students enrolled in the school:

- standards of behavior and codes of conduct;
- attend the practices for the interscholastic activity to the same extent as is required of traditional students;
- required drug testing;
- permission slips, waivers, physical exams; and
- participation or activity fees.

A home-schooled student who is not a resident of the District may begin participating in interscholastic activities:

- Immediately upon being approved for participation for all interscholastic activities other than athletic activities; and
- One (1) calendar year after being approved to participate in interscholastic activities that are athletic activities unless the approval is prior to July 1 of the school year the student

would have been enrolled in seventh (7th) grade if the student were enrolled in public school.

A home-schooled student who is not a resident of the District and is prohibited under this policy from participating in an interscholastic activity that is an athletic activity for one (1) calendar year may immediately participate in rehearsals, tryouts, practices, auditions, classes, or other endeavors associated with the interscholastic activity.

Students who participate in extracurricular or athletic activities under this policy will be transported to and from the interscholastic activities on the same basis as other students are transported.

A home schooled student may begin participating in an interscholastic activity immediately upon being approved to participate by the District if:

- The home schooled student has not withdrawn from an Arkansas Activities Association member school; or
- The student has withdrawn from an AAA member school and enrolled in a home school but did not participate in an interscholastic activity that is a varsity sport at the student's resident district prior to the student's withdrawal from the AAA member school.

A student who withdrew from an AAA member school who participated in an interscholastic activity that is a varsity sport at the student's resident district during the previous three hundred sixty-five (365) days shall not be eligible to immediately participate in an interscholastic activity that is a varsity sport in the District. The student will not become eligible for full participation until the completion of the three hundred sixty-five (365) day period from when the student withdrew. A student who is not eligible for full participation may participate in tryouts, practices, classes, or other endeavors associated with the interscholastic activity until the completion of the three hundred sixty-five (365) day period from when the student withdrew.

Random Drug Testing

Philosophy

It is the philosophy of the Beebe School District that students should be encouraged and supported to be drug and alcohol-free in order to promote good health and well-being. The District recognizes that drug and/or alcohol abuse or misuse is a significant health problem for students, detrimentally affecting overall health, behavior, learning ability, reflexes, and the total development of each individual.

Scope

The entire Random Drug Testing Policy can be found on the BPS District Webpage. The provisions of this policy apply to Beebe students in grades 7-12. By signing the student handbook, grades 7-12, you are agreeing to the Drug Testing Policy. If a parent or guardian wishes for their student **NOT** to participate in the random drug testing, An **“Opt Out”** form is

available and must be filled out prior to a student being pulled for testing. This form is available in the student handbook for grades 7-12, on the Beebe website, and in the offices of grades 7-12.

Selection Process

Random drug testing will be conducted throughout the school year as determined by the superintendent. The testing agency will provide a random list of students to be tested. Selection will be by lottery drawing from a “pool” of all students with the expectation of those who have completed the “Opt Out” Form.

Prescription Medication:

Students who are taking prescription medication may provide a copy of the prescription or doctor's verification, which will be considered in determining whether a "positive" test has been satisfactorily explained. Students who refuse to provide verification and test positive will be subject to the actions specified below for "positive tests".

Scope of Tests:

The drug screen tests for one or more illegal drugs, including synthetic marijuana. The superintendent or his designee shall decide from week to week which illegal drugs shall be screened, but in no event shall that determination be made after the selection of students for testing. Student samples will not be screened for the presence of any substances other than an illegal drug or for the existence of any physical condition other than drug intoxication. The student, the custodial parent or legal guardian, and the student’s principal, school counselor, and head coach or sponsor may all be included in the scheduled meeting.

Policy Statement:

Beebe School District is conducting a **mandatory drug-testing program for students**.

Its purpose is threefold: (1) to provide for the health and safety of students in all Activity Programs grades **7-12**; (2) to undermine the effects of peer pressure by providing a legitimate reason for students to refuse to use illegal drugs; and (3) to encourage students who use drugs to participate in drug treatment programs.

Procedures for Students:

Consent: Each student wishing to participate in any activity program and the student's custodial parent or guardian shall consent to drug testing pursuant to the District's drug testing program.

Students not involved in activities may be allowed to "opt out" of the testing pool with a consent form signed by the parent.

Student Selection: At the option of the district, all students in activity programs may be drug tested at the beginning of the school year. In addition, random testing will be conducted bi-weekly during the school year. Selection for random testing will be by lottery drawing from a "pool" of all students who have not opted out of testing.

A single test can be required by a principal from a student for reasonable suspicion. The superintendent shall take all reasonable steps to ensure the integrity, confidentiality, and random nature of the selection process including, but not assuring that the person drawing names has no way of knowingly choosing or failing to choose particular students for the testing, assuring that the identity of students drawn for testing is not known to those involved in the selection process and assuring direct observation of the process by the least intrusive means while assuring brevity and privacy.

Sample Collection: Samples will be collected at a **mutually** convenient time on the designated testing day. The student will be dismissed to class when the testing has been completed. All students providing samples will be given the option of doing so alone in an individual stall with the door closed.

First Positive Result

For a **positive** result, the student will be placed on probation and not be allowed to participate in competitions, presentations, and activities of Beebe Schools for a period of **thirty** (30) days from the time of the positive result notification to the school. The student will be recommended for school counseling. If outside counseling is needed, any charges incurred will be the responsibility of the parent/guardian.

A student may be required to practice or participate in off-season activities at the head coach's or sponsor's discretion. He/she cannot compete or dress out for any competition.

After day **thirty**, the student will be able to be retested (**at the expense of the parent-guardian**). If the test results are found to be **negative**, the student will again become eligible for competitions, presentations, and activities relating to Beebe Schools. **However, the student must submit to a mandatory drug screen or lab test 4 additional times or until the end of the school year, at the expense of the parent/guardian.**

Second Positive Result

For the **second positive** result in the **same year or any two consecutive calendar years**, the student will be **suspended from participating in activities for the remainder of the school year**. If this positive test is in the spring semester, the student will not be able to participate during the following fall semester.

Third Positive Result

For the **third positive result**, the student will be **suspended from participating in activities for the remainder of his enrollment with the school** (may be appealed to the board).

Any refusal to participate in the random drug test will be treated as a positive unless an "opt-out" form has been completed.

Non-Punitive Nature of Policy

No student shall be penalized academically for testing positive for illegal drugs. The results of drug tests pursuant to this policy will not be documented in any student's academic records. Information regarding the results of drug tests will not be disclosed to criminal or juvenile authorities absent legal compulsion by valid and binding subpoena or other legal process, the student and the student's custodial parent or legal guardian, will be notified as soon as possible by the district.

STUDENT CONDUCT & DISCIPLINE

Who is Responsible for Student Conduct?

Freedom is a constitutional right, but it does not mean the absence of reasonable rules and regulations which serve to guide the actions of individuals. Along with freedom comes the responsibility to act in such a manner as to ensure that all participants may enjoy the same freedom. To obtain the greatest possible benefit to the students, teachers, administrators, parents, Board of Education, and the entire community, it is essential that all work together to ensure that all persons are treated equally and with dignity in respect to their rights and responsibilities.

Students

Students have the responsibility to pursue their education in the Beebe Special School District in a manner that shows respect for other students, faculty members, parents, and other citizens. Students should be aware that they have a responsibility to cooperate with the assistance of the school staff in the orderly and efficient conduct of the schools by abiding by rules and regulations established by the Board of Education and the school of attendance and implemented by teachers and school administrators. Each student is responsible for his/her own conduct at all times. Anytime students are on campus or attending a school-sponsored event, they must abide by all school rules and regulations. Students are responsible for their conduct that occurs:

- At any time on the school grounds;
- Off school grounds at a school-sponsored function, activity, or event; and
- Going to and from school or a school activity.

Parents or Guardians

Parents or guardians are responsible for exercising the required controls so that their children's behavior at school will be conducive to their own progress and not disruptive to the school's educational program. They are responsible for alerting school personnel when they have reason to believe that their children are experiencing difficulties at school or at home and that by actively soliciting the help of the school, behavior standards may be maintained.

Teachers

All teachers are responsible for the supervision of the behavior of all the students in the school. This includes not only the students who are regularly assigned to the teacher but all other students with whom the teacher comes in contact. Each teacher is expected to maintain the kind of atmosphere and decorum which will promote the learning process and to utilize sound techniques which seem appropriate. These techniques include conferences with students and parents, referral to counselors at the school, or referral to other supportive service personnel of the District (nurse, attendance caseworker, educational examiner, and psychologist). The teacher is authorized to administer corporal punishment according to the guidelines established by District policy. When the teacher is unable to assist the student to maintain proper control of his/her behavior, the student is to be referred to the appropriate administrator in the school.

Bullying

Respect for the dignity of others is a cornerstone of civil society. Bullying creates an atmosphere of fear and intimidation, robs a person of his/her dignity, detracts from the safe environment necessary to promote student learning, and will not be tolerated by the Board of Directors. Students who bully another person shall be held accountable for their actions whether they occur on school equipment or property; off school property at a school-sponsored or approved function, activity, or event; going to or from school or a school activity in a school vehicle or school bus; or at designated school bus stops.

Cyberbullying is prohibited whether or not the cyberbullying originated on school property or with school equipment, if the cyberbullying results in the substantial disruption of the orderly operation of the school or educational environment or is directed specifically at students or school personnel and maliciously intended for the purpose of disrupting school and has a high likelihood of succeeding in that purpose.

“Harassment” means a pattern of unwelcome verbal or physical conduct relating to another person's constitutionally or statutorily protected status that causes, or reasonably should be expected to cause, substantial interference with the other's performance in the school environment; and

“Substantial disruption” means without limitation that any one or more of the following occurs as a result of the bullying:

- Necessary cessation of instruction or educational activities;
- Inability of students or educational staff to focus on learning or function as an educational unit because of a hostile environment;
- Severe or repetitive disciplinary measures are needed in the classroom or during educational activities; or
- Exhibition of other behaviors by students or educational staff that substantially interfere with the learning environment.

Respect for the dignity of others is a cornerstone of civil society. Bullying creates an atmosphere of fear and intimidation, robs a person of his/her dignity, detracts from the safe environment necessary to promote student learning, and will not be tolerated by the Board of Directors. Students who bully another person shall be held accountable for their actions whether they occur on school equipment or property; off school property at a school sponsored or approved function, activity, or event; going to or from school or a school activity in a school vehicle or school bus; or at designated school bus stops.

Students are encouraged to report behavior they consider to be bullying, including a single action which if allowed to continue would constitute bullying, to their teacher or the building principal. The report may be made anonymously. Teachers and other school employees who have witnessed, or are reliably informed that a student has been a victim of behavior they consider to be bullying, including a single action which if allowed to continue would constitute bullying, shall report the incident(s) to the building principal, or designee, as soon as possible. Parents or

legal guardians may submit written reports of incidents they feel constitute bullying, or if allowed to continue would constitute bullying, to the building principal, or designee.

The person or persons reporting behavior they consider to be bullying shall not be subject to retaliation or reprisal in any form.

A building principal, or designee, who receives a credible report or complaint of bullying shall:

1. As soon as reasonably practicable, but by no later than the end of the school day following the receipt of the credible report of bullying:
 - a. Report to a parent, legal guardian, person having lawful control of a student, or person standing in loco parentis of a student that their student is the victim in a credible report of bullying; and
 - b. Prepare a written report of the alleged incident of bullying;
2. Promptly investigate the credible report or complaint of bullying, which shall be completed by no later than the fifth (5th) school day following the completion of the written report.
3. Notify within five (5) days following the completion of the investigation the parent, legal guardian, person having lawful control of a student, or person standing in loco parentis of a student who was the alleged victim in a credible report of bullying whether the investigation found the credible report or complaint of bullying to be true and the availability of counseling and other intervention services.
4. Notify within five (5) days following the completion of the investigation the parent, legal guardian, person having lawful control of the student, or person acting in loco parentis of the student who is alleged to have been the perpetrator of the incident of bullying:
 - a. That a credible report or complaint of bullying against their student exists;
 - b. Whether the investigation found the credible report or complaint of bullying to be true;
 - c. Whether an action was taken against their student upon the conclusion of the investigation of the alleged incident of bullying; and
 - d. Information regarding the reporting of another alleged incident of bullying, including potential consequences of continued incidents of bullying;
5. Make a written record of the investigation, which shall include:
 - a. A detailed description of the alleged incident of bullying, including without limitation a detailed summary of the statements from all material witnesses to the alleged incident of bullying;
 - b. Any action taken as a result of the investigation; and
6. Discuss, as appropriate, the availability of counseling and other intervention services with students involved in the incident of bullying.

Students found to be in violation of this policy shall be subject to disciplinary action up to and including expulsion. In determining the appropriate disciplinary action, consideration may be given to other violations of the student handbook which may have simultaneously occurred.¹ In addition to any disciplinary actions, the District shall take appropriate steps to remedy the effects resulting from bullying.

Notice of what constitutes bullying, the District's prohibition against bullying, and the consequences for students who bully shall be conspicuously posted in every classroom, cafeteria, restroom, gymnasium, auditorium, and school bus. Parents, legal guardians, persons having lawful control of a student, persons standing in loco parentis, students, school volunteers, and employees shall be given copies of the notice annually.

The superintendent shall make a report annually to the Board of Directors on student discipline data, which shall include, without limitation, the number of incidents of bullying reported and the actions taken regarding the reported incidents of bullying. (A.C.A. § 5-71-217 A.C.A. § 6-18-514)

Copies of this policy shall be available upon request.

Note: Different consequences are permitted depending on the age or grade of the bullying student.

Demonstrations and Strikes

The Board of Education directs, in order to ensure the orderly process of education and business affairs of the School District and safety of persons and property, that the procedures below be followed in case of any type of disruptive demonstration on school property or within school buildings.

1. It is not intended to discourage or prohibit the peaceful expression of opinions or ideas. However, since the Board is required by law to provide proper school facilities and to maintain an appropriate program on instruction, and is further required to bar any disruption of the school or interference with their normal operation, the following steps will be taken in the event of any disruption of the schools.
2. The disruption shall be immediately brought to the attention of the Superintendent or his representative by the administrative head of the school. The Superintendent shall have the authority at his discretion to alert the proper authorities.
3. Students participating in a disruptive demonstration shall be directed by the building principal or his representative to go to their regular classroom assignment. At the same time, the principal or his representative will arrange for a meeting between the administration and the individuals, leaders of a group, or the group, if feasible, to discuss in a rational, orderly manner the problem which has caused the disorder.
4. Non-student demonstrators and other unauthorized persons will be directed by the building principal or his representative to remove themselves from school property forthwith.

5. In the event steps 2 and/or 3 fail to stop the demonstration, the Superintendent or his representative will ask the police to remove the demonstrators and any individuals failing to comply under step 3.
6. Any student who does not report to their assigned classroom after being instructed to do so under item 2 will be subject to suspension.

Drug and Alcohol Policy

Reason for Policy

An orderly and safe school environment that is conducive to promoting student achievement requires a student population free from the deleterious effects of alcohol and drugs. When and Where Applicable

Therefore, no student in Beebe Public School District shall possess, consume, use, distribute, sell, attempt to sell, give to any person, or be under the influence of any substance as defined in this policy, or what the student represents or believes to be any substance as defined in this policy. Upon verification by local law enforcement or school authorities or admission by the student or substantiated evidence, any student purchasing or attempting to purchase drugs or alcohol on school grounds or at school-sponsored events will be in violation of this policy.

If through observation, the principal suspects a student of using drugs or alcohol, the student may be required to be examined by a medical doctor. The student can only re-enter school with a doctor's statement dated that day stating that the student was not under the influence (legal intoxication not required) of alcohol or drugs as revealed by appropriate medical tests.

Prohibited Substance and Paraphernalia

Prohibited substances shall include, but are not limited to: alcohol, or any alcoholic beverage; inhalants or any ingestible matter that alter a student's ability to act, think, or respond; LSD, or any other hallucinogen; marijuana, CBD, THC, cocaine, heroin, or any other narcotic drug; PCP; amphetamines; steroids; "designer drugs"; look-alike drugs; or any controlled substance. Any amount of alcohol or drugs consumed or in possession by a student will be a violation of drug and alcohol policy. The possession or use of drug paraphernalia, i.e. clips, pipes, containers, etc., used in connection with drugs, will be a violation of this policy. Any item intended to be representative of a drug or any item designed as a counterfeit and/or look-alike drug/alcohol will be considered an illegal drug, and any student using or possessing such substances will be in violation of the drug and alcohol policy.

Definitions

"Alcohol" includes any alcoholic beverage, malt beverage, fortified wine, or other intoxicating liquor or any substance represented as alcohol.

"Controlled substances" include but is not limited to narcotic drugs, hallucinogenic drugs, amphetamines, barbiturates, marijuana, anabolic steroids, or any controlled substance as defined in Schedules I through VI of the Arkansas Controlled Substance Act (5-64-201) including analogs and look-alike drugs.

Any student engaging in any of the situations listed above will be subject to one of the following penalties:

The counseling/rehabilitation services will be at the student's own expense and must be approved by the building administrator. Upon readmission, continued enrollment in school shall be contingent upon completion of the counseling/ rehabilitation program. (A list of resources for counseling/rehabilitation programs are available in the counselor's office.) Law enforcement will be notified with a possibility of a citation being issued.
2. Any student in violation of the alcohol/drug policy a second time during grades seven through twelve will be recommended for expulsion. Law enforcement will be notified with the possibility of a citation being issued.

Mandatory Compliance

Compliance with the standards of conduct stated in this policy is mandatory for all students.

Students are also expected to report knowledge or suspicion of drug and alcohol violations to school authorities immediately. Any student who fails to do so will be considered an accessory to the act and will be disciplined accordingly.

All violations of the drug and alcohol policy may be subject to referral to the appropriate law enforcement agency(ies).

Sexual Harassment

The Beebe School District is committed to maintaining an environment in which all employees and students are free from unsolicited and unwelcome sexual overtures. We will not tolerate sexual harassment that is directed toward employees or students.

Sexual harassment is a form of misconduct that undermines the integrity of the employment relationship. Sexual harassment does not refer to occasional compliments. It refers to behavior that is not welcomed and is personally offensive. That behavior debilitates morale and, therefore, interferes with the work effectiveness of employees or students.

Unwelcome sexual advances, requests for sexual favors, unwelcome touching, and other inappropriate oral, written, or physical conduct of a sexual nature constitute sexual harassment when:

1. Submission to or toleration of such conduct is made a term or condition of receiving preferential treatment.

2. Submission to or toleration of such conduct is made a term or condition to avoid an unpleasant or threatening situation.
3. Submission to or rejection of such conduct by an individual is used as a basis for academic decisions affecting the individual.

Any person who alleges sexual harassment by any staff member to a student in the district should use the following procedure to address the problem.

1. Complainant should inform the offender that the behavior is offensive and will not be tolerated.
2. Report the offense to the supervisor of the person accused of committing the offense. If circumstances do not permit reporting to the immediate supervisor, complaints may be made to another school administrator. The complaint should be in writing.
3. The supervisor will meet confidentially with the accused and document statements from him or her as well as from any witnesses. Appropriate action will be taken depending on the severity and/or frequency of the offense. Documentation of any disciplinary action will be placed in the file of the accused.
4. The complainant may appeal the decision of the supervisor to the superintendent and to the school board using normal district appeal procedures.

Filing of a complaint or otherwise reporting sexual harassment will not reflect upon the individual's status nor will it affect future employment, grades, or work assignments.

The right to confidentiality, both of the complainant and of the accused, will be respected consistent with the district's legal obligations and with the necessity to investigate allegations of misconduct and take corrective action when this conduct has occurred.

A substantiated charge against a student in the school district shall subject that student to disciplinary action including suspension or expulsion, consistent with the student discipline policies and regulations.

Search, Seizure, and Interrogations

The District respects the rights of its students against the arbitrary intrusion of their person and property. At the same time, it is the responsibility of school officials to protect the health, safety, and welfare of all students enrolled in the District in order to promote an environment conducive to student learning. The Superintendent, principals, and their designees have the right to inspect and search school property and equipment. They may also search students and their personal property in which the student has a reasonable expectation of privacy, when there is reasonable and individualized suspicion to believe such student or property contains illegal items or other items in violation of Board policy or dangerous to the school community. School authorities may

seize evidence found in the search and disciplinary action may be taken. Evidence found which appears to be in violation of the law shall be reported to the appropriate authority.

School property shall include, but not be limited to, lockers, desks, and parking lots, as well as personal effects left there by students. When possible, prior notice will be given and the student will be allowed to be present along with an adult witness, however, searches may be done at any time with or without notice or the student's consent. A personal search must not be excessively intrusive in light of the age and sex of the student and the nature of the infraction.

The Superintendent, principals, and their designees may request the assistance of law enforcement officials to help conduct searches. Such searches may include the use of specially trained dogs.

A school official of the same sex shall conduct personal searches with an adult witness of the same sex present.

State Law requires that Department of Human Services employees, local law enforcement, or agents of the Crimes Against Children Division of the Division of Arkansas State Police, may interview students without a court order for the purpose of investigating suspected child abuse. In instances where the interviewers deem it necessary, they may exercise a "72-hour hold" without first obtaining a court order. Other questioning of students by non-school personnel shall be granted only with a court order directing such questioning, with permission of the parents of a student (or the student if above eighteen [18] years of age), or in response to a subpoena or arrest warrant.

If the District makes a report to any law enforcement agency concerning student misconduct or if access to a student is granted to a law enforcement agency due to a court order, the principal or the principal's designee shall make a good-faith effort to contact the student's parent, legal guardian, person having lawful control of the student, or person standing in loco parentis. The principal or the principal's designee shall not attempt to make such contact if presented documentation by the investigator that notification is prohibited because a parent, guardian, person having lawful control of the student, or person standing in loco parentis is named as an alleged offender of the suspected child maltreatment. This exception applies only to interview requests made by a law enforcement officer, an investigator of the Crimes Against Children Division of the Division of Arkansas State Police, or an investigator or employee of the Department of Human Services.

In instances other than those related to cases of suspected child abuse, principals must release a student to either a police officer who presents a subpoena for the student, or a warrant for arrest, or to an agent of state social services or an agent of a court with jurisdiction over a child with a court order signed by a judge. Upon release of the student, the principal or designee shall give the student's parent, legal guardian, or other person having lawful control of the student, or person standing in loco parentis notice that the student has been taken into custody by law enforcement personnel or a state's social services agency. If the principal or designee is unable to

reach the parent, he or she shall make a reasonable, good-faith effort to get a message to the parent to call the principal or designee and leave both a day and an after-hours telephone number.

Terroristic Threats

Any student that threatens to commit or commits a violent act against any other student or staff member will be taken seriously. **Such acts may result in out of school suspension up to a maximum of ten (10) days and a possible recommendation for expulsion for up to one calendar year. School Resource Officers will be notified and local authorities may be notified** according to the severity of the threat. Consideration will be given if a student makes a terroristic threat towards a student or staff member on more than one occasion. The administration will follow the district threat assessment protocol. Students are expected to report knowledge or suspicion of terroristic threats immediately to school authorities. Any student who fails to do so will be considered an accessory to the threatening and will be disciplined accordingly. Act 1046 established this as a Class C Felony.

Student Discipline

The Beebe Board of Education has a responsibility to protect the health, safety, and welfare of the District's students and employees. To help maintain a safe environment conducive to high student achievement, the Board establishes policies necessary to regulate student behavior to promote an orderly school environment that is respectful of the rights of others and ensures the uniform enforcement of student discipline. Students are responsible for their conduct that occurs:

- At any time on the school grounds;
- Off school grounds at a school-sponsored function, activity, or event; and
- Going to and from school or a school activity.

The District's administrators may also take disciplinary action against a student for off-campus conduct occurring at any time that would have a detrimental impact on school discipline, the educational environment, or the welfare of the students and/or staff. A student who has committed a criminal act while off campus and whose presence on campus could cause a substantial disruption to school or endanger the welfare of other students or staff is subject to disciplinary action up to and including expulsion. Such acts could include, but are not limited to a felony or an act that would be considered a felony if committed by an adult, an assault or battery, drug law violations, or sexual misconduct of a serious nature. Any disciplinary action pursued by the District shall be in accordance with the student's appropriate due process rights.

The District's personnel policy committees shall annually review the District's student discipline policies, including State and District student discipline data, and may recommend changes in the policies to the Beebe School Board. The Board has the responsibility of determining whether to approve any recommended changes to student discipline policies.

The District's student discipline policies shall be distributed to each student during the first week of school each year and to new students upon their enrollment. Each student's parent, legal guardian, person having lawful control of the student, or person standing in loco parentis shall

sign and return to the school an acknowledgment form documenting that they have received the policies.

The District shall develop and provide programs, measures, or alternative means and methods for continued student engagement and educational access during periods of suspension or expulsion.

The superintendent is authorized to modify the penalties set forth in the District's student discipline policies on a case-by-case basis.

It is required by law that the principal or the person in charge report to the police any incidents the person has personal knowledge of or has received information leading to a reasonable belief that a person has committed or threatened to commit an act of violence or any crime involving a deadly weapon on school property or while under school supervision. If the person making the report is not the Superintendent, that person shall also inform the Superintendent of the incident. Additionally, the principal shall inform any school employee or other person who initially reported the incident that a report has been made to the appropriate law enforcement agency. The Superintendent or designee shall inform the Board of Directors of any such report made to law enforcement.

The superintendent shall make a report annually to the Board of Directors on student discipline data, which shall include, without limitation: the number of incidents of bullying reported and the actions taken regarding the reported incidents of bullying.

The School Board feels good discipline is essential to good instruction. The Board supports the administration's effort to maintain a learning environment in the classroom. The Board realizes as should each student and parent, that it would be impossible to prescribe rules and punishments for every situation that may arise. However, some specific rules are set forth on this and subsequent sections which warrant special attention. Students are expected to be honest, polite, punctual, and obedient.

They are expected not to violate state and federal laws, and to conduct themselves in such a manner that the educational system and process is not hindered or thwarted.

Misconduct/Discipline

The following student conduct is not permitted. Violation of these rules of conduct shall result in a minimum penalty of verbal reprimand up to a maximum penalty of expulsion from school. The penalty will be determined by the nature of the offense committed. The principal/assistant principal may bypass steps and go directly to a more severe penalty. The options of consequences for misbehavior are listed for the consideration of the principal and not the student.

❖ Physical Abuse or Assault of Staff

Any student who commits assault and/or battery or communicates a threat upon any member of the faculty or staff will be given a ten (10) day suspension with a recommendation for expulsion and possible citation.

The weapon shall be confiscated and held in the office until such time as the student’s parent/legal guardian shall pick up the weapon from the school’s office. Repeated

offenses are unacceptable and shall be grounds for disciplinary action against the student as otherwise provided for in this policy.

Except as permitted in this policy, **students found to be in possession on the school campus of a firearm shall be recommended for expulsion for a period of one (1) year.** The superintendent shall have the discretion to modify such expulsion recommendation for a student on a case-by-case basis.

The parents or legal guardians shall sign a statement acknowledging that they have read and understand said laws prior to the student being enrolled in school.

Student Use of Multiple Occupancy Room

Definitions

"Multiple occupancy room" means an area in a District building that is designed or designated to be used by one (1) or more individuals at the same time and in which one (1) or more individuals may be in various stages of undress in the presence of other individuals, which includes, without limitation, a restroom, locker room, changing room, or shower room.

"Sex" means the physical condition of being male or female based on genetics and physiology, which may be demonstrated by the sex identified on a student's original birth certificate.

Each multiple occupancy room in a District building shall be designated as either male or female. Except as permitted by this policy, a student shall not enter a multiple occupancy room that does not correspond to the student's sex.

An individual who is unwilling or unable to use a multiple occupancy room designated for the individual's sex shall be granted a reasonable accommodation, which may include, without limitation, access to a single-occupancy restroom or changing area. A reasonable accommodation shall not include access to a restroom or changing area that is designated for use by members of the opposite sex to an individual while members of the opposite sex of the individual are present or may be present in the restroom or changing area.

The prohibitions in this policy do not apply to an individual who enters a multiple occupancy room designated for use by the opposite sex when the individual enters for any of the following reasons:

- custodial, maintenance, or inspection purposes;
 - To render emergency medical assistance;
 - To address an ongoing emergency, including without limitation a physical altercation;
 - To accommodate individuals protected under the Americans with Disabilities Act;
- or
- To assist young children who are in need of physical assistance when using a restroom or changing facility that is located in the District.

Discipline for Disabled Students

Students with disabilities are subject to the same disciplinary rules as non-disabled. The individualized education plan (IEP) will address any particular disciplinary procedures that may deviate from the usual rules. State and Federal guidelines will be followed to maintain

compliance, and protect the rights of students with disabilities to a free appropriate public education.

Corporal Punishment

The Board of Education authorizes the use of corporal punishment to be administered in accordance with this policy by the Superintendent or the superintendent's designated staff members who are required to have a state-issued license as a condition of their employment.

Prior to the administration of corporal punishment, the student receiving the corporal punishment shall be given an explanation of the reasons for the punishment and be given an opportunity to refute the charges.

All corporal punishment shall be administered privately, i.e. out of the sight and hearing of other students, shall not be excessive, or administered with malice, and shall be administered in the presence of another school administrator or designee who shall be a licensed staff member employed by the District.

Corporal punishment shall not be used as a form of discipline for a student who is intellectually disabled, non-ambulatory, non-verbal, or autistic.

Suspension from School

Students who are not present at school cannot benefit from the educational opportunities the school environment affords. Administrators, therefore, shall strive to find ways to keep students in school as participants in the educational process. There are instances, however, when the needs of the other students or the interests of the orderly learning environment require the removal of a student from school. The Board authorizes school principals or their designees to suspend students for disciplinary reasons for a period of time not to exceed ten (10) school days, including the day upon which the suspension is imposed. The suspension may be in school or out of school. Students are responsible for their conduct that occurs:

- At any time on the school grounds;
- Off school grounds at a school-sponsored function, activity, or event; and
- Going to and from school or a school activity.

A student may be suspended for behavior including, but not limited to, that:

1. Is in violation of school policies, rules, or regulations;
2. Substantially interferes with the safe and orderly educational environment;
3. School administrators believe will result in the substantial interference with the safe and orderly educational environment; and/or
4. Is insubordinate, incorrigible, violent, or involves moral turpitude.

Out-of-school suspension (OSS) shall not be used to discipline a student in kindergarten through fifth (5th) grade unless the student's behavior:

- a. Poses a physical risk to himself or herself or to others;

- b. Causes a serious disruption that cannot be addressed through other means; or
- c. Is the act of bringing a firearm onto the school campus.

OSS shall not be used to discipline a student for skipping class, excessive absences, or other forms of truancy.

The school principal or designee shall proceed as follows in deciding whether or not to suspend a student:

1. The student shall be given written notice or advised orally of the charges against him/her;
2. If the student denies the charges, he/she shall be given an explanation of the evidence against him/her and be allowed to present his/her version of the facts; and
3. If the principal finds the student guilty of the misconduct, he/she may be suspended.

When possible, a notice of the suspension, its duration, and any stipulations for the student's re-admittance to class will be given to the parent(s), legal guardian(s), person(s) with lawful control of the student, person(s) standing in loco parentis, or to the student if age eighteen (18) or older prior to the suspension. Such notice shall be handed to the parent(s), legal guardian(s), person(s) with lawful control of the student, person(s) standing in loco parentis, or to the student if age eighteen (18) or older or mailed to the last address reflected in the records of the school district.

Generally, notice and hearing should precede the student's removal from school, but if prior notice and hearing are not feasible, as where the student's presence endangers persons or property or threatens disruption of the academic process, thus justifying immediate removal from school, the necessary notice and hearing should follow as soon as practicable.

It is the responsibility of a student's parents, legal guardians, person having lawful control of the student, or person standing in loco parentis to provide current contact information to the district, which the school shall use to immediately notify the parent, legal guardian, person having lawful control of a student, or person standing in loco parentis upon the suspension of a student. The notification shall be by one of the following means, listed in order of priority:

- A primary call number
- The contact may be by voice, voice mail, or text message.
- An email address;
- A regular first-class letter to the last known mailing address.

The district shall keep a log of contacts attempted and made to the parent, legal guardian, person having lawful control of the student, or person standing in loco parentis.

The District shall establish programs, measures, or alternative means and methods to continue student engagement and access to education during a student's period of OSS.

During the period of their suspension, students serving OSS are not permitted on campus except to attend a student/parent/administrator conference or when necessary as part of the District's engagement or access to education program.

During the period of their suspension, students serving in-school suspension shall not attend or participate in any school-sponsored activities during the imposed suspension. Students may participate in school-sponsored activities after 3:15 pm on the last school day of the imposed in-school suspension.

Suspensions initiated by the principal or his/her designee may be appealed to the Superintendent, but not to the Board.

Suspensions initiated by the Superintendent may be appealed to the Board.

Expulsion

The Board of Education may expel a student for a period longer than ten (10) school days for violation of the District's written discipline policies. The Superintendent may make a recommendation of expulsion to the Board of Education for student conduct:

- Deemed to be of such gravity that suspension would be inappropriate;
- Where the student's continued attendance at school would disrupt the orderly learning environment; or
- Would pose an unreasonable danger to the welfare of other students or staff.

Expulsion shall not be used to discipline a student in kindergarten through fifth (5th) grade unless the student's behavior:

- a. Poses a physical risk to himself or herself or to others;
- b. Causes a serious disruption that cannot be addressed through other means; or
- c. Is the act of bringing a firearm on school campus.

The Superintendent or his/her designee shall give written notice to the parents, legal guardians, persons having lawful control of the student, or persons standing in loco parentis (mailed to the address reflected on the District's records) that he/she will recommend to the Board of Education that the student be expelled for the specified length of time and state the reasons for the recommendation to expel. The notice shall give the date, hour, and place where the Board of Education will consider and dispose of the recommendation.

The hearing shall be conducted not later than ten (10) school days following the date of the notice, except that representatives of the Board and student may agree in writing to a date not conforming to this limitation.

The President of the Board, Board attorney, or other designated Board member shall preside at the hearing. The student may choose to be represented by legal counsel. Both the district administration and School Board also may be represented by legal counsel. The hearing shall be conducted in open session of the Board unless the parent, legal guardian, person having lawful control of the student, person standing in loco parentis, or student if age eighteen (18) or older, requests that the hearing be conducted in executive session. Any action taken by the Board shall be in open session.

During the hearing, the Superintendent, or designee, or representative will present evidence, including the calling of witnesses, who gave rise to the recommendation of expulsion. The student, or his/her representative, may then present evidence including statements from persons with personal knowledge of the events or circumstances relevant to the charges against the student. Formal cross-examination will not be permitted; however, any member of the Board, the Superintendent, or designee, the student, or his/her representative may question anyone making a statement and/or the student. The presiding officer shall decide questions concerning the appropriateness or relevance of any questions asked during the hearing.

Except as permitted by policy 4.22, the Superintendent shall recommend the expulsion of any student for a period of one (1) year for possession of any firearm prohibited on school campus by law. The Superintendent shall, however, have the discretion to modify the expulsion recommendation for a student on a case-by-case basis. Parents, legal guardians, persons having lawful control of a student, or persons standing in loco parentis of a student enrolling from another school after the expiration of an expulsion period for a weapons policy violation shall be given a copy of the current laws regarding the possibility of parental responsibility for allowing a child to possess a weapon on school property. The parents, legal guardians, persons having lawful control of a student, or persons standing in loco parentis shall sign a statement acknowledging that they have read and understand said laws prior to the student being enrolled in school.

The Superintendent and the Board of Education shall complete the expulsion process of any student that was initiated because the student possessed a firearm or other prohibited weapon on school property regardless of the enrollment status of the student.

The District shall establish programs, measures, or alternative means and methods to continue student engagement and access to education during a student's period of expulsion.

Student and Parent Complaints and Grievances

The Board of Education believes that students have the right to express school-related concerns and grievances when they arise. Any student, parent, student organization, or group of students should request a meeting with the principal or appropriate authority for any discussion or consideration of a grievance, complaint, or other concern. It shall be the aim of the Board to have the consideration of student problems and concerns discussed and resolved as quickly and equitably as possible.

The proper channels for all student complaints, concerns, or grievances should be as follows:

1. Teacher or group sponsor
2. Principal
3. Superintendent
4. Board of Education

Due Process

The Board of Education recognizes due process, through a basically flexible and imprecise concept, to be defined as fair and reasonable approaches to all areas of student governance and discipline on the part of all school officials. The Board also realizes that observance of applicable substantive due process entails two basic considerations: (1) any objective sought relative to student governance must be legally defensible, e.g., based upon a rational or compelling state interest; and (2) the means taken to accomplish such objective must be within the constitutional limitations applicable to the in loco parentis position of school officials with the school district. To assure compliance with these two substantive aspects, the Board has endorsed the following applicable policies, rules, and regulations.

- Each local school policy, rule, or regulation shall spell out its purpose as it relates to accomplishment of a legally defensible objective.
- Each local regulation shall be based on a board policy.
- All policies, rules, and regulations at any level shall be consistent with local, county, or city ordinances, statutes of the State of Arkansas, administrative regulations of duty-authorized agencies; e.g., State Board or State Department of Education; Department of Education.
- Both policies of the Board and regulations designated by local school administrators shall be specific and precise.
- No Board policies or local school codes of conduct shall deny any student his/her constitutional right.
- Discharge of administrative responsibilities and exercise of authority shall recognize applicable legal parameters placed upon the in loco parentis position of school officials.
- To be fair and reasonable in a legal sense, all exercises of administrative authority or that of other school officials, i.e., classroom teachers, shall be capable of withstanding close judicial scrutiny relative to freedom from arbitrary, capricious, discriminatory or otherwise illegal practices.
- Students, parents, citizens, teachers, and administrators should be participants in drawing up local school codes of conduct.

The area of procedural due process within the school district shall relate primarily to the area of discipline and disciplinary measures, e.g., corporal punishment, short-term suspension, long-term suspension, and expulsion.

The degree of procedural due process afforded in each of the above situations shall be dependent upon two vital factors: (1) the gravity of the offense a student is alleged to have committed; and

(2) the severity of the contemplated penalty. For example, a much greater degree of procedural due process shall be applicable in an expulsion situation than in one where the penalty is short-term suspension.

Under due process, each student shall be guaranteed a fair hearing, a fair judgment, a written record of the decision, and a notice of his right to appeal. This is applicable to serious penalties such as suspension.

The full panoply of procedural due process shall be afforded any student facing possible long-term suspension (over ten (10) days) or expulsion. In both of these situations, the Board of Education shall follow an adversary-type procedure with legal counsel permitted, a transcribed record of the hearing, and related safeguards.

MEDICAL INFORMATION

Health Services

The Board believes that healthy children promote a better learning environment, are more capable of high student achievement, and will result in healthier, more productive adults. Therefore, the goal of the District's health services is to promote a healthy student body. This requires both the education of students concerning healthy behaviors, as well as providing health care services to pupils.

The District shall develop an age-appropriate seizure education program for the District's students consistent with training programs and guidelines developed by the Epilepsy Foundation of America.

While the school nurse is under the supervision of the school principal, the delegation of health care duties shall be in accordance with the Arkansas Nurse Practice Act and the Arkansas State Board of Nursing Rules Chapter Five: Delegation of Nursing Care.

A safe and healthy school environment positively impacts the physical and mental health of students. While the primary responsibility for the provision of ongoing health care remains with the parents/guardians, the family physician, and other health professionals, the District will provide supportive health services and a coordinated health services program. School nurses have the primary responsibility for the delivery of the school health program. This includes educating students on health issues, working with the staff and students to ensure a safe and healthy school environment, and providing direct health care.

Student health records will be maintained by the school nurse. Health records are confidential and written parent/guardian permission will be obtained before information is released. In connection with an emergency, personally identifiable information from a student's health record may be disclosed to appropriate parties to protect the health and safety of the student or other individuals.

Physical Examinations / Screenings

The District conducts routine health screenings such as hearing, vision, and scoliosis due to the importance these health factors play in the ability of a student to succeed in school. The screenings will be billed to Medicaid at no charge to the parents or guardians. The intent of the

exams or screenings is to detect defects in hearing, vision, or other elements of health that would adversely affect the student's ability to achieve his/her full potential.

The rights provided to parents under this policy transfer to the student when he/she turns eighteen (18) years old.

Except in instances where a student is suspected of having a contagious or infectious disease, parents shall have the right to opt their student out of the exams or screenings by using form 4.41F or by providing certification from a physician that he/she has recently examined the student. Parents may request a copy of the objection form by contacting the school.

Student Illness/Accident

If a student becomes too ill to remain in class and/or could be contagious to other students, the principal or designee will attempt to notify the student's parent or legal guardian. The student will remain in the school's health room or a place where he/she can be supervised until the end of the school day or until the parent/legal guardian can check the student out of school.

If a student becomes seriously ill or is injured while at school and the parent/legal guardian cannot be contacted, the failure to make such contact shall not unreasonably delay the school's expeditious transport of the student to an appropriate medical care facility. The school assumes no responsibility for the treatment of the student. When available, current, and applicable, the student's emergency contact numbers and medical information will be utilized. Parents are strongly encouraged to keep this information up to date.

Personal Illness

In order to provide students with a healthy environment in which to learn, these guidelines should be followed:

1. If a child complains before school, take his/ her temperature and keep the child home if the temperature exceeds 100 degrees, without medication.
2. If a child complains with stomach disorders such as nausea, vomiting, or diarrhea, he/she should not be sent to school. Stomach viruses are contagious.
3. If a child has a rash of unknown origin or has a suspected condition (such as chicken pox), which may be contagious, do not send him/her to school until a physician has diagnosed the condition.
4. If a student is sent home from school with a fever, he/she should not return to school the next day. A child should be fever free for twenty-four (24) hours without medication before returning to school.

Many times children become ill at school, and it is necessary for the school to notify the parents. The following criteria will be used as a guide before notifying parents:

1. Fever of 100.4 degrees or higher;
2. Vomiting and/or diarrhea;
3. Symptoms of contagious conjunctivitis/pink eyes (students may return to school after being on medication for 24 hours);
4. Symptoms of a contagious disease;
5. Serious injuries (deemed such by the teacher, principal, or school nurse);
6. Symptoms of head lice; or
7. Symptoms that the teacher, principal, or school nurse deems as a possible health risk to the student and/or to the other students in this school.

Administration of Medication

Prior to the administration of any medication, including any dietary supplement or other perceived health remedy not regulated by the US Food and Drug Administration, to any student under the age of eighteen (18), written parental consent is required. The consent form shall include authorization to administer the medication and relieve the Board and its employees of civil liability for damages or injuries resulting from the administration of medication to students in accordance with this policy. All signed medication consent forms are to be maintained by the school nurse.

Unless authorized to self-administer or otherwise authorized by this policy, students are not allowed to carry any medications, including over-the-counter medications or any perceived health remedy not regulated by the US Food and Drug Administration, while at school. The parent or legal guardian shall bring the student's medication to the school nurse. The student may bring the medication if accompanied by written authorization from the parent or legal guardian. When medications are brought to the school nurse, the nurse shall document, in the presence of the parent, the quantity of the medication(s). If the medications are brought by a student, the school nurse shall ask another school employee to verify, in the presence of the student the quantity of the medication(s). Each person present shall sign a form verifying the quantity of the medication(s).

Medications, including those for self-administration, must be in the original container and be properly labeled with the student's name, the ordering provider's name, the name of the medication, the dosage, frequency, and instructions for the administration of the medication (including times). Additional information accompanying the medication shall state the purpose of the medication, its possible side effects, and any other pertinent instructions (such as special storage requirements) or warnings. Schedule II medications that are permitted by this policy to be brought to school shall be stored in a double-locked cabinet.

Students with an individualized health plan (IHP) may be given over-the-counter medications to the extent giving such medications is included in the student's IHP.

The district's supervising registered nurse is responsible for creating procedures for the administration of medications on and off campus.

The school shall not keep outdated medications or any medications past the end of the school year. Parents shall be notified ten (10) days in advance of the school's intention to dispose of any medication. Medications not picked up by the parents or legal guardians within the ten (10) day period shall be disposed of by the school nurse in accordance with current law and rules.

A Student Medication Administration Release form is located on the school website. The form should be completed, signed, and returned to your child's school nurse in order for your child to receive any stock medications supplied by the school nurse.

Schedule II Medications

Option 1: The only Schedule II medications that shall be allowed to be brought to the school are methylphenidate (e.g. Ritalin or closely related medications as determined by the school nurse), dextroamphetamine (Dexedrine), and amphetamine sulfate (e.g. Adderall or closely related medications as determined by the school nurse).

For the student's safety, no student will be allowed to attend school if the student is currently taking any other Schedule II medication than permitted by this policy. Students who are taking Schedule II medications which are not allowed to be brought to school shall be eligible for homebound instruction if provided for in their IEP or 504 plans.

Option 2: Students taking Schedule II medications methylphenidate (e.g. Ritalin or closely related medications as determined by the school nurse), dextroamphetamine (Dexedrine), and amphetamine sulfate (e.g. Adderall or closely related medications as determined by the school nurse) shall be allowed to attend school.

Students taking Schedule II medications not included in the previous sentence shall be allowed to bring them to school under the provisions of this policy and shall be permitted to attend and participate in classes **only** to the extent the student's doctor has specifically authorized such attendance and participation. A doctor's prescription for a student's Schedule II medication is **not** an authorization. Attendance authorization shall specifically state the degree and potential danger of physical exertion the student is permitted to undertake in the student's classes and extracurricular activities. Without a doctor's written authorization, a student taking Schedule II medications, other than those specifically authorized in this policy, shall not be eligible to attend classes but shall be eligible for homebound instruction if provided for in their IEP or 504 plans.

Self-Administration of Medication

Students who have written permission from their parent or guardian and a licensed health care practitioner on file with the District may:

- Self-administer either a rescue inhaler or auto-injectable epinephrine;

- Perform his/her own blood glucose checks;
- Administer insulin through the insulin delivery system the student uses;
- Treat the student's own hypoglycemia and hyperglycemia; or

- At an on-site school-sponsored activity;
- While traveling to or from school; or

A student is prohibited from sharing, transferring, or in any way diverting his/her medications to any other person. The fact that a student with a completed consent form on file is allowed to carry a rescue inhaler, auto-injectable epinephrine, diabetes medication, or combination does not require him/her to have such on his/her person. The parent or guardian of a student who qualifies under this policy to self-carry a rescue inhaler, auto-injectable epinephrine, diabetes medication, or any combination on his/her person shall provide the school with the appropriate medication, which shall be immediately available to the student in an emergency.

Students may possess and use a topical sunscreen that is approved by the United States Food and Drug Administration for OTC use to avoid overexposure to the sun without written authorization from a parent, legal guardian, or healthcare professional while the student is on school property or at a school-related event or activity. The parent or guardian of a student may provide written documentation authorizing specifically named District employee(s), in addition to the school nurse, to assist a student in the application of sunscreen. The District employee(s) named in the parent or legal guardian's written authorization shall not be required to assist the student in the application of sunscreen.

Emergency Administration of Glucagon and Insulin

Students may be administered Glucagon, insulin, or both in emergency situations by the school nurse or, in the absence of the school nurse, a trained volunteer school employee designated as a care provider, provided the student has:

- an IHP that provides for the administration of Glucagon, insulin, or both in emergency situations; and
- a current, valid consent form on file from their parent or guardian.

A student shall have access to a private area to perform diabetes monitoring and treatment functions as outlined in the student's IHP.

Emergency Administration of Epinephrine

The school nurse or other school employees designated by the school nurse as a care provider who has been trained and certified by a licensed physician may administer an epinephrine auto-injector in emergency situations to students who have an IHP that provides for the administration of an epinephrine auto-injector in emergency situations.

The parent of a student who has an authorizing IHP, or the student if over the age of eighteen (18), shall annually complete and sign a written consent form provided by the student's school nurse authorizing the nurse or other school employee(s) certified to administer auto-injector epinephrine to administer auto-injector epinephrine to the student when the employee believes the student is having a life-threatening anaphylactic reaction.

Students with communicable diseases or with human host parasites that are transmittable in a school environment shall demonstrate respect for other students by not attending school while they are capable of transmitting their condition to others. Students whom the school nurse determines are unwell or unfit for school attendance or who are believed to have a communicable disease or condition will be required to be picked up by their parent or guardian. Specific examples include, but are not limited to: Varicella (chicken pox), measles, scabies, conjunctivitis (Pink Eye), impetigo/MRSA (Methicillin-resistant *Staphylococcus aureus*), streptococcal and staphylococcal infections, ringworm, mononucleosis, Hepatitis A, B, or C, mumps, vomiting, diarrhea, and fever (100.4 F when taken orally).¹ A student who has been sent home by the school nurse will be subsequently readmitted, at the discretion of the school nurse, when the student is no longer a transmission risk. In some instances, a letter from a healthcare provider may be required prior to the student being readmitted to the school.

To help control the possible spread of communicable diseases, school personnel shall follow the District's exposure control plan when dealing with any blood-borne, foodborne, and airborne pathogens exposures. A student may be readmitted after the school nurse or designee has determined the student no longer has live head lice.

- Each school may conduct screenings of students for head lice as needed. The screenings shall be conducted in a manner that respects the privacy and confidentiality of each student.

Wellness Policy

The health and physical well-being of students directly affects their ability to learn. Childhood obesity increases the incidence of adult diseases occurring in children and adolescents such as heart disease, high blood pressure and diabetes. The increased risk carries forward into their adulthood. Research indicates that a healthy diet and regular physical activity can help prevent obesity and the diseases resulting from it. It is understood that the eating habits and exercise patterns of students cannot be magically changed overnight, but at the same time, the Board of Directors believes it is necessary to strive to create a culture in our schools that consistently promotes good nutrition and physical activity.

The problem of obesity and inactivity is a public health issue. The Board of Directors is keenly aware that it has taken years for this problem to reach its present level and will similarly take years to correct. The responsibility for addressing the problem lies not only with the schools and the Division of Elementary and Secondary Education (DESE), but with the community and its residents, organizations and agencies. Therefore, the District shall enlist the support of the larger community to find solutions that improve the health and physical activity of our students.

Wellness Committee

To enhance the district's efforts to improve the health of our students, a School Nutrition and Physical Activity Advisory Committee (SNPAAC) shall be formed. It shall be structured in a way to ensure age-appropriate recommendations are made that correlate to the District's grade configurations. The SNPAAC shall have the powers and responsibilities delegated to it by statute and Rule and are incorporated into this policy by reference. The overarching goal of the committee shall be to promote student wellness by monitoring how well the District is doing at implementing this policy. The SNPAAC shall use modules 1, 2, 3, 4, 10, and 11 of the Centers for Disease Control (CDC) School Health Index as a basis for annually assessing each school's progress toward meeting the requirements of this policy. The results of the annual assessment shall be included in the school district's support plan (SDSP), provided to each school's principal, and reported to the board. Goals and objectives for nutrition and physical activity shall also be included in the SDSP.

The SNPAAC shall be made up of Individuals from the following groups to the extent interested persons from each group desire to be included in the development, implementation, and periodic review of the District's wellness policy:

- Members of the District's Board of Directors;
- School administrators;
- School nutrition personnel;
- Teacher organizations;
- Teachers of physical education;
- Parents;

- Professional groups (such as nurses);
- School health professionals (such as school nurses, school counselors, and social workers); and
- Community members.

The SNPAAC shall provide written recommendations to the District's Child Nutrition Director concerning menus and other foods sold in the school cafeteria. Such recommendations shall be based, at least in part, on the information the Committee receives from the District on the requirements and standards of the National School Lunch Program and from menus for the National School Lunch Program and other food sold in the school cafeteria on a quarterly basis.

The SNPAAC will meet at least quarterly. Meeting dates for the SNPAAC will be placed on the District's calendar.

School Health Coordinator

To assist the SNPAAC in ensuring that the District fulfills the requirements of this policy, a District level School Health Coordinator (Designated District Official) shall be appointed. In addition, a school level School Health Coordinator shall be appointed who shall be responsible

for assisting the District level School Health Coordinator in ensuring that each school fulfills the requirements of this policy.

Students are expected to abide by the rules and behavioral expectations both at home and at school.

Use of Copyrighted Works in Digital Transmissions

The District recognizes that advances in technology have resulted in the need for guidelines for the use of copyrighted materials that are transmitted to students through a digital network. While the requirements to use a copyrighted work in a digital transmission have many similarities to those required to use a copyrighted work in a face-to-face classroom, Federal law places several additional requirements on the District's teachers, IT staff, and librarians for the use of a digitally transmitted copyrighted work. The District is dedicated to providing the tools necessary for teachers, IT staff, and librarians to meet these additional Federal requirements.

Any student violating this provision shall be subject to this policy's disciplinary provisions. As used in this policy, "electronic devices" means anything that can be used to transmit or capture images, sound, or data. The prohibition in this policy does not extend to the electronic device the District provides the student for the student's use during assessment administration to the extent the student is using the District provided device to complete the assessment.

2. At the beginning of each school year, each student will be provided a printed copy of the district's meal policy as well as printed information regarding the procedures and various options for meal payment at their particular school site, one of which is an online option. 3. Once per week, automated phone calls will be made to the parent/guardian of each student who owes lunch charges in any amount.
4. Once per week balance reminders will be sent via email to parents with a valid email address on file.
5. Refunds of positive account balances may be processed at the end of each school year, when/if a student is approved for free meals or upon student withdrawal from the district. A request for refund form signed by the parent/guardian must be submitted to the Child Nutrition Department for any refunds. Unclaimed funds for students leaving the district must be requested within 30 calendar days after the end of the school year during which the student left. Unclaimed funds will then become the property of the Beebe Public Schools Child Nutrition Program.

School Meal Modifications

The district only provides modified meal components on menus to accommodate students with a disability. A parent/guardian wishing to request dietary accommodations for their student with a disability must submit to the district’s Director of Child Nutrition a medical statement completed by a State licensed healthcare professional, which includes:

- Physicians, including those licensed by:
 - The Arkansas State Medical Board;
 - The Arkansas State Board of Chiropractic Examiners (Chiropractors);
 - The Arkansas Board of Podiatric Medicine (Podiatrists);
- Nurse Practitioners (APRNs in family or pediatric practice with prescriptive authority);
- Physician Assistants (PAs who work in collaborative practice with a physician); and
- Dentists.

The medical statement should include:

1. A description of the student’s disability that is sufficient to understand how the disability restricts the student’s diet;
2. An explanation of what must be done to accommodate the disability, which may include:
 - a. Food(s) to avoid or restrict;
 - b. Food(s) to substitute;
 - c. Caloric modifications; or
 - d. The substitution of a liquid nutritive formula.

If the information provided in the medical statement is unclear or lacks sufficient detail, the district’s Director of Child Nutrition¹ shall request additional information so that a proper and safe meal can be provided.

When choosing an appropriate approach to accommodate a student’s disability, the District will consider the expense and efficiency of the requested accommodations. The District will offer a reasonable modification that effectively accommodates the child’s disability and provides equal opportunity to participate in or benefit from the program, which may include a generic version of a product.

Parents may file a grievance regarding the request for accommodations with the District’s 504 Coordinator³, who will schedule a hearing on the grievance to be held as soon as possible. The 504 coordinator shall provide a copy of the procedures governing the hearing, including that the parent has the right to be accompanied by counsel, and the appeal process upon request.

The district will not prepare meals outside the normal menu to accommodate a family’s religious or personal health beliefs.

- Pupils who must cross the road after leaving the bus in the afternoon must go to a point on the shoulder of the road ten feet in front of the bus. Cross the highway only after the driver has signaled you to do so.
- Do not damage road signs or warning signals placed on the highway by the Highway Department.
- All hard materials must be covered, properly secured, and located so as not to block the aisles or exits.
- It is unlawful for any person or persons to threaten, curse, or use abusive language to a school bus driver in the presence of students.

- No inappropriate use of cell phones (as deemed by administration).
- School policies are in effect on the bus as they are in the classrooms. This is not intended to cover all of the “do’s” and “don’ts”, but it is a very specific guide.

Penalties ranging from a warning to suspension from school and/or the bus will be applied according to the severity of the offense and at the discretion of the Administrator.

The transportation to and from school of students who have lost their bus transportation privileges is the responsibility of the student's parent or guardian.
