

Technology Requests

Technology Move Requests

For technology moves within your classroom or to move to a different classroom, please notify the Technology Department by sending in a request to support@greenwoodk12.com. Some Technology equipment moves will need to go through your school admin for approval. **Please do not move any Technology items.** The Technology Department will move equipment for you to your new location or within your classroom as time allows. Most technology equipment have a blue and/or red tag that is tracked through an inventory system.

New Technology Requests

The Technology Department goal is to always equip all rooms with technology for basic functionality. All requests for new technology equipment will need to be sent to your school admin for approval and purchase.
