

Linking Infinite Campus User Accounts to Bluejay Domain User Accounts

June 22, 2012

The Jefferson R-VII School District added the ability to convert Infinite Campus user accounts to Active Directory/LDAP authentication. This allows users to authenticate with the same UserID and password that they use to log into their computers. Users who wish to link their existing Infinite Campus accounts to their Bluejay domain accounts (computer login) may do so with three easy steps.

Step 1. Log into Infinite Campus and click on Account Settings

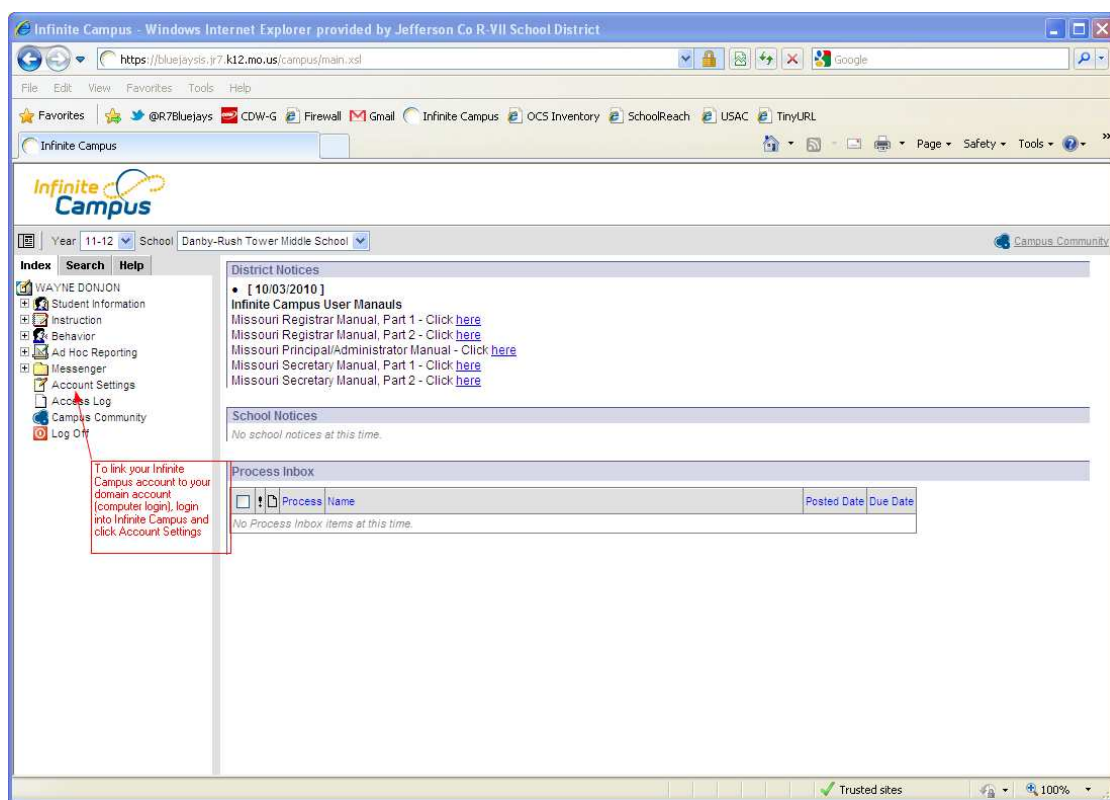

Fig 1

Step 2. Enter your Bluejay domain UserID and password and click Save LDAP Settings.

Verify New Password

Hide Banner ☐

Convert to LDAP Account.

Enter the username and password given to you by your system administrator.

This will allow you to use a consistent username and password across other applications that use LDAP or Microsoft Active Directory.

LDAP username

LDAP password

Done Trusted sites 100%
