### **USD 309 ATTENDANCE POLICY**

Daily school attendance is essential to a positive educational experience for each student. Parents/Guardians are encouraged to contact the school office as soon as it is known that the student will be absent on a given day. In order to ensure the safety of the student, the school office will contact the parent when notification has not been received relative to the student being absent from school.

The days a student is suspended shall not be counted as unexcused absences in allowing make up work since the loss of those days have already served as the basis for a penalty for the behavior causing the suspension.

### **NHS ATTENDANCE POLICY**

Students may be excused up to 5 absences (including 15 minutes to a full day), per semester, subject to parent approval. Absences in excess of the described annual limits will be posted as "unexcused absences" unless the student provides a doctor or court note.

**EXCUSED ABSENCES:** personal illness; health-related treatment, examination, or recuperation; Serious illness or death of a family member; obligatory religious observances; participation in a district-approved or school sponsored activity or course; absences prearranged by parents/guardians and approved by the Principal or Assistant Principal.

Absences not confirmed by the student's parent will be posted as unexcused. Unexcused absence from class will lead to the student not being able to make up work from the absence. Special exceptions may be made by administration. Excessive unexcused absences may lead to filing truancy charges as required by Kansas law. A truancy warning letter will be issued on the 3<sup>rd</sup> semester absence.

1. Parents/guardians are responsible for notifying the school office by 8:30 a.m. the day the student is absent.
2. NHS will contact the parent by phone, at home or work, if parent notification of absence does not occur by 8:30 a.m. the day of absence.
3. If a student knows of an absence in advance, the parent or guardian will notify the office by phone or note prior to the absence.
4. A student who enters class after the tardy bell has rung, but before 15 minutes of class has elapsed, shall be considered tardy. After 15 min of class, the student shall be considered absent.
5. Any student leaving the school early **must check out** at the front office.
6. Forged notes or false phone calls to excuse students will result in an office referral and disciplinary action will be taken.

7. Truancy will be filed with the County Attorney office when a student under the age of 18 accumulates unexcused absences on 3 consecutive days, or a total of 5 days in a semester or 7 days during the school year.

8. **UNEXCUSED ABSENCES**: In all cases, unexcused absences will be dealt with in accordance to Kansas attendance laws. Skipping classes and leaving the building without checking out through the office will result in disciplinary consequences.

### **TARDY POLICY**

Students are expected to be in class when the tardy bell rings. The only reason a student might be late to a class is if he/she is detained by a staff member for educational purposes. If this should occur, the student will receive a pass explaining why the student was detained and NO tardy will be assessed.

A student can be tardy only the first 15 minutes of class. After 15 minutes of class has elapsed, the student will be counted absent for attendance purposes. Students will be given 2 warnings per 9 weeks. Students who exceed the 2 warnings will have the following consequences:

**1st & 2nd Tardy:** Warning

**3rd Tardy:** 15-minute detention

**4th Tardy:** 30-minute detention with referral

## **Policy for Random Drug Testing of USD 309 Nickerson-South Hutchinson Students**

### **MISSION STATEMENT**

The mission of the USD 309 random drug testing policy is to provide a safe and drug free educational setting where all students can achieve their full potential. Our policy additionally aims to provide students a deterrent to curb issues related to substance abuse. The **goal** of the policy is to provide a system of assistance for students, as well as a purpose for opting out of the peer pressures associated with using illegal drugs. The procedure for random drug testing of middle and high school students participating in KSHSAA sponsored school athletics and activities, as defined in this policy, will be accomplished in conjunction with an independent drug-testing vendor. Understand that USD 309 strongly supports a drug-free policy among its students at school and school activities. Therefore, every student in grades 7-12 who participates in KSHSAA sponsored school activities as a condition for such participation agrees to submit to random drug testing as set forth in this policy. Additionally, students and their families may agree to OPT-IN their child(ren) who do not participate in KSHSAA sponsored activities to the random testing pool at any time.

To facilitate random testing, the school district will provide the vendor with a list of opt-in 7<sup>th</sup> – 12<sup>th</sup> grade students who participate in KSHSAA sponsored athletics and activities. Those students may be subject to random drug testing. In turn, the vendor will select middle school students and high school students for random testing. Each time students are tested using a “true random” selection process, meaning that every student in the pool is subject to being selected from every drawing, with the same probability of randomness throughout. Data updates for the selection will be submitted by the school district to the vendor on a regular basis throughout the school year.

### **1. PURPOSE**

Participating in KSHSAA sponsored school activities while a student at USD 309 Nickerson-South Hutchinson is a privilege. Therefore, students who participate in any KSHSAA sponsored athletics and activities will be subject to random drug testing. Information contained in this policy complements the USD 309 District Policy pertaining to drugs and alcohol. Additionally, if a student is suspected of being under the influence of an illicit substance during the school day or at a school activity, representatives of the school district do have the authority to conduct an interview or have the student provide a collection sample based upon reasonable suspicion.

The purpose of this program is as follows:

1. To provide for the safety of all students;
2. To undermine the effect of peer pressure by providing a legitimate reason for students to refuse to use illegal drugs;
3. To assist students who use illegal drugs to participate in drug treatment programs; and
4. To promote achievement of students' full academic potential by preventing the impact drug and alcohol use has on learning.

Other components of our program are as follows:

- The random drug-testing program is designed to be academically non-punitive.
- The results of drug tests pursuant to this policy will not be documented in any student's academic records.
- Information regarding the results of drug tests will not be disclosed to criminal or juvenile authorities absent legal compulsion by valid and binding subpoena or other legal processes, which the district shall not solicit.
- Record of drug testing will be destroyed at the end of each school year. Positive test results will be kept on record the following year of a positive test result and will be destroyed upon successfully passing three subsequent drug tests as determined by the administration.

In order to provide a drug free environment and assist in the prevention of drug use, wellness promotion, and treatment of students who have engaged in drug use, **USD 309 students in grades 7-12 who participate in KSHSAA sponsored athletics and activities will be subject to random drug testing. Additionally, students and their families may agree to Opt-In to the random testing pool at any time.**

#### **Surveys: Parental Inspection Rights**

Parents shall have the right to inspect any survey created by a third party before it is administered or distributed to students in the school. Prior to distribution, parents shall have the right to inspect any survey that seeks information about: political affiliations or beliefs of the student or the student's parent; mental or psychological problems of the student or the student's family; sex behavior or attitudes; illegal, anti-social, self-incriminating, or demeaning behavior; critical appraisals of other individuals with whom respondents have close family relationships; legally recognized privileged or analogous relationships, such as those of lawyers, physicians, and ministers; religious practices, affiliations, or beliefs of the student or student's parent; or income (other than that required by law to determine eligibility for participation in a program or for receiving financial assistance under such program).

#### **Written Permission Required**

If such survey is funded in whole or in part by federal funds, a survey that seeks this information shall not be administered without the express written consent of the parent. If the survey is not federally funded, parents must be given direct notification of the survey, through U.S. mail or e-mail, and provided with an opportunity to opt their child out of the survey. If the survey is part of the curriculum, parents shall have the right to inspect any instructional materials used in conjunction with the survey.

#### **Physical Examinations**

Prior to the administration of any non-emergency, invasive physical examination or screening that is required as a condition of attendance, administered by the school, scheduled by the school in advance and not necessary to protect the immediate health and safety of the student, the school shall provide parents with notice of the

activity and provide parents with an opportunity to opt their child out of the activity. This requirement does not apply to routine dental, hearing and vision screenings required under Kansas law.

#### Parental Rights: Marketing Information

If the school collects, discloses or uses personal information from students for the purpose of marketing or selling that information, parents shall have a right to inspect any instrument used for the collection of such information before it is administered or distributed to students in school. Parents shall be provided with notice of such activities and provided with an opportunity to opt their child out of the activity. The requirements concerning activities involving the collection and disclosure of personal information from students for marketing purposes do not apply to the collection, disclosure, or use of personal information collected from students for the exclusive purpose of developing, evaluating, or providing educational products or services for or to students or educational institutions, such as the following:

2. Book clubs, magazines, and programs providing access to low-cost literary products.
3. Curriculum and instructional materials used by elementary schools and secondary schools
4. Tests and assessments used by elementary schools and secondary schools to provide cognitive, evaluative, diagnostic, clinical, aptitude, or achievement information about students.
5. The sale by students of products or services to raise funds for school-related or education-related activities.

### **HARASSMENT RACIAL and/or SEXUAL**

The Board of Education is committed to providing a positive and productive learning and working environment, free from discrimination on the basis of sex, race, color, or national origin. Discrimination or harassment on the basis of race, color or national origin will not be tolerated; sexual harassment will not be tolerated. Sexual or racial discrimination is strictly prohibited.

All forms of sexual and racial harassment are unlawful discrimination and are prohibited at school, on school property, and at all school-sponsored activities, programs or events. Sexual and racial harassment against individuals associated with the school is prohibited, whether or not the harassment occurs on school grounds.

It is a violation of policy for any student, employee or third party (visitor, vendor, etc.) to sexually or racially harass any student, employee or other individual associated with the school. Further, it is a violation for any employee to discourage a student from filing a complaint, or to fail to investigate or refer for investigation, any complaint.

#### Sexual harassment Defined

Sexual harassment is unwelcome sexual advances, requests for sexual favors and other inappropriate oral, written or physical conduct of a sexual nature. Sexual harassment may include, but is not limited to: verbal harassment or abuse; pressure for sexual activity; repeated remarks to a person, with sexual or demeaning implication; unwelcome touching; or suggesting or demanding sexual involvement accompanied by implied or explicit threats concerning a student's grades, participation in extra-curricular activities, etc.

#### Reporting Sexual or Racial Harassment

The district encourages all victims of sexual or racial harassment and persons with knowledge of such harassment to report the harassment immediately. The district will promptly investigate all complaints of sexual or racial harassment and take prompt corrective action to end the harassment.

Any student who believes that he or she has been subjected to sexual or racial harassment should discuss the alleged harassment with the building principal, another administrator, the guidance counselor, or another licensed staff member. Any school employee who receives a complaint of sexual or racial harassment from a student shall inform the student of the employee's obligation to report the complaint and any proposed resolution of the complaint to the building principal. If the building principal is the alleged harasser, the complaint shall be reported to the district compliance coordinator. The building principal or district compliance coordinator shall discuss the complaint with the student to determine if it can be resolved. If the matter is not resolved to the satisfaction of the student in this meeting, the student may initiate a formal complaint under the district's discrimination compliance procedure.

Complaints received will be investigated to determine whether, under the totality of the circumstances, the alleged behavior constitutes sexual or racial harassment under the definitions outlined above. Unacceptable student conduct may or may not constitute harassment, depending on the nature of the conduct and its severity, pervasiveness and persistence. Behaviors which are unacceptable but do not constitute harassment may provide grounds for discipline under the code of student conduct. The discipline of a student for violation of any provision of the code of student conduct may be enhanced if the conduct is racially motivated.

#### Failure to Report

An employee who witnesses an act of sexual or racial harassment shall report the incident to the building principal. Employees who fail to report complaints or incidents of sexual or racial harassment to appropriate school officials may face disciplinary action. School administrators who fail to promptly investigate and take appropriate corrective action in response to complaints of racial harassment may also face disciplinary action.

#### Involvement of Authorities

When a complaint contains evidence of criminal activity or child abuse, the building coordinator or district coordinator shall report such conduct to the appropriate law enforcement or SRS authorities.

#### Confidentiality

To the extent possible, confidentiality will be maintained throughout the investigation of a complaint. The desire for confidentiality must be balanced with the district's obligation to conduct a thorough investigation, to take appropriate corrective action or to provide due process to the accused.

#### Retaliation and False Complaints

The filing of a complaint or otherwise reporting sexual or racial harassment shall not reflect upon the individual's status or grades. Any act of retaliation against any person who has filed a complaint or testified, assisted, or participated in an investigation of a harassment complaint is prohibited. Any person who retaliates is subject to immediate disciplinary action, up to and including expulsion for a student or termination of employment for an employee.

False or malicious complaints of harassment may result in corrective or disciplinary action against the complainant.

### **Homeless Student Regulations** **Required by Federal and State Law**

Homeless students shall, by definition, include the following:

1. Children and youth who are sharing the housing of other persons due to loss of housing, economic hardship or a similar reason; are living in motels, hotels, trailer parks or camping grounds due to the lack of alternative adequate accommodations; are living in emergency or transitional shelters; are abandoned in hospitals; or are awaiting foster care placement.
2. Children and youth who have a primary nighttime residence that is a public or private place not designated for or ordinarily used as a regular sleeping accommodation for human beings.

3. Children and youth who are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations or similar settings.
4. Migratory children who meet one of the above-described circumstances.

#### Enrollment/Placement (See JBC)

The administration shall consider the best interest of the child, with parental involvement, in determining whether the child should be enrolled in the school of origin or the school that non-homeless students who live in the attendance area in which the homeless child or youth is actually living are eligible to attend. To the extent feasible, and in accordance with the child or youth's best interest, the child or youth should continue his or her education in the school of origin, except when contrary to the wishes of the parent or guardian. If the youth is unaccompanied by a parent or guardian, the homeless coordinator will consider the views of the youth in deciding where the youth will be educated. The choice regarding placement shall be made regardless of whether the child or youth lives with the homeless parents or has been temporarily placed elsewhere.

The school selected shall immediately enroll the homeless child or youth, even if the child or youth is unable to produce records normally required for enrollment, such as previous academic records, immunization records, proof of residency or other documentation. However, the district may require a parent or guardian of a homeless child or youth to submit contact information.

The district must provide a written explanation, including a statement regarding the right to appeal, to the homeless child or youth's parent or guardian, or to the homeless youth if unaccompanied, if the district sends the child or youth to a school other than the school of origin or other than a school requested by the parent or guardian.

If a dispute arises over school selection or enrollment in a school, the child or youth shall be immediately admitted to the school in which enrollment is sought, pending resolution of the dispute. The child, youth, parent or guardian shall be referred to the district homeless coordinator, who will carry out the dispute resolution process as expeditiously as possible. For the purposes of this policy, "school of origin" is defined as the school that the student attended when permanently housed or the school in which the student was last enrolled.

A complaint regarding the placement or education of a homeless child or youth shall first be presented orally and informally to the district's homeless coordinator. If the complaint is not promptly resolved, the complainant may present a formal written complaint (grievance) to the homeless coordinator. The written complaint must include the following information: date of filing, description of concerns, the name of the person or persons involved and a recapitulation of the action taken during the informal charge stage. Within five (5) working days after receiving the complaint, the coordinator shall state a decision in writing to the complainant, with supporting evidence and reasons. In addition, the coordinator will inform the superintendent of the formal complaint and the disposition.

#### Services

Each homeless child or youth shall be provided services comparable to services offered to other students in the district including, but not limited to, transportation services; educational services for which the child meets the eligibility criteria, such as educational programs for disadvantaged students, students with disabilities and gifted and talented students; vocational programs and technical education; school meals programs; preschool programs; before- and after-school care programs; and programs for students with limited English proficiency. Homeless students will not be segregated in a separate school or in a separate program within a school based on the students' status as homeless.

#### Transportation (See Policy EDAA, JBC and JGG)

If it is in the best interest of the homeless child or youth to attend the school of origin, transportation to and from that school will be provided at the request of the parent or guardian or, in the case of an unaccompanied youth, the homeless coordinator. If the student's temporary housing is outside the attendance area of the school of origin, then the district will work with the school of origin to agree on a method to apportion the responsibility and costs for transporting the child. If an agreement cannot be reached, the costs will be shared equally.

### Records (See Policy JR and JGCB)

Any records ordinarily kept by the school, including immunization records, academic records, birth certificates, guardianship records and evaluations for special services or programs of each homeless child or youth shall be maintained so that appropriate services may be given the student, so that necessary referrals can be made and so that records may be transferred in a timely fashion when a homeless child or youth enters a new school district. Copies of records shall be made available upon request to students or parents in accordance with the Family Educational Rights and Privacy Act.

### Coordinator

The Board designates the following individual to act as the district's homeless coordinator:

Tel: 620-663-7141 FAX: 620-663-7148

6. Enrollment disputes are mediated in accordance with law.

9. Children or youths who need to obtain immunizations, or immunization or medical records, will receive assistance.
