Parent Request for MOCAP approval

Parent--please initial ALL of the following to indicate that you have read and understand these guidelines.

_____ I understand Marshall Public Schools (MPS) is not required to provide access to computers, the internet or other necessary technology resources to students choosing to take a MOCAP course.

_____ I understand MPS is not required to provide a supervised location for student taking a MOCAP virtual course to work on their course during the school day;

_____ I understand all MOCAP students follow the same school calendar as in-seat courses. Students enrolled in MOCAP virtual courses are expected to complete all course requirements by the end of the semester as stated on the MPS Board of Education Approved calendar;

_____ I understand all classes will receive a letter grade, but they will not count towards class rank (valedictorian/salutatorian);

_____ I understand students who enroll in the MOCAP virtual program are expected to actively participate in those courses with the goal of completing the course. If a student does not actively participate in a course or is not successful in the course, the district may remove the student from the MOCAP course and refuse to enroll the student in the MOCAP courses program in the future;

_____ I understand MPS will monitor my students progress on a consistent basis and advise if the student is not meeting the academic standards for the course and will notify the parent that their student will no longer be eligible for the MOCAP program at the district's expense (parents may continue to pay the tuition for their student to the MOCAP provider, if they choose);

_____ I understand MPS will gather a school based (district level if required) team to decide if the requested MOCAP placement is the best educational environment for the student;

_____ I understand in order to be successful in an online course, a student must have good computer skills, time management skills, persistence, and good written communication skills;

_____ I understand if my student is approved to enroll in the MOCAP course, the virtual provider, not MPS, will monitor and provide accommodations specified for my student IEP or 504 plan and or EL support; however, prior to MOCAP enrollment an IEP or 504 meeting will take place for those students who are currently receiving services from the public school.

_____ I understand I am responsible for understanding how my educational choices, including my decision to enroll in the MOCAP virtual program, may impact my student's MSHSAA eligibility.

_____ I understand the classes offered by the MOCAP virtual program may be different than the classes offered on any of the MPS campuses and understand my student will be enrolled full time based on DESE and MPS's expectation for full time enrollment based on what is offered in the MOCAP virtual program, not what is offered for MPS inseat learners.

_____ I understand MPS approved vendors for MOCAP virtual options are the following: Launch, Missouri Connections Academy (MOCA), Missouri Virtual Academy (MOVA) and Edmentum. I understand I will have to choose my students' courses from one of these four providers.

_____ I understand my counselor will work with me and my student to make sure I understand the courses my student is taking and that my child is properly enrolled in grade level required classes.
