

PRINCIPAL'S MESSAGE

Hello Rattler Family,

It is my pleasure to welcome you to an amazing year at Rancho Middle School. At RMS we prepare our students to "R.I.S.E to high school and beyond through Responsibility, Integrity, Service and Excellence". We anticipate the 2021-2022 school year to be an incredible one! The teaching staff incorporates exciting and challenging academic programs that focus on 21st Century Learning, Project Based Learning, and the 5C's of education (Communication, Collaboration, Critical Thinking, Creativity, and Character). Here at RMS we believe in teaching to the whole student: academic, social, and emotional learning.

RMS offers a well-rounded experience for students that includes not only traditional education (English, Mathematics, Social Studies, Science and PE) but also the opportunity for your student to participate in a variety of electives, activities, clubs, athletic teams, and events. The family/school partnership we strive for is key to student success. Our goal is to work collaboratively to ensure your student's educational achievement. We are committed to making a difference in the lives of all students. Middle school is a time of transition into young adulthood and we believe in supporting students through this process and assisting them in reaching new goals.

I am looking forward to working with you to help your student work to their potential and get the most memorable and successful middle school experience possible here at Rancho Middle School.

Sincerely,

Alicia Bonnett
Principal
