INDEPENDENT AUDITOR'S REPORT

School Board
Sioux Valley School District No. 5-5
Brookings County, South Dakota

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Sioux Valley School District No. 5-5, Brookings County, South Dakota, as of June 30, 2021 and for the year then ended, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements as listed in the Table of Contents.

Management's Responsibility for the Financial Statements

The School District's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal controls relevant to the preparation and fair presentation of financials statements that are free from material misstatements, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the School District's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Qualified Opinions

The School District did not adopt Governmental Accounting Standards Board (GASB) Statement No. 84 *Fiduciary Activities*, which is a departure from accounting principles generally accepted in the United States of America (USGAAP). The amount by which this departure would affect the assets, liabilities, net position, revenues and expenses/expenditures of the governmental activities, the general governmental fund and the aggregate remaining fund information is not reasonably determinable.

Qualified Opinions

In our opinion, except for the matters described in the "Basis for Qualified Opinions" section of our report, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the general governmental fund and the aggregate remaining fund information of Sioux Valley School District No.5-5 as of June 30, 2021, and the respective changes in financial position and, where applicable cash flows, thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Unmodified Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities, the capital outlay, special education, and QZAB certificate governmental funds, and the other enterprise and food service enterprise funds of Sioux Valley School District as of June 30, 2021, and the respective changes in financial position and, where applicable cash flows, thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the Budgetary Comparison Schedules, the Pension Schedules and the Management's Discussion and Analysis (MD&A), as listed in the Table of Contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during the audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the School District's basic financial statements. The Schedule of Expenditures of Federal Awards, which as required *Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) listed in the Table of Contents, is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated May 17, 2022, on our consideration of the School District's internal control over financial reporting and our tests of its compliance with certain provision of laws, regulations, contracts and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the School District's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of Sioux Valley School District No. 5-5's annual financial report presents our discussion and analysis of the School's financial performance during the fiscal year ended on June 30, 2021. Please read it in conjunction with the School's financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

- The Sioux Valley School District continues to experience a steady increase in enrollment. The enrollment for 2020-21 was 671, which was a decrease of 2 students over the previous year. Since 2012, the district has grown 110 students which is a 20% increase.
- Expenditures were lower than budgeted due to cost saving measures.
- In fiscal 2021, the district received \$334,000 in Coronavirus Relief Funds and \$113,602 in ESSER funds which were used for a teacher stipends, pandemic related supplies and services, and capital equipment purchases of new air handling units.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of three parts – management's discussion and analysis (this section), the basic financial statements and required supplementary information. The basic financial statements include two kinds of statements that present different views of the School:

- The first two statements are government-wide financial statements that provide both long-term and short-term information about the School's overall financial status.
- The remaining statements are fund financial statements that focus on individual parts of the School government, reporting the School's operations in more detail than the government-wide statements.
 - The governmental funds statements tell how general government services were financed in the short-term as well as what remains for future spending.
 - Proprietary fund statements offer short-term and long-term financial information about the activities that the school operates like businesses. Proprietary funds operated by the school are the Food Service, Before and After School Enrichment (BASE) and Driver's Education programs.
 - Fiduciary fund statements provide information about the financial relationships - like scholarship plans for graduating students - in which the School acts solely as a trustee or agent for the benefit of others, to whom the resources in question belong.

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of required supplementary information that further explains and supports the information in the financial statements. Figure A-1 shows how the required parts of this annual report are arranged and relate to one another.

Figure A-1
Required Components of Sioux Valley School District's Annual Financial Report

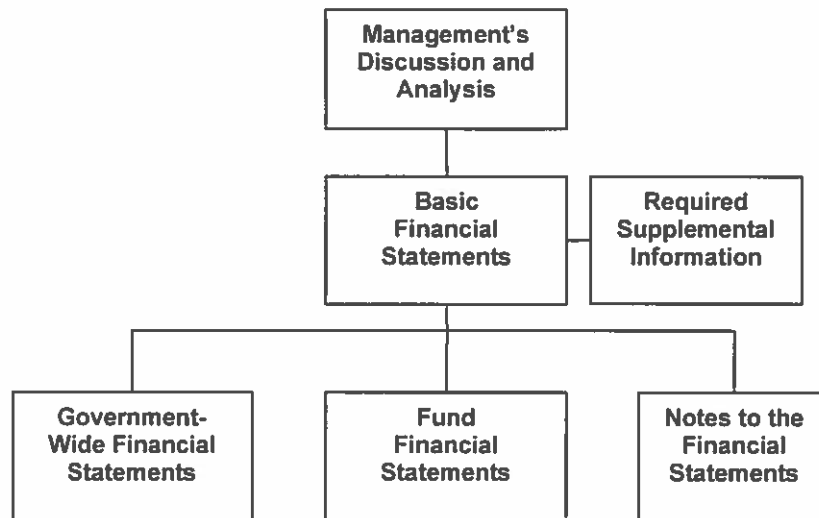

Figure A-2 summarizes the major features of the School's financial statements, including the portion of the School government covered and the types of information contained. The remainder of the overview section of the management's discussion and analysis explains the structure and contents of each of the statements.

Figure A-2

Major Features of Sioux Valley School District's Government Wide and Fund Financial Statements				
	Government-wide Statements	Governmental Funds	Fund Statements Proprietary Funds	Fiduciary Funds
Scope	Entire School government (except fiduciary funds)	The activities of the School that are not proprietary or fiduciary, such as elementary and secondary education programs.	Activities the School operates similar to private businesses, the food service and latchkey programs.	Instances in which the School is the trustee or agent for someone else's resources.
Required Financial Statements	*Statement of Net Position *Statement of Activities	*Balance Sheet *Statement of Revenues, Expenditures and Changes in Fund Balances	Statement of Net Position *Statement of Revenues, Expenses and Changes in Net Position *Statement of Cash Flows	*Statement of Net Positions *Statement of Changes in Net Position
Accounting Basis and Measurement Focus	Accrual accounting and economic resources focus	Modified accrual accounting and current financial resources focus	Accrual accounting and economic resources focus	Accrual accounting and economic resources focus
Type of Asset/Liability Information	All assets and liabilities, both financial and capital, and short-term and long-term	Only assets expected to be used up and liabilities that come due during the year or soon thereafter; no capital assets included	All assets and liabilities, both financial and capital, and short-term and long-term	All assets and liabilities, both short-term and long-term; the School's funds do not currently contain capital assets although they can
Type of Inflow/Outflow Information	All revenues and expenses during year, regardless of when cash is received or paid	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter	All revenues and expenses during year, regardless of when cash is received or paid	All revenues and expenses during year, regardless of when cash is received or paid

Government-wide Statements

The government-wide statements report information about the School as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The two government-wide statements report the School's net position and how they have changed. Net position – the difference between the School's assets and liabilities – are one way to measure the School's financial health or position.

- Increases or decreases in the School's net position are an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the School you need to consider additional non-financial factors such as changes in the School's property tax base and changes in the state school aid funding formula from the State of South Dakota.

The government-wide financial statements of the School are reported in two categories:

- **Governmental Activities** - This category includes the School's basic instructional services, such as elementary and secondary school educational programs, support services (guidance counselor, executive administration, board of education, fiscal services, etc.), debt service payments, co-curricular activities (athletics, oral interp, music, etc.) and capital equipment purchases. Property taxes, state grants, federal grants and interest earnings finance most of these activities.
- **Business-type Activities** - The School charges fees to help cover the costs of providing certain services. The Food Service, Before and After School Enrichment (BASE) and Driver's Education programs are the business-type activities of the School.

Fund Financial Statements

The fund financial statements provide more detailed information about the School's most significant funds – not the School as a whole. Funds are accounting devices that the School uses to keep track of specific sources of funding and spending for particular purposes.

- State Law requires some of the funds.
- The School Board establishes other funds to control and manage money for particular purposes (like the Scholarship Trust).

The School has three kinds of funds:

- **Governmental Funds** – Most of the School's basic services are included in the governmental funds, which focus on (1) how cash and other financial assets that can be readily converted to cash flow in and out and (2) the balances left at the year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the School's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information at the bottom of the governmental funds statements, or on the subsequent page, that explains the relationship (or differences) between them.
- **Proprietary Funds** – Services for which the School charges customers a fee are generally reported in proprietary funds. Proprietary funds, like the government-wide statements,

provide both short-term and long-term financial information. The Food Service Enterprise Fund, the Before and After School Enrichment, and the Driver's Education Program (types of proprietary funds) are the proprietary funds maintained by the School.

- **Fiduciary Funds** – The School is the trustee, or fiduciary, for various external and internal parties. The School is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the School's fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. We exclude these activities from the School's government-wide financial statements because the School cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE SCHOOL AS A WHOLE

Net Position

The School's combined net position increased as follows:

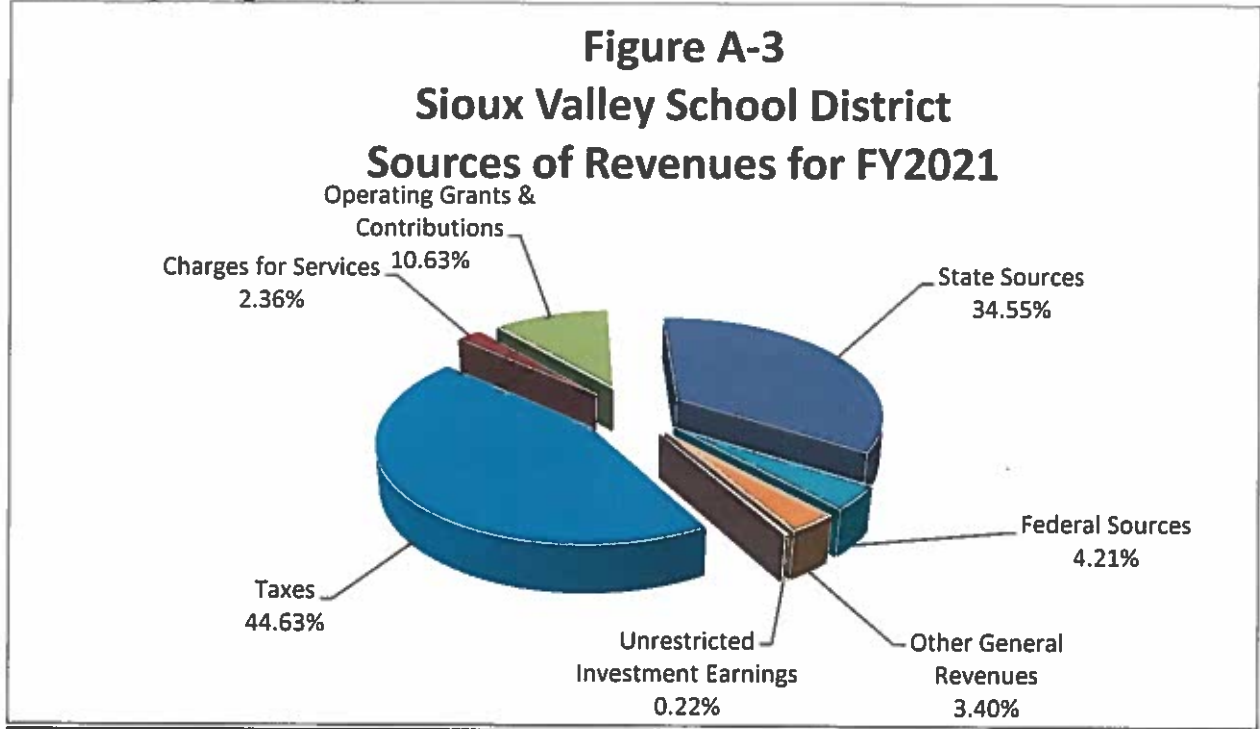

Table A-1
Sioux Valley School District 5-5
Statement of Net Position

	Governmental Activities		Business-Type Activities		Total		Total Percent Change

Increase (Decrease) in Net Position	\$ 279,786.63	\$ 507,568.92	\$ 1,012.33	\$ 17,879.04	\$ 280,798.96	\$ 525,447.96	87%
Percentage of Increase (Decrease) in Net Position	3%	5%	0%	8%	3%	5%	

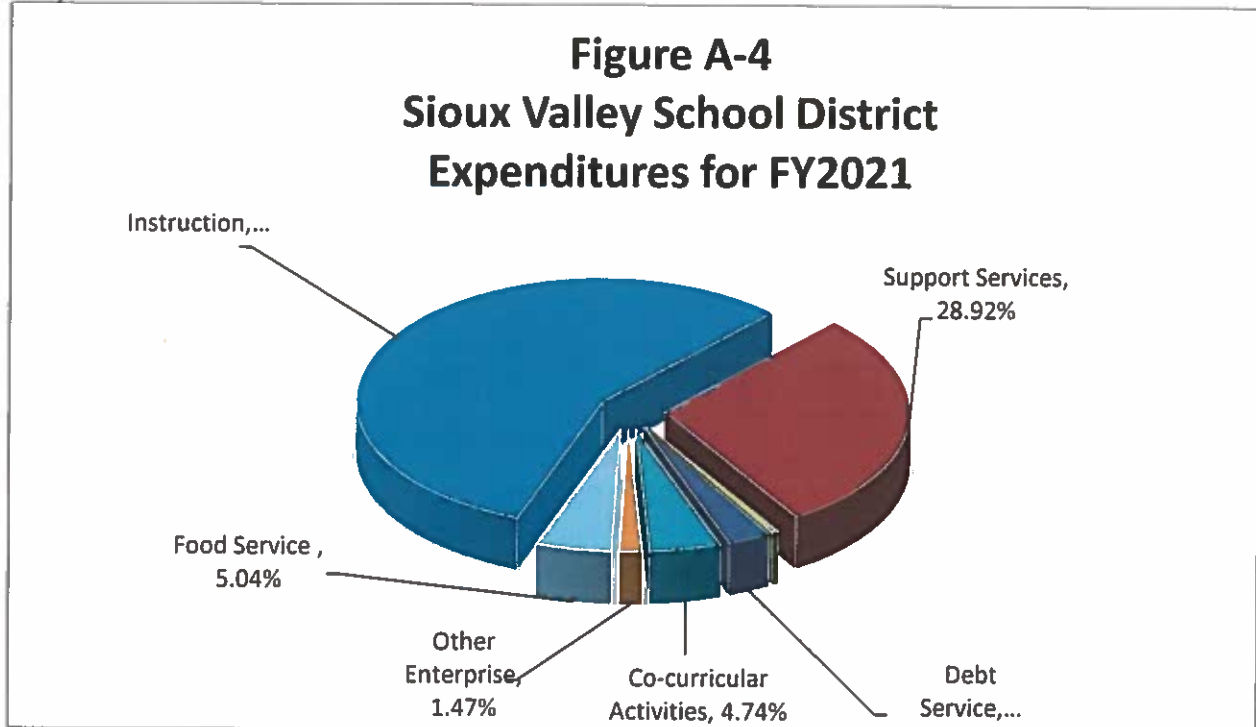

The Statement of Net Position reports all financial and capital resources. The statement presents the assets and liabilities in order of relative liquidity. The liabilities with average maturities greater than one year are reported in two components – the amount due within one year and the amount due in more than one year. The long-term liabilities of the school,

consisting of compensated absences payable, capital outlay certificates and capital acquisition financing leases, have been reported in this manner on the Statement of Net Position. The difference between the school's assets and liabilities is its net position.

The School's revenues totaled \$8,074,334.77. (See Table A-2.) Approximately 44% of the School's revenue comes from property and other taxes, and approximately 34% comes from state aid. (See Figure A-3).

The School's expenses cover a range of services, encompassing instruction, support services, debt services, co-curricular activities, food services and latchkey services (BASE). (See Figure A-4)

Changes in Net position

This section shows condensed financial comparison of revenues and expenses and provides explanations for significant differences.

GOVERNMENTAL AND BUSINESS-TYPE ACTIVITIES

Table A-2 considers the operations of the governmental activities.

BUSINESS-TYPE ACTIVITIES

Revenues of the School's business-type activities increased by \$55,577.68 to \$509,190.07 and expenditures increased by \$38,710.97 to \$491,311.03. This is due to the re-opening of our before and after school program in 2020-21, following the prior year's pandemic related closure.

FINANCIAL ANALYSIS OF THE SCHOOL'S FUNDS

The fund balance in the General fund was \$1,585,327.14, with the lowest cash balance at \$1,139,672. Per South Dakota state law, the lowest general fund cash balance cannot exceed 25% of expenditures. The Capital Outlay fund reported an increase in fund balance to \$3,231,987.09 due to an influx of pandemic related federal funds and the refinancing of capital outlay certificates. The Special Education fund reported an ending fund balance of \$83,086.02.

BUDGETARY HIGHLIGHTS

The School Board adopted the FY2021 budget on July 13, 2020.

CAPITAL ASSET ADMINISTRATION

By the end of 2021, the School had invested \$15,539,436 in a broad range of capital assets, including buildings, various machinery and equipment. (See Table A-3.) This amount represents a net increase (including additions and deductions) of \$282,263 over last year.

Table A-3

This year's capital asset purchases were library books, updates to the commons entrance, air handling units, air purification systems, cafeteria tables, and band uniforms.

LONG-TERM DEBT

At year-end the School had \$6,699,357.06 in long-term obligations as shown on Table A-4 below. This decreased \$3,017,060.58 over FY 2020. This decrease is deceiving as it exists only because the district refinanced the capital outlay certificates for the Performing Arts Center, which crossed two fiscal years – FY 2020 and FY 2021. The old capital outlay certificates were paid off in July 2020.

Table A-4
Sioux Valley School District 5-5
Outstanding Debt and Obligations

	Governmental Activities		Total Change	Total Percent Change
	<u>2020</u>	<u>2021</u>

Capital Acquisition Lease	19,175.00	14,573.00	(4,602.00)	-24%
Capital Outlay Certificate	<u>9,680,000.00</u>	<u>6,665,000.00</u>	<u>(3,015,000.00)</u>	-31%
Total	<u>\$ 9,716,417.64</u>	<u>\$ 6,699,357.06</u>	<u>\$ (3,017,060.58)</u>	-31%

The School issued Capital Outlay Certificates during fiscal year 2005. The proceeds were used to construct a new lunchroom, commons, and physical education center. The School refunded the Capital Outlay Certificates in September 2009. During fiscal year 2012, the School refinanced the 15 year Capital Outlay Lease Purchase Agreement for HVAC renovations with a promissory note at First National Bank in Volga, SD. This note was paid off during fiscal year 2014 with the proceeds of the new issue of Capital Outlay Certificates. This issue was \$3,800,000 to finance the construction of the Performing Arts Center as well as pay off the note at First National Bank in Volga. The School also received during fiscal year 2012, a \$500,000 allocation of Qualified Zone Academy Bonds which will be repaid interest free over 30 years. In the spring of 2017, \$4,000,000 in Capital Outlay Certificates were issued for the construction of an elementary addition to include 11 classrooms, a multi-purpose room, principal's office and an updated secure entrance. The district refinanced the Performing Art Center capital outlay certificates during the spring of 2020. The payoff of the old issue was made in July of 2020, therefore, the financials reflect only the existing certificate debt for Performing Arts Center.

The School is liable for the accrued vacation leave payable to the superintendent, business manager, secretary, custodians, and BASE director.

The School no longer maintains an early retirement plan, with the exception of the retiring business manager per her contract agreement. At the end of fiscal year 2021, the business manager retired and received 50% of her last year's contracted salary to be paid in full through a 403b plan.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The Sioux Valley School District's financial condition continues to be very strong. The funding formula for schools changed with Senate Bill 131. SB 131 established a new funding formula for K-12 public schools based on a student-to-teacher ratio, adjusted provisions in the Capital Outlay fund, instituted equalization principles for other revenue and set caps on general fund reserves. The district did experience an increase in total property valuation from the prior year, however, the total amount which can be levied is limited by the State of South Dakota.

CONTACTING THE SCHOOL'S FINANCIAL MANAGEMENT

This financial report is designed to provide our citizens, taxpayers, customers, and investors and creditors with a general overview of the School's finances and to demonstrate the School's accountability for the money it receives. If you have questions about this report or need additional information, contact the Sioux Valley School's Business Office, 200 Hansina Avenue, PO Box 278, Volga, SD 57071.

The notes to the financial statements are an integral part of this statement

**SIOUX VALLEY SCHOOL DISTRICT NO. 5-5
RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET
TO THE STATEMENT OF NET POSITION
JUNE 30, 2021**

Total Fund Balances - Governmental Funds	\$ 5,151,764.69
------------------------------------------	-----------------

Amounts reported for governmental activities in the statement of net position are different because:

Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds.

Capital Assets	\$ 15,381,729.60	
Accumulated Depreciation	<u>(3,775,171.50)</u>	11,606,558.10

Long-term liabilities are not due and payable in the current period and therefore are not reported in the funds. Long-term liabilities at year-end consist of:

Capital Outlay Certificates Payable	(6,665,000.00)	
Capital Lease Payable	(14,573.00)	
Compensated Absences	<u>(19,784.06)</u>	(6,699,357.06)

Net Pension Asset reported in governmental activities is not an available financial resource and therefore is not reported in the funds.

6,352.03

Pension related deferred outflows are components of pension asset and therefore are not reported in the funds.

1,045,677.61

Pension related deferred inflows are components of pension liability and therefore are not reported in the funds

(836,214.41)

Assets such as taxes receivable (delinquent) are not available to pay for current period expenditures and therefore are deferred in the funds.

1,664.37

Net Position - Governmental Funds	<u>\$10,276,445.33</u>
-----------------------------------	------------------------

The notes to the financial statements are an integral part of this statement.

**SIOUX VALLEY SCHOOL DISTRICT NO. 5-5
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND
CHANGES IN FUND BALANCES TO THE
GOVERNMENT-WIDE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED JUNE 30, 2021**

Net Change in Fund Balances - Total Governmental Funds	\$(2,149,521.55)
--------------------------------------------------------	------------------

Amounts reported for governmental activities in the statement of activities are different because:

Because some property taxes will not be collected for several months after the district's fiscal year ends, they are not considered "available" revenues and are deferred in the governmental funds. Deferred tax revenues decreased by this amount this year.

(255.11)

require the use of current financial resources and therefore are not reported as expenditures in governmental funds. This is the change in early retirement benefits payable and compensated absences.

Compensated Absences Payable

(2,541.42)

governmental funds as expenditures. However, for governmental activities these costs are shown in the Statement of Net Position and allocated over their estimated useful lives as annual depreciation expenses in the Statement of Activities. This is the amount by which depreciation expense exceeds capital outlay expense in the period.

Depreciation Expense

\$ (335,764.74)

Capital Outlays

254,434.31

(81,330.43)

Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Position and does not affect the Statement of

413,066.00

The payment of refunding debt long-term debt and payment to escrow is an other financing source in the fund statements but an increase in long-term liabilities on the government wide statements.

2,606,536.00

Changes in the pension related deferred outflows/inflows are direct components of pension liability(asset) and are not reflected in the governmental funds.

(278,384.57)

Change in Net Position of Governmental Activities

\$ 507,568.92

The notes to the financial statements are an integral part of this statement.

SIOUX VALLEY SCHOOL DISTRICT NO. 5-5
NOTES TO THE FINANCIAL STATEMENTS

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of the School District conform to generally accepted accounting principles applicable to government entities of the United States of America.

a. Financial Reporting Entity

The reporting entity of Sioux Valley School District No. 5-5, consists of the primary government (which includes all of the funds, organizations, institutions, agencies, departments, and offices that make up the legal entity, plus those funds for which the primary government has a fiduciary responsibility, even though those fiduciary funds may represent organizations that do not meet the criteria for inclusion in the financial reporting entity); those organizations for which the primary government is financially accountable; and other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the financial reporting entity's financial statements to be misleading or incomplete.

The School District participates in a cooperative service unit with several other school districts. See detailed note entitled "Joint Ventures" for specific disclosures. Joint ventures do not meet the criteria for inclusion in the financial reporting entity as a component unit but are discussed in these notes because of their relationship with the School District.

b. Basis of Presentation

Government-wide Financial Statements:

The Statement of Net Position and Statement of Activities display information about the reporting entity as a whole. They include all funds of the reporting entity except for fiduciary funds. The statements distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

The Statement of Net Position reports all financial and capital resources, in a net position form (assets and deferred outflows of resources minus liabilities and deferred inflows of resources equal net position). Net assets are displayed in three components, as applicable, net investment in capital assets, restricted (distinguishing between major categories of restrictions), and unrestricted.

The Statement of Activities presents a comparison between direct expenses and program revenues for each segment of the business-type activities of the School District and for each function of the School District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements:

Fund financial statements of the reporting entity are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues, and expenditures/expenses. Funds are organized into three major categories: governmental, proprietary and fiduciary. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the School District or it meets the following criteria:

1. Total assets, liabilities, revenues, or expenditures/expenses of the individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type, and
2. Total assets, liabilities, revenues, or expenditures/expenses of the individual governmental or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined, or
3. Management has elected to classify one or more governmental or enterprise funds as major for consistency in reporting from year to year, or because of public interest in the fund's operations.

The funds of the School District financial reporting entity are described below within their respective fund types:

Governmental Funds:

General Fund - A fund established by South Dakota Codified Laws (SDCL) 13-16-3 to meet all the general operational costs of the school district, excluding capital outlay fund and special education fund expenditures. The General Fund is always a major fund.

Special Revenue Funds - Special revenue funds are used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes.

Capital Outlay Fund - A fund established by SDCL 13-16-6 to meet expenditures which result in the lease of, acquisition of or additions to real property, plant or equipment, textbooks and instructional software. This fund is financed by property taxes. This is a major fund.

Special Education Fund - A fund established by SDCL 13-37-16 to pay the costs for the special education of all children in need of special assistance and prolonged assistance who reside within the school district. This fund is financed by grants and property taxes. This is a major fund.

Debt Service Funds – Debt service funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal, interest, and related costs.

2012 QZAB Redemption Fund – A fund established to account for the funds restricted to use for the payment of principal and interest on Qualified Zone Academy Bonds. This is a major fund.

Proprietary Funds:

Enterprise Funds - Enterprise funds may be used to report any activity for which a fee is charged to external users for goods or services. Activities are required to be reported as enterprise funds if any one of the following criteria is met.

1. The activity is financed with debt that is secured solely by a pledge of the net revenues from fees and charges of the activity. Debt that is secured by a pledge of net revenues from fees and charges and the full faith and credit of a related primary government or component unit- even if that government is not expected to make any payments- is not payable solely from fees and charges of the activity. (Some debt may be secured, in part, by a portion of its own proceeds but should be considered as payable "solely" from the revenues of the activity.)
2. Laws or regulations require that the activity's costs of providing services, including capital costs (such as depreciation or debt service), be recovered with fees and charges, rather than with taxes or similar revenues.
3. The pricing policies of the activity establish fees and charges designed to recover its costs, including capital costs (such as depreciation or debt service).

Food Service Fund - A fund used to record financial transactions related to food service operations. This fund is financed by user charges and grants. This is a major fund.

Other Enterprise Fund - A fund used to record financial transactions related to after school programs conducted for the benefit of the children (BASE). The after-school program part of the fund is financed by user charges and grants. The fund is also used to account for driver's education financial transactions. This is a major fund.

Fiduciary Funds:

Fiduciary funds consist of the following sub-categories and are never considered to be major funds:

Custodial Funds - Custodial funds are used to report fiduciary activities that are not required to be reported in pension (and other employee benefit) trust funds, investment trust funds, or private-purpose trust funds. The School District maintains custodial funds to hold assets as an agent in a trustee capacity for various classes, clubs, and so on.

Private-Purpose Trust Funds - private-purpose trust funds are used to account for all other trust arrangements under which principal and income benefit individuals, private organizations, or other governments. The School District maintains a private-purpose trust fund for scholarships which are primarily funded through current contributions and an Angel Tree Fund for student needs.

c. Measurement Focus and Basis of Accounting

Measurement focus is a term used to describe "how" transactions are recorded within the various financial statements. Basis of accounting refers to "when" revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements, regardless of the measurement focus.

Measurement Focus:

Government-wide Financial Statements:

In the government-wide Statement of Net Position and Statement of Activities, both governmental and business-type activities are presented using the economic resources measurement focus, applied on the accrual basis of accounting.

Fund Financial Statements:

In the fund financial statements, the "current financial resources" measurement focus and the modified accrual basis of accounting are applied to governmental funds, while the "economic resources" measurement focus and the accrual basis of accounting are applied to the proprietary and fiduciary fund types.

Basis of Accounting:

Government-wide Financial Statements:

In the government-wide Statement of Net Position and Statement of Activities, governmental and business-type activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues and related assets generally are recorded when earned (usually when the right to receive cash vests); and, expenses and related liabilities are recorded when an obligation is incurred (usually when the obligation to pay cash in the future vests).

Fund Financial Statements:

All governmental fund types are accounted for using the modified accrual basis of accounting. Their revenues, including property taxes, generally are recognized when they become measurable and available. "Available" means resources are collected or to be collected soon enough after the end of the fiscal year that they can be used to pay the bills of the current period. The accrual period for the School District is 60 days, which is one bill-paying cycle. The revenues which are accrued at June 30, 2020 are amounts due mainly from other governments for grants.

Under the modified accrual basis of accounting, receivables may be measurable but not available. Available means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Unavailable revenues, where asset recognition criteria have been met, but for which revenue recognition criteria have not been met, are reported as a deferred inflow of resources.

Expenditures generally are recognized when the related fund liability is incurred. Exceptions to this general rule include principal and interest on general long-term debt which are recognized when due.

All proprietary fund and fiduciary fund types are accounted for using the accrual basis of accounting. Their revenues are recognized when they are earned, and their expenses are recognized when they are incurred.

d. Interfund Eliminations and Reclassifications:

Government-wide Financial Statements:

In the process of aggregating data for the government-wide financial statements, some amounts reported as interfund activity and balances in the fund financial statements have been eliminated or reclassified as follows:

1. In order to minimize the grossing-up effect on assets and liabilities within the governmental and business-type activities columns of the primary government, amounts reported as interfund receivables and payable have been eliminated in the governmental and business-type activities columns.

e. Deposits and Investments

For the purpose of financial reporting, "cash and cash equivalents" includes all demand and savings accounts and certificates of deposit or short-term investments with a term to maturity at date of acquisition of three months or less. Investments in open-end mutual fund shares, or similar investments in external investment pools, are also considered to be cash equivalents.

Investments classified in the financial statements consist entirely of certificates of deposit whose term to maturity at date of acquisition exceeds three months, and/or those types of investment authorized by South Dakota Codified Law (SDCL) 4-5-6.

f. Capital Assets

Capital assets include land, buildings, machinery and equipment, and all other tangible or intangible assets that are used in operations and that have initial useful lives extending beyond a single reporting period.

The accounting treatment over capital assets depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

Government-Wide Financial Statements:

All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated capital assets are valued at their estimated fair value on the date donated. Reported cost values include ancillary charges necessary to place the asset into its intended location and condition for use. Subsequent to initial capitalization, improvements or betterments that are significant, and which extend the useful life of a capital asset are also capitalized.

For governmental activities Capital Assets, construction-period interest is not capitalized, in accordance with USGAAP, while for capital assets used in business-type activities/proprietary fund's operations, construction period interest is capitalized in accordance with USGAAP.

The total June 30, 2021 balance of capital assets for governmental activities includes approximately 0.31% for which the costs were determined by estimates of the original costs. The total June 30, 2021 balance of capital assets for business-type activities are all valued at the original cost.

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the government-wide Statement of Activities, with net capital assets reflected in the Statement of Net Position. Capitalization thresholds (the dollar values above which asset acquisitions are added to the capital asset accounts), depreciation methods, and estimated useful lives of capital assets reported in the government-wide statements and proprietary funds are as follows:

Land is an inexhaustible capital asset and is not depreciated.

	Capitalization Threshold	Depreciation Method	Estimated Useful Life
Land	All	NA	NA
Improvements	\$ 25,000	Straight Line	20 years
Buildings	50,000	Straight Line	50-99 years
Machinery and Automotive Equipment	5,000	Straight Line	5-20 years
Furniture and Equipment	5,000	Straight Line	5-20 years
Food Service Machinery and Equipment	3,000	Straight Line	12 years

Land is an inexhaustible capital asset and is not depreciated.

Fund Financial Statements:

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital expenditures of the appropriate governmental fund upon acquisition. Capital assets used in proprietary fund operations are accounted for on the accrual basis, the same as in the government-wide statements.

g. Long-Term Liabilities:

The accounting treatment of long-term liabilities depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

All long-term liabilities to be repaid from governmental and business-type resources are reported as liabilities in the government-wide statements. The long-term liabilities primarily consist of capital outlay certificates, compensated absences, and capital acquisition financing leases.

In the fund financial statements, debt proceeds are reported as revenues (other financing sources), while payments of principal and interest are reported as expenditures when they become due. The accounting for proprietary fund long-term debt is on the accrual basis, the same in the fund statements as in the government-wide statements.

h. Program Revenues

In the government-wide Statement of Activities, reported program revenues derive directly from the program itself or from parties other than the School District's taxpayers or citizenry, as a whole. Program revenues are classified into three categories, as follows:

- a. **Charges for services** – These arise from charges to customers, applicants, or others who purchase, use, or directly benefit from the goods, services, or privileges provided, or are otherwise directly affected by the services.

- b. Program-specific operating grants and contributions – These arise from mandatory and voluntary non-exchange transactions with other governments, organizations, or individuals that are restricted for use in a particular program.
- c. Program-specific capital grants and contributions – These arise from mandatory and voluntary non-exchange transactions with other governments, organizations, or individuals that are restricted for the acquisition of capital assets for use in a particular program.

i. Proprietary Funds Revenue and Expense Classifications:

In the proprietary fund's Statement of Activities, revenues and expenses are classified in a manner consistent with how they are classified in the Statement of Cash Flows. That is, transactions for which related cash flows are reported as capital and related financing activities, noncapital financing activities, or investing activities are not reported as components of operating revenues or expenses.

j. Cash and Cash Equivalents:

The School District pools its cash resources for depositing and investing purposes. Accordingly, the enterprise funds have access to all their cash resources on demand. Accordingly, all reported enterprise fund deposits and investment balances are considered to be cash equivalents for the purpose of the Statement of Cash Flows.

k. Equity Classifications

Government-wide Financial Statements:

Equity is classified as Net Position and is displayed in three components:

1. Net Investment in Capital Assets – Consists of capital assets, including restricted capital assets, net of accumulated depreciation (if applicable) and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
2. Restricted Net Position – Consists of net position with constraints placed on their use either by (a) external groups such as creditors, grantors, contributors, or laws and regulations of other governments; or (b) law through constitutional provisions or enabling legislation.
3. Unrestricted Net Position – All other net position that do not meet the definition of "restricted" or "net investment in capital assets."

Fund Financial Statements:

Governmental fund equity is classified as fund balance, and is distinguished between Nonspendable, Restricted, Committed, Assigned or Unassigned components. Proprietary fund equity is classified the same as in the government-wide financial statements. Fiduciary fund equity is reported as restricted net position.

l. Application of Net Position:

It is the School District's policy to first use restricted net position, prior to the use of unrestricted net position, when an expense is incurred for purposes for which both restricted and unrestricted net position are available.

m. Fund Balance Classification Policies and Procedures

In accordance with Government Accounting Standards Board (GASB) No. 54, Fund Balance Reporting and Governmental Fund Type Definitions, the School District classifies governmental fund balances as follows:

- Nonspendable- includes fund balance amounts that cannot be spent either because it is not in spendable form or because of legal or contractual constraints.
- Restricted- includes fund balance amounts that are constrained for specific purposes which are externally imposed by providers, such as creditors or amounts constrained due to constitutional provisions or enabling legislation.
- Committed- includes fund balance amounts that are constrained for specific purposes that are internally imposed by the government through formal action of the highest level of decision-making authority and does not lapse at year-end.
- Assigned- includes fund balance amounts that are intended to be used for specific purposes that are neither considered restricted or committed. Fund Balance may be assigned by the School Board or a committee delegated that authority by a Board Motion or Board Policy.
- Unassigned- includes positive fund balance within the General Fund which has not been classified within the above-mentioned categories and negative fund balances in other governmental funds.

The School District uses *restricted/committed* amounts first when both restricted and unrestricted fund balance is available unless there are legal documents/contracts that prohibit doing this, such as a grant agreement requiring dollar for dollar spending. Additionally, the district would first use *committed, then assigned, and lastly unassigned* amounts of unrestricted fund balance when expenditures are made.

The School District has not adopted a formal minimum fund balance policy.

A schedule of fund balances is provided as follows:

**SIOUX VALLEY SCHOOL DISTRICT NO. 05-5
DISCLOSURE OF FUND BALANCES REPORTED ON BALANCE SHEET
GOVERNMENTAL FUNDS**

	<u>General Fund</u>	<u>Capital Outlay Fund</u>	<u>Special Education Fund</u>	<u>Debt Service Fund</u>	<u>Total Governmental Funds</u>

n. Pensions

For purposes of measuring the net pension liability (asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense (revenue), information about the fiduciary net position of the South Dakota Retirement System (SDRS) and additions to/deletions from SDRS's fiduciary net position have been determined on the same basis as

they are reported by SDRS. School District contributions and net pension liability (asset) are recognized on an accrual basis of accounting.

NOTE 2 - DEPOSITS AND INVESTMENTS CREDIT RISK, CONCENTRATIONS OF CREDIT RISK AND INTEREST RATE RISK

The School District follows the practice of aggregating the cash assets of various funds to maximize cash management efficiency and returns. Various restrictions on deposits and investments are imposed by statutes. These restrictions are summarized below:

Deposits - The School District's deposits are made in qualified public depositories as defined by SDCL 4-6A-1, 13-16-15, 13-16-15.1 and 13-16-18.1. Qualified depositories are required by SDCL 4-6A-3 to maintain at all times, segregated from their other assets, eligible collateral having a value equal to at least 100 percent of the public deposit accounts which exceed deposit insurance such as the FDIC and NCUA. In lieu of pledging eligible securities, a qualified public depository may furnish irrevocable standby letters of credit issued by federal home loan banks accompanied by written evidence of that bank's public debt rating which may not be less than "AA" or a qualified public depository may furnish a corporate surety bond of a corporation authorized to do business in South Dakota.

Investments - In general, SDCL 4-5-6 permits school funds to be invested only in (a) securities of the United States and securities guaranteed by the United States Government either directly or indirectly; or (b) repurchase agreements fully collateralized by securities described in (a) above; or in shares of an open-end, no-load fund administered by an investment company whose investments are in securities described in (a) above and repurchase agreements described in (b) above. Also, SDCL 4-5-9 requires investments to be in the physical custody of the political subdivision or may be deposited in a safekeeping account with any bank or trust company designated by the political subdivision as its fiscal agent.

Credit Risk - State law limits eligible investments for the School District, as discussed above. The School District has no investment policy that would further limit its investment choices.

Concentration of Credit Risk - The school district places no limit on the amount that may be invested in any one issuer.

Interest Rate Risk - The School District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Assignment of Investment Income - State law allows income from deposits and investments to be credited to either the General Fund or the fund making the investment. The School District's policy is to credit all income from investments to the General Fund, except for the private purpose trust fund and debt service fund, which retain their investment income. USGAAP, on the other hand, requires income from deposits and investments to be reported in the fund whose assets generated that income. Where the governing board has discretion to credit investment income to a fund other than the fund that provided the resource for the investment, a transfer to the designated fund is reported. Accordingly, in the fund financial statements, interfund transfers of investment earnings are reported, while in the government-wide financial statements, they have been eliminated, except for the net amounts transferred between governmental activities and business type activities. These interfund transfers are not violations of the statutory restrictions on interfund transfers.

NOTE 3 – RESTRICTED CASH AND INVESTMENTS

Assets restricted to use for a specific purpose through segregation of balances in separate accounts are as follows:

<u>Amount:</u>	<u>Purpose:</u>
\$ 239,506.07	For Debt Service, by debt covenants (sinking funds required to be in a separate account)

NOTE 4 - RECEIVABLES AND PAYABLES

Receivables and payables are not aggregated in these financial statements. The School District expects all receivables to be collected within one year.

NOTE 5 - INVENTORY

Inventory for Resale is stated at the lower of cost or market. The cost valuation method is the first in, first out method. Donated commodities are valued at estimated market value based on the USDA price list at date of receipt.

In the government-wide financial statements, and in the enterprise fund financial statements, inventory items are initially recorded as assets and charged to expense in the various functions of government as they are consumed.

In the governmental fund financial statements, inventories consist of expendable supplies held for consumption. The cost is recorded as an expenditure at the time individual inventory items are consumed. Reported inventories are equally offset by Non-spendable Fund Balance which indicates that they do not constitute "available spendable resources" even though they are a component of net current assets.

NOTE 6 - PROPERTY TAXES

Property taxes are levied on or before each October 1, attach as an enforceable lien on property, and become due and payable as of the following January 1, and are payable in two installments on or before the following April 30 and October 31. The county bills and collects the School District's taxes and remits them to the School District.

School District property tax revenues are recognized to the extent that they are used to finance each year's appropriations. Revenue related to current year property taxes receivable which is not intended to be used to finance the current year's appropriations and therefore are not susceptible to accrual has been reported as deferred revenue in both the fund financial statements and the government-wide financial statements. Additionally, in the fund financial statements, revenue from property taxes may be limited by any amount not collected during the current fiscal period or within the "availability period."

NOTE 7 - CHANGES IN CAPITAL ASSETS:

A summary of changes in capital assets for the year ended June 30, 2021 is as follows:

Primary Government:

	Balance 6/30/2020	Increases	Decreases	Balance 6/30/2021
Capital Assets, not depreciated:				
Land	\$ 66,749.70	\$	\$	\$ 66,749.70
Constuction Work-In-Progress		245,461.97		245,461.97
Totals	66,749.70	245,461.97		312,211.67
Capital Assets, being depreciated:				
Buildings	12,920,021.31			12,920,021.31
Improvements	847,597.33			847,597.33

Depreciation expense was charged to functions as follows:

Business-type activities	
Food Service	\$ 10,872.73

Construction Work in Progress at June 30, 2021 is composed of the following:

Project Name	Expended through		
	Project Authorization	06/30/21	Committed
SVSD RTU Replacement	\$ 203,962.50	\$ 199,401.90	\$ 4,560.60
Commons Entrance Project	223,000.00	46,060.07	176,939.93
Total	<u>\$ 426,962.50</u>	<u>\$ 245,461.97</u>	<u>\$ 181,500.53</u>

NOTE 8 - LONG-TERM LIABILITIES:

A summary of the changes in long-term liabilities for the year ended June 30, 2021 is as follows:

	2013 Capital Outlay Certificates	2017 Capital Outlay Certificates	QZAB Certificates	2020 Capital Outlay Certificates
Primary Government:				
Governmental Activities:				
Liabilities Payable, June 30, 2020	\$ 2,750,000.00	\$ 3,865,000.00	\$ 500,000.00	\$ 2,565,000.00
New Additions				
Retired Amounts	<u>2,750,000.00</u>	<u>265,000.00</u>		
Liabilities Payable, June 30, 2021	<u>\$</u>	<u>\$ 3,600,000.00</u>	<u>\$ 500,000.00</u>	<u>\$ 2,565,000.00</u>
Due within One Year	<u>\$</u>	<u>\$ 265,000.00</u>	<u>\$ 26,315.79</u>	<u>\$ 185,000.00</u>

	Financing Lease Copiers	Compensated Absences	Totals
Primary Government:			
Governmental Activities:			
Liabilities Payable, June 30, 2020	\$ 19,175.00	\$ 17,242.64	\$ 9,716,417.64
New Additions		20,878.87	20,878.87
Retired Amounts	<u>4,602.00</u>	<u>18,337.45</u>	<u>3,037,939.45</u>
Liabilities Payable, June 30, 2021	<u>\$ 14,573.00</u>	<u>\$ 19,784.06</u>	<u>\$ 6,699,357.06</u>
Due within One Year	<u>\$ 4,602.00</u>	<u>\$ 19,784.06</u>	<u>\$ 500,701.85</u>

Compensated absences for governmental activities typically have been liquidated from the General Fund and Special Education Fund. Early Retirement Benefits payable for governmental activities typically have been liquidated from the General Fund.

Liabilities payable at June 30, 2021 are comprised of the following:

Capital Outlay Certificates

Series 2017 Capital Outlay Certificates, interest rates from 1% to 3%, depending on length to maturity, final maturity June 30, 2033. Payable from Capital Outlay Fund. \$ 3,600,000.00

Capital Outlay Certificates

Series 2020 Capital Outlay Certificates, interest rates from 1.15% to 2.00%, depending on length to maturity, final maturity January 15, 2033. Payable from Capital Outlay Fund. 2,565,000.00

Qualified Zone Academy Bonds:

Qualified Zone Academy Bonds (QZAB), Series 2012, mature on January 1, 2031 at zero interest. Payable from the Debt Service Fund. 500,000.00

Financing Lease:

Lease of Copiers. Final Payment due September 2019. Payments from the Capital Outlay Fund 14,573.00

Compensated Absences:

Accumulated vacation payable for administrative and support staff – payments 19,784.06

The annual debt service requirements to maturity, except for compensated absences, for all debt outstanding as of June 30, 2021 are as follows:

Year Ending June 30	2017 Capital Outlay Certificates		2020 Capital Outlay Certificates	
	Principal	Interest	Principal	Interest
2022	\$ 265,000	\$ 89,195	\$ 185,000	\$ 57,439
2023	270,000	84,845	190,000	53,525
2024	275,000	79,801	200,000	49,425
2025	280,000	74,180	200,000	45,175
2026	285,000	67,963	205,000	39,100
2027-2031	1,545,000	219,092	1,110,000	109,438
2032-2036	680,000	15,375	475,000	9,550
Totals	<u>\$ 3,600,000</u>	<u>\$ 630,451</u>	<u>\$ 2,565,000</u>	<u>\$ 363,652</u>

	QZAB Certificates		Capital Lease	Total	
	Principal	Interest	Principal	Principal	Interest
2022	\$ 26,316	\$ 25,150	\$ 4,602	\$ 480,918	\$ 171,784
2023	26,316	25,150	4,602	490,918	163,520
2024	26,316	25,150	4,602	505,918	154,376
2025	26,316	25,150	767	507,083	144,505
2026	26,316	25,150		516,316	132,213
2027-2031	368,420	125,750		3,023,420	454,280
2032-2036				1,155,000	24,925
Totals	<u>\$ 500,000</u>	<u>\$ 251,500</u>	<u>\$ 14,573</u>	<u>\$ 6,679,573</u>	<u>\$ 1,245,603</u>

During fiscal year 2020, the School District issued \$2,565,000 in Capital Outlay Certificates with an average interest rate of 1.15% to 2.0% to refund the following:

Year Issued	Project	Average Interest Rate	Unpaid Principal at Time of Refunding
2013	General Obligation Refunding Certificates	1.75% to 3.45%	\$ 2,570,000.00

The entire proceeds of the refunding issue in the amount of \$2,606,536.25 was deposited into an irrevocable trust with an escrow agent to provide for debt service requirement on the refunded issue. As a result, the issue to be refunded is considered to be defeased as of July 15, 2020 and the liability for that issue will be removed as of that date from the financial statements of the school district. On June 30, 2021, the School District now considers the old debt to be defeased.

NOTE 9 – PENSION PLAN

Plan Information:

All employees, working more than 20 hours per week during the year, participate in the South Dakota Retirement System (SDRS), a cost sharing, multiple employer defined benefit pension plan administered by SDRS to provide retirement benefits for employees of the State of South Dakota and its political subdivisions. The SDRS provide retirement, disability, and survivor benefits. The right to receive retirement benefits vests after three years of credited service. Authority for establishing, administering and amending plan provisions are found in SDCL 3-12. The SDRS issues a publicly available financial report that includes financial statements and required supplementary information. That report may be obtained at <http://sdrs.sd.gov/publications.aspx> or by writing to the SDRS , P.O. Box 1098, Pierre, SD 57501-1098 or by calling (605) 773-3731.

Benefits Provided:

SDRS has three different classes of employees, Class A general members, Class B public safety and judicial members, and Class C Cement Plant Retirement Fund members.

Members that were hired before July 1, 2017, are Foundation members. Class A Foundation members and Class B Foundation members who retire after age 65 with three years of contributory service are entitled to an unreduced annual retirement benefit. An unreduced annual retirement benefit is also available after age 55 for Class A Foundation members where the sum of age and credited service is equal to or greater than 85 or after age 55 for Class B Foundation judicial members where the sum of age and credited service is equal to or greater than 80. Class B Foundation public safety members can retire with an unreduced annual retirement benefit after age 55 with three years of contributory service. An unreduced annual retirement benefit is also available after age 45 for Class B Foundation public safety members where the sum of age and credited service is equal to or greater than 75. All Foundation retirement benefits that do not meet the above criteria may be payable at a reduced level.

Members that were hired on/after July 1, 2017, are Generational members. Class A Generational members and Class B Generational judicial members who retire after age 67 with three years of contributory service are entitled to an unreduced annual retirement benefit. Class B Generational public safety members can retire with an unreduced annual retirement benefit after age 57 with three years of contributory service. At retirement, married Generational

members may elect a single-life benefit, a 60 percent joint and survivor benefit, or a 100 percent joint and survivor benefit. All Generational retirement benefits that do not meet the above criteria may be payable at a reduced level. Generational members will also have a variable retirement account (VRA) established, in which they will receive up to 1.5 percent of compensation funded by part of the employer contribution. VRAs will receive investment earnings based on investment returns.

Legislation enacted in 2017 established the current COLA process. At each valuation date:

- Baseline actuarial accrued liabilities will be calculated assuming the COLA is equal to the long-term inflation assumption of 2.25%.
- If the fair value of assets is greater or equal to the baseline actuarial accrued liabilities, the COLA will be:
 - The increase in the 3rd quarter CPI-W, no less than 5.0% and no greater than 3.5%.
- If the fair value of assets is less than the baseline actuarial accrued liabilities, the COLA will be:
 - The increase in the 3rd quarter CPI-W, no less than 0.5% and no greater than a restricted maximum such that, that if the restricted maximum is assumed for future COLAs, the fair value of assets will be greater or equal to the accrued liabilities.

All benefits except those depending on the Member's Accumulated Contributions are annually increased by the Cost-of-Living Adjustment.

Contributions:

Per SDCL 3-12, contribution requirements of the active employees and the participating employers are established and may be amended by the SDRS Board. Covered employees are required by state statute to contribute the following percentages of their salary to the plan; Class A Members, 6.0% of salary; Class B Judicial Members, 9.0% of salary; and Class B Public Safety Members, 8.0% of salary. State statute also requires the employer to contribute an amount equal to the employee's contribution. The School District's share of contributions to the SDRS for the fiscal years ended June 30, 2021, 2020, and 2019 were \$216,269.33, \$192,597.66, and \$182,468.53, respectively, equal to the required contributions each year.

Pension Liabilities (Assets), Pension Expense (Revenue), and Deferred Outflows of Resources and Deferred Inflows of Resources to Pensions:

At June 30, 2020, SDRS is 100.04% funded and accordingly has a net pension asset. The proportionate shares of the components of the net pension asset of South Dakota Retirement System, for the School District as of June 30, 2020 and reported by the School District as of June 30, 2021 are as follows:

Proportionate share of net position restricted for pension benefits	\$ 17,979,697.97
Less proportionate share of net pension restricted for pension benefits	<u>17,986,050.00</u>
Proportionate share of net pension liability (asset)	<u><u>\$ (6,352.03)</u></u>

At June 30, 2021, the School District reported a liability (asset) of (\$6,352.03) for its proportionate share of the net pension liability (asset). The net pension liability (asset) was

measured as of June 30, 2020 and the total pension liability (asset) used to calculate the net pension liability (asset) was based on a projection of the School's share of contributions to the pension plan relative to the contributions of all participating entities. At June 30, 2020, the School District's proportion was 0.14625970% which is an increase (decrease) of 0.0032283% from its proportion measured as of June 30, 2019.

For the year ended June 30, 2021, the School District recognized pension expense (reduction of pension expense) of \$278,384.57. At June 30, 2021 the School District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Difference between expected and actual experience	\$ 24,299.98	\$ 4,976.01
Changes in assumption	204,603.90	825,179.06
Net difference between projected and actual earnings on pension plan investments	590,390.10	
Changes in proportion and difference between District contributions and proportionate share of contributions	10,114.30	6,059.34
District contributions subsequent to the measurement date	216,269.33	
TOTAL	\$ 1,045,677.61	\$ 836,214.41

\$216,269.33 reported as deferred outflow of resources related to pensions resulting from School District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense (revenue) as follows:

Year Ended June 30:

2022	\$ (73,320.06)
2023	(56,535.27)
2024	8,929.56
2025	110,064.68
TOTAL	\$ (10,861.09)

Actuarial Assumptions:

The total pension liability (asset) in the June 30, 2020 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.25 percent
Salary Increases	6.50% at entry to 3.00% after 25 years of service
Investment Rate of Return	6.50% net of plan investment expense
Future COLAs	1.41%

Mortality rates were based on 97% of the RP-2014 Mortality Table, adjusted to 2006 projected generationally with Scale MP-2016, white collar rates for females and total dataset rates for

males. Mortality rates for disabled members were based on the RP-2014 Disabled Retiree Mortality Table, adjusted to 2006 and projected generationally with Scale MP-2016.

The actuarial assumptions used in the June 30, 2020 valuation were based on the results of an actuarial experience study for the period of July 1, 2011 to June 30, 2016.

Investment portfolio management is the statutory responsibility of the South Dakota Investment Council (SDIC), which may utilize the services of external money managers for management of a portion of the portfolio. SDIC is governed by the Prudent Man Rule (i.e., the council should use the same degree of care as a prudent man). Current SDIC investment policies dictate limits on the percentage of assets invested in various types of vehicles (equities, fixed income securities, real estate, cash, private equity, etc.). The long-term expected rate of return on pension plan investments was determined using a method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2020 (see the discussion of the pension plan's investment policy) are summarized in the following table using geometric means:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Global Equity	58.0%	5.1%
Fixed Income	30.0%	1.5%
Real Estate	10.0%	6.2%
Cash	<u>2.0%</u>	1.0%
Total	<u>100.0%</u>	

Discount Rate:

The discount rate used to measure the total pension liability (asset) was 6.50 percent. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the current contribution rate and that matching employer contributions from will be made at rates equal to the member rate. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability (asset).

Sensitivity of liability (asset) to changes in the discount rate:

The following presents the School District's proportionate share of net pension liability (asset) calculated using the discount rate of 6.50%, as well as what the School's proportionate share of the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage point lower (5.50%) or 1-percentage point higher (7.5%) than the current rate:

	<u>1% Decrease</u>	<u>Current Discount Rate</u>	<u>1% Increase</u>
School District's proportionate share of the net pension liability (asset)	\$ 2,464,166.69	\$ (6,352.03)	\$ (2,027,187.68)

Pension Plan Fiduciary Net Position:

Detailed information about the plan's fiduciary net position is available in the separately issued SDRS financial report.

NOTE 10 - RESTRICTED NET POSITION

The following table shows the net position restricted for other purposes as shown on the Statement of Net Position:

<u>Major Purposes:</u>	<u>Restricted By</u>	<u>Amount</u>
Capital Outlay Purposes	Law	\$ 3,217,799.11
Special Education Purposes	Law	83,311.26
SDRS Pension Purposes	Law	215,815.23
Debt Service Purposes	Debt Covenants	251,364.29
Total Restricted Net Position		<u>\$ 3,768,289.89</u>

NOTE 11 – INTERFUND TRANSFERS

Interfund transfers for the year ended June 30, 2021 were as follows:

<u>Transfers to:</u>		
<u>Transfer From:</u>	<u>Debt Service Fund</u>	<u>Totals</u>
Capital Outlay Fund	\$ 26,315.79	\$ 26,315.79

The Capital Outlay Fund transferred monies for a QZAB payment.

NOTE 12 - JOINT VENTURES

The school district participates in the joint venture known as Northeast Educational Services Cooperative formed for the purpose of providing educational support services to the member school districts.

The members of the co-op and their relative percentage participation in the co-op are as follows:

<u>School District</u>	<u>%</u>	<u>School District</u>	<u>%</u>
Arlington	3.36	Henry	2.09
Britton-Hecla	5.50	Iroquois	2.74
Castlewood	3.95	Lake Preston	2.27
Clark	5.46	Oldham/Ramona	2.15
De Smet	3.64	Rosholt	3.09
Deubrook	4.68	Sioux Valley	8.80
Deuel	6.62	Summit	2.26
Elkton	4.31	Waubay	2.23
Enemy Swim	2.06	Waverly/South Shore	3.31
Estelline	3.48	Webster	6.83
Florence	3.57	Willow Lake	3.52
Hamlin	11.10	Wilmot	2.97

The co-op's governing board is composed of one school board member representative from each member school district. The superintendent from each member school serves on an advisory board. The board is responsible for adopting the co-op's budget and setting service fees at a level adequate to fund the adopted budget. The school district retains no equity in the net assets of the co-op, but does have a responsibility to fund deficits of the co-op in proportion to the relative participation described above. Separate financial statements for this joint venture are available from the Northeast Educational Services Cooperative.

At June 30, 2021, this joint venture had total assets of \$2,117,558.95, total deferred outflows of resources of \$828,193.13, total liabilities of \$558,018.82, total deferred inflows of resources of \$665,473.24 and net position of \$1,722,260.02.

NOTE 13 - RISK MANAGEMENT

The school district is exposed to various risks of loss related to tort; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During the period ended June 30, 2021, the school district managed its risks as follows:

Health Insurance

The school district joined the South Dakota School District Health Benefits Fund. This is a public entity risk pool currently operating as a common risk management and insurance program for South Dakota local government entities. The school district pays a monthly premium to the pool administered by the Associated School Boards of South Dakota to provide health insurance coverage for its employees. The pool purchases reinsurance coverage with the premiums it receives from the members.

The school district does not carry additional health insurance coverage to pay claims in excess of the upper limit. Settled claims resulting from these risks have not exceeded the liability coverage during the past three years.

Liability Insurance

The school district purchases liability insurance for risks related to torts, theft or damage to property, and errors and omissions of public officials from a commercial insurance carrier. Settled claims resulting from these risks have not exceeded the liability coverage during the past three years.

Worker's Compensation

The school district participates, with several other educational units and related organizations in South Dakota, in the Associated School Boards of South Dakota Worker's Compensation Fund Pool which provided workers' compensation insurance coverage for participating members of the pool. The objective of the Fund is to formulate, develop, and administer, on behalf of the member organizations, a comprehensive loss control program. The School District's responsibility is to initiate and maintain a safety program to give its employees safe and sanitary working conditions and to promptly report to and cooperate with the Fund to resolve any worker's compensation claims. The School District pays an annual premium, to provide worker's compensation coverage for its employees, under a retrospectively rated policy and the premiums are accrued based on the ultimate cost of the experience to date of the Fund members. The school district may also be responsible for additional assessments in the event the pool is determined by its board of trustees to have inadequate reserves to satisfy current obligations or judgments. Additional assessments, if any, are to be determined on a prorated basis based upon each participant's percentage of contribution in relation to the total contributions to the pool of all participants for the year in which the shortfall occurs. The pool provides loss coverage to all participants through pool retained risk retention and through insurance coverage purchased by the pool in excess of the retained risk. The pool pays the first \$500,000 of any claim per individual. The pool has reinsurance which covers up to \$1,000,000 per individual per incident.

The School District does not carry additional insurance to cover claims in excess of the upper limit. Settled claims resulting from these risks have not exceeded the liability coverage over the past three years.

Unemployment Benefits

The school district has elected to be self-insured and retain all risk for liabilities resulting from claims for unemployment benefits.

During the year ended June 30, 2021, no unemployment benefits were paid. At June 30, 2021, no claims had been filed for unemployment benefits and none are anticipated in the next fiscal year.

NOTE 14 – SIGNIFICANT CONTINGENCIES – LITIGATION

At June 30, 2021, the school district was not involved in any litigation.

SIOUX VALLEY SCHOOL DISTRICT NO. 5-5
NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION
Schedules of Budgetary Comparisons for the General Fund
And for each major Special Revenue Fund with a legally required budget

NOTE 1 - BUDGET AND BUDGETARY ACCOUNTING

The School District followed these procedures in establishing the budgetary data reflected in the financial statements:

1. Prior to the first regular board meeting in May of each year the board causes to be prepared a proposed budget for the next fiscal year according to the budgetary standards prescribed by the Auditor General.
2. The proposed budget is considered by the board at the first regular meeting held in the month of May of each year.
3. The proposed budget is published for public review no later than July 15 each year.
4. Public hearings are held to solicit taxpayer input prior to the approval of the budget.
5. Before October 1 of each year, the board must approve the budget for the ensuing fiscal year for each fund, except fiduciary funds.
6. After adoption by the board, the operating budget is legally binding and actual expenditures of each fund cannot exceed the amounts budgeted, except as indicated in number 8.
7. A line item for contingencies may be included in the annual budget. Such a line item may not exceed 5 percent of the total school district budget and may be transferred by resolution of the board to any other budget category, except for capital outlay, that is deemed insufficient during the year. No amount of expenditures may be charged directly to the contingency line item in the budget.
8. If it is determined, during the year, that sufficient amounts have not been budgeted, state statute allows the adoption of supplemental budgets when moneys are available to increase legal spending authority.
9. Unexpended appropriations lapse at year-end unless encumbered by resolution of the school board.
10. Formal budgetary integration is employed as a management control device during the year for the General Fund and each major Special Revenue Fund.
11. Budgets for the General Fund and each major Special Revenue Fund are adopted on a basis consistent with generally accepted accounting principles (GAAP).

NOTE 2- GAAP/BUDGETARY ACCOUNTING BASIS DIFFERENCES

The financial statements prepared in conformity with USGAAP present capital outlay expenditure information in a separate category of expenditures. Under the budgetary basis of accounting, capital outlay expenditures are reported within the function to which they relate. For example, the purchase of a new school bus would be reported as a capital outlay expenditure on the Governmental Funds Statement of Revenues, Expenditures and Changes in Fund Balances, however in the Budgetary RSI Schedule, the purchase of a school bus would be reported as an expenditure of the Support Services-Business/Pupil Transportation function of government, along with all other current Pupil Transportation related expenditures.

SIOUX VALLEY SCHOOL DISTRICT NO. 5-5
NOTES TO THE REQUIRED SUPPLEMENTARY INFORMATION
Schedules of the Proportional Share of the Net Pension Liability (Asset) and
Schedule of Contributions

CHANGES FROM Prior Valuation

The June 30, 2020 Actuarial Valuation reflects no changes in actuarial methods from the June 30, 2019 Actuarial Valuation. One change in actuarial assumptions and two plan provision changes are reflected and described below.

BENEFIT PROVISION CHANGES

Legislation enacted in 2020 established a Qualified Benefit Preservation Arrangement (QBPA) under Section 415(m) of the Internal Revenue Code (IRC). The QBPA is effective July 1, 2020 and pays a portion of SDRS benefits that are restricted by IRC section 415(b). The total benefits paid from SDRS and the QBPA will be limited to the applicable 415(b) annual limit, unreduced for early commencement if Members retire prior to age 62 and actuarially increased for late retirement up to age 70 if Members retire after age 65. The Actuarial Valuation considers benefits payable from both SDRS and the QBPA.

Legislation enacted in 2020 also brought the assets and the liabilities of the South Dakota Department of Labor and Regulation into SDRS effective July 1, 2020. With the exception of the accounting results presented in Section 6 of this report, all exhibits include the assets, liabilities, and member counts of the former Department of Labor and Regulation Plan Members.

ACTUARIAL ASSUMPTION CHANGES

The SDRS COLA equals the percentage increase in the most recent third calendar quarter CPI-W over the prior year, no less than 0.5% and no greater than 3.5%. However, if the FVFR assuming the long-term COLA is equal to the baseline COLA assumption (currently 2.25%) is less than 100%, the maximum COLA payable will be limited to the increase that if assumed on a long-term basis, results in a FVFR equal to or exceeding 100%. That condition existed as of June 30, 2019 and exists again this year as of June 30, 2020. Future COLAs are assumed to equal the current restricted maximum COLA which was 1.88% as of June 30, 2019 and is 1.41% as of June 30, 2020.

The changes in actuarial assumptions due to the 1.41% restricted maximum COLA decreased the Actuarial Accrued Liability by \$595 million, or 4.6% of the Actuarial Accrued Liability based on the 1.88% restricted maximum COLA.

Actuarial assumptions are reviewed in depth periodically, with the next experience analysis anticipated before the June 30, 2022 Actuarial Valuation and any recommended changes anticipated to be first implemented in the June 30, 2022 Actuarial Valuation.

ACTUARIAL METHOD CHANGES

No changes in actuarial methods were made since the prior valuation.

SIoux VALLEY SCHOOL DISTRICT #5-5
SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
FOR THE YEAR ENDED JUNE 30, 2021

Note 1: *Basis of Presentation*

The accompanying Schedule of Expenditures of Federal Awards (the "Schedule") includes the federal award activity of the School District under programs of the federal government for the year ended June 30, 2021. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the School District, it is not intended to and does not present the financial position, changes in net position, or cash flows of the School District.

Note 2: *Summary of Significant Accounting Policies*

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowed or are limited as to reimbursement. The School District has elected to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

Note 3: *Federal Reimbursement*

Federal reimbursements are not based upon specific expenditures. Therefore, the amounts reported here represent cash received rather than federal expenditures.

Note 4: *Major Federal Financial Assistance Program*

This represents a Major Federal Financial Assistance Program.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

School Board
Sioux Valley School District No. 5-5
Brookings County, South Dakota

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the Sioux Valley School District No. 5-5, Brookings County, South Dakota, as of June 30, 2021 and for the year then ended, and the related notes to the financial statements, which collectively comprise the School District's basic financial statements and have issued our report thereon dated May 17, 2022, which was qualified because the School District did not adopt Governmental Accounting Standards Board (GASB) Statement No. 84 *Fiduciary Activities*.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Sioux Valley School District's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control. Accordingly, we do not express an opinion on the effectiveness of the Sioux Valley School District's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the School District's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Sioux Valley School District's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the School District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose. As required by South Dakota Codified Law 4-11-11, this report is a matter of public record and its distribution is not limited.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

School Board
Sioux Valley School District No. 5-5
Brookings County, South Dakota

Report on Compliance for Each Major Federal Program

We have audited the Sioux Valley School District No. 5-5, South Dakota (School District) compliance with the types of compliance requirements described in the *U. S. Office of Management and Budget (OMB) Compliance Supplement* that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021. The Sioux Valley School District's major federal programs are identified in the summary of auditor's results section of the accompanying Schedule of Current Audit Findings and Questioned Costs.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts and grants applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the School District's major federal programs based on our audit of the types of compliance requirements referred to above.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the comptroller General of the United States; and the audit requirements of *Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance)*. Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the School District's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination on the Sioux Valley School District's compliance.

Opinion on Each Major Federal Program

In our opinion, Sioux Valley School District No. 5-5 complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2021.

Report on Internal Control Over Compliance

Management of the Sioux Valley School District is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Sioux Valley School District's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the School District's internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Sioux Valley School District's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Purpose of this Report

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purposes. As required by South Dakota Codified Law 4-11-11, this report and our report on compliance for each major federal program are matters of public record and their distribution is not limited.

**SIOUX VALLEY SCHOOL DISTRICT NO. 5-5
SCHEDULE OF PRIOR AUDIT FINDINGS AND QUESTIONED COSTS
JUNE 30, 2021**

PRIOR AUDIT FINDINGS AND QUESTIONED COSTS:

There are no prior audit findings to report.

PRIOR OTHER AUDIT FINDINGS:

There are no prior audit findings to report.

**SIOUX VALLEY SCHOOL DISTRICT NO. 5-5
SCHEDULE OF CURRENT AUDIT FINDINGS AND QUESTIONED COSTS
FOR THE YEAR ENDED JUNE 30, 2021**

SUMMARY OF INDEPENDENT AUDITOR'S RESULTS:

Financial Statements

- a. An unmodified opinion was issued on the financial statements of the business-type activities and the capital outlay, special education and QZAB Certificate Bond governmental funds and the other enterprise and food service enterprise funds. A qualified opinion for not implementing GASB Statement No. 84 *Fiduciary Activities* was issued for the statements of the governmental activities, the general governmental fund and the aggregate remaining fund information.
- b. No material weaknesses or significant deficiencies were disclosed by our audit of the financial statements.
- c. Our audit did not disclose any noncompliance that was material to the financial statements.

Federal Awards

- d. An unmodified opinion was issued on compliance with the requirements applicable to major programs.
- e. Our audit did not disclose any audit findings that need to be disclosed in accordance with 2 CFR 200.516(a).
- f. The federal awards tested as major programs were:

	<u>CFDA #</u>
US Department of Agriculture Child Nutrition Cluster	10.555
Department of Treasury Coronavirus Relief Fund	21.019

- g. The dollar threshold used to distinguish between Type A and Type B federal award programs was \$750,000.00.
- h. Sioux Valley School District did not qualify as a low-risk auditee.
