

## Neligh-Oakdale Public Schools

### Setting up your Observer Parent Account in the Canvas Parent App

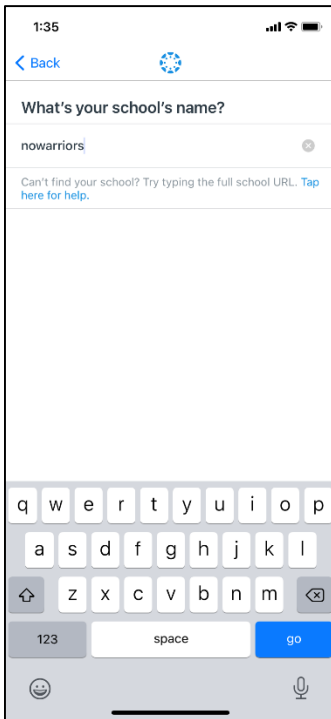

1. Download the “Canvas Parent” app on the app store.

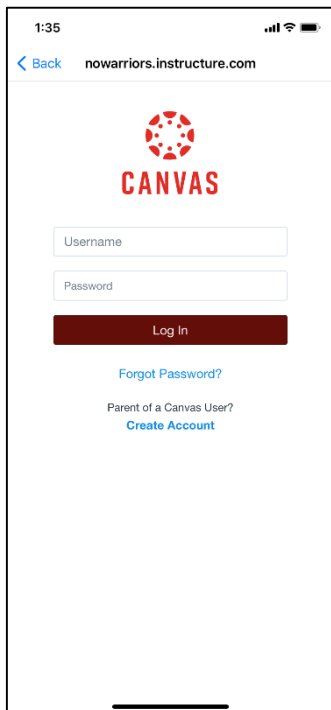

2. Once downloaded, open the “Canvas Parent” app

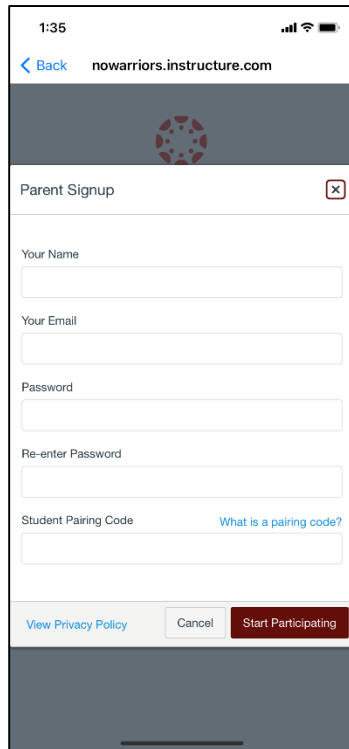

3. After clicking “Find School,” please type in “nowarriors” as this is how our Canvas domain is labeled.

4. After doing this and clicking “go,” you should be redirected to the screen you see below:

5. If you have already set up a “Parent Login,” please enter your username and password to be logged in to your account. If you have not, please click “Create Account” to start the process of setting up your parent account.

The screenshot shows a mobile browser interface for the website nowarriors.instructure.com. At the top, the time is 1:35. Below the address bar, there is a dark header with a red circular logo. The main content area is titled "Parent Signup" and contains several input fields: "Your Name", "Your Email", "Password", "Re-enter Password", and "Student Pairing Code". A link "What is a pairing code?" is next to the Student Pairing Code field. At the bottom, there are three buttons: "View Privacy Policy" (blue text), "Cancel" (grey), and "Start Participating" (red).

6. You will need your student’s unique “Student Pairing Code” to be able to observe their account. This code is found in the student’s account settings located within their Canvas account. Once you have entered this, you will be able to observe your student’s classwork assigned within Canvas. You may add an additional student by doing so within your account settings. You will also need that student’s unique pairing code as well.
