NCAI “Ending ‘Indian’ Mascots” Initiative

NATIONAL SCHOOL MASCOT TRACKING DATABASE: THE CURRENT NUMBERS

Online link: <http://bit.ly/schoolmascotdatabase>

Over the past year, the National Congress of American Indians (NCAI) developed a comprehensive national tracking database of more than two dozen different Native “themed” school mascots (K-12 level), updating it daily through real-time Google alert notifications and direct, ongoing engagement with many of the schools featured in the database.* The database features comprehensive information for each school, from online news stories to school mascot logos to detailed contact information for school principals, superintendents, and school board members.

The database enables NCAI staff to identify, track, engage, and educate those schools that are having active conversations about whether and how to change their mascots about: (1) the many documented harms that such mascots cause Native people, in particular Native youth; and (2) NCAI’s longstanding formal opposition (as a national governing body of tribal nations) to the continued use of these mascots. Currently, the database is not accessible to the public, but NCAI does provide data upon request from interested media members and scholars.

SCHOOLS WITH NATIVE “THEMED” MASCOTS: THE CURRENT NUMBERS (*Last updated: February 10, 2021*)

Current overall numbers and numbers of five most common mascots featured below:

OVERALL	
Total Schools	1,908
