

Plan your 2021 summer with Kids Kollege!!

The Kids Kollege program at San Juan College provides young people with exciting learning opportunities that allow students to explore, expand and experience areas of interest.

For 2021, choose from 30 classes:

10 online and 20 face-to-face all for \$19 or less!

The face-to-classes will follow all San Juan College and State of New Mexico protocol and COVID-safe practices and preparation for online delivery as needed. Check out the two online classes for intergenerational learning!

Thanks to support from the New Mexico Oil and Gas Association (NMOGA)'s Brighter Future Fund, engage in a digital environment that blurs the lines between learning and fun in the fields of science, technology, engineering, and mathematics (STEM). Participate remotely using an iPad that will be provided and, if needed, a hot spot and connectivity for the duration of all weeks that a student is enrolled in these Online Mini-Camps. NMOGA support will also cover the \$19 class fee. Visit sanjuancollege.edu/kidskollege for the application form.

Where Learning Meets Fun!

Head over to sanjuancollege.edu/kidskollege to see our class offerings, use the at-a-glance schedule to plan your summer and register today!
