

CENTRAL SCHOOL DISTRICT

LEARNING TODAY FOR THE CHALLENGES OF TOMORROW

Safe and Healthy Learning and Work Environments

January 26, 2022

Introduction

Due to the COVID-19 pandemic, the Central School District formed a Healthy Work and Learning Environments plan for the purpose of making recommendations that would assist the district with the ***health and safety of students and staff being our top priority.***

Resources from the California Department of Education ([Stronger Together: A Guidebook for the Safe Reopening of California's Public Schools](#)), the California Department of Public Health ([COVID-19 Industry Guidance: Schools and School Based Programs](#)); and the Center for Disease Control and Prevention (were utilized to build understanding of the most current research and up to date local, state and federal guidance for healthy and safe practices that apply specifically to public schools.

These recommendations encompass best practices which align with current scientific knowledge while also providing flexibility as it is clear there is no “one size fits all” solution. These healthy practices are fluid and contingent on COVID-19 cases not increasing in our region to the extent it adversely impacts our plans to keep open CSD sites.

The original plan was developed in July 2020 with CSD members; CTO and CSEA teams, Parent Focus groups, Specialized district employees, Board and District administrators. The plan was presented, and input was solicited from School Site Councils at each site throughout the school year. CSD will continue to seek input from all members from staff, bargaining units, parents and community in ensuring that learning continuity and social emotional learning needs are met as well as maintaining the health and safety of students and staff following all local, state and federal guidelines. The plan was revised in July 2021 and January 2022 and will be reviewed and modified if needed every 6 months. Educational partners have the opportunity to continue to give feedback through our Human Resources email address HR@csd.k12.ca.us. Examples: feedback from Educational partners including increasing access to devices and internet connectivity, along with working towards consistency with learning platforms was used in the revision of the plan, daily synchronous and asynchronous instruction, addressing learning gaps, supporting students with identified needs, and connecting with families. This plan will be revisited every 6 months and updated accordingly with Educational partner involvement.

Table of Contents

Healthy Hygiene Practices.....	3
Sanitizing and Disinfecting.....	4-5
Entering and Exiting Campuses.....	6-8
Face Coverings	9-11
Physical and Social Distancing.....	12
When Someone Becomes Sick at School or Work... ..	13-18

This is a fluid working document that may be revised as conditions and/or guidance changes.

We are Stronger Together

Healthy Hygiene Practices

CENTRAL SCHOOL DISTRICT COVID-19 RESPONSE GUIDANCE FOR HEALTHY HYGIENE PRACTICES	
Purpose	<i>To ensure the personal health and safety of all students and staff members while at school/work.</i>
Healthy Hygiene Practices	<p>Staff and students will be instructed to wash hands often with soap and water for at least 20 seconds, especially after nose blowing, coughing, or sneezing; going to the bathroom; and before eating or preparing food. If handwashing is not feasible, the use of an alcohol-based hand sanitizer with at least 60% alcohol may be used. For children under six years of age, hand sanitizer should be used with adult supervision.</p> <ul style="list-style-type: none"> Wash hands when: arriving and leaving home; arriving at school and throughout the day; after playing outside; after having close contact with others; after using shared surfaces or tools; before and after using restroom; after blowing nose, coughing, and sneezing; and before and after eating and preparing foods. <ul style="list-style-type: none"> Teach students on proper handwashing techniques Provide opportunities throughout the day for students and staff to wash hands Provide sufficient access to hand sanitizer and tissue for students and staff Use hand sanitizer when hand washing is not feasible. Hand sanitizer dispensers are located in all classrooms, libraries, multi-purpose rooms, and/or other locations at sites. Use proper cough and sneezing etiquette. All students and employees are required to wear a face covering while on a school campus and/or engaging in school activities during the COVID-19 pandemic and as required by Local, State or Federal mandates or regulations. <ul style="list-style-type: none"> Teach students why face coverings are used and model how to properly wear, store, and wash. Print and display posters for classrooms, workspaces, and for families on school and district websites: How to Use Face Covering PDF (CDC) Monitor students and staff throughout the day for signs of illness. Stay at home if sick. Students and staff must report their illness and symptoms to their school office or supervisor.
Training	Training will be provided for staff and students on proper handwashing techniques, appropriate use of hand sanitizer, cough and sneeze etiquette, proper tissue use, face mask care and proper care of your work area and school supplies.
Resources	Stop the Spread of Germs How to Protect Yourself and Others Handwashing and Hand sanitizer Share Facts About COVID-19 Poster
Required Supplies	<p>The District and/or school site will provide each classroom with: Tissue, hand sanitizer dispenser, soap, paper towels, student face masks, staff face masks, face shields and protective dividers as necessary.</p> <p>Note: Families are able to continue donating supplies as long as they meet the district's established product and safety standards and will be checked in at the front office.</p>

Sanitizing and Disinfecting

CENTRAL SCHOOL DISTRICT COVID-19 RESPONSE GUIDANCE FOR SANITIZING AND DISINFECTING	
Purpose	<i>In general, cleaning once a day is sufficiently enough to remove potential viruses that may be on surfaces. In most situations the risk of infection from touching a surface is low.</i>
Disinfection prior to school reopening in the event of a school closure due to COVID	<p>Prior to a School Reopening:</p> <ul style="list-style-type: none">• Schools will remain unoccupied for a minimum of 24 hours.• Employees of the school site will be notified that the campus is not accessible.• All classrooms, school offices, libraries, MPRs and all other workspaces will be disinfected, including workplace surfaces, chairs, tables, etc., to protect employees and students and reduce the risk of spread of infection.• Electro-static machines will be utilized.
Daily cleaning	<p>Clean <u>daily</u> all classrooms, restrooms, school offices, health offices, libraries, and MPRs. Surfaces will include but are not limited to:</p> <ul style="list-style-type: none">• Desks, tables, counter tops, chairs, copy machines, telephones.• Door handles, handrails, drinking fountains, sink handles, restroom surfaces• Sanitizing supplies can be used by trained employees throughout the school day.• Soap and water can be used by employees and age appropriate students, under adult supervision, throughout the school day.• Touchless water bottle stations are one each campus. Encourage employees and students to bring their own water bottles.
Sharing Supplies or Objects	<p>Use of shared objects (e.g., art supplies, toys, games, books, computers, manipulatives) should be limited when possible.</p>
Ventilation	<p>For indoor spaces ventilation should be optimized. Ensure that air conditioning systems operate properly and increase circulation of outdoor air as much as possible by opening windows and doors and other methods if doing so DOES NOT pose a safety or health risk to children or staff.</p>

Provided Supplies	The following supplies will be provided by the school site and/or district for each classroom and work area (i.e. school office, staff workroom, library, etc.): Paper towels, sanitizing supplies, gloves, soap, tissues and hand sanitizer (with at least 60% alcohol).
Warning	<ul style="list-style-type: none"> • Always read and follow the directions on the label to ensure safe and effective use. • Store and use chemicals out of the reach of children
Training/Resources	<p>Provide staff understanding and training on:</p> <ul style="list-style-type: none"> • All staff will be trained on the proper use of disinfectants through our Mandated trainings delivery system Target Solutions.
Required Supplies	<p>The District and/or school site will provide each classroom with tissue, hand sanitizer dispenser, soap, paper towels, student face masks, staff face masks, and face shields, as necessary.</p> <ul style="list-style-type: none"> • Note: <i>Families are able to continue donating supplies as long as they meet the district's established product and safety standards. Supplies must be checked in through the front office.</i>

Entering and Exiting Campuses

CENTRAL SCHOOL DISTRICT COVID-19 RESPONSE GUIDANCE FOR ENTERING & EXITING CAMPUS	
Purpose	<i>To ensure the personal health and safety of all students and staff members upon entering and exiting a school campus and while riding a school bus.</i>
Entering a School Campus	<p>Upon arrival to school/work, students, employees and families are expected to abide by the following guidelines:</p> <ul style="list-style-type: none">• Minimize contact between students, staff, families and the community at the beginning of the school day.• Families drop off children curbside, outside the front gate of school, or other designated location. Procedures to be determined by each school site.• Follow designated routes for entry and exit of school/facility. Multiple entrances/exits will be available, if feasible and safe.• Practice physical distancing as appropriate.• Students should only bring educational materials to school.• Nonessential visitors, volunteers and external groups will not be allowed on campus when school/district programs are in operation. <p>Note: Schools should limit nonessential visitors, volunteers and activities involving external groups or organizations with people who are not fully vaccinated especially in areas where there is moderate to high COVID 19 community transmission. Parents are required to always check into the school office and must wear a mask and follow social distancing, as indicated by the school's administration.</p>
Daily Health Screening and Temperature Checks	<p>Daily Health Check/Screening for all students, employees, and essential visitors will be conducted as follows:</p> <p>STUDENTS</p> <ul style="list-style-type: none">• Families are expected to screen their student(s) before leaving home for school each day.<ul style="list-style-type: none">○ If a child has a temperature of 100.4 degrees Fahrenheit or greater and/or is displaying symptoms consistent with COVID-19 or the child has been in close contact with a person diagnosed with COVID-19, the parent must keep the child home and contact the school office. Symptoms of COVID-19

	<ul style="list-style-type: none"> ○ If a child has a temperature of 100.4 degrees Fahrenheit or greater and/or is displaying symptoms consistent with COVID-19 or the child has been in close contact with a person diagnosed with COVID-19, the child will be immediately sent to a predesignated area. The student will be isolated from others with adult supervision. Parents or other authorized adults are expected to pick up the child within 30 minutes. <p>EMPLOYEES</p> <ul style="list-style-type: none"> • Employees are expected to screen themselves before leaving home for work each day. <ul style="list-style-type: none"> ○ If an employee has a temperature of 100.4 degrees Fahrenheit or greater and/or is displaying symptoms consistent with COVID-19 or the employee has been in close contact with a person diagnosed with COVID-19, the employee must stay home from work and contact their supervisor for further guidance. CDC COVID-19 Self-Checker <p>VISITORS</p> <ul style="list-style-type: none"> • Essential visitors who are pre-approved to visit a school campus/district facility will be expected to wear a mask at all times. • Any Essential visitor are required to show proof of COVID-19 vaccination or provide a current negative test for COVID from that week of visitation. • Non-essential visitors, including parent volunteers, will not be allowed on school campuses until COVID-19 restrictions are lifted. <p>Note: <i>Schools should limit nonessential visitors, volunteers and activities involving external groups or organizations with people who are not fully vaccinated especially in areas where there is moderate to high COVID 19 community transmission. Parents are required to always check into the school office and must wear a mask and follow social distancing, as indicated by the school's administration.</i></p>
<p>Boarding a School Bus</p>	<p>Students riding district transportation will be required to abide by the following guidelines prior to boarding a district school bus and while riding to/from school:</p> <ul style="list-style-type: none"> • Families are expected to screen their student(s) before leaving home for school each day. <ul style="list-style-type: none"> ○ If a child has a temperature of 100.4 degrees Fahrenheit or greater and/or is displaying symptoms consistent with COVID-19 or the child has been in close contact with a person diagnosed with COVID-19, the parent must keep the child home and contact the school office. Symptoms of COVID-19 • Students will be required to wear a face covering/mask while boarding the school bus and while being transported on district transportation. • Two windows on the bus should be opened fully.
<p>Exiting a School Campus</p>	<p>While exiting a school campus at dismissal time, students, employees and families are expected to abide by the following guidelines:</p> <ul style="list-style-type: none"> • When school is dismissed, students will be required to immediately exit campus. • Minimize contact between students, staff, families and the community at the end of the school day. • Families will pick up children at designated location(s). • Students will follow designated routes for exiting of school/facility. Multiple exits will be available, if feasible and safe.

	<ul style="list-style-type: none"> • Non-essential visitors and parent volunteers are limited from entering school campuses. • Students, families and staff should practice physical distancing during school dismissal and student pick up.
Training	<ul style="list-style-type: none"> • Prior to the start of the school year, families will be informed of the procedures and guidelines for student drop off and pick up including procedures for riding a school bus and daily health screening and temperature checks. • Students will be taught the procedures and guidelines for entering and exiting campus. • Students will be taught the procedures and guidelines for daily health screening and temperature checks, including the symptoms of COVID-19. • Students will be taught the proper procedures for wearing and caring for a face covering/mask. • Students will be instructed on proper handwashing and hand sanitization. • Students will be taught to self-monitor their health for COVID-19 symptoms.
Resources	Symptoms of COVID-19 Poster
Required Supplies	<p>The District and school sites will provide the following: non-contact thermometers, gloves, face shields, face masks, tape for social distancing marking, soap and hand sanitizer.</p> <p>Note: <i>Families are able to continue donating supplies as long as they meet the district's established product and safety standards. Supplies must be checked in through the front office.</i></p>

Face Coverings

CENTRAL SCHOOL DISTRICT COVID-19 RESPONSE GUIDANCE FOR USE OF FACE COVERINGS	
Purpose	<i>Masks are one of the most effective and simplest safety mitigation layers to prevent in school transmission of COVID 19 infections. SARS-COV-2, the virus that causes COVID 19 is transmitted primarily by aerosols (airborne transmission), and less frequently by droplets. Masks best promote both safety and in-person learning by reducing the need for physical distancing.</i>
Face Covering Guidelines	<p>All students and employees will be required to wear a face covering while indoors on a school campus and/or engaging in school activities during the COVID-19 pandemic and as required by Local, State or Federal mandates or regulations.</p> <ul style="list-style-type: none">• A face covering may consist of a paper mask, cloth mask or a face shield with drape.• Students are required to mask while indoors. Adults are required to mask while sharing indoor spaces with students regardless of vaccination status.• Adults not in the presence of students are not required to wear a face covering if fully vaccinated (unless CDPH guidance states otherwise).• Masks are optional outdoors for all in K-12 school settings.• Employees engaging in health screenings and/or temperature checks will be provided with a surgical mask and/or face shield, and disposable gloves will be provided.• A limited amount of face masks/shields with drapes will be available for students or staff who forget their face coverings.• For students who rely on bus transportation, a face covering is required to be worn riding on a school bus.• Students and staff should be frequently reminded not to touch the face covering and to wash their hands frequently. <p>NOTE: <i>Face masks and face shields with drape will be made available to students and staff, as needed. Students and employees will be allowed to wear their own face covering or face shield from home. N95 masks are available for staff upon request.</i></p> <p>NOTE: <i>Should a student become defiant about wearing a face covering, and after reasonable attempts have been made to resolve the issue, the school administration will remove the student from the classroom and contact parent/guardian. Alternative educational opportunities will be offered to students who are excluded from campus due to not complying with wearing a face mask.</i></p>

Exemptions to face covering usage	<p>The following individuals are exempt from wearing a face covering while on a school campus or at a district facility:</p> <ul style="list-style-type: none"> • Persons age two years or under. These very young children must not wear a face covering because of the risk of suffocation. • Persons with a medical condition, mental health condition, or disability that may prevent them from wearing a face covering. This includes individuals with a medical condition for whom wearing a face covering could obstruct breathing or who are unconscious, incapacitated or otherwise unable to remove a face covering without assistance. • Persons who are hearing impaired, or communicating with a person who is hearing impaired, where the ability to see the mouth is essential for communication. • Persons for whom wearing a face covering would create a risk to the person related to their work, as determined by local, state, or federal regulators or workplace safety guidelines. • Persons who are obtaining a service involving the nose or face for which temporary removal of the face covering is necessary to perform the service. <p>NOTE: <i>For the health and safety of all students and employees, any individual who is unable to wear a face mask while on campus or at a district facility will be required to provide medical documentation. Upon receipt of the appropriate medical documentation, the school site and district will work with the individual to make appropriate accommodations, if feasible. Persons exempted from wearing a face covering due to a medical condition must wear a nonrestrictive alternative such as a face shield with a drape on the bottom edge and social distance as long as their condition permits it. Students with no masks are required to social distance for six feet.</i></p>
District Office and District Operating Center	<ul style="list-style-type: none"> • Face coverings must be properly worn by all employees regardless of vaccination status when they are indoors or in vehicles with another individual. • Employees required to wear a face covering in the District Office and District Operating Center workplaces may remove them under the following conditions as listed in the Cal/OSHA COVID Prevention Program: <ul style="list-style-type: none"> ○ When an employee is alone in a room or vehicle. ○ While eating or drinking at the workplace, provided employees are at least six feet apart and outside air supply to the area, if indoors, has been maximized to the extent feasible. ○ Employees are required to wear a respirator in accordance with our respirator program that meets section 5144 requirements. ○ Employees who cannot wear face coverings due to a medical condition or disability, or who are hearing-impaired person. Such employees will wear an effective, non-restrictive alternative, such as a face shield with a drape on the bottom, if their condition permits. ○ Specific tasks that cannot feasibly be preformed with a face covering. This exception is limited to the time in which such tasks are being performed.

Training	<ul style="list-style-type: none"> Families will be informed of policies and procedures regarding the use of face masks by students, staff and visitors while on a school campus. Students and staff will be taught why the use of face coverings is required and model how to properly wear, store and wash face masks.
Resources	CDC Recommendations Regarding Use of Face Coverings Use of Cloth Face Coverings to Help Slow the Spread of COVID-19 Important Information About Cloth Face Coverings Please Wear a Face Covering Poster How to Safely Wear and Take Off a Cloth Face Covering How to Wash Cloth Face Covering
Required Supplies	The district will provide school sites with face masks, face shields, and desk dividers as needed.

Physical and Social Distancing

CENTRAL SCHOOL DISTRICT COVID-19 RESPONSE GUIDANCE FOR PHYSICAL AND SOCIAL DISTANCING	
Purpose	<i>Limited face-to-face contact with others is the best way to stop the spread of COVID-19. Social distancing is also called “physical distancing” and means keeping space between you and other people outside of your home. Practicing social distancing, while wearing face masks, will ensure the personal health and safety of all students and staff members while at school and work.</i>
Classroom Space	<ul style="list-style-type: none">Recent evidence indicates that in-person instruction can occur safely without minimum physical distancing requirements when other mitigation strategies (e.g., masking) are implemented.
Non-Classroom Indoor Space	<ul style="list-style-type: none">Minimize congregate movement through hallways as much as feasible.Space out commonly used resources (copy machines, paper cutters, die cuts, etc.) to encourage physical distancing and equip work areas with sanitizing supplies after each use.Use non-classroom space for instruction, including regular use of outdoor space, weather permitting.
Food Service	<ul style="list-style-type: none">Students may not share food or drinks.Maximize physical distance while eating as much as possible especially indoors. Use additional spaces outside of the cafeteria for mealtime seating such as classrooms or MPRs can help physical distancing. Arrange for eating outdoors as much as feasible.Clean frequently touched surfaces. Surfaces that come in contact with food should be washed, rinsed and sanitized before and after meals.Given very low risk of transmission from surfaces and shared objects, there is no need to limit food service approaches to single use items and packaged meals.
Gatherings, Visitors and Field Trips	<ul style="list-style-type: none">Pursue virtual parent group events, gatherings or meetings if possible.Pursue virtual activities and student events in lieu of field trips, student assemblies, special performances and spirit nights.
Training	School administrators and supervisors will communicate to employees the importance and purpose of social/physical distancing. Principals will communicate with their staff regarding school site preparations to ensure social/physical distancing. Student to student should be 3 feet apart whenever possible. Adult to adult should be 6 feet apart whenever possible. Student to adult should be 6 feet apart whenever possible.
Resources	Social Distancing Protect Yourself and Others from COVID-19 Poster

When Someone Becomes Sick at School/Work

CENTRAL SCHOOL DISTRICT COVID-19 RESPONSE WHEN SOMEONE BECOMES SICK AT SCHOOL/WORK	
Purpose	<i>Ensure the health and safety of all students and employees by responding quickly and efficiently when a student or employee becomes sick and/or tests positive for COVID-19.</i>
Guidance from San Bernardino Department of Public Health	For all scenarios described below, and any others that may arise, the Central School District will work in partnership with the San Bernardino Department of Public Health for guidance. Any scenario may cause a temporary, partial or complete school closure.
When someone becomes sick at school/work	<ul style="list-style-type: none">• Move potentially infectious person(s) to a predesignated location, other than the Health Office, away from other students, staff and/or visitors.• A potentially infectious student will be closely supervised until a parent or other authorized adult picks up the child.• When a staff member becomes sick at work, they must notify their supervisor and go home as soon as possible.• Encourage student's family or district employee to seek medical advice from their personal health care provider as soon as possible.• Sick students or employees may not return to school or work until they have met the CDC criteria to discontinue home isolation. What to do if you are sick by CDC• Maintain confidentiality of the potentially infectious person's identity as required by state and federal laws.
When a student or employee reports they have tested positive for COVID-19	<ul style="list-style-type: none">• When a student or employee tests positive for COVID-19 it is expected that the parent/ guardian or employee will immediately contact the school office, school administrator or supervisor to inform and seek guidance.• School site administrators are required to inform the District Office of any reported suspected or confirmed cases of COVID-19.• The school administrator, in partnership with the District Office, will notify students, parents/guardians, and employees who may have been exposed to an individual who has tested positive for COVID-19 while maintaining confidentiality of the infected person as required by state and federal laws. Communication may be sent via email, School Messenger, and/or personal phone calls.

	<ul style="list-style-type: none"> • Ensure a safe and correct application of disinfectant in all potentially affected areas. • Advise sick staff members and students not to return to school until they have met CDC criteria to discontinue home isolation, including 24 hours with no fever, symptoms have improved, and 10 days have passed since symptoms first appeared. The district may offer a modified quarantine depending current CDPH guidelines.
If a student or employee is sick with COVID-19 or thinks they may have COVID-19	<ul style="list-style-type: none"> • A student or employee who is sick with COVID-19 cannot attend school/work. The student or employee should stay at home and self-isolate, except to get medical care. • If it is determined that the student or employee may have been at school or work while sick, the school site is required to follow the guidelines for cleaning and disinfecting as described above in "If Someone Gets Sick at School or Work." • Employee should contact their health care provider. Employee will follow CDC guidance. Employee should contact his/her supervisor for guidance regarding their absence. • When a student or employee tests positive for COVID-19 and has exposed others at the school, the San Bernardino Department of Public Health will be contacted for guidance.
If a student or employee has been in close contact with someone, outside of their household, who has tested positive for COVID-19	<p>If a student or employee is informed, they are a close contact with an individual who has tested positive for COVID-19, <u>and the individual does not reside in the same household</u>, the following steps should be followed:</p> <ul style="list-style-type: none"> • Student or employee should closely monitor their symptoms while continuing to wear a face covering and practicing social distancing and healthy hygiene. • Students may continue attending school and employee may continue reporting to work if fully vaccinated and symptom free. • If not fully vaccinated student or employee should quarantine for 10 days and monitor symptoms (the district may offer a modified quarantine depending current CDPH guidelines). • Should any symptoms appear then the student or employee should remain at home and notify the school office or supervisor.
If a student or employee resides with someone who tests positive for COVID-19	<p>If an unvaccinated student or employee <u>lives in the same household</u> with someone who tests positive for COVID-19 the following steps should be followed:</p> <ul style="list-style-type: none"> • Student's parent/guardian or employee should contact their health care provider. Student/employee will be required to remain out of school for 10 days of isolation or sooner if family member tests negative and an additional 10 days of quarantine as per CDC's quarantine guidelines. The district may offer a modified quarantine depending current CDPH guidelines. • Employee should contact his/her supervisor and the Human Resources Department for guidance regarding their absence. <p>If a vaccinated student or employee <u>lives in the same household</u> with</p>

	<p>someone who tests positive for COVID-19 the following steps should be followed:</p> <ul style="list-style-type: none"> • Monitor symptoms and remain home if symptomatic. • Students should contact your school office if symptoms appear. • Employee should contact his/her supervisor and the Human Resources Department if symptoms appear.
While a student or employee is out of school or work due to COVID-19	<ul style="list-style-type: none"> • Ensure that students have access to instruction while out of school. • Ensure that students are not penalized for being absent. • Employees should contact the Human Resource Department for further information.
When a student or employee who tested positive for COVID- 19 is able to return to school or work and be around others	<ul style="list-style-type: none"> • A student or employee who thinks or knows that they had COVID-19 <u>and</u> they had symptoms may return to school or work: <ul style="list-style-type: none"> ○ 24 hours without a fever, including any use of fever reducing medications AND ○ Symptoms have improved AND ○ 10 days after symptoms first appeared OR they have a negative test after 5 or more days for SARS-COV-2 OR a health care provider has provided documentation that the symptoms are typical of their underlying condition. • A student or employee who tested positive for COVID-19 but did not have any symptoms (asymptomatic) may return to school or work: <ul style="list-style-type: none"> ○ 10 days since the positive test was administered or a negative test after 5 or more days. ○ No symptoms have developed. <p>CDC Guidelines - When you can be around others when you had or likely had COVID-19</p> <ul style="list-style-type: none"> • Note: A doctor's note may be required for any student or employee to return to school or work.
Quarantine recommendation for vaccinated close contacts	<ul style="list-style-type: none"> • CDPH guidance suggests that fully vaccinated individuals do not need to quarantine if exposed to COVID-19 as long as they remain symptom free.
Quarantine Recommendations for unvaccinated students for exposure in a K-12 indoor setting	<ul style="list-style-type: none"> • Due to the group tracing approach, there is no need to quarantine if asymptomatic. Students must wear masks and monitor symptoms. • If any symptoms develop during the 10 day period, the exposed person must immediately isolate, get tested and contact their health care provider with any questions regarding their care.

Guidance for school closures	<p>Check State and local orders and health department notices daily about transmission in the area or closures and adjust operations accordingly.</p> <ul style="list-style-type: none"> • Develop a plan for continuity of education. Consider in that plan how to also continue nutrition and other services provided in the regular school setting to establish alternate mechanisms for these services to continue. • Maintain regular communications with the local public health department. • Implement communication plans for school closure to include outreach to students, families, teachers, staff and the community. <p>Determining partial or complete school closure:</p> <ul style="list-style-type: none"> • Partial Closure: <ul style="list-style-type: none"> ○ Close off affected areas and do not use them until they have been cleaned. ○ Wait 24 hours before cleaning or disinfecting to reduce risk to individuals cleaning. ○ If it is not possible to wait 24 hours, wait as long as possible. ○ Ensure safe and correct application of disinfectants and keep disinfectant products away from children. • Complete Closure <ul style="list-style-type: none"> ○ Close entire school campus for a period of 2-5 days to conduct deep cleaning and sanitation of the campus. This would be based on input from Public Health.
Vaccination Requirements for employees	<ul style="list-style-type: none"> • All district employees will be required to be fully vaccinated to be employed by Central School District OR • Test weekly and submit a weekly negative COVID-19 test by Fridays at 4 p.m. Home tests will not be considered valid form of testing.
Vaccination Requirements for essential and nonessential visitors	<ul style="list-style-type: none"> • All essential and nonessential visitors will be required to be fully vaccinated to be allowed on a district site OR • Test weekly and submit a weekly negative COVID-19 test when attempting to enter a district site. Home tests will not be considered valid form of testing.
Vaccination Requirements for students	<ul style="list-style-type: none"> • Students are not required to be vaccinated to attend school. However, full vaccination for COVID-19 is recommended.

Training and Resources

- Students and employees will be trained on the symptoms of COVID-19.
- Students and employees will be instructed to stay at home if they are sick and/or have symptoms of COVID-19.

Required Supplies	The District will provide district nurses and health clerks with personal protective equipment that includes surgical masks, face shields, surgical gowns and disposable gloves. All district schools and facilities will be provided with sanitizing supplies, paper towels, soap, hand sanitizer and face masks.
Continuity of Services	<ul style="list-style-type: none"> • The LEA will ensure continuity of services, including but not limited to services to address students' academic needs and students' and staff social, emotional, mental health and other needs, which may include student health and foodservices. • In the case of single isolation, the student will be provided with access to materials and instruction for the duration of the quarantine. • In the event of a school closure, instruction will still be provided according to local and state guidance. • Breakfast and lunch will be provided during the event of a school closure. Counselors are available at each site to meet individual social emotional, mental health, physical health and basic needs. Yearly trainings are provided to staff on identifying student mental health crisis and suicide prevention. • Students with disabilities will receive instruction under the guidance of their case carrier aligned to their IEP goals. English Learners will receive daily designated and integrated English Language development instruction according to their language proficiency needs. Individual needs will be evaluated and revisited on an ongoing basis. • Health advocates and district advice nurses are available to staff to support their social emotional, mental health and other basic needs.
Health and Safety Policies and Guidance	<p>The LEA will maintain the health and safety of students, educators, and other school and LEA staff, and the extent to which it has adopted policies, and a description of any such policies, on each of the CDC's safety recommendations, including: universal and correct wearing of masks; modifying facilities to allow for physical distancing; handwashing and respiratory etiquette; cleaning and maintaining healthy facilities, including improving ventilation; guidelines regarding isolation and quarantine, in collaboration with the State, local, territorial, or Tribal health departments; diagnostic and screening testing; efforts to provide vaccinations to school communities; appropriate accommodations for children with disabilities with respect to health and safety policies; and coordination with State and local health officials.</p> <p>The decision-making process is informed by current public health conditions and regulatory guidance. The district has developed a plan that meets all local, state and federal guidelines and Cal/OSHA mandates in consultation with Educational partners. This plan includes Healthy Hygiene Practices, Sanitizing and Disinfecting, Entering and Exiting Campuses, Face Coverings, Physical Distancing, When Someone becomes Sick at Work at Work or School, Continuity of Services for Quarantining and School Closures, as well as Cal/OSHA's mandates on safe workplace practices including face coverings and vaccination requirements related to the K-12 facilities/workplace. We collaborate with the county department of public health and other community agencies on an ongoing basis to ensure consistency in complying with local rules and restrictions.</p>
