

Hello Norman County East Families

School is just around the corner and our goal is to be as “normal” as allowed. One way to make that happen for your student is vaccinating them if they are old enough. Vaccinated individuals are not expected to quarantine the 14 days if identified as a close contact of a positive. With the Delta variant making its way across the United States, our goal at public health is to help everyone get vaccinated if they choose to be.

If a student is participating in fall sports, the risk of exposure is higher. By getting vaccinated, if a student is identified as a close contact of a positive, they would still be able to continue to participate without having to quarantine unless symptoms developed. Norman Mahnomen Public Health will be offering a Pfizer Clinic on August 6th.

Please call Norman Mahnomen Public Health to schedule your vaccine- 218-935-3319. If you have questions related to the COVID 19 vaccines- please contact your Primary Care Provider or myself at 218-280-3125.

Sincerely

Tracy Johnson

Licensed School Nurse
