

2020-2021 *BESD Online Course Offerings*

BESD online will be delivered content mostly through online resources with teacher created video to help students understand content. A BESD employee will be available every weekday to help answer questions from students and parents.

***When a student signs up for online, they will be required to continue in that style for a full trimester.** Below are the required courses each online student will take unless already passed. As we move forward, more classes will be offered to meet each student's individual graduation requirements.
