

Connally ISD Use of Funds

Elementary and Secondary School Emergency Relief III

Connally ISD is committed to helping our students recover from the COVID-19 pandemic. The district has received funds for the ESSER III grant funded by the American Rescue Plan. These funds have been issued to help districts recover from this time. After gathering information from all stakeholders, the district's application was submitted and has been approved by TEA. Below is a summary of the use of the funds:

- Creating 7 teacher and 35 paraprofessional positions to assist with learning loss during the pandemic.
- Creating 3 counselor positions to assist students with social/emotional stress caused by the pandemic.
- Increasing the number of students served in our partnership with the Klaras Center.
- Training for staff.
- Instructional technology for classrooms
- Summer and after school learning opportunities
- Teacher retention stipend

If you have any further questions on the use of the funds, please contact David Wimberly at 254-296-6460.
