Specifically, the LEA must engage in meaningful consultation with students, families, school and district administrators (including SPED administrators), teachers and other educators, principals and other school leaders, school staff, and if applicable unions, tribes civil rights organizations (including disability rights organizations) and stakeholders representing the interests of children with disabilities, English learners, children experiencing homelessness, children in foster care, migratory students, children who are incarcerated, and other underserved students.

The

LEA must describe for the public how the district will maintain the health and safety of students, educators, and other staff and the extent to which it has adopted policies, and a description of any such policies, on each of the safety recommendations established by the CDC.
