

Gifford Community Consolidated Grade School District # 188

**406 South Main Street
P. O. Box 70
Gifford, Illinois 61847**

Dear Parents, Patrons and Students:

Welcome to Gifford Grade School, where educational excellence is a long-standing tradition. The faculty, staff, and Board of Education of GGS are committed to preparing every child who attends our school for high school, citizenship, and a productive life. It is our goal to provide each student the opportunity to learn successfully in an enjoyable, caring, structured, safe, and supportive environment.

This Student/Parent Handbook is intended as an overview of Gifford Grade School and its practices, procedures, and policies. It is not intended as a contractual agreement with students or parents and does not address every possible situation. The Student/Parent Handbook is a summary of board policies, expectations for students, and governmentally required notices. The Handbook is approved in its entirety each year by the Board of Education and may be amended by the Board during the school year.

The District has recently updated the Handbook, therefore, parents are encouraged to read the Handbook carefully and familiarize themselves with its contents. We ask that parents of younger children discuss the contents of the Handbook with their children.

We hope you will find the Handbook useful. Please contact the school if you have questions about the Student/Parent Handbook.

Parents, students and patrons are encouraged to visit the Gifford District website at www.gifford.k12.il.us for updated information, schedules, lunch menus, Board of Education meetings, school finances, and features on school activities.

We are looking forward to another great year at Gifford Grade School!

Jay P. Smith, Ed.D.

Visitors

All visitors, including parents and siblings, are required to enter through the front door (north east door) of the building into the main office. Visitors should identify themselves and inform office personnel of their reason for being at school.

Approved visitors must take a tag identifying themselves as a guest and place the tag to their outer clothing in a clearly visible location. Visitors are required to proceed immediately to their location in a quiet manner. All visitors must return to the main office and sign out before leaving the school.

Any person wishing to confer with a staff member should contact that staff member to make an appointment. Conferences with teachers are held, to the extent possible, outside school hours or during the teacher's conference/preparation period.

Visitors are expected to abide by all school rules during their time on school property. A visitor who fails to conduct him or her in a manner that is appropriate will be asked to leave and may be subject to criminal penalties for trespass and/or disruptive behavior.

No person on school property or at a school event shall perform any of the following acts:

1. Strike, injure, threaten, harass, or intimidate a staff member, board member, sports official or coach, or any other person.
2. Behave in an unsportsmanlike manner or use vulgar or obscene language.
3. Unless specifically permitted by State law, possess a weapon, any object that can reasonably be considered a weapon or looks like a weapon, or any dangerous device.
4. Damage or threaten to damage another's property.
5. Damage or deface school property.
6. Violate any Illinois law or municipal, local or county ordinance.
7. Smoke or otherwise use tobacco products.
8. Distribute, consume, use, possess, or be impaired by or under the influence of an alcoholic beverage, cannabis, other lawful product, or illegal drug.
9. Be present when the person's alcoholic beverage, cannabis, other lawful product, or illegal drug consumption is detectable, regardless of when and/or where the use occurred.
10. Use or possess medical cannabis, unless he or she has complied with Illinois' Compassionate Use of Medical Cannabis Act and district policies.

13. Operate a motor vehicle: (a) in a risky manner, (b) in excess of 20 miles per hour, or (c) in violation of an authorized district employee's directive.

15. Violate other district policies or regulations, or a directive from an authorized security officer or district employee.
16. Engage in any conduct that interferes with, disrupts, or adversely affects the district or a school function.

Equal Opportunity and Sex Equity

Equal educational and extracurricular opportunities are available to all students without regard to race, color, nationality, sex, sexual orientation, gender identity, ancestry, age, religion, physical or mental disability, status as homeless, immigration status, order of protection status, or actual or potential marital or parental status, including pregnancy.

No student shall, based on sex or sexual orientation, or gender identity be denied equal access to programs, activities, services, or benefits or be limited in the exercise of any right, privilege, advantage, or denied equal access to educational and extracurricular programs and activities.

Any student or parent/guardian with a sex equity or equal opportunity concern should contact: Dr. Jay P. Smith, Superintendent.

Parent Organizations and Booster Clubs

Parent organizations and booster clubs are invaluable resources to the District's schools. While parent organizations and booster clubs have no administrative authority and cannot determine District policy, the School Board welcomes their suggestions and assistance.

Parent organizations and booster clubs may be recognized by the Board and permitted to use the District's name, a District school's name, or a District school's team name, or any logo attributable to the District provided they first receive the Superintendent or designee's express written consent. Consent to use one of the above-mentioned names or logos will generally be granted if the organization or club has by-laws containing the following:

1. The organization's or club's name and purpose, such as, to enhance students' educational experiences, to help meet educational needs of students, to provide extra athletic benefits to students, to assist specific sports teams or academic clubs through financial support, or to enrich extracurricular activities.
2. The rules and procedures under which it operates.
3. An agreement to adhere to all Board policies and administrative procedures.
4. A statement that membership is open and unrestricted, meaning that membership is open to all parents/guardians of students enrolled in the school, District staff, and community members.
5. A statement that the District is not, and will not be, responsible for the organization's or club's business or the conduct of its members, including on any organization or club websites or social media accounts.
6. An agreement to maintain and protect its own finances.
7. A recognition that money given to a school cannot be earmarked for any particular expense. Booster clubs may make recommendations, but cash or other valuable consideration must be given to the District to use at its discretion. The Board's legal obligation to comply with Title IX by providing equal athletic opportunity for members of both genders will supersede an organization or club's recommendation.

Permission to use one of the above-mentioned names or logos may be rescinded at any time and does not constitute permission to act as the District's representative. At no time does the District accept responsibility for the actions of any parent organization or booster club regardless of whether it was recognized and/or permitted to use any of the above-mentioned names or logos. The Superintendent shall designate an administrative staff member to serve as the recognized liaison to parent organizations or booster clubs. The liaison will serve as a resource person and provide information about school programs, resources, policies, problems, concerns, and emerging issues. Building staff will be encouraged to participate in the organizations.

Animals on School Property

In order to assure student health and safety, animals are not allowed on school property, except in the case of a service animal accompanying a student or other individual with a documented disability. This rule may be temporarily waived by the building principals in the case of an educational opportunity for students, provided that (a) the animal is appropriately housed, humanely cared for, and properly handled, and (b) students will not be exposed to a dangerous animal or an unhealthy environment.

School Volunteers

All school volunteers must complete the “Volunteer Information Form” and be approved by the school principal prior to assisting at the school. Forms are available in the school office. Some teachers utilize parent volunteers in the classroom. The individual teachers make this decision. Teachers who desire parent volunteers will notify parents. For school-wide volunteer opportunities, please contact the building principal.

Volunteers are required to check in and out at the main office and receive a visitor badge before going to their destination.

Treats & Snacks K-8

Due to health concerns and scheduling, treats and snacks for any occasion must be arranged in advance with the classroom teacher. All treats and snacks must be store bought and prepackaged in individual servings. No homemade treats or snacks are allowed at school. Treats and snacks may not require refrigeration and must have a clearly printed list of ingredients on the packaging. We strongly encourage you to select a treat or snack with nutritional value.

Emergency School Closings

In cases of bad weather and other local emergencies, please listen to any local radio or television station to be advised of school closings or early dismissals. In addition, Gifford Grade School uses a parent reach phone messaging system to call parents when there are school closings for any reason. Decisions to close school for the day are made by 6 a.m. If bad weather or other emergency occurs during the day, please listen to local media stations for possible early dismissal information.

For your child’s safety, make certain your child knows ahead of time where to go in case of an early dismissal.

If we dismiss early for an emergency, all after-school functions are automatically canceled.

Video & Audio Monitoring Systems

A video and/or audio monitoring system may be in use on a school bus and a video monitoring system may be in use in public areas of the school building. These systems have been put in place to protect students, staff, visitors and school property. If a discipline problem is captured on audiotape or videotape, these recordings may be used as the basis for imposing student discipline. If criminal actions are recorded, a copy of the tape may be provided to law enforcement personnel.

Accommodating Individuals with Disabilities

Individuals with disabilities will be provided an opportunity to participate in all school-sponsored services, programs, or activities. Individuals with disabilities should notify the superintendent or building principal if they have a disability that will require special assistance or services and, if so, what services are required. This notification should occur as far in advance as possible of the school-sponsored function, program, or meeting.

Students with Food Allergies

State law requires our school district to annually inform parents of students with life-threatening allergies or life-threatening chronic illnesses of the applicable provisions of Section 504 of the Rehabilitation Act of 1973 and other applicable federal statutes, state statutes, federal regulations and state rules.

If your student has a life-threatening allergy or life-threatening chronic illness, please notify the school in writing or call the building principal at (217) 568-7733.

Federal law protects students from discrimination due to a disability that substantially limits a major life activity. If your student has a qualifying disability, an individualized Section 504 Plan will be developed

and implemented to provide the needed support so that your student can access his or her education as effectively as students without disabilities.

Not all students with life-threatening allergies and life-threatening chronic illnesses may be eligible under Section 504. Our school district also may be able to appropriately meet a student's needs through other means.

Care of Students with Diabetes

If your child has diabetes and requires assistance with managing this condition while at school and school functions, a Diabetes Care Plan must be submitted to the school principal. Parents/guardians are responsible for and must:

- a. Inform the school in a timely manner of any change which needs to be made to the Diabetes Care Plan on file with the school for their child.
- b. Inform the school in a timely manner of any changes to their emergency contact numbers or contact numbers of health care providers.
- c. Sign the Diabetes Care Plan.
- d. Grant consent for and authorize designated School District representatives to communicate directly with the health care provider whose instructions are included in the Diabetes Care Plan.

For further information, please contact administration.

School Day

The School day begins promptly at 8:30 a.m. All students who enter the building should proceed to the new gym or the old gym for breakfast and will be dismissed to their homerooms when the 8:17 bell rings. School is dismissed at 3:05 p.m., except on early dismissal or emergency situations.

Those students who participate in the breakfast program will be directed to the cafeteria. The cafeteria begins serving at 8:00 a.m. Students who are not transported by bus may proceed to the new gym if they arrive between 8:00 a.m. and 8:17 a.m. Students who ride the bus but do not participate in the breakfast program will be housed in the new gym until 8:17 a.m. All students are to leave the campus immediately after school is dismissed (unless participating in a school sponsored program). Students who choose to come back to the playground or any other area (after going home) are the parents' responsibility.

Suicide and Depression Awareness and Prevention

Youth suicide impacts the safety of the school environment. It also affects the school community, diminishing the ability of surviving students to learn and the school's ability to educate. Suicide and depression awareness and prevention are important goals of the school district.

The school district maintains student and parent resources on suicide and depression awareness and prevention. Much of this information, including a copy of the school district's policy, is posted on the school district website. Information can also be obtained from the school office.

Attendance

Illinois law requires that whoever has custody or control of any child between seven and seventeen years of age (unless the child has already graduated from high school) shall assure that the child attends school in the district in which he or she resides, during the entire time school is in session. Illinois law also requires that whoever has custody or control of a child who is enrolled in the school, regardless of the child's age, shall assure that the child attends school during the entire time school is in session.

Student Absences

There are two types of absences: excused and unexcused. Excused absences include: illness, observance of a religious holiday or event, death in the immediate family, family emergency, situations beyond the control of the student, circumstances that cause reasonable concern to the parent/guardian for the student's mental, emotional or physical health, or safety, attending a military honors funeral to sound TAPS, or other reasons as approved by the building principal. All other absences are considered unexcused. Pre-arranged excused absences must be approved by the principal.

Additionally, a student will be excused for up to 5 days in cases where the student's parent/guardian is an active duty member of the uniformed services and has been called to duty for, is on leave from, or has immediately returned from deployment to a combat zone or combat-support postings. The Board of Education, in its discretion, may excuse a student for additional days relative to such leave or deployment. A student and the student's parent/guardian are responsible for obtaining assignments from the student's teachers prior to any excused absences and for ensuring that such assignments are completed by the student prior to his or her return to school.

The school may require documentation explaining the reason for the student's absence.

In the event of any absence, the student's parent or guardian is required to call the school at [217-568-7733] or email (robertsj@gifford.k12.il.us) before 9:00 a.m. to explain the reason for the absence. If a call has not been made to the school by 10:00 a.m. on the day of a student's absence, a school official will call the home to inquire why the student is not at school. If the parent or guardian cannot be contacted, the student will be required to submit a signed note from the parent or guardian explaining the reason for the absence. Failure to do so shall result in an unexcused absence. Upon request of the parent or guardian, the reason for an absence will be kept confidential.

Release Time for Religious Instruction/Observance

A student will be released from school, as an excused absence, to observe a religious holiday or for religious instruction. The student's parent/guardian must give written notice to the building principal at least 5 calendar days before the student's anticipated absence(s).

Students excused for religious reasons will be given an opportunity to make up any examination, study, or work requirement.

Truancy

Student attendance is critical to the learning process. Truancy is therefore a serious issue and will be dealt with in a serious manner by the school and district.

Students who miss more than 1% but less than 5% of the prior 180 regular school days without valid cause (a recognized excuse) are truant. Students who miss 5% or more of the prior 180 regular school days are considered chronic truants. Students who are chronic truants will be offered support services and resources aimed at correcting the truancy issue.

If chronic truancy persists after support services and other resources are made available, the school and district will take further action, including:

- Referral to the truancy officer
- Reporting to officials under the Juvenile Court Act
- Referral to the State's Attorney
- Appropriate school discipline

A student who misses 15 consecutive days of school without valid cause and who cannot be located or, after exhausting all available support services, cannot be compelled to return to school is subject to expulsion from school.

A parent or guardian who knowingly and willfully permits a child to be truant is in violation of State law.

Grading & Promotion

School report cards are issued to students on a quarterly basis. For questions regarding grades, please contact the classroom teacher.

The decision to promote a student to the next grade level is based on successful completion of the curriculum, attendance, performance on standardized tests and other testing. A student will not be promoted based upon age or any other social reasons not related to academic performance.

Kindergarten and First Grade, Including Music and PE (K-1) will Utilize Standards Based Grading

At the end of each quarter a checklist will be completed on each student. This checklist will evaluate the work of each student by testing the learning targets that have been established by the school for that grading period.

Score "4"	Exceeds
Score "3"	Proficient
Score "2"	Developing
Score "1"	Beginning
"NA"	Standard Not Assessed.

Promotion, Retention and Remediation

The promotion or retention of a student requires a well-defined process to ensure that students and parents understand the school district’s academic standards. Towards this end, the policy described below has been prepared to establish academic expectations for Gifford Grade School students. The policy includes academic standards for second through eighth grade students and a description of the promotion/retention process for students in kindergarten and first grade.

Promotion or retention of a second through eighth grade student will be based upon a student's grade point average and successful completion of core-curricular classes.

Students must earn a cumulative grade of 70 (D) or better in at least four of five core-curricular classes for the entire school year in grades two through eight. The core-curricular classes are mathematics, science, social studies, reading, and language arts at grade two through eight. Promotion of a student with an Individualized Education Program (IEP) or a student receiving reasonable accommodations pursuant to Section 504 of the Rehabilitation Act, shall be in accordance with this policy unless other criteria for promotion are established by the student’s IEP or Section 504 Plan.

The promotion or retention of a kindergarten and first grade will be determined by the following factors: (1) the student’s academic progress; (2) AIMS test scores; (3) Standards Based Report Card Outcomes and (3) Teacher recommendation.

The following steps will be used for all kindergarten through eighth grade students who are having academic difficulties: (1) parents/guardians will be notified at the end of the first quarter when a student is having academic difficulties; (2) at the conclusion of the first semester, the parents/guardians will be informed in writing if the student is a candidate for retention and a conference will be scheduled with the parents/guardians, teachers, and the student to discuss the reasons for the student’s educational concerns and the steps to be taken to correct the academic deficiencies; (3) parents will be notified as to the status regarding promotion and retention.

The final decision regarding a student’s grade placement rests with the school authorities.

Report Cards

Each student’s parents or legal guardians may check their child’s academic progress using the TeacherEase account or shall receive quarterly reports during the school year if requested. The report provides information to parents or legal guardians concerning their child’s academic performance. Report Cards are sent home with the student on the Friday after the quarter ends. It is hoped the parents or legal guardians will review the report card carefully and call or see the teacher if they have questions. The report card is to be retained by the parent or guardian. At the conclusion of the fourth quarter, the report card is sent home with the student on the last day of the school year.

Letter Grades

The symbols “A”, “B”, “C”, “D”, and “F” (+/- may also be utilized) are used on the Report Card to report academic progress for students in grades two through eight for the following subject areas: Math, Science, Social Studies, Language Arts and Reading, Music and PE (2-8) also will use this scale.

Grade Scale is as follows:

93-100	A
85-92	B
77-84	C

70-76 D

69 - 0 F

Midterm Reports

Students receive notification of midterm progress approximately four weeks prior to the end of the grading period. Please check using your TeacherEase account. If you prefer a hard copy then please call the office.

Honor Roll/High Honor Roll

The Honor Roll and High Honor Roll recognizes students for their outstanding academic achievement in fourth through eighth grades. The qualifications for each Honor Roll are as follows:

Honor Roll: No grade lower than a “B” in all curricular subjects.

High Honor Roll: No grade lower than an “A” in all curricular subjects.

Homework and Due Dates

Homework is used as a way for students to practice what they have learned and demonstrate their knowledge of skills and standards. The time requirements and the frequency of homework will vary depending on a student’s teacher, ability and grade level. If a student’s absence is excused or if a student is suspended from school, he/she will be permitted to make up all missed work, including homework and tests, for equivalent academic credit. *All assignments must be turned in by Friday of the week in which they were assigned by 3:00 p.m. Any assignments that are not completed within that time frame will be entered as a zero*; anything assigned that Friday will be due the following Monday. Every date absence will be given 1 day to complete missing assignments.

A student who is unable to attend school because of pregnancy will be provided home instruction, correspondence courses, or other courses of instruction before the birth of the child when the student’s physician indicates, in writing, that she is medically unable to attend regular classroom instruction and for up to three months after the child’s birth or a miscarriage.

For information on home or hospital instruction, contact: Mrs. Maggie Woodham

Response to Intervention

(RTI) is a multi-tier approach to the early identification and support of students with learning and behavior needs. The RTI process begins with high-quality instruction and universal screening of all children in the general education classroom. Struggling learners are provided with interventions at increasing levels of intensity to accelerate their rate of learning. These services may be provided by a variety of personnel, including general education teachers, special educators, and specialists. Depending on schedules, a student who requires RTI may miss Music and PE at times during the week (not every day). Progress is closely monitored to assess both the learning rate and level of performance of individual students. Educational decisions about the intensity and duration of interventions are based on individual student response to instruction. RTI is designed for use when making decisions in both general education and special education, creating a well-integrated system of instruction and intervention guided by child outcome data. Parents will be communicated when your child receives Tier II and/or III interventions along with updates on progress. A Three-tiered model of support includes:

Tier 1: High-Quality Classroom Instruction, Screening, and Group

Interventions in the general education classroom, the teacher measures everyone’s skills using a universal screening tool. The screening helps the teacher work with students in small groups based on their skill levels. Best practice is to differentiate their instruction in order to meet the needs of the students they serve. Students are taught using methods that research has shown to be effective.

“Core” instruction is geared to the whole class. Utilizing RTI the team monitors students’ progress to see who might need additional support. Many students respond successfully to Tier 1 support and achieve grade-level expectations.

Tier 2: Targeted Interventions (small group interventions)

If your child isn’t making adequate progress in Tier 1, they will start to receive more targeted help from the classroom teacher or aide. This is in addition to the regular classroom instruction, not a replacement for it. During these extra help sessions, they will be taught in small groups using a different method than in Tier 1. The teacher may also ask you to work with your child at home on certain skills. The school will monitor your child’s progress so it’s clear whether the Tier 2 intervention is having an impact on their learning.

Tier 3: Intensive Interventions and Comprehensive Evaluations

Typically, only a small percentage of the class—perhaps one or two students— will require Tier 3 support. If your child needs Tier 3 support, it will be tailored to their needs. Every day they will receive one-on-one instruction or work in very small groups. The groups will focus on reading and/or math skills. Weekly progress monitoring will continue to determine the effectiveness of the interventions being used.

Exemption from Physical Education

In order to be excused from participation in physical education, a student must present an appropriate excuse from his or her parent/guardian or from a person licensed under the Medical Practice Act. The excuse may be based on medical or religious prohibitions. An excuse because of medical reasons must include a signed statement from a person licensed under the Medical Practice Act that corroborates the medical reason for the request. An excuse based on religious reasons must include a signed statement from a member of the clergy that corroborates the religious reason for the request.

A student in grades 7-8 may submit a written request to the building principal requesting to be excused from physical education courses because of the student’s ongoing participation in an interscholastic or extracurricular athletic program. The building principal will evaluate requests on a case-by-case basis.

Students with an Individualized Education Program may also be excused from physical education courses for reasons stated in Handbook Procedure 10.3

Special activities in physical education will be provided for a student whose physical or emotional condition, as determined by a person licensed under the Medical Practices Act, prevents his or her participation in the physical education course.

State law prohibits the School District from honoring parental excuses based upon a student’s participation in athletic training, activities, or competitions conducted outside the auspices of the School District. Cross Reference: PRESS 7:260, Exemption from Physical Education

Students who have been excused from physical education shall return to the course as soon as practical. The following considerations will be used to determine when a student shall return to physical education course:

1. The time of year when the student’s participation ceases; and 2. The student’s class schedule.

Home and Hospital Instruction

A student who is absent from school, or whose physician, physician assistant or licensed advance practice registered nurse anticipates his or her absence from school because of a medical condition may be eligible for instruction in the student’s home or hospital.

Appropriate educational services from qualified staff will begin no later than five school days after receiving a written statement from a physician, physician assistant, or licensed advanced practice registered nurse. Instructional or related services for a student receiving special education services will be determined by the student's individualized education program.

A student who is unable to attend school because of pregnancy will be provided home instruction, correspondence courses, or other courses of instruction before (1) the birth of the child when the student's physician, physician assistant, or licensed advanced practice nurse indicates, in writing, that she is medically unable to attend regular classroom instruction, and (2) for up to 3 months after the child's birth or a miscarriage. For information on home or hospital instruction, contact: Jay P. Smith

Fees, Fines & Charges; Waiver of Student Fees

The registration fee for the full school year is \$65.00 for kindergarten through 8th grade. The registration fee for less than a full year will be \$10.00 per quarter. If a student transfers to another school system he/she shall be charged for a full quarter's fee for any part of a quarter attended. Said student shall be entitled to a refund for any full quarter paid for, but not attended. This fee shall be waived for qualifying students.

The school establishes fees and charges to fund certain school activities, including [extra curricular-activities]. Some students may be unable to pay these fees. Students will not be denied educational services or academic credit due to the inability of their parents or guardian to pay fees or certain charges. Students whose parent or guardian is unable to afford student fees may receive a fee waiver. A fee waiver does not exempt a student from charges for lost and damaged books, locks, materials, supplies, and/or equipment.

Applications for fee waivers may be submitted by a parent or guardian of a student who has been assessed a fee. A student is eligible for a fee waiver if the student currently lives in a household that meets the income guidelines, with the same limits based on the household size, that are used for the federal free meals program.

The building principal will give additional consideration where one or more of the following factors are present:

- An illness in the family;
- Unusual expenses such as fire, flood, storm damage, etc.;
- Seasonal employment;
- Emergency situations; or
- When one or more of the parents/guardians are involved in a work stoppage.

Within 30 days, the building principal will notify the parent/guardian if the fee waiver request has been denied, along with the appropriate appeal process. If you have questions regarding the fee waiver process, you may contact the building principal at 406 South Main Street, Gifford, Illinois, 217-568-7733

Pursuant to the Hunger-Free Students' Bill of Rights Act, the school is required to provide a federally reimbursable meal or snack to a student who requests one, regardless of whether the student has the ability to pay for the meal or snack or owes money for earlier meals or snacks. Students may not be provided with an alternative meal or snack and the school is prohibited from publicly identifying or stigmatizing a student who cannot pay for or owes money for a meal or snack

Speech and Language

All students enrolled in school for the first time in the district shall be given a speech and language screening if such service has not been performed in a prior school. Any students identified during the screening shall be given a case study evaluation to determine the specific need for such services. All children within the district are eligible for speech and language therapy services and shall be referred for

case study should the student be identified by local school personnel. Notification of referral for case study is not required but is normally done. Notification of placement of children for direct speech and language services is required and will be forthcoming for any children being considered for such a placement.

Student Pictures

Students shall have the opportunity to purchase a school picture package in the fall. These school-sponsored pictures are taken by a professional photographer. Students are under no obligation to buy the pictures.

Supplies

Homeroom teachers will furnish a "Supply List" on registration day. No supplies are sold at school.

Telephone Usage at School

The telephone for student use is on the counter in the school secretary's office. Students may use the telephone with permission from their teacher. The teacher should ask the student the purpose of the call, and if the call is thought unnecessary, the student should be refused permission.

Vision and Hearing Screening

Vision screening will be conducted in the fall of each school year for special education students, kindergarten, second, eighth grade and new students to the district. Hearing will be conducted on kindergarten, first, second, third, special education and new students. Vision and hearing screening is not a substitute for a complete eye and vision evaluation by an eye doctor or a hearing test administered in a medical office. Your child is not required to undergo the vision screening if an optometrist or ophthalmologist has completed and signed a report indicating that an examination had been administered within the previous 12 months and that evaluation is on file at the school. Vision screening is not an option. If a vision examination report is not on file at the school, your child will be screened, according to state law. The same law and circumstances apply to hearing screening.

School Lunch Program

Breakfast is served every school day from 8:00 a.m. to 8:20 a.m. Lunch is served every school day from 11:00 a.m. to 12:20 p.m., except when there is an 11:45 a.m. early dismissal. A sack lunch will be provided.

A student may purchase breakfast for \$1.50. Breakfast may be purchased on a weekly basis for \$7.50.

A student may bring a sack lunch from home or may purchase a school lunch for \$2.50 and/or milk for \$.40. Lunch may be purchased on a weekly basis for \$12.50

Bus Transportation

The district provides bus transportation to and from school for all students living 1.5 miles or more from the school. A list of bus stops will be published at the beginning of the school year before student registration. Parents must, at the beginning of the school year, select one bus stop at which a student is to be picked up, and one stop at which a student is to be dropped off. Students are not permitted to ride a bus other than the bus to which they are assigned. Exceptions must be approved in advance by the building principal.

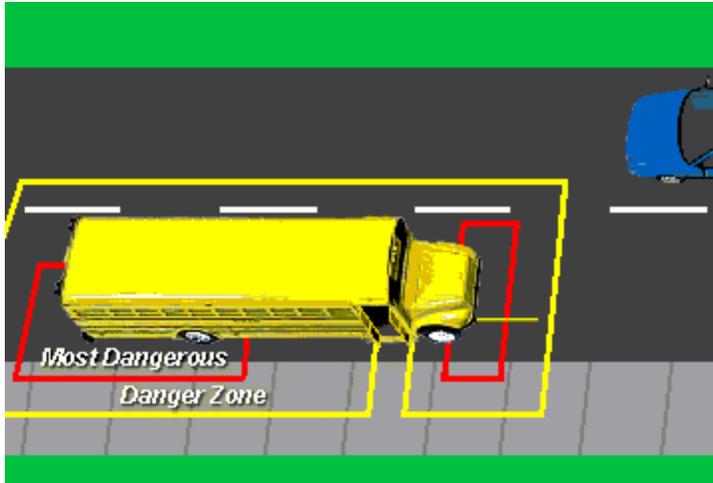

While students are on the bus, they are under the supervision of the bus driver. In most cases, bus discipline problems can be handled by the bus driver. In the case of a written disciplinary referral, student bus problems will be investigated and handled by the building principal.

Students are expected to follow all school rules while on the bus. Students may be suspended from riding the school bus for up to 10 consecutive school days for violating school rules or for engaging in other gross disobedience or misconduct. The school board may suspend the student from riding the school bus for a period in excess of 10 days for safety reasons. The district's regular suspension procedures shall be used to suspend a student's privilege to ride a school bus.

A student who is suspended from riding the school bus and who does not have alternative transportation to school shall be allowed the opportunity to make up all missed work for equivalent academic credit. It is the responsibility of the student's parent or guardian to notify the school that the student does not have alternative transportation to school.

In the interest of the student's safety and in compliance with State law, students are also expected to observe the following:

- Dress properly for the weather. Make sure all drawstrings, ties, straps, etc. on all clothing, backpacks and other items, are shortened or removed to lessen the likelihood of them getting caught in bus doors, railings or aisles.
- Arrive on time at the bus stop, and stay away from the street while waiting for the bus.
- Stay away from the bus until it stops completely and the driver signals you to board. Enter in a single file without pushing. Always use the handrail.
- Take a seat right away and remain seated facing forward. Keep your hands, arms, and head inside the bus.
- Talk quietly on the bus. No shouting or creating loud noises that may distract the driver. Tablets, iPods®, iPads®, smart phones, and other electronic devices must be silenced on the bus unless a student uses headphones.
- Help keep the bus neat and clean. Keep belongings out of the aisle and away from emergency exits. Eating and drinking are not allowed on the bus.
- Always listen to the driver's instructions. Be courteous to the driver and other students. Sit with your hands to yourself and avoid making noises that would distract the driver or bother other passengers. Remain seated, keeping your hands, arms, and head inside the bus at all times.
- Wait until the bus pulls to a complete stop before standing up. Use the handrail when exiting the bus.
- Stay out of the danger zone next to the bus where the driver may have difficulty seeing you. Take five giant steps away from the bus and out of the danger zone, until you can see the driver and the driver sees you. Never crawl under a bus.
- If you must cross the street after you get off the bus, wait for the driver's signal and then cross in front of the bus.
- Cross the street only after checking both ways for traffic. Never run back to the bus, even if you dropped or forgot something.

Video and audio cameras may be active on busses to record student conduct and may be used for the purposes of investigation into misconduct or accidents on the bus.

For questions regarding school transportation issues, contact: Dr. Jay P. Smith

6. Such other behavior as the building principal deems to threaten the safe operation of the bus and/or its occupants.

If a student is suspended from riding the bus for gross disobedience or misconduct on a bus, the School Board may suspend the student from riding the school bus for a period in excess of 10 days for safety reasons.

A student suspended from riding the bus who does not have alternate transportation to school shall have the opportunity to complete or make up work for equivalent academic credit. It shall be the responsibility of the student's parent or guardian to notify the school that the student does not have alternate transportation.

Immunization, Health, Eye and Dental Examinations

Required Health Examinations and Immunizations

All students are required to present appropriate proof of a health examination and immunizations against, and screenings for, preventable communicable diseases within one year prior to:

1. Entering kindergarten or the first grade;
2. Entering the sixth and
3. Enrolling in an Illinois school for the first time, regardless of the student's grade.

Proof of immunization against meningococcal disease is required for students in grades 6 and 12. A diabetes screening must be included as part of the health exam (though diabetes testing is not required). Students between the ages of one and seven must provide a statement from a physician assuring that the student was “risk-assessed” or screened for lead poisoning.

Failure to comply with the above requirements by October 15 of the current school year will result in the student’s exclusion from school until the required health forms are presented to the school, subject to certain exceptions. New students who register mid-term have 30 days following registration to comply with the health examination and immunization requirements. If a medical reason prevents a student from receiving a required immunization by October 15, the student must present, by October 15, an immunization schedule and a statement of the medical reasons causing the delay. The schedule and statement of medical reasons must be signed by an appropriate medical professional.

Eye Examination

All students entering kindergarten or the school for the first time must present proof by October 15 of the current school year of an eye examination performed within one year. Failure to present proof by October 15, allows the school to hold the student’s report card until the student presents: (1) proof of a completed eye examination, or (2) that an eye examination will take place within 60 days after October 15.

Dental Examination

All students entering **kindergarten, second and sixth** must present proof by May 15 of the current school year of having been examined by a licensed dentist within the last 18 months. Failure to present proof allows the school to hold the child’s report card until the student presents: (1) proof of a completed dental examination, or (2) that a dental examination will take place within 60 days after May 15.

Exemptions

A student will be exempted from the above requirements for:

1. Medical grounds if the student’s parent/guardian presents to the building principal a signed statement explaining the objection;
2. Religious grounds if the student’s parent/guardian presents to the building principal a completed Certificate of Religious Exemption;
3. Health examination or immunization requirements on medical grounds if a physician provides written verification;
4. Eye examination requirement if the student’s parent/guardian shows an undue burden or lack of access to a physician licensed to practice medicine in all of its branches who provides eye examinations or a licensed optometrist; or
5. Dental examination requirement if the student’s parent/guardian shows an undue burden or a lack of access to a dentist.

Student Medication

Taking medication during school hours or during school-related activities is prohibited unless it is necessary for a student’s health and well-being. When a student’s licensed health care provider and parent/guardian believe that it is necessary for the student to take medication during school hours or school-related activities, the parent/guardian must request that the school dispense the medication to the child by completing a “School Medication Authorization Form.”

No school or district employee is allowed to administer to any student, or supervise a student’s self-administration of, any prescription or non-prescription medication until a completed and signed School Medication Authorization Form is submitted by the student’s parent/guardian. No student is allowed to

possess or consume any prescription or non-prescription medication on school grounds or at a school-related function other than as provided for in this procedure.

Self-Administration of Medication

A student may possess and self-administer an epinephrine injector (e.g., EpiPen®) and/or an asthma inhaler or medication prescribed for use at the student's discretion, provided the student's parent/guardian has completed and signed a School Medication Authorization Form.

Students who are diabetic may possess and self-administer diabetic testing supplies and insulin if authorized by the student's diabetes care plan, which must be on file with the school.

Students with epilepsy may possess and self-administer supplies, equipment and medication, if authorized by the student's seizure action plan, which must be on file with the school.

Students may self-administer (but not possess on their person) other medications required under a qualified plan, provided the student's parent/guardian has completed and signed a School Medication Authorization Form.

The school district shall incur no liability, except for willful and wanton conduct, as a result of any injury arising from a student's self-administration of medication, including asthma medication or epinephrine injectors, or medication required under a qualifying plan. A student's parent/guardian must indemnify and hold harmless the school district and its employees and agents, against any claims, except a claim based on willful and wanton conduct, arising out of a student's self-administration of an epinephrine injector, asthma medication, and/or a medication required under a qualifying plan.

Administration of Medical Cannabis

In accordance with the Compassionate Use of Medical Cannabis Program, qualifying students are allowed to utilize medical cannabis infused products while at school and school events. Please contact the building principal for additional information. Discipline of a student for being administered a product by a designated caregiver pursuant to this procedure is prohibited. The District may not deny a student attendance at a school solely because he or she requires administration of the product during school hours.

Undesignated Medications

The school may maintain the following undesignated prescription medications for emergency use: (1) Asthma medication; (2) Epinephrine injectors; (3) Opioid antagonists; and (4) Glucagon. No one, including without limitation, parents/guardians of students, should rely on the school or district for the availability of undesignated medication. This procedure does not guarantee the availability of undesignated medications. Students and their parents/guardians should consult their own physician regarding these medication(s).

Emergency Aid to Students

Nothing in this policy shall prohibit any school employee from providing emergency assistance to students, including administering medication.

Safety Drill Procedures and Conduct

Safety drills will occur at times established by the school board. Students are required to be silent and shall comply with the directives of school officials during emergency drills. There will be a minimum of three (3) evacuation drills, a minimum of one (1) severe weather (shelter-in-place) drill, a minimum of one (1) law enforcement drill to address an active shooter incident, and a minimum of one (1) bus evacuation drill each school year. The school will observe recommendations of the Illinois Department of Public Health regarding communicable diseases.

1. Parents are required to notify the school office if they suspect their child has a communicable disease.
2. In certain cases, students with a communicable disease may be excluded from school or sent home from school following notification of the parent or guardian.
3. The school will provide written instructions to the parent and guardian regarding appropriate treatment for the communicable disease.
4. A student excluded because of a communicable disease will be permitted to return to school only when the parent or guardian brings to the school a letter from the student's doctor stating that the student is no longer contagious or at risk of spreading the communicable disease.

Head Lice

The school will observe the following procedures regarding head lice.

1. Parents are required to notify the school office if they suspect their child has head lice.
2. Infested students will be sent home following notification of the parent or guardian.

School personnel shall not advise or encourage students to drop out of school voluntarily due to behavioral or academic difficulties. The above list of disciplinary measures is a range of options that will not always be applicable in every case. In some circumstances, it may not be possible to avoid suspending or expelling a student because behavioral interventions, other than a suspension or expulsion, will not be appropriate and available, and the only reasonable and practical way to resolve the threat and/or address the disruption is a suspension or expulsion.

Isolated Time Out, Time Out and Physical Restraint

Isolated time out, time out, and physical restraint shall only be used if the student's behavior presents an imminent danger of serious physical harm to the student or others and other less restrictive and intrusive measures were tried and proven ineffective in stopping it. Corporal Punishment

Corporal punishment is illegal and will not be used. Corporal punishment is defined as slapping, paddling, or prolonged maintenance of students in physically painful positions, or intentional infliction of bodily

harm. Corporal punishment does not include reasonable force as needed to maintain safety for students, staff, or other persons, or for the purpose of self-defense or defense of property.

- c. Electronic messages transmitted via the District's Internet gateway carry with them an identification of the user's Internet *domain*. This domain is a registered name and identifies the author as being with the District. Great care should be taken, therefore, in the composition of such messages and how such messages might reflect on the name and reputation of the District. Users will be held personally responsible for the content of any and all email messages transmitted to external recipients.

Search and Seizure

In order to maintain order, safety and security in the schools, school authorities are authorized to conduct reasonable searches of school property and equipment, as well as of students and their personal effects. "School authorities" includes school liaison police officers.

School Property and Equipment as well as Personal Effects Left There by Students

School authorities may inspect and search school property and equipment owned or controlled by the school (such as lockers, desks, and parking lots), as well as personal effects left there by a student, without notice to or consent of the student. Students have no reasonable expectation of privacy in these places or areas or in their personal effects left there.

The building principal may request the assistance of law enforcement officials to conduct inspections and searches of lockers, desks, parking lots, and other school property and equipment for illegal drugs, weapons, or other illegal or dangerous substances or materials, including searches conducted through the use of specially trained dogs.

Student Searches

School authorities may search a student and/or the student's personal effects in the student's possession (such as, purses, wallets, knapsacks, backpacks, lunch boxes, etc.) when there is a reasonable ground for suspecting that the search will produce evidence the particular student has violated or is violating either the law or the school or district's student rules and policies. The search will be conducted in a manner that is reasonably related to its objective of the search and not excessively intrusive in light of the student's age and sex, and the nature of the infraction.

School officials may require a student to cooperate in an investigation if there is specific information about activity on the student's account on a social networking website that violates the school's disciplinary rules or school district policy. In the course of the investigation, the student may be required to share the content that is reported in order for a school to make a factual determination. School officials may not request or require a student or his or her parent/guardian to provide a password or other related account information to gain access to the student's account or profile on a social networking website.

Seizure of Property

If a search produces evidence that the student has violated or is violating either the law or the school or district's policies or rules, evidence may be seized and impounded by school authorities, and disciplinary action may be taken. When appropriate, evidence may be transferred to law enforcement authorities.

Questioning of Students Suspected of Committing Criminal Activity

Before a law enforcement officer, school resource officer, or other school security person detains and questions on school grounds a student under 18 years of age who is suspected of committing a criminal act, the building principal or designee will: (a) Notify or attempt to notify the student's parent/guardian and document the time and manner in writing; (b) Make reasonable efforts to ensure the student's

parent/guardian is present during questioning or, if they are not present, ensure that a school employee (including, but not limited to, a social worker, psychologist, nurse, guidance counselor, or any other mental health professional) is present during the questioning; and (c) If practicable, make reasonable efforts to ensure that a law enforcement officer trained in promoting safe interactions and communications with youth is present during the questioning.

School Organizations for Students

Scholastic Bowl

Scholastic Bowl is an IESA recognized game played between teams who try to answer questions on a wide variety of academic subjects. This is the first year for 5th graders to be on a team. Scholastic Bowl consists of a team of fifth and sixth graders and a team of seventh and eighth graders. Practices start after winter break. Parents and students are welcome to attend the meets.

NJHS

Members can be inducted in 7th or 8th grade but have several requirements needed in order to be eligible to be in NJHS.

Requirements- To receive a nomination, you must have 6 consecutive quarters of being an honor roll student (the last 3 quarters of 6th and the first 3 quarters of 7th OR the last 3 quarters of 7th and the first 3 quarters of 8th). Then, you may fill out the application. A teacher panel then votes for each student based on community service, involvement, and extracurriculars. Some of the service projects NJHS has done in the past include food drives, a fundraiser for Juvenile Diabetes, and most recently, a hat day to raise funds for hungry children in Champaign County. The annual induction ceremony is held in May.

Student Council

Mission Statement: The mission of Gifford Grade School Student Council is to help students and members of our community feel welcome. We will lead by example in our classrooms and community by being respectful, responsible and safe. We will promote spirit and pride through encouraging and supporting the achievements of our peers and ourselves. Student Council elections are held at the beginning of the school year. Students in grades 6th-8th are elected to represent Gifford Grade School. Students seeking/representing GGS should lead by example and abide by our mission statement.

Athletics

Students in grades five through eight may participate in baseball, softball, basketball, cheerleading, volleyball and track.

Student Athlete Concussions and Head Injuries

Student athletes must comply with Illinois' Youth Sports Concussion Safety Act and all protocols, policies and bylaws of the Illinois High School Association¹ before being allowed to participate in any athletic activity, including practice or competition.

A student who was removed from practice or competition because of a suspected concussion shall be allowed to return only after all statutory prerequisites are completed, including without limitation, the School District's return-to-play and return-to-learn protocols. See Concussion Action Plan below:

CARLE SPORTS MEDICINE CONCUSSION ACTION PLAN

Return to Learn

Post concussed athletes will be allowed to return to school when symptoms are not aggravated by attending school. Until full recovery, students will be given extra time to complete exams, quizzes and homework. While recovering, if symptoms worsen while attending school, they will be allowed to exit the classroom immediately, report to the office or nurse, at which time the parents/guardians will be notified and the student will be allowed to leave school to a better environment to help relieve symptoms. Students will be allowed to return to school as long as their condition allows them to do so.

If at any time, the student's symptoms are worsening, emergency management/911 may be alerted if the staff is not comfortable with the student's current condition, then they can make the call for the student's safety.

General Return-to-Play guidelines

Step 1 - Once the athlete is no longer experiencing concussive symptoms for at least 24 hours, a SCAT 3 test should be performed by the team athletic trainer or physician.

Step 2 - If an athlete passes the SCAT 3 test, he or she can perform light cardiovascular activity such as a stationary bike that day for 20 minutes.

Step 3 - If the athlete does not experience concussive symptoms with light cardiovascular activity, then he or she can perform more strenuous cardiovascular activity such as jogging, running or elliptical trainer for 20 minutes the following day.

Step 4 - If the athlete does not experience concussive symptoms with the more strenuous cardiovascular activity, he or she can perform non-contact, sport-specific drills the next day.

Step 5 - If the athlete completes the non-contact drills without experiencing concussive symptoms, then the athlete is released to participate in practice.

Education of Children with Disabilities

It is the intent of the district to ensure that students who are disabled within the definition of Section 504 of the Rehabilitation Act of 1973 or the Individuals with Disabilities Education Act are identified, evaluated and provided with appropriate educational services. The School provides a free appropriate public education in the least restrictive environment and necessary related services to all children with disabilities enrolled in the school. The term “children with disabilities” means children between ages 3 and the day before their 22nd birthday for whom it is determined that special education services are needed. It is the intent of the school to ensure that students with disabilities are identified, evaluated, and provided with appropriate educational services. A copy of the publication “Explanation of Procedural Safeguards Available to Parents of Students with Disabilities” may be obtained from the school district office. Students with disabilities who do not qualify for an individualized education program, as required by the federal Individuals with Disabilities Education Act and implementing provisions of this Illinois law, may qualify for services under Section 504 of the federal Rehabilitation Act of 1973 if the student (i) has a physical or mental impairment that substantially limits one or more major life activities, (ii) has a record of a physical or mental impairment, or (iii) is regarded as having a physical or mental impairment. Gifford Grade School

Behavioral Interventions

Behavioral interventions shall be used with students with disabilities to promote and strengthen desirable behaviors and reduce identified inappropriate behaviors. The School Board will establish and maintain a committee to develop, implement, and monitor procedures on the use of behavioral interventions for children with disabilities. GGS does implement a PBS (Positive Behavior Supports) system.

What is PBS?

PBS stands for Positive Behavior System. The purpose of PBS is to unify and strengthen our school wide community through supporting positive choices and creating an environment where all are respected, responsible, and safe. Our school wide expectations are: Be Safe, Be Respectful, and Be Responsible. These expectations are reinforced daily in all areas of the school and students can earn a variety of positive incentives for following the expectations.

Other positive incentives are:

Gotchas

Teachers who see students following expectations can give students Gotchas. Students collect their Gotchas until they earn 10. When they have earned 10 Gotchas, students can cash them in to earn a reward. Some of the rewards are: saying the pledge during the morning announcements, having a Fancy Lunch, eating lunch with a teacher, doing an activity with the Principal, or various rewards teachers have in their classrooms.

Cool Class Awards

To reward whole classes that are following expectations, teachers can give a Cool Class Award. These award slips will be collected, and at the end of each month, one class will be randomly selected to earn a reward, such as an extra recess or a popcorn party.

Principal Pride

An individual reward that is given quarterly is the Principal Pride award. Teachers nominate students they feel have gone above and beyond. These students will be recognized at the quarterly whole school assembly.

Discipline of Special Education Students

The District shall comply with the Individuals With Disabilities Education Improvement Act of 2004 and the Illinois State Board of Education's *Special Education* rules when disciplining special education students. No special education student shall be expelled if the student's particular act of gross disobedience or misconduct is a manifestation of his or her disability.

Exemption from Physical Education Requirement

A student who is eligible for special education may be excused from physical education courses in either of the following situations:

1. He or she (a) is in grades 3-12, (b) his or her IEP requires that special education support and services be provided during physical education time, and (c) the parent/guardian agrees or the IEP team makes the determination; or
2. He or she (a) has an IEP, (b) is participating in an adaptive athletic program outside of the school setting, and (c) the parent/guardian documents the student's participation as required by the Superintendent or designee.

A student requiring adapted physical education will receive that service in accordance with the student's Individualized Education Program.

Related Service Logs

For a child with an individualized education program (IEP), the school district must create related service logs that record the type of related services administered under the child's IEP and the minutes of each type of related service that has been administered. The school will provide a child's parent/guardian a copy of the related service log at the annual review of the child's IEP and at any other time upon request.

Student Privacy Protections

Surveys by Third Parties

Before a school official or staff member administers or distributes a survey or evaluation created by a third party to a student, the student's parent/guardian may inspect the survey or evaluation, upon their request and within a reasonable time of their request. This applies to every survey: (1) that is created by a person or entity other than a district official, staff member, or student, (2) regardless of whether the student answering the questions can be identified, and (3) regardless of the subject matter of the questions.

Parents who object to disclosure of information concerning their child to a third party may do so in writing to the building principal.

Surveys Requesting Personal Information

School officials and staff members will not request, nor disclose, the identity of any student who completes any survey or evaluation (created by any person or entity, including the school or district) containing one or more of the following items:

Political affiliations or beliefs of the student or the student's parent/guardian.

Mental or psychological problems of the student or the student's family.

Sexual behaviors or attitudes.

Illegal, anti-social, self-incriminating, or demeaning behavior.

Critical appraisals of other individuals with whom students have close family relationships.

Legally recognized privileged or analogous relationships, such as those with lawyers, physicians, and ministers.

Religious practices, affiliations, or beliefs of the student or the student's parent/guardian.

Income other than that required by law to determine program eligibility.

The student's parent/guardian may inspect the survey or evaluation upon, and refuse to allow their child to participate in the survey. The school will not penalize any student whose parent/guardian exercised this option.

Instructional Material

A student's parent/guardian may inspect, upon their request, any instructional material used as part of their child's educational curriculum within a reasonable time of their request.

The District has adopted and uses several policies and procedures regarding student privacy, parental access to information and administration of certain physical examinations to students. Copies of these policies are available upon request.

Student Records

A school student record is any writing or other recorded information concerning a student and by which a student may be identified individually that is maintained by a school or at its direction or by a school employee, regardless of how or where the information is stored, except for certain records kept in a staff member's sole possession; records maintained by law enforcement officers working in the school; video and other electronic recordings (including electronic recordings made on school busses) that are created in part for law enforcement, security, or safety reasons or purposes, though such electronic recordings may become a student record if the content is used for disciplinary or special education purposes regarding a particular student.

The Family Educational Rights and Privacy Act (FERPA) and the Illinois Student Records Act afford parents/guardians and students over 18 years of age ("eligible students") certain rights with respect to the student's school records. They are:

1. The right to inspect and copy the student's education records within 10 business days of the day the District receives a request for access.

The degree of access a student has to his or her records depends on the student's age. Students less than 18 years of age have the right to inspect and copy only their permanent record. Students 18 years of age or older have access and copy rights to both permanent and temporary records. A parent/guardian or student should submit to the building principal a written request that identifies the record(s) he or she wishes to inspect. Within 10 business days, the building principal will make arrangements for access and notify the parent/guardian or student of the time and place where the records may be inspected. In certain circumstances, the District may request an additional 5 business days in which to grant access. The District charges \$.35 per page for copying but no one will be denied their right to copies of their records for inability to pay this cost.

These rights are denied to any person against whom an order of protection has been entered concerning the student.

2. The right to have one or more scores received on college entrance examinations included on the student's academic transcript. [1]

Parents/guardians or eligible students may have one or more scores on college entrance examinations included on the student's academic transcript. The District will include scores on college entrance examinations upon the written request of the parent/guardian or eligible student stating the name of each college entrance examination that is the subject of the request and the dates of the scores that are to be included.

3. The right to request the amendment of the student's education records that the parent/ guardian or eligible student believes are inaccurate, irrelevant, or improper.

A parent/guardian or eligible student may ask the District to amend a record that is believed to be inaccurate, irrelevant, or improper. Requests should be sent to the building principal and should clearly identify the record the parent/guardian or eligible student wants changed and the specific reason a change is being sought.

If the District decides not to amend the record, the District will notify the parent/guardian or eligible student of the decision and advise him or her of their right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the parent/guardian or eligible student when notified of the right to a hearing.

4. The right to permit disclosure of personally identifiable information contained in the student's education records, except to the extent that the FERPA or Illinois School Student Records Act authorizes disclosure without consent.

Disclosure without consent is permitted to school officials with legitimate educational or administrative interests. A school official is a person employed by the District as an administrator, supervisor, instructor, or support staff member (including health or medical staff and law enforcement unit personnel); a person serving on the School Board. A school official may also include a volunteer, contractor, or consultant who, while not employed by the school, performs an institutional service or function for which the school would otherwise use its own employees and who is under the direct control of the school with respect to the use and maintenance of personally identifiable information from education records (such as an attorney, auditor, medical consultant, therapist, or educational technology vendor); or any parent/guardian or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility or contractual obligation with the district.

Upon request, the District discloses education records without consent to officials of another school district in which a student has enrolled or intends to enroll, as well as to any person as specifically required by State or federal law. Before information is released to these individuals, the parents/guardians or eligible student will receive prior written notice of the nature and substance of the information, and an opportunity to inspect, copy, and challenge such records.

Academic grades and references to expulsions or out-of-school suspensions cannot be challenged at the time a student's records are being forwarded to another school to which the student is transferring.

Disclosure is also permitted without consent to: any person for research, statistical reporting or planning, provided that no student or parent/guardian can be identified; any person named in a court order; appropriate persons if the knowledge of such information is necessary to protect the health or safety of the

student or other persons; and juvenile authorities when necessary for the discharge of their official duties who request information before adjudication of the student.

5. The right to a copy of any school student record proposed to be destroyed or deleted.

The permanent record is maintained for at least 60 years after the student transfers, graduates, or permanently withdraws. The temporary record is maintained for at least 5 years after the student transfers, graduates, or permanently withdraws. Temporary records that may be of assistance to a student with a disability who graduates or permanently withdraws, may, after 5 years, be transferred to the parent/guardian or to the student, if the student has succeeded to the rights of the parent/guardian. Student temporary records are reviewed every 4 years or upon a student's change in attendance centers, whichever occurs first.

6. The right to prohibit the release of directory information.

Throughout the school year, the District may release directory information regarding students, limited to:

- Name
- Address
- Grade level
- Birth date and place

Parent/guardian names, addresses, electronic mail addresses, and telephone numbers.

- Academic awards, degrees, and honors
- Information in relation to school-sponsored activities, organizations, and athletics
- Major field of study
- Period of attendance in school

Any parent/guardian or eligible student may prohibit the release of any or all of the above information by delivering a written objection to the building principal within 30 days of the date of this notice.

7. The right to request that military recruiters or institutions of higher learning not be granted access to your student's information without your prior written consent.[2]

Federal law requires a secondary school to grant military recruiters and institutions of higher learning, upon their request, access to secondary school students' names, addresses, and telephone numbers, unless the student's parent/guardian, or student who is 18 years of age or older, submits a written request that the information not be released without the prior written consent of the parent/guardian or eligible student. If you wish to exercise this option, notify the building principal.

8. The right contained in this statement: No person may condition the granting or withholding of any right, privilege or benefits or make as a condition of employment, credit, or insurance the

securing by any individual of any information from a student's temporary record which such individual may obtain through the exercise of any right secured under State law.

(5) Information on testing and results will be provided to all students and parents.

School Operations During a Pandemic or Other Health Emergency

A pandemic is a global outbreak of disease. Pandemics happen when a new virus emerges to infect individuals and, because there is little to no pre-existing immunity against the new virus, it spreads sustainably. Your child’s school and district play an essential role, along with the local health department and emergency management agencies, in protecting the public’s health and safety during a pandemic or other health emergency.

During a pandemic or other health emergency, you will be notified in a timely manner of all changes to the school environment and schedule that impact your child. Please be assured that even if school is not physically in session, it is the goal of the school and district to provide your child with the best educational opportunities possible.

Additionally, please note the following:

1. All decisions regarding changes to the school environment and schedule, including a possible interruption of in-person learning, will be made by the superintendent in consultation with and, if necessary, at the direction of the Governor, Illinois Department of Public Health, local health department, emergency management agencies, and/or Regional Office of Education.
2. Available learning opportunities may include remote and/or blended learning. Blended learning may require your child to attend school on a modified schedule.
3. Students will be expected to participate in blended and remote instruction as required by the school and district. Parents are responsible for assuring the participation of their child. Students who do not participate in blended or remote learning will be considered truant.
4. All school disciplinary rules remain in effect during the interruption of in-person learning. Students are subject to discipline for disrupting the remote learning environment to the same extent that discipline would be imposed for disruption of the traditional classroom.
5. Students and parents will be required to observe all public health and safety measures implemented by the school and district in conjunction with state and local requirements.

6. During a pandemic or other health emergency, the school and district will ensure that educational opportunities are available to all students.
7. School personnel will work closely with students with disabilities and other vulnerable student populations to minimize the impact of any educational disruption.
8. Students who have a compromised immune system, live with an individual with a compromised immune system, or have a medical condition that may impact their ability to attend school during a pandemic or other public health emergency should contact school officials.

Annual Notice to Parents about Educational Technology / Vendors Under the Student Online Personal Protection Act

School districts throughout the State of Illinois contract with different educational technology vendors for beneficial K-12 purposes such as providing personalized learning and innovative educational technologies, and increasing efficiency in school operations.

Under Illinois' Student Online Personal Protection Act, or SOPPA (105 ILCS 85/), educational technology vendors and other entities that operate Internet websites, online services, online applications, or mobile applications that are designed, marketed, and primarily used for K-12 school purposes are referred to in SOPPA as *operators*. SOPPA is intended to ensure that student data collected by operators is protected, and it requires those vendors, as well as school districts and the Ill. State Board of Education, to take a number of actions to protect online student data.

Depending upon the particular educational technology being used, our District may need to collect different types of student data, which is then shared with educational technology vendors through their online sites, services, and/or applications. Under SOPPA, educational technology vendors are prohibited from selling or renting a student's information or from engaging in targeted advertising using a student's information. Such vendors may only disclose student data for K-12 school purposes and other limited purposes permitted under the law.

In general terms, the types of student data that may be collected and shared include personally identifiable information (PII) about students or information that can be linked to PII about students, such as:

- Basic identifying information, including student or parent/guardian name and student or parent/guardian contact information, username/password, student ID number
- Demographic information
- Enrollment information
- Assessment data, grades, and transcripts
- Attendance and class schedule
- Academic/extracurricular activities
- Special indicators (e.g., disability information, English language learner, free/reduced meals or homeless/foster care status)
- Conduct/behavioral data
- Health information
- Food purchases

- Transportation information
- In-application performance data
- Student-generated work
- Online communications
- Application metadata and application use statistics
- Permanent and temporary school student record information

Operators may collect and use student data only for K-12 purposes, which are purposes that aid in the administration of school activities, such as:

- Instruction in the classroom or at home (including remote learning)
- Administrative activities
- Collaboration between students, school personnel, and/or parents/guardians
- Other activities that are for the use and benefit of the school district

Remote / Blended Learning (May change throughout the school year.)

5. How will the district ensure and verify at least 5 clock hours of instruction or school work, as required under Section 10-19.05, for each student participating in a remote learning day?	Teachers will plan for five hours of school work to be completed by each student and will then document completion of that work while at school or when students return to school. GGS will utilize remote/blended learning through in-person and on-line learning and offer “Learning Packets” for students that do not have internet access at home. However, the district will attempt to bring students without internet access at home to school to access the district’s internet.
6. How will the district ensure access from home or other appropriate remote facility for all students participating, including computers, the Internet, and other forms of	The district has had school gmail accounts and Google classroom for students for a couple of years as they are one-to-one. Teachers already communicate with students through their school gmail. For communication with PreK-5

<p>electronic communication that must be utilized in the proposed program?</p>	<p>students, GGS uses a Remind app, email, Google Classroom, Seesaw or Class Dojo systems for parents. This system allows parents and students to select the method of communication which best suits their needs- they can choose to receive emails or text-messages. Parents are already very comfortable with this mode of school-to-home communication.</p>
<p>7. How will the district ensure that non-electronic materials are made available to students participating in the program who do not have access to the required technology or to participating teachers or students who are prevented from accessing the required technology?</p>	<p>Teachers will prepare “School Learning Packets” for all students. Students will be given these materials in advance of any school closure reasons. If school is closed before we are able to distribute the School Learning Packs, then we will assemble a group of staff members to deliver to the students home. These are activities to ensure that the necessary non-electronic materials are already at home in case of school closure. However, the district will attempt to bring students without internet access at home to school to access the district’s internet.</p>
<p>8. How will the district ensure appropriate learning opportunities for students with special needs?</p>	<p>Special Education teachers are partnering with classroom teachers to ensure that accommodations and modification to remote learning plans are made for each student with special needs on their caseload when creating School Learning Packets. <p>10. How will the district ensure appropriate learning opportunities for other students’ unique needs as identified by the district?</p>	<p>The district utilizes an instructional approach rooted in differentiation across all PreK through 8th grade classrooms. Classroom teachers are already experts in meeting the unique needs of all learners. The district will ensure that appropriate learning opportunities are provided for all students by providing flexibility in the remote/blended learning plan so that not all teachers or students are required to complete cookie-cutter activities which do not meet their needs.</p>
<p>11. How will the district monitor and verify each student's electronic participation?</p>	<p>Each classroom teacher will have the autonomy to monitor electronic and non-electronic participation as is appropriate to their curriculum and subject area. We use Google classroom, Seesaw and DOJO already on a daily basis. Teachers are able to track progress from a distance. If there are questions or concerns the teacher will contact the student through email or phone calls. The teacher will then report back on electronic and learning packet participation to the district.</p>
<p>12. How will the district address the extent to which student participation is within the student's control as to the time, pace, and means of learning?</p>	<p>For the junior high students, teachers are already comfortable with the timing and pacing for digital and personalized learning experiences as we have had this in place for a few years. It will be made clear to teachers that participation in remote/blended learning should be measured by the total <i>amount</i> of time not the specific clock hours. Students can complete work at their own</p>

	pace and time without the limits of specific “periods” for the day.
13. How will the district provide effective notice to students and their parents or guardians of the use of particular days for remote learning?	Students and parents are both very familiar with the TeacherEase system. On specific days that will be used for remote learning, all stakeholders will be contacted through TeacherEase, Remind App and or Parent Reach. Communication with education association and paraprofessional union representatives has already occurred throughout the past year. Education association representatives meet with the superintendent throughout the year and these topics have been discussed and worked out to meet needs and expectations.
16. How will the district review and revise the program as implemented to address difficulties confronted?	The district will make remote/blended learning plans an agenda item at the next board meeting in July. Remote/Blended Planning Days will be utilized throughout the year. Staff and parents will be surveyed to fine tune the plan to the best extent possible. .
17. How will the district ensure that the protocol regarding general expectations and responsibilities of the program is communicated to teachers, staff, and students at least 30 days prior to utilizing a remote learning day?	General expectations and responsibilities of the program have been communicated with staff during the week of March 16, 2020. District leadership will meet with whole staff and individual teachers to ensure that a common understanding is attained by all.

Medicaid Information

This is to inform you that your school district is an EPSDT Medicaid Provider with Illinois' State Medicaid Agency, Healthcare and Family Services (HES). EPSDT (Early Periodic Screening, Diagnosis and Treatment) is a federal mandate on the States to provide early intervention / prevention services to children, age birth through 18. The services are allied health care services provided by the district's pupil personnel or by allied professionals under contract with the district. As an EPSDT Medicaid Provider, the District is entitled to collect federal Medicaid funds to share in the cost of providing health care services to the children enrolled in the school district.

The allied health care service practitioners include school nurses, speech therapists, psychologists, social workers, physical and occupational therapists, personal health aides, counselors, hearing and vision screeners and special transportation services. These services may be provided to students per his/her IEP (Individual Education Plan) or to students within the standard education program. Both the State and Federal governments mandate the school district provide the above referenced health care services to students based upon screenings / assessments that are completed. The Medicaid claims are filed and processed per the district's contract with a billing service agency and the reimbursement funds received are used to meet the cost of providing these health care services.

The health care services listed on a student's IEP are provided with parental consent and at "no cost" to the

parents. This "no cost" provision is in compliance with Public Law 94-142 - "Education of the Handicapped Free and Appropriate Public Education", IDEA - "Individual Disabilities Education Act", PUBLIC Law 100-360 and State of Illinois - State Board of Education mandates. The District, an EPSDT Medicaid Provider, is eligible to claim federal Medicaid funds for the health care services provided to students enrolled in Illinois' Medicaid - All Kids Program.

Medicaid is a governmentally funded program by the State of Illinois and the Federal Government. The Medicaid coverage has no lifetime cap on benefits and does not contain any pre-existing condition clauses or limitations. Eligibility to participate in the State's Medicaid program is based upon a family's income, absence of health insurance or limited coverage per a private health insurance plan. In addition, The District, as an EPSDT Medicaid Provider, serves as an administrative agent for HFS with the responsibility to encourage parents to explore the benefits of Medicaid coverage for their children.

Medicaid and Insurance: Parent Consent/Student Records

A school district may use Medicaid payments to assist in paying for the services a special education student receives. To receive Medicaid funding, the school district does not need parent consent provided that the parents are:

- informed that such information is being released by the school, and
- given the opportunity to request the information not be released.

The information the school district provides to the Illinois Department of Healthcare and Family Services ("IHFS") is subject to the Illinois School Student Records Act. This information includes the child's name, the types of services provided, and the dates of services. Such information is the type of directory information that the school may release without parent consent. Notification of the school district's intent to access Medicaid may be included in the district's directory policy information (such as a parent handbook) or they may send parents a letter. The school district must assure that the information provided to the IHFS is covered by the directory information notice given to parents. The district must have written consent from parents in order to use their private insurance.

Services required by an IEP must be provided at no cost to the child's parents, whether they have public or private insurance. Parents shall be notified that the use of their private insurance proceeds to pay for services is voluntary. In the case of a child who is dually insured (through private insurance and Medicaid), a family shall not be required to draw upon private insurance whose use is a prerequisite to billing Medicaid if that use of insurance will result in financial costs to the family.
