

Physical Examinations

For continuity of care, you are encouraged to use your private physicians for all required school physical examinations. All state-mandated physicals must be completed and turned in to the nurse's office by December 1st. Physicals done by the school physician must have a parent(s)/guardian(s) present. State forms are available at the Principal's office or the nurse's office. Physical examinations are required prior to initial enrollment and in grade 6. In addition, a physical examination is required to participate in interscholastic athletics. For interscholastic athletics to be considered current, the physical examination must be dated within one (1) year of the date of the first day of tryouts and then must be renewed annually as of that date to continue participation through the entire sport season. For convenience, it is suggested that the physical examination be done during the summer vacation in order that the physical examination be valid for all of the team sports for the entire school year.
