Field Reporters: Kadence Wheeler, Brookelyn Jett, Maci Osborne,
Jacob Long, Thad Leffler, and Ethan Holbert

WELCOME TO THE WAVERLY INTERMEDIATE TIGER TALES NEWSPAPER

Waverly Intermediate would like to introduce its first monthly newspaper researched and written by a staff of our very own fifth-grade students. Each student has been assigned a specific job for the newspaper and is responsible for interviews, research, artwork, or photography based on the assignment given. He or she has a deadline to complete the assignment after which the editor collects and assembles them into the newspaper you're reading now. This project is quite an undertaking for our students and we're proud to have them assuming these extra responsibilities for our school!

Pictured from left to right - front: Emma Hudnell, Jacob Long, Trinity Nichols, Shane Turner, Ethan Holbert, and Maci Osborne
back: Acey Gleason, Zandria Fitzpatrick, Kadence Wheeler, Brookelyn Jett, and Thad Leffler.
Absent from the photo is Mia Portillo.

SCHOOL NEWS

RED RIBBON WEEK

By Ethan Holbert - Field Reporter

Z.P. This is an interview of Mrs. Brenda Walls who is in charge of P.A.W.S. and Red Ribbon Week. When asked what P.A.W.S. stands for, she responded, "It stands for People Assisting Waverly Students." You might wonder, what is Red Ribbon Week about? Well, it's mostly about staying drug and alcohol free. Currently, Waverly High School has sixty-three members of P.A.W.S. You might also want to know when Red Ribbon Week starts on the Waverly campus. The answer is October 24 through October 28. We can't wait to begin the activities!

(P.A.W.S. members are currently planning daily activities for the students that will be shared with the Intermediate students later in the month.)

4-H TO BEGIN IN OCTOBER

By Brookelyn Jett - Field Reporter

Mrs. Prall is coordinating 4-H at the Intermediate school this year. We will have fifty students doing 4-H. There are seven teachers helping and six Bristol Villagers who volunteered. Students can be involved in cooking, knitting, quilting, airplanes, fitness, art, knots, gardening, and science. All of these activities provide learning opportunities for the kids. They will be held in the Intermediate classrooms after school beginning October 4 (from 3:15-4:00). The skills that can help you succeed in 4-H are: being responsible, completing the activities, volunteering, and being able to talk about your project. Last year was the first year for the program. We hope you will join 4-H.
