

Developmental Screening Consent Form

**A Great Start for Every Child in Genesee County:
Safe, Healthy and Ready to Succeed**

The Ages & Stages Questionnaire-3 (ASQ-3) and the Ages & Stages-Social Emotional (ASQ-SE) are screening tools that ask questions about your child's overall and social emotional development, looking at how children are progressing in the developmental areas of communication, physical ability, social skills and problem-solving skills.

These questionnaires are completed by you, the child's parent/guardian, and can help identify your child's strengths, as well as any areas where your child may need support. The screening should take about 10-20 minutes to answer questions about your child.

Your individual information is protected to ensure confidentiality. Information is entered on a web based database that is secure and password protected. Identifying information from the screening tool will be seen only by your child's teacher, your home visitor, or other staff your child is working directly with, who scores your screening and provides the results to you. If you have any questions about the screening and how the results will be used, please ask our staff.

General information about the ages and results of children's screening scores are compiled at the Genesee Intermediate School District in order to better understand the strengths and challenges of the children living in Genesee County.

I have read the above description and give Argentine Elementary Early Childhood Center and Great Start Genesee consent to screen my child(ren).
