If the product does not contain of the known nine allergens, but is made on the same line of potential for cross contact, or in the same facility with potential for cross contact we add at the end of the ingredient listing that it "May Contain" the allergen. Precautionary measures include through cleaning of our production lines and equipment, and strict separation of materials that contain the eight allergens.

The nine major food allergens are:

| 1. Dairy (milk) | 2. Eggs | 3. Wheat |
| 4. Soy | 5. Peanuts | 6. Tree Nuts |
| 7. Fish | 8. Shellfish (crustacean) | 9. Sesame |

For example, if the product does not contain nuts, but is made on the same line with potential for cross-contact, or in the same facility with potential for cross-contact, we add Made on shared equipment that processes nuts at the end of the ingredient listing. This item does not contain any peanuts or tree nuts and does not have may contain.
