USE OF ALCOHOL SENSORS

In keeping with its commitment to protect all pupils and the school community from the harm of alcohol use, the Board authorizes the Superintendent, Principals, and designee(s), to use a portable breath test (PBT) and passive breath alcohol sensor device (PBASD) to screen for evidence of breath alcohol.

The purpose for using a PBT and PBASD is to protect pupils who may be under the influence of alcohol, other pupils, staff and community members attending school events and to deter the use of alcohol by pupils. As PBT and PBASD implementation is intended primarily as a deterrent to student and youth alcohol use, nothing set forth in this policy precludes school district personnel from using the power of observation and professional judgment when there is reasonable suspicion of youth alcohol consumption.

The Board authorizes PBT and PBASD screening of students during the school day upon reasonable suspicion that a student may have consumed alcohol, and of

attendees before, during and after school activities/events including, but not limited to dances, athletic events, proms, class trips, drama productions, graduation ceremonies, or school assemblies.

Procedurally, district personnel will not vary from the normal course of action outlined in Policy JGD: Student Suspension or Expulsion when evidence of alcohol consumption is derived from a PBT, PBASD reading or personal observation.

If the PBT or PBASD screening indicates the presence of alcohol on District student, the matter shall be reported to the Principal or designee and law enforcement. District students violating this policy will be disciplined according to the discipline procedures outlined in this policy and other relevant policies. School age persons from other districts attending school and district sponsored events who are suspected of alcohol consumption will be reported to the Principal or designee and law enforcement.

The Board shall provide notices to students, staff, parents and guardians of this policy.
